violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. Hans Unterwiener, Manager, Freight Documentation and Inward Freight, Farrell Lines, Inc., 1 Whitehall Street, New York, NY 10004.

Agreement No. 10031, between Farrell Lines, Inc., and Zim Israel Navigation Co., Ltd., establishes a through billing arrangement on all cargo moving in the trade between the Liberian Ports of Buchanan, Sinoe, and Lofa River and U.S. Atlantic, Gulf and Great Lakes Ports with transshipment at Monrovia, Liberia, under terms and conditions set forth in the agreement. Agreement No. 10031 will, upon approval, cancel and supersede Agreements Nos. 9456 and 9459.

Dated: January 15, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-1341 Filed 1-22-73;8:45 am]

[Docket No. 73-2]

PLAZA PROVISION CO., INC., AND PUEBLO SUPERMARKETS, INC.

Order of Investigation Regarding Possible Violations

By our order of even date, we dismissed the complaint proceedings (Dockets Nos. 72-27 and 72-28) instituted by Maritime Service Corp. (MSC), which alleged that Plaza Provision Co., Inc. (Plaza) and Pueblo Supermarkets, Inc. (Pueblo), as consignees of cargo moving between the United States and Puerto Rico, violated section 16 of the Shipping Act, 1916, because of their refusal and failure to pay demurrage charges as provided in the carrier's tariffs. MSC requested that the Commission order respondents to cease and desist in violations of section 16, Shipping Act, 1916 (the Act), and to pay MSC the demurrage due and owing.

For reasons stated in the aforementioned order, we granted respondents' motion to dismiss.

Under the Shipping Act, 1916, the Commission may investigate any practices which may amount to a violation of the Act.

It has been alleged that the respondents not only have attempted to use coercive tactics to obtain reduction in their demurrage accounts (Pueblo and Plaza seek 20 percent and 10 percent reductions, respectively), but also that they conspired with other Puerto Rico shippers to boycott and otherwise obstruct payment to MSC of demurrage due and owing.

In addition, section 16, first paragraph, provides in part:

Sec. 16. That it shall be unlawful for any shipper, consignor, consignee, forwarder, broker, or other person, or any officer, agent, or employee thereof, knowingly and willfully, directly or indirectly, by means of false billing, false classification, false weighing, false report of weight, or by any other unjust or unfair device or means to obtain or attempt to obtain transportation by water for property at less than the rates or charges which would otherwise be applicable.

The Commission has determined that an investigation should be instituted to determine whether the allegations of respondents' refusal to pay demurrage charges due and owing; the incurring of a substantial demurrage account which is being used by respondents to coerce concessions and reductions in demurrage in that no payment will be had until a reduction is granted; conspiring with other Puerto Rico shippers to boycott and avoid payment to MSC; and the making of false claims and reports to MSC are practices in violation of section 16 of the Act.

Therefore, it is ordered, That pursuant to sections 16 and 22 of the Shipping Act, 1916, an investigation is hereby instituted to determine:

1. Whether the failure or refusal by respondents to pay demurrage constitutes the obtaining or an attempt to obtain transportation by water at less than the otherwise applicable rates and charges in violation of section 16 of the Act;

2. Whether respondents' alleged actions of incurring a substantial demurrage account to coerce concessions and reductions in demurrage contrary to the carriers' tariffs in that respondents refuse to pay any demurrage until the reduction is granted; conspiring with other Puerto Rico shippers to boycott and avoid payment to MSC; and the making of false claims and reports to MSC to avoid payment of lawful demurrage, are unjust or unfair devices or means prohibited by section 16 of the Act; and

It is further ordered, That Plaza Provision Co., Inc., and Pueblo Supermarkets, Inc., are hereby made respondents in this proceeding; and

It is further ordered, That this proceeding be assigned to an Administrative Law Judge, and that the hearing be held at a date and place to be determined and announced by the presiding Administrative Law Judge; and

It is further ordered, That notice of this order be published in the FEDERAL REGISTER; and

It is further ordered, That all persons (including individuals, corporations, associations, firms, partnerships and public bodies) having an interest in this proceeding and desiring to intervene therein, should notify the Secretary of the Commission immediately, and file petition for leave to intervene in accordance with Rule 5(L) of the Commission's rules of practice and procedure (46 CFR 502.72), with a copy to all parties to this proceeding;

And it is further ordered, That all future notices issued by or on behalf of the Commission in this proceeding shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-1342 Filed 1-22-73;8:45 am]

FEDERAL POWER COMMISSION

[Project No. 2317—North Carolina and Virginia]

APPALACHIAN POWER CO.

Notice of Availability of Draft Environmental Statement for Inspection

JANUARY 16, 1973.

Notice is hereby given that on January 22, 1973, as required by the Commission's rules and regulations under Order No. 415-C, a staff draft environmental statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 was placed in the public files of the Federal Power Commission. This statement deals with an application for license filed pursuant to the Federal Power Act by Appalachian Power Co. for the proposed Modified Blue Ridge Project.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office Building, 441 G Street NW., Washington, DC, and its New York regional office. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project would be a combined pumped-storage and conventional hydroelectric project located on the New River in Grayson, Carroll, and Wythe Counties, Va., and Ashe and Alleghany Counties, N.C.

The project would consist of: (1) The Upper Development with (a) a rockfill dam about 300 feet high and 1,700 feet long; (b) a spillway with crest at elevation 2,602 feet controlled by four tainter gates each 50 feet high by 50 feet wide; (c) a reservoir having a surface area of approximately 26,000 acres at elevation 2,652 feet containing 2,010,000 acre-feet of storage; (d) a gated intake works; (e) eight concrete-lined tunnels each 31 feet in diameter; (f) a powerhouse containing eight reversible pump-turbine units each with a rated generating capacity of 200,000 kilowatts at 230 feet net head; (g) two 31-mile 765 kilovolt single circuit transmission lines to a switching station to be located at Jacksons Ferry, Va.; and (h) appurtenant facilities. (2) The Lower Development with (a) a rockfill dam about 250 feet high and 2,000 feet long; (b) a spillway with crest elevation at 2,396 feet controlled by four tainter gates each 50 feet wide by 50 feet high; (c) a reservoir having a surface area of 14,400 acres at elevation 2,446 feet containing about 1,251,000 acre-feet of storage; (d) an intake that is integral with the dam near the right abutment; (e) two concrete-lined tunnels 27 feet in diameter; (f) a powerhouse containing two conventional units each with a rated generating capacity of 100,000 kilowatts at 204 feet net head; (g) a 4-mile 138 kilovolt double circuit transmission line to a switching station to be located near Fries, Va.; and (h) appurtenant facilities.

This proceeding has been reopened by order issued November 2, 1972, for further procedural implementation of the National Environmental Policy Act; however, this reopening is not for the purpose of receiving cumulative or repetitive evidence on issues already fully tried in this proceeding. Accordingly, any person desiring to present evidence regarding environmental matters which is not cumulative or repetitive must file with the Federal Power Commission a petition to intervene, unless such person has already filed such petition in this proceeding, and also file an explanation of their environmental position, specifying any difference with the environmental statement upon which the intervenor wishes to be heard. Written statements by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before March 12, 1973. The Commission will consider all responses to the statement.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7775]

APPALACHIAN POWER CO.

Notice of Extension of Time

JANUARY 16, 1973.

On January 8, 1973, Commission Staff Counsel filed a motion for resetting procedural dates established by order issued October 20, 1972. The motion states that the parties concur in the motion.

Upon consideration, notice is hereby given that the dates set forth in the order issued October 20, 1972, are modified as follows:

Staff Evidence Service Date, February 27, 1973.
Intervenor Evidence Service Date, March 20, 1973.
Company Rebuttal Service Date, April 3, 1973.
Prehearing Conference Date, March 27, 1973.
Hearing Date, April 17, 1973.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1235 Filed 1-22-73;8:45 am]

[Docket No. CP73-165]

ARKANSAS OKLAHOMA GAS CORP.

Notice of Application

JANUARY 16, 1973.

Take notice that on December 26, 1972, Arkansas Oklahoma Gas Corp. (Applicant), 115 North 12th Street, Fort Smith, AR 72901, filed in Docket No. CP73-165 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities required to purchase the production from one gas well located within approximately 2,600 feet of Applicant's present pipeline system in Le Flore County, Okla., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to construct and operate a 3½-inch outside diameter gathering line approximately 2,600 feet in length, together with necessary valves, fittings, and metering and regulating facilities, running from a gas well owned by Stephens Production Co. and located in section 14 of T. 9 N. of R. 25 E., Le Flore County, Okla., to a point of connection with Applicant's present facilities in sec. 14 of T. 9 N. of R. 25 E., Le Flore County, Okla. Applicant states that the additional gas supply to be obtained through the proposed facilities will be used to maintain service to Applicant's existing customers.

Applicant states that the facilities proposed to be constructed will not result in any increase in the delivery capacity of Applicant's presently authorized pipeline system and no new markets are proposed to be served. Applicant estimates the total cost of the proposed facilities to be $10,890. The cost will be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1236 Filed 1-22-73;8:45 am]

[Docket No. CP72-8]

COLUMBIA LNG CORP.

Notice of Filing of Notice of Withdrawal of Application

JANUARY 17, 1973.

Take notice that on December 14, 1972, Columbia LNG Corp. (Columbia), 20 Monchanin Road, Wilmington, DE 19807, filed in Docket No. CP72-8, pursuant to § 1.11(d) of the Commission's rules of practice and procedure, a notice of withdrawal of its application in said docket, all as more fully set forth in the notice of withdrawal which is on file with the Commission and open to public inspection.

Columbia, in its application filed July 21, 1971, in Docket No. CP72-8, which is currently pending before the Commission, requests authorization for the sale and delivery of synthetic pipeline quality gas at the tailgate of a reforming plant, which Columbia is building in Green Springs, Ohio, to Columbia Gas Transmission Corp. (Columbia Gas), an affiliated company. Columbia believes that in light of Commission Opinion No. 637, Algonquin SNG, Inc., et al., issued December 7, 1972, in Docket No. CP72-35, which holds that synethetic gas is not "natural gas" within the meaning of the Natural Gas Act, and that the facilities employed in the manufacture of synthetic gas, its transportation and sale in interstate commerce for resale, while unmixed with natural gas, are not within the Commission's jurisdiction, the relief requested in the pending application is outside the jurisdiction of the Commission. Therefore, Columbia requests to withdraw the application.

Columbia states that Columbia Gas is currently considering a restructing of the project with its customers and anticipates that Columbia Gas will file an appropriate certificate application with the Commission for the restructured project.

Columbia also requests that the record, testimony, and exhibits made in the present proceeding, that may be germane

V38-15 JAN 23 73 XUM

or material to Columbia Gas's application to be filed, be allowed to be incorporated in Columbia Gas' proceeding by reference.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than February 13, 1972, any views and comments in writing concerning the notice of withdrawal. An original and 14 conformed copies should be filed with the Secretary of the Commission. The Commission will consider all such written submittals before acting on the notice of withdrawal.

KENNETH F. PLUMB,
Secretary.

[Project 176; Dockets Nos. E-7562, E-7655]

ESCONDIDO MUTUAL WATER CO. ET AL.

Notice of Petition for Declaratory Order

JANUARY 12, 1973.

Escondido Mutual Water Co., Project No. 176; Secretary of the Interior Acting in his Capacity as Trustee for the Rincon, La Jolla, and San Pasqual Bands of Mission Indians v. Escondido Mutual Water Co. and city of Escondido, Calif., Docket No. E-7562; Vista Irrigation District, Docket No. E-7655.

Public notice is hereby given that the La Jolla, Rincon, and San Pasqual Bands of Mission Indians filed on November 22, 1972, a petition that the Federal Power Commission issue an order declaring the present use of Project No. 176 facilities by the Vista Irrigation District (Vista) in violation of the Federal Power Act and the Project No. 176 license. The Bands also requested the Commission to declare that the licensee, Escondido Mutual Water Co. (Mutual), by transporting water purchased from Vista through the Project No. 176 facilities violates the Federal Power Act. The Bands petitioned this Commission to order the licensee to refrain from transporting Vista's water or water purchased from Vista through the project works until Vista and the licensee secure the requisite authorization for such use of the licensed facilities.

The Bands' petition also requests that the Commission declare the licensee delegation of management and control of major portions of Project No. 176 facilities made pursuant to a contract dated November 10, 1922, concerning the "Joint Superintendent" as a violation of sections 8 and 4(e) of the Federal Power Act, and Article 22 of the Project No. 176 license, and that the proposed order return to the licensee all control of Project No. 176 facilities now under the supervision of the joint superintendent.

Any person desiring to be heard or to make protest with reference to the filing of this petition by the La Jolla, Rincon, San Pasqual Bands of Mission Indians should on or before February 26, 1973, file with the Federal Power Commission, Washington, D.C. 20426 petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The petition filed by these respective Bands of Indians is on file with this Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. CP73-45, etc.]

MICHIGAN WISCONSIN PIPE LINE CO. ET AL.

Notice Postponing Hearing

JANUARY 12, 1973.

Michigan Wisconsin Pipe Line Co., Docket No. CP73-45; Southern Natural Gas Co., Docket No. CP73-49; Florida Gas Transmission Co., Southern Natural Gas Co., Docket No. CP73-14.

On January 11, 1973, Commission Staff Counsel filed a motion to continue the hearing scheduled in the above matter by order issued on November 16, 1972. The motion states that the staff received the concurrence of all of the parties to the proceeding.

Upon consideration, notice is hereby given that the hearing fixed by order issued November 16, 1972, is postponed to January 31, 1973, at 10 a.m.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1241 Filed 1-22-73;8:45 am]

[Docket No. E-7950]

MINNESOTA POWER AND LIGHT CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 12, 1973.

Take notice that Minnesota Power and Light Co. (MP&L) tendered for filing on December 26, 1972, proposed changes in its FPC Rate Schedules Nos. 52 and 53. The filing consists of a letter amendment to MPL's Contracts Nos. 1 and 2 with Itasca Mantrap Cooperative Electrical Association. MP&L requests as an effective date the earliest date permitted under the Commission's regulations.

MP&L states that it does not anticipate any effect upon revenue by virtue of the amendment. Further, the above named contracts are subject to a 3-year notice of cancellation provision. In view of that provision and the possibility of increased rates during the three year period the parties agreed that any such increase during the period would not exceed 15 percent of the present rate level.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 31, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1242 Filed 1-22-73;8:45 am]

[Docket No. CI72-832]

MONSANTO CO. ET AL.

Notice of Petition To Amend

JANUARY 15, 1973.

Take notice that on January 3, 1973, Monsanto Co. (Operator) et al. (Petitioner), filed in Docket No. CI72-832 a petition to amend the order of the Commission issuing a certificate of public convenience and necessity in said docket to Harvey Broyles (Operator) et al., pursuant to section 7(c) and § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) by substituting Monsanto Company (Operator), et al., as the certificate holder, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

On June 15, 1972, Harvey Broyles (Operator) et al., was issued a limited-term certificate of public convenience and necessity in the subject docket authorizing the sale of natural gas for resale to United Gas Pipe Line Co. from the Bryceland Field, Bienville Parish, La., under the terms of a contract dated May 22, 1972, between the two parties. Although Petitioner herein did not sign the contract, which was originally filed in this docket, it requested that its share of the subject gas from the acreage be marketed under that contract. Petitioner states that it has now entered into a gas purchase contract with United identical in its terms with the original contract in this docket which it did not sign and that by a series of letter agreements the parties under the Harvey Broyles et al., contract have nominated Petitioner to succeed Harvey Broyles as Operator of the well from which gas is now being sold to United in the Bryceland Field. Petitioner requests that the certificate issued in Docket No. CI72-832 be amended to reflect itself as certificate holder and that the related rate schedule be redesignated accordingly.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1243 Filed 1-22-73;8:45 am]

[Docket No. CP73-181]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

JANUARY 15, 1973.

Take notice that on January 8, 1972, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP73-181 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to continue the sale of natural gas in interstate commerce to Arkansas Louisiana Gas Co. from the North Lansing Field, Harrison County, Tex., at the rate of 13.50895 cents per Mcf at 14.65 p.s.i.a heretofore authorized in Docket No. G-5709 to be made pursuant to Amoco Production Co. FPC Gas Rate Schedule No. 65, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 73-1244 Filed 1-22-73;8:45 am]

[Docket No. E-7930]

PORTLAND GENERAL ELECTRIC CO.

Notice of Filing of Initial Rate Schedule

JANUARY 15, 1973.

Take notice that Portland General Electric Co. (Portland), on January 2, 1973, tendered for filing an initial rate schedule entitled "Pacific-Portland Sales and Exchange Agreement" (Agreement). According to Portland's transmittal letter, the Agreement is between Pacific Gas and Electric Co. (Pacific) and Portland and provides for:

• • • Portland to make available to Pacific 450 million kw.-hr. of energy during the period of May 1, 1973, through August 31, 1973, and up to 500 mw. of capacity during the period May 16th through October 15th, beginning in 1975 and each year thereafter until termination. In addition, energy may be made available by Portland at various times as the parties may agree, or sold pursuant to capacity deliveries. During the summer of 1973, the rates to be charged are essentially 2 mills per kw.-hr. if surplus hydro or otherwise at cost to Portland. The rate for capacity shall be the prevailing rate for such service in the Pacific Northwest, which is currently $5 per kilowatt per season. The rates of other energy delivered under the Agreement shall be hydro prices if from hydro sources or otherwise at essentially incremental cost to Portland, or if from Portland's own thermal resources at 115 percent of incremental cost, but not less than 4 mills per kw.-hr. Hydro prices are based upon Bonneville Power Administration rate schedules as may be in effect from time to time.

Pacific will make available to Portland 450 million kw.-hr. during the period of October 1, 1973, through March 31, 1974, in exchange for that made available by Portland during the summer of 1973. Pacific will make available 200 mw. of capacity from November 1, 1973, through March 31, 1974, and 100 mw. of capacity from November 1, 1974, through March 31, 1975, in exchange for and credited against capacity to be made available by Portland under the Agreement. In addition, energy may be made available by Pacific at various times as agreed by the parties or sold pursuant to capacity deliveries. Rates to be charged by Pacific for energy are 115 percent for incremental cost, as defined, but not less than 4 mills per kw.-hr.

Portland also requests waiver of the Commission's prior notice requirements to permit the rate schedule to be effective as of August 25, 1972, the date the contract was executed.

The Company states that copies of the filing were served on Pacific and a Certificate of Concurrence, executed by Pacific, is attached to the filing.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection in the offices of the Federal Power Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1245 Filed 1-22-73;8:45 am]

[Docket No. E-7938]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Notice of Proposed Changes in Rates and Charges

JANUARY 12, 1973.

Take notice that Public Service Company of Oklahoma (PSCO) on October 28, 1972, tendered for filing copies of the PSCO letter agreement dated October 2, 1972, a supplement to FPC No. 118, with the Southwestern Electric Power Co. (Southwestern). PSCO also submitted copies of the certificate of concurrence of Southwestern dated October 12, 1972.

PSCO states that the letter agreement provides for the sale by PSCO of 150 mw. of capacity from its Northeastern Station Unit No. 2 to Southwestern for the 18-month period beginning December 1, 1972, and ending May 31, 1974.

PSCO says that the terms and conditions are based upon similar terms in Public Service Company Supplement No. 6 to Rate Schedule FPC No. 161 which is an agreement between PSCO and Kansas Gas & Electric Co. PSCO further states that the rates set forth in the letter agreement presented are similar to other transactions of this particular type in the area in which sold. PSCO contends that the rates are considered satisfactory by the purchaser for use in his system and are considered fully compensatory by PSCO as seller.

PSCO says that it desires to sell the 150 megawatts of capacity to reduce its excess reserves during the period and Southwestern desires to purchase the capacity for its use and so that Southwestern can in turn supply the needs of Arkansas Power & Light Co. PSCO contends that this letter agreement is contingent upon Southwestern entering into a satisfactory agreement with the Arkansas Power & Light Co. for making an equivalent amount of capacity and energy available to that company.

PSCO argues that the capacity is urgently needed in the Arkansas Power & Light system, and therefore PSCO proposes an effective date of December 1, 1972.

V38-15 JAN 23 73 XUM

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street, NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 22, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7940]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Notice of Proposed Changes in Rates and Charges

JANUARY 15, 1973.

Take notice that Public Service Company of Oklahoma (PSCO) on November 6, 1972, tendered for filing copies of the PSCO letter agreement dated September 18, 1972, a Supplement to Rate Schedule FPC No. 118 (accepted by Southwestern Electric Power Co. (Southwestern) on October 12, 1972, with Southwestern). PSCO also submitted copies of the certificate of concurrence of Southwestern dated October 16, 1972.

PSCO states that this letter agreement provides for the sale by PSCO of 30 mw. of capacity from its Northeastern Station Unit No. 2 to Southwestern for the 12-month period beginning January 1, 1973, and ending December 31, 1973.

PSCO says that the terms and conditions are based upon similar terms in Public Service Company Supplement No. 6 to Rate Schedule FPC No. 161, which is an agreement between PSCO and Kansas Gas & Electric Co., and are the same terms contained in a letter agreement of a 150 mw. sale between PSCO and Southwestern dated October 2, 1972. PSCO further states that the rates set forth in the letter agreement presented are also similar to other transactions of this particular type in the area in which sold. PSCO contends that the rates are considered satisfactory by the purchaser for use in his system and are considered fully compensatory by PSCO as seller.

PSCO says that it desires to sell the 30 megawatts of capacity to reduce its excess reserves during the period and Southwestern desires to purchase the capacity for its use.

So that delivery of the capacity and energy can start on January 1, 1973, under the terms of the letter agreement, PSCO requests that the Commission accept this letter agreement for filing with an effective date of January 1, 1973.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 22, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7804]

SOUTHWESTERN ELECTRIC POWER CO.

Notice of Application

JANUARY 16, 1973.

Take notice that on November 4, 1972, Southwestern Electric Power Co. (Applicant), filed an application pursuant to § 33.2 et seq. of the Commission's regulations seeking authority to sell electrical facilities to the city of Siloam Spring, Ark., for the sum of $135,000, pursuant to a written agreement between Applicant and the city of Siloam Spring, dated May 22, 1972.

Applicant is incorporated under the laws of the State of Delaware, with its principal business office at Shreveport, La. Applicant is engaged in the electric utility business in Louisiana, Arkansas, and Texas.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1248 Filed 1-22-73;8:45 am]

FEDERAL RESERVE SYSTEM

CHEMICAL NEW YORK CORP.

Order Approving Acquisition of Bank

Chemical New York Corp., New York, N.Y., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of State Bank of Hilton, Hilton, N.Y. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourth largest banking organization in New York, controls three banks with aggregate deposits of $8.6 billion representing approximately 9 percent of total deposits in commercial banks in the State.[1] Acquisition of Bank (deposits of $8.4 million) would not change applicant's statewide ranking nor significantly increase the concentration of banking resources in New York.

Bank is the 13th largest of 16 banks in the Rochester banking market, controlling less than one-half of 1 percent of total deposits in that market. (Banking data for the Rochester market are as of June 30, 1970.) Applicant's nearest banking subsidiary to Bank is approximately 325 miles distant and there is no significant existing competition between it or any other banking subsidiary of applicant and Bank. In view of the distances separating applicant's banking subsidiaries and Bank, and the fact that under New York State law applicant's subsidiaries are prohibited from branching into the Rochester market until 1976, such competition is unlikely to develop. Moreover, the introduction of applicant as a vigorous competitor into the Rochester market would be particularly beneficial in view of its concentrated nature (the four largest banking organizations control 92 percent of market deposits). Acquisition of Bank by applicant would also break an existing ownership tie between Bank and another bank located in the Rochester market, thereby providing an additional competitor. The Board concludes that consummation of the proposal would have no adverse effects on existing or potential competition.

The financial condition, managerial resources, and future prospects of applicant, its subsidiary banks, and Bank appear generally satisfactory and are consistent with approval of the application.

[1] All banking data are as of June 30, 1972, except where otherwise noted, and are adjusted to reflect bank holding company formations and acquisitions approved by the Board through Dec. 31, 1972.

Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application, since applicant through Bank will be able to provide additional services at a more convenient location for many customers in the Rochester area. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order, or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York, pursuant to delegated authority.

By order of the Board of Governors,[3] effective January 15, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1350 Filed 1-22-73;8:45 am]

FIRST NATIONAL BANK IN DALLAS

"Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of First National Bank in Dallas, Dallas, Tex.,[1] and an opportunity for interested persons to submit comments and views or request a hearing has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. First National Bank in Dallas, Dallas, Tex. (Registrant) (about $1.5 billion in deposits as of Dec. 31, 1971), became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of approximately 26 percent of Guaranty Bank, Dallas, Tex. (formerly South Oak Cliff Bank), which shares Registrant acquired in 1966 in the regular course of collecting a debt previously contracted. Guaranty Bank had total deposits of approximately $34 million as of June 30, 1972, representing 0.5 percent of the total commercial deposits in the Dallas banking market. The management, financial condition and prospects of Registrant and Guaranty Bank are regarded as satisfactory, and the Board has found no evidence of any unsound banking practices.

In addition, First National Bank in Dallas controls indirectly, through First National Securities Company in Dallas, Registrant's trusteed affiliate, stock interests ranging between 11 percent and 24.9 percent of each of 13 banks, all of which are located in the Dallas area. These banks control total deposits of approximately $266 million.

In addition to its commercial bank activities, Registrant, a national bank, has direct or indirect interests in a small business investment company, an Edge Act corporation, a data processing company, and a company engaged solely in the managing and servicing of buildings occupied or to be occupied wholly or substantially by Registrant. It appears that Registrant's interests in the small business investment company and the building management company were acquired prior to June 30, 1968, and have been held by Registrant continuously since that time; and these companies would be eligible for grandfather benefits.[2] However, the activities of these companies appear to be exempt, under provisions of section 4(c) of the Act, from the general prohibitions in section 4 against nonbanking interests of a bank holding company. On this basis, the Board finds that Registrant[2] does not need to rely on grandfather privileges under the proviso in section 4(a)(2) of the Act in order to continue such nonbanking activities; and the question of termination of grandfather privileges is moot.

Board of Governors, January 12, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1250 Filed 1-22-73;8:45 am]

FIRST NATIONAL FINANCIAL CORP.

Order Approving Acquisition of Bank

First National Financial Corp., Kalamazoo, Mich., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to First National Bank of Holland, Holland, Michigan (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the 11th largest banking organization in Michigan, controlling three banks with aggregate deposits of $306 million, representing 1.25 percent of the total deposits in commercial banks in the State.[1] Applicant's acquisition of Bank ($33.7 million in deposits) would increase Applicant's share of State deposits by approximately one-tenth of a percentage point to approximately 1½ percent, increase its rank among State banking organizations from 11th to 10th, and would not significantly increase the concentration of banking resources in the State.

Bank is the smallest of three banks located in the Holland, Mich., banking market controlling approximately 20 percent of total deposits in that area. Applicant's nearest subsidiary banking office is located more than 23 miles from Bank. Due to the distance separating the institutions, the presence of several banks

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

[1] First National Bank in Dallas does not control a bank with assets in excess of $60 million but is itself such a bank (assets of $2.1 billion as of Dec. 31, 1970).

[2] Registrant's interests in the Edge Act corporation and data processing company were acquired after June 30, 1968, and these companies would not be eligible for grandfather benefits. However, these companies may be eligible for retention under other provisions of section 4 of the Act.

[2] On Nov. 30, 1972, the Board approved the application of First International Bancshares, Inc., Dallas, Tex., to become a bank holding company through the acquisition of the successor by merger to Registrant and the successor by merger to Houston-Citizens Bank & Trust Co., Houston, Tex. (1972 Federal Reserve Bulletin 1028). The decision reflected herein is limited to the Board's review of the nonbanking activities of Registrant, and no decision is made at this time with respect to the applicability of any of the exemptions under the Act to First International Bancshares, Inc.

[1] All banking data are as of June 30, 1972, adjusted to reflect bank holding company formations and acquisitions approved by the Board through Dec. 31, 1972.

V 38 - 15 JAN 23 73 XUM

in the intervening area, and the State limitations on bank branching, it does not appear that any significant existing or potential competition between any of Applicant's existing or proposed [3] subsidiary banking offices and Bank would be eliminated upon consummation of this proposal.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks and Bank appear satisfactory and are consistent with approval of the application. Upon approval of this application, Applicant proposes to provide, through Bank, a broader program of time deposit accounts, extended banking hours, trust services, a credit card plan, more extensive loan services, and more agricultural loans. In view of the commercial and agricultural growth projected for the Holland area, the needs of area residents would be better served by the increased and improved services, particularly agricultural loans, that would be offered by Bank under Applicant's sponsorship. Accordingly, considerations relating to the convenience and needs of the communities to be served lend weight to approval of the application.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[2] effective January 15, 1973.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.73-1352 Filed 1-22-73;8:45 am]

GREAT AMERICAN CORP.

Order Approving Acquisition of Bell Finance Service

Great American Corp., Baton Rouge, La., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to indirectly acquire, through its subsidiary known as Ambank Acceptance Corporation, a portion of the assets of Bell Finance Service, New Orleans, La. (Company), a consumer finance company that engages in the activities of making or acquiring consumer loans and other extensions of credit. Applicant has also applied for permission to engage through Company, in the activity of acting as agent or broker in the sale of credit life, health, accident, and property damage insurance that protects the collateral in which Company has a security interest. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a) (1) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 35074). The time for filing comments and views has expired, and none have been timely received.

Applicant controls one bank with deposits of approximately $294 million, representing 3.7 percent of total deposits in commercial banks in the State. (All banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions approved by the Board through Dec. 31, 1972.)

Company has a consumer loan portfolio of 110 accounts aggregating $127,000. Applicant's subsidiary, Ambank Acceptance Corp., has consumer finance offices in Alexandria, Shreveport, Baton Rouge, and Metairie, La. Of these, only Applicant's Metairie office (consumer loan portfolio $45,778) is located in the same geographical area as Company. However, due to the differing economic and social environments of the areas served by the two offices, their small size, and the local nature of the consumer finance business, there is no significant competition between the two and none is likely to develop in the near future. Additionally, approximately 100 consumer finance companies with 187 offices compete in the New Orleans area and the Board concludes that consummation of the proposal would have no adverse effects on existing or potential competition.

Applicant's consumer finance subsidiaries and Company both sell credit life, health, and accident insurance in connection with loans they originate. Company also sells credit property damage insurance in connection with loans it originates. Due to the limited and local nature of the insurance activities engaged in by Applicant's subsidiaries and Company, it does not appear that operation of Company's insurance activities by Applicant would have any significant effect on either existing or potential competition.

There is no evidence on the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects on the public interest. Applicant's financial support of Company should result in greater availability of credit for area residents. Accordingly, the public benefits are consistent with approval. Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective January 15, 1973.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.73-1351 Filed 1-22-73;8:45 am]

PERPETUAL CORP. AND PIERCE NATIONAL LIFE INSURANCE CO.

"Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract, entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of Perpetual Corp. (Perpetual) and of Pierce National Life Insurance Co. (Pierce), both of Los Angeles, Calif., and an opportunity for interested persons to submit comments and views or request a hearing has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

[3] Applicant has an application pending to acquire the Commercial Bank of Strambaugh, Strambaugh, Mich.

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Danne, Brimmer, Sheehan, and Bucher.

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

On the evidence before it, the Board makes the following findings. Perpetual reports that it is a nonoperating holding company, with its only activity being that of holding stock of its subsidiaries. It owns 100 percent of the voting shares of Pierce, which is the immediate parent of Houston-Citizens Bank & Trust Co., Houston, Tex. (Houston-Citizens) (assets of about $228 million as of December 31, 1970).[1] On December 31, 1970, Perpetual and Pierce (Registrants) controlled directly or indirectly about 63 percent of the outstanding voting shares of Houston-Citizens and each became a bank holding company on that date as a result of the 1970 amendments to the Bank Holding Company Act. However, neither Perpetual nor Pierce would have been a bank holding company on June 30, 1968, if the 1970 amendments to the Act had been enacted on that date.

Section 2(b) of the Act defines "company covered in 1970" as a "company which becomes a bank holding company as a result of the enactment of the Bank Holding Company Act Amendments of 1970 and which would have been a bank holding company on June 30, 1968, if those amendments had been enacted on that date." Registrants owned only 24.86 percent of Houston-Citizens on June 30, 1968; and the enactment of the 1970 amendments on June 30, 1968, in itself would not have caused either Perpetual or Pierce to become a bank holding company or altered the status of either under the Act. Thus, neither Perpetual nor Pierce is a "company covered in 1970," and neither is entitled to grandfather benefits under section 4(a)(2) of the Act.

On the basis of the facts presented, the Board concludes that neither Perpetual nor Pierce is a "company covered in 1970"; that neither company is eligible for grandfather benefits; and that, on this basis, the question of the termination of grandfather privileges of either company is moot.

Board of Governors, January 12, 1973.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.73-1251 Filed 1-22-73;8:45 am]

SOUTHEAST BANKING CORP.

Order Approving Acquisition of Banks

Southeast Banking Corp., Miami, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of Bank of Florida at Fort Lauderdale (Florida Bank), and Bankers Bank of Florida (Bankers Bank), both located in Fort Lauderdale, Fla.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 19 banks with aggregate deposits of $1.3 billion, representing 7.8 percent of deposits in commercial banks in Florida. (Banking data are as of June 30, 1972, and reflect bank holding company formations and acquisitions approved through November 30, 1972.) The acquisitions of Florida Bank (deposits of $9.1 million) and Bankers Bank ($5.2 million) would increase applicant's share of statewide deposits by only 0.1 percentage point and would not result in a significant increase in the concentration of banking resources in Florida.

The banks proposed to be acquired are located in the North Broward-Fort Lauderdale banking market wherein applicant presently controls two banks with total deposits of $95 million, representing 6.9 percent of aggregate market deposits. Applicant ranks as the fifth largest of the 21 banking organizations in the market. The 38 market banks represent nine multibank holding companies, five banking groups, three one-bank holding companies, and four independent banks. Applicant's proposed acquisitions of the 31st and 33d largest banks in the market would increase its control of market deposits by only 1.1 percentage points.

Subject banks, located 4 miles apart in the city of Fort Lauderdale, do not compete significantly with each other, each drawing 1 percent or less of its deposits and loans from the service area of the other. Moreover, no significant competition exists between subject banks and applicant's two subsidiaries in the market, each of which draws less than 1 percent of its deposits and loans from the service areas of subject banks. It further appears that no significant amount of potential competition would be eliminated by consummation of the proposed acquisitions because of the number of banking alternatives which intervene these banking offices and in view of Florida's law restricting branching. De novo entry into the subject service areas appears unattractive at the present time. It is the Board's judgment that competitive considerations are consistent with approval of the applications.

The financial conditions and managerial resources of applicant, its subsidiary banks, as well as Florida Bank and Bankers Bank are regarded as generally satisfactory, and the future prospects of each appear favorable. Banking factors are consistent with approval of the application. Applicant proposes to assist Florida Bank and Bankers Bank in developing more aggressive lending operations. Applicant also proposes to provide Bankers Bank with trust services and to make available to both banks its central printing, advertising, data processing, and auditing departments, as well as provide a uniform insurance program. Considerations relating to the convenience and needs of the communities to be served are consistent with and lend some support toward approval of the applications.

On the basis of the record, the applications are approved for reasons summarized above. The transactions shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 15, 1973.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.73-1349 Filed 1-22-73;8:45 am]

UNITED BANKS OF COLORADO, INC.

Order Approving Acquisition of Bank

United Banks of Colorado, Inc., Denver, Colo., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of National Bank of Delta, Delta, Colo. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 12 banks with aggregate deposits of $781.6 million, representing 14.6 percent of commercial bank deposits in Colorado and is the second largest banking organization in the State. (All banking data are as of June 30, 1972, and reflect holding company acquisitions and formations approved through Nov. 30, 1972.) The acquisition of Bank (deposits of $5.3 million) would increase Applicant's share of State deposits by only 0.1 percent and it would remain the second largest banking organization in Colorado.

Bank is the smaller of two banks in Delta and is the second largest of five

[1] On Nov. 30, 1972, the Board approved the formation of First International Bancshares, Inc., Dallas, Tex. (First International); and approved Perpetual's application to acquire 7 percent of the voting shares of First International in exchange for Perpetual's shares of Houston-Citizens. (1972 Federal Reserve Bulletin 1028, 1034.) The president of Perpetual will serve as a director of First International. Because of this interlock between the transferor (Perpetual) and the transferee (First International), the transferred shares of Houston-Citizens will be deemed to be controlled by Perpetual (by virtue of section 2(g)(3) of the Act) and Perpetual will continue to be a bank holding company.

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

V38-15 JAN 23 73 XUM

banks, ranging in size from $3.2 million to $13.8 million in deposits, in Delta County. Bank controls 16.5 percent of deposits in Delta County which approximates the relevant market. Delta is located on Colorado's "Western Slope".[1] Applicant has two existing banking subsidiaries on the Western Slope, both in markets adjacent to Delta County. These banks located in Montrose and Grand Junction are approximately 20 and 40 miles away respectively from Bank. Approval of the application would not eliminate any significant direct competition between these banks and Bank or between any other of Applicant's banking subsidiaries and Bank. In the absence of the proposal, competition is unlikely to develop between Bank and any of Applicant's present banking subsidiaries in view of the distances separating them and Colorado's restrictive branching law. Although Applicant could enter the Delta County area through the formation of a de novo bank, the likelihood of such entry is considered remote at this time because of the size of the County and its decline in population as well as other facts of record. Affiliation with Applicant may spur competition between Bank and the other bank in Delta which is 2½ times the size of Bank without adversely affecting other banks in the market. Accordingly, competitive considerations are regarded as consistent with approval.

The financial and managerial resources and prospects of Applicant, its banking subsidiaries, and Bank appear to be generally satisfactory considering Applicant's commitment to augment the capital position of certain of its banking subsidiaries. Although approval of the application would not result in any new services in the area, it is likely that Bank will improve and expand the number of services it presently offers. Bank also will utilize the computer services of Applicant which is likely to result in increased efficiency and accuracy in account processing at the Bank. Considerations related to the convenience and needs of the communities involved lend some support for approval of the application. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) on or before February 9, 1973, or (b) later than April 10, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

[1] The 21-county area of western Colorado separated from the remainder of the State by the north-south tier of the Rocky Mountains.

By order of the Board of Governors,[2] effective January 10, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR PLANNING AND INSTITUTIONAL AFFAIRS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given that a meeting of the Advisory Committee for Planning and Institutional Affairs will be held at 9 a.m. on February 1, 1973, in Room 540, 1800 G Street NW., Washington, DC 20550. The purpose of this committee is to provide advice and recommendations to the National Science Foundation concerning planning, evaluation, and policy study activities within NSF (with the exception of NSF internal long-range program estimates); and the impact of actual and proposed Foundation programs on the effectiveness and integrity of academic and other institutions performing research, viewed as a whole.

The agenda for this meeting will include:

1. Introduction and opening remarks by the Assistant Director for Administration and the Chairman of the Committee.

2. Review and discussion of two draft issue papers developed by members of the Committee.

[2] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Sheehan and Bucher. Absent and not voting: Chairman Burns and Governor Brimmer.

3. Period devoted to public discussion (one-half hours).

4. Concluding remarks by the Chairman of the Committee and the Assistant Director for Administration.

The meeting will be open to the public and persons who desire to attend should notify Mrs. Mary L. Parramore, Office of the Assistant Director for Administration, by telephone (202—632-4050) or by mail (Room 426; 1800 G Street NW., Washington, DC 20550) prior to the meeting.

For further information concerning this committee, contact Mrs. Mary L. Parramore, Office of the Assistant Director for Administration, Room 426; 1800 G Street NW., Washington, DC 20550. Summary minutes of this meeting may be obtained from the Management Analysis Office; Room K-720; 1800 G Street NW., Washington, DC 20550.

T. E. JENKINS,
Assistant Director for Administration.

JANUARY 16, 1973.

ADVISORY PANELS

Notice of Meetings

Pursuant to the Federal Advisory Committee Act (Public Law 92-463) notice is hereby given of meetings of the following committees, including the individuals to contact for further information respecting each committee. The purpose of each of these advisory bodies is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

ADVISORY PANEL FOR HUMAN CELL BIOLOGY

Date and Time of Meeting: 9 a.m. on January 25, 1973.

Location of Meeting: Asilomar Conference Center; 800 Asilomar Boulevard; Pacific Grove, CA 93950.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For Further Information, Contact: Dr. Herman W. Lewis, Program Director, Human Cell Biology Program; Division of Biological and Medical Sciences; Room 325; 1800 G Street NW., Washington, DC 20550.

ADVISORY PANEL FOR ENVIRONMENTAL BIOLOGY

Date and Time of Meeting: 9 a.m. on January 25 and 26, 1973.

Location of Meeting: Room 328; 1800 G Street NW., Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For Further Information, Contact: Dr. John L. Brooks, Program Director, General Ecology Program; Division of Biological and Medical Sciences; Room 330; 1800 G Street NW., Washington, DC 20550.

INTERNATIONAL DECADE OF OCEAN EXPLORATION PROPOSAL REVIEW PANEL

Date and Time of Meeting: 8:30 a.m. on February 6 and 7, 1973.

Location of Meeting: Room 642; 1800 G Street NW., Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of proposals or projects.

For Further Information, Contact: Mr. Feenan D. Jennings, Office Head, Office for the International Decade of Ocean Exploration; Room 710; 1800 G Street NW., Washington, DC 20550.

ADVISORY PANEL FOR PSYCHOBIOLOGY

Date and Time of Meeting: 9 a.m. on February 8 and 9, 1973.

Location of Meeting: Room 338; 1800 G Street NW., Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For Further Information, Contact: Dr. Henry S. Odbert; Program Director, Psychobiology Program; Division of Biological and Medical Sciences; Room 333; 1800 G Street NW., Washington, DC 20550.

These meetings will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated January 15, 1973, pursuant to the provisions of Section 10(d) of the Federal Advisory Committee Act.

T. E. JENKINS,
Assistant Director for Administration.

JANUARY 16, 1973.

SECURITIES AND EXCHANGE COMMISSION

[812-3232]

AMERICAN LEADERS FUND, INC. ET AL.

Notice of Application for an Order Exempting Applicants From Provisions

JANUARY 15, 1973.

Notice is hereby given that American Leaders Fund, Inc. (Leaders Fund), and Fund for U.S. Government Securities, Inc. (U.S. Fund) (collectively referred to hereinafter as "Funds"), 421 Seventh Avenue, Pittsburgh, PA 15219, both diversified, open-end management investment companies registered under the Investment Company Act of 1940 (Act), and Federated Securities Corp. (Federated), the principal underwriter for the Funds (hereinafter collectively called "Applicants"), have filed an application pursuant to section 6(c) of the Act for an order exempting Applicants from the provisions of section 22(d) of the Act and Rule 22d-1 thereunder. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations made therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current public offering price as described in the prospectus. The prospectuses of each of the Funds state that there is a sales commission on the purchase of shares of such Funds. U.S. Fund invests only in securities which are obligations of the U.S. Government or its instrumentalities. Leaders Fund invests in securities from among the 100 blue chip companies contained in "The Leaders List," created by Federated Research Corp.

The Funds propose to sell their shares at the net asset value to persons who have redeemed all or part of their shares and who have not previously exercised the reinvestment privilege. The sale will be limited to the exact amount of the redemption proceeds (or to the nearest full share if fractional shares are not purchased). A written order to purchase the shares must be received by the Fund, Securities, or the Custodian Bank, or be postmarked, within 15 days after the request for redemption was received. The purchase will be made at the net asset value per share next determined after receipt of the order. No sales commission will be received by Securities on such purchase, nor will any salesman of Securities receive a commission.

The Funds also propose to allow shareholders of Empire Fund, Inc., Third Empire Fund, Inc., Fourth Empire Fund, Inc., Fifth Empire Fund, Inc., Sixth Empire Fund, Inc., Presidential Exchange Fund, Inc., Second Presidential Exchange Fund, Inc., and Fifth Presidential Fund, Inc. (Exchange Funds) who have redeemed all or a part of their investments to purchase shares of the Funds at net asset value without a sales charge. The sale will be limited to an amount up to the amount of the redemption proceeds (or to the nearest full share if fractional shares are not purchased). The Exchange Funds are registered open-end diversified management investment companies which are not currently engaged in a continuous offering of their shares. The Exchange Funds and the Funds have as their investment adviser, Federated Research Corp.

The initial portfolios of the Federated Exchange Funds were acquired in a tax-free exchange of fund shares, less sales charges paid, for securities deposited by investors. Due to the absence of effective registration statements on the part of the Exchange Funds, they cannot offer their shareholders any reinvestment privileges. It is believed that shareholders of these Exchange Funds, who have also paid a sales charge on their investments, should be permitted to rectify an improvident redemption by being permitted to reinstate their investment in a different investment medium without being required to pay an additional sales charge.

Redeeming shareholders of the Exchange Funds who wish to exercise the requested reinvestment privilege will be bound by the policies in effect for the Exchange Funds regarding redemptions. These policies generally prescribe that redemptions will be made in kind. However, this is qualified by the fact that redemptions dealing with small amounts are honored with cash on hand in the Exchange Funds' custodian accounts. U.S. Fund and Leaders Fund will issue their respective fund shares only for cash or its equivalent or securities suitable for the respective funds' portfolios.

V 38 - 15 JAN 23 73 XUM

Applicants state that to advise investors of the privilege, Securities may, at its expense, include with the redemption check a letter containing information pertinent to redemption and the repurchase privilege. The letter will include information as to ways in which various objectives which may have induced the shareholder to redeem could be realized through utilization of the shares upon their repurchase. Telephone calls to such shareholders are also contemplated.

Applicants assert, among other things, that because the privilege can be exercised only once, the prohibition on wire redemption requests and wire orders, and the short time within which the shareholder can re-invest without a sales charge, the proposed privilege does not afford a method of "playing" the market.

Section 6(c) of the Act provides, in pertinent part, that the Commission may, upon application, conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given, that any interested person may, not later than February 7, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located over 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3365]

BLYTH EASTMAN DILLON & CO. INC.

Notice of Filing of Application for an Order of Exemption

Notice is hereby given that Blyth Eastman Dillon & Co., Inc. (Applicant), 14 Wall Street, New York, NY 10005, a registered broker-dealer corporation with its principal office at 14 Wall Street, New York, NY 10005, in connection with a proposed public offering of shares of common stock of Montgomery Street Income Securities, Inc. (the Company), a registered, closed-end, diversified management investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicant and its co-underwriters from section 30(f) of the Act to the extent that such section adopts section 16(b) of the Securities Exchange Act of 1934 (Exchange Act) with respect to their transactions incidental to the distribution of Company shares. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant, du Pont Glore Forgan, Inc. (1 Wall Street, New York, NY 10004), Salomon Brothers (1 New York Plaza, NY 10004), and Dean Witter & Co., Inc. (120 Broadway, New York, NY 10005) are the prospective representatives (Representatives) of a group of underwriters (Underwriters) being formed in connection with the above public offering.

Shares of the Company are to be purchased by the Underwriters pursuant to an Underwriting Agreement to be entered into between the Underwriters, represented by the Representatives, and the Company. It is also contemplated that one or more dealers will offer and sell certain of the shares. It is intended that several Underwriters will make a public offering of all the Company shares which such Underwriters are to purchase under the Underwriting Agreement at the price therein specified, as soon on or after the effective date of the Company's Registration Statement on Form S–4 (the Registration Statement) as the Representatives deem advisable, and such shares are initially to be offered to the public at a per share public offering price and subject to underwriting commissions to be specified in the prospectus incorporated in the Registration Statement at the time the Registration Statement becomes effective under the Securities Act of 1933. Although 4 million shares have been included for registration in the Registration Statement, the actual number of shares which may be the subject of the proposed public offering may be decreased by the Representatives and the Company shortly before the effective date of the Registration Statement and the proposed public offering, depending upon market conditions and the exercise of an overallotment election granted to the Underwriters.

Applicant states that it is possible that the underwriting commitment of any one or more of the Underwriters, including each of the Representatives, will exceed 10 percent of the aggregate number of shares of the Company's Common Stock to be outstanding after the purchase by the several Underwriters pursuant to the Underwriting Agreement or upon the completion of the initial public offering or at some interim time. Since section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Exchange Act with respect to the transactions in the securities of the Company, such Underwriter or Underwriters would become subject to the filing requirements of section 16(a) of the Exchange Act and, upon resale of the shares purchased by them to their customers, subject to the obligations imposed by section 16(b) of the Exchange Act.

Rule 16b–2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) thereof. Applicant states that the purpose of the purchase of the shares by the Underwriters will be for resale in connection with the initial distribution of the shares. Applicant states that such purchases and sales, therefore, will be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b–2.

Applicant states that it is possible that one or more of the Underwriters, through their participation in the distribution of the Company's shares, may not be exempted from section 16(b) of the Exchange Act by the operation of Rule 16b–2; they may fail to meet the requirement stated in Rule 16b–2(a)(3) that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the participation of persons receiving the exemption under Rule 16b–2 since it is possible that one or more of the Underwriters who, pursuant to the Underwriting Agreement, will purchase more than 10 percent of the shares of the Company may be obligated to purchase more than 50 percent of the shares of the Company being offered.

In addition to purchases of shares from the Company and sales of shares to customers, there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, purchases to cover overallotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

Applicant states that there is no inside information in existence since the Company, prior to the initial distribution of the shares, will have no assets, other than cash, or business of any sort, and all material facts with respect to the Company will be set forth in the Prospectus pursuant to which the shares will be offered and sold. No director or officer of Applicant, du Pont Glore Forgan, Inc., Salomon Brothers or Dean Witter & Co., Inc., is a director or officer of either the Company or BA Investment Management Corp., the Company's investment adviser (the Adviser), and Applicant states that it does not anticipate that any partner, director or officer of any other Underwriter or Selected Dealer which may be an Underwriter, will be a director or officer of the Company or the Adviser.

Applicant submits that the requested exemption from the provisions of section 30(f) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant further contends that the transactions sought to be exempted cannot lend themselves to the practices section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from the provisions of the Act and rules and regulations promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 25, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said Application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.73-1268 Filed 1-22-73;8:45 am]

[File No. 500-1]

FIRST LEISURE CORP.

Order Suspending Trading

JANUARY 15, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.10 par value and all other securities of First Leisure Corp., being traded otherwise than on a national securities exchange, is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from January 16, 1973, through January 25, 1973.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.73-1281 Filed 1-22-73;8:45 am]

[812-3313—812-3314]

PLIGROWTH FUND, INC. ET AL.

Notice of Applications for Orders Exempting Applicants

JANUARY 15, 1973.

Notice is hereby given, that Pligrowth Fund, Inc., and Hedberg & Gordon Fund, Inc., (Funds), open-end diversified management investment companies registered under the Investment Company Act of 1940 (Act), and One Eleven Distribution Co. (Underwriter), 111 North Broad Street, Philadelphia, PA 19107, the principal underwriter for the Funds (herein collectively called "Applicants") have filed applications pursuant to section 6(c) of the Act for orders of the Commission exempting Applicants from section 22(d) of the Act. All interested persons are referred to the applications on file with the Commission for a statement of the representations made therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current offering price described in the prospectus.

Applicants propose to offer to persons who have caused their shares of either of the Funds to be redeemed the privilege of being able to reinstate their accounts without any sales charges. In order to be eligible for such privilege, an investor must not previously have exercised the privilege. Reinstatement, or the purchase of shares of a Fund pursuant to the privilege, will be limited to not more than the amount of the redemption proceeds (or, if fractional shares are not purchased, to an amount necessary to purchase the nearest full share). A written order to purchase the shares must be received by the Fund or the Underwriter or be postmarked within 15 days after the date the request for redemption was received. The reinstatement will be made at the net asset value next determined after notice of the exercise of the privilege is received. Salesmen of shares of the Fund involved would receive no compensation of any kind in connection with the reinvestments.

It is contemplated that the Underwriter, at its expense, will include with the redemption check, mailed to a redeeming shareholder, a copy of the current prospectus (unless the shareholder already has one) and a letter containing information pertinent to redemption and the repurchase privilege. Telephone calls to redeeming shareholders are also contemplated.

Applicants contend that the proposed privilege will enable investors to be reminded of features of their investment which they may have overlooked, or of which they may have misunderstood at the time they redeemed, and that in order to minimize the possibility of shareholder abuse through speculation on a possible short-term decline in the net asset value of the Fund's shares, the reinvestment privilege is being offered on a one-time basis and must be exercised within a relatively short period of time.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 8, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued

V 38 - 15 JAN 23 73 XUM

by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3348]

STATE MUTUAL SECURITIES, INC., AND STATE MUTUAL LIFE ASSURANCE COMPANY OF AMERICA

Notice of Filing of Application for Order

JANUARY 15, 1973.

State Mutual Life Assurance Company of America (Insurance Company) and State Mutual Securities, Inc., (Fund), 440 Lincoln Street, Worcester, MA 01605, a closed-end investment company registered under the Investment Company Act of 1940 (Act) (collectively applicants), have filed an application for an order pursuant to section 17(d) of the Act and Rule 17d-1 thereunder to permit an arrangement whereby Insurance Company will invest concurrently with Fund in each issue of securities purchased by the Fund in direct placement. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Insurance Company will be Fund's investment adviser and Colonial Management Associates, Inc. (Colonial), a subsidiary of Insurance Company, will act as sub-adviser to advise Fund with respect to management of its publicly traded securities. The Fund has a primary objective of providing a high rate of current income and with capital appreciation as a secondary objective. In seeking these objectives, Fund intends to invest primarily in fixed-income securities, including those with equity participation features, and may invest up to 50 percent of its total assets in restricted securities acquired through direct placements (25 percent in such securities without equity participation).

According to the report filed with the Insurance Department of Massachusetts, Insurance Company had as of December 31, 1971, total assets of approximately $1.3 billion, including investments of $504 million in corporate debt securities and $107 million in common stocks; approximately 70% of the corporate debt securities owned by Insurance Company were acquired in direct placements.

Rule 17d-1 adopted by the Commission under section 17(d) of the Act provides that "no affiliated person of • • • any registered investment company • • •, acting as principal, shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement or profit-sharing plan in which any such registered company • • • is a participant, and which is entered into, adopted or modified subsequent to the effective date of this rule, unless an application regarding such joint enterprise, arrangement or profit-sharing plan has been filed with the Commission and has been granted by an order entered • • • prior to such adoption or modification • • •." It is also provided that in passing upon such application, the Commission will consider whether a participation of such registered or controlled company in such joint enterprise, joint arrangement, or profit-sharing plan, on the basis proposed, is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

If the order requested by Applicants is granted by the Commission, Insurance Company will invest concurrently with Fund in each issue of securities purchased by Fund at direct placement and will exercise warrants, conversion privileges and other rights at the same time and in the same amount, subject to the following conditions:

(1) Each investment will be made by Insurance Company and Fund at the same unit price in securities of the same class (except that Insurance Company's investment may include non-voting securities which are, except for voting rights, identical with those purchased by Fund).

(2) Unless otherwise permitted by order of the Commission, Insurance Company will invest an amount equal to the amount invested in the issue by Fund, and Insurance Company and Fund will exercise warrants, conversion privileges and other rights at the same time and in the same amount.

(3) All securities which Insurance Company is prepared to purchase at direct placement and which would be consistent with the investment policies of Fund will be shared equally by the Insurance Company and Fund unless:

(a) In the judgment of Fund's Board of Directors, concurred in by a majority of those Directors who are not "interested persons" (as defined in the Act) of Insurance Company or Colonial, (i) either (A) 42 percent or more by value of the assets of Fund are invested, in accordance with the investment policies of Fund, in long-term debt obligations or preferred stocks purchased directly from the issuers or in equities acquired either in connection with such purchases or as a result of the exercise of rights or other options so acquired, or (B) if the security to be so purchased is a long-term debt obligation or preferred stock without equity participation, 21 percent or more by value of the assets of Fund are invested, in accordance with the investment policies of Fund, in long-term debt obligations and preferred stocks purchased directly from the issuers which do not have equity participation, (ii) there is insufficient cash to make the investment and (iii) the sale of portfolio securities of Fund to provide such cash is inadvisable.

(b) The purchase by Fund would be inconsistent with the provisions of any Commission order granted on this Application or otherwise and then in effect, or

(c) The Commission by order otherwise permits.

(4) Neither Insurance Company nor Fund, unless otherwise permitted by order of the Commission, will have any prior interest in the issuer, in any affiliated person of the issuer, or in securities issued by such issuer or affiliated person other than interests in all respects identical.

(5) Neither Insurance Company nor Fund, unless otherwise permitted by order of the Commission, will acquire any further interest in the issuer or in any affiliated person of the issuer or in securities issued by such issuer or affiliated person other than interests in all respects identical.

(6) Neither Insurance Company nor Fund will, unless otherwise permitted by order of the Commission, sell, exchange or otherwise dispose of any interest in any security of a class held by Fund unless each makes such disposition at the same time, for the same unit consideration and in the same amount (each in the same proportion to the amount it holds if the amounts held by each are different).

(7) The expense, if any, of the distribution of securities registered for sale under the Securities Act of 1933 and sold by Insurance Company and Fund at the same time will be shared by Insurance Company and Fund in proportion to the amount each is selling.

Notice is further given that any interested person may not later than February 8, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address set forth above. Proof of such service (by affidavit or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

CLINTON OIL CO.

Order Suspending Trading

JANUARY 16, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $.03⅓ par value, and all other securities of Clinton Oil Co., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from January 17, 1973, through January 26, 1973.

By the Commission.

ELECTRONICS INTERNATIONAL CAPITAL, LTD.

Notice of Filing of Application for Order Declaring Company Has Ceased To Be an Investment Company

JANUARY 16, 1973.

Notice is hereby given that Electronics International Capital, Ltd., c/o Charles T. Collis, Esq., Messrs. Conyers, Dill & Pearman, Bank of Bermuda Building, Hamilton, Bermuda (Applicant), a closed-end nondiversified management investment company registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was organized on July 26, 1960, pursuant to a Special Act of the Parliament of Bermuda. On August 1, 1960, Applicant filed an application for registration under section 7(d) of the Act and the Commission issued an order on September 16, 1960, permitting such registration under the Act. On that same date Applicant registered under the Act by filing a notification of registration on Form N-8A. Applicant also filed a registration statement on Form N-8B-1 pursuant to section 8 of the Act and a registration statement on Form S-4 pursuant to section 5 of the Securities Act of 1933 (Securities Act). On October 25, 1960, the registration statement under the Securities Act became effective and a public offering of Applicant's shares was made.

On June 22, 1965, the shareholders of applicant approved (a) the sale of substantially all of applicant's assets to Marathon Securities Corp. (Marathon), a Delaware corporation wholly owned by the applicant, in exchange for shares of Common Stock of Marathon (on the basis of a one-for-four reverse split) and (b) the liquidation and winding-up of applicant, the appointment of a liquidator under Bermuda law, and the distribution of the stock of Marathon to applicant's shareholders. The sale of applicant's assets to Marathon was consummated on July 28, 1965.

As a result of this transaction, applicant represents that it is no longer engaged in the business of an investment company, is not presently engaged in any activity except limited activities in connection with its liquidation, and is in the process of preparing and filing documents necessary for its dissolution under the laws of Bermuda.

Section 8(f) of the Act provides, in pertinent part, that when the Commission finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than February 9, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing on the application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

NEW ENGLAND MUTUAL LIFE INSURANCE CO. ET AL.

Notice of Application for Order Exempting Applicants

JANUARY 16, 1973.

Notice is hereby given that New England Mutual Life Insurance Co. (Insurance Company), New England Life Variable Annuity Fund I, 501 Boylston Street, Boston, MA 02117 (Fund) and NEL Equity Services Corp. (Nelesco) (hereinafter collectively called "Applicants") have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicants from section 22(d) of the Act to the extent specified therein. The Insurance Company is a Massachusetts mutual life insurance company. The Fund, an open-end diversified management company registered under the Act, was established by the Insurance Company in connection with the offering to the public of individual variable annuity contracts issued in connection with plans meeting the requirements of the Internal

V38-15 JAN 23 73 XUM

Revenue Code for tax-benefited treatment. Nelesco, a wholly owned subsidiary of the Insurance Company, is the principal underwriter for the Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus.

Applicants state that in connection with the sale of variable annuity contracts of the single purchase payment type, deductions from the single purchase payment are made as follows: 6 percent of the first $5,000, 3.75 percent of the next $95,000 and 1.75 percent of any balance, for sales expenses, and 2 percent of the first $5,000 and .25 percent of any balance, for administrative expenses.

Applicants request an exemption from section 22(d) of the Act to the extent necessary to permit the elimination of the charge for sales expenses when a single purchase payment variable annuity contract is purchased by application of amounts payable under group annuity contracts, related to separate accounts which are excluded from the definition of "investment company" by the Act, of every kind issued by the Insurance Company in connection with retirement plans qualified under section 401(a) or 403(a) of the Internal Revenue Code. In such situations Applicants propose to make the usual deduction for administrative expenses but to eliminate the sales charge.

Applicants assert that since the premiums paid on such group annuity contracts will have already been subjected to expense loading which usually reflect substantial sales commission costs, and since no compensation will be paid to Nelesco or any sales representative in connection with the application of the proceeds of such group annuity contracts to purchase single purchase payment individual variable annuity contracts, the proposed exemption does not involve unfair discrimination and is in fact necessary to avoid the imposition of sales charges which are unfairly detrimental to this class of purchasers. Applicants further assert that since a secondary market in variable annuity contracts is not possible, the proposed exemption presents no danger of disrupting the orderly pattern of mutual fund distribution which Section 22(d) seeks to preserve. Accordingly, Applicants assert that the requested exemption is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any persons or transactions from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 9, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in the matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30—Region X; Amdt. 1]

CHIEF AND ASSISTANT CHIEF, REGIONAL FINANCING DIVISION ET AL.

Delegation of Authority To Conduct Program Activities in Region X

Delegation of Authority No. 30—Region X (37 FR 17628), is hereby amended by revising part I, section A, 3a and 3b; section B, 1a, 3a, 3b, and 3c; and parts II and VIII in their entirety. This amendment more clearly defines certain authorities; eliminates references to class B disasters; and includes authority to contract for local credit bureau services and loss verification services.

Parts I, II, and VIII are revised to read as follows:

PART I—FINANCING PROGRAM

SECTION A. Loan Approval Authority.

* * * * *

3. *Displaced business and other economic injury loans.* a. To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

(1) Chief and Assistant Chief Regional Financing Division	$1,000,000

b. To approve or decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA) shares):

(1) Regional Supervisory Loan Officer	$100,000
(2) District Director	1,000,000
(3) Chief, District Financing Division	350,000
(4) Branch Manager, Fairbanks Branch Office	350,000

SEC. B. *Other Financing Authority*—1. *Loan Participation Agreements.* a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loan participation agreements with banks:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) Regional Supervisory Loan Officer.
(3) District Director.
(4) Chief, District Financing Division.
(5) Branch Manager, Fairbanks Branch Office.

* * * * *

3. *Cancel, reinstate, modify, and amend authorizations.* a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loans:

(1) District Director.
(2) Branch Manager, Fairbanks Branch Office.

b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational health and safety, coal mine health and safety, and strategic arms limitation economic injury loans:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) Regional Supervisory Loan Officer.
(3) Chief, District Financing Division.
(4) Branch Manager, Fairbanks Branch Office.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational safety and health and strategic arms limitation economic injury loans personally approved under delegated authority: None.

* * * * *

PART II—DISASTER PROGRAM

SECTION A. *Disaster Loan Authority.* 1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disaster) except to the extent of refinancing of a previous SBA disaster loan:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) District Director.
(3) Chief, District Financing Division.
(4) Disaster Branch Managers as assigned.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters), in any amount and to approve such loans up to the total SBA funds of $50,000:

(1) Supervisory Loan Officer, Regional Financing Division.

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

(1) Chief & Assistant Chief, Regional Financing Division	$1,000,000
(2) Supervisory Loan Officer, Regional Financing Division	100,000
(3) District Director	1,000,000
(4) Chief, District Financing Division	350,000
(5) Branch Manager, Fairbanka Branch Office	350,000
(6) Disaster Branch Managers as assigned	1,000,000

4. To appoint as a processing representative any bank in the disaster area:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) District Directors.
(3) Branch Manager, Fairbanks Branch Office.
(4) Disaster Branch Manager as assigned.

5. To approve or reject the request of an applicant to file for a disaster loan after the period for acceptance under the original disaster declaration, or extension thereof, has expired:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) District Director.

SEC. B. *Administrative Authority*—1. *Establishment of Disaster Field Offices.* a. To establish field offices upon receipt of advice of the designation of a disaster area; and to close disaster field offices when no longer advisable to maintain such offices:

(1) Chief and Assistant Chief, Regional Financing Division.
(2) District Director.
(3) Disaster Branch Managers as assigned.

b. To obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space:

(1) Regional Chief, Administrative Division.

2. *Purchase and Contract Authority.* a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in sections 257 (a) and (b) of that chapter:

(1) Regional Chief, Administrative Division.
(2) District Director.
(3) Disaster Branch Manager as assigned.

b. *Other Administrative Authority: See Part VIII.*

PART VIII—ADMINISTRATIVE

SECTION A. *Authority to Purchase, Rent, or Contract for Equipment, Services, and Supplies*—1. *To purchase reproductions of loan documents,* chargeable to the revolving fund, requested by U.S. attorneys in foreclosure cases:

(1) Chief, Regional Administrative Division.
(2) District Director.
(3) Chief, District Administrative Division.
(4) Branch Manager, Fairbanks Branch Office.

2. *Purchase and contract authority* to purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in sections 257 (a) and (b) of that chapter:

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Specialist.
(3) District Director.
(4) Chief, District Administrative Division.
(5) Branch Manager, Fairbanks Branch Office.
(6) Disaster Branch Managers as assigned.

3. *Rental of Motor Vehicles.* To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration:

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Specialist.
(3) District Director.
(4) Chief, District Administrative Division.
(5) Branch Manager, Fairbanks Branch Office.
(6) Disaster Branch Managers as assigned.

4. *Rental of Conference Space.* To rent temporarily SBA conference space located within the respective geographical jurisdiction:

a. Chief, Regional Administrative Division.
b. Regional Office Services Specialist.
c. District Director.
d. Chief, District Administrative Division.
e. Branch Manager, Fairbanks Branch Office.

Effective date: Part I, Section A, 3a, and 3b, Section B, 1a, 3a, 3b, and 3c, September 28, 1972. Parts II and VIII, July 1, 1972.

DAVID A. WOLLARD,
Regional Director.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-1311 Filed 1-22-73;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 17, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42604—*Chemicals between points in southwestern and southern territories.* Filed by Southwestern Freight Bureau, agent (No. B-379), for interested rail carriers. Rates on chemicals, in tank carloads, as described in the application, between points in Louisiana and Texas, on the one hand, and points in Georgia, North Carolina, South Carolina, and Virginia, on the other.

Grounds for relief—Market competition.

Tariff—Supplement 15 to Southwestern Freight Bureau, agent, tariff ICC 5002. Rates are published to become effective on February 15, 1973.

FSA No. 42605—*Slag between Memphis, Tenn., and points in southwestern territory.* Filed by Southwestern Freight Bureau, agent (No. B-376), for interested rail carriers. Rates on slag, not pulverized, in bulk, in carloads, as described in the application, between Memphis, Tenn., on the one hand, and points in southwestern territory, on the other.

Grounds for relief—Market competition.

Tariff—Supplement 171 to Southwestern Freight Bureau, agent, tariff ICC 4797. Rates are published to become effective on February 12, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-1307 Filed 1-22-73;8:45 am]

[Notice 196]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73936. By order of December 14, 1972, the Motor Carrier Board approved the transfer to The Stout Trucking Co., Inc., Urbana, Ill., of the operating rights in permit No. MC-5352 issued June 3, 1965, to Paul S. Cooper, Champaign, Ill., authorizing the transportation of malt and carbonated beverages, and advertising matter, pertaining to such commodities, from St. Louis, Mo., to Urbana, Ill., serving the intermediate point of Champaign, Ill.; and empty beverage containers, from Urbana, Ill., to St. Louis, Mo., serving the intermediate point of Champaign, Ill. Dual operations were authorized. James F. Flanagan, 111 West Washington Street, Chicago, IL 60602, attorney for applicants.

No. MC-FC-73976. By order of December 19, 1972, the Motor Carrier Board approved the transfer to B & G Moving, Inc., 5706 North Fifth Street, Philadelphia, PA 19120 of the operating rights in certificate No. MC-89195 issued February 12, 1958, to Gus J. Steffan and William J. Steffan, a partnership, doing business as B. G. Moving, 5706 North Fifth Street, Philadelphia, PA 19120, authorizing the transportation of household goods, as defined by the Commission, from Philadelphia, Pa., to points in New Jersey.

No. MC-FC-74068. By order of December 19, 1972, the Motor Carrier Board approved the transfer to Hall H. Edwards, doing business as H. H. Edwards, North Platte, Nebr., of the certificate of registration in No. MC-99326 (Sub-No. 3) issued November 18, 1963, to Harvey H. Edwards, Scottsbluff, Nebr., evidencing a right to engage in transportation in interstate or foreign commerce corresponding in scope to the grant of authority in certificate No. M-786 Supplement No. 3 dated December 22, 1954, issued by the Nebraska State Railway Commission. James E. Ryan, 214 Sharp Building, Lincoln, Nebr., 68508, attorney for applicants.

No. MC-FC-74092. By order of December 19, 1972, the Motor Carrier Board approved the transfer to Dan A. Grossmueller, and C. Gene Wolfinbarger, a partnership, doing business as John Galt Line, 9950 Cherry Avenue, Fontana, CA 92335, of the operating rights in permit No. MC-33899 issued July 29, 1943, to Hans Bolliger, Chino, Calif., authorizing the transportation of canned goods, from Chino, Calif., to Los Angeles, Calif., serving in the off-route points of Long Beach and Los Angeles Harbor, Calif.

No. MC-FC-74099. By order of December 12, 1972, the Motor Carrier Board approved the transfer to Mid Seven Transportation, a corporation, Des Moines, Iowa, of the operating rights in certificates No. MC-16831, MC-16831 (Sub-No. 10), MC-16831 (Sub-No. 12), MC-16831 (Sub-No. 13), MC-16831 (Sub-No. 15) issued May 6, 1964, March 28, 1962, October 31, 1963, June 28, 1968, and February 24, 1969, respectively, to La Vern W. Simpson, doing business as Mid Seven Transportation Co., Des Moines, Iowa, authorizing the transportation of various commodities, from, to, and between specified points and areas in Illinois, Iowa, Kansas, Minnesota, Nebraska, South Dakota, and Wisconsin. William N. Dunn, 1123 Edginton Street, Eldora, IA 50627, attorney for applicants.

No. MC-FC-74105. By order of December 19, 1972, The Motor Carrier Board approved the transfer to Richard E. Fusselman, doing business as Gene Fusselman, Quincy, Ill., of permit No. MC-125180 (Sub-No. 1), issued December 4, 1963, to Eugene M. Drew, Quincy, Ill., authorizing the transportation of dairy products and ice cream, from Quincy, Ill., to points in Adams and Hancock Counties, Ill., Lee County, Iowa, and Scotland, Adair, Knox, Lewis, Marion, Clark, and Schuyler Counties, Mo.; and empty containers, from the above-specified destination points to Quincy, Ill. Robert T. Lawley, 300 Reisch Building, Springfield, Ill., 62701.

No. MC-FC-74136. By order entered December 29, 1972, the Motor Carrier Board approved the transfer to Cargo Transport, Inc., Arlington, Mass., of the operating rights set forth in certificate of registration No. MC-87451 (Sub-No. 2), issued September 8, 1967, to Irving F. Mix, Jr., doing business as I. F. Mix Jr. Transportation, Pembroke, Mass., evidencing a right to engage in operations in interstate commerce, in the transportation of general commodities anywhere within the Commonwealth of Massachusetts, over irregular routes. Francis P. Barrett, 60 Adams Street, Milton, MA 02187, and John E. Sullivan, 111 High Street, Pembroke, MA 02359, attorneys for transferee and transferor, respectively.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 4]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 12, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

No. MC 61396 (Sub-No. 238 TA), filed January 3, 1973. Applicant: HERMAN BROS., INC., 2501 North 11th Street 68110, Post Office Box 189, Downtown Station, Omaha, NE 68101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid oxygen, liquid nitrogen, liquid argon, gaseous hydrogen, and compressed gases*, in bulk, in tank vehicles, from Kansas City and Neosha, Mo.; East Alton, Morris, Granite City, and Chicago, Ill.; Ashland, Ky.; Middleton and Warren, Ohio; and Mount Vernon, Ind., to points in the continental United States, for 180 days. Supporting shipper: Airco Industrial Gases, Post Office Box 124, 2001 West 16 Street, Broadview, IL. 60153. Send protests to: Carroll Russell, Bureau of Operations, Interstate Commerce Commission, District Supervisor, 711 Federal Office Building, 106 South 15 Street, Omaha, NE 68102.

No. MC 82492 (Sub-No. 73 TA), filed January 3, 1973. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., 2109 Olmstead Road, Post Office Box 2853, Kalamazoo, MI. 49003. Applicant's representative: Mr. William C. Harris (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, except commodities in bulk, from Eau Claire, Reedsburg, Spencer, and Whitehall, Wis., and points in Minnesota to Maumee and Toledo, Ohio, and points in the Lower Peninsula of Michigan. Restricted to traffic originating at the facilities utilized by Land O'Lakes, Inc., for 180 days. Supporting shipper: Land O'Lakes, Inc., 614 McKinley Place, Minneapolis, MN 55413. Send protests to: C. R. Fleming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 225, Federal Building, Lansing, Mich. 48933.

No. MC 93840 (Sub-No. 11 TA), filed January 4, 1973. Applicant: W W GLESS, doing business as GLESS BROS. Post Office Box 216, Blue Grass, IA 52726. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, IA 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid feed and liquid feed supplements*, in bulk, from the plantsite of Cargill, Inc., located in Scott County, Iowa, to points in Illinois on and south of Interstate Highway 70 and points in Indiana, and (2) *molasses*, in bulk, from the plantsite of Cargill, Inc., located in Scott County, Iowa, to points in Illinois on and south of Interstate Highway 70, for 150 days. Supporting shipper: Cargill, Inc., Cargill Building, Minneapolis, Minn. 55402. Send protests to: Herbert W. Allen, Transportation Specialists, Bureau of Operations, Interstate Commerce Commission, 875 Federal Building, Des Moines, IA 50309.

No. MC 94350 (Sub-No. 322 TA), filed November 22, 1972. Applicant: TRANSIT HOMES, INC., Post Office Box 1628, Haywood Road at Transit Drive, Greenville, SC 29602. Applicant's representative: Mitchell King, Jr. (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, initial shipments, *and building*, in sections, mounted on wheeled undercarriages, from points of manufacture Herkimer, N.Y., to Cincinnati, Ohio, Scottsville, Mich., Elkhart, Ind., Clifton Park, N.J., Melbourne, Fla.; Intervale, N.H.; Quincy, Ill, Kirksville, Mo., and La Plata, Mo., for 180 days. Supporting shipper: Highland Homes, Inc., 340 Harter Street, Herkimer, NY, 13350. Send protests to: E. E. Strotheid, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 300 Columbia Building, 1200 Main Street, Columbia, SC 29201.

No. MC 103721 (Sub-No. 21 TA), filed January 4, 1973. Applicant: INDIAN VALLEY BULK CARRIERS, INC., Ridge Road, Tylersport, Pa. 18971. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from the facilities of Lehigh Valley Anthracite, Inc., in Luzerne and Schuylkill Counties, Pa., to points in New York, restricted against traffic destined to the plantsite of Allied Chemical Corp., Solvay Division, at or near Solvay, N.Y., and restricted against traffic originating at the Mammoth Colliery at or near Raven Run, Pa., for 180 days. Supporting shipper: Joseph A. Frank, Vice President-Sales, Lehigh Valley Coal Sales Co., Post Office Box 450, Pittston, PA 18640. Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 106688 (Sub-No. 18 TA), filed January 5, 1973. Applicant: EDWARD M. RUDE CARRIER CORP., R.F.D. No. 1, Falling Waters, W. Va. 25419. Applicant's representative: Francis J. Ortman 1100 17th Street NW., Suite 613, Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Mine rock bolt resin compound*, in boxes, from the plantsite of E. I. du Pont de Nemours & Co. at or near Falling Waters, W. Va., to Madisonville, Ky., Oakdale, Allegheny County, Pa., and Beckley and Gary, W. Va., for 180 days. Supporting shipper: E. I. du Pont de Nemours & Co., 1007 Market Street, Wilmington, DE. Send protests to: Robert D. Caldwell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 107515 (Sub-No. 819 TA), filed October 9, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, 3901 Jonesboro Road SE.,

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38 - 15 JAN 23 73 J XUM

Forest Park, GA 30050. Applicant's representative: Alan E. Serby, Suite 1600, First Federal Building, Atlanta, GA 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts*, from Dalhart, Tex., to points in Kentucky, for 150 days. Supporting shipper: Caviness Packing Co., Post Office Box 10, Dalhart TX 79022. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 309, 1252 West Peachtree Street, Atlanta, GA 30309.

No. MC 109689 (Sub-No. 242 TA), filed December 22, 1972. Applicant: W. S. HATCH CO., Office: 643 South 800 West, Mail: Post Office Box 1825, Salt Lake City, UT 84110, Woods Cross, UT 84087. Applicant's representative: Mark K. Boyle, 345 South State Street, Salt Lake City, UT 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum crude oil*, in bulk, in tank vehicles, from Altamont Field, Duchesne County, Utah, to Denver, Colo., for 180 days. MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 16, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR. Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 28478 (Sub-No. 39 TA), filed January 4, 1973. Applicant: GREAT LAKES EXPRESS CO., 172 Davenport Street, Saginaw, MI 48602. Applicant's representative: Rex Eames, 900 Guardian Building, Detroit, MI 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment because of size or weight, between Lexington, Ky., and Mount Sterling, Ky., (1) from Lexington, Ky., over U.S. Highway 60 to Mount Sterling, Ky., and return, serving no intermediate points; and (2) from Lexington, Ky., over Interstate Highway 64 to Mount Sterling, Ky., serving no intermediate points, for 180 days. NOTE: The requested authority, if granted, will be tacked to the existing authority of applicant to provide a through service between Mount Sterling, Ky., on the one hand, and, on the other, points presently served by applicant in such States as Alabama, Georgia, Illinois, Indiana, Kentucky, Michigan, New York, Ohio, Pennsylvania, and Tennessee. Supporting shippers: Hobart Manufacturing Co., 711 Pennsylvania Avenue, Troy, OH 45373; A. O. Smith Corp., Post Office Box 584, Milwaukee, WI 53201. Send protests to: C. R. Flemming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 225 Federal Building, Lansing, MI 48933.

No. MC 29120 (Sub-No. 148 TA), filed January 3, 1973. Applicant: ALL-AMERICAN TRANSPORT, INC., 900 West Delaware Street, Post Office Box 769, 57101, Sioux Falls, SD 57104. Applicant's representative: Michael J. Ogborn (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats and packinghouse products*, from Dakota City, Nebr., to points in Tennessee (except Memphis), for 180 days. Supporting shipper: Iowa Beef Processors, Inc., Dakota City, Nebr. 68731, Joseph A. Eschenbacher, Jr. Send protests to: J. L. Hammond, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 369, Federal Building, Pierre, S. Dak. 57501.

No. MC 30844 (Sub-No. 448 TA), filed December 15, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Post Office Box 5000, Waterloo, IA 50702. Applicant's representative: Paul Rhodes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38-15 JAN 23 73 XUM

I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk) from the plantsite and facilities utilized by John Morrell & Co., Ottumwa, Iowa, to points in North Carolina and South Carolina, for 180 days. Supporting shipper: John Morrell & Co., 208 South La Salle Street, Chicago, IL 60604. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 32367 (Sub-No. 21 TA) (Amendment), filed October 31, 1972, published in the FEDERAL REGISTER issue of November 18, 1972, amended and republished in part as amended this issue. Applicant: RED & WHITE MARKET & TRANSFER, INC. (Nebraska Corporation), 607 South Burlington Avenue, Hastings, NE 68901. Applicant's representative: Gailyn L. Larsen, Box 80806, Lincoln, NE 68501. NOTE: The purpose of this partial republication is to include part (3) to read as follows: To transport engine parts and accessories, from Rockport, Ill., to Hastings, Nebr. The rest of the notice remains the same.

No. MC 105350 (Sub-No. 22 TA), filed January 5, 1973. Applicant: NORTH PARK TRANSPORTATION CO., 5150 Columbine Street, Denver, CO 80216. Applicant's representative: Leslie R. Kehl, 1600 Lincoln Center, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fabricated steel products*, which products, because of size or weight require the use of special equipment, from Denver, Colo., to bridge sites located at or near Mills, Wyo., and Orin, Wyo., for 180 days. Supporting shipper: Midwest Steel & Iron Works Co., Post Office Box 5384, Terminal Annex, Denver, CO 80217. Send protests to: District Supervisor Roger L. Buchanan, Interstate Commerce Commission, Bureau of Operations, 2022 Federal Building, Denver, Colo. 80202.

REVISION OF REGULATIONS

No. 15—Pt. II——1

V 38 - 15 JAN 23 73 XUM

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter III—Economic Development Administration, Department of Commerce

REVISION OF CHAPTER

The Economic Development Administration has completely revised Title 13, Chapter III of the Code of Federal Regulations. This revision as set forth below expands, reorganizes, and brings current the rules and regulations of the Economic Development Administration.

The revised rules and regulations become effective on January 19, 1973.

Dated: January 17, 1973.

ROBERT A. PODESTA,
Assistant Secretary for Economic Development.

NOTE: The Area Redevelopment Act expired on August 31, 1965, and the Economic Development Administration succeeded to, among other things, certain responsibilities of the Area Redevelopment Administration, including liquidation thereof.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970).

Subpart A—Introduction

§ 301.1 Purpose.

The purpose of the Economic Development Administration is to provide assistance in economically distressed areas and regions in order to alleviate conditions of substantial and persistent unemployment and underemployment and to establish stable and diversified economies.

§ 301.2 Definitions.

"*Act*" used in this chapter means the Public Works and Economic Development Act of 1965, as amended.

"*Administration*," "*Agency*," or "*EDA*" means the Economic Development Administration.

"*Advisory Committee*" means the Committee on Regional Economic Development appointed by the Secretary in accordance with section 602 of the Act.

"*Alaskan Native Village*" means town or village sites occupied and used by natives of Alaska—Indians, Eskimos, and Aleuts—pursuant to the 1926 Native Townsite Act.

"*ARA*" means the Area Redevelopment Administration (now expired) which was an experimental program designed to cope with the problems of long-term unemployment and underemployment.

"*Assistant Secretary*" means the Assistant Secretary of Commerce for Economic Development.

"*Designated Area*" means any area or center which has been determined by the Assistant Secretary pursuant to sections 102, 401, or 403 of the Act as eligible to apply for financial assistance.

"*Designation*" means the act of the Assistant Secretary whereby a geographic area, district or economic development center is determined to be eligible to apply for assistance under the Act.

"*Disaster Area*" means areas designated under Titles I or IV of the Act and designated by the President under the Disaster Relief Act of 1970 (Public Law 91-606). The disaster area shall remain such for as long a period as it retains both EDA and Disaster designations, and such concurrent designations have not exceeded 1 year in duration.

"*Economic Development Center*" means any geographic area within the United States having a population of 250,000 or less, not located in a redevelopment area, which has been identified in an approved district overall economic development program as having the potential for economic growth and the ability to alleviate the economic distress of the redevelopment areas within the district.

"*Economic Development District*" means a geographic area composed of adjoining and economically related areas which are of proper size to permit effective economic planning, including at least two redevelopment areas and one or more economic growth center(s) and having been designated by the Assistant Secretary.

"*Economic Growth Center*" means an economic development center or redevelopment center, designated or recognized by the Assistant Secretary, whose growth may be reasonably expected to contribute significantly to the alleviation of distress in the district's redevelopment areas.

"*Indian Tribe*" means the governing body of a tribe, nonprofit Indian corporation (restricted to Indians), Indian authority or other tribal organization or entity or Alaskan Native Village.

"*Local Government*" means any municipality, county, town, parish, or other general purpose political subdivision of a State.

"*OEDP*" means an Overall Economic Development Program (or orderly plan of action) pertaining to an area or district.

"*Planning Grants*" means grants for administrative expenses to eligible applicants under section 301(b) of the Act for planning purposes.

"*Public Works Impact Program Area*" means any community or neighborhood (defined without regard to political or other subdivisions or boundaries) which has been designated by the Assistant Secretary pursuant to section 401(a)(6) of the Act and which is exempted from the requirements of subparagraphs (A) and (C) of paragraph (1) of subsection (a) of section 101 of the Act.

"*Qualified Area*" means an area which meets the criteria of the Act for designation as "redevelopment area" or "Title I area" subject to the other provisions of the Act.

"*Redevelopment Area*" means any geographic area which has been designated by the Assistant Secretary pursuant to section 401 of the Act and is eligible for the full range of EDA assistance.

"*Redevelopment Center*" means any geographic area constituting all or part of a redevelopment area which has been identified in an approved district overall economic development program as having sufficient size and potential to foster the economic growth activities necessary to alleviate the distress of the redevelopment areas composing the economic development district.

"*Secretary*" means the Secretary of Commerce, the Assistant Secretary when exercising authorities delegated by the Secretary of Commerce, or any person duly authorized to act for the Secretary of Commerce in his stead.

"*Special Impact Area*" means:

(a) Any community or neighborhood (defined without regard to political or other subdivision or boundaries) which has been designated by the Assistant Secretary pursuant to section 401(a)(6) of the Act. It does not include a Public Works Redevelopment Area which has been designated by the Assistant Secretary pursuant to section 401(a)(6) of the Act.

(b) Any area selected as special impact area (as defined under the Economic Opportunity Act of 1964, as amended), funded by the Office of Economic Opportunity, and designated by the Assistant Secretary.

"*Sudden Rise Area*" means any area which has been designated by the Assistant Secretary as a redevelopment area under Section 401(a)(4) of the Act.

"*Supplemental Grant*" means the amount of additional grant assistance provided pursuant to section 101(c) of the Act.

"*Title I Area*" means any area which the Assistant Secretary designates pursuant to the provisions of section 102 of the Act.

"*Working Capital*" means the excess of current assets over current liabilities and identifies the relatively liquid portion of total enterprise capital which constitutes a margin or buffer or meeting obligations within the ordinary operating cycle of the business.

Subpart B—Description of Program Areas

§ 301.20 Public works and development facility grants.

(a) Direct grants are authorized for:

(1) Public works, public service and development facility projects which directly or indirectly contribute to long-range economic growth or benefit long-term unemployed and members of low-income families in redevelopment areas.

(2) Public works, public service and development facility projects which provide immediate useful work to the unemployed and underemployed of the project area.

(b) Supplementary grants to augment the direct grants received under the Act or to augment the basic grants under other Federal grant-in-aid programs may be provided to public works, public service and development facility projects which directly or indirectly contribute to long-range economic growth or benefit long-term unemployed and members of low-income families in redevelopment areas.

§ 301.21 Loans.

(a) Loans are authorized for public works, public service, and development facility projects in redevelopment areas and economic growth centers, but not in title I areas.

(b) Loans are authorized for industrial and commercial purposes in redevelopment areas and economic growth centers, but not in title I areas.

(c) Guarantees of working capital loans made to private borrowers by private lending institutions for projects assisted under paragraph (b) of this section are authorized.

§ 301.22 Technical assistance.

(a) Technical assistance in the form of direct assistance by EDA personnel, payment to other Federal agencies, contracts, and grants may be extended to redevelopment areas and other areas that have substantial need for such assistance. Any such technical assistance must be useful in alleviating or preventing conditions of excessive unemployment or underemployment.

(b) Planning and administrative grants are available to eligible applicants.

(c) EDA conducts a continuing program of study, training and research in the problems of economic development through members of its staff, payments to other Federal agencies, contracts, and grants.

(d) EDA provides technical assistance for national projects to national or public associations or public bodies.

(e) EDA aids redevelopment areas and other areas by furnishing to interested individuals, communities, industries, and enterprises within such areas any assistance, technical information, market research, or other forms of assistance, information, or advice which would be useful in alleviating or preventing conditions of excessive unemployment or underemployment within such areas.

Subpart C—Description of Organization

§ 301.30 Washington office.

The central and principal office of the Economic Development Administration is in the Department of Commerce, 14th Street at Constitution Avenue NW., Washington, DC 20230.

§ 301.31 Economic Development Administration Regional Offices.

Locations:

(a) *Atlantic.* 320 Walnut Street, Philadelphia, PA 19106. Serving: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, Virginia, Virgin Islands, and West Virginia.

(b) *Southeastern.* Suite 55, 1401 Peachtree Street NE., Atlanta, GA 30309. Serving: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.

(c) *Rocky Mountain.* Suite 505, Title Building, 909 17th Street, Denver, CO 80202. Serving: Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.

(d) *Midwestern.* Civic Towers Building 32 West Randolph Street, Chicago, IL 60601. Serving: Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.

(e) *Western.* 1700 Westlake North, Seattle, WA 98109. Serving: Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, and Washington.

(f) *Southwestern.* 702 Colorado Street, Austin, TX 78701. Serving: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

§ 301.32 Assistant Secretary.

The Assistant Secretary for Economic Development directs the programs and is responsible for the conduct of all activities of the Economic Development Administration subject to the policies and directions prescribed by the Secretary of Commerce.

§ 301.33 Deputy Assistant Secretary for Economic Development.

The Deputy Assistant Secretary for Economic Development assists the Assistant Secretary in all matters affecting the Agency. The Deputy Assistant Secretary for Economic Development shall exercise the powers and perform the duties of the Assistant Secretary when there is a vacancy in office or when the Assistant Secretary is absent or disabled. The Deputy Assistant Secretary for Economic Development also directs and supervises the Investigations and Inspections Staff, the Special Assistant for Environmental Affairs, the Special Assistant for Field Operations and the Special Assistant for Indian Affairs.

(a) The Investigations and Inspections Staff formulates and recommends policies, plans, and procedures, for the development and conduct of the investigation programs; and conducts inspections and special compliance studies and surveys on programs and technical operations.

(b) The Special Assistant for Environmental Affairs acts as principal advisor to the Assistant Secretary on environmental affairs; serves as the Agency's responsible official under the National Environmental Policy Act of 1969 (NEPA); develops and directs the Agency's procedures for complying with NEPA and other environmental legislation, reviews projects and makes recommendations to the Assistant Secretary for approval or disapproval based upon the environmental effects of the proposed project; coordinates the agency's environmental program with the environmental programs of local, State, and other Federal agencies which become involved with EDA projects; represents the Assistant Secretary at conferences and meetings and on interagency committees dealing with environmental matters; maintains liaison on environmental matters with interested public groups and local, State, and other Federal agencies; reviews and evaluates legislative and administrative proposals in terms of their environmental impact.

(c) The Special Assistant for Field Operations shall maintain liaison with EDA regional office directors on matters of an administrative or policy nature which affect the organization or operation of the Regional Offices; and directs, coordinates, and monitors the Regional Office Directors' implementation of policies and directives relating to the or-

V 38 - 15 JAN 23 73 3 XUM

ganization and operation of the Regional Offices.

(d) The Special Assistant for Indian Affairs provides advice and direction for development and implementation of a viable program providing assistance to American Indians; recommends approval or denial of all Indian project proposals; operates the selected Indian Reservation Program in order to develop strong and permanent economic activity on Indian reservations, resulting in increased employment opportunities and a rise in the per capita income of the Indian people; provides assistance and advice to economic development planners employed by Indian tribes or groups funded through the Agency's planning grant program; initiates and develops seminars, conferences, and other programs which disseminates information to assist Indian tribes in economic development programs; coordinates Federal, State and private agencies which work with Indian tribes in formulating and implementing beneficial programs.

§ 301.34 Deputy Assistant Secretary for Economic Development Operations.

The Deputy Assistant Secretary for Economic Development Operations provides coordinated direction and supervision of all Agency activities related to financial assistance for or to physical projects for improving local economies; recommends standards, policies, and criteria for the technical evaluation and processing of applications for assistance; directs, conducts, coordinates, monitors and, where appropriate, originates technical assistance projects subject to coordination with the Deputy Assistant Secretary for Economic Development Planning on proposed technical assistance projects related to area, district, center or regional planning; reviews and recommends approval or denial of project applications to the Assistant Secretary; evaluates activities of the Regional Offices in applying policies, standards, and procedures for processing project applications; studies and evaluates manpower development and training needs of redevelopment areas and economic development districts and recommends appropriate joint action with the Departments of Labor, and Health, Education, and Welfare; and executes agreements with other Federal departments and agencies in consultation with the Deputy Assistant Secretary for Policy Coordination for the conduct of specialized technical assistance; and directs and supervises the Office of Business Development, Office of Public Works and Office of Technical Assistance.

(a) The Office of Business Development maintains surveillance over and conducts training for implementation of policies, standards and procedures by the Regional Offices related to the processing of loan applications and working capital guarantees to assure efficient, effective, and economic accomplishment of the business development programs; evaluates and recommends approval or denial of commercial or industrial loans and working capital guarantees; develops and implements Agency agreements with other Federal agencies in support of business development programs; administers loans in connection with commercial and industrial projects, including outstanding loans approved under the provisions of the Area Redevelopment Act (ARA); arranges for or provides needed specialized assistance to recipients of industrial and commercial loans and guarantees; and develops and implements policies, plans and procedures to improve or terminate projects in default of loan conditions.

(b) The Office of Public Works recommends and implements public works policies, standards and procedures for accepting, processing, reviewing, approving and carrying out public works grant and loan projects under the Act; reviews and recommends public works applications for approval or denial; directs and maintains surveillance over the Regional Office public works functions; trains and develops public works field staffs; and maintains operating liaison with other Federal agencies having grant-in-aid programs which may supplement Agency projects.

(c) The Office of Technical Assistance develops and recommends policies, standards, and procedures for the receipt, evaluation, monitoring and implementation of technical assistance projects; formulates innovative technical assistance projects; develops and recommends policies and activities to assist business development in the private sector by means of technical assistance; promotes the economic development content of public sector activities involving physical and human resources, emphasizing the guidance of public investment in the delivery of public services affecting economic development; coordinates and obtains where necessary the participation of other Federal agencies; develops, monitors and follows the national technical assistance projects; recommends policies and practices to facilitate effective relationships with other Federal agencies where their programs affect economic development, and assists Regional Offices in carrying out their technical assistance duties.

§ 301.35 Deputy Assistant Secretary for Policy Coordination.

The Deputy Assistant Secretary for Policy Coordination acts as principal advisor to the Assistant Secretary on matters of policy coordination, providing staff assistance in the development, formulation, review and evaluation of policy; exercises responsibility for the Agency's interagency and intergovernmental relations and its relations with quasi-public and private agencies interested in economic development; monitors and coordinates EDA's urban programs and advises local governments and community groups in developing urban economic development programs; serves as Executive Secretary and provides staff support for the National Public Advisory Committee on Regional Economic Development; reviews and evaluates legislative and administrative proposals related to economic development and intergovernmental relations; and represents the Agency on international organizations when requested.

§ 301.36 Deputy Assistant Secretary for Economic Development Planning.

The Deputy Assistant Secretary for Economic Development Planning acts as the principal advisor to the Assistant Secretary on matters of development planning; coordinates and directs the Agency's economic development planning activities relating to regions, districts (including economic development centers), redevelopment areas, and other areas of substantial need, and directs the administration of planning grants for areas, Indian reservations and districts; formulates and recommends standards and criteria for administration of economic development planning by the Regional Offices; recommends designation of economic development districts, economic development centers, redevelopment areas, and Title I areas which fulfill statutory criteria; conducts an annual review of the areas and districts designated for assistance under the Act and recommends such modifications or terminations of eligibility as may be appropriate; coordinates and directs a program of economic research and research and analysis carried out through grants, contracts and in-house research; informs the Deputy Assistant Secretary for Operations on the compliance of applications for financial assistance with section 702 of the Act; provides economic data, analyses and studies, and planning grants to development districts and areas; recommends technical assistance proposals for areas and districts; and directs and supervises the Office of Development Organizations, Office of Economic Research, and Office of Planning and Program Support.

(a) The Office of Development Organizations initiates policy guidelines and criteria concerning development districts and area organizations for use by other elements of the Agency and appropriate State and local agencies; designs direct programs to establish multicounty development districts in consultation with the assistance and cooperation of Regional Offices and concurrence of States affected; evaluates and approves for purposes of the Act proposed area and district economic development organizations and assists Regional Office efforts to organize economic development districts; reviews Regional Office recommendations for designation and/or termination of economic development districts and centers; advises interested Federal, State, and local agencies of all changes affecting the eligibility status of proposed or existing economic development districts; and determines whether an area meets and continues to meet the statistical qualification criteria for designation as a redevolpment area.

(b) The Office of Economic Research directs and conducts a program of internal and external economic research to meet planning and operating needs relating to economic development problems and opportunities for geographical subdivisions; arranges and monitors Agency-sponsored research conducted by other elements of the Department, and other Federal and non-Federal organizations; encourages and stimulates economic development research and data collection in and out of Government; reviews, evaluates, integrates, and disseminates Agency research and other research findings that are relevant to the Agency objectives and programs; and encourages educational institutions to develop curricula and establish service-learning mechanisms that enable students to participate in State and local economic planning and development of programs.

(c) The Office of Planning and Program Support coordinates the preparation, review, and approach of Agency developed planning documents including a system of priorities for Agency financial assistance to areas and districts; provides guidance to Regional Offices on the application of economic development planning techniques and systems to the specific problems of the Region, further advising and assisting Regional Offices in implementing economic planning activities after formal designation of economic development districts and areas; formulates planning and development policies, procedures, and standards for review of OEDP's by Regional Offices; evaluates services, efficient existing capacity and competitive procedures for use in determinations of excess capacity pursuant to section 702 of the Act; and initiates suspension of receipt and processing of applications for assistance from areas and districts which fail to submit acceptable OEDP progress reports.

§ 301.37 Office of Administration and Program Analysis.

The Office of Administration and Program Analysis develops, administers, and promulgates administrative management policies, programs, and standards for the Agency; develops cost benefit studies employing techniques of operations research analysis, econometrics and mathematical economics to the relative merit between, and the optimum balance among, alternative programs for economic development projects, activities and programs in achieving the objectives of the Act.

§ 301.38 Office of Chief Counsel.

The Office of the Chief Counsel renders all necessary legal services to the Agency, and has primary responsibility for the preparation, coordination, and clearance of all legislation, regulations, and external orders.

§ 301.39 Office of Civil Rights.

The Office of Civil Rights advises the Assistant Secretary in the development and implementation of policy guidelines affecting equality of opportunity in economic development programs; provides assistance in civil rights matters to all economic development program units and to the participants and beneficiaries for the economic development programs; maintains liaison with Federal, State, and local governmental organizations and nongovernmental organizations to coordinate operations aimed at achieving nondiscrimination and equality of opportunity; establishes equal opportunity requirements for participants in economic development programs; conducts on-site inspections and receives, investigates, and resolves complaints; and evaluates the Agency's internal civil rights program.

§ 301.40 Office of Congressional Relations.

The Office of Congressional Relations advises on all congressional matters pertinent to the activities under the direction of the Assistant Secretary and serves as the primary point of coordination for continuing liaison with the Congress in collaboration with the Special Assistant to the Secretary for Congressional Relations.

§ 301.41 Office of Public Affairs.

The Office of Public Affairs advise on all public information matters; conducts a public information program under the policy guidance of the Assistant Secretary and provides assistance in the editing, printing, or reproduction, and distribution of technical materials and publications.

§ 301.42 Economic Development Regional Offices.

(a) Regional Offices cooperate with and assist local areas in organizing for economic development; provide economic development informational services covering all programs, Federal and otherwise; assist in obtaining field surveys of local area problems through staff or through contract; cooperate with local area and other economic development representatives in the development or modification of Overall Economic Development Programs (OEDP); review those OEDP submitted for approval and take appropriate action in accordance with prescribed Agency policies and procedures; review applications for industrial and commercial assistance, for public works loans and grants, and for technical assistance, including administrative grants, and take appropriate final action in accordance with Agency policies, rules, regulations, and procedures and within the authority specifically delegated by the Assistant Secretary; review financial assistance project reports of processing offices, submitting analyses and recommendations for action to the Agency's Washington office; develop and comment upon proposals for training projects within the area served by the Regional Office; and provide for official liaison channels with State economic development agencies, district and redevelopment area economic development organizations, and regional or local offices of other Federal agencies located within the same area, particularly those with related programs.

(b) Organization structure:

(1) The Regional Director, who reports to and is under the supervision and direction of the Assistant Secretary, directs the programs and is responsible for the conduct of all activities of the Regional Office.

(2) The Civil Rights Division implements programs of equal opportunity including surveillance and compliance for the prevention of discrimination in any program or activity receiving Agency assistance; contacts community information sources, analyzes areas in relation to their civil rights posture, including the presence or absence of certain skills in the minority workforce, and quality and availability of educational and training opportunities; encourages employment of the unemployed and underemployed, especially in areas of minority group concentration; reviews employment plans for the beneficiaries and managers of Agency projects; and assists the program divisions in evaluating projects as to the economic impact on minority groups and relationships to community and area plans and projects of other Federal, State, and local entities.

(3) The Special Programs Division recommends general development strategies and investment programs for special program areas for endorsement by the Regional Director and appropriate Washington officials; assists Economic Development Representatives in development of projects dealing with the special program assigned; and assists in the evaluation of projects for economic impact and relationships to community and area plans and projects of other Federal, State, and local entities.

(4) The Regional Counsel provides legal services to the Regional Director, subject to the general policy guidance and legal supervision of the Chief Counsel; performs preliminary review of all applications received in the Regional Office, making recommendations as appropriate; and advises and assists in the legal aspects of project development and management, including the closing of loans, and upon request of the Chief Counsel, provides assistance in connection with general litigation and the administration and liquidation of business development loans and working capital guarantees.

(5) The Business Development Division advises Regional Office personnel, Economic Development Representatives, members of the banking and industrial community, and the public of the possible uses of business development financial assistance to meet the objectives of the Act; appraises the potential of redevelopment areas for industrial and commercial development and devises plans to meet the needs of these areas through use of business development program tools or alternative methods of financing; advises the Planning Division in its review and evaluation of OEDP progress and preparation of recommended program strategies; assists applicants, in cooperation with Economic Development Representatives, by providing appropriate financial guidance needed to structure loan proposals into acceptable applications for assistance;

V 38 - 15 JAN 23 73 XUM

conducts prefiling conferences; processes all business development assistance applications; counsels applicants and borrowers on improving opportunities for the financial success and economic benefits of projects; evaluates business development projects for economic impact and relationships to community and area plans and projects of other Federal, State, and local entities; and receives all business development project applications, prepares project files on all applications for action by the Regional Director and, after approval, acceptance of offer, and completion of loan disbursements delivers the project files to the Technical Support Division for loan administration.

(6) The Public Works division advises Regional Office personnel, Economic Development Representatives, appropriate community officials and the public of the possible uses of public works and development facility assistance to meet the objectives of the Act; develops and implements program strategies with assistance of the Planning Division for utilizing public works and development facility program tools to enhance the development process; advises the Planning Division in its evaluation of OEDP and other program strategies; assists Economic Development Representatives in developing proposed public works and development facility projects; conducts prefiling conferences; advises applicants of alternative sources of financing, program requirements and intergovernmental coordination arrangement, as appropriate; processes all public works applications with financial and engineering review by the Technical Support Division as appropriate; evaluates public works projects for economic impact and relationships to community and area plans and projects of other Federal, State, and local entities; receives all public works project applications, prepares project files on all applications for action by the Regional Director and upon approval and acceptance of offer, delivers the project files to the Technical Support Division for maintenance.

(7) The Technical Assistance Division advises Regional Office personnel, Economic Development Representatives and the public of possible uses of technical assistance to meet the objectives of the Act; implements program strategies with the assistance of the Planning Division for the utilization of technical assistance to accelerate the development process; assists the Planning Division in its review and evaluation of OEDP and other program strategies; assists Economic Development Representatives in developing technical assistance projects; advises the Public Works and Business Development Divisions in developing technical assistance projects related to their programs; conducts prefiling conferences; processes all technical assistance applications and monitors approved projects with assistance of the Technical Support Division; coordinates with other Federal organizations in the development and conduct of specialized technical assistance programs and individual projects; provides for dissemination of technical assistance information to groups and agencies within the region; evaluates all technical assistance projects for economic impact and relationships to community and area plans and projects of other Federal, State, and local entities; receives all technical assistance project applications; prepares files on all applications for action by the Regional Director; and coordinates the Manpower Development and Training Act program as it relates to Regional Office jurisdiction.

(8) The Technical Support Division provides the Public Works, Planning and Technical Assistance Divisions, and Economic Development Representatives, with financial and technical guidance needed to assist prospective applicants in the planning of acceptable applications; applies established criteria in the engineering and financial evaluation of proposed projects except Business Development projects; initiates and participates in closing approved Public Works loans and monitors the completion of approved Public Works projects including construction management and portfolio management; performs duties assigned in connection with disbursement of appropriate project funds, services all Public Works and Business Development projects after their transfer to the Technical Support Division and develops plans and recommendations to improve or terminate projects in default of loan or grant conditions; and advises the Planning Division in its review and evaluation of OEDP in regard to engineering and financial aspects of development programs.

(9) The Planning Division advises and assists the Regional Director in recommending the designation of economic development districts and centers, redevelopment areas and centers; assists districts and other economic development organizations in developing or modifying OEDP as part of an overall grant monitoring responsibility; reviews and evaluates OEDP progress reports submitted for approval and, in cooperation with other Regional Office divisions and Economic Development Representatives, recommends appropriate action in accordance with prescribed policies and procedures; coordinates with State and local officials in sponsoring and assisting district economic planning and development groups; assesses and assists State and local efforts to recruit professional economic development staff and recommends model programs and procedures for economic development organizations; directs and coordinates economic development planning for use of Agency program offices in designated districts, centers, and areas; collects and maintains an information system relative to economic development programs in the regional jurisdiction, to support development planning in districts and redevelopment areas; evaluates significant developments and problems affecting intergovernmental redevelopment planning for districts and redevelopment areas, recommending appropriate action to the Regional Director; considers the economic impact of each proposed project; conducts program planning conferences; reviews performance of Agency funded organizations through annual appraisals, recommending appropriate actions to improve effectiveness of the organizations if necessary; prepares grant offers for newly designated planning organizations for approval by the Assistant Secretary and prepares continuation grant offers for approval by the Assistant Secretary and prepares continuation grant offers for approval by the Regional Director; performs duties assigned in connection with the disbursement of planning grant funds and monitoring use of such funds; and develops with assistance of other Regional Office program divisions, program strategies for use of Agency assistance consistent with State and local plans.

(10) The Economic Development Representatives disseminate information to the public about the Agency's program and activities; assist prospective borrowers or grantees in the preparation of applications for financial or technical assistance by explaining the manner in which statutory requirements are to be met, indicating alternative forms of assistance as might be available under other Federal programs or from private sources, and providing guidance and advice on planning the contents of applications; and serve as principal assistants to the Regional Director, under the guidance of and with the coordination of program divisions, for formulating strategies for the effective use of Agency resources to assist areas and districts to meet the objectives of the Act.

Subpart D—Disclosure of Information to the Public

§ 301.50 Disclosure of information to the public.

This section describes the arrangements whereby the materials specified in 5 U.S.C. 552(a)(2) and repeated below, § 301.52(a), are made available for public inspection and copying, and the procedures and other conditions whereby identifiable records requested by persons may be made available to them pursuant to 5 U.S.C. 552(a)(3).

§ 301.51 Publication in the Federal Register.

Those materials which are required to be published in the FEDERAL REGISTER pursuant to the provisions of 5 U.S.C. 552(a)(1) and repeated below, § 301.53, have been and shall continue to be published in the FEDERAL REGISTER and shall, to the extent practicable and to further assist the public, be made available for inspection and copying at the facility identified in § 301.52(c).

§ 301.52 Availability of materials for inspection and copying.

(a) In accordance with 5 U.S.C. 552(a)(2) and other provisions of law, a public information facility is established wherein EDA maintains a reference facility for the public inspection and copying of:

(1) Final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases.

(2) Those statements of policy and interpretations which have been adopted by EDA and are not published in the FEDERAL REGISTER.

(3) Administrative staff manuals and instructions to staff that affect a member of the public.

(4) A current index, EDA Directive Systems, Index, providing identifying information for the public as to any matter which is issued, adopted, or promulgated after July 4, 1967, and required to be made available or published by 5 U.S.C. 552(a)(2).

(5) Such additional materials as the Assistant Secretary of Commerce for Economic Development, in his discretion may consider desirable and practicable to make available for the convenience of the public.

(b) In order to prevent unwarranted invasion of personal privacy, EDA may delete identifying details when it makes available or publishes an opinion, statement of policy, interpretation, or staff manual or instruction, and shall, in each such case, explain in writing the justification for the deletion.

(c) The above materials may be inspected in the Office of Public Affairs, Publications Division, Room 6814 B, Commerce Building, 14th Street between Constitution and E Streets NW., Washington, D.C. 20230. In addition, for the convenience of the public, most of these materials may also be inspected at each of the EDA Regional offices listed in § 301.31. The Office of Public Affairs, Publications Division, Washington, D.C., and the respective EDA Regional Offices are open to the public Monday through Friday of each week, except on official holidays, between the hours of 9 a.m. and 4:30 p.m. There are no fees or formal requirements for such inspections. Copies of these materials may be obtained at these facilities at cost. In addition, copies of various EDA materials regularly available for sale by EDA may be purchased from the Office of Public Affairs, Publications Division, and EDA Regional Offices.

(d) Correspondence concerning the materials available in the facility should be sent to the Office of Public Affairs, Publications Division, Economic Development Administration, Department of Commerce, 14th Street and Constitution NW., Washington, D.C. 20230.

§ 301.53 Federal Register public information.

In accordance with 5 U.S.C. 552(a)(1), the EDA public information facility described in § 301.52(c) also maintains a reference facility for the public inspection and copying of the following public information published in the FEDERAL REGISTER.

(a) Descriptions of EDA central and field organization and the established places at which, the employees from whom, and the methods whereby, the public may obtain information, make submittals or requests, or obtain decisions.

(b) Statements of the general course and method by which its functions are channeled and determined, including the nature and requirements of all formal and informal procedures available.

(c) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations.

(d) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by the agency.

(e) Each amendment, revision, or repeal of the foregoing.

§ 301.54 Requests for identifiable records.

(a) A person who wishes to inspect a record which is not customarily available to the public as part of the regular information activities of EDA should complete Form CD–244, "Application to Inspect Records," and submit this form, in person or by mail, to the Office of Public Affairs, Publications Division, Room 6814 B, Commerce Building, Washington, D.C. 20230. Copies of Form CD–244 are available at the Office of Public Affairs, Publications Division and each of the EDA Regional Offices listed in § 301.31.

(b) An application form shall be submitted for each record or group of records related to the same general subject matter. Each application form shall be accompanied by the nonrefundable application fee of $2.

(c) Detailed instructions for the completion of Form CD–244 are stated on the back of the form. Employees of the Office of Public Affairs, Publications Division and the EDA Regional Offices will be available to answer questions concerning the application form and its filing. The applicant has the sole responsibility to identify each record sought in sufficient detail so that it can be located by personnel familiar with the filing of agency records. Each application shall clearly itemize, when there are more than one, each record requested so that it may be identified and its availability separately determined.

(d) All requests for agency records not customarily made available to the public received by EDA Regional Offices shall promptly be referred, without further action, to the Office of Public Affairs, Publications Division for a determination in accordance with § 301.54.

(e) The Office of Public Affairs, Publications Division, will review the application for completeness, and will record receipt of the fee. If the application is incomplete in some substantial and material respect, it shall be promptly returned to the applicant to complete.

§ 301.55 Determinations of availability of records.

(a) Upon receipt of requests for information, the Office of Public Affairs, Publications Division shall initially determine:

(1) Whether the requested record can be identified on the basis of the information supplied by the applicant. If it cannot identify the record, the application shall be returned to the applicant, specifying why it is not identifiable and what additional clarification, if any, the applicant may make to assist EDA in its identification.

(2) Whether the record, if identifiable, is still in existence or has been destroyed as provided by law, or is not in the possession of EDA. If the record no longer exists, the applicant shall be so notified, with the reason stated. If the record is not in EDA's possession and its existence is not otherwise reasonably ascertainable, the applicant shall be so notified. If the requested record is in another organization of the Department of Commerce, or is the exclusive or primary concern of another executive department or agency, the application for the record shall be promptly referred to such other organization or agency for further action under its rules, and the applicant shall be promptly informed of this referral by the Office of Public Affairs, Publications Division.

(b) If the requested record is identifiable and subject to EDA's determination as to its availability, the application shall be reviewed by an official authorized pursuant to Department Administrative Order 205–12 to initially determine its availability. If it is determined, after consultation with the Office of the Chief Counsel that, as provided by law, the record is not to be made available to the requesting person, said party shall receive in writing the specific reason(s) why the record is not being disclosed, signed by the official making the determination.

(c) If the record is to be made available and there are no further charges or fees, it shall be furnished to the requesting person. If, in accord with § 301.56, there are additional costs to be recovered from the applicant, they shall be estimated and the applicant notified that upon his payment of such estimated costs subject to adjustment as provided in § 301.56, the record shall be made available to him at the Office of Public Affairs, Publications Division, or transmitted to him by it.

§ 301.56 Fees and charges.

(a) In accord with congressional policies that services performed hereunder are to be self-sustaining, and as provided by law, appropriate fees and charges are hereby established to cover costs for application handling, record searching, reproduction, certification, and authentication, and for related expenses incurred by EDA with respect to records made available upon request under 5 U.S.C. 552(a)(3).

(b) The following fees are hereby established and payable to EDA:

(1) Application fee—per application—$2. This fee is nonrefundable, and covers costs of accepting and reviewing the application, and making a determination as to the availability of the requested record, or group of related records.

(2) Records search fee—per half hour, or any fraction thereof, per person—$2.50.

V 38 - 15 JAN 23 73 XUM

This fee covers the cost of locating the desired record, transporting it by government messenger service to a point of inspection, supervising the inspection, and returning the record to its regular file. It also includes the costs of any copies or records made at EDA's option. The minimum fee charged for records search per one-half hour ($2.50).

(3) Copies of records, if requested by applicant:	
(i) Xerographic or similar process—	
Up to 9 x 14 inches (each page)	$0.25
(ii) Photocopy or similar process—	
Up to 12 x 18 inches (each copy)	1.00
Over 12 x 18 inches but less than 18 x 25 inches (each copy)	2.00
(4) Other forms of reproduction as may be required by the nature of the original records: Individual fee, sufficient to recover full cost	-----
(5) Certification fee, if requested—Applicable to each certification	1.00
(6) Postage, registration, or other forwarding or packing fees [1]—Applicable only if copies of records are requested to be shipped to a point other than the Office of Public Affairs, Publications Division.	

[1] Actual cost.

(c) All fees and charges will be collected in advance. The applicant will be given an estimate of the cost of records search for each application where disclosure availability is authorized. If actual cost exceeds the estimate, the applicant will have the option of either paying any additional costs, or inspecting the requested record to the extent covered by his payment. If the advance estimated payment is $1 or more in excess of both the actual cost and the minimum charge, a refund will be made of the excess above the higher of these two amounts.

(d) The fees set forth above are based upon an initial estimate of the costs to be incurred in providing the indicated services and may be revised as necessary to insure the recovery of full costs by EDA.

(e) The above fees are established solely for services provided pursuant to 5 U.S.C. 552(a)(3), and do not affect fees charged for other EDA services to the public, as may be performed under other authorities.

§ 301.57 Arrangements for public inspection and copying of agency records subject to disclosure.

(a) Upon receipt of the records search fee, and any fees for additional services requested by the applicant, the requested record which has been determined to be available shall, unless the applicant has otherwise indicated, be transferred to the Office of Public Affairs, Publications Division, where it will be held for inspection by the applicant for 5 working days. The address and hours of operation of this facility are stated in § 301.52(c).

(b) During his inspection of the record at the facility, the applicant may copy by hand any portion of the record, may use the coin-operated copying equipment at the facility to make a copy thereof, and may obtain certification of a machine-copied record.

(c) No changes or alterations of any type may be made to the record being inspected, nor may any matter be added to or subtracted therefrom. Papers bound or otherwise assembled in a record file may not be disassembled during inspection. Staff of the facility shall provide assistance if disassembly of a record is necessary for copying purposes, and are authorized to supervise public inspection as necessary to protect the records of EDA.

(d) If an applicant does not want to inspect a record by personal visit to the Office of Public Affairs, Publications Division, he may request that a copy thereof be mailed to him, upon payment of the copying and postage fees set forth in this subpart.

(e) No person may, without permission, remove any record made available to him for inspection or copying under this subpart from the place where it is made available. In addition, no person may steal, alter, mutilate, obliterate, or destroy, in whole or part, such a record. See sections 641 and 2071 of title 18 of the United States Code.

§ 301.58 Requests for reconsideration.

(a) Any person whose application to inspect a record has been rejected because the record was not to be made available for stated reason(s), may request a reconsideration of the initial denial, as set forth herein.

(b) The request for reconsideration should be made by completing the applicable section of the Form CD-244, and returning it to the Office of Public Affairs, Publications Division, within 30 days of the date of the original denial. (This date is shown on the Form CD-244.) No additional fee is required to obtain reconsideration. In submitting a request for reconsideration, the applicant should include any written arguments he desires to support his belief that the record requested should be made available. No personal appearance, oral argument, or hearing shall be permitted.

(c) The decision upon such review shall be made by the Assistant Secretary for Economic Development and shall be based upon the original application, the denial, and any written argument submitted by the applicant.

(d) The decision upon review shall be promptly made in writing and communicated to the applicant. If the decision is wholly or partly in favor of the applicant, the requested record shall to the extent determined be made available for inspection, as described in § 301.55(c). To the extent that the decision is adverse to the request, the reason for the denial shall be stated.

(e) A decision upon review completed as provided by this subpart shall constitute the final decision and action of EDA as to the availability of a requested record, except as may be required by court proceedings initiated pursuant to 5 U.S.C. 552(a)(3).

(f) Reconsiderations resulting in final decisions as prescribed herein shall be indexed and kept available for public reference in the Office of Public Affairs, Publications Division.

§ 301.59 Subpena or other compulsory process.

Procedures applicable in the event of a subpena, order, or other compulsory process or demand of a court or other authority are set forth in section 7 of Department Administrative Order 205-12.

§ 301.60 Record of application.

The Assistant Secretary will maintain as a permanent part of the records of the Economic Development Administration a list of applications approved for financial assistance under Parts 305, 306, and 307 of the regulations in this chapter, which shall be kept available for public inspection during the regular business hours of the Department of Commerce. The following information will be posted in such list as soon as each application is approved:

(a) The name of the applicant and, in the case of corporate applications, the names of the officers and directors thereof;

(b) The amount and duration of the loan or grant for which application is made;

(c) The purposes for which the proceeds of the loan or grant are to be used; and

(d) A general description of the security offered in the case of a loan.

PART 302—DESIGNATION OF AREAS

Subpart A—Standards for Designation of Redevelopment Areas Under Section 401(a) of the Act

Sec.

302.1 Standards for designation on the basis of unemployment.
302.2 Standards for designation on the basis of loss of population.
302.3 Standards for designation on the basis of median family income.
302.4 Standards for designation on the basis of Indian lands.
302.5 Standards for designation on the basis of sudden rise in unemployment.
302.6 Standards for designation on the basis of the Area Redevelopment Act.
302.7 Standards for designation of public works impact program areas.
302.8 Standards for designation of special impact areas.
302.9 Standards for designation on the basis of the Economic Opportunity Act of 1964, as amended.
302.10 Standards for designation on the basis of per capita employment.
302.11 Exception to criteria for qualification.

Subpart B—Limitations on Designation of Areas

302.20 Standards for designation on the basis of limitations as to size and boundaries.

Subpart C—Standards for Designation of Areas Under Section 102 of the Act

302.30 Standards for designation on the basis of title I.

Subpart D—Annual Review, Modification, and Termination of Designated Areas

302.40 Adjustment of boundaries.
302.41 Annual review of areas eligibility and termination.

Subpart E—Notice

Sec.

302.50 Notification of public officials.
302.51 Lists of redevelopment areas and centers designated under the Act.

Subpart F—Information

302.60 Information.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970).

Subpart A—Standards for Designation of Redevelopment Areas Under Section 401(a) of the Act

§ 302.1 Standards for designation on the basis of unemployment.

The Assistant Secretary shall designate those areas as redevelopment areas on the basis of unemployment figures supplied by the Secretary of Labor:

(a) Where the current rate of unemployment, as determined by appropriate annual statistics for the most recent available calendar year is 6 percent or more and has averaged at least 6 percent for the qualifying time periods specified in paragraph (b) of this section; and

(b) Where the annual average rate of unemployment has been at least—

(1) 50 percent above the national average for 3 of the preceding 4 calendar years, or

(2) 75 percent above the national average for 2 of the preceding 3 calendar years, or

(3) 100 percent above the national average for 1 of the preceding 2 calendar years.

§ 302.2 Standards for designation on the basis of loss of population.

The Assistant Secretary shall designate those areas as redevelopment areas where he determines there has been a substantial loss of population due to lack of employment opportunity.

§ 302.3 Standards for designation on the basis of median family income.

(a) The Assistant Secretary shall designate those areas as redevelopment areas which he finds have a median family income not in excess of 50 percent of the national median family income.

(b) Determinations of median family income are to be based on the income statistics shown in the 1970 U.S. census.

§ 302.4 Standards for designation on the basis of Indian lands.

(a) The Assistant Secretary shall designate those Indian reservations, Indian trust land areas, and restricted Indian-owned land areas which manifest the greatest degree of economic distress as redevelopment areas.

(1) Indian reservations shall consist of land areas which by official Federal or State action or recognition have been validly set apart for use or occupancy by Indians under superintendence by the Federal or State Government which retains title to the land.

(2) Indian trust land areas shall consist of land areas held in trust by or under the authority of Federal or State Government for use and occupancy by Indians.

(3) Restricted Indian-owned land areas shall consist of land areas owned by Indians but subject to legislation by Congress enacted in the exercise of the Federal Government's guardianship over Indian tribes and their property and over which the Federal Government has the power of imposing restriction on alienation.

(b) (1) The Assistant Secretary upon consultation with the Secretary of Interior or an appropriate State agency shall designate those areas under this section which he determines manifested the greatest degree of economic distress on the basis of unemployment and income statistics and other appropriate evidence of economic underdevelopment.

(2) When the determination of economic distress required for designation under this subsection pertains to land areas which include lands which are not contiguous, it must be shown that there is a clear economic connection between the noncontiguous lands and that the inclusion of such lands in the redevelopment areas will contribute to a more effective program for economic development.

§ 302.5 Standards for designation on the basis of sudden rise in unemployment.

The Assistant Secretary shall designate those areas where he determines that the loss, removal, curtailment, or closing of a major source of employment has caused within 3 years prior to, or threatens to cause within 3 years after the date of the request of the area, an unusual and abrupt rise in unemployment of such magnitude that the unemployment rate for the area exceeds or will exceed the national average by 50 percent or more unless assistance is provided.

(a) Requests from such areas for designation must be made by the local official governing body having jurisdiction over the proposed redevelopment area.

(b) Where the loss, removal, curtailment, or closing of the major source of employment has occurred:

(1) The major source of employment shall be construed as a single firm or industry.

(2) Job losses in more than in a single firm may be considered in the aggregate where:

(i) There is a clear demonstrable economic connection between or among the firms or industries, or

(ii) More than one firm or industry has been affected by a common disaster.

(3) A major source of employment is deemed such when its loss, removal, curtailment, or closing has caused or can reasonably be expected to cause:

(i) An increase of 500 or more in the number of unemployed persons in the area, or

(ii) An increase of 2 percentage points or more in the area's unemployment rate. The percentage-point increase in the unemployment rate for the area shall be based upon the relationship of the number of jobs lost to the number of persons in the labor force of the area.

(c) Where the actual or threatened closing has caused or threatens to cause within 3 years after the date of the area's request an unusual and abrupt rise in unemployment:

(1) The rise in unemployment must be shown to be unusual or unique for the area, the industry, and the time of year.

(2) The rise in the rate of unemployment, to be considered abrupt or unusual, must have occurred or be reasonably expected to occur during a 1-year period within the qualifying span of 3 years before to 3 years after the date of the request for designation.

(d) In determining whether an area's unemployment rate can be reasonably expected to exceed the national average by 50 percent or more, consideration shall be given to those job-loss situations in which it is public knowledge that the jobs lost were or will be of a type in such great demand that the persons laid off were or will be readily reemployable.

(e) Areas designated under this section are allowed a reasonable time after designation to submit for approval an OEDP, Part 304 of this chapter. Notwithstanding, an area designated under this section which does not have an approved OEDP is not eligible for financial assistance under Titles I and II of the Act.

§ 302.6 Standards for designation on the basis of the Area Redevelopment Act.

(a) The Assistant Secretary shall designate as redevelopment areas those areas which were designated redevelopment areas under the Area Redevelopment Act on or after March 1, 1965.

(b) After the first annual review of eligibility, the areas designated under this section shall be dependent on their qualifying for continued designation under the criteria set forth in §§ 302.1–302.5.

§ 302.7 Standards for designation of public works impact program areas.

(a) The Assistant Secretary shall designate communities or neighborhoods defined without regard to political or other subdivisions or boundaries when he determines one of the following conditions has been met.

(1) A large concentration of low income persons. This includes:

(i) An area presently identified by the Office of Economic Opportunity as an urban or rural special impact area, or

(ii) An area in which a majority of the families are living in poverty, as defined by the Office of Economic Opportunity.

(2) Rural areas having substantial outmigration. This includes an area which has experienced a minimum outmigration rate of at least 25 percent during the period from 1960 to 1970 as established by the Bureau of Census or by other data indicating outmigration for a more recent 10-year period as established by the Bureau of Census.

V 38 - 15 JAN 23 73 XUM

(3) Substantial unemployment as established by an annual average unemployment rate of 8.5 percent or more during the most recent quarter for which appropriate data is available.

(4) An actual or threatened abrupt rise of unemployment due to the closing or curtailment of a major source of employment. The area must meet the qualifications as set forth in § 302.5. However, no boundary constraints, § 302.20 (a) (3) and (4), shall apply.

(b) A public works impact program area may be designated on the basis of a smaller area within the proposed redevelopment area, if the smaller area meets any one of the criteria in paragraph (a) of this section: *Provided*, The unemployed and underemployed within the smaller area will benefit from the proposed designation of the public works impact program area.

(c) No public works impact program area designated under this section shall be eligible to be considered a redevelopment area for the purposes of district designation.

§ 302.8 Standards for designation of special impact areas.

The Assistant Secretary shall designate special impact areas where:

(a) One of the following criteria have been met:

(1) A large concentration of low-income persons, or

(2) Rural areas having substantial out-migration, or

(3) Substantial unemployment, or

(4) Actual or threatened abrupt rise of unemployment due to the closing or curtailment of a major source of employment.

(b) Written requests have been submitted by State or local governments, agencies or instrumentalities thereof, or with the concurrence of the appropriate governmental authority of the political subdivision of which the area is a part, by any public or private nonprofit organization or association representing the area for which designation is sought. Requests should contain the following material:

(1) A description of the proposed boundary and facility characteristics of the proposed special impact area including a map showing the relation to the larger area to which it is a part. Such description should show conformity with area wide zoning ordinances and appropriate land use plans.

(2) A description of the socioeconomic characteristics of the proposed special impact area.

(3) An OEDP.

(4) Written evidence of support from members of the community at large.

(c) No special impact area designated under this section shall be eligible to be considered a redevelopment area for the purposes of district designation.

§ 302.9 Standards for designation on the basis of the Economic Opportunity Act of 1964, as amended.

The Secretary shall designate those areas selected as special impact areas under the Economic Opportunity Act of 1964 and funded by the Office of Economic Opportunity.

§ 302.10 Standards for designation on the basis of per capita employment.

The Assistant Secretary shall designate as redevelopment areas those areas which have suffered a significant decline in per capita employment. Such areas shall be defined as those having a decline in per capita employment of more than 1.2 percentage points between 1960 and 1970, and which also have net outmigration during the same period, as determined by the 1970 census.

§ 302.11 Exception to criteria for qualification.

The Assistant Secretary shall designate in a State which has no redevelopment area that area which most nearly qualifies under §§ 302.1–302.10 of this subpart. However, an area qualified in this manner shall be terminated if any other area within the same State subsequently becomes qualified.

Subpart B—Limitations on Designation of Areas

§ 302.20 Standards for designation on the basis of limitations as to size and boundaries of redevelopment areas.

(a) The Assistant Secretary shall determine the size and boundary of redevelopment areas.

(1) No area will be designated which does not have a population of at least 1,500 persons, except for areas designated in accordance with §§ 302.4 and 302.7–302.9.

(2) Except for areas designated in accordance with §§ 302.4–302.9, no area will be designated which is smaller than a "labor area" (as defined by the Secretary of Labor), a county, or a municipality with a population of over 250,000 persons, whichever the Assistant Secretary deems appropriate.

(3) All parts of the area seeking designation under § 302.5 must be contiguous.

(4) Delineation of the area designated under § 302.5 must be based on a reasonable grouping of census tracts or similar geographical units, or the area must be defined by specific boundaries incorporating commercial or industrial sites and enterprises which can offer employment opportunities for the work force of the area.

(b) No area shall be designated until it has an approved overall economic development program except those areas eligible for designation under §§ 302.5 and 302.7.

(c) Areas qualified in accordance with § 302.5 may be designated subject to the receipt of an acceptable OEDP within 6 months following such conditional designation, or within such additional period as the Assistant Secretary may grant for good cause.

(d) Any area, other than those areas eligible for designation pursuant to §§ 302.5 and 302.7, which does not submit an acceptable OEDP within 6 months after notification of its qualification for designation, shall not thereafter be designated prior to the next annual review of eligibility; however, such period may be extended for good cause.

Subpart C—Standards for Designation of Areas Under Section 102 of the Act

§ 302.30 Standards for designation on the basis of Title I.

The Assistant Secretary will designate as Title I Areas those areas which the Secretary of Labor determines, on the basis of available unemployment statistics, were areas of substantial unemployment during the preceding calendar year. Substantial unemployment for the purpose of this section is defined as an average unemployment rate of 6 percent or more during the preceding calendar year.

Subpart D—Annual Review, Modification, and Termination of Designated Areas

§ 302.40 Adjustment of boundaries.

(a) The Assistant Secretary may make minor modifications in the boundaries of redevelopment areas designated under §§ 302.1 through 302.11 and § 302.30 where—

(1) Such modification will contribute to a more effective program for economic development within such area.

(2) There is a request in writing which—

(i) Outlines the exact extent of the boundary adjustment.

(ii) States how the absence of the boundary adjustment would impede the implementation of the approved OEDP.

(iii) States why a specifically proposed project cannot be located within the existing boundaries of the designated redevelopment area.

(3) The interested State official or agency is informed and given opportunity to submit comments on the request or endorse the request.

(b) No additional area will be included within the boundary line within the redevelopment area than is necessary to accomplish the project for which the boundary adjustment is being sought.

§ 302.41 Annual review of area eligibility and termination.

(a) Prior to December 1 of each year, the Assistant Secretary will conduct an annual review of area eligibility.

(b) The review will be made to determine:

(1) Whether there are any newly qualified areas.

(2) Which previously qualified areas continue to meet established qualification criteria.

(3) Whether the designation status of an area is to be terminated or modified in accordance with the prescribed standards. Any area designated under § 302.11 shall have its designation terminated if any other area in the State subsequently becomes designated as a redevelopment area.

(c) Notice of termination of an area's designation shall be given to local, State, and national officials not less than 30 days before its effective date.

(d) The termination of an area's designation status will not:

(1) Affect the validity of any application filed or contract or undertaking entered into, with respect to such area prior to such termination, so long as the applicant pursues such application diligently and submits promptly thereafter such information as the Assistant Secretary may from time to time request.

(2) Prevent any area from being designated in the future if it again satisfies the criteria for designation.

(3) Be made in the case of any designated area where the Assistant Secretary determines that an improvement in the unemployment rate of the area is expected to be of short duration.

(4) Be made when it would result in a State having no designated redevelopment area.

Subpart E—Notice

§ 302.50 Notification of public officials.

(a) The Assistant Secretary shall notify local, State, and national officials of:

(1) An area's qualifying under criteria set forth in §§ 302.1–302.11 and § 302.30.

(2) An area's designation when all the requirements have been met.

(3) Termination or modification of qualifying or designation status.

(b) Those officials to be notified are:

(1) The two Senators from the State and the Congressman within whose district the area is located.

(2) The elected local official(s) of the area.

(3) The chairman of the OEDP committee.

(4) The State agency designated by the Governor to handle EDA activities.

(5) The appropriate Economic Development Administration Regional Office.

(c) Notice of termination will be at the conclusion of the annual review of area eligibility.

(d) Notice of qualification will be at the conclusion of the annual review except when qualified for termination as the result of a special unemployment survey made during the year.

(e) Notice of designation is made immediately following the official designation action, whenever such action is taken.

§ 302.51 Lists of redevelopment areas and centers designated under the Act.

The Economic Development Administration will maintain current lists of areas and centers designated under the Act. The lists shall be kept available for public inspection during the regular business hours of the Department of Commerce. Inquiries for such lists shall be made to the Deputy Assistant Secretary for Economic Development Planning, Economic Development Administration, Department of Commerce, 14th and Constitution Avenue NW., Washington, D.C. 20230.

Subpart F—Information

§ 302.60 Information.

Upon the request of the Assistant Secretary the heads of such governmental agencies as may be appropriate are authorized to conduct such special studies, obtain such information, and compile and furnish to the Assistant Secretary such data as the Assistant Secretary may deem necessary or proper to enable him to make the determinations provided for in this Part. The Assistant Secretary shall reimburse when appropriate, out of any funds appropriated to carry out the purposes of the Act, the foregoing officers for any expenditures incurred by them under this section.

PART 303—ECONOMIC DEVELOPMENT DISTRICTS

Subpart A—Standards for Designation, Modification and Termination of Economic Development Districts

Sec.
303.1 Authorization of economic development districts.
303.2 Designation of economic development districts.
303.3 Designation of nonfunded districts.
303.4 District organization.
303.5 Coordination with State and local organizations.
303.6 Modification of district boundaries.
303.7 Termination and suspension of district designation.
303.8 Benefits.

Subpart B—Standards for Designation, Modification, and Termination of Economic Development Centers

303.10 General standards for designation of economic development centers.
303.11 Number of economic development centers per district.
303.12 Boundaries of economic development centers and boundary modifications.
303.13 Termination and suspension of economic development centers.
303.14 Redevelopment centers.

Subpart C—Financial and Other Assistance to Economic Development Centers and Districts

303.20 Financial assistance to economic development centers.
303.21 Economic development center project characteristics.
303.22 Grant rate for economic development center projects.
303.23 Supplementary grants to district redevelopment areas.
303.24 Financial assistance to redevelopment centers.
303.25 Assistance to economic development districts.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce organization order 10-4 (April 1, 1970).

Subpart A—Standards for Designation, Modification and Termination of Economic Development Districts

§ 303.1 Authorization of economic development districts.

(a) The Assistant Secretary may authorize the Governor(s) of the State or States the delineation of economic development district (hereinafter district) boundaries as a prerequisite to designation of an economic development district and as a prerequisite to the provision of planning grants, Subpart B of Part 307 of this chapter.

(b) Authorization of delineation of districts may be made:

(1) Where the State or States after analyzing economic and social relationships among the various redevelopment areas and nonredevelopment area counties proposed to EDA a tentative district boundary delineation.

(2) Where the district proposed for authorization meets the general standards for designation set forth in § 303.2.

(3) Where a consideration of the following factors has been made:

(i) The percentage of the population living in redevelopment areas.

(ii) District per capita income.

(iii) The percentage of families with annual income below the poverty threshold.

(iv) Unemployment rates and labor force participation rates of the proposed district.

(v) Economic characteristics of economic growth centers.

(vi) The proposed district's readiness to hire a professional staff and begin work.

(4) Where the district proposed for authorization of delineation of boundaries conforms to an officially delineated sub-State district, if such exists, or where the Governor has provided the Assistant Secretary with an explanation and support from any variation of the officially delineated sub-State district.

§ 303.2 Designation of economic development districts.

The Assistant Secretary is authorized to designate economic development districts with the concurrence of the States in which the districts will be wholly or partially located.

(a) Where the proposed district is of sufficient size or population, and contains sufficient resources, to foster economic development on a scale involving more than a single redevelopment area.

(b) Where the proposed district contains two or more redevelopment areas.

(c) Where the proposed district contains one or more redevelopment areas or economic development centers identified in an approved district overall economic development program (hereinafter OEDP) as having sufficient size and potential to foster the economic growth activities necessary to alleviate the distress of the redevelopment areas within the district.

(d) Where the proposed district has a district OEDP which identifies one or more proposed economic growth centers, includes adequate land use and transportation planning, contains a specific program for district cooperation, self-help, and public investment and is approved by the State or States affected and by the Secretary.

(e) Where at least three-fourths of the counties within the proposed district

V 38 - 15 JAN 23 73 XUM

boundaries have submitted documentation of their commitment to support the economic development activities of the district.

(f) Where the proposed district requests such designation.

§ 303.3 Designation of nonfunded districts.

Designation is not limited to districts receiving EDA planning grants. However, any nonfunded district receiving authorization and designation is subject to the same criteria and organization requirements applicable to funded districts.

§ 303.4 District organization.

(a) The district organization is a prerequisite to initial and continued designation of an economic development district and to provision of planning grants.

(b) (1) District organizations may incorporate as nonprofit organizations under the laws of the State or States in which they are located.

(2) Other organizational forms may be accepted when incorporation is not feasible or when State law specifies such other forms.

(c) (1) The governing board of the district organization shall be broadly representative of the principal economic interests of the district, including business, labor, agriculture, minority groups and representatives of the unemployed and underemployed. District organizations shall comply with Subpart E of Part 311 of this chapter.

(2) The governing board of the district organization shall include at least a simple majority of elected public officials.

(3) The governing body of each county and major city which joins the district shall name an elected official to represent it in the district organization.

(d) (1) The district governing board shall be assisted by a professional staff drawn from professional personnel in planning, economics, business administration, engineering, and related disciplines.

(2) The professional staff shall coordinate with local, State, regional and Federal organizations and shall work closely with redevelopment area representatives, and others within the district in carrying out proposals which further economic development.

(3) EDA may provide planning grants to economic development districts to employ professional staff, Subpart B of Part 307 of this chapter.

(e) The district organization engages in a continuous planning and action process involving self-analysis, identification of problems and potentials, establishment of economic development goals and strategy and program implementation. Its activities include the following:

(1) Establishment of a strong and broadly supported economic development process.

(2) A professional analysis of the district's economy.

(3) Formulation of an effective economic development program.

(4) Implementation of the district's development program.

(5) Coordination of Federal, State, and local development activities within the district.

§ 303.5 Coordination with State and local organizations.

The Assistant Secretary will cooperate with State and local organizations in activities leading to designation of economic development districts including participation in the district program, formulation of the OEDP, and identification and analyses of potential economic growth centers.

§ 303.6 Modification of district boundaries.

The Assistant Secretary, with concurrence of the State or States affected, may modify the boundaries of a district consistent with standards for authorizing new districts set forth in § 303.1 if the Assistant Secretary determines that such modification will contribute to a more effective program for economic development.

§ 303.7 Termination and suspension of district designation.

(a) The Assistant Secretary will, upon 30 days' prior notice, terminate or suspend the designated status of an economic development district:

(1) Where a district no longer meets the standards for designation set forth in § 303.2.

(2) Where a district has not maintained a currently approved district OEDP in accordance with Part 304 of this chapter.

(3) Where a district has requested termination with the approval of the State or States affected.

(4) Where a funded district falls to comply with terms and conditions of an EDA planning grant agreement.

(b) Terminations and suspensions resulting from failure to comply with title VI of the Civil Rights Act of 1964 will be processed in accordance with the provisions of that Act.

§ 303.8 Benefits.

(a) Designation of an economic development district is a prerequisite to EDA providing financial assistance to economic development centers.

(b) Projects in redevelopment areas which are located within designated economic development districts and which actively participate in the economic development district's OEDP planning process are eligible for 10-percent bonus grants, §§ 303.23 and 305.6 of this chapter if the project is consistent with a currently approved district OEDP.

Subpart B—Standards for Designation, Modification, and Termination of Economic Development Centers

§ 303.10 General standards for designation of economic development centers.

The Assistant Secretary may designate an economic development center if such proposed center:

(a) Has been identified and included in an approved district OEDP.

(b) Is recommended by the State or States affected. Written concurrence from the State must be received by EDA.

(c) Is geographically and economically so related to the economic development district that the economic development center's economic growth may be expected to contribute significantly to the alleviation of distress in the redevelopment areas of the district.

(d) Does not have a population in excess of 250,000 according to the last preceding Federal census.

(e) May reasonably be expected to accelerate or maintain existing rates of growth in terms of population, employment, and income.

(f) Has the prospect of developing a diversified economy providing a wide range of health, educational, recreational, and cultural facilities; a relatively large local market; a relatively large well-trained labor force; and other similar qualities which encourage the continuing growth of economic activities.

(g) Is an active participant in the district economic development program.

(h) Is within a nonredevelopment area of the economic development district.

§ 303.11 Number of economic development centers per district.

The Assistant Secretary will designate the single leading growth point in an economic development district as the economic development center. However, additional centers may be designated where unusual conditions exist in the district.

(a) Where the district contains a relatively large number of redevelopment area residents who do not have reasonable community access to any one economic development center.

(b) Where the district contains several smaller growth points rather than one leading economic development center.

§ 303.12 Boundaries of economic development centers and boundary modifications.

(a) An economic development center is administratively defined as a city or grouping of contiguous incorporated places. However, where justified, boundaries may be extended to include adjoining minor civil divisions or corridors of growth between centers.

(b) The Assistant Secretary may modify either the boundaries of an economic development center or the number of economic development centers in a district after giving notice and opportunity for comment to the State or States affected, if such modification will contribute to a more effective program.

§ 303.13 Termination and suspension of economic development centers.

The Assistant Secretary may, upon 30 days prior notice to interested State and local agencies, terminate the designated status of an economic development center when—

(a) The economic development center is no longer identified or recommended for designation in an approved district OEDP.

(b) The economic development center no longer meets the standards for designation, § 303.10.

(c) The economic development center fails to actively pursue its role as an economic development center in a manner that makes a significant impact on the performance of the economic development district within which it is located.

§ 303.14 Redevelopment centers.

The Assistant Secretary may recognize a redevelopment center which meets the criteria for economic development centers but which falls in a designated redevelopment area. There is no limit on the size of the population of a redevelopment center.

Subpart C—Financial and Other Assistance to Economic Development Centers and Districts

§ 303.20 Financial assistance to economic development centers.

The Assistant Secretary may provide financial assistance (including public works and development facility loans and grants and commercial and industrial loans and working capital guarantees) in accordance with the criteria contained in Parts 305 and 306 of this chapter for projects in economic development centers when—

(a) The project will further enhance the objectives of the overall economic development program of the district in which the economic development center is located.

(b) The project will enhance the relationship between the economic development center and the economic development district, particularly the redevelopment areas.

(c) The project will achieve one or more of the following:

(1) Encourage economic growth.

(2) Discourage out-migration from the district.

(3) Have a beneficial impact on the district's redevelopment areas.

§ 303.21 Economic development center project characteristics.

Projects in economic development centers shall have one or more of the following characteristics:

(a) High job producing capability.

(b) Remove barriers of access to jobs for the target population.

(c) Ability to trigger further project activity.

(d) Ability to trigger further economic impact.

(e) Provision of facilities and services deemed essential to stimulate further growth, at a level above that normally required for simple maintenance of a substantial community.

§ 303.22 Grant rate for economic development center projects.

The grant rate for projects in economic development centers shall not exceed 50 percent of the project costs.

§ 303.23 Supplementary grants to district redevelopment areas.

Subject to the limitation that the maximum Federal share for any project may not exceed 80 percent of the aggregate cost (except as provided in §§ 305.5 and 305.6 of this chapter), the Assistant Secretary may increase the amount of grant assistance for public works and development facilities projects within redevelopment areas by an amount not to exceed 10 percent of the aggregate cost of any such project, if:

(a) The redevelopment area is situated within a designated economic development district and is actively participating in the economic development activities of the district and

(b) The project is consistent with the currently approved district OEDP.

§ 303.24 Financial assistance to redevelopment centers.

The eligibility of redevelopment centers for EDA financial assistance, including the 10 percent bonus as provided for in §§ 303.23 and 305.6 of this chapter, is the same as for any designated redevelopment area within the district. The grant rate for the redevelopment center shall be determined by the rate applicable to the redevelopment area within which it is located.

§ 303.25 Assistance to economic development districts.

Pursuant to Title III of the Act, the Assistant Secretary may provide other assistance to the district including:

(a) Technical assistance.

(b) Planning grants, Subpart B of Part 307 of this chapter, to assist the district organization in engaging a professional staff and carry on its planning activities.

(c) Research assistance.

PART 304—OVERALL ECONOMIC DEVELOPMENT PROGRAM

Sec.

304.1 OEDP requirement.
304.2 Redevelopment areas may use district OEPDs.
304.3 OEDP committee.
304.4 Initial OEDP.
304.5 Initial OEDP for districts.
304.6 Submission of initial OEDP.
304.7 The continuing program.
304.8 Progress report.
304.9 Revised OEDP.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. § 3211; 79 Stat. 570 and Department of Commerce organization order 10-4 (April 1, 1970).

§ 304.1 OEDP requirement.

(a) Approval of an overall economic development program, hereinafter referred to as OEDP, is a prerequisite for designation of a redevelopment area, title I area, or economic development district except those areas designated under §§ 302.4 and 302.6 of this chapter.

(b) A redevelopment area, title I area, or economic development district, where appropriate, is required to maintain a currently approved OEDP to retain its previous designation for eligibility to receive EDA funds.

§ 304.2 Redevelopment areas may use district OEDP's.

Those qualified areas within existing economic development districts may use the district's accepted OEDP in lieu of drawing up a separate area OEDP:

(a) Where the area has actively participated in and supported the district OEDP planning process, and

(b) Where the area has submitted a letter to EDA signed by the area's chief elected official or governing body and, where appropriate, a letter from the local OEDP committee wherein the area's decision to use the district OEDP is stated.

§ 304.3 OEDP committee.

(a) The preparation of the OEDP and the ongoing development program which it charts is the primary responsibility of the OEDP committee reporting to the board at the district level and of the OEDP committee itself at the area level, where appropriate.

(1) Area OEDP committees are required only in those areas not located in districts.

(2) However, because of the crucial role of the OEDP committee, EDA recommends that all areas establish such an organization even though located within a district and using the district OEDP, § 304.2.

(b) It is a policy of EDA that the governing body of each district shall include at least a simple majority of elected public officials (see § 303.4 for further district organization requirements).

(c) The OEDP committee shall be representative of the community so that all view points are considered in discussion and decisionmaking and all available local skills are engaged in program formulation. Representation on the committee shall include representatives of local government (county, city, and town), business, industry, finance, agriculture, the professions, organized labor, utilities, education, racial or cultural minorities, and the unemployed or underemployed. Subpart E of Part 311 of this chapter contains the requirements as to specific representation of minority groups.

(d) If an existing development group meets the criteria as set forth in paragraph (c) of this section, that group may function as an OEDP committee.

§ 304.4 Initial OEDP.

(a) The initial OEDP is the beginning of a planning program required by qualified redevelopment areas, title I areas, and economic development districts before the designation process can be completed.

V 38 - 15 JAN 23 73 XUM

(b) The initial OEDP will provide a concise and accurate background of the area or district in order to assist the local leaders and EDA to understand the current development situation. Such background may include a discussion of the district or area's geography, population, labor force, natural and manmade resources, economic and social activities.

(c) The initial OEDP will examine economic development and community improvement opportunities and problems. This includes an identification of major current activities of other organizations in connection with economic development and community improvement opportunities and problems.

(d) The initial OEDP will provide a realistic development program and work program that will be developed and implemented in an effort to:

(1) Promote the district or area's economic progress.

(2) Improve community facilities and services.

(3) Serve as a basis for a continuing planning and development program.

§ 304.5 Initial OEDP for districts.

The requirements for the initial OEDP for districts are those contained in § 304.4 and the following:

(a) The identification and proposal for designation or recognition of at least one economic growth center.

(b) An economic growth center program describing the role to be played by the proposed center in the implementation of the district wide development program, particularly as it relates to the redevelopment areas.

§ 304.6 Submission of initial OEDP.

When the initial OEDP is completed, the following steps shall be taken to obtain EDA approval:

(a) The initial OEDP of the area or district to be designated is to be reviewed by appropriate governmental bodies and all organized interested groups, especially the appropriate State agency, those organizations with OMB Circular A-95 review authority, and the EDA Regional Office.

(b) Dissenting opinions or comments from the above entities shall be submitted to EDA as attachments. If no comments are received, there shall be a note from the submitting party indicating to whom and when the OEDP was sent to the various organizations for comments.

(c) The OEDP committee shall reproduce the initial OEDP in sufficient quantity for the use of all groups taking part in the program. The local organization shall submit seven copies to its EDA Economic Development Representative including one copy for his use and six copies for the EDA Regional Office. Two copies shall also be sent to the State agency designated by the Governor to handle EDA activities and to the appropriate Regional Commission, if any.

(d) The EDA Regional Office Planning Division staff will review the OEDP for its adequacy. If the OEDP can be approved, the staff will notify the Economic Development Administration in Washington of its approval. If, however, the staff finds the initial OEDP inadequate, it will contact the chairman of the OEDP committee by letter and outline the required revisions or request a supplement.

§ 304.7 The continuing program.

After setting up and organizing the committee and submitting the initial OEDP, the area or district shall implement the development program, and periodically update the development program with annual progress reports, § 304.8, or with a revised OEDP, § 304.9.

§ 304.8 Progress report.

(a) The OEDP annual progress report for the annual designation and eligibility review for redevelopment and title I areas shall be submitted after January 1, but not later than March 31 of each year, covering the preceding calendar year.

(b) If located within an economic development district, a redevelopment area, or title I area may, at its discretion, notify EDA annually, on or before March 31, that the district annual OEDP progress report satisfactorily covers the area's own planning and programing.

(c) The annual progress report for districts shall be submitted annually 30 days after the anniversary date of the EDA planning grant, Part 307, Subpart B, and shall cover the period of the planning grant. Those districts which do not receive EDA planning grants, shall submit the report annually within 30 days of either their district designation date or their fiscal year.

(d) Extensions for submitting the area and district progress reports will be granted only under exceptional circumstances.

(e) Areas and districts submitting initial or revised OEDP during the last quarter of the calendar year will not be required to submit an annual progress report by the following March 31. The report will be due the following year covering a period of 1 year to 15 months.

(f) If the area progress report has not been submitted by March 31, or cannot be approved, the Regional Director:

(1) Will inform the area or district chairman of the nonreceipt or disapproval of the progress report.

(2) Will direct a member of the EDA regional office staff to visit and consult with the area or district chairman on the most expeditious way of submitting the progress report.

(3) May allow a reasonable extension of time (not to exceed 60 days) to prepare the report or supplemental data. Under very exceptional circumstances the Regional Director may allow a further extension. However, the report must be received not later than June 15.

(4) Will recommend that the Assistant Secretary notify the State and the affected area or district officials that the eligibility status of the area or district is suspended pending receipt of an acceptable progress report if the progress report has not been received within the required time period. This means no applications for projects for financial assistance from the affected area or district will be approved.

(g) If an unacceptable progress report was submitted, a supplement covering the deficiencies shall be prepared by the OEDP committee.

§ 304.9 Revised OEDP.

(a) A revised OEDP will be required if EDA determines that the initial OEDP of the area or district is inadequate.

(b) A revised OEDP will be required if EDA determines that the initial OEDP is outdated.

(c) An area or district shall also revise its initial OEDP if the OEDP committee determines that a complete reassessment of the local situation or a complete reassessment of the economic development program is desirable.

(d) A revised OEDP may be submitted in lieu of the annual OEDP progress report. Failure of an area or district to submit a revised OEDP in acceptable form within the time specified, and extensions thereof, may result in the suspension or termination of such area's or district's designation after 30 days written notice by EDA.

PART 305—PUBLIC WORKS AND DEVELOPMENT FACILITIES PROGRAM

Subpart A—Direct and Supplementary Grants for Public Works and Development Facilities

Sec.
305.1 Purpose.
305.2 Applicants.
305.3 Direct grants for Public Works projects.
305.4 Direct grants for Public Works Impact Program.
305.5 Supplementary grants.
305.6 Ten-percent bonus supplemental grants.

Subpart B—Public Works and Development Facility Loans

305.21 Purpose.
305.22 Applicants.
305.23 Loan requirements.
305.24 Maturity of loans.
305.25 Interest rates.

Subpart C—Specific Types of Projects

305.41 Purpose.
305.42 Hospitals, nursing homes, and convalescent care facilities.
305.43 Industrial parks and sites.
305.44 Tourism and recreation.
305.45 Vocational or skill training facilities.

Subpart D—Limitations

305.51 Assistance limitation by State.
305.52 Appalachian region.
305.53 Competition with privately owned public utilities.
305.54 Employment of local labor.
305.55 Project review and comment by local governmental authorities.
305.56 Technical feasibility.
305.57 Comprehensive planning.
305.58 Other requirements.

Subpart E—Project Costs

305.61 Purpose.
305.62 General criteria for eligible project costs.
305.63 Unallowable project costs.
305.64 Preliminary expenses as eligible project costs.

Sec.
305.65 Land, easements, and rights-of-way as eligible project costs.
305.66 Construction costs as eligible project costs.
305.67 Machinery and equipment costs as eligible project costs.
305.68 Architect/Engineer services as eligible project costs.
305.69 Legal and administrative expenses as eligible project costs.
305.70 Capitalized interest as an eligible project cost.
305.71 Financial advisors.
305.72 Previously acquired assets as part of total project cost.

Subpart F—Disbursement of Funds for Grant and Loan Projects

305.81 Policy for loans.
305.82 Interim financing in loan projects.
305.83 Early purchase in loan projects.
305.84 Bond counsel.
305.85 Private participation in bond issues.
305.86 Disbursement of funds for grants.
305.87 Installments in grant disbursements.
305.88 Construction account for grant funds.
305.89 Variance in cost of grant and loan projects.

Subpart G—Servicing of Grant and Loan Projects

305.91 Planning conference.
305.92 Financial systems.
305.93 Financial records.
305.94 Construction project bonding.
305.95 Procurement.
305.96 Contracts and subcontracts.
305.97 Title to real property.
305.98 Other requirements.
305.99 Termination for default or convenience of recipient.
305.100 Liquidation and administration of loans and evidences of indebtedness.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970).

Subpart A—Direct and Supplementary Grants for Public Works and Development Facilities

§ 305.1 Purpose.

The purpose of this subpart is to set forth the requirements and procedures pursuant to which eligible applicants in designated areas may receive Public Works direct and supplementary grants until title I of the Act.

§ 305.2 Applicants.

The following applicants are eligible for Public Works direct and supplemental grants, provided such projects are located in designated areas.

(a) Any State or political subdivision thereof, including municipalities, and all agencies, instrumentalities, and quasi-public corporations and authorities created by a State or political subdivision thereof.

(b) Indian tribes.

(c) Any private or public nonprofit organization or association representing any redevelopment area or part thereof, if EDA determines that the organization or association is potentially capable of furthering the objectives of the economic development program of the area in which it is located.

§ 305.3 Direct grants for Public Works projects.

(a) The Assistant Secretary may make direct grants not exceeding 50 percent of the costs of public works and development facility projects if he determines that the project for which the grant is sought will:

(1) Directly or indirectly:

(i) Tend to improve the opportunities in the designated area where the project is or will be located for the successful establishment or expansion of industrial or commercial plants or facilities, or

(ii) Otherwise assist in the creation of additional long-term employment opportunities for such area, or

(iii) Primarily benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964.

(2) Fulfill a pressing need of the designated area or part thereof in which it is or will be located; and

(3) Be consistent with a currently approved OEDP for the area in which it is or will be located.

(b) In the case of projects to be located in economic development centers, the following requirements must be met in addition to paragraphs (a) (1) and (2) of this section:

(1) The amount of Federal financial assistance extended must be reasonably related to the size, population, and economic needs of the economic development district;

(2) The project must enhance the economic growth potential of the economic development district or result in additional long-term employment opportunities commensurate with the amount of Federal financial assistance extended;

(3) The project must further the objectives of the economic development district in which it is or will be located.

§ 305.4 Direct grants for Public Works Impact Program.

The Assistant Secretary may make direct grants not exceeding 50 percent of the cost of a Public Works Impact Program project under sections 101 and 401 (a)(6) of the Act, if he determines that the project for which the grant is sought will:

(a) Fulfill a pressing need of the designated redevelopment area or part thereof in which it is or will be located;

(b) Provide immediate useful work primarily through construction jobs to the unemployed and underemployed persons in the redevelopment area or part thereof in which it is or will be located;

(c) Have maximum on-site employment costs as a substantial portion of the total project;

(d) Have the largest possible proportion of the project expenditures within the project area;

(e) Be such that construction can commence within 3 months and be substantially completed within 12 months;

(f) Satisfy public need and timing in getting construction underway and becoming operational.

§ 305.5 Supplementary grants.

(a) Subject to the limitations on the maximum Federal share for projects, set forth in paragraph (b)(3) of this section, EDA may make supplementary grants to enable eligible applicants under § 305.2 to take maximum advantage of EDA direct grants pursuant to §§ 305.3 and 305.4, and such existing or future Federal grant-in-aid programs that in opinion of the Assistant Secretary further the purposes of the Act.

(b) In determining the amount of any supplementary grant assistance which would raise the EDA share to more than 50 percent of the aggregate cost of a project, the Assistant Secretary will take into consideration the following factors (Projects of Indian Tribes which are concerned with general economic development will be given special consideration, and the Assistant Secretary may reduce or waive the non-Federal share for such projects):

(1) The nature of the project to be assisted.

(2) The amount of such fair user charges or other revenues as the project may reasonably be expected to generate in excess of those which would amortize the local share of initial costs and provide for its successful operation and maintenance (including depreciation).

(3) The maximum grant rate for projects in designated areas, determined by relative needs as follows:

Projects	Maximum grant rates (percent)
(i) Projects of Indian tribes which are or will be located on Indian reservations, or trust or restricted Indian-owned land areas	100
(ii) Projects located in redevelopment areas designated under section 401 (a)(6) of the Act, applied for by States or political subdivisions thereof which have demonstrated they have exhausted their effective taxing and borrowing capacity	100
(iii) Projects located in redevelopment areas designated under section 401 (a)(6) of the Act but which cannot meet the requirements of paragraph (b)(3)(ii) of this section	80
(iv) Projects located in areas designated under Title I or Title IV of the Act, which areas have been designated by the President of the United States under the Disaster Relief Act of 1970 (Public Law 91-606), provided: (a) Such areas retain both EDA and disaster designations, and (b) Such concurrent designation has not exceeded one year in duration	80
(v) Projects located in redevelopment areas in which the median annual family income is $3,743 or below or the annual unemployment rate is 12 percent or higher	80%
(vi) Projects located in redevelopment areas in which the median annual family income is $3,744 to $4,004 or the annual average unemployment rate is 10 percent to 11.9 percent	70%
(vii) Projects located in redevelopment areas in which the median annual family income is $4,095 to $4,445 or the annual average unemployment rate is 8 percent to 9.9 percent	60%
(viii) Projects in all other areas	50%

V 38 - 15 JAN 23 73 XUM

§ 305.6 Ten percent bonus supplemental grants.

Subject to the limitation that the maximum Federal share for any project may not exceed 80 percent of the aggregate project cost or 100 percent for projects listed in § 305.5(b)(3) (i) and (ii), the Assistant Secretary may increase the amount of grant assistance for projects within redevelopment areas by an amount not to exceed 10 percent of the aggregate cost of any such project if:

(a) The redevelopment area is situated within a designated economic development district and is actively participating in the economic development activities of the district; and

(b) The project is consistent with a currently approved district OEDP.

Subpart B—Public Works and Development Facility Loans

§ 305.21 Purpose.

The purpose of this subpart is to set forth the requirements and procedures pursuant to which eligible applicants in designated areas may receive loans for public works and development facilities under section 201 of the Act.

§ 305.22 Applicants.

The following applicants are eligible for Public Works and Development Facility loans, provided such projects are located in designated areas.

(a) Any State or political subdivision thereof including municipalities, and all agencies, instrumentalities, and quasi-public corporations and authorities created by a State or political subdivision thereof.

(b) Indian tribes.

(c) Any private or public nonprofit organization or association representing any redevelopment area or part thereof if EDA determines that the organization or association is potentially capable of furthering the objectives of the economic development program of the area in which it is located.

§ 305.23 Loan requirements.

The Assistant Secretary may purchase evidence of indebtedness and make loans for public works and development facilities in redevelopment areas and centers if he determines that:

(a) The project for which the loan is sought will directly or indirectly:

(1) Tend to improve the opportunities in the redevelopment area or center where the project is or will be located, for the successful establishment or expansion of industrial or commercial plants or facilities;

(2) Otherwise assist in the creation of additional long-term employment opportunities for such redevelopment area or center; or

(3) Primarily benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964;

(b) The funds requested for such project are not otherwise available from private lenders or from other Federal agencies on terms which in the opinion of the Assistant Secretary will permit the accomplishment of the project;

(c) The amount of such loan plus the amount of other available funds for such project are adequate to insure the completion thereof;

(d) There is a reasonable expectation of repayment; and

(e) The project is consistent with a currently approved OEDP for the area, or district (if any), in which it will be located.

§ 305.24 Maturity of loans.

Loans must be repaid within the minimum reasonable time which the Assistant Secretary finds to be consistent with the financial capabilities and prospects of the applicant. In no event may a loan, including renewals and extensions thereof, be made, or evidence of indebtedness be purchased, with a maturity exceeding 40 years.

§ 305.25 Interest rates.

Loans made under this subpart will bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 percent, less not to exceed one-half of 1 percent per annum.

Subpart C—Specific Types of Projects

§ 305.41 Purpose.

The purpose of this subpart is to state requirements for certain specific types of public works and development facility projects.

§ 305.42 Hospitals, nursing homes, and convalescent care facilities.

Applications for assistance in the construction or improvement of hospitals should be submitted to EDA only after all other efforts to obtain the requested funds have failed, including requests under the Hill-Burton program of the Department of Health, Education, and Welfare.

(a) Where no other assistance is available, it must be clearly demonstrated that:

(1) The facility requested is immediately necessary to the establishment or expansion of an identified industrial or commercial enterprise having significant employment potential in relation to the cost of the requested facility;

(2) The facility to be assisted will meet appropriate accreditation standards;

(3) The lack of medical facilities is seriously hampering the implementation of economic development programs of the community in which the project will be located and of the broader area planning and development districts or organization in which the community is located, and;

(4) The economic benefits will exceed the economic effect of employment in the construction and operation of the facility.

(b) Where Hill-Burton funds are available and supplementary assistance is requested under the Act to provide a combined grant at the applicable maximum grant level, the requirements of paragraphs (a) (2), (3), and (4) of this section must be met.

(c) In exceptional circumstances, assistance for nursing homes and convalescent care facilities may be considered if the applicant demonstrates that the facility requested is immediately necessary to the establishment or expansion of an identified industrial or commercial enterprise having significant employment potential in relation to the cost of the requested facility.

§ 305.43 Industrial parks and sites.

(a) Financial assistance is provided for public works and development facilities which will serve industrial parks on sites owned by public entities or nonprofit organizations where the purpose of such assistance is to provide sites for new industries in order to accelerate the economic development process of the community. The following are among the requirements for such assistance:

(1) Options held by eligible applicants to purchase land for industrial parks and sites must normally be exercised prior to construction of the project.

(2) The applicant owners or operators of an industrial park or site must covenant not to sell, lease, or otherwise make any part of such premises available for occupancy by any person, firm, or entity, unless the occupant first furnishes to the applicant, for transmittal to EDA, properly executed EDA forms:

(i) Evidencing the assurance of such occupant to comply with the Civil Rights Act of 1964, and

(ii) Evidencing that such occupancy is not in violation of the relocation prohibitions of section 702 of the Public Works and Economic Development Act of 1965, as amended. (See § 309.3 of this chapter.)

(3) Assurances must be provided that the public facilities for which EDA assistance is obtained will be retained for primary public benefit and will be available for use by the general public, and will not be transferred for the exclusive benefit of any individual user at any time, except that:

(i) Certain types of public works construction such as bulkheads and retaining walls which have as their sole purpose the prevention of soil erosion, may be funded under the Act, and may be considered a part of the industrial site, and

(ii) Assistance may be provided for the construction of public facilities designed primarily or essentially to serve a single occupant, provided that the facilities can be made available to other users if and when necessary, without the approval or consent of the single user.

(4) Public works assistance for direct site improvement or preparation of land may be considered only where it is for the purpose of reclaiming useless or uneconomic land in order to enable it to become available for long-term productive use, where no other suitable land is more readily or economically available, and where the proposed reclamation is for the primary benefit of the entire community. In such cases, assistance is strictly limited to site preparation directly connected with the reclamation aspects of the project.

(b) Financial assistance for public works and development facilities to serve privately owned industrial parks or sites may be considered, provided one or more of the following conditions are met:

(1) The private developer has secured binding commitments from industrial tenants for the use and occupancy of a sufficient portion of the land to warrant participation in the project, and the sale price of the land would not be raised as a result of the facilities assisted under the Act.

(2) Public works facilities to be assisted will serve primarily a publicly owned industrial park or site or any other public purpose, and only incidentally will serve privately held industrial land.

(3) The owner or operator of a privately owned industrial park or site will enter into an agreement with the applicant, subject to approval by EDA, that for a reasonable length of time satisfactory to EDA he will sell his unoccupied land at the fair market value existing prior to its improvement by the public works and development facilities project.

(4) The land to be served is held by an industrial firm or firms committed to construct or expand plant facilities which will employ the unemployed and underemployed in the area.

(5) The project will serve portions of a privately owned industrial park occupied by industrial firms, which require the availability of public works facilities in order to increase or expand their operations and employment. However, participation in such projects generally will be limited to serving the requirements of the identifiable users, unless the owner or operator commits himself to the requirements of paragraph (b)(3) of this section.

§ 305.44 Tourism and recreation.

(a) An applicant qualified under the Act, which is actively cooperating in the implementation of a comprehensive tourism development program and which is able to demonstrate its capability to undertake and administer a project in the tourism and recreation field, may be eligible for assistance for tourism and recreation projects.

(b) Tourism and recreation projects must meet the following requirements:

(1) There must be an overall plan for development of the tourism potential of the area in which the project is to be located on a scale sufficient to attract visitors from outside the area.

(2) The project must be a multifaceted tourism complex or an integral and essential part thereof, including facilities attractive to varied age groups and opportunities for both active and passive recreation. Projects which are not related to development of a varied tourism complex, but are of local value only, such as community swimming pools or municipal golf courses, will not be eligible.

(3) The applicant must show that:

(i) Development of tourism and recreation potential offers the only opportunity for economic growth; or

(ii) Development of tourism and recreation potential will result in a significant broadening of the economic base.

(c) Grants may be provided for the construction of facilities which will ultimately be leased or rented to private profitmaking organizations, subject to terms and conditions acceptable to the Assistant Secretary.

§ 305.45 Vocational or skill training facilities.

(a) EDA may provide financial assistance to construct or improve vocational or skill training facilities. However, financial assistance will not be provided:

(1) For secondary-level vocational schools,

(2) Except in unusual circumstances, for Junior or Community Colleges.

(b) General requirements for EDA financial assistance for vocational or skill training facilities include the following:

(1) Evidence must be presented that efforts to secure financial assistance have failed.

(2) The facility must be located in a designated area. If it is located in an economic development center, it must be easily accessible to residents of a redevelopment area.

(3) The project must contribute to the economic development program of the area. Evidence is required of the approval and support of the Employment Security Commission and State Manpower Planning Agencies.

(4) The facility must have the approval of the State Vocational Education Department and assurance that it will be included in the State Vocational Education Plan.

(5) Assurance is required of the continued financial support of operational and administrative activities and of the continuity of the operational programs in accordance with the objectives of the application to EDA.

(6) Evidence must be submitted of lack of a similar institution in the area.

(c) The vocational skill and training program must include:

(1) Designation of the unemployed, underemployed, and educationally disadvantaged adults and out-of-school youths of the area for preferential recruitment as the primary targets of the training effort to provide skilled labor for available jobs. Such designation must be supported by a demographic description of the area to be served, utilizing the most current data available.

(2) Systematic procedures, including a formal permanent staff, for recruitment of the target population as trainees and as employees.

(3) A transportation program providing for adequate, economical, and convenient transportation to serve the target population.

(4) Plans for the establishment of a formal job development and placement staff, which plans should establish placement and monitoring procedures.

(5) Procedures for promoting cooperation with local private industry in maintaining an on-going supply-demand relationship for a trained work force.

(d) The vocational skill and training facility must provide a systematic plan for the training of a present and future labor force for identifiable jobs, including:

(1) Regularly scheduled daytime and evening sessions, as required,

(2) Remedial or compensatory programs conducted prior to or concurrently with skill training to allow educationally disadvantaged students to receive basic educational skills, and should include such services as

(i) Counseling,

(ii) Referral to legal, personal, and medical consultation, and

(iii) Concentrated courses in basic arithmetic, language, and communication skills.

(e) Training facilities should not impose tuition fees except where required by State statute. Where such fees are required, evidence must be provided that funds will be made available to ensure that no member of the target population will be denied any services of the facility for economic reasons.

(f) The program staff must include professional personnel skilled in recruitment, counseling, job development, and job placement.

(g) All manpower programs are subject to periodic monitoring by EDA during and after construction of the project. A quarterly report shall be submitted to EDA by the recipient of financial assistance describing in detail program planning and staffing.

Subpart D—Limitations

§ 305.51 Assistance limitation by State.

Not more than 15 percent of the total amount appropriated by Congress for the purposes of title I of the Act may be made available for public works and development facilities within any one State.

§ 305.52 Appalachian region.

No part of the total amount appropriated by Congress for the purpose of title I of the Act may be used for any project which is located within the "Appalachian region" (as that term is defined in section 403 of the Appalachian Regional Development Act of 1965) and which has been approved for assistance under the Appalachian Regional Development Act of 1965.

§ 305.53 Competition with privately owned public utilities.

Except for projects specifically authorized by Congress, no financial assistance under this part for public service and development facilities will be approved for any facility which would compete with an existing privately owned public utility rendering a service to the public at rates or charges subject to regulation by a State or Federal regulatory body. However, approval may be

V 38 - 15 JAN 23 73 XUM

granted if the State or Federal regulatory body determines that in the area to be served by the development facility for which the financial assistance is to be extended, there is a need for an increase in such service (taking into consideration reasonably foreseeable future needs) which the existing public utility is not able to meet through its existing facilities through an expansion which it agrees to undertake.

§ 305.54 Employment of local labor.

(a) The maximum feasible employment of local labor shall be made in the construction of public works and development facility projects receiving direct grants and loans. Accordingly, every contractor and subcontractor undertaking to do work on any such project which is or reasonably may be done as on-site work, shall be required to employ in carrying out such contract work, qualified persons who regularly reside in the designated area where such project is to be located, or in the case of economic development centers, qualified persons who regularly reside in the center or in the adjacent or nearby redevelopment areas within the economic development district, except:

(1) To the extent that qualified persons regularly residing in the designated area or economic development district are not available;

(2) For the reasonable needs of any such contractor or subcontractor to employ supervisory or specially experienced individuals necessary to assure an efficient execution of the contract;

(3) For the obligation of any such contractor or subcontractor to offer employment to present or former employees as the result of a lawful collective bargaining contract, provided that in no event shall the number of nonresident persons employed under this subparagraph exceed 20 percent of the total number of employees employed by such contractor and his subcontractors on such project.

(b) Every such contractor and subcontractor shall furnish the U.S. Employment Service office in the area in which the public works or development facility project is located with a list of all positions for which it may from time to time require laborers, mechanics, and other employees, the estimated numbers of employees required in each classification, and the estimated dates on which such employees will be required;

(c) The contractor shall give full consideration to all qualified job applicants referred by the local employment service, but is not required to employ any job applicants referred whom the contractor does not consider qualified to perform the classification of work required;

(d) The payrolls maintained by the contractor shall contain the following information: the employee's full name, address, and social security number and a notation indicating whether the employee does, or does not, normally reside in the area in which the project is located or, in the case of an economic development center, in such center or in an adjacent or nearby redevelopment area within the economic development district;

(e) The contractor shall include the provisions of this section in every subcontract for work which is, or reasonably may be, done as on-site work.

§ 305.55 Project review and comment by local governmental authorities.

When the applicant is not the State, county, city, town, parish, village, or other general-purpose governmental authority of the area in which a project is to be located, the applicant must afford the appropriate local governmental body 15 days in which to review and comment upon the proposed project, and then must submit such comments, or a detailed statement of the efforts made to obtain them, with the application for Federal assistance. The following guidelines will determine which governmental body should review and comment in particular cases:

(a) If the project is located within an incorporated municipality, or substantially affects only one municipality, appropriate officials of the municipal government affected must be asked to review and comment upon the project.

(b) If the project is located outside the limits of any incorporated municipality and affects more than one municipality, the appropriate officials of the county in which it is located must be asked to review and comment upon the project.

(c) If the project is located within an Indian reservation, appropriate authorities of the reservation must be asked to review and comment upon the project.

(d) If the project substantially affects several major political subdivisions, review and comment by several local governments may be required, as the Assistant Secretary may deem appropriate.

(e) Additional time for comment may be requested by local governmental authorities.

§ 305.56 Technical feasibility.

Completed plans and specifications are not required in applications for public works and development facilities, except for applications for Public Works Impact Program projects.

(a) Sufficient information to determine the nature and scope of the project, its probable useful life, and a reasonable estimate of cost is required.

(b) The design and performance criteria must conform to professionally recognized national standards and must adequately define the technical capability of the project to serve current and foreseeable needs.

(c) Evidence of unorthodox design must be fully justified by the applicant.

§ 305.57 Comprehensive planning.

A project should result from and conform to the OEDP for the area and, where applicable, should be designed as an integral part of any existing or planned functional system unless EDA determines there is sufficient justification for deviation.

§ 305.58 Other requirements.

The requirements of Part 309 of this chapter are pertinent to EDA public works assistance.

Subpart E—Project Costs

§ 305.61 Purpose.

The purpose of this subpart is to set forth requirements and procedures with regard to project costs in public works and development facility projects.

§ 305.62 General criteria for eligible project costs.

EDA will participate in the costs of a project to the extent to which EDA determines such costs are eligible for assistance. To be eligible for assistance, costs must meet the following general criteria:

(a) Costs must be necessary and reasonable for the project, and not general expenses required to carry out the overall responsibilities of the recipient.

(b) Costs must be authorized or not prohibited by applicable Federal, State, or local laws or regulations.

(c) Costs must be accorded consistent treatment through application of appropriate generally accepted accounting principles.

(d) Costs must not be allocable to or included as a cost of any other federally financed project in either the current or a prior period.

§ 305.63 Unallowable project costs.

The following costs are not allowable project costs:

(a) Bad debts, including any losses arising from uncollectible accounts and other claims, and related costs.

(b) Costs resulting from changes in project scope.

(c) Contributions and donations.

(d) Entertainment, including costs of amusements, social activities, and incidental costs relating thereto.

(e) Fines and penalties, including costs resulting from violations of, or failure to comply with, Federal, State, and local laws and regulations.

(f) Governor's expenses, including the salaries and expenses of the Office of the Governor of a State or the chief executive of a political subdivision.

(g) Interest and other financial costs unless specifically allowable by EDA.

(h) Legislative expenses, including salaries and other expenses of the State legislature or similar local governmental bodies, whether incurred for purposes of legislation or executive direction.

(i) Under-recovery of costs under grant agreements.

§ 305.64 Preliminary expenses as eligible project costs.

Eligible project costs for preliminary expenses include specific costs, except for construction costs, for noncustomary engineering or special services incurred prior to submission of the application for financial assistance, which costs are directly related to the development and/or the feasibility of the project or the application. Where supplementary grant assistance to that of another Federal agency is being provided, the policies of that agency apply and only those preapplication costs recognized by the other agency will be considered eligible.

§ 305.65 Land, easements, and rights-of-way as eligible project costs.

(a) Costs necessary for project site acquisition, including land, rights-of-way, and easements, may be eligible project costs if such interests in land will remain in public ownership or for public use and if applicable requirements of § 305.72 are met.

(b) Costs directly related to such acquisition, including costs of deeds, title search/title clearing, and appropriate surveys may also be allowed as eligible project costs.

(c) When financial assistance is provided under the Act for a project, tandem to or interconnected with, a project funded by another Federal agency, costs for land on which to construct both facilities may be included in the EDA assistance.

§ 305.66 Construction costs as eligible project costs.

Eligible project costs for construction of the project include the reasonable costs of construction work to be performed under contract, including the cost of such necessary fixtures and appurtenances as are approved by EDA as part of the project. However, such costs must be reasonable and comparable to the cost of similar work awarded through open competitive bidding in the geographic area of the project.

§ 305.67 Machinery and equipment as eligible project costs.

The costs of essential movable (and where appropriate fixed), machinery and equipment needed to carry out the project, as determined by EDA, are allowable as eligible project costs. Expendable supplies, equipment available on a rental or lease basis, stockage items in excess of initial operating requirements, and luxury items are not eligible for assistance.

§ 305.68 Architect/engineer services as eligible project costs.

Eligible project costs may include costs for architect/engineer fees, resident inspection, test borings, and testing of materials provided under an agreement or contract with the recipient. However, the architect/engineer fees should be based on existing professional fee schedules and the other costs will be evaluated for conformity with similar costs in the geographic area of the project during the construction period.

§ 305.69 Legal and administrative expenses as eligible project costs.

(a) Allowable legal expenses must be reasonable and consistent with professional fees in the area of the project. Such expenses may include costs for any necessary approving opinion of bond counsel, and printing and advertising of bonds or other debt obligations, as well as other legal expenses necessary for the project.

(b) Allowable administrative expenses include the cost for audit and necessary expenses required in the preparation of a bond issue for advertised sale, as well as other administrative expenses necessary for the project.

§ 305.70 Capitalized interest as an eligible project cost.

(a) Capitalized interest during construction may be an eligible project cost for a project in which it is necessary for the recipient to borrow funds to finance construction costs and where State law permits such a loan.

(b) Capitalized interest during development may be an eligible project cost only when an EDA public works and development facility loan has been made for the project. The allowable amount is limited to that which is required to meet interest payments after the project is operating but before income is sufficient to provide for such payment. However, such amount will be an eligible project cost only to the extent that the recipient does no have any other funds or sources of revenue for such interest payments.

§ 305.71 Financial advisors.

(a) *Purpose.* This section describes EDA regulations to be followed in engaging a Financial Advisor when needed for an EDA public works project.

(b) *Policy.* EDA will authorize as an allowable project cost the use of a Financial Advisor when needed to complete funding of an approved public works project. All such Financial Advisors will be selected by the grantee and approved by the Agency. Fees for these services must be reasonable and EDA will participate in accordance with the grant percentage.

(c) *Definition.* A "Financial Advisor" is an individual or firm which is qualified by reason of training and experience to advise the applicant on structuring and marketing a private bond issue needed to complete funding of an approved EDA public works project. It may be an investment banker who deals with municipal securities; a commercial bank with a syndicate department or comparable capability; or a municipal financial consultant who advises on municipal underwritings.

(d) *Financial Advisor services.* (1) The major objectives in the incurrence of long-term debt by a unit of local government are:

(i) The adequacy of the loan and the assurance that funds will be available when needed.

(ii) The arrangement of the loan so that it blends into the existing overall debt structure.

(iii) The issuance and sale of bonds at the lowest interest cost consistent with all other considerations.

(2) Services normally performed by the Financial Advisor are:

(i) *Survey of financial resources.* The Financial Advisor shall make a survey of the financial resources of the issuing subdivision to determine the extent of its borrowing capacity. Such a survey shall include an analysis of the existing debt structure as compared to existing and projected sources of income which may be pledged to secure payment of debt service.

(ii) *Financial plan.* On the basis of information developed by the survey, the Financial Advisor shall establish a financial plan which shall be submitted to the governing body of the issuing subdivision. The financial plan shall be complete as to maturity schedule and estimated interest rate of the proposed bonds and shall reflect the resulting overall amount of debt service requirements as compared to existing and projected income sources.

(iii) *Bond elections.* If a bond election is deemed necessary, the Financial Advisor shall assemble and transmit to the bond attorneys such data as is required in preparation of the necessary petitions, resolutions, notices, etc.

(iv) *Terms of bond issue.* The Financial Advisor shall submit his written recommendations as to the various provisions, terms, and conditions of the proposed bond issue. He shall make recommendations as to the date of the issue, interest payment dates, schedule of maturities, options of prior payment, and place of payment. He shall also, whenever possible, suggest additional security provisions designed to make the issue more attractive to investors.

(v) *Selecting date of bond sale.* In the event the bonds are to be sold at competitive bidding, the Financial Advisor shall make a recommendation as to the date on which bids are to be considered. This recommendation shall be based on an estimate of expected market conditions, having given due consideration to such factors as the general trend of the bond market, conflict with offerings of other such divisions and other known relevant factors.

(vi) *Notice of sale.* If required in the marketing of bonds, the Financial Advisor will be expected to prepare and submit the following:

(*a*) Official Notice of Sale, into which shall be incorporated all necessary information as to time and place of the bond sale, the conditions under which the bonds shall be amended, and the terms and conditions of delivery.

(*b*) Prospectus: Which shall be fully descriptive of the bonds offered and which shall additionally contain complete information on the issuing subdivision.

(*c*) Uniform Bid Form: Containing provisions recognized as standard by the municipal securities industry.

(*d*) Bond Rating: If proper and desirable, to submit to the national bond rating agencies financial and economic data necessary to obtain a rating on the proposed issue.

(vii) *Bond sale—award of bonds.* The Financial Advisor shall be represented at the bond sale by experienced personnel whose services shall be available to the issuing government in the tabulation and comparison of bids.

V 38 - 15 JAN 23 73 XUM

(viii) *Issuance of bonds.* As soon as a bid for the bond shall be accepted by the issuing agency, the Financial Advisor shall proceed at once with the general consideration of the efforts of all concerned to the end that the bonds may be delivered and paid for as expeditiously as possible. His services shall be available in the passage or adoption of all required ordinances, resolutions and documents which may be required by the Attorney General of the State in which the issuing subdivision is located.

(ix) *Delivery of bonds.* It shall be the duty of the Financial Advisor to inform and assist all concerned with the delivery of the bonds, and to generally coordinate their efforts. He shall notify the purchasers of the time that payment for the bonds can be made and shall assist the issuer in the escrow of closing documents and the giving of proper instruction for the receipt and transfer of bond proceeds.

(3) The fee for Financial Advisory services shall be reasonable and be in keeping with the magnitude of the service performed. Instances may arise where the preparation of the financial package for a relatively small issuer may be intricate and time consuming. The converse situation may also arise where the preparation of a large issue for a municipality with an extensive marketing history may warrant a lower fee than might normally be expected. The financial staff, Technical Support Division, shall review and approve the Financial Advisor's fee submitted with the public works application.

(e) *Selection and approval of Financial Advisors.* Selection of a Financial Advisor for a public works project will be made by the grantee. Those firms interested in participating in the solicitation of financial advisory contracts shall file their qualifications and experience with the appropriate EDA Regional Offices. The financial staff, Technical Support Division, shall review these submissions and notify approved firms that their fees may be considered as acceptable project costs.

(f) *Financial Advisor precluded as bidder.* The Financial Advisor shall be precluded from bidding except in those cases where the best interests of the grantee and the Federal Government make it necessary that they be the bidder. Any request for a right to bid on all or a part of the issue by the Financial Advisor shall be initiated by the grantee.

(g) *Written agreement with Financial Advisor.* Agreement between the grantee and the Financial Advisor shall be in writing and shall include a listing of the services to be performed, substantially as outlined in paragraph (d) of this section, and provisions for reimbursement for services rendered and precluding the Financial Advisor from bidding except in certain circumstances. The contract shall be approved by the financial component of the Office of Public Works.

§ 305.72 Previously acquired assets as part of total project cost.

(a) The value of land and facilities (including buildings, machinery, and equipment) acquired by the recipient before receipt of public works and development facility assistance, may be allowed as part of the total project cost if the following conditions are met:

(1) The land and/or facilities are so physically related to the project as to be required for the successful functioning of the project.

(2) The facility to be constructed substantially exhausts the use of the land.

(3) The project cost does not include more land and/or facilities than EDA determines to be reasonably necessary for the successful completion of the project to be constructed.

(4) Easements and rights-of-way meet the additional requirements of paragraph (d) of this section.

(b) EDA will not grant or lend more than the difference between the total project cost and the value of such previously acquired land and/or facilities.

(c) The value of such previously acquired land and/or facilities will be set at a conservative figure determined by EDA appraisal or by an independent appraiser satisfactory to EDA, but in no event shall the valuation exceed the amount of equity in such assets actually owned by the recipient.

(d) In exceptional circumstances, previously acquired easements and rights-of-way may be included in project costs, however such previously acquired easements and rights-of-way will not be included in project cost at a sum in excess of the lower of their actual cost or their current fair market value. In addition, the following conditions must be met:

(1) The easements and/or rights-of-way must have been purchased for value and for the specific project.

(2) The successful construction of the project must require inclusion of the easements and rights-of-way.

(e) Where an EDA grant is supplementary to a basic grant from another Federal agency, the policy of that agency regarding inclusion of previously acquired assets in the project cost will be controlling.

Subpart F—Disbursement of Funds for Grant and Loan Projects

§ 305.81 Policy for loans.

It is the policy of EDA to purchase, when the project is physically 75 percent complete, the bonds or promissory notes stated in the EDA "Offer of Loan."

§ 305.82 Interim financing in loan projects.

Borrowers may, on request, receive from EDA the form entitled "Statement of Interest with Respect to an EDA Development Loan" to aid them in obtaining interim financing from sources other than EDA. This form is not an unqualified pledge, since the borrower has yet to comply with the terms and conditions of the EDA "Offer of Loan." The terms and conditions of the interim financing are subject to prior approval by EDA.

§ 305.83 Early purchase in loan projects.

(a) EDA may, in its discretion, make an early purchase of all or part of bonds or promissory notes, upon presentation of facts and documentation establishing, to EDA's satisfaction, the borrower's inability to obtain interim financing.

(b) Approval of such early purchase shall be made after receipt by EDA of:

(1) A favorable preliminary approving opinion of bond counsel on the validity of the proposed interim and final bond or promissory note and

(2) Satisfactory evidence of receipt of firm construction, service, and/or supply bids as well as compliance with the other loan conditions required to be fulfilled before disbursement. Advances or partial purchases shall be made in units of not less than 25 percent spaced so as to enable the Borrower to pay incurred costs as they come due. Advances must be deposited in a bank with Federal Deposit Insurance Corporation coverage, and the balances exceeding such coverage must be collaterally secured as provided in 12 U.S.C. 265.

§ 305.84 Bond counsel.

The Borrower must receive prior approval by EDA when engaging bond counsel, trustees, and paying agents. EDA shall approve or disapprove, for its participation, the fees for Bond Counsel and trustees, in part on the basis of compliance with EDA requirements as to bond issues.

§ 305.85 Private participation in bond issues.

(a) It is EDA policy to maximize private participation for each of the designated blocks of the bond issues subject to the offer of purchase by EDA.

(b) The borrower shall accord preference to bids by non-EDA bidders for an entire bond issue over bids for individual or combined blocks, and preference to bids for combined blocks over bids for individual blocks.

(c) In calculating the net interest cost of the respective non-government bids, the borrower shall exclude the bid submitted by EDA.

§ 305.86 Disbursement of funds for grants.

Disbursements of funds for grants are made upon application to EDA for disbursement and

(a) After execution of all contracts required for the completion of the project,

(b) For itemized and certified eligible costs incurred, as substantiated by such documentary evidence as EDA may require,

(c) For the percentage of EDA participation, but in no event for more than the total sum, stated in the "Offer of Grant" accepted by the grantee,

(d) Upon proof that grantee's proportionate share of funds is on deposit,

(e) After a determination by EDA that all applicable conditions of the grant have been met,

(f) Upon proof that the grantee has withheld 10 percent from all contractors and suppliers who have not had EDA inspection and approval, and

(g) After such other requirements as EDA shall establish are met and approved.

§ 305.87 Installments in grant disbursements.

Disbursements are normally made in four installments, as follows:

(a) For up to 25 percent of the total grant, after all contracts are awarded,

(b) For an additional 50 percent when the project is completed to that amount,

(c) For an additional 15 percent when the project is at least 90 percent completed,

(d) For the remaining grant sums when EDA approves a final audit of the eligibility of the project costs, unless such audit indicated another amount is due.

§ 305.88 Construction account for grant funds.

Grantees shall establish a construction account in accordance with applicable Federal law, into which grant funds shall be deposited and from which payments therefrom shall be made. Payments from this account may not be made for change orders without specific EDA approval.

§ 305.89 Variance in cost of grant and loan projects.

(a) In the event the total cost of the project shall exceed the amount stated in the "Offer of Grant," the grant disbursement will be based on the grant rate percentage for EDA participation revised to reflect a figure equal to the rate multiplied by the total project cost.

(b) In the event the total cost of the project shall be less than the amount stated in the "Offer of Grant," the grant rate will be unchanged.

Subpart G—Servicing of Grant and Loan Projects

§ 305.91 Planning conference.

After the EDA offer of financial assistance has been accepted by the applicant, EDA will schedule a planning conference to explain EDA requirements for administration of projects. If representatives of the grantee or borrower, who have been authorized by EDA to attend such conference, must travel to an EDA Regional Office, the costs of such travel shall be eligible for proportionate reimbursement as a project cost.

§ 305.92 Financial systems.

(a) Grantees shall establish financial management systems in accordance with applicable Federal law.

(b) Borrowers shall establish such systems as are necessary in accounting for revenues to be applied to the payment of the loan and for the allocation of expenses.

§ 305.93 Financial records.

Financial records, supporting documents, statistical records, and all other records pertinent to the project shall be kept and preserved so long as any sum shall be due and unpaid to EDA or its successor agency or agencies and for at least 3 years thereafter, with the following qualifications:

(a) If EDA audit findings have not been resolved, these records are to be retained beyond the 3 year period;

(b) Records for nonexpendable property shall be retained for 3 years after its final disposition;

(c) The retention period starts from the date of the submission of the final expenditure report;

(d) In nonconstruction grants and loans, or for construction contracts for less than $100,000, the grantee or borrower shall utilize the retention requirements set by State or local law, as applicable.

§ 305.94 Construction project bonding.

Where construction contracts exceed $100,000, the minimum bonding requirements shall be as follows:

(a) A bid guarantee is required from each bidder equivalent to 5 percent of the bid price,

(b) A performance bond is required on the part of the contractor for 100 percent of the contract price, and

(c) A payment bond is required on the part of the contractor for 100 percent of the contract price.

§ 305.95 Procurement.

Recipients may use their own procurement procedure regulations which reflect applicable State and local law, rules, and regulations, provided that procurements made with Federal grant funds adhere to the following standards:

(a) The recipient shall maintain a code of standards of conduct which shall govern the performance of its officers, employees or agents in contracting with and expending Federal funds. Such persons shall not accept gratuities, favors or anything of monetary value from potential contractors. Such code or standards shall provide for penalties, sanctions or other disciplinary actions for violations;

(b) All procurement procedures shall provide for maximum open and free competition to avoid organizational conflicts of interest or noncompetitive practices; and

(c) Procurement procedures shall meet the following minimum requirements:

(1) Avoidance of unnecessary or duplicatory items is required.

(2) Clear and accurate description requirements are necessary ("Brand Name-or-Equal" may be used).

(3) Utilization of small business and minority owned business sources of supplies and services is required.

(4) Procurement contracts shall be appropriate for the particular procurement and the project. The "cost-plus-a-percentage-of-cost" contract shall not be used.

(5) Formal advertising shall be required unless negotiation, as permitted in subparagraph 6 of this paragraph, is necessary. Procurements of $2,500 or less need not be so advertised. Awards shall be made to the responsible bidder whose bid is responsive to the invitation, price, and other factors considered. Any and all bids may be rejected when it is in the grantee's interest and such action is in accord with applicable law.

(6) Competition shall be obtained to the maximum extent possible. However, procurements may be negotiated under the following circumstances and if EDA gives prior approval. When:

(i) There is a sole source procurement;

(ii) The procurement is less than $2,500;

(iii) The contract is for personal or professional services or the service is to be rendered by an educational institution;

(iv) No acceptable bids have been received after formal advertising; or

(v) Federal law authorizes negotiated procurement.

(7) Procurement records for contracts for more than $2,500 shall include at least the justification for the use of negotiation and contractor selection and the basis for the cost or price negotiated.

(8) A system for contract administration shall be maintained to assure contractor performance is consistent with the terms, conditions, and specifications of the contract, and to assure timely follow-up by the recipient of all purchases.

§ 305.96 Contracts and subcontracts.

In all contracts and subcontracts, the recipient shall include and require the following:

(a) Provisions for administrative, contractual, and legal remedies, and provide for sanctions and penalties as appropriate.

(b) Contracts in excess of $2,500 shall contain provisions for termination for default as well as for circumstances beyond the control of the contractor.

(c) Contracts and subcontracts shall contain substantially the same provisions contained in the grant and/or loan and which are appropriate to the contractor and subcontractor, such as requirements for compliance with applicable labor standards. The recipient shall establish procedures to assure compliance and to assure that violations are investigated.

(d) Contractors and subcontractors shall maintain records for audit and examination by EDA and the Comptroller General of the United States, as required by § 309.9 of this chapter.

§ 305.97 Title to real property.

The Grantee or Borrower must furnish evidence to EDA that it has good and merchantable title to the real property on which improvements will be located, with liens or encumbrances noted, and that it has or can acquire all necessary easements and rights-of-way. The evidence shall be presented in such manner as EDA requires.

§ 305.98 Other requirements.

(a) Grantees and Borrowers shall comply with such additional requirements as are incidental to or explicitly required by the grant and/or loan.

(b) The tabulation of project costs attached to or made a part of the loan or grant or letter transmitting the loan

V 38 - 15 JAN 23 73 XUM

or grant is the controlling budget for the project. Transfer of funds between line items therein may not be made without EDA approval.

(c) Requests by grantees or borrowers for amendments to the grant or loan shall be submitted in writing to the Regional Office for processing, and shall contain such information and documentation necessary to justify the request.

(d) All contract change orders must have prior EDA approval.

(e) A final inspection will be scheduled by the grantee or borrower, with EDA concurrence and/or participation, when the project has been completed and is functional and when all deficiencies have been corrected.

(f) Proposed subcontractors must submit a properly executed EDA "Certification Regarding Equal Employment Opportunity."

(g) Subcontractors shall submit evidence which will satisfy Federal labor standards statutes.

§ 305.99 Termination for default or for the convenience of recipient.

(a) An appropriate official of the recipient may request EDA to cancel or terminate a public works or development facility project. This request must be accompanied by a certified resolution or ordinance authorizing the requesting party to make such request. Before agreeing to such request, EDA will determine the legal sufficiency of such request.

(b) EDA may initiate a cancellation or termination action for failure by the recipient to proceed or for failure to adhere to the requirements of the grant and/or loan.

§ 305.100 Liquidation and administration of loans and evidences of indebtedness.

In the event that the Assistant Secretary determines that it is necessary or desirable to take actions to protect or further the interests of EDA in connection with loans or guarantees made or evidences of indebtedness purchased under the Act, the Assistant Secretary may:

(a) Assign or sell at public or private sale, or otherwise dispose of for cash or credit, in his discretion and upon such terms and conditions as he shall determine to be reasonable, any evidence of debt, contract, claim, personal or real property, or security assigned to or held by him in connection with loans made or evidences of indebtedness purchased under the Act,

(b) Collect or compromise all obligations assigned to or held by him in connection with such loans or evidences of indebtedness until such time as such obligations may be referred to the Attorney General for suit or collection, and

(c) Take any and all other actions determined by him to be necessary or desirable in purchasing, servicing, compromising, modifying, liquidating, or otherwise administratively dealing with or realizing on loans made or evidences of indebtedness purchased under the Act.

PART 306—BUSINESS DEVELOPMENT PROGRAM

Subpart A—Business Development Loans for Industrial and Commercial Purposes

306.31 Loan closing.
306.32 Loan servicing.
306.33 Liquidation and administration of loans and evidences of indebtedness.

Subpart C—Working Capital Guarantees

306.41 Requirements.
306.42 Maximum amount.
306.43 Conditions.
306.44 Modifications.
306.45 General requirements.

AUTHORITY: Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970).

Subpart A—Business Development Loans for Industrial and Commercial Purposes

§ 306.1 Purpose.

The purpose of this subpart is to set forth the procedures under which qualified applicants may obtain business development loans under section 202 of the Act.

§ 306.2 Applicants.

Any of the following entities or enterprises may be eligible to apply for a business development loan:

(a) A business enterprise including sole proprietorship, partnership, or corporation.

(b) A nonprofit organization or association.

(c) A State or political subdivision thereof including municipalities and all agencies, instrumentalities and quasi-public corporations or authorities created by a State or political subdivision thereof.

(d) Indian tribes.

§ 306.3 Loans.

The Assistant Secretary is authorized to make loans or purchase other evidences of indebtedness, on terms and conditions he shall establish, to:

(a) Purchase or develop land for commercial or industrial use.

(b) Purchase or develop facilities for commercial or industrial usage including:

(1) Machinery;
(2) Equipment;
(3) Fixtures;
(4) Furniture.

(c) Construct new buildings.

(d) Rehabilitate abandoned or unoccupied buildings.

(e) Alter, convert, or enlarge existing buildings.

§ 306.4 Location.

A business development loan project must be located within a redevelopment area or economic development center.

§ 306.5 Limitations.

The requirements stated in Part 309 of this chapter are pertinent to business development projects.

§ 306.6 State approval.

No application for a business development loan project will be approved by EDA until such application is approved by an agency or instrumentality of the State or political subdivision in which the project is to be located.

(a) Such agency or instrumentality must be directly concerned with the problems of economic development in such State or political subdivision.

(b) Such approval must include a determination that the project is consistent with the redevelopment area's approved OEDP, except, areas which will be designated under a "sudden-rise" criteria of the Act or redevelopment areas or economic development districts which do not have a currently approved OEDP will be evaluated if:

(i) The area will be designated within a reasonable period of time, or

(ii) Appropriate steps have been taken to secure the approval by EDA of an OEDP.

(c) Such approval of an agency or instrumentality shall be in a form satisfactory to EDA.

§ 306.7 Alleviation of unemployment.

A project for a business development loan must reasonably provide more than temporary alleviation of unemployment or underemployment within the redevelopment area in which the project will be located.

§ 306.8 Financing.

A business development applicant must provide evidence that other financing is not available on terms and conditions which, in the opinion of the Assistant Secretary, would permit completion of the project and that other lenders will not participate in the EDA business development loan. Such evidence will include:

(a) Letters from at least two qualified lending institutions declining to finance any part of the project or to participate in EDA's share of the financing.

(1) In the event only one qualified lending institution is located in the project area or lends in the project area, a letter from one qualified lending institution will be sufficient.

(2) In the event no qualified lending institutions are located in the project area or lend in the project area, certification to that effect will be sufficient.

(b) Evidence that no qualified lending institution will participate in the project financing other than on a first lien basis.

(c) Evidence that other Federal financial assistance is not available to the project.

(d) In the event that the applicant is a large corporation which would normally have its own funds available or which appears to have access to non-Federal funds sufficient to finance the cost of the project, such corporation must certify that it would not locate the proposed project within the redevelopment area if it were not for the benefits of EDA's financial assistance.

§ 306.9 Repayment.

No business development loan or purchase of indebtedness will be made unless the Assistant Secretary has determined there is a reasonable assurance of repayment. The applicant shall provide, at a minimum, the following financial information to permit the Assistant Secretary to make this determination, unless the Assistant Secretary determines certain or all of such information is not necessary:

(a) Current audited financial statements of the applicant, including balance sheets, an income statement with auditors' footnotes, and supporting statements for the three most recent fiscal years.

(b) Audited consolidated financial statements and income statements, with auditors' footnotes, of parent and subsidiaries for the three most recent fiscal years.

(c) Audited financial statements including balance sheets, income statements, and auditors' footnotes, of all affiliated companies for the three most recent fiscal years.

(d) Most recent interim financial statements of all entities listed in paragraphs (a) and (b) of this section, certified to by officers of the respective companies and maintained current during EDA loan processing.

(e) Projected pro forma balance sheets, income statements, cash flow, and supporting statements of the applicant quarterly from the date of the latest interim financial statements to the date of the commencement of project operations.

(f) Projected pro forma balance sheet at the commencement of project operations, and pro forma balance sheets, income statements, cash flow and supporting statements of the applicant monthly, for the first 12 months of project operations and annually for the three succeeding 12-month periods. Such statements and balance sheets should reflect applicant's ability to repay debt principal out of earnings commencing within the first 3 years of operations.

§ 306.10 Term.

The term of the loan should be consistent with the purpose for which it will be used and the collateral position of EDA. The term of the loan should ordinarily not be greater than the weighted average useful life of the project fixed assets; provided, however, no loan including renewals or extensions may be made for a period exceeding 25 years from the date of the note evidencing the loan or the date of purchase of evidences of indebtedness.

§ 306.11 Interest.

Loans and evidences of indebtedness purchased under this subpart will bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 percent, plus such additional charge, if any, toward covering other costs of the program as the Assistant Secretary may determine to be consistent with its purpose.

§ 306.12 Allowable project costs.

Allowable costs includible in the total project cost for purposes of EDA financing may include the cost of land, building, machinery and equipment, and reasonable contingency reserves to cover the possibility of cost increases during processing of the application and during construction.

(a) In arriving at the total fixed asset cost of the project, EDA cannot, under the Act, include any item which is considered as properly allocable to working capital.

(b) Other types of costs which cannot be financed include: leasehold interests, mineral reserves, patents, organization expenses, preproduction costs, research and development expenses, goodwill, trade or brand names, franchises, and licenses.

(c) Land, building, machinery, and equipment already owned by the applicant lien-free may be included in project costs and be treated as an in-kind equity injection by the applicant, provided they will be an integral part of the expanded operation. However, such in-kind equity credit will be limited to the lesser of (1) appraised fair market value, or (2) net book value (cost less accumulated depreciation) in the hands of the applicant, its principals, parent, subsidiaries, or affiliates; *Provided, however,* That such credit may not exceed 10 percent of eligible project costs. In-kind injections of fixed assets by a local government or nonprofit organization may be credited toward the required local participation (State, political subdivisions, or agencies thereof, and community or area organizations) to the extent of appraised fairmarket value.

(d) Land included in the total project cost may include the following:

(1) Land acquisition costs, including reasonable real estate commission if paid by purchaser.

(2) Cost of engineering fees, surveys, plats, title insurance, recording fees and legal fees incurred in connection with acquisition of land.

(3) Costs of nondepreciable grading and site improvements, as well as costs of necessary depreciable land improvements.

(4) Costs of soil tests and test borings.

(5) Preparation of plans and specifications.

(e) Buildings included in total project cost may include the following:

(1) Building acquisition costs, including reasonable real estate commission if paid by purchaser.

(2) Cost of constructing, altering, converting, rehabilitating, or enlarging buildings.

(3) Engineering, architectural, and legal fees, paid in connection with the preparation of plans and specifications and the acquisition, construction, etc. of buildings and building equipment.

(4) Insurance during construction, including hazard insurance, performance, labor and material bonds.

(f) Machinery and equipment included in total project cost may include the following:

(1) Machinery acquisition costs including cost of delivery and reasonable costs of installation.

(2) Engineering, architectural, and legal fees paid in connection with machinery selection, design, acquisition, and installation.

(3) Insurance during installation including hazard insurance, performance, labor and material bonds.

(g) Other eligible project costs may include:

(1) Interest on interim construction financing and other necessary costs of obtaining financing, with prior concurrence of EDA.

(2) Sales and use taxes incurred in the acquisition of project fixed assets.

(3) Other costs contributing directly to the value of project fixed assets, with prior concurrence of EDA, but not including the cost of feasibility studies.

(h) Adequate contingency reserves are a necessary part of the provision for project costs in order to avoid the problem of incurring an overrun in total expenditures for the project and thereby forcing a renegotiation of the loan commitment. The contingency amount should be established according to the anticipated length of time for project construction, terms of contract, type of machinery and equipment, and technological and other developments which might be expected to increase cost.

(1) (i) Contingency reserves for building construction and machinery and equipment should be established at a reasonable figure and justified by the applicant, depending upon the characteristics of the specific project.

(ii) Construction bids or estimates and machinery and equipment quotes should

V38-15 JAN 23 73 XUM

allow for sufficient time and remain valid during the estimated period of project processing or until execution of firm contracts. These quotes should not be over 60 days old when the application is submitted to EDA.

(2) Contingency reserves for land must be considered in the event an option to purchase, earnest money agreement, or real estate contract provides for a renegotiation of terms prior to project funding. The applicant will be required to provide evidence of ability to acquire the project land and any contractual arrangement therewith must be carefully reviewed in reference to establishment of a contingency for increased land costs above the project valuation at time of submission of the application.

§ 306.13 Amount of assistance.

Loan assistance shall never exceed 65 percent of the aggregate project cost to the applicant. In the event other Federal aid is available and used by the applicant to pay part of the project cost, such other Federal aid shall be subtracted from the aggregate project cost and the remainder shall be the aggregate cost for the purposes of the business development loan.

§ 306.14 Equity capital or loan.

Not less than 15 percent of the aggregate cost of a project (which may include amounts required by § 306.15) shall be provided as equity capital or a loan. Where a loan is provided:

(a) Such loan is repayable in no shorter period of time and at no faster rate of amortization than the business development loan.

(b) If such loan is secured, the security must be subordinate and inferior to the lien or liens securing the business development loan.

§ 306.15 Community share.

Not less than 5 percent of the aggregate cost of the project shall be supplied by:

(a) A State or any agency or instrumentality thereof;

(b) A political subdivision of a State or any agency or instrumentality thereof; or

(c) A community or area organization which is nongovernmental in character.

§ 306.16 Indian tribes.

Projects involving financial participation by Indian tribes are not required to meet the provisions of § 306.15. In such case, the 5 percent shall be supplied by the borrower as equity or by loan subject to the provisions of § 306.14.

§ 306.17 Waiver of community share.

The Assistant Secretary may waive all or part of the 5-percent community share of the aggregate cost of a project which is required by § 306.15, if he determines that all or part of the community share is not reasonably available to the project because of the economic distress of the area or for other good cause. The portion of the community share thus waived may be supplied by the applicant or by such other non-Federal sources as may be reasonably available to the project.

(a) In determining whether all or part of the community share is not reasonably available because of the economic distress of the area, the Assistant Secretary will consider the following factors:

(1) The extent of economic distress of the redevelopment area or district, as measured by unemployment, underemployment, and income levels;

(2) The nature and extent of the funds reasonably available to comprise the community share, as made known by the community;

(3) The extent of local support for the project, as manifested by previous bona fide community efforts to assist it financially;

(4) The extent of previous bona fide, broadly based efforts to obtain local financial support for community economic development activities generally.

(b) In determining whether all or part of the community share of the aggregate project cost is not reasonably available for other good cause, the Assistant Secretary may consider, in addition to the factors listed above, the following situations as representing sufficient good cause for waiver:

(1) Where the financial assistance is requested to replace, rehabilitate, or expand the facilities of an industrial or commercial enterprise already existing in the locality, and local investors can show a need to conserve their funds in order to encourage the establishment of new industry which will broaden the economic base of the community; or

(2) Where the Assistant Secretary determines that a bona fide community fundraising drive either has been made or, if made, would be unsuccessful in raising the necessary funds for the project, and provided that the total prior community investment in projects already assisted by either the Area Redevelopment Administration or EDA is equal to or exceeds the following amounts:

(i) Redevelopment areas eligible for 50 percent public works grants—$10 per area resident;

(ii) Redevelopment areas eligible for 60 percent public works grants—$7 per area resident;

(iii) Redevelopment areas eligible for 70 percent public works grants—$5 per area resident;

(iv) Redevelopment areas eligible for 80 percent public works grants—$3 per area resident.

§ 306.18 EDA's lien position.

In order to encourage financial participation in a project by other lenders and investors and to the extent necessary, a business development loan may be repayable only after other loans made in connection with the project have been repaid in full. The lien position of EDA may be subordinate and made inferior to lien or liens securing other loans made in connection with this project; provided, however, that nothing contained in this section shall affect § 306.14.

§ 306.19 Special considerations for projects located in economic development centers.

Business loans approved for projects located in economic development centers shall be subject to the following restrictions and limitations:

(a) The project must be consistent with a currently approved OEDP for the economic development district.

(b) The amount of the business development loan approved must be reasonably related to the size, population, and economic needs of such district.

(c) The project must enhance the economic growth potential in such district or result in additional long-term employment opportunities commensurate with the amount of financial assistance extended.

§ 306.20 Project financing.

Each project will be evaluated with the intent of obtaining a financing structure which demonstrates a minimum EDA participation in project fixed asset financing to accomplish the project, with maximum reliance on equity and junior lenders. Moreover, an EDA participation of $10,000 per job will ordinarily be the maximum acceptable for any particular project. In calculating the EDA participation per job, indirect jobs created in other parts of the local economy will not be considered. Seasonal jobs will be converted into full time job equivalents.

§ 306.21 Financing information.

The following information shall be included with respect to all participants, other than EDA, in project financing:

(a) A written commitment or firm letter of intent from participating lending institutions stating amount, interest rates, repayment terms, collateral and lien position they will require, or such other evidence as EDA may require to assure availability of funds. EDA requires that the proposed project financing upon which it bases a decision to lend remain firm, in order to obviate the lengthy reanalysis required by financing alterations proposed after EDA acceptance of an application.

(b) A written commitment by the applicant to provide equity funds, stating both the source and actual availability of funds and/or assets to be injected, and the names of the principal shareholders or owners.

(c) A written commitment of the participating local development organization or public body stating amount of commitment, interest rate, repayment terms, collateral and lien position required.

(d) A determination of the source and actual availability of local development organization funds or assets to be injected.

(e) A statement of any special conditions attaching to the financing arrangements proposed.

§ 306.22 Loan conditions.

The following loan conditions will generally be imposed on business development loans:

(a) Full personal guarantees of principals of borrower and/or related corporate guarantees by closely held corporate applicants or by the parent corporation of subsidiary corporate applicants, secured by collateral where deemed necessary, will be ordinarily required. Likewise, cross guarantees of related corporations will be required when deemed necessary to properly support the EDA loan.

(1) Guarantees should be understood to provide not only additional collateral benefits, but also to provide the necessary personal involvement of the principals required to provide assurance of continuity of job opportunities provided by the project.

(2) Applicants will provide, in the case of personal guarantors, current (not over 90 days old at the time of filing) personal financial statements signed by both husband and wife and disclosing community and individual assets and indebtedness.

(b) Applications submitted by closely held corporations, partnerships, or proprietorships dependent for their continuing success on certain individuals will ordinarily be expected to provide and assign to EDA life insurance on these key men.

(c) Loan conditions for new venture borrowers, closely held corporate borrowers and all marginally capitalized borrowers shall include restrictive covenants similar to those required by private financial lending institutions except in cases in which modification or omission of one or more of them can be clearly shown not to jeopardize EDA's reasonable assurance of both repayment of its loan and the long-term continuity of the project's employment. Restrictive covenants for well-capitalized business expansion borrowers will be tailored to the financial status of individual companies.

§ 306.23 Indian reservation projects.

In view of the inherent problems of collateralizing loans for projects to be located on Indian reservations due to the inability to obtain mortgages on such lands, project funding should afford EDA maximum collateral protection without undue hardship on the borrower. A lease agreement will enable EDA in the event of a default to reassign the right of occupancy to a third party and thereby improve the chances for continued operation of the project and the preservation of the collateral value of the loan.

§ 306.24 Feasibility reports.

(a) All new venture loan applications for a total project costing $1 million or more shall be accompanied by a technical and economic feasibility report from an acceptable independent consultant. New venture projects of less than $1 million must be accompanied by sufficient documentation to permit a determination of technical and economic feasibility.

(b) In projects which are expansions of a successful existing business or projects sponsored by a capable and financially sound parent organization, the requirement for a technical and economic feasibility report from an acceptable independent consultant may be waived by EDA. However, the prospective borrower shall provide all technical and economic information necessary for EDA to properly evaluate the application.

(c) An economic feasibility report from an acceptable independent consultant in connection with tourism and recreation facilities will be required if the cost of the proposed project exceeds $150,000. Evidence must be submitted that the proposed facility will provide services or have special attributes that tend to induce a net increase in tourist visits to the area and is part of a larger, area-wide program expected to attract tourists and provide jobs in the area. In cases where total project investment is less than the above minimums, sound judgment may require an independent feasibility study in light of the specific nature of the project.

Subpart B—Loan Closing and Servicing

§ 306.31 Loan closing.

(a) When an application is approved by the Assistant Secretary, a Loan Agreement will be submitted to the applicant. A preclosing conference will be arranged by the Regional Director, whenever the applicant requests one, to discuss the terms and conditions of the Loan Agreement.

(b) The applicant signifies acceptance of the Loan Agreement by executing the agreement. Immediately thereafter the Regional Office Loan Administrator shall arrange with the applicant (who on accepting the loan becomes the borrower) for the preparation, review, and signing of the promissory note, collateral documents, and other documents necessary to the disbursement of the loan.

(c) Periodic inspections will be made by EDA Loan Administrators to determine the satisfactory progress of the project and application of monies toward implementation of the project as set forth in the Loan Agreement. Particular attention will be paid to financial or management changes which might adversely affect the project. Loan Administrators will, for example, determine whether there is: conformance with plans and specifications, proper installation of equipment, sufficiency of funds for the completion of the project, substantiation of costs incurred, proper labor costs for compliance with the Davis-Bacon Act, and EDA approval of contract change orders.

(d) Disbursements will be made after a request by the borrower, to the Regional Office, on EDA Form "Requisition for Loan Advance." They will be based on costs incurred as certified on EDA Form "Certificate of Architect/Engineer." The latter certificate shall be issued at such time or times as the Loan Administrator shall require. A separate certificate will be required for machinery, equipment and furnishings on EDA Form "Inspection Report and Certification—Machinery and Equipment" to be signed by such individual as the Loan Administrator designates. Requests for disbursement shall be supported by such documents as the Loan Administrator may require; for example, but not limited to, copies of unpaid invoices to be paid from disbursement; copies of fully paid invoices together with lien waivers, where appropriate; and copies of cancelled checks. The Loan Administrator may withhold 10 percent of all requested disbursements on all project costs except land costs. When the Loan Administrator determines that the status of the project is such as would place EDA's interest in jeopardy the Administrator may withhold a greater percentage after stating in writing to the borrower the basis for such decision. The borrower shall, on EDA Form "Certification and Receipt" acknowledge receipt of each disbursement made by EDA.

§ 306.32 Loan servicing.

EDA personnel will make periodic visits to projects until such time as the loan has been fully repaid. Such personnel will consult with employees and officers of the borrower and obtain such information as is necessary to determine the employment levels as well as the soundness of the financial condition and management of the borrower. Requests by the borrower for modification of the Loan Agreement shall be submitted to the Regional Director, supported by such documentation and facts as would justify the request.

§ 306.33 Liquidation and administration of loans and evidences of indebtedness.

In the event that the Assistant Secretary determines it is necessary or desirable to take actions to protect or further the interests of EDA in connection with loans or guarantees made or evidences of indebtedness purchased under the Act, the Assistant Secretary may

(a) Assign or sell at public or private sale, or otherwise dispose of for cash or credit, in his discretion and upon such terms and conditions as he shall determine to be reasonable, any evidence of debt, contract, claim, personal or real property, or security assigned to or held by him in connection with loans made or evidences of indebtedness purchased under the Act,

(b) Collect or compromise all obligations assigned to or held by him in connection with such loans or evidences of indebtedness until such time as such obligations may be referred to the Attorney General for suit or collection, and

(c) Take any and all other actions determined by him to be necessary or desirable in purchasing, servicing, compromising, modifying, liquidating, or otherwise administratively dealing with or realizing on loans made or evidences of indebtedness purchased under the Act.

V 38 - 15 JAN 23 73 XUM

Subpart C—Working Capital Guarantees

§ 306.41 Requirements.

The Assistant Secretary may guarantee loans for working capital provided the following requirements have been met:

(a) The working capital loan must be made in connection with a business development loan approved under section 202(a) of the Act. Eligible working capital loan recipients include but are not limited to, lessees of the project facilities.

(b) Such loans must be made by a private lending institution. Private lending institutions include, but are not limited to, commercial banks, savings and loan institutions, insurance companies, factoring companies, investment banking organizations, and venture capital investment companies.

(c) The business development loan project must be located in a currently designated redevelopment area or economic development center.

(d) Guarantee of a working capital loan shall not be extended unless there is reasonable assurance that such loan can be repaid.

§ 306.42 Maximum amount.

No working capital guarantee shall at any time exceed 90 percent of the amount of the outstanding unpaid balance of the working capital loan.

(a) No working capital loan guarantee will be extended where the working capital loan is otherwise available from private lenders or other Federal agencies on terms, which in the opinion of the Assistant Secretary, will permit accomplishment of the project.

(b) No working capital loan will be guaranteed which is secured by a prior lien on the same assets which secure a business development loan extended under the Act.

§ 306.43 Conditions.

A working capital guarantee will generally contain the following conditions:

(a) The term of the working capital loan generally should not exceed five (5) years and the loan should be amortized in full during its term.

(b) The lending institution ordinarily will be required to maintain a collateral position, to which EDA is subrogated, in the assets of the borrower and/or principals of the borrower, such as by takjng personal guarantees and liens on inventories, receivables, and/or fixed assets. However, such liens, if taken on fixed assets, will not be placed by EDA subordination into a prior position to liens securing loans previously made under the ARA or EDA programs.

(c) An application for an EDA guaranteed working capital loan will not ordinarily be approved until the borrower is operating the project facilities, financed by an EDA business loan. Further, all project financing including applicant's equity must ordinarily be disbursed before the guaranteed working capital loan may be disbursed by the lender. The working capital loan will be restricted to working capital needs and cannot be diverted into fixed or other noncurrent assets.

(d) EDA will not ordinarily guarantee revolving type or open-end working capital loans.

(e) If the bank is secured by a third party with respect to its exposure remaining above the EDA guaranteed portion, the guarantee agreement shall be modified to provide that any interest which the bank would receive in the collateral taken for the loan (and assigned to EDA upon redemption) shall not be subrogated to the third party's interest if the third party is a principal or equity shareholder in the company financed by the EDA loan(s), until all of the company's indebtedness to EDA is paid in full. The purpose of this provision is to ensure that those persons responsible through ownership for the operation of a project do not share in the proceeds of collateral until EDA recovers fully against all its exposure.

(f) EDA may impose on the private lender a guarantee service charge of one-half of 1 percent (½ percent) per annum on the unpaid balance of the working capital loan.

§ 306.44 Modifications.

Requests by a borrower for a modification of its working capital loan guaranteed by EDA shall be submitted to the Regional Director, supported by such documentation and facts as would justify the request.

§ 306.45 General requirements.

The provisions of Part 309 of this chapter are pertinent to working capital guarantees.

PART 307—TECHNICAL ASSISTANCE, RESEARCH, AND INFORMATION

Subpart A—Technical Assistance

Sec.
307.1 Purpose.
307.2 Authority.
307.3 Projects.
307.4 Location.
307.5 Applicants.
307.6 Priority consideration.
307.7 Technical assistance through Federal personnel and contracts.
307.8 Procedures for assistance by EDA direct contracting.
307.9 Contracting procedure.
307.10 Technical assistance through grants.
307.11 Grant procedures.
307.12 Procedural grant requirements.
307.13 Limitations.
307.14 Repayment.
307.15 Repayment not required.
307.16 Records and audit—grantees.
307.17 Records and audit—contractors.

Subpart B—Planning Grants and Economic Growth Study Grants

307.21 Purpose.
307.22 Planning grant objectives.
307.23 Economic growth study grant objectives.
307.24 Applicants.
307.25 Terms and conditions.
307.26 Financial requirements.
307.27 Work program.
307.28 Continuation planning grants.
307.29 Other requirements.

Subpart C—Study, Training, and Research Program

Sec.
307.41 General.
307.42 Purpose.
307.43 Program.
307.44 Requirements.

AUTHORITY: Sec. 701, Pub. L. 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (April 1, 1970).

Subpart A—Technical Assistance

§ 307.1 Purpose.

The purpose of this subpart is to set forth the requirements and procedures pursuant to which eligible applicants may receive technical assistance under sections 301(a), 301(b), 301(d), and 301(f) of the Act.

§ 307.2 Authority.

The Assistant Secretary may provide technical assistance, pursuant to title III of the Act, which would be useful in alleviating or preventing conditions of excessive unemployment or underemployment, to designated redevelopment areas and to other areas which he finds have substantial need for such assistance, including projects of regional or national scope.

§ 307.3 Projects.

(a) Technical assistance should serve the purpose of solving problems of economic growth, and may include:

(1) Pursuant to section 301(a) of the Act.

(i) Feasibility studies,

(ii) Identifying, planning, and programing of economic development projects,

(iii) Management and operational assistance, and

(iv) Preliminary design planning and feasibility studies of development facilities.

(2) Pursuant to section 301(b) of the Act, grants to defray administrative expenses of organizations qualified to receive grants under section 301(a) of the Act. (See also Subpart B of this part.)

(3) Pursuant to section 301(d) of the Act, assistance, technical information, market research, or other forms of assistance or advice.

(4) Pursuant to section 301(f) of the Act, demonstration programs of special economic development.

(b) Technical assistance may be provided by the Assistant Secretary through:

(1) Members of this staff,

(2) Payment of funds to other departments or agencies of the Federal Government,

(3) Grants-in-aid to appropriate public or private nonprofit State, area, district, or local organizations, or

(4) Contracts with private individuals, partnerships, firms, corporations, or suitable institutions.

§ 307.4 Location.

(a) Technical assistance will be provided in areas designated as redevelopment areas, however, a nondesignated

area may also receive technical assistance, except for demonstration grants under section 301(f) of the Act, as an area of substantial need, if at least one of the following conditions is found to exist:

(1) The closing or the imminent shutdown of a major source of jobs is shown to have a highly adverse effect on the area.

(2) The area is so closely linked geographically or economically with a designated area as to substantially affect its economy.

(3) The economy problems of the area are so severe that they are leading toward substantial unemployment in the near future.

(4) The project is directed toward solving problems in a "hard-hit" part of a noneligible area, and that part appears to have persistent and substantial unemployment on the basis of readily available facts.

(5) Where an economic development district is formed under title IV of the Act, technical assistance may be rendered to that district or its economic development center.

(6) The project is one of national scope.

(b) Demonstration grants under section 301(f) of the Act may be provided only in redevelopment areas.

§ 307.5 Applicants.

(a) Applicants eligible for technical assistance, except as provided in paragraph (b) of this section, include:

(1) Local and area development organizations, for profit or nonprofit;
(2) State agencies;
(3) Federal agencies;
(4) Municipal bodies;
(5) Individuals;
(6) Partnerships;
(7) Firms;
(8) Corporations;
(9) Indian tribes;
(10) Other appropriate applicants.

(b) Only qualified nonprofit State, area, district, or local development organizations are eligible for technical assistance through grants. (See also Subpart B of this part.)

§ 307.6 Priority consideration.

Projects warranting priority consideration by EDA are those which:

(a) Can be expected to have a specific effect on employment or family income in a relatively short time.

(b) Offer assurances of effective follow-up.

(c) Benefit population groups with the greatest evidence of unemployment, underemployment, or low-family income.

(d) Are in designated areas.

(e) Would benefit additional areas.

(f) Contribute substantially to the overall objectives of the Act.

§ 307.7 Technical assistance through Federal personnel and contracts.

The Federal share of technical assistance provided by Federal personnel, or through contracts, may be 100 percent, but a maximum non-Federal contribution in cash or in kind is preferred. The EDA contribution for technical assistance through payment of funds to other departments or agencies of the Federal Government may be 100 percent of the project cost.

§ 307.8 Procedures for assistance by EDA direct contracting.

(a) Applicants for technical assistance for which EDA will directly contract for a service, may recommend potential contractors.

(b) EDA does not limit its choice to contractors suggested by the applicant and may invite contract proposals from competent, qualified individuals and organizations.

(c) Final selection of a contractor is made by the U.S. Department of Commerce according to Federal Procurement Regulations.

(d) The Government is not obligated in any way by any negotiations between the applicant (or others) and the suggested contractor.

§ 307.9 Contracting procedure.

(a) The Contracting Officer in the Department of Commerce is the sole legal party representing the Government in technical assistance contracts, including negotiation of financial terms and conditions, and award, administration, and termination of contracts.

(b) For technical assistance projects being carried out under contract, the Contracting Officer designates a Contracting Officer's Technical Representative (COTR), who is responsible for the preliminary acceptance of all the work required under the contract, including the preliminary approval of any and all reports, and such other specific responsibilities as are stipulated in various articles of the contract. The COTR is not authorized to make any commitments or otherwise obligate the Government, or authorize any changes which affect the contract price, terms, or conditions. Such changes are referred to the Contracting Officer through the COTR.

(c) Contracting is governed by Department of Commerce regulations and the Federal Procurement Regulations.

§ 307.10 Technical assistance through grants.

(a) The Federal share of technical assistance provided in the form of a grant must not exceed 75 percent of the total amount of the funds required.

(1) In determining the non-Federal share, EDA will give consideration to all contributions, both in cash and in-kind, fairly evaluated including but not limited to space, equipment, and services.

(2) No Federal funds may be included in the 25-percent non-Federal share.

(b) The Assistant Secretary may waive all or part of the 25-percent non-Federal share of technical assistance grants, except for administrative expense grants under section 301(b), if he determines that the non-Federal share is not reasonably available because of the critical nature of the situation requiring technical assistance, or for other good cause.

(1) In determining whether a critical situation exists, the Assistant Secretary will consider one or more of the following criteria:

(i) The extent of the critical situation, as measured by unemployment, underemployment, and family income levels;

(ii) The nature and extent of the funds reasonably currently available to comprise the non-Federal share, as made known by the applicant and verified by the Economic Development Administration; or

(iii) The extent of local support for the project, as manifested by previous bona fide local efforts to assist it financially.

(2) In determining whether "other good cause" exists, the Assistant Secretary will consider one or more of the following factors in addition to those listed in paragraph (b)(1) of this section:

(i) Where the technical assistance is requested to replace, rehabilitate, or expand an activity already existing in the community, and the applicant can show a need to conserve funds in order to encourage the establishment of new activities that will strengthen the economic base of the community; or

(ii) Where the Assistant Secretary determines that a bona fide local fund-raising drive either has been made or, if made, would be unsuccessful in raising the necessary funds for the project.

§ 307.11 Grant procedures.

Grant funds are disbursed directly to the applicant, who is responsible for employing personnel, hiring consultants, and planning and administering the program. EDA, however, reserves the right to approve plans for spending such funds, as well as the right to approve the qualifications of personnel, consultants, or contractors. Grant offers are made on the terms specified by the Assistant Secretary. Each grant will designate a Grant Administrator (GRA) who is responsible for the administration of the grant and liaison with the Grantee. The GRA is also responsible for evaluating the operation of the grant as executed by the Grantee, and for the preliminary approval of any and all reports and such other specific responsibilities as are stipulated in various articles of the grant.

§ 307.12 Procedural grant requirements.

(a) Grant agreements provide that the Government shall pay quarterly, or in certain circumstances more frequently, an amount to cover Federal-share funds estimated to be expended by the Grantee during the period following the payment.

(b) Contributions by the Grantee, whether in cash or in kind, are expected to be paid out at the same general rate as "Federal share" expenditure. In any event, one-half of the Grantee's share of project cost will be available, incurred, or expended by the time one-half of the Federal share has been disbursed. Exceptions to this midpoint, pro rata requirement are approved in writing by the GRA.

(c) Technical assistance grants require that any interest earned on funds paid to the Grantee under the grant

V 38 - 15 JAN 23 73 XUM

be reported and returned to the Government within 10 days after receipt of such interest, according to directions specified by the GRA. This requirement does not apply to States or State agencies, but it may apply to political subdivisions of States.

(d) Technical assistance grants require the Grantee to maintain separate records for the grant in a manner consistent with generally accepted accounting practices to safeguard the assets, insure internal control, and provide accurate and reliable accounting data and, unless otherwise authorized by the GRA, to establish a separate bank account for the funds provided under the grant. The requirement for a separate bank account does not apply to States or State agencies, however, such States or State agencies must establish a separate fund account which identifies the application of funds provided through the grant.

(e) Any amendment to a grant must be approved in writing by EDA.

(f) Evidence is required that all persons authorized to handle funds under the grant, except elected officials, are bonded or secured for an appropriate amount.

§ 307.13 Limitations.

Technical assistance shall be provided on terms and conditions set by the Assistant Secretary, subject to the following restrictions and limitations, among others:

(a) Technical assistance funds may not be used to cover the costs of work already performed or of services already provided;

(b) No technical assistance project will be approved without satisfactory assurance to the Assistant Secretary that it is not being simultaneously considered for financial support by another organization or Federal agency;

(c) All applications not of national scope will be coordinated with appropriate Federal agencies, with interest in the project.

(d) Technical assistance for tourism development must be shown to be essential to a coordinated program of economic development in the area.

(e) The Overall Economic Development Program (OEDP) for designated areas and, whenever available, for economic development districts, will be considered in the evaluation of technical assistance applications.

(f) It is preferable that applications except those for projects of national scope be reviewed by the appropriate State, district, or area economic development organization before being submitted to EDA.

(g) To assure adequate and effective planning and economical use of funds where practicable, grants for administrative expenses under section 301(b) of the Act shall be used in conjunction with other available planning grants, such as urban planning grants authorized under the Housing Act of 1954, as amended, and highway planning and research grants authorized under the Federal-Aid Highway Act of 1962.

(h) The requirements of Part 309 of this chapter pertain to technical assistance.

§ 307.14 Repayment.

The Assistant Secretary may, in his discretion, require the repayment of technical assistance under section 301(a) of the Act and prescribe the terms and conditions of such repayment.

(a) Federal costs of technical assistance projects of substantial proprietary benefit to a private individual, corporation, or other business organization are expected to be repaid to the Federal Government through arrangements agreed upon between the Government and the recipient.

(b) Repayment shall be made on one-half the first $10,000 of project cost and 100 percent of the remaining project cost.

(c) Repayment shall be interest-free and unsecured.

(d) In the case of Federal agency business loan borrowers, repayment shall be made in monthly or quarterly payments in an amount approximating, but not in excess of, payments required on the loan. They will commence subsequent to the last payment of the loan.

(e) For all other applicants or beneficiaries, the terms of repayment shall not be inconsistent with the purpose and the use of the technical assistance.

(f) When the technical assistance beneficiary is a subsidiary, repayment shall, wherever possible, be required of the parent or controlling organization in addition to its subsidiary.

§ 307.15 Repayment not required.

Repayment will be waived under the following circumstances:

(a) Whenever repayment is likely to result in a loss of economic development benefits.

(b) Whenever any of the following conditions are intrinsic to the technical assistance:

(1) It has indirect benefit to the whole community;

(2) It benefits the general business community or interest;

(3) It is already being funded, in substantial proportion, by the recipient; and

(4) It is for an applicant or beneficiary located in one of the most economically depressed areas in the country.

§ 307.16 Records and audit—grantees.

(a) All recipients of grants-in-aid under title III of the Act, other than a Department or agency of the Federal Government shall keep and preserve full written financial records accurately disclosing the amount and the disposition of any funds, whether in cash or in-kind, applied to the project, as shall adequately establish compliance with the Act (or the Area Redevelopment Act, where applicable) and the terms and conditions upon which such grants-in-aid were made.

(b) Where applicable, the grantee shall also keep project control records reflecting work progress and indicating its relationship to estimated costs and schedules.

(c) Such records shall be preserved until completion of the purpose or undertaking for which such funds were used, or until final disbursement has been made by EDA, whichever is later, and thereafter for a period of at least 3 years.

§ 307.17 Records and audit—contractors.

(a) The contractor or subcontractor in connection with technical assistance or research contracted for under title III of the Act or under the Area Redevelopment Act, shall keep and preserve detailed project control records in connection with the contract, reflecting acquisitions, work progress, expenditures and commitments and indicating their relationship to established costs and schedules.

(b) The contractor or subcontractor shall also keep such full written financial records as shall adequately establish compliance with the requirements of the Act (and the Area Redevelopment Act, where applicable) and the terms and conditions of the contract or subcontract.

(c) Such records shall be preserved for at least 3 years after final payment under the contract or subcontract.

Subpart B—Planning Grants and Economic Growth Study Grants

§ 307.21 Purpose.

The purpose of this subpart is to set forth requirements and procedures by which eligible applicants in redevelopment areas or other areas of substantial need may apply for administrative expense grants for planning under section 301(b) of the Act, and for economic growth study under section 301(a) of the Act.

§ 307.22 Planning grant objectives.

Planning grants for administrative expenses are given to enable local areas, economic development districts, Indian organizations, and other eligible organizations to establish and carry out effective economic development programs at local and multijurisdictional levels, and to provide a basis for improved coordination, and continuity of Federal, State, and local economic development activities. Planning grants should contribute to the establishment of a permanent economic development process, capable of meeting the planning, coordinating, and implementation requirements of the area, district, or reservation.

§ 307.23 Economic growth study grant objectives.

Grants for economic growth studies under section 301(a) of the Act are given to evaluate the needs of and potentials for economic growth.

§ 307.24 Applicants.

Eligible applicants for planning grants and economic growth study grants include economic development districts, Indian organizations, local-area OEDP Committees or other development organizations, whose responsibilities for carrying out overall economic development programs are clearly established, and

which are legally empowered to receive Federal funds for the above purposes. State and Federal agencies, business enterprises, individuals, and other applicants, where the purposes are to assist in the establishment of economic development program.

§ 307.25 Terms and conditions.

(a) Planning grants and economic growth study grants will be made on terms and conditions established by the Assistant Secretary, subject to the following limitations:

(1) The grants will not be made to cover the costs of work already performed or of services already provided.

(2) No grant will be extended without satisfactory assurances that no other organization or Federal agency is considering the same request for financial support to the project. However, planning grants may be used in conjunction with other planning grant programs to assure adequate, effective, coordinated, and economical use of funds.

(b) Planning grants are also subject to the following limitations:

(1) A planning grant shall not exceed 75 percent of the total amount of funds required for the project.

(i) No Federal funds may be included in the 25 percent non-Federal share.

(ii) In determining the amount of the non-Federal share, the Assistant Secretary will give consideration to contributions both in cash and in-kind, fairly evaluated, including but not limited to space, equipment, and services.

(2) No planning grants to economic development district organizations will be extended unless at least three-fourths of the counties within the district boundaries indicate by resolution or other appropriate document, their commitment to support the activities of the district.

(3) Planning grants will be made to district and area planning organizations after compliance with organizational requirements in §§ 303.4 and 304.3 of this chapter.

§ 307.26 Financial requirements.

Recipients of planning grants and economic growth grants must comply with terms and conditions of the grants relating to financial requirements, including those relating to financial reports, accounting systems, internal controls, allowable project costs, retention of records, and audits, as EDA requires.

§ 307.27 Work program.

Recipients of planning grants and economic growth grants must comply with terms and conditions of the grants relating to specific work program requirements, including those relating to the preparation of initial OEDP's and annual OEDP progress reports.

§ 307.28 Continuation planning grants.

(a) Planning grants shall be provided annually to district and area grantees provided satisfactory performances by the grantees warrant continued EDA assistance.

(b) The Assistant Secretary will make annual determinations of satisfactory performance, and periodically conduct on-site performance appraisals.

(c) The appraisals will consider the following:

(1) Capabilities and quality of the economic development program.

(2) Abilty of the grantee as an institution to advance economic development.

(3) Grantee compliance with terms and conditions of the grant offer.

(4) Grantee management practices.

(5) Grantee board participation and representation.

(6) Implementation by grantee of recommendations of the preceding appraisal.

§ 307.29 Other requirements.

Provisions of Part 309 of this chapter are pertinent to planning grants and economic growth study grants.

Subpart C—Study, Training and Research Program

§ 307.41 General.

The purpose of this subpart is to explain assistance available under section 301(c) of the Act.

§ 307.42 Purpose.

To assist in the long-range accomplishment of the purposes of the Act, EDA, in cooperation with other agencies having similar functions, under section 301(c) of the Act, conducts a continuing program of study, training, and research to:

(a) Assist in determining the causes of unemployment, underemployment, under development, and chronic depression in various areas and regions of the Nation.

(b) Assist in the formulation and implementation of national, State, and local programs which will raise income levels and otherwise produce solutions to the problems resulting from these conditions, and

(c) Assist in providing the personnel needed to conduct such programs.

§ 307.43 Program.

The program of study, training, and research is conducted:

(a) By EDA staff members

(b) Through payment of funds to other departments or agencies of the Federal Government, or

(c) Through the employment of private individuals, partnerships, firms, corporations, or suitable institutions

(1) Under contracts entered into for such purposes, or

(2) Through grants to such individuals, organizations, or institutions, or

(3) Through conferences and similar meetings organized for such purposes.

§ 307.44 Requirements.

The requirements set forth in Part 309 of this chapter and such other requirements as the Assistant Secretary shall determine necessary are pertinent to assistance under section 301(c) of the Act.

PART 309—GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE

Sec.
309.0 Purpose.
309.1 Certification as to waste treatment.
309.2 Unfair competition.
309.3 Nonrelocation.
309.4 Gas and electric facilities.
309.5 Administration, operation, and maintenance of projects.
309.6 Labor standards—Construction of projects.
309.7 Employment of expediters or administrative employees; compensation of persons engaged by or on behalf of applicants.
309.8 Penalties.
309.9 Records and audit.
309.10 Assurance of job opportunities for the unemployed.
309.11 Special-purpose units of local government.
309.12 Preapproval construction.
309.13 EDA assistance additional to other Federal assistance.
309.14 Design, construction, and alteration of buildings to accommodate the physically handicapped.
309.15 Flood hazard.
309.16 EDA construction site signs.
309.17 Project review by clearinghouses.
309.18 Environmental requirements.
309.19 Relocation assistance and land acquisition policies.
309.20 Nondiscrimination.
309.21 Additional information.
309.22 Forms.
309.23 Where to file; timeliness of filing.
309.24 Requests to reopen declined applications.

AUTHORITY: Sec. 701, Public Law 89-136 (Aug. 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4 (Apr. 1, 1970).

§ 309.0 Purpose.

This part sets forth the requirements relating to financial assistance rendered under the Act, as imposed by the terms of the Act and the requirements of other statutes, Executive orders, and regulations which have relevance to the activities authorized under the Act. The requirements are in addition to other requirements set forth in the Act and this chapter.

§ 309.1 Certification as to waste treatment.

No financial assistance, through grants, loans, guarantees, or otherwise, will be made under the Act to be used directly or indirectly for sewer or other waste disposal facilities unless the Environmental Protection Agency certifies to EDA that any waste material carried by such facilities will be adequately treated before it is discharged into any public waterway so as to meet applicable Federal, State, interstate, or local water quality standards.

§ 309.2 Unfair competition.

No financial assistance under the Act shall be extended to any project which will directly increase the production of goods, materials, or commodities, or the availability of services or facilities, when there is not sufficient demand for such goods, materials, commodities, services,

V 38 - 15 JAN 23 73 XUM

or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, as required by section 702 of the Act.

(a) *Definitions.* As used in this section:

"Demand" means the amount of the product or service which can reasonably be expected to be purchased for use in the market area to be served by the project or its intended principal industrial or commercial beneficiary.

"Capacity" means that quantity of production or supply of services which could reasonably be expected to be produced or supplied over a sustained period of time by existing competitive enterprises for use within the market area under working schedules historically customary for the industry.

"Efficient Capacity" means that part of the capacity which is produced or supplied by existing competitive enterprises employing well-designed structures, equipment, machinery, and designs and techniques that are comparable to current practices.

"Existing Competitive Enterprise" means an established facility which either produces the same product or supplies the same service to the market area or a significant part thereof.

"Financial Assistance" means any grant, loan, guarantee, or purchase of evidence of indebtedness by EDA pursuant to the authority of the Act, and any contract, purchase order, task order or work order in an amount in excess of $10,000.00, which is directed toward an increase in the productive capacity for goods or services by a specific enterprise either existing or prospective.

(b) *Determinations.* Determinations of whether approval of a project will violate this section shall in all cases (except those described in paragraph (e) of this section) be based on a "702 Study."

(c) *Procedures for preparing a "702 Study" for business loan and public works projects.* Where financial assistance under the Act is requested for a Public Works or Business Loan project the following procedures shall be followed to the extent necessary to provide the Agency with sufficient information to prepare a "702 Study."

(1) The applicant shall submit, in connection with the project for which financial assistance is being sought, all of the information reasonably available concerning the following:

(i) Proposed product(s) or service(s).

(ii) Project capacity.

(iii) Market area where product or service is to be sold.

(iv) Supply of product or service currently available in market area and sources thereof.

(v) Percent of market expected to be taken by project.

(2) EDA shall verify to the extent possible and evaluate the information submitted by the applicant.

(d) *Technical assistance.* Whenever a Technical Assistance grant, contract, or task order in excess of $10,000 is requested for a project which is directed toward an increase in the productive capacity for goods or services by a specific enterprise, either existing or prospective, a "702 Study" will be required. The procedures for preparing such "702 Study" set forth in paragraph (c) of this section shall be followed to the extent necessary to provide the Agency with sufficient information.

(e) *Projects not requiring a "702 Study".* Financial assistance under the Act may be provided to a project without a "702 Study" where EDA determines such project meets one of the following criteria:

(1) The project to be assisted is not designed to provide public works facilities in order primarily or essentially to benefit a particular firm or industry, but is designed primarily for the benefit of the community or area as a whole or for general industrial or commercial purposes, or

(2) The extension of financial assistance will not result in a significant increase in production or services that have heretofore been available in the area, because its purpose is to:

(i) Replace or restore capacity recently destroyed by flood, fire, wind, or other disaster; or

(ii) Assure the retention of existing capacity and employment; or

(iii) Replace, rebuild or modernize, within the same labor market area, facilities displaced by an official action, including but not limited to actions resulting from public construction projects, land use condemnation procedures, and or requirements under environmental control ordinances or laws. The original owners of the affected facilities will be given first opportunity for EDA assistance. If, after a reasonable period of time the original owners fail to take advantage of these opportunities, other producers within the area may qualify for assistance to replace the affected facilities; or

(iv) Assure the completion of a project previously assisted by EDA or the Area Redevelopment Administration, where the additional assistance is required solely because of revised project cost estimates and not because of added productive capacity; or

(v) Make working capital funds available by guaranteeing a working capital loan.

(f) *Amendments.* In the case of amendments to the terms or conditions of an existing loan or grant, commitments will not require a "702 Study" unless such amendments will result in an increase in the capacity of the project or a change in the product or service to be produced.

§ 309.3 Nonrelocation.

EDA will not extend financial assistance which will assist establishments relocating from one area to another.

(a) *Definitions.* As used in this section:

"Financial assistance" under this section means assistance of any kind permitted under the Act, including grants, loans, guarantees, technical assistance, and training.

"Relocation" means the transferring of jobs from one area to another with EDA assistance.

"From one area to another" means from one labor area of the country to another labor area of the country. However, projects relocating within a labor area and resulting in the loss of existing jobs are not eligible to receive EDA financial assistance.

(b) Establishments relocating shall include:

(1) Grantees,

(2) Borrowers,

(3) Beneficiaries of contracts,

(4) Direct beneficiaries of grantees,

(5) Lessees of borrowers, or

(6) Affiliates, subsidiaries, or other entities under direct, indirect, or common control of the foregoing.

(c) Jobs may be transferred by

(1) Closing an establishment in one area and opening a new establishment in another area, or

(2) Expanding an existing establishment in a new area and reducing the number of jobs in the original location or in any area where the expanded establishment conducts operations.

(d) EDA will not extend financial assistance which will assist subcontractors whose purpose is to divest, or whose economic success is dependent upon divesting, other contractors or subcontractors of contracts customarily performed by them. For the purpose of this section, "contractors or subcontractors" includes:

(1) An applicant who is performing work for other manufacturers who supply the materials or parts for such work and to whom the finished product is returned by contractors, and

(2) A business which purchases and processes materials on behalf of another firm and is later reimbursed, its sole function having been to supply labor.

(e) EDA financial assistance is not prohibited for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary which will not result in an increase in unemployment in the area of original location or in any other area where such entity conducts business operations. However, EDA will not extend financial assistance if the Secretary has reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location or in any other area where it conducts such operations.

(f) EDA will not extend financial assistance for programs, projects, facilities, or purchases to be used by or for highly mobile, intensely competitive industries, such as the apparel or garment trades within the textile industry.

(g) EDA financial assistance is not available to any establishment or applicant:

(1) Which has relocated within 24 months of applying for EDA assistance, or

(2) Which is relocating or will relocate in the future with EDA assistance.

(h) The Assistant Secretary may require detailed information concerning the background, plans, and activities of the applicant, or of any related business enterprise with which the applicant or its principals has any contract or arrangement or proposes to make any contract or arrangement based on benefits expected from the proposed project, or of any business enterprise which is known and intended by the applicant to be a major beneficiary of the project.

§ 309.4 Gas and electric facilities.

(a) No financial assistance authorized under the Act will be used to finance the cost of facilities for the generation, transmission, or distribution of electrical energy, regardless of whether such activities constitute the primary or secondary functions of the facility which is to receive financial assistance under the Act, and regardless of whether such activities are solely for onsite consumption.

(1) Definitions: As used in this section.

"Generation of electricity" means the conversion of energy by any method into electrical energy.

"Transmission of electricity" means the transfer of electrical energy for wholesale purposes, by circuit or circuits, regardless of voltage.

"Distribution of electricity" means the transfer of electrical energy by circuit or circuits, regardless of voltage, from the transmission system to metering stations for use by consumers.

(2) The following electrical energy facilities are not barred from receiving financial assistance under the Act:

(i) Facilities specifically authorized by Congress

(ii) An internal electrical system consisting of the electrical installation on the consumer's side of the distribution system metering station, providing it meets the requirements set forth below. The internal electric system may include conductors, conduits, structures, switchgear, transformers, and other appurtenances. In order for an internal electrical system to qualify as an exception, it must meet the following requirements:

(*a*) Ownership of the system must lie with the owners of the facility, or portion thereof, served by the internal electrical system, and

(*b*) Electricity carried by the internal electrical system may not be resold.

(iii) Standby electrical generating equipment, provided:

(*a*) Such equipment is neither of sufficient capacity to, nor intended to, provide electricity for the regular sustained operation of the facility which is to receive financial assistance under the Act, and

(*b*) Significant damage or harm could result from an electric power failure in the absence of such standby agreement.

(b) No financial assistance authorized under the Act will be used to finance the cost of facilities for the production or transmission of gas (natural, manufactured, or mixed), regardless of whether such activities constitute the primary or secondary function of the facility which is to receive financial assistance under the Act, and regardless of whether such activities are solely for on-site consumption.

(1) Definitions: As used in this section: "Production of gas" means the procuring, gathering, and treating of gaseous raw material by the necessary operation and plant, in such a way as to prepare it for transmission.

"Transmission of gas" means the moving of gas by the necessary operation and plant to metering station from which it is distributed to consumers.

"Distribution of gas" means the moving of gas by the necesary operation and plant from the metering station of the transmission system to consumers within a particular locality and also may include the facilities for local storage, regulation and consumer metering.

(2) The following gas facilities are not barred from receiving financial assistance under the Act:

(i) Facilities specifically authorized by Congress

(ii) Facilities for the distribution of gas as described in paragraph (b)(1) of this section.

§ 309.5 Administration, operation, and maintenance of projects.

No financial assistance under the Act will be approved unless EDA is satisfied that the project for which financial assistance is granted will be properly and efficiently administered, operated, and maintained.

§ 309.6 Labor standards—construction of projects.

The construction of facilities financed in whole or in part by loans or grants made under the Act (hereinafter in this section called "projects") are subject to the following statutes and regulations:

(a) Applicants for assistance must assure EDA that all laborers and mechanics employed by contractors or subcontractors in the construction of projects shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a–276a–5). The construction work on projects will be subject to the regulations issued by the Secretary of Labor pursuant to the Davis-Bacon Act (29 CFR Part 5).

(b) Contractors and subcontractors engaged in construction of projects are subject to the provisions of the Copeland Act, as amended (40 U.S.C. 276c), and the regulations issued thereunder by the Secretary of Labor (29 CFR Parts 3 and 5).

(c) Contractors and subcontractors engaged in construction of projects are subject to the provisions of the Contract Work Hours and Safety Standards Act, as amended (40 U.S.C. 327–333) and the regulations issued thereunder by the Secretary of Labor (29 CFR Part 5).

(d) The contractors and subcontractors engaged in construction of projects will agree to comply with Executive Order 11588, issued March 29, 1971, and any other Executive Order, statute, or regulation regarding the stabilization of wages and prices in the construction industry.

(e) The contractors and subcontractors engaged in construction of projects are required to comply with Executive Order 11246, issued September 24, 1965 (3 CFR 1964–65 Comp., p. 339), as amended, relating to equal employment opportunity, and the regulations issued thereunder by the Secretary of Labor.

§ 309.7 Employment of expediters or administrative employees: compensation of persons engaged by or on behalf of applicants.

(a) Pursuant to section 711 of the Act no financial assistance may be extended by EDA under section 101, 201, 202, or 403 thereof to any business enterprise unless the owners, partners, or officers of such business enterprise:

(1) Certify to EDA the names of any attorneys, agents, and other persons engaged by or on behalf of such business enterprise for the purpose of expediting applications made to the EDA for assistance of any sort, under this Act, and the fees paid or to be paid to any such person, and

(2) Execute an agreement to refrain from employing, tendering any office or employment to, or retaining for professional services, any person who, on the date such assistance or any part thereof was rendered, or within 1 year prior thereto, shall have served as an officer, attorney, agent, or employee, occupying a position or engaging in activities which EDA shall have determined involves discretion with respect to the granting of assistance under this Act. Such agreement will be binding on the business enterprise for a period of 2 years after EDA financial assistance is rendered.

(b) Definitions: As used in this section:

"Business enterprise" means all private applicants, both profit and nonprofit.

"Positions involving discretion" means the Assistant Secretary, Deputy Assistant Secretaries for Economic Development, Policy Coordination, Economic Development Planning, and Economic Development Operations; Office Directors, Deputy Office Directors, and Division Chiefs in the Office of Public Works, Business Development, and Technical Assistance; and Director and Deputy Director of the Offices of Economic Research, Planning and Program Support, and Development Organizations. This term also includes Regional Office Directors with respect to projects located in their regions. Clerical employees do not occupy positions involving discretion with respect to the granting of assistance under the Act. The discretionary nature of the positons and activities of other employees shall be determined by the Assistant Secretary at such time as the employee terminates his employment.

(c) EDA will participate in such costs of facilities receiving financial assistance under the Act as are deemed to be

V38-15 JAN 23 73 XUM

reasonable as fees or compensation for services actually rendered by persons engaged by or on behalf of the EDA applicant for the purpose of rendering professional or other services necessary, as determined by EDA, in connection with such facilities or with the extension of financial assistance by EDA. No fee or compensation will be allowed if it appears that the person charging such fee or compensation has:

(1) Induced or attempted to induce by gifts, or offer thereof, promises, bribes or otherwise, any officer or employee of EDA to take action with respect to any matter before EDA.

(2) Made representations that imply that the service for which the fee is charged, or any portion thereof, is or will be of a political, influential, or similar nature.

(3) Charged or proposed to charge any fee contingent upon the granting of any assistance to the applicant.

(4) Shown a course of conduct which indicates that the person might submit false information or evidence to EDA or engage in corrupt practices before EDA in connection with matters on which he is employed.

(d) The requirements of this section will apply to applications filed with EDA after April 30, 1971. The requirements of paragraphs (a) and (b) of this section, will also apply to applications filed with EDA prior to April 30, 1971, except that for the purpose of such applications "positions involving discretion" means the Assistant Secretary, Deputy Assistant Secretaries for Economic Development, Policy Coordination, Economic Development Planning and Economic Development Operations; Office Directors, Deputy Directors, and Division Chiefs in the Office of Public Works, Business Development, and Technical Assistance; and Director and Deputy Director of the Offices of Economic Research, Regional Development Planning, and District and Area Planning. They also include Area Office Directors with respect to projects located in their areas. Clerical employees do not occupy positions involving discretion with respect to the granting of assistance under the Act. The discretionary nature of the positions and activities of other employees shall be determined by the Assistant Secretary at such time as the employee terminates his employment.

§ 309.8 Penalties.

(a) Whoever makes any statement knowing it to be false, or whoever willfully overvalues any security, for the purpose of obtaining for himself or for any applicant any financial assistance under the Act or any extension thereof by renewal, deferment of action, or otherwise, or the acceptance, release, or substitution of security therefor, or for the purpose of influencing in any way the action of EDA or members of its staff, or for the purpose of obtaining money, property, or anything of value, under the Act, shall be punishable by a fine of not more than $10,000 or by imprisonment for not more than 5 years, or both.

(b) Whoever, being connected in any capacity with EDA in the administration of this Act:

(1) Embezzles, abstracts, purloins, or willfully misapplies any moneys, funds, securities, or other things of value, whether belonging to him or pledged or otherwise entrusted to him, or

(2) With intent to defraud EDA or any other body politic or corporate, or any individual, or to deceive any officer, auditor, or examiner, makes any false entry in any book, report, or statement of or to EDA, or without being duly authorized draws any order or issues, puts forth, or assigns any note, debenture, bond, or other obligation, or draft, bill of exchange, mortgage, judgment, or decree thereof, or

(3) With intent to defraud participates or shares in or receives directly or indirectly any money, profit, property, or benefit through any transaction, loan, grant, commission, contract, or any other act of EDA, or

(4) Willfully gives any unauthorized information concerning any future action or plan of EDA which might affect the value of securities, or having such knowledge invests or speculates, directly or indirectly, in the securities or property of any company or corporation receiving loans, grants, or other assistance from the Assistant Secretary,

shall be punished by a fine of not more than $10,000 or by imprisonment for not more than 5 years, or both.

§ 309.9 Records and audit.

(a) Each recipient of assistance under the Act shall keep such records as EDA shall prescribe, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or used, the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(b) The Assistant Secretary, the Comptroller General of the United States, or any of their duly authorized representatives shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under the Act.

§ 309.10 Assurance of job opportunities for the unemployed.

(a) Applicants for business development loans under section 202 of the Act and direct and substantial beneficiaries of EDA assisted public works projects must submit to EDA assurances of compliance with the EDA policy of assuring job opportunities for the unemployed and underemployed. Such assurances shall indicate the intention of the applicant to give preferential consideration for employment, wherever possible, to the long-term unemployed and underemployed residing in the project area, in connection with the project assisted by EDA.

(b) For the purpose of this section, substantial beneficiaries of public works assistance are those industrial commercial enterprises which:

(1) Are cited in the application and;

(i) Provide all or part of the justification of the project or,

(ii) Will, as a direct result of EDA's assistance, create or save 10 or more jobs, or

(2) Although not cited in the application, in the opinion of the Assistant Secretary, provide all or part of the justification of the project.

§ 309.11 Special-purpose units of local government.

(a) When both special-purpose units of local government and units of general local government are eligible to receive financial assistance under the Act, in absence of substantial reasons to the contrary, such assistance shall be made to units of general local government rather than to special-purpose units of local government, as required by section 4232 of the "Intergovernmental Cooperation Act of 1968" (40 U.S.C. 531–535; 42 U.S.C. 4201, 4211, 4214, 4221–4225, 4231–4233, 4241, 4244).

(b) Definitions. As used in this section:

"Unit of general local government" means any city, county, town, parish, village or other general purpose political subdivision of a State.

"Special-purpose unit of local government" means any special district, public purpose corporation, or other strictly limited purpose political subdivision of a State, but does not include a school district.

§ 309.12 Preapproval construction.

It is the policy of EDA to discourage the undertaking of any construction prior to the submission of an application for financial assistance. Commencement of a project prior to approval of the application for assistance is not prohibited but may jeopardize the favorable consideration of such application since, among other things, it raises a rebuttable presumption that funds necessary for the accomplishment of the project are otherwise available and that proper contracting procedures and labor standards have not been followed.

§ 309.13 EDA assistance additional to other Federal assistance.

All financial assistance under the Act shall be in addition to any other Federal assistance previously authorized. No assistance under the Act will be used to reduce or diminish the proportional amount of any such other Federal assistance to which any eligible applicant for EDA assistance would otherwise be entitled under the provisions of any other act.

§ 309.14 Design, construction, and alteration of buildings to accommodate the physically handicapped.

(a) Any building or facility financed in whole or in part with assistance under the Act must be designed, constructed, or altered, so as to insure ready access to, and use of, such building or facility by the physically handicapped, as required by Public Law 90-480 (42 U.S.C. 4151–4156) and the regulations promulgated thereunder (41 CFR 101–17.7).

(b) Except as otherwise provided in paragraph (c) of this section, every such building, except a residential structure or a facility designed, constructed, or altered after September 2, 1969, shall be designed, constructed, or altered in accordance with the minimum standards contained in the "American National Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped," Number A 117.1 (1971) approved by and available from the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.

(c) The standards established in paragraph (b) of this section shall not apply to:

(1) The design, construction, or alteration of any portion of a building or facility which need not, because of its intended use, be made accessible to, or usable by, the public or by physically handicapped persons;

(2) The alteration of an existing building if the alteration does not involve the installation of, or work on, existing stairs, doors, elevators, toilets, entrances, drinking fountains, floors, telephone locations, curbs, parking areas, or any other facilities susceptible of installations or improvements to accommodate the physically handicapped.

(3) The alteration of an existing building or facility, or of such portions thereof, to which application of the standards is not structurally possible.

(4) The construction or alteration of a building or facility, for which bids have already been solicited, or plans and specification have been completed, or substantially completed on or before September 2, 1969.

(d) The standards established in paragraph (b) of this section may be modified or waived on a case-by-case basis: *Provided*, That upon application of EDA the Administrator of the General Services Administration determines that such waiver or modification is clearly necessary.

§ 309.15 Flood hazard.

No assistance under the Act will be provided for projects which involve undue risk of flood damage, as required by Executive Order 11296, issued August 10, 1966. All applications for financial assistance will be reviewed by EDA with the purpose of minimizing exposure of the proposed project to potential flood damage and subsequent need for future Federal expenditures for flood protection and flood disaster relief.

§ 309.16 EDA construction site signs.

Applicants for financial assistance involving construction will agree to post at the site of the construction one or more signs which state "EDA New Jobs for your community in partnership with the U.S. Department of Commerce, Economic Development Administration." EDA will provide such signs, which will be mounted at the commencement of construction and removed only after the completion thereof.

§ 309.17 Project review by clearinghouses.

This section sets forth procedures for review of certain applications and possible comment by State, regional, or metropolitan clearinghouses. Such procedures have been established in order to achieve the fullest cooperation and coordination among all levels of government and to otherwise improve the administration of Federal assistance to communities.

(a) Prospective applicants for grant and loan assistance must submit notification of their intent to apply for EDA assistance to appropriate State, regional, or metropolitan clearinghouses for review and possible comment, except applicants for assistance under:

(1) Section 202 of the Act for loans and guarantees,

(2) Sections 201(a) and 301(b) of the Act for technical assistance projects under $2,500,

(3) Sections 301(a) and 301(b) of the Act for technical assistance:

(i) In support of projects of national scope and impact or in support of demonstration projects, or

(ii) In support of projects which support the Office of Minority Business Enterprise program,

(4) Section 301(b) of the Act for administrative expenses of planning organizations serving Federal trust territories, other than those formed in accordance with Part B of title IV of the Act,

(5) Sections 301(c), 301(d), and 301 (e) of the Act for research, training, and information, and

(6) Sections 505 and 509 of the Act.

(b) Certain amendments to pending or approved projects, which amendments represent a significant change to such projects, must be submitted to the clearinghouses, as required by EDA.

(c) EDA may not accept applications, except for Public Works Impact program projects, during the period for review by clearinghouses, however, EDA encourages prospective applicants to submit to EDA information copies of project notifications to clearinghouses.

(d) Applicants for Public Works Impact program projects may submit applications to EDA at any time, although such applicants must also submit project notification to clearinghouses.

(e) In the event of the existence of overlapping metropolitan and regional clearinghouses, applicants must directly notify both clearinghouses unless one clearinghouse agrees to accept notifications directly from the other clearinghouse.

(f) EDA will assist potential applicants in carrying out their responsibilities under this section.

§ 309.18 Environmental requirements.

The purpose of the environmental procedures in this section is to provide for the application of the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et seq.) and the Council on Environmental Quality Guidelines (36 FR 79, April 23, 1971) to EDA actions.

(a) *Definitions.* The following terms are defined for the purpose of this section:

"Action(s)" means project(s) and continuing activity(ies) supported through EDA grants, loans, or other forms of funding assistance.

"Impact statement" means a detailed environmental statement required under section 102(2)(c) of the National Environmental Policy Act of 1969 for actions significantly affecting the quality of the human environment. The statement shall include, but not be limited to, a discussion of the following:

(1) The environmental impact of the proposed action.

(2) Any adverse environmental effects which cannot be avoided should the proposal be implemented.

(3) Alternatives to the proposed action.

(4) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.

(5) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

"Significant impact" means that part of an action which has the potential to significantly affect the quality of the human environment. The impact may be beneficial as well as adverse. Consideration of an action's direct and cumulative effects is also made. An action may have a significant impact based upon one or more of the following criteria, and other factors as appropriate.

(1) If a project will result in an extensive change in land use or commitment of land.

(2) If the land use change(s) is incompatible with the existing or planned land use of the surrounding area.

(3) If many people are affected.

(4) If the environmental impact of the project is controversial.

(5) If a project will affect in large measure wildlife habitats, streams, fish, and other natural elements.

(6) If the industrial borrower or public works beneficiary is a member of a class of industries categorized as major polluters.

(7) If the impact is the result of the utilization of a single resource.

(b) *Environmental review of actions.* (1) EDA will review every application for an EDA action to determine the environmental impact thereof.

(2) If the environmental impact of the action will be significant, EDA will prepare a detailed environmental impact statement.

(c) *Environmental review. Business loan and public work projects.* (1) EDA will review and evaluate the environmental impact of each project. An environmental file will be prepared and shall contain:

(i) An Economic Development Representative's assessment of the probable

V 38 - 15 JAN 23 73 XUM

environmental impact of the project, which shall examine the following:

(a) Description of the project.

(b) Description of area (land use map, photo if available).

(c) Description as to how the project will affect air quality.

(d) Description as to the effect on water.

(e) Indication as to the effect on solid waste disposal.

(f) Indication if there are wildlife refuges wooded/forested areas, scenic areas, historical sites, recreational areas, beaches, wetlands, and the effect the project will have on these features.

(g) Indication as to the effect of the project on noise levels, glare, vibrations, visual appearance.

(h) Description of the effect of the project on radiation levels.

(i) Discussion of changes contemplated in traffic patterns.

(j) Description of effect on the environment other than discussed above.

(ii) A Regional Office environmental assessment of the project and a determination whether or not the project will have a significant impact on the environment.

(iii) A concurrence in the Regional Office assessment by the Special Assistant for the Environment.

(iv) A certification by the Special Assistant that EDA's environmental procedures have been fulfilled.

(v) A recommendation by the Special Assistant for the continued processing of the project to the Assistant Secretary.

(vi) Other environmental information which is related to the project under review.

(2) Applicants for EDA funding assistance may be asked by the Economic Development Representative and the Regional Office to provide environmentally related project data which would not otherwise be available through EDA or other governmental sources. The data may relate to engineering and architectural design, internal plant processes, available pollution abatement equipment and more. Data requested from the applicant shall be limited to specific questions and problems and should not cover the subjective evaluation of environmental impact.

(3) The Economic Development Representative shall advise the potential applicants of the nature of the environmental review within EDA.

(d) *Environmental review: Technical assistance projects.* Each technical assistance contract or grant to determine the feasibility of establishing a particular type of industrial activity or enterprise will contain a condition that due consideration will be given by the contractor to environmental impact.

(e) *Environmental review: Planning activities.* Ecological and other environmental considerations will be incorporated into the local planning process. District and area OEDP and other planning documents shall reflect the environmental impact of the district or area's economic goals and activities.

(f) *Environmental impact statements.* (1) When EDA determines that a proposed action may significantly affect the quality of the human environment, the agency will prepare a detailed environmental impact statement in accordance with the Council on Environmental Quality Guidelines.

(2) Applicants may be requested by EDA to provide certain project information which will be incorporated into the impact statement. However, the preparation of the statement will remain the ultimate responsibility of EDA.

(3) EDA administrative action on a proposed project will not be taken until the impact statement review periods set forth in section 10 of the Council of Environmental Quality Guidelines have been exercised.

(g) *Environmental balancing.* EDA will balance the anticipated adverse environmental impacts against the anticipated economic benefits of a proposed action. As a result of the balancing process EDA may recommend the following:

(1) Modification of a project application in order to minimize adverse environmental effects, or,

(2) Denial of an EDA project approval if the adverse environmental effects cannot be balanced and reconciled.

§ 309.19 Relocation assistance and land acquisition policies.

Provisions relating to relocation assistance and land acquisition policies are contained in Part 310 of this chapter.

§ 309.20 Nondiscrimination.

Provisions relating to nondiscrimination are contained in Part 311 of this chapter.

§ 309.21 Additional information.

The Assistant Secretary may require such additional information, evidence, or assurances from applicants and recipients of EDA financial assistance as he deems appropriate.

§ 309.22 Forms.

Requests or applications for assistance under this chapter shall be made on appropriate forms which may be obtained from EDA Regional Offices: *Provided,* That a timely application in writing other than on a form may be accepted as a valid application where

(a) It contains substantially the same information requested on the pertinent form, and

(b) It evidences an intention on the part of the applicant that it be considered as an application and is not merely indicative of an intent to apply.

§ 309.23 Where to file; timeliness of filing.

(a) All requests or applications for assistance under this chapter may be filed with or forwarded to the appropriate offices listed in §§ 301.30 and 301.31 of this chapter. Filing with or forwarding to the Washington office is appropriate in only limited instances.

(b) In the event the eligibility of a redevelopment area or economic development district is suspended or terminated by EDA, applications for assistance for which designation is a prerequisite (including economic development centers and eligibility for bonus grants), which applications are filed with or forwarded to the appropriate office before suspension or termination of eligibility, will be processed by EDA in the usual manner. The filing or delivery of such applications will be considered if

(1) The application is mailed by the applicant to the appropriate Regional Office and it bears a postmark not later than midnight of the date of suspension or termination of eligibility, although it may be received thereafter, or

(2) The application is delivered to the appropriate office not later than midnight of the date of suspension or termination of eligibility.

§ 309.24 Requests to reopen declined applications.

EDA may consider a request to reopen a declined application if

(a) The request to reopen is timely filed in accordance with § 309.23 and is accompanied by substantial new information of a material nature, and sufficient additional documentation, to warrant the reconsideration of the project; or

(b) The request to reopen is made and received after the date of suspension or termination of eligibility, but the declination of the application was based on a material error or mistake by EDA; the request to reopen was received within a reasonable period of time after the error or mistake was discovered or should have been discovered; and the application would not have been declined but for the error or mistake.

AUTHORITY: Sec. 213 (b) and (c), Public Law 91-646, 84 Stat. 1901; 42 U.S.C. 4633.

Subpart A—Introduction

§ 310.1 Purpose.

The purpose of the regulations in this part and procedures is to provide for the application of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to undertakings by State agencies with financial assistance by EDA.

§ 310.2 Definitions.

(a) "State agency" means any department, agency, or instrumentality of a State or of a political subdivision of a State, or any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States.

(b) "Act", as used in this part, means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

(c) "Person" means any individual, partnership, corporation, or association.

(d) "Displaced person" means any person who, on or after the effective date of the Act moves from real property or moves his personal property from real property as a result of the acquisition of such real property in whole or in part, or as a result of the written order of the acquiring State agency to vacate real property for a program or project undertaken with EDA financial assistance; and solely for the purposes of sections 202(a) and (b), and 205 of the Act, as a result of the acquisition of or as a result of the written order of the acquiring agency to vacate other real property, on which such person conducts a business or farm operation for such program or project.

(e) "Regional Directors" means those officials of EDA appointed by the Assistant Secretary for Economic Development pursuant to the authority delegated to him by the Secretary of Commerce as provided by the Public Works and Economic Development Act of 1965, as amended, Public Law 89-136, to further the aims and objectives of said Act.

(f) "Business" means any lawful activity, excepting a farm operation, conducted primarily—

(1) For the purchase, sale, lease, and rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property;

(2) For the sale of services to the public;

(3) By a nonprofit organization; or

(4) Solely for the purpose of implementing section 202(a) of the Act, for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted.

(g) "Farm operation" means any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

Subpart B—Assurance of Adequate Replacement Housing Prior to Displacement

§ 310.10 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and Regional Directors in implementing sections 205(c)(3) and 206(b) of the Act.

§ 310.11 Determination.

(a) *Availability.* No State agency shall proceed with the phase of any project which phase will cause the displacement of any person until it has provided satisfactory assurance to the EDA Regional Director that within a reasonable period of time prior to displacement, there will be available on a basis consistent with the requirements of title VIII of the Civil Rights Act of 1968 (Public Law 90-284), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and individuals displaced, decent, safe, and sanitary dwellings, as described in paragraph (d) of this section, equal in number to the number of, and available to, such displaced persons who require such dwellings and reasonably accessible to their places of employment.

(b) *Support.* This determination or assurance should be based on a current survey and analysis of available replacement housing by the displacing State agency. Such survey and analysis must take into account the competing demands on available housing.

(c) *Waiver.* The Regional Director may in unusual situations waive the determination required by paragraph (a) of this section. These should be limited only to emergency or other extraordinary situations where immediate possession of real property is of crucial importance. Each waiver of assurance of replacement housing shall be supported by appropriate findings and a determination of the necessity for the waiver. Determinations so made shall be included in the annual report required by section 214 of the Act.

(d) *Decent, safe, and sanitary housing.* A decent, safe, and sanitary dwelling is one which is found to be in sound, clean and weathertight condition, and which meets local housing codes. The displacing State agency and the Regional Director shall consider the following criteria in determining if a dwelling unit is decent, safe, and sanitary. Adjustments may only be made in the cases of unusual circumstances or in unique geographic areas.

(1) *Housekeeping unit.* A housekeeping unit must include a kitchen with fully usable sink; a cooking stove, or connections for same; a separate complete bathroom; hot and cold running water in both the bathroom and the kitchen; an adequate and safe wiring system for lighting and other electrical services; and heating as required by climatic conditions and local codes.

(2) *Nonhousekeeping unit.* A nonhousekeeping unit is one which meets local code standards for boarding houses, hotels, or other congregate living. If local codes do not include requirements relating to space and sanitary facilities, standards will be subject to the approval of the head of the State agency causing the displacement, with the concurrence of the Regional Director.

(3) *Occupancy standards.* Occupancy standards for replacement housing shall comply with State agency approved occupancy requirements, with the concurrence of the Regional Director, or comply with local codes.

(e) *Absence or inadequacy of local standards.* In those instances where there is no local housing code or a local housing code does not contain certain minimum standards or the standards are inadequate, the head of the State agency, with the concurrence of the Regional Director, may establish the standards.

Subpart C—Moving and Related Expenses

§ 310.20 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and Regional Directors in implementing section 202(a) of the Act.

§ 310.21 Actual reasonable expenses in moving.

(a) *To be allowed.* (1) Transportation of individuals, families, and personal property from the acquired site to the replacement site, not to exceed a distance of 50 miles, except where the displacing agency determines that relocation beyond this 50-mile area is justified,

V 38 - 15 JAN 23 73 XUM

(2) Packing and unpacking, crating and uncrating of personal property.

(3) Advertising for packing, crating, and transportation when the displacing agency determines that it is necessary.

(4) Storage of personal property for a period generally not to exceed 12 months when the displacing agency determines that it is necessary.

(5) Insurance premiums covering loss and damage of personal property while in storage or transit.

(6) Removal, reinstallation, reestablishment, including such modification as deemed necessary by the displacing agency of, and reconnection of utilities for, machinery, equipment, appliances, and other items, not acquired as real property. Prior to payment of any expenses for removal and reinstallation of such property, the displaced person shall be required to agree in writing that the property is personalty and that the displacing State agency is released from any payment for the property.

(7) Property lost, stolen, or damaged (not caused by the fault or negligence of the displaced person, his agent, or employees), in the process of moving, where insurance to cover such loss or damage is not available.

(8) Such other reasonable expenses determined to be eligible under regulations issued by the head of the State agency with the concurrence of the Regional Director.

(b) *Limitations.* (1) When the displaced person accomplishes the move himself, the amount of payment shall not exceed the estimated cost of moving commercially, unless the head of the displacing State agency, with the concurrence of the regional director, determines a greater amount is justified.

(2) When an item of personal property which is used in connection with any business or farm operation is not moved, but sold and promptly replaced with a comparable item, reimbursement shall not exceed the replacement cost minus the proceeds received from the sale, or the estimated costs of moving, whichever is less.

(3) When personal property which is used in connection with any business or farm operation to be moved is of low value and high bulk, and the cost of moving would be disproportionate in relation to the value, in the judgment of the head of the State agency responsible for the program or project causing the displacement and with the concurrence of the regional director, the allowable reimbursement for the expense of moving the personal property shall not exceed the difference between the amount which would have been received for such item on liquidation and the cost of replacing the same with a comparable item available on the market. This provision will be applicable in the case of moving junkyards, stockpiled sand, gravel, minerals, metals, and similar type items of personal property.

(4) If the cost of moving or relocating an outdoor advertising display or displays is determined to be equal to or in excess of the in-place value of the display, consideration should be given to acquiring such display or displays as a part of the real property, unless such acquisition is prohibited by State law.

§ 310.22 Nonallowable moving expenses and losses.

(a) Additional expenses incurred because of living in a new location.

(b) Cost of moving structures or other improvements in which the displaced person reserved ownership, except as otherwise provided by law.

(c) Improvements to the replacement site, except when required by law.

(d) Interest on loans to cover moving expenses.

(e) Loss of goodwill.

(f) Loss of profits.

(g) Loss of trained employees.

(h) Personal injury.

(i) Cost of preparing the application for moving and related expenses.

(j) Payment for search cost in connection with locating a replacement dwelling.

(k) Such other items as the head of the State agency with the concurrence of the regional director determines should be excluded.

§ 310.23 Expenses in searching for replacement business or farm.

(a) *To be allowed.* (1) Actual travel costs.

(2) Extra costs for meals and lodging.

(3) Time spent in searching at the rate of the displaced person's salary or earnings, but not to exceed $10 per hour.

(4) In the discretion of the head of the displacing State agency with the concurrence of the regional director, necessary broker, real estate or other professional fees to locate a replacement business or farm operation under circumstances prescribed in Federal agency regulations.

(b) *Limitation.* The total amount a displaced person may be paid for searching expenses may not exceed $500 unless the head of the displacing State agency with the concurrence of the regional director determines that a greater amount is justified based on the circumstances involved.

§ 310.24 Actual direct losses by business or farm operations.

When the displaced person does not move personal property, he should be required to make a bona fide effort to sell it, and should be reimbursed for the reasonable costs incurred.

(a) When the business or farm operation is discontinued, the displaced person is entitled to the difference between the fair market value of the personal property for continued use at its location prior to displacement and the sale proceeds, or the estimated costs of moving 50 miles, whichever is less.

(b) When the personal property is abandoned, the displaced person is entitled to payment for the fair market value of the property for continued use at its location prior to displacement or the estimated costs of moving 50 miles, whichever is less.

(c) The cost of removal of the personal property shall not be considered as an offsetting charge against other payments to the displaced person.

Subpart D—Payments in Lieu of Moving and Related Expenses

§ 310.30 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and regional directors in implementing section 202 (b) and (c) of the Act.

§ 310.31 Dwellings—schedules.

(a) Subsection 202(b) provides that at the option of the displaced person he may receive a moving expense allowance not to exceed $300, based on schedules established by each agency head, and a dislocation allowance of $200. State agencies with the concurrence of the regional director may pay a moving expense allowance based on moving allowance schedules maintained by the respective State highway departments. These schedules should provide for adequacy of reimbursement in every locality. The Federal Highway Administration will approve all such schedules on a current basis, and will make them available to displacing agencies upon request.

(b) Where there are no highway department schedules, the heads of the Federal agencies undertaking or providing Federal financial assistance to a project causing displacement in such areas shall cooperate in the development of a single moving expense schedule for the use of all displacing agencies.

(c) A displaced person who elects to receive a payment based on a schedule shall be paid under the schedule used in the jurisdiction in which displacement occurs regardless of where he relocates.

§ 310.32 Businesses.

(a) Eligibility: A person displaced from his business, as defined in subsection 101(7) (A), (B), and (C) of the Act, is eligible under subsection 202(c) of the Act to receive a fixed payment in lieu of moving and related expenses. Care must be exercised, in each instance, however, to assure that such payments are made only in connection with a bona fide business. The head of the State agency responsible for the program or project causing displacement shall, by regulation, with the concurrence of the Regional Director, prescribe appropriate criteria for a determination that a given activity does, in fact, constitute a bona fide business.

(b) Those businesses described in subsection 101(7)(D) of the Act are not eligible under subsection 202(c) for a payment in lieu of moving and related expenses.

(c) Where a displaced person is displaced from his place of business, no payment shall be made under subsection 202(c) of the Act until the head of the displacing State agency, with the concurrence of the Regional Director, determines (1) that the business is not part of a commercial enterprise having at least one other establishment not being acquired, which is engaged in the same or similar business, and (2) that the business cannot be relocated without a substantial loss of existing patronage. The determination of loss of existing patronage shall be made by the displacing State agency only after consideration of all pertinent circumstances, including but not limited to, the following factors:

(i) The type of business conducted by the displaced concern.

(ii) The nature of the clientele of the displaced concern.

(iii) The relative importance of the present and proposed location to the displaced business and the availability of a suitable replacement location for the displaced person.

§ 310.33 Farms—partial taking.

Where a displaced person is displaced from only a part of his farm operation, the fixed payment provided by subsection 202(c) of the Act shall be made only if the displacing State agency determines, with the concurrence of the Regional Director, that the farm met the definition of a farm operation prior to the acquisition and that the property remaining after the acquisition can no longer meet the definition of a farm operation.

§ 310.34 Nonprofit organizations.

Where a nonprofit organization is displaced, no payment shall be made under subsection 202(c) of the Act until the head of the displacing State agency determines, with the concurrence of the Regional Director:

(1) That the nonprofit organization cannot be relocated without a substantial loss of its existing patronage. The term "existing patronage" as used in connection with nonprofit organizations includes the persons, community, or clientele served or affected by the activities of the nonprofit organization.

(2) That the nonprofit organization is not part of a commercial enterprise having at least one other establishment not being acquired which is engaged in the same or similar activity.

§ 310.35 Net earnings.

The term "average annual net earnings" as used in subsection 202(c) of the Act means one-half of any net earnings of the business or farm operation, before Federal, State, and local income taxes, during the 2 taxable years immediately preceding the taxable year in which such business or firm operation moves from the real property acquired for a project, or during such other period as the head of the displacing State agency with the concurrence of the Regional Director, determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during such period. If a business or farm operation has no net earnings, or has suffered losses during the period used to compute "average annual net earnings," it may nevertheless receive the $2,500 minimum payment authorized by subsection 202(c).

§ 310.36 Amount of business fixed payment.

The fixed payment to a person displaced from a farm operation or from his place of business, including nonprofit organizations, shall be in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall not be less than $2,500 nor more than $10,000.

Subpart E—Replacement Housing Payments for Homeowners

§ 310.40 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and Regional Directors in implementing section 203(a) of the Act.

§ 310.41 Eligibility.

(a) A displaced owner-occupant is eligible for a replacement housing payment, authorized by section 203(a) of the Act, not to exceed $15,000, if he meets both of the following requirements:

(1) Actually owned and occupied the acquired dwelling from which displaced for not less than 180 days prior to the initiation of negotiations for the property, or owned and occupied the property covered or qualified under section 217 of the Act for not less than 180 days prior to displacement. The term "initiation of negotiations" means the day on which the acquiring State agency makes the first personal contact with the property owner or his representative and furnishes him with a written offer to purchase the real property.

(2) Purchases and occupies a replacement dwelling, which is decent, safe, and sanitary, not later than the end of the 1-year period beginning on the date on which he receives from the displacing State agency the final payment of all costs of the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

(b) A displaced owner-occupant of a dwelling who is determined to be ineligible under this paragraph may be eligible for a replacement housing payment under Subpart F of this part.

§ 310.42 Comparable replacement dwelling.

For the purposes of rendering relocation assistance by making referrals for replacement housing and for computation of the replacement housing payment, a comparable replacement dwelling is one which is decent, safe, and sanitary and:

(a) Functionally equivalent and substantially the same as the acquired dwelling, but not excluding newly constructed housing.

(b) Adequate in size to meet the needs of the displaced family or individual. However, at the option of the displaced person, a replacement dwelling may exceed his needs when the replacement dwelling has the same number of rooms or the equivalent square footage as the dwelling from which he was displaced.

(c) Open to all persons regardless of race, color, religion, or national origin, consistent with the requirements of the Civil Rights Act of 1964 and title VIII of the Civil Rights Act of 1968.

(d) Located in an area not generally less desirable than the one in which the acquired dwelling is located, with respect to:

(1) Neighborhood conditions, including but not limited to municipal services and other environmental factors,

(2) Public utilities, and

(3) Public and commercial facilities.

(e) Reasonably accessible to the displaced person's place of employment or potential place of employment.

(f) Within the financial means of the displaced family or individual.

(g) Available on the market to the displaced person.

(h) If housing meeting the requirements of this paragraph is not available on the market, the head of a displacing State agency may, upon a proper finding of the need therefor, and with the concurrence of the Regional Director, consider available housing exceeding these basic criteria.

§ 310.43 Computation of replacement housing payment.

The replacement housing payment of not more than $15,000 comprises the following:

(a) *Differential payment for replacement housing.* The head of the displacing State agency with the concurrence of the Regional Director may determine the amount which, if any, when added to the acquisition cost of the dwelling acquired by the displacing agency, is necessary to purchase a comparable replacement dwelling by either establishing a schedule or by using a comparative method.

(1) *Schedule method.* The State agency may establish, with the concurrence of the Regional Director, a schedule of reasonable acquisition costs for comparable replacement dwellings of the various types of dwellings to be acquired and available on the private market. The schedule shall be based on a current market analysis sufficient to support determinations of the amount for each type of dwelling to be acquired. When more than one State agency is causing displacement in a community or an area, the respective heads of the State agencies concerned shall coordinate the establishment of the schedule for replacement housing payments.

(2) *Comparative method.* The State agency may determine the price of a comparable replacement dwelling by selecting a dwelling or dwellings most representative of the dwelling unit acquired, available to the displaced person, and which meets the definition of a comparable replacement dwelling. A single dwelling shall be used only when additional comparable dwellings are not available.

V 38 - 15 JAN 23 73 XUM

(3) *Alternative to subparagraphs (1) and (2) of this paragraph.* When neither above-described method is feasible, the head of the State agency with the concurrence of the Regional Director may develop criteria for computing the payment.

(4) *Limitations.* The amount established as the differential payment for the replacement housing sets the upper limit of this payment.

(i) If the displaced person voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the above, the comparable replacement housing payment will be reduced to that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling.

(ii) If the displaced persons voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling, no differential payment shall be made.

(b) *Interest payment.* The head of the State agency, with the concurrence of the Regional Director, shall determine the amount, if any, necessary to compensate a displaced person for any increased interest costs, including points paid by the purchaser. Such amount shall be paid only if the acquired dwelling was encumbered by a bona fide mortgage, i.e., one which was a valid lien on the acquired dwelling for not less than 180 days prior to the initiation of negotiations. The following shall be considered in computin the interest payment:

(1) The payment shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value.

(2) The discount rate shall be the prevailing interest rate paid on savings deposits by the commercial banks in the general area in which the replacement dwelling is located.

(3) However, the interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount financed, not to exceed the amount of the unpaid debt on the acquired dwelling for its remaining term.

(c) *Incidental expenses.* (1) The head of the State agency with the concurrence of the Regional Director shall determine the amount, if any, necessary to reimburse a displaced person for actual costs incurred by him incident to the purchase of the replacement dwelling (but not including prepaid expenses) such as:

(i) Legal, closing, and related costs including title search, preparation of conveyance instruments, notary fees, surveys, preparation of plats, and charges incident to recordation.

(ii) Lenders', FHA, or VA appraisal fees.

(iii) FHA application fee.

(iv) Certification of structural soundness when required by lender, FHA, or VA.

(v) Credit report.

(vi) Title policies or abstracts of titles.

(vii) Escrow agent's fee.

(viii) State revenue stamps or sale or transfer taxes.

(2) No fee, cost, charge, or expense is reimbursable which is determined to be a part of the finance charge under the Truth in Lending Act, Title 1, Public Law 90-321, and Regulation "Z" (12 CFR Part 226) issued pursuant thereto by the Board of Governors of the Federal Reserve System.

Subpart F—Replacement Housing Payments for Tenants and Certain Others

§ 310.50 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and Regional Directors in implementing section 204 of the Act.

§ 310.51 Eligibility.

(a) A displaced tenant or owner-occupant of a dwelling for less than 180 days is eligible for a replacement housing payment not to exceed $4,000, as authorized by section 204, if he meets both of the following requirements:

(1) Actually occupied the dwelling for not less than 90 days prior to the initiation of negotiations for acquisition of the property or actually occupied the property covered or qualified under section 217 of the Act for not less than 90 days prior to displacement. The term "initiation of negotiations" means the day on which the acquiring agency makes the first personal contact with the property owner or his representative and furnishes him with a written offer to purchase the real property. Tenants and other persons occupying the property shall be advised when negotiations for the property are initiated with the owner thereof.

(2) Is not eligible to receive a payment under section 203 of the Act.

(b) An owner-occupant of a dwelling for not less than 180 days prior to the initiation of negotiations is eligible for a replacement housing payment as a tenant, as authorized by section 204, when he rents a decent, safe, and sanitary replacement dwelling instead of purchasing and occupying a replacement dwelling, which is decent, safe, and sanitary not later than the end of the 1-year period beginning on the date on which he receives from the displacing agency final payment for all costs for the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

§ 310.52 Computation of replacement housing payment for displaced tenants.

A displaced tenant is eligible for a rental replacement housing payment; or, if he purchases replacement housing within 1 year from displacement, he is eligible for a downpayment including expenses incidental to closing not to exceed $4,000.

(a) *Rental replacement housing payment.* The head of the State agency with the concurrence of the regional director may determine the amount necessary to rent a comparable replacement dwelling by either establishing a schedule or by using a comparative method.

(1) *Schedule method.* A rental schedule may be established for renting comparable replacement dwellings as described in § 310.42 and which are available on the private market for the various types of dwellings to be acquired. The payment shall be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years (the average monthly cost from the schedule) and subtracting from such amount 48 times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiations if such rent was reasonable. The State agency with the concurrence of the regional director may prescribe circumstances which may dictate the use of economic rather than actual rent paid by the displaced tenant. For purposes of the regulations in this part, "economic rent" is defined as the amount of rent the displaced tenant would have had to pay for a comparable dwelling unit in an area similar to the neighborhood in which the dwelling unit to be acquired is located. The schedule should be based on a current analysis of the market to determine an amount for each type of dwelling required. When more than one State agency is causing the displacement in a community or an area, the respective heads of the agencies shall cooperate in choosing the method for computing the replacement housing payment and shall use uniform schedules of average rental housing in the community or area.

(2) *Comparative method.* The average month's rent may be determined by selecting one or more dwellings most representative of the dwelling unit acquired, which is available to the displaced person and meets the definition of a comparable replacement dwelling as described in § 310.42. The payment should be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years and subtracting from such amount 48 times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiations, if such rent was reasonable. The State agency with the concurrence of the Regional Director may prescribe circumstances which may dictate the use of economic rather than actual rent paid by the displaced tenant.

(3) *Exceptions.* The head of the State agency with the concurrence of the Regional Director may establish the average months' rent paid by the displaced person by using more than 3 months, if he deems it advisable. If rent is being paid to the displacing agency, economic rent shall be used in determining the

amount of the payment to which the displaced tenant is entitled.

(4) *Alternate to subparagraphs (1) and (2) of this paragraph.* When neither method is feasible, the head of the State agency with the concurrence of the Regional Director shall develop criteria for computing the payment.

(5) *Disbursement of rental replacement housing payments.* All rental replacement housing payments in excess of $500 will be made in four equal annual installments.

(b) *Purchases—replacement housing payment.* If the tenant elects to purchase instead of renting, the payment shall be computed by determining the amount necessary to enable him to make a downpayment and to cover incidental expenses in the purchase of replacement housing, as follows:

(1) The downpayment shall be the amount necessary to make a downpayment on a comparable replacement dwelling. Determination of the amount necessary for such downpayment shall be based on the amount of downpayment that would be required for purchase of the dwelling using a conventional loan.

(2) Incidental expenses of closing the transaction are those as described in § 310.43(c).

(3) The maximum payment may not exceed $4,000, except that if more than $2,000 is required, the tenant must match any amount in excess of $2,000 by an equal amount, in making the downpayment.

(4) The full amount of the replacement housing payment must be applied to the purchase price and incidental costs shown on the closing statement.

§ 310.53 Computation of replacement housing payments for certain others.

(a) A displaced owner-occupant who does not qualify for a replacement housing payment under Subpart E of this part because of the 180-day occupancy requirement and elects to rent is eligible for a rental replacement housing payment not to exceed $4,000. The payment will be computed in the same manner as shown in § 310.52(a) except that the present rental rate for the acquired dwelling shall be economic rent as determined by market data.

(b) A displaced owner-occupant who does not qualify for a replacement housing payment under Subpart E of this part because of the 180-day occupancy requirement and elects to purchase a replacement dwelling is eligible for a replacement housing downpayment and closing costs not to exceed $4,000. The payment will be computed in the same manner as shown in § 310.52(b).

Subpart G—Relocation Assistance Advisory Services

§ 310.60 Relocation assistance advisory program.

The head of the State agency shall provide a relocation assistance advisory program including such measures, facilities, or services as may be necessary or appropriate to perform all of the tasks detailed in section 205(c) of the Act and acceptable to the regional director, for persons displaced as a result of EDA assisted programs or projects. In the implementation of this section, when more than one State agency is causing displacement in a community or area, the heads of the agencies shall take positive action to assure the maximum coordination of relocation activities. To assure simplification and coordination in administering relocation activities, State agencies shall consider contracting with a single agency to assume full responsibility for providing relocation services and assistance in a given community or area. The head of the State agency with the concurrence of the regional director shall issue regulations and procedures requiring officials responsible for programs displacing persons, businesses, and farm operations to contact State and local agencies in the community to determine the availability of housing resources and to assure coordination of all relocation activities in the community.

Subpart H—Federally Assisted Programs

§ 310.70 Assurances.

(a) *Information.* The State agency shall provide EDA with a statement assuring EDA that the affected persons will be adequately informed of the benefits, policies, and procedures described in this part.

(b) *Inability to provide assurances.* The State agency shall provide an assurance to EDA that will comply with the provisions of this part as required by sections 210 and 305 of the Act. In the event a State agency maintains that it is legally unable to provide all or any part of the required assurances, its statement should be supported by an opinion of the chief legal officer of the State agency. The opinion shall contain a full discussion of the issues involved, and shall cite legal authority in support of the conclusion of legal inability to provide any part of the required assurances. Except that after July 1, 1972, the assurances shall be completely applicable to all States.

(c) *Compliance.* The State agency shall provide an assurance that it will comply with the provisions of sections 301 and 302 of the Act, as required by section 305 of the Act. If unable to comply with any of these policies, its statement shall be supported by an opinion of the chief legal officer of the State agency. Such opinion shall contain a full discussion of the issues involved and shall cite legal authority in support of any conclusion of legal inability to comply with any of the provisions set forth in sections 301 and 302 of the Act.

(d) *Monitoring assurances.* The Regional Directors shall take continuing action to insure that State agencies are acting in accordance with the assurances they have provided.

§ 310.71 Administration—relocation assistance programs.

If a State agency elects to contract for services pursuant to section 212 of the Act, it shall enter into a written contract consistent with EDA regulations and subject to the concurrence of the Regional Director.

§ 310.72 Notification procedures.

To the greatest extent practicable, at least 90 days' written notice of displacement must be given by the head of the State agency to each individual, family, business, or farm to be displaced. Such notice shall be served personally or by certified or registered first-class mail.

§ 310.73 Application for benefits.

(a) A displaced person who makes proper application to the State agency for a payment authorized by title II of the Act shall be paid promptly after a move, or, in hardship cases, be paid in advance.

(b) Applications for benefits under the Act must be made to the State agency within 18 months from the date on which the displaced person moves from the real property acquired or to be acquired, or the date on which the State agency makes final payment of all costs of that real property, whichever is the later date. The head of the State agency, with the concurrence of the Regional Director, may extend this period upon a proper showing of good cause.

Subpart I—Uniform Real Property Acquisition Policy

§ 310.80 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies and Regional Directors in implementing title III of the Act.

§ 310.81 Acquisition policies.

Before initiation of negotiations for the acquisition of real property, the head of the State agency, with the concurrence of the Regional Director, shall establish an amount which he believes to be just compensation therefor. In no event shall such amount be less than the State agency's approved appraisal of the fair market value of the property. When negotiations are initiated the owner of such real property shall be provided with a written statement of, and summary of the basis for, the amount estimated as the just compensation. The summary statement of the basis for the agency's determination of just compensation should include, as a minimum, the following:

(a) Identification of the real property and the estate or interest therein to be acquired, including the buildings, structures, and other improvements on the land, as well as the fixtures considered to be a part of the real property, and

(b) The amount of the estimated just compensation for the property to be acquired, as determined by the acquiring agency, and a statement of the basis therefor. In the case of a partial taking, damages, if any, to the remaining real property shall be separately stated.

(c) For the purpose of promoting uniformity under section 301(3) of the Act, the head of each State agency acquiring

V 38 - 15 JAN 23 73 3 XUM

real property shall, with the concurrence of the Regional Director, establish standards for appraisals used in real property acquisition criteria for determining the qualifications of appraisers, and a system of review by qualified appraisers consistent to the maximum extent possible under State law with the Uniform Appraisal Standards for Federal Land Acquisition published in 1972 (or at such later date as may become relevant if such Uniform Standards are revised) by the Interagency Land Acquisition Conference.

§ 310.82 Payment or reimbursement for necessary expenses.

The State agency shall provide EDA with a statement that, as required by section 305 of the Act, property owners will be paid or reimbursed for necessary expenses as specified in sections 303 and 304 of the Act.

Subpart J—Administrative Review

§ 310.90 Scope of subpart.

The provisions set forth in this subpart are to guide State agencies in providing administrative review of decisions made with respect to duties and responsibilities established under the Act.

§ 310.91 Right to review.

Any person aggrieved by a determination as to:

(a) Eligibility for a payment authorized by the Act, or

(b) The amount of such payment, shall have the right to have his application reviewed by the head of the State agency acquiring real property. The head of the State agency shall establish procedures which at the minimum guarantee claimants under the Act (1) prompt consideration of all requests for administrative review, (2) prompt written notice to the claimant of any determination made in connection with his application, including a full explanation concerning any amount claimed which has been disallowed, and (3) prompt payment of any amounts which are determined to be due the claimant.

311.68 Area OEDP committees established before June 1, 1971.
311.69 Reporting procedures.
311.70 Affirmative action programs.
311.71 Submission of affirmative action program.
311.72 Determination of satisfactory affirmative action program.
311.73 Compliance review procedures.
311.74 Noncompliance procedures.

AUTHORITY: Sec. 701, Public Law 89–136 (Aug. 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10–4 (Apr. 1, 1970).

Subpart A—General

§ 311.1 Purpose.

The purpose of this part is to reflect to the fullest extent possible the nondiscrimination policies of the Federal Government as expressed in the several statutes, Executive orders, and messages of the President dealing with civil rights and equality of opportunity. Discrimination based on race, color, national origin, or sex shall be prohibited to all recipients of assistance from EDA.

§ 311.2 Definitions.

For the purpose of this part, the following terms whenever used herein shall be limited to the following meanings:

"Applicant" means one who submits an application, request, or plan required to be approved by an EDA official, as a condition to eligibility for assistance, and "application" means such an application, request, or plan.

"Assistance" means:

(1) Grants, loans, or agreements for participation in loans of EDA funds,

(2) Waiver of charges which would normally be made for the furnishing of Government services,

(3) The detail of EDA personnel,

(4) Technical assistance furnished by EDA,

(5) Any EDA agreement, arrangement, contract, or other instrument which has as one of its purposes the provision of assistance. This includes assistance for the purpose of planning.

"Board of Directors" means the governing body of the district or the county or multicounty planning organization.

"Compliance agency" means a Federal agency assigned responsibility for effecting compliance with Executive Orders 11246 and 11375 of one or more industry classifications. The Department of Labor's Office of Federal Contract Compliance is responsible for coordinating the activities of compliance agencies.

"Compliance review" means a comprehensive analysis and evaluation of a company's personnel practices and policies as they relate to nondiscrimination in employment.

"Employment practices" means all terms and conditions of employment including but not limited to all practices relating to the screening, recruitment, selection, appointment, promotion, demotion and assignment of personnel, and includes advertising, hiring, assignments, classification, discipline, layoff and termination, upgrading, transfer, leave practices, rates of pay, fringe benefits, or other forms of pay or credit for services rendered and use of facilities.

"Executive Committee" means the group of individuals on the Board of Directors which is delegated authority to act in behalf of the Board of Directors.

"Minority" means Negroes, Orientals, American Indians, Eskimos, Aleuts, and Spanish-surnamed Americans.

"Program" means any project or activity for the provision of services, financial aid, property, or other benefits to persons, or for the provision of facilities for furnishing services, financial aid, property, or other benefits to persons, whether provided by the recipient of assistance or by others through contracts or other arrangements with the recipient, or whether provided with the aid of assistance or with the aid of any non-Federal funds, property, facilities or other resources provided to meet the conditions under which assistance will be received.

"Recipient" means any State, political subdivision of any State, or instrumentality of any State or political subdivision; or any public or private business or other entity, or any individual, in any State, who applies for EDA assistance, or to whom EDA assistance is extended directly or indirectly but does not include any ultimate beneficiary under any program. Recipient does not include lenders or lessors whose loans or lease payments are guaranteed by EDA unless the purpose of such guarantees is to assist such lender or lessor. Recipient includes the term substantial beneficiary.

"Substantial beneficiary" means an industry or commercial enterprise which as a direct result of an EDA project will construct a new facility which will employ 10 or more persons or which is intended to expand the work force at the present facility by adding 10 or more persons.

§ 311.3 General.

(a) EDA shall enforce title VI of the Civil Rights Act of 1964 as implemented by 15 CFR, Subtitle A, Part 8, which is hereby incorporated in this part.

(b) EDA shall enforce section 112 of Public Law 92–65 of the Public Works and Economic Development Act of 1971, to the end that no person in the United States shall, on the ground of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program receiving assistance from the Economic Development Administration; and

(c) EDA shall enforce Part III of Executive Order 11246, as amended, requiring nondiscrimination in federally assisted construction contracts.

Subpart B—Affirmative Action Program Requirements

§ 311.10 General.

(a) Each applicant for assistance for public works facilities is required to obtain, and submit as part of the application for such assistance, a written affirmative action program from each entity which will use the proposed facilities.

(1) To construct a new facility employing 50 or more persons, or

(2) To expand the work force at an existing facility by adding 50 or more employees.

(b) Each applicant for business loan assistance that employs or intends to employ 50 or more persons at the proposed EDA-assisted facility shall submit a written affirmative action program.

(c) Each affirmative action program must be approved prior to the approval of the project application.

§ 311.11 Affirmative action program.

The affirmative action program is:

(a) A company conducted evaluation or analytical review of its current employment practices with respect to existing labor conditions, specifically, minority and female population labor conditions. It offers the business entity an exercise in "company self-evaluation."

(b) An action plan whereby goals to be reached are established, procedures to be utilized are defined, and timetables to be met are specified.

(c) A monitoring aid with respect to data feedback, internal auditing and reporting as a means of measuring the company's progress in equal opportunity activities.

(d) An essential checklist for pinpointing areas of minority and female group underutilization. Special consideration is given to the following categories:

(1) Officials and managers (policymaking);

(2) Professionals;

(3) Technicians;

(4) Salesworkers;

(5) Office and clerical;

(6) Skilled craftsmen.

§ 311.12 Contents of an affirmative action program.

An affirmative action program shall be developed in accordance with the criteria established in 41 CFR 60–2.10 through 60–2.31 and shall contain:

(a) A brief history of the company.

(b) A job skill manning table (Form ED–612).

(c) A company policy, stating or reaffirming its intention to practice equal opportunity in all personnel activities.

(d) A procedural plan for policy dissemination for in-house personnel as well as for the general public.

(e) A narrative definition of roles of authority and responsibility which clearly defines specific officers and/or officers charged with specific assignments for affirmative action program implementation.

(f) An analysis of company personnel practices and deficient areas with reference made to the corresponding job categories and responsible organizational units.

(g) A goal-timetable schedule projected to satisfy equal opportunity compliance requirements. This schedule shall make reference to the appropriate job categories and units, accompanied by projected dates for accomplishment of goals.

(h) A narrative reference to additional contributing programs the company projects as being of significant value to the equal opportunity program.

(i) A narrative explanation of the company's active support for local and national community development programs.

Subpart C—Civil Rights Requirements for EDA-Assisted Water and Sewer Facilities

§ 311.30 General requirement.

All proposals for EDA assistance for water, sewer, waste disposal, or like facilities shall be examined at preapplication conferences and throughout the project application processing stage to assure that the benefits of EDA financial assistance will be made available on a nondiscriminatory basis and if the project will provide residential service, it will serve as many as possible of the minority and low income members of the community.

§ 311.31 Project application procedures.

All project applications shall be accompanied by the following which shall become part of the project file.

(a) A map with supplementary drawings of the entire town, community, or areas in which the proposed facilities will be located which depicts the following in reasonable detail:

(1) The location of the proposed facilities.

(2) The location of existing facilities of similar nature or purpose.

(3) The location and definable minority group makeup of all institutions, residential, industrial, commercial, and low-income areas served or benefited by these similar existing facilities.

(4) The location and definable minority group makeup of all institutions, residential, industrial, commercial, and low-income areas which will be benefited or served by the proposed facilities and

(5) The location and definable minority group makeup of any institutions, residential, industrial, commercial, and low-income areas which are not being served by existing facilities of similar nature or purpose and which will not be benefited or served by the proposed facilities.

(b) An explanation of why those minority groups and low-income areas not being served by existing facilities and not benefited or served by the proposed facilities cannot or should not be benefited or served.

(c) A statement setting forth any future plans to utilize the proposed EDA-assisted facilities, and existing facilities, to provide similar services or benefits to specific areas.

§ 311.32 Evaluation.

Where it is determined after evaluation of the material described in § 311.31 that discrimination is indicated the Assistant Secretary shall determine whether the application shall be returned to the applicant with an explanation of the problems. Where the applicant is returned the Civil Rights Specialist shall assist the applicant to modify, if feasible, the application in order to correct the discriminatory aspects.

§ 311.33 Modifications of applications.

Prior to the approval of modifications in plans and specifications or of change in orders which would substantially modify the application as approved, the project file and such modifications shall be processed in accordance with the steps required in this subpart.

Subpart D—Nondiscrimination on the Ground of Sex

§ 311.40 Purpose.

The purpose of this subpart is to implement the provisions of section 112 of Public Law 92–65 of the Public Works and Economic Development Act of 1971, to provide that no person in the United States shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program receiving assistance from the Economic Development Administration on the grounds of sex.

§ 311.41 Application.

This subpart applied to any program which assistance is authorized under title(s) I, II, III, and IV of the Public Works and Economic Development Act of 1965, as amended. It applies to assistance extended under any such program after January 19, 1973 pursuant to an application approved prior to January 19, 1973.

§ 311.42 General prohibition.

No person in the United States shall, on the ground of sex be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program to which this subpart applies.

§ 311.43 Special discriminatory acts prohibited.

(a) A recipient of assistance shall not participate, directly or through contractual or other arrangements, in any act or course of conduct which on the ground of sex.

V 38 - 15 JAN 23 73 XUM

(1) Denies to members of one sex any service, financial aid, property or other benefit provided with EDA assistance.

(2) Provides any service, financial aid, property or other benefit to members of one sex which is different, or is provided in a manner different from that provided to the opposite sex under the program.

(3) Subjects members of one sex to segregation or separate or other discriminatory treatment in any matter related to the receipt or non-receipt of any such service, financial aid, property or other benefit under the program.

(4) Restricts members of one sex in any way in the enjoyment of such services, facilities, or any other benefit, privilege, or property, provided to the opposite sex under the program.

(5) Denies members of one sex the opportunity to participate in any program supported by EDA assistance or affords them such an opportunity in a manner different from that afforded members of the opposite sex under the program.

(6) Denies members of one sex the same opportunity or consideration given members of the opposite sex to be selected or retained or otherwise to participate as a contractor, subcontractor or subgrantee in any program supported by EDA assistance.

(7) Denies members of one sex the opportunity or consideration to participate as a member of any planning, advisory or similar group or body which assists a recipient.

(8) Treats a person differently from others in determining whether he satisfies any admission, enrollment, quota, eligibility, membership, or other requirement, or condition which persons must meet in order to be provided any service, financial aid, or other benefit provided under the program.

(b) No recipient shall, in determining the kinds of services, financial aid, facilities, or other benefit which will be provided with EDA assistance, or the class of persons to be afforded an opportunity to participate in any such program supported by EDA assistance shall directly or through contractual or other arrangements, utilize criteria or methods of administration which have the effect of subjecting persons to discrimination on the basis of their sex.

(c) The enumeration of specific forms of prohibited discrimination in this section does not limit the generality of the prohibition in § 311.42.

§ 311.44 Employment practices.

(a) A recipient shall not discriminate against a person in its employment practices on the ground of sex and shall take affirmative action to ensure against such discrimination.

(b) Recipients shall develop the following standards in their employment practices:

(1) *Recruitment and advertisement.* (i) Recipients shall recruit employees of both sexes for all jobs unless sex is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise.

(ii) Advertisements in newspapers and other media for employment shall not express a preference for members of one sex unless sex is a bona fide occupational qualification reasonably necessary for the job advertised. Placement of ads under separate "male" and "female" headings is regarded as an expression of a preference, limitation, specification, or discrimination based on sex.

(2) *Job policies and practices.* (i) A recipient's written personnel policies shall indicate that there shall be no discrimination against employees on the basis of sex unless sex is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise.

(ii) Individuals of both sexes shall have an equal opportunity to any available job that they are qualified for, unless sex is a bona fide occupational qualification reasonably necessary to the normal operation of that particular business or enterprise.

(iii) The following situations do not warrant the application of the bona fide occupational qualification exception:

(*a*) The refusal to hire a woman because of her sex based on assumptions of the comparative employment characteristics of woman in general. For example, the assumption that the turnover rate among women is higher than men.

(*b*) The refusal to hire an individual based on stereotyped characterizations of the sexes. Such stereotypes include, for example, that men are less capable of assembling intricate equipment, that women are less capable of aggressive salesmanship.

(*c*) The refusal to hire an individual because of the preferences of coworkers, the employer, clients or customers except where it is necessary for the purpose of authenticity or genuiness, e.g., an actor or actress.

(iv) The policies and practices of the recipient shall assure appropriate physical facilities for members of both sexes unless the expense is clearly unreasonable. The recipient shall not refuse to hire persons, or deny any person a particular job because there are no restrooms or associated facilities unless the recipient is able to show that the construction of the facilities would result in unreasonable expense or use of space that would not have been so incurred or used.

(v) Recipients shall not make distinction between married and unmarried members of one sex that is not made between married and unmarried members of the opposite sex.

(vi) (*a*) Any employment policy or practice shall indicate that there will be no discrimination against applicants or employees because of pregnancy.

(*b*) Women shall not be penalized because they require time away from work on account of childbearing. When under the recipients' leave policy, a woman would qualify for leave, then childbearing must be considered by the employer to be a justifiable use of such leave. Following childbirth, and upon signifying during the leave period her intent to return, a woman must be reinstated to her original job or to an equivalent job without loss of service credits.

(vii) Recipients shall not deny employment to anyone because that person has young children.

(viii) The recipient shall not specify on the basis of sex any difference for male and female employees with respect to mandatory or optional retirement age.

(3) *Separate job lines.* In the absence of a bona fide occupational qualification an employer may not classify a job as "male" or "female" or maintain separate lines of progression or separate seniority lists. A seniority system or line of progress which distinguishes between "light" and "heavy" jobs is similarly unlawful if it is merely a disguised form of classification by sex or creates unreasonable obstacles to job advancement by members of one sex.

(4) *Wages.* The recipient shall not discriminate on the basis of sex in terms of wages paid.

(5) *Protective legislation.* State protective laws and administrative regulations will not be recognized by EDA where such laws and regulations are in conflict with the spirit of this subpart.

§ 311.45 Affirmative action program.

(a) EDA recognizes that women are likely to be underutilized in departments and jobs within departments as follows: Officials and managers, professionals, technicians, sales workers (except over-the-counter sales in certain retail establishments), craftsmen (skilled and semi-skilled).

(b) (1) Each applicant for EDA assistance for public works facilities shall obtain and submit as part of the application for such assistance a written affirmative action from each entity which will use the proposed facilities

(i) To construct a new facility employing 50 or more employees

(ii) To expand the work force at an existing facility by adding 50 or more employees

(2) The affirmative action program shall contain an analysis of the jobs, enumerated in paragraph (a) of this section, as filled by women and specific goals and timetables for the employment of women in those positions determined to be underrepresented with women. See Subpart B of this Part.

(c) Each applicant for EDA business loan assistance that employs or intends to employ 50 or more persons at the proposed EDA assisted facility shall submit a written affirmative action program which shall contain an analysis of the jobs, enumerated in paragraph (a) of this section, as filled by women and specific goals and timetables for the employment of women in those positions determined to be underrepresented with women. See Subpart B of this part.

§ 311.46 Nondiscrimination clause.

Every application for, and every grant, loan or contract authorizing approval of, EDA assistance and every modification

or amendment thereof, as a condition to its approval, shall contain or be accompanied by an assurance that the program will be conducted in compliance with the requirements imposed by this subpart.

§ 311.47 Cooperation, compliance reports and reviews and access to records.

(a) Each responsible EDA official shall to the fullest extent practicable seek the cooperation of recipients in obtaining compliance with this subpart and shall provide assistance and guidance to recipients to help them comply voluntarily with this subpart.

(b) Each recipient shall keep such records and submit to the responsible EDA official timely, complete, and accurate compliance reports at such times and in such form and containing such information as the responsible EDA official may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this subpart. In the case of any program under which a primary recipient extends assistance to any other recipient, or under which a recipient is obligated to obtain or to cooperate in obtaining the compliance of other parties subject to this subpart, such other recipients or other parties shall also submit such compliance reports to the primary recipient or recipient as may be necessary to enable them to carry out their obligations under this subpart.

(c) Each recipient shall permit access by the responsible EDA official or his designee during normal business hours to such of its books, records, accounts, and other sources of information, and its facilities, as may be pertinent to ascertain compliance with this subpart. Where any information required of a recipient is in the exclusive possession of another who fails or refuses to furnish this information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(d) Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this subpart and its applicability to the program under which the recipient receives assistance, and make such information available to them in such manner, as the responsible EDA official finds necessary to apprise such persons of the protections against discrimination assured them by this subpart.

(e) The responsible EDA official shall from time to time review the practices of recipients to determine whether they are complying with this subpart.

§ 311.48 Complaints.

(a) Any person who believes members of one sex to be subjected to discrimination prohibited by this subpart may file with the responsible EDA official a written complaint.

(b) Any person who believes members of one sex to be subjected to discrimination prohibited by this subpart may have a representative file with the responsible EDA official a written complaint.

(c) A complaint shall be filed not later than 90 days from the date of the alleged discrimination, unless the time for filing is extended by the responsible EDA official.

§ 311.49 Intimidatory or retaliatory acts prohibited.

(a) No recipient or other party shall intimidate, threaten, coerce, or discriminate against, any person for the purpose of interfering with any right or privilege secured by this subpart, or because the person has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this subpart.

(b) The identity of complainants shall be kept confidential except to the extent necessary to carry out the purposes of this subpart, including the conduct of any investigation, hearing, or judicial or other proceeding thereunder.

§ 311.50 Investigations.

(a) The responsible EDA official will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this subpart.

(b) The investigation shall include, where appropriate, a review of the pertinent practices and policies of the recipient or other party subject to this subpart, the circumstances under which the possible noncompliance with this subpart occurred, and other factors relevant to a determination as to whether there has been a failure to comply with this subpart.

(c) (1) If an investigation pursuant to paragraph (a) of this section indicates a failure to comply with this subpart, the responsible EDA official will so inform the recipient and the matter will be resolved by informal means.

(2) If an investigation does not warrant action pursuant to paragraph (c) (1) of this section, the responsible EDA official will so inform the recipient and the complainant, if any, in writing.

§ 311.51 Sanctions.

If there is a failure to comply with this subpart, the Secretary is authorized to:

(a) Suspend or terminate assistance.

(b) Refuse to grant or to continue assistance.

(c) Take such other action as may be authorized by law.

Subpart E—Minority Representation and Employment on Public Planning Organizations.

§ 311.60 Purpose.

This subpart sets forth EDA requirements for the participation of minority persons on district organizations, on county and multicounty planning organizations, and on OEDP committees. This subpart establishes minimum minority representation requirements and implementation procedures for the selection and approval of minority representatives on such organizations and committees and also establishes affirmative action program requirements for the employment of minority persons on the staffs of such organizations. Where State laws or regulations preclude the degree of minority representation required by this subpart, EDA will consult with the individual planning and development organizations and OEDP committees and determine the means to effect meaningful involvement of minorities.

§ 311.61 Minority representation requirements.

(a) The percentage of the minority representation within the total membership of a governing board of planning and development organizations or an OEDP committee shall equal or exceed the percentage of the minority population within the entire area served by the organization or committee with the following exceptions:

(1) Where the minority population equals or exceeds 5 percent but, because of the size of the governing board or OEDP committee, it is not sufficiently large to establish representation in accordance with paragraph (a) of this section, there shall be at least one minority representative.

(2) Where the minority population exceeds 25 percent of the total population, the minority representation on the governing board or OEDP committee is not required to be greater than one-fourth.

(b) The membership of the Executive Committee shall reflect the ratio of the minority representation on the Board of Directors. In all cases where there is minority representation on the Board by virtue of the requirements of paragraph (a) of this section, there shall be at least one minority representative on the Executive Committee.

§ 311.62 Selection of minority representatives.

All planning and development organizations and OEDP committees are required to provide minorities with the opportunity to select their own representatives.

§ 311.63 Implementation procedures.

(a) New planning and development organizations.

(1) The following guidelines are established as a model procedure to assure that, after June 1, 1971, new planning and development organizations seeking final EDA approval of an application for initial funding or a request for district designation shall provide minorities the opportunity to select their own representatives.

(i) The organization shall prepare a written inventory of all political, civic, religious, professional, social, and fraternal organizations and groups substantially representative of the minority groups in the areas. Such inventory shall include the following information:

(*a*) The names and mailing addresses of the local organizations.

(*b*) Descriptions of their activities (if not self-evident from the organizations' names).

V 38 - 15 JAN 23 73 XUM

(c) Minority group(s) represented by the organization.

(d) Approximate numerical membership for each organization.

(ii) The organization shall notify in writing the minority organizations and groups listed in the inventory of the efforts being undertaken to organize a planning and development organization, and of EDA's minority representation requirements. It shall also request representatives of the minority organizations and groups to assemble at a designated time and place for the purpose of selecting the minority representatives who will participate in the formation and activities of the organization and become members of the Board of Directors. The role of the organization at such a meeting should be limited to coordinating the meeting and assisting the minority organizations and groups in selecting their representatives.

(2) A new planning and development organization may develop an alternate procedure if it believes that such procedure will better achieve the minority representation requirements than the model. However, such an alternate procedure must be approved by the Director, Office of Civil Rights, in coordination with the Regional Director, after an initial review by the Civil Rights Specialist.

(b) In all cases, whether the new planning and development organization follows the model procedure established in paragraph (a)(1) of this section or develops an approved alternate procedure, paragraph (a)(2) of this section, the following minimum information shall be required as part of the application for initial funding, or where funds are not requested, as part of the District OEDP:

(1) A listing of all political, civic, religious, fraternal, professional, and social organizations substantially representative of minority groups in the area served.

(2) The names of the organizations listed in paragraph (b)(1) of this section which were actually given the opportunity to participate in the selection of minority representatives. If any of the organizations were not given such an opportunity, an explanation should be given.

(3) A description of the method or methods by which minority groups were notified.

(4) A description of the method or procedures through which minority representation was achieved.

(5) The names of the minority persons selected by the minority organizations and groups to serve as minority representatives.

(c) EDA shall review the information submitted pursuant to (b) of this section and shall certify whether the new planning and development organization has complied with the requirements of § 311.61. Such certification shall be made part of the application file.

§ 311.64 Existing planning and development organizations.

Each planning and development organization which as of June 1, 1971 was funded by EDA or which represents a district organization designated before June 1, 1971 shall

(a) Certify that it has already met the requirements of § 311.61, by submitting an acceptable report as required in § 311.65 or

(b) Implement the requirements of § 311.66.

§ 311.65 Written report.

Within 6 months from the date it receives notice from EDA of the minority representation requirements, § 311.61, the organization shall submit a written report certifying that the minority representation requirements have been met. The report shall include:

(a) The total population and the minority population of the area served by the organization.

(b) A list of all the members of the governing board and of the Executive Committee indicating the minority representatives.

(c) A description of the methods through which this minority representation was established.

§ 311.66 Written plan.

(a) Within 6 months from the date it receives notice from EDA of the minority representation requirements, § 311.61, the organization shall develop a written plan describing the means through which EDA's minority representation requirements will be met. The plan shall include the following information:

(1) The total population and the minority population of the area served by the organization.

(2) A listing of all political, civic, religious, fraternal, professional, and social organizations substantially representative of the minority groups in the area served.

(3) Numerical goals for minority representation and projected size of the governing board and Executive Committee.

(4) A description of the method and steps by which the minority representation requirements will be achieved.

(5) A timetable scheduling the dates by which such steps will be taken.

(6) Revisions of bylaws.

(7) The efforts already undertaken to achieve minority representation.

(b) The plan should be based on the model procedure outlined in § 311.63(a) or an alternate procedure which the organization deems appropriate.

(c) The plan shall be implemented by the organization as soon as practicable, but no later than 1 year from the date of approval. At that time the organization shall submit an implementation report outlining how the plan has been implemented and describing the makeup of the governing board and the Executive Committee.

§ 311.67 New area OEDP committees.

(a) After June 1, 1971 an area OEDP committee must certify that it has met the minority representation requirements established in § 311.61 prior to the approval by EDA of an initial OEDP. The committee should use the procedures found in § 311.63(a)(1) or an alternative procedure which it has developed.

(b) The initial OEDP shall include a list of the members of the OEDP committee with an indication of race and description of the methods through which the minority representation requirement was met.

§ 311.68 Area OEDP committees established before June 1, 1971.

Each area OEDP committee established before June 1, 1971 shall be required to meet the minority representation requirements established in § 311.61. The first annual OEDP report required by EDA after June 1, 1972 shall include a list of the members of the OEDP committee with an indication of race and a description of the methods through which the minority representation requirement was met.

§ 311.69 Reporting procedures.

(a) After EDA's requirements for minority representation have been met, each planning and development organization and area OEDP committee will be required to report annually to EDA its minority membership and/or the membership of all governing bodies and functional committees.

(b) The report shall include the following:

(1) Names of members.

(2) County of residence.

(3) Racial or ethnic origins of each member.

(4) Composition of each organization, governing body, and committees.

(5) Total population of the area served by the organization or OEDP committee, based on the most recent available data.

(6) Minority population of the area served by the organization or OEDP committee, based on the most recent available data.

(c) Each organization subject to the requirements of § 311.70 shall also include a report on the progress made under its affirmative action program.

§ 311.70 Affirmative action programs.

Under the Department of Commerce title VI regulations, recipients of EDA financial assistance are required to take affirmative action to insure that job applicants are employed, and treated during employment, without regard to their race, color, or national origin. As part of the implementation of this requirement, EDA requires that each planning and development organization shall submit a written affirmative action program describing its commitment to employ minorities on its professional and support staff.

The affirmative action program shall include the following:

(a) An analysis of staffing to determine whether minority group members are being underutilized in either professional or clerical job categories. The analysis shall include:

(1) The total population and the minority population in the area served.

(2) The availability of promotable minority employees on the current staff.

(3) The anticipated expansion, contraction, and turnover in the staff.

(4) The existence of training institutions capable of training minority group members in the requisite skills.

(5) The degree of training which the organization is reasonably able to undertake as a means of making staff positions available to minority group members.

(b) Goals and timetables.

(1) The planning and development organizations in existence before June 1, 1971 shall establish goals and, where appropriate, timetables for the employment of minorities on its professional and support staff.

(i) The goals and timetables are to correct minority underutilization.

(ii) Timetables should reflect such factors as natural turnover and attrition.

(iii) Timetables should not be based on terminations of staff in order to establish minority representation.

(2) Planning and development organizations established after June 1, 1971 must establish goals on the basis of paragraph (a) of this section.

(3) The minority members on the staff of each organization should in general reflect the ratio of minority representation required for the board of directors.

(c) A statement of the organization's equal employment opportunity policy.

(d) A list of sources for minority recruitment.

(e) The name of the person designated by the organization as the director or manager of the affirmative action program. The person designated should have the authority and responsibility for effectively implementing the affirmative action program.

(f) Evidence that the organization has validated job requirements to insure that the requirements are reasonable and do not include experience factors which would automatically exclude otherwise qualified minority candidates.

§ 311.71 Submission of affirmative action program.

(a) Each organization established after June 1, 1971 shall submit its affirmative action program with the application for funding, or in case funds are not requested, as part of the OEDP.

(b) Each organization established before June 1, 1971, shall submit its affirmative action program with the report required by § 301.65(a) of this chapter or with the implementation report required by § 301.66(b) of this chapter.

§ 311.72 Determination of satisfactory affirmative action program.

(a) The Civil Rights Specialist shall:

(1) Evaluate each affirmative action program and where necessary, negotiate with the planning and development organizations to correct any deficiencies.

(2) Prepare a written evaluation of each affirmative action program.

(b) The Director, Office of Civil Rights, shall determine whether each affirmative action program is satisfactory. In those instances where the Director determines that the affirmative action program is unacceptable, EDA shall so inform the organization submitting the program and shall negotiate with the organization to correct any deficiencies.

§ 311.73 Compliance review procedures.

(a) In order to determine whether planning and development organizations and area OEDP committees are complying with the provisions of this subpart, EDA shall conduct periodic compliance reviews which shall include evaluation of:

(1) The performance of the organization in meeting its quantitative goals and timetables for minority participation.

(2) The performance of the organization in assuring that minority representatives actually participate in the business of the organization.

(3) The performance of the organization with regard to employment of minorities on its staff.

(b) In evaluating these elements of compliance, the Civil Rights Specialist shall utilize standards set forth in the planning and development organization's or area OEDP committee's initial OEDP, or latest affirmative action program, these standards having been approved by EDA during their formulation.

§ 311.74 Noncompliance procedures.

(a) Where compliance reviews, or reviews of required reports indicate a failure to comply with this subpart, the Director, Office of Civil Rights, shall in coordination with the Regional Director, notify the planning and development organizations or area OEDP committee and the matter will be resolved by informal means whenever possible.

(b) If the Director, Office of Civil Rights, in coordination with the Regional Director, determines that the matter cannot be resolved by informal means, they shall, through the Deputy Assistant Secretary for Economic Development Planning, recommend to the Assistant Secretary that compliance be effected by the suspension or termination of assistance or the refusal to grant or to continue assistance, or by any other means authorized by law.

(c) Any procedures taken to effect compliance must be consistent with the Department of Commerce Civil Rights regulations (15 CFR Part 8, Subpart B).

NOTE: Incorporation by reference approved by Director of the Federal Register, January 15, 1973.

ADVISORY COMMITTEE MANAGEMENT

Administrative Guidelines and Management Controls

No. 15—Pt. III——1

V 38 - 15 JAN 23 73 3 XUM

OFFICE OF MANAGEMENT AND BUDGET

ADVISORY COMMITTEE MANAGEMENT

Administrative Guidelines and Management Controls

The Federal Advisory Committee Act, Public Law 92–463, assigns to the Director of the Office of Management and Budget responsibility for prescribing "administrative guidelines and management controls applicable to advisory committees." Pursuant to that authority and to Executive Order 11686 (1972), the Director has proposed issuance of a revised OMB Circular A–63 entitled "Committee Management." In addition, the Office of Management and Budget in conjunction with the Department of Justice has prepared a draft memorandum regarding implementation of the Federal Advisory Committee Act.

To assist the Federal agencies in preparing their initial regulations implementing the Act, the draft memorandum was distributed to the agencies on an informal basis in November 1972. The text of the memorandum printed here is virtually identical to that of the November issuance.

After comments on the memorandum have been received and analyzed, its provisions will be revised as appropriate, and the memorandum will be issued in modified form. The new form will be a narrative section-by-section discussion of the Act and will include references to the legislative history.

Interested persons are invited to submit legal and other comments on the proposed circular and memorandum, on or before March 26, 1973. Such comments should be sent, in duplicate, to the Director, Office of Management and Budget, Attention: Committee Management Secretariat, Room 9026, New Executive Office Building, Washington, D.C. 20503, with a copy to the Office of Legal Counsel, Department of Justice, Washington, D.C. 20530.

VELMA N. BALDWIN,
Assistant to the Director for Administration, Office of Management and Budget.

ROGER C. CRAMTON,
Assistant Attorney General, Office of Legal Counsel.

[Circular No. A–63]

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: ADVISORY COMMITTEE MANAGEMENT

1. *Purpose.* This circular provides guidance for the implementation of the Federal Advisory Committee Act, Public Law 92–463, hereinafter referred to as the "Act," and Executive Order No. 11686, October 7, 1972, entitled "Committee Management." The circular should be used in conjunction with the joint OMB-Department of Justice memorandum which is to be issued separately, regarding implementation of the Act. This circular establishes requirements for annual reports on advisory committees. These reports will provide the basis for the President's annual report to the Congress.

2. *Rescission.* This circular rescinds and supersedes Circular A–63, "Management of Interagency Committees," dated March 22, 1964, and becomes effective January 5, 1973.

3. *Definition.* For the purpose of this circular the terms "advisory committee" and "Presidential advisory committee" shall have the same meaning as when used in the Act.

4. *Responsibilities.* a. The OMB Committee Management Secretariat is responsible for general oversight of all advisory committees and for the performance of the functions vested in the Director of OMB by the Act and Executive Order No. 11686. In the performance of those functions, the Secretariat may assign responsibility to agencies for support of presidential advisory committees, for the evaluation of their reports, and for subsequent reporting to the Congress.

b. Department and agency heads are responsible for the performance of the functions vested in them by the Act and for the management and submission of reports to OMB concerning agency advisory committees.

c. Each agency shall publish implementing regulations containing guidelines and management controls for advisory committees.

d. Each agency shall maintain systematic information on the nature, functions, and operation of each advisory committee within its jurisdiction.

5. *Annual report.* The annual report is based on the calendar year. The information provided will be included in the President's report to the Congress. Agency reports shall include only those advisory committees established by that agency, or, if created by Executive order or statute, for which the agency has responsibility. The report should be structured in this way:

a. An individual sheet (attached) filled out for each committee;

b. A summary which provides four separate alphabetical lists:

(1) New advisory committees created by the agency whose creation was specifically directed by statute;

(2) New advisory committees created by the agency during the reporting year other than those specifically directed by statute;

(3) All other advisory committees for which the agency is responsible that were in existence at the end of the calendar year except those listed in (1) and (2) above;

(4) All advisory committees terminated during the reporting calendar year.

c. An estimated aggregate cost to operate such committees, including man-years of staff support:

(1) For the total listing of advisory committees reported;

(2) For each separate list reported under paragraph b. above.

Copies of reports shall be submitted in quadruplicate to the Director, Office of Management and Budget, Attention: Committee Management Secretariat, no later than February 1.

ANNUAL REPORT OF AGENCY ADVISORY COMMITTEES REPORT PERIOD: CY ——— [1]

1. Exact name of advisory committee.
2. Is the committee ad hoc or continuing? [2]
3. Establishment date or date of continuation.[3]
4. Specific establishment authority.
5. Is establishment authority:[4]
a. Specifically directed by law.
b. Authorized by law.
c. Established by agency authority.
d. Established by presidential directive.
6. Termination or report date.[5]
7. Brief statement of function.
8. Title(s) and date(s) of report(s) submitted, if any.
9. Actual dates of all meetings (with a summary total as to the number of times met).
10. Names, occupations, and addresses of current members (may be attached separately).
11. Estimated total aggregate annual cost to the United States to fund, service, supply, and maintain the committee.
12. Estimated annual man-years of staff support for the committee.
13. Name, address, and telephone number of the agency representative to provide additional information.
14. If any information is excluded from this report for reasons of national security, a statement to that effect should be included.

13. Administrative remedies.

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: IMPLEMENTATION OF THE FEDERAL ADVISORY COMMITTEE ACT

1. *Basis; applicability.* This Memorandum is based upon the Federal Advisory Committee Act, Public Law 92–463, and Executive Order No. 11686 (Oct. 7, 1972) entitled "Committee Management." Subsection 7(c) of the Act states that the Director of the Office of Management and Budget "shall prescribe administrative guidelines and management controls applicable to advisory committees • • •"

The particular sections of the Act upon which the provisions of this Memorandum are based are indicated in parentheses following the various provisions. Section 4(a) of the Act states "The provisions of this Act or of any rule, order, or regulation promulgated under this Act shall apply to each advisory committee except to the extent that any Act of Congress establishing any such advisory committee specifically provides otherwise." Where the statute establishing an advisory committee is vague or silent, the provisions of the Act are controlling. However, where the establishing statute deals specifically with the subject, that statute is controlling.

This Memorandum applies to all "advisory committees" within the meaning of the Act.[1]

The effective date of the Act, except as provided in section 7(b), is January 5, 1973, except to the extent that full implementation of the Act requires that certain steps be taken prior to that date.

2. *Policy.* In interpreting this Memorandum the purposes of Congress in adopting the Act should be followed. (Section 2.) These purposes include—

a. Limiting the number of advisory committees to those that are essential and terminating any advisory committees which are not fulfilling their purposes;

b. Insuring effective use of advisory committees and their recommendations, while assuring that decisional authority is retained by the responsible Federal officers.

c. Providing standards and uniform procedures with respect to the creation, operation, and duration of advisory committees; and

d. Insuring that adequate information is provided to the Congress and the public regarding advisory committees and insuring adequate opportunities for access by the public to advisory committee meetings.

3. *Definitions.* For purposes of this Memorandum—

a. "Act" means the Federal Advisory Committee Act.

b. "Advisory committee" has the meaning set forth in paragraph 4 of this Memorandum.

c. "Agency" has the meaning set forth in 5 U.S.C. 551(1). (Section 3(c).) That definition is as follows:

• • • each authority of the Government of the United States, whether or not it is within or subject to review by another agency, but does not include—

(A) The Congress;

(B) The Courts of the United States;

(C) The Governments of the territories or possessions of the United States;

(D) The government of the District of Columbia; • • •

d. "Agency head" means the head of an agency which uses an advisory committee (or the delegate of such agency head).

e. "Committee Management Secretariat" has the meaning explained in paragraph 6 of this Memorandum.

f. "Director" means the Director of the Office of Management and Budget or his delegate (Section 3(1).)

g. "Presidential advisory committee" means an advisory committee which advises the President. (Section 3(4).)

4. *Committees covered by the Act.* a. Basic meaning of "advisory committee."

(1) Subject to the exclusion of committees composed wholly of full-time Federal employees and the other exclusions described in paragraph 4b, below, the term "advisory committee" means:

Any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee or other subgroup thereof • • •, which is—

(A) Established by statute or reorganization plan, or

(B) Established or utilized by the President, or

(C) Established or utilized by one or more agencies,

In the interest of obtaining advice or recommendations for the President or one or more agencies or officers of the Federal Government • • • (Section 3(2).)

The terms of the Act and its legislative history, including numerous indications of reliance upon concepts used in Executive Order No. 11007 (1962) and No. 11671 (1972), show that, while broad coverage was intended, the statute is aimed at "advisory committees or similar groups" in the ordinary sense. In general, such bodies would have all or most of the following characteristics:

(a) Fixed membership, usually selected by a Federal official or determined on the basis of Federal law;

(b) Established by a Federal official or on the basis of Federal law; or, if not federally established, the initiative for its use as an advisory body for the Federal Government came from a Federal official rather than from a private group;

(c) A defined purpose of providing advice regarding a particular subject or particular subjects;

(d) An organizational structure (e.g., officers) and a staff;

(e) Regular or periodic meetings.

Thus, for example, the Act would not apply where a group of persons seeks and obtains a meeting (or even a series of meetings) with a Federal official in order to present him with their views on certain subjects.

(2) Committees "utilized" to advise a Federal official or agency, though not established for that purpose, are covered by the Act. With respect to such a group, the Act applies to the extent that the group is engaged in the function of advising the Federal official or agency.

For example, the Act would apply to an already existing organization of scholars enlisted by an agency to provide advice on a continuing basis. Meetings and records of the organization pertaining to its function of advising Federal officials would be subject to the Act. However, with regard to the organization's other functions, the Act would not apply.

(3) A group satisfying the other criteria outlined in (1) above may be an "advisory committee" even though its duration is short. For example, a task force created to complete, within a period of months, a study of a particular situation might be covered. Another example of an ad hoc (or noncontinuing) group which might be subject to the Act is a committee whose function is to conduct a single conference.

(4) The Act's definition of "advisory committee" includes "subcommittee(s)" and "other subgroup(s)" of the listed types of groups. The manner in which the various provisions of the Act apply to subgroups is indicated in the pertinent portions of this Memorandum (e.g., paragraph 8d regarding committee charters and paragraph 10 regarding meetings). With regard to certain requirements, a distinction is made between formal and informal subgroups. A formal subgroup might be one which independently possesses most of the requisites of an advisory committee (fixed membership, separate staff, regular meetings, etc.). An informal subgroup is one possessing few of those requisites (e.g., during a particular meeting, an advisory committee might devide itself into several topics). Another example might be several committee members who confer informally with regard to a matter relating to the committee.

(5) In general, the functions of an advisory committee are to be "solely • • • advisory."[2] "Operational" groups are not covered by the Act.

Where a group provides some advice to an agency, but the group's advisory function is incidental to and inseparable from other (e.g., operational) functions, the Act does not apply. If the advisory function is separable, the group(whether or not Federally established) should be made subject to the Act to the extent that it operates as an advisory committee.

b. Groups excluded from the Act's coverage.

(1) The Act does not apply to any committee "which is composed wholly of full-time officers or employees of the Federal Government." (Section 3(2).)

(2) The Advisory Commission on Intergovernmental Relations and the Commission on Government Procurement are excluded from the Act's coverage. (Section 3(2).)

(3) The Act is inapplicable to "any advisory committee established or utilized by", the Central Intelligence Agency or the Federal Reserve System. (Section 4(b).)

(4) The Act is inapplicable to "any local civic group whose primary function is that of rendering a public service with respect to a Federal program." (Section 4(c).)

(5) The Act is inapplicable to "any State or local committee • • • or similar group established to advise • • • State or local officials or agencies." (Section 4(c).)

(6) The term "advisory committee" is not intended to include persons or organizations which have contractual relationships with agencies. For example, a consulting firm hired by an agency to provide advice regarding a matter would not be subject to the Act.[3] However, in determining whether the Act is applicable in a specific situation, the substance of the relationship between (i) the agency and (ii) the other persons or organization is controlling. If the criteria described in paragraph 4a(1) above are present, the existence of a contractual relationship with one (or more) of the committee's members would not affect coverage by the Act.

5. *Responsibilities of the President; Delegation to OMB.* a. Pursuant to Executive Order No. 11686 (1972), the Director is to perform or to designate, from time to time, other Federal officers to perform the functions vested in the President by the Act, except the functions (described in section 6(c) of the Act) of making annual reports to Congress.

b. The annual reports of the President shall be prepared by the Director for the consideration of the President.

c. The Director shall be responsible for submitting or causing another agency to submit to Congress a report on the recommendations contained in any public report submitted to the President by a Presidential advisory committee. (Section 6(a).) Any such report to Congress shall contain proposals for action or reasons for inaction with respect

---

[1] Indicate appropriate calendar year of report.

[2] Generally an ad hoc committee is one which is established for a particular purpose, and has a short duration. (A short duration is usually less than 12 months.)

[3] The establishment date is the original creation date of the committee. The continuation date is the latest date that a review has taken place and the determination to continue the committee has been made. Indicate the most recent date.

[4] Indicate the appropriate letter of the establishing authority for the committee.

[5] This is to indicate when the committee will cease functioning. It may be the final terminating date or the date a new continuance is due.

[1] The term "advisory committee" is explained in paragraph 4 of this Memorandum.

[2] Exceptions to this rule are explained in paragraph 4a above and in paragraph 8c(1) of this Memorandum.

[3] But see paragraphs 11b and 11d of this Memorandum.

V 38 - 15 JAN 23 73 XUM

to such public recommendations. (Section 6 (b).)

Any such report to Congress shall be submitted within 1 year of the date the committee's report is submitted to the President.

6. *Other responsibilities of OMB.* In general, the functions of the Director under the Act and under Executive Order No. 11686 (1972) shall be carried out by the Committee Management Secretariat of the Office of Management and Budget. (Section 7(a).)

In addition to the matters listed in paragraph 5 of this Memorandum, specific functions of the Secretariat include the following:

a. The Secretariat shall provide guidance and assistance to advisory committees and to the agencies toward the ends of improving advisory committee performance and assuring compliance with the Act. (Section 7(c).) In performing this function, the Secretariat shall consider recommendations submitted by agency heads.

The administrative guidelines and management controls contained in this Memorandum may be supplemented by additions to this Memorandum or by separate directives or orders. (Section 7(c).)

Regarding interpretation of the Act, the Secretariat or an agency may consult the Office of Legal Counsel of the Department of Justice.

To insure consistency with the Memorandum the Secretariat shall review agency regulations, administrative guidelines and management controls implementing the Act and any amendments to such documents.

b. The Secretariat shall conduct an annual review of the activities and responsibilities of each advisory committee. (Section 7(b).) The types of information to be provided with regard to each advisory committee are set forth in paragraph 12a of this Memorandum.

c. The Secretariat shall have access to the records of any advisory committee and, as indicated in paragraph 12b of this Memorandum, may require periodic reports concerning advisory committee operation.

d. The Secretariat shall exercise the function of the Director concerning establishment by an agency of an advisory committee. (Section 9(a)(2).)

e. On the basis of its annual review of advisory committees, the Secretariat shall make recommendations to the President, the Director, and to either the agency head (in the case of an advisory committee created by the agency) or Congress (in the case of an advisory committee established by statute) regarding the effectiveness of (particular) advisory committees, revision of advisory committee functions and abolition or merger of advisory committees. (Section 7(b).)

7. *Responsibilities of Agencies.* a. The head of each agency shall insure compliance with the Act and this Memorandum and shall issue appropriate implementing regulations. Such regulations (and any amendments to them) shall be submitted to the Office of Management and Budget Secretariat and to the Office of Legal Counsel, Department of Justice prior to taking effect. Such regulations shall apply to all advisory committees established or used by the agency and shall be consistent with the agency's regulations implementing the Freedom of Information Act.

Each agency may establish (as part of its regulations or otherwise) additional administrative guidelines and management controls for advisory committees established by the agency. (Section 8(a).)

b. The head of each agency shall designate an Advisory Committee Management Officer who, with respect to advisory committees established by the agency, shall carry out the functions specified in section 8(b) of the Act and the corresponding portions of this Memorandum (paragraphs 8–11). Such Officer may also be assigned such functions with respect to advisory committees used by, but not established by, the agency.

The name of each Advisory Committee Management Officer shall be provided to the OMB Secretariat.

c. Each agency shall maintain systematic information on the nature, functions, and operations of each advisory committee which it uses. (Section 8(a).) This shall include, in a single location, a complete set of the charters of the advisory committees used by the agency.

d. Each agency shall cooperate with the OMB Secretariat in implementing the Act and this Memorandum.

(1) When appropriate, an agency head shall submit to the OMB Secretariat recommendations for improving advisory committee performance. (Section 7(c).)

(2) Upon the request of OMB, an agency shall evaluate and report to the Congress on public recommendations of a Presidential advisory committee. (Section 6(b).) (See para. 5(c).)

(3) Each agency shall cooperate with OMB with regard to the annual review of advisory committees (see paragraph 12) and furnishing periodic reports or other information concerning advisory committees.

8. *Creation of Advisory Committees.* a. Subsection 9(a)(2) of the Act deals with the establishment of advisory committees by agencies where such establishment is not specifically authorized by statute or by the President.

In such a case, prior to establishment of the advisory committee, the agency head must consult with the OMB Secretariat. Such "consultation" may be in the form of a letter or memorandum from the agency head describing the nature and purpose of the proposed advisory committee and the reasons why it is needed, including an explanation of why the functions of the proposed committee could not be performed by an agency or by an existing committee. (Section 5(b).)

If the OMB Secretariat is satisfied that establishment of the advisory committee would be in accord with the Act, the agency head shall prepare a written certification to the effect that creation of the advisory committee is in the public interest and shall publish in the FEDERAL REGISTER the certification and a description of the nature and purpose of the committee.

Such notice must be published at least 30 days prior to the filing of the committee's charter (in accord with sec. 9(c) of the Act); provided that in particular cases the OMB Secretariat may, for good cause, authorize a shorter period of time between publication of the notice and the filing of the charter.

If not satisfied that establishment of the advisory committee would be in accord with the Act, the OMB Secretariat shall inform the agency head in writing within 30 days.

b. The guidelines set forth in section 5(b) of the Act (regarding legislation establishing or authorizing establishment of an advisory committee) are, to the extent they are applicable, to be followed by the President, agency heads, or other federal officials in creating advisory committees. (Section 5(c).) With respect to the creation or renewal of any such advisory committee, the following guidelines shall be observed:

(1) No advisory committee is to be created if its functions are being or could be performed by an agency or by an existing committee.

(2) The agency or official creating an advisory committee shall clearly define the purpose of the committee.

(3) The membership of an advisory committee shall be fairly balanced in terms of the points of view represented and the committee's functions.

The membership of a committee necessarily depends on its functions. For example, the membership of a committee whose sole function is to consider scientific questions may be limited to scientists. However, an effort should be made to include scientists representing different points of view and different types of employment (university, industry, etc.).

If a committee is concerned with matters involving questions of social policy, representatives of the public interest should be included and representation of a variety of economic and social groups and geographic areas is desirable.

No strict rule of proportional representation of the various types of groups is applicable. However, in regard to the selection of committee members, there is to be no discrimination on the basis of race, color, national origin, religion, or sex.

(4) There shall be appropriate safeguards to assure that an advisory committee's advice and recommendations will not be inappropriately influenced by any special interest.

(5) Each advisory committee shall prepare at least once each year a report describing its membership, functions, and actions.

c. (1) Unless specifically provided otherwise by statute or Presidential directive, advisory committees shall be utilized solely for advisory functions. (Section 9(b).) For purposes of this provision, "Presidential directive" refers to an executive order, executive memorandum, or an OMB directive based upon authority delegated by Executive Order No. 11686 (1972).

When a federally established advisory committee has both advisory and operating functions and the two types of functions are separable, the Act and this Memorandum shall apply only to the advisory functions.

As indicated in paragraph 4a(2) above, a committee "utilized" by a Federal official as an "advisory committee," but not established for that purpose, is subject to the Act only to the extent that the group performs the function of advising a Federal official.

(2) Each agency head shall take appropriate steps to assure that decisions regarding actions or policies relating to matters dealt with by an advisory committee shall be made solely by Federal officers (Section 9(b)).

d. (1) Each advisory committee shall file a charter complying with Section 9(c) of the Act. This requirement applies to committees "utilized" as advisory committees, though not established for that purpose.

The applicability of this requirement to subgroups depends upon the nature of the subgroup. With regard to formal subgroups, the requisite information should be set forth either in the charter of the parent committee or in a separate charter. Informal subgroups, particularly those temporary in nature, need not be reflected in a charter.

(2) The charter of a Presidential advisory committee shall be filed with the OMB Secretariat and with the committees of the Senate and the House of Representatives having jurisdiction over the subject matter of the advisory committee.

The charter of an advisory committee which reports to an agency shall be filed with the head of the agency and with the standing committees of the Senate and the House of Representatives having legislative jurisdiction over the agency.

(3) Until a charter has been filed in accord with (2) above, no advisory committee shall meet or take any action.

(4) Each charter shall contain the information described in section 9(c) of the Act.

(5) A copy of each charter shall be furnished to the Library of Congress at the time of filing. Copies should be sent to: Library of Congress, Exchange and Gift Division, Federal Advisory Committee Desk, Washington, D.C. 20540.

9. *Termination and renewal of Advisory Committees.* a. Nonstatutory committees—For purposes of this paragraph (9a), a "nonstatutory advisory committee" is one established by the President or a Federal officer, including a committee which was authorized but not established, by a Federal statute.

(1) Each nonstatutory advisory committee which is in existence on January 5, 1973, shall terminate by January 5, 1975, unless it is renewed by the President or the establishing officer prior to the latter date. (Section 14(a)(1).)

Before such a committee can be renewed by an agency, the agency head must determine that such renewal is necessary and must inform the OMB Secretariat of his determination and the reasons for it. Such determination shall be made not more than 60 days before the scheduled date of termination.

If the Secretariat concurs, the agency head shall publish notice of the renewal in the FEDERAL REGISTER and shall file a new charter in compliance with section 9(c) of the Act. (Section 14(b)(1).)

Any such advisory committee which is renewed shall continue for no more than a 2-year period unless, prior to the expiration of that period, it is renewed for another 2-year period, in accord with the above provisions. (Section 14(c).)

(2) Each advisory committee established by the President or a Federal officer after January 5, 1973, shall terminate not later than 2 years after its establishment unless prior to that time it is renewed by appropriate action (Section 14(a)(2)).

The procedures for renewal (including rechartering) of such advisory committees are the same as those described in (1) above.

(3) Unless provided otherwise by the establishing authority, the duration of a subgroup shall be the same as that of the parent committee.

b. Statutory advisory committees—For purposes of this paragraph, a "statutory advisory committee" is one established by an Act of Congress.

(1) Each statutory advisory committee which is in existence on January 5, 1973, shall terminate by January 5, 1975, unless its duration is otherwise provided for by law. (Section 14(1)(1).)

(2) Each statutory advisory committee which is established after January 5, 1973, shall terminate not later than 2 years after its establishment unless its duration is otherwise provided for by law. (Section 14(a)(2).)

(3) Any statutory advisory committee shall file a new charter (complying with section 9(c) of the Act) upon the expiration of each successive 2-year period following the date of enactment of the statute establishing the committee. (Section 14(b)(2).)

c. No advisory committee required by section 14(b) of the Act to file a new charter shall take any action, other than preparation and filing of such charter, between (i) the date the new charter is required, and (ii) the date it is filed. (Section 14(b)(3).)

10. *Operation of Advisory Committees.* a. Meetings. The provisions of this paragraph (10a) apply to all meetings of all advisory committees unless there is a specific statement to the contrary in this paragraph. The provisions of this paragraph apply to all meetings of all formal subgroups. Application of this paragraph to informal subgroups is to be determined by the parent committee, subject to review by the agency head or the OMB Secretariat to insure that there is no use of informal subgroups to evade the requirements of the Act.

(1) *Calling of meetings.* (a) No advisory committee shall hold any meetings except at the call of or with the advance approval of a designated Federal employee (see par. 10a(5) below). (Section 10(f).)

(b) Except with respect to Presidential advisory committees, each meeting of an advisory committee shall be conducted in accord with an agenda approved by the Federal employee. (Section 10(f).) The agenda shall list the matters to be considered at the meeting and shall indicate whether any part of the meeting is concerned with matters which are within the exemptions of the Freedom of Information Act, 5 U.S.C. 552(b). Ordinarily, copies of the agenda shall be distributed to the members of the committee prior to the date of the meeting.

The procedure to be followed in the event of unwarranted departure from a meeting's agenda is set forth in paragraph 10a(5) below.

(2) *Notice of meetings.* (a) Except when the Director determines otherwise for reasons of national security, timely notice of each advisory committee meeting shall be published in the FEDERAL REGISTER. (Section 10(a)(2).) The fact that a meeting is closed to the public pursuant to section 10(d) of the Act does not, in general, affect the foregoing requirement.

Responsibility for providing such notice shall be assigned by the head of the agency to which the advisory committee reports or, in the case of a Presidential advisory committee, by the chairman of the committee.

In addition to the notice in the FEDERAL REGISTER, other forms of notice should be used to the extent practicable. Such other forms include press releases and notice by mail.

(b) Such notice should state the name of the advisory committee, the time of the meeting and the purpose of the meeting (including where appropriate, a summary of the agenda). The notice should state whether (or the extent to which) the public will be permitted to attend or participate in the meeting. If the meeting will be open to the public the place of the meeting should also be included in the notice.

(c) Such notice should be published or provided at least 7 days before the date of the meeting except that (i) a different provision may be made in emergency situations and (ii) shorter advance notice may be used when 7-days notice is impracticable.

(d) As indicated above, public notice is not required when the Director has determined that such notice would be inconsistent with national security. Any agency or advisory committee which seeks such a determination, with respect to a particular meeting or a series of meetings, shall submit its request and a statement of reasons to the Director. Ordinarily, such a request should be made at least 30 days prior to the meeting.

(3) *Public participation.* (a) Subject to the exceptions described in (c) below, each advisory committee meeting shall be open to the public. Subject to limits consistent with (b) below, interested persons shall be permitted to attend, appear before or file statements with any advisory committee. (Section 10(a)(1), (3); Section 10(d).)

(b) The agency head or, in the case of a Presidential advisory committee, the chairman of the committee shall, with respect to any advisory committee meeting, all or part of which is open to the public, assure compliance with the following rules:

(i) Such meeting shall be held at a reasonable time and at a place that is reasonably accessible to members of the public.

(ii) The size of the meeting room shall be reasonable, considering such factors as the size of the advisory committee, the number of members of the public who could be expected to seek to attend the particular meeting, the number of persons who attended or sought to attend similar meetings in the past and the resources and facilities available to the committee or agency.

(iii) Any member of the public who wishes to do so shall be permitted to file a written statement with the committee, before or after the meeting.

(iv) To the extent that the time available for the meeting permits, interested persons may be permitted by the committee or its chairman to present oral statements at the meeting. A committee may establish procedures requiring such persons to obtain advance approval for such participation.

(v) Participation by members of the public in committee meetings (except in accord with (iv)) or questioning of committee members or other participants shall not be permitted except in accordance with procedures established by the committee.

(c) Subsection 10(d) of the Act states that the provisions concerning open meetings and public participation (Section 10(a)(1), (3)) "shall not apply to any advisory committee meeting which the President, or the head of the agency to which the advisory committee reports, determines is concerned with matters listed in • • • (5 U.S.C. 552(b), subsection of the Freedom of Information Act)."

See also paragraph 10a(2)(d) above (regarding national security).

(i) Whenever the Director determines in accord with paragraph 10a(2)(d) above, that public notice of a meeting would be inconsistent with national security, such meetings shall be closed to the public.

(ii) The exemptions set forth in the Freedom of Information Act (5 U.S.C. 552(b)) are as follows:

• • • matters that are—

(1) Specifically required by Executive order to be kept secret in the interest of the national defense or foreign policy;

(2) Related solely to the internal personnel rules and practices of an agency;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than any agency in litigation with the agency;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency;

(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) Geological and geophysical information and data, including maps, concerning wells.

While the Freedom of Information Act deals with access to existing documents, the present Act encompasses oral discussions which will occur in the future and which may have no direct relation to a document.

V38-15 JAN 23 73 XUM

Accordingly, in applying the provision of 5 U.S.C. 552(b) to advisory committee meetings, some modification of concepts developed solely with regard to preexisting documents is appropriate. Moreover, in order to accomplish the intent of Congress with respect to openness of advisory committees, available exemptions should be waived whenever practicable.

(iii) In applying the Freedom of Information Act exemptions to advisory committee meetings, the following rules shall be followed:

(A) If a meeting (or portion of a meeting) will have the express purpose of discussing an existing document which is within one of the exemptions set forth in 5 U.S.C. 552(b), the meeting (or portion) may be closed to the public: *Provided*, That a meeting (or portion) involving consideration of a document prepared by or for the advisory committee and exempt only under exemption (5) (concerning intra- and interagency memorandums and letters • • •) may be closed only if the agency head, or the Director (in the case of a Presidential advisory committee) determines that it is essential to close such meeting (or portion) to protect the free exchange of internal views and to avoid undue interference with agency or committee operation.

(B) If a meeting (or a portion of a meeting) will have the express purpose of discussing a matter which is within one of the exemptions set forth in 5 U.S.C. 552(b), other than exemption (5), the meeting (or portion) may be closed to the public, even though no specific exempt document is to be discussed.

(C) If a meeting will be such that neither (A) nor (B) above furnishes a basis for closing it, the meeting shall be open to the public (unless paragraph 10a(3)(c)(i) relating to national security applies): *Provided*, That such a meeting (or portion of a meeting) may be closed if the agency head, or the Director (in the case of a Presidential advisory committee) determines that the meeting (or portion) will consist of an exchange of opinions, that the discussion if written would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close such meeting (or portion) to protect the free exchange of internal views and to avoid undue interference with agency or committee operation.

(iv) An advisory committee which has planned a meeting and which seeks to have all or part of the meeting closed on the basis of 5 U.S.C. 552(b) shall notify the agency head or, in the case of a Presidential advisory committee, the Director. Such notification shall be in writing, shall set forth the reasons why the meeting (or portion) should be closed and shall be submitted at least 30 days before the scheduled date of the meeting.

If the agency head or the Director finds the request to be warranted and in accord with the policy of the Act, the request shall be granted. The determination of the agency head or the Director shall be in writing and shall contain a brief statement of the reasons for closing the meeting (or portion).

The agency head or the Director may delegate responsibility for making the above determinations. However, in any case where a determination to close a meeting (or portion) is made by a delegate of the agency head or the Director, the determination must be reviewed and approved by the agency general counsel.

Such a determination may be made with respect to a single meeting or, where appropriate, a series of meetings. (A determination to close a series of meetings does not affect the requirement that public notice be given regarding each meeting. See par. 10a(2) above.)

(v) If a meeting is to consider several separable matters, not all of which are within the exemptions of 5 U.S.C. 552(b), only the portion of the meeting dealing with exempt matters (as explained in (A) through (C) above) may be closed.

(vi) When all or part of a meeting is to be closed, such fact shall be indicated in the public notice of the meeting and in the agenda. When only part of a meeting is to be closed, the agenda shall be arranged whenever practicable, to facilitate attendance by the public at the open portion of the meeting.

(vii) When a meeting (or portion) is closed, members of the advisory committee shall not disclose the matters discussed except to other members of the advisory committee, the staff of the advisory committee, or agency employees.

(viii) Regarding a meeting (or portion) which was closed, the agency head or the Director (in the case of a presidential advisory committee) may review after the meeting the appropriateness of the determination to close the meeting (or portion). Such review might, for example, consist of an analysis of the minutes of the meeting or a comparison of the agenda and the minutes. The agency head, the Director, or the chairman may require that corrective action be taken with respect to the particular advisory committee or the general procedures concerning the closing of meetings.

(ix) When a meeting (or portion) is closed, the advisory committee shall issue a report at least annually setting forth a summary of its activities and related matters which are informative to the public consistent with the policy of 5 U.S.C. 552(b). (Section 10(d).)

(4) **Minutes.** Detailed minutes shall be kept of each meeting of each advisory committee, including, to the extent practicable, meetings of formal and informal subgroups. (Section 10(c).) The chairman of each advisory committee shall designate a member or other person to keep the minutes.

The minutes shall include at least the following items: The time and place of the meeting; a list of advisory committee members and staff and agency employees present at the meeting; a complete summary of matters discussed and conclusions reached; copies of all reports received, issued, or approved by the advisory committee; an explanation of the extent to which the meeting was open to the public; an explanation of the extent of public participation, including a list of members of the public who presented oral or written statements and an estimate of the number of members of the public who attended the meeting.

The chairman of the advisory committee shall certify to the accuracy of the minutes.

(5) ***Designated Federal employee.*** (a) Subsection 10(e) of the Act requires that each advisory committee meeting be chaired or attended by a designated "officer or employee of the Federal Government." With regard to an advisory committee used by an agency, the agency head shall designate the Federal employee and determine whether he is to chair or attend the meetings. With regard to presidential advisory committees such employee may be designated and his role determined by the Director.

Advisory committees whose membership is fixed by statute are subject to section 10(e), unless the statute establishing the advisory committee contains a specific provision to the contrary. (Section 4(a).)

Ordinarily, the Federal employee so designated should serve the advisory committee on a continuing basis.

(b) No advisory committee shall conduct a meeting in the absence of the designated Federal employee. (Section 10(d).) If simultaneous subgroup meetings are to be held, each subgroup should have a designated Federal employee. These provisions apply to formal subgroups.

(c) The designated Federal employee shall be authorized to adjourn any advisory committee meeting, whenever he determines adjournment to be in the public interest. (Section 10(e).) For example, adjournment might be in order in the event of unwarranted departure from a meeting's agenda.

(d) Paragraph 10a(1) above describes other functions of the designated Federal employees.

b. *Access to records.* (1) Subsection 10(b) of the Act provides that subject to 5 U.S.C. 552 records, reports, and other documents of each advisory committee shall be available for public inspection and copying. A basic purpose of the Act is to permit wide access by the public to the records and papers of advisory committees.

(2) The documents referred to in section 10(b) are as follows:

• • • the records, reports, transcripts, minutes, appendixes, working papers, drafts, studies, agenda, or other documents which were made available to or prepared for or by each advisory committee • • •

The meaning of the quoted language shall be broadly construed.

(3) (a) Access to advisory committee documents is subject to the exemptions contained in 5 U.S.C. 552(b). When the only basis for denying access to a document is exemption (5), access may not be denied unless the agency head or, the Secretariat (in the case of a presidential advisory committee) determines that such denial is essential to protect the free exchange of internal views and to avoid undue interference with agency (or advisory committee) operation.

Agencies and advisory committees shall waive available exemptions whenever, in their discretion, such waiver is appropriate.

(b) Access to advisory committee records may be refused when such records relate directly to a meeting which was closed for reasons of national security. (See paragraph 10a(3)(c)(i) above.)

(c) With respect to any meeting, part of which was closed to the public, access shall be permitted to records relating to the open portion of the meeting. For example, the portion of the minutes which relates to the open segment of the meeting shall be made available upon a proper request.

(d) Regarding a group which is "utilized" as an advisory committee but was not established for that purpose, the requirements of public access apply only to records relating directly to "advisory committee" functions.

(4) The advisory committee records described in section 10(b) are to be available for public inspection and copying "at a single location in the offices of the advisory committee or the agency to which the advisory committee reports • • •"

(5) Under section 10(b) of the Act, advisory committee records are to be available "until the advisory committee ceases to exist." Disposition of advisory committee records after the termination of the committee shall be determined by the agency head, by the Secretariat, or the General Services Administration (in the case of a Presidential advisory committee).

(6) The Act does not require that transcripts be kept of advisory committee meetings. However, section 11(a) of the Act provides as follows:

Except where prohibited by contractual agreements entered into prior to the effective date of this Act, agencies and advisory committees shall make available to any person, at actual cost of duplication, copies

of transcripts of agency proceedings or advisory committee meetings.

The requirement of availability of transcripts is subject to the exceptions discussed above in paragraph 10b(3).

For the meaning of "agency proceeding" as used in section 11(a) of the Act, see 5 U.S.C. 551(12).

11. *Administration of Advisory Committees.* a. Support services:

(1) With regard to any advisory committee established by or reporting to an agency, the agency shall provide services unless the establishing authority provides otherwise. (Section 12(b).)

Where an advisory committee reports to more than one agency, only one agency shall be responsible for support services. The agencies to which the advisory committee reports may determine which such agency will provide such services.

(2) With regard to a Presidential advisory committee, support services shall be provided by GSA, or, if the Director so determines, another agency.

(3) The term "support services" refers to such matters as staff, quarters, supplies, and funds (including, where appropriate, funds for the publication of reports).

b. Uniform pay guidelines. Guidelines implementing section 7(d) of the Act will be published separately.

c. *Agency records.* (1) The head of each agency shall insure that the agency maintains records, as required by section 12(a) of the Act, which disclose the disposition of funds made available to the agency's advisory committees and the nature and extent of the activities of the agency's advisory committees.

Regarding a Presidential advisory committee, GSA, or another agency designated by the Director shall maintain financial records.

Ths Comptroller General or his representatives shall have access to the above records, for the purpose of audit and examination.

(2) In accord with procedures established by the Director, each agency shall provide budget information regarding its advisory committees. (Section 7(e).)

d. Submission of reports to Library of Congress. Subject to the exemptions contained in the Freedom of Information Act and the "national security" exception (explained in par. 10b(3) above), each advisory committee shall file eight copies of each of its reports with the Library of Congress. (Section 13.) Such filing shall occur at the time of issuance of the report.

When an agency head or the Secretariat determines that it would be appropriate, background papers prepared by consultants for an advisory committee and other advisory committee documents may be filed with the Library of Congress. All documents filed with the Library should be sent to: Library of Congress, Exchange and Gift Division, Federal Advisory Committee Desk, Washington, D.C. 20540.

12. *OMB annual review; periodic reports.* a. The annual review of all advisory committees shall be conducted by the OMB Secretariat and shall be based upon the activities of advisory committees during a calendar year. (Section 7(b).)

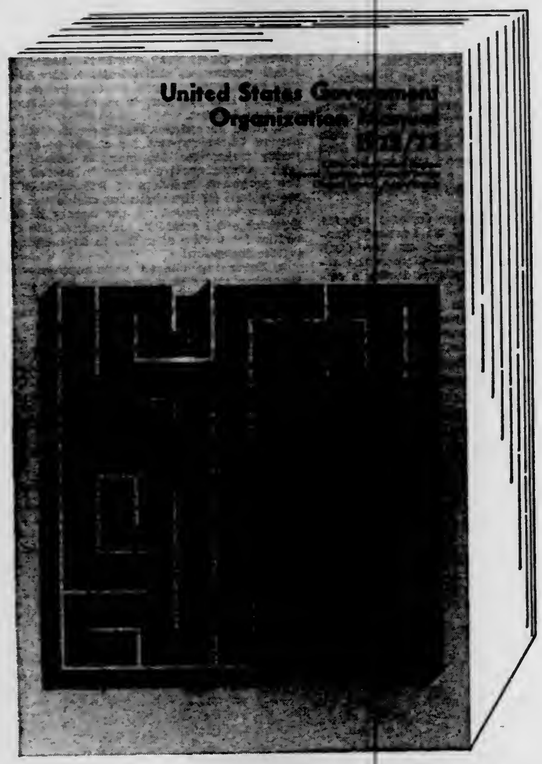
By February 1 of each year, the head of each agency and the chairman of each Presidential advisory committee shall, for each respective advisory committee, provide the Secretariat the information described in section 6(c) of the Act (including recommendations for exclusion, for national security reasons, of information from the President's report to Congress). Each such agency head shall also provide his views regarding whether its responsibilities should be revised and whether it should be merged with another advisory committee or should be abolished (including the reasons for any recommendation to abolish a statutory advisory committee).

Such information shall be provided on a form prescribed by the Secretariat. Four copies of the form shall be submitted.

b. The Secretariat may require each agency and each Presidential advisory committee to submit periodic reports regarding advisory committee operations, including such matters as public access to committee meetings and records and the handling of administrative complaints.

13. *Administrative remedies.* a. Each agency and the Director (with regard to Presidential advisory committees), shall establish appropriate procedures and administrative remedies concerning alleged noncompliance with the Act, this circular, or regulations implementing the Act.

b. Such procedures shall provide that any person whose request for access to an advisory committee document is denied may seek administrative review in accord with the pertinent Freedom of Information Act regulation. (If the pertinent regulation contains no such provision, the agency head or Director shall establish an appropriate procedure for review of access to advisory committee documents.)



c. Regarding alleged noncompliance not involving access to a document, such procedures shall provide for the filing of written complaints by an advisory committee member or by an aggrieved individual or organization.

Such complaints are to be filed with an appropriate agency official or (in the case of Presidential advisory committees) with the Secretariat. Such procedures shall provide a time limit for the filing of complaints by an impartial official. Such complaints shall be acted upon promptly and written notice of the disposition of the complaint shall be provided to the complainant.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

Title 3—The President

PROCLAMATION 4179

National Jaycee Week, 1973

By the President of the United States of America

A Proclamation

The Jaycee idea began with a handful of young men in St. Louis 53 years ago. Today, it embraces some 325,000 members in the more than 6,000 American communities, that have chapters of the United States Jaycees, and it enriches the lives of communities in 80 countries around the world through the affiliates of Junior Chamber International.

Yet even in its maturity the Jaycees organization retains a youthful outlook, and even with its global scope it continues to build on the individual member—first helping him be the best man he can be, then helping him help his fellow man in need, one to one.

The Jaycee cares about people, and he shows it. He cares about progress, and he does something about it. He lives by the creed that "Service to humanity is the best work of life," and he throws himself into that work both as a vocation and as an avocation.

He is the kind of young man this country will need in great numbers to help meet the challenges of our Bicentennial Era and our coming third century. It is fitting that we should annually give special recognition and encouragement to him and to his organization.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning January 21, 1973, as National Jaycee Week—a time for the expression of America's gratitude for the many significant contributions of the U.S. Jaycees.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-first day of January, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

[FR Doc.73-1603 Filed 1-23-73;10:12 am]

V 38 - 16 JAN 24 73 XUM

PROCLAMATION 4180

Announcing the Death of Lyndon Baines Johnson

By the President of the United States of America

A Proclamation

TO THE PEOPLE OF THE UNITED STATES:

It is my sad duty to announce officially the death of Lyndon Baines Johnson, the thirty-sixth President of the United States, on January 22, 1973.

President Johnson served his country for more than thirty years as Congressman, Senator, Vice President and President. Yet it can be said of Lyndon Johnson that he served his country all his life, for his was a complete and wholehearted love of our Nation. From his early days as a teacher, to his last days as a distinguished elder statesman, he did his best to make the promise and the wonder of America become as real in the lives of all his countrymen as it was in his own.

He once said that he was a free man, an American, a United States Senator, and a Democrat, in that order. He was also a great patriot.

Although he will no longer walk among us, Lyndon Johnson's influence on our times, which often seemed so much larger than life, cannot be stolen from us by death. Not only the things that he did, but also the spirit with which he did them, will be remembered long after time heals our sorrow at his leaving.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, in tribute to the memory of President Johnson, and as an expression of public sorrow, do hereby direct that the flag of the United States be displayed at half-staff at the White House and on all buildings, grounds, and Naval vessels of the United States for a period of thirty days from the day of his death. I also direct that for the same length of time the representatives of the United States in foreign countries shall make similar arrangements for the display of the flag at half-staff over their Embassies, Legations, and other facilities abroad, including all military facilities and stations.

I hereby order that suitable honors be rendered by units of the Armed Forces under orders of the Secretary of Defense on the day of the funeral.

I do further appoint Thursday, January 25, 1973 to be a National Day of Mourning throughout the United States. I recommend that the people

V 38 - 16 JAN 24 73 XUM

assemble on that day in their respective places of worship, there to pay homage to the memory of President Johnson. I invite the people of the world who share our grief to join us in this solemn observance.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of January in the year of our Lord nineteen hundred seventy-three and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

EXECUTIVE ORDER 11699

Amending Executive Order No. 11248, Placing Certain Positions in Levels IV and V of the Federal Executive Salary Schedule

By virtue of the authority vested in me by section 5317 of title 5 of the United States Code, as amended, section 1 of Executive Order No. 11248 [1] of October 10, 1965, as amended, placing certain positions in level IV of the Federal Executive Salary Schedule, is further amended by deleting "(1) Special Assistant to the Secretary (Congressional Relations), Treasury Department.", and inserting in lieu thereof the following:

(1) Assistant to the Secretary for Legislative Affairs, Department of the Treasury.

Richard Nixon

THE WHITE HOUSE,
January 22, 1973.

V 38 - 16 JAN 24 73 XUM

EXECUTIVE ORDER 11700

Providing for the Closing of Government Departments and Agencies on Thursday, January 25, 1973

By virtue of the authority vested in me as President of the United States, it is hereby ordered as follows:

SECTION 1. All executive departments, independent establishments, and other governmental agencies, including their field services, shall be closed on Thursday, January 25, 1973 as a mark of respect for Lyndon Baines Johnson, the thirty-sixth President of the United States. That day shall be considered as falling within the scope of 5 U.S.C. 6103 (b), and of all statutes so far as they relate to the compensation and leave of employees of the United States.

SEC. 2. The first sentence of Section 1 of this order shall not apply to those offices and installations, or parts thereof, in the Department of State, the Department of Defense, or other departments, independent establishments, and governmental agencies which the heads thereof determine should remain open for reasons of national security or defense or other public reasons.

THE WHITE HOUSE,
January 23, 1973.

Richard Nixon

PART 352—REEMPLOYMENT RIGHTS

Subpart F—Reemployment Rights After Service in the Economic Stabilization Program

Part 352 is amended to add a new subpart governing reemployment rights after service in the Economic Stabilization Program carried out under the Economic Stabilization Act of 1970, as amended. These regulations are authorized by section 212(g) of that Act and are issued under authority delegated to the Civil Service Commission by the Director, Cost of Living Council.

Effective January 23, 1973, Subpart F is added to Part 352 as set out below.

Subpart F—Reemployment Rights After Service in the Economic Stabilization Program

Sec.
352.601 Purpose.
352.602 Eligibility for reemployment rights.
352.603 Consideration for promotion.
352.604 Position to which entitled on reemployment.
352.605 Authority to return employee to his former agency.
352.606 Termination of reemployment rights.
352.607 Appeals to Commission.
352.608 Applicability to employees serving on effective date.

AUTHORITY: Sec. 212(g) of Economic Stabilization Act of 1970 (85 Stat. 751; Public Law 92–210) and Executive Order 11695.

Subpart F—Reemployment Rights After Service in the Economic Stabilization Program

§ 352.601 Purpose.

This subpart governs reemployment rights authorized by section 212(g) of the Economic Stabilization Act of 1970, as amended (85 Stat. 751, Public Law 92–210, the Act) after service in the Economic Stabilization Program carried out under the Act.

§ 352.602 Eligibility for reemployment rights.

(a) *Employees eligible.* Except as provided in paragraph (b) of this section, an employee in the executive branch of the Government (including the United States Postal Service) or the Government of the District of Columbia may be granted reemployment rights under this subpart if he is serving under one of the following types of appointment and is hired under the Economic Stabilization Program without a break of one full workday by transfer, reinstatement, or excepted appointment:

(1) A career or career-conditional appointment in the competitive service;

(2) A career executive assignment or limited executive assignment under Part 305 of this chapter; or

(3) An appointment without a specific time limitation in the excepted service.

(b) *Employees not eligible.* An employee is not eligible for reemployment rights under this subpart if he:

(1) Is serving a trial or probationary period;

(2) Is serving in an obligated position;

(3) Is serving with reemployment rights granted under Subpart B of this part;

(4) Has received a specific notice, with or without an offer of another position, of separation because of reduction in force or otherwise; or

(5) Has submitted a resignation.

§ 352.603 Consideration for promotion.

(a) Entitlement: An employee with reemployment rights under this subpart shall be considered by his former agency for all promotions for which he would be considered were he not serving under the Economic Stabilization Program. A promotion based on this consideration is effective on the date it would have been made if the employee were not absent.

(b) When the position an employee last held in his former agency is regraded upward while he is serving under the Economic Stabilization Program with reemployment rights under this subpart, his former agency shall place him in the regraded position.

§ 352.604 Position to which entitled on reemployment.

(a) *Basic entitlement.* On reemployment, an employee is entitled to be appointed to a position in his former agency in the following order:

(1) To the position to which promoted in absentia under § 352.603, or if that position is not available, to a position at the same or higher grade, in the same occupational field, and in the same geographical area.

(2) To the position he last held in his former agency or, if that position is not available, to a position in the same occupational field and in the same geographical area.

(b) *Reemployment in a different position.* An employee's former agency may reemploy him in a position of higher grade than the one to which he is entitled under paragraph (a) of this section. With the employee's concurrence, he may be reemployed in a different location or in a different position than the one to which he is entitled under paragraph (a) of this section.

(c) *Grade and rate at which returned.* An employee's former agency shall give every possible consideration to retaining the salary equivalent of the grade and rate attained under the Economic Stabilization Program. The agency is strongly encouraged to reemploy the employee at the grade and rate attained under the program. The head of the former agency shall report to the Director of the Cost of Living Council within 30 days of reemployment any instance where current pay is not retained and the reasons.

§ 352.605 Authority to return employee to his former agency.

(a) *Authority.* An employee granted reemployment rights under this subpart may be returned to his former agency

V 38 - 16 JAN 24 73 XUM

without regard to Parts 351, 752, 771, and 772 of this chapter when this return is—

(1) Without a break in service of one workday or more;

(2) To a position to which reemployment is provided by § 352.604; and

(3) At not less than the rate of pay he would have been receiving in the position he last held in his former agency or in the position to which he was promoted in absentia, if he had not been transferred.

(b) *Date of return.* An employee is to be returned to his former agency with reemployment rights under this subpart only on a date set by the Economic Stabilization agency under consultation with the former agency. Unless the former agency agrees to an earlier date, the date of return shall be set by the Economic Stabilization agency at least 14 calendar days after the former agency is notified of the intention to return the employee. In any event, the employee shall be returned no later than 3 years after the date of his appointment under the Economic Stabilization Program with reemployment rights under this subpart.

§ 352.606 Termination of reemployment rights.

The reemployment rights of an employee terminate if he leaves the Economic Stabilization Program by resignation or by transfer to another agency, including his former agency if the transfer is not made on a date set by the Economic Stabilization agency under § 352.605.

§ 352.607 Appeals to the Commission.

(a) *Right of appeal.* If an employee considers that he has been improperly reemployed or that he has been improperly denied reemployment to which he considers he is entitled under this subpart, he may appeal to the Commission.

(b) *Time limit on appeals.* An appeal under this section must be submitted within 15 calendar days of reemployment or within 15 calendar days after denial of reemployment rights. The Commission may extend these time limits on a showing by an employee that circumstances beyond his control prevented him from filing his appeal on a timely basis.

(c) *Finality of Commission decision* The Commission shall make the final decision on an employee's reemployment rights under this subpart.

§ 352.608 Applicability to employees serving on effective date.

The provisions of this subpart shall take the place of those in Subpart B of this part for an employee appointed to the Economic Stabilization Program after December 21, 1971, and serving in the program on the effective date of this subpart with reemployment rights granted under Subpart B of this part.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-1492 Filed 1-22-73;4:01 pm]

Title 7—AGRICULTURE

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

PART 818—IMPORT QUOTAS ON SWEETENED CHOCOLATE, CANDY, AND CONFECTIONERY COVERED BY TSUS ITEMS 156.30 AND 157.10 OF PART 10, SCHEDULE 1, OF THE TARIFF SCHEDULES OF THE UNITED STATES

Sugar Containing Products

Purpose and basis and bases and considerations. This regulation is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended by Public Law 92-138 approved October 14, 1971 (hereinafter referred to as the "Act"). The purpose of this regulation is to implement the limitation on the importation of sweetened chocolate, candy, and confectionery pursuant to paragraph (d) of section 206 of the Act which reads in pertinent part as follows:

• • • the Secretary shall each year, beginning with the calendar year 1972, limit the quantity of sweetened chocolate, candy and confectionery provided for in items 156.30 and 157.10 of Part 10, Schedule 1, of the Tariff Schedules of the United States which may be entered or withdrawn from warehouse, for consumption in the United States as hereinafter provided. The quantity which may be so entered or withdrawn during any calendar year shall be determined in the fourth quarter of the preceding calendar year and the total amount thereof shall be equivalent to the larger of (1) the average annual quantity of products entered, or withdrawn from warehouse, for consumption under the foregoing items of the Tariff Schedules of the United States for the 3 calendar years immediately preceding the year in which each such quantity is determined or (2) a quantity equal to 5 per centum of the amount of sweetened chocolate and confectionery of the same description of U.S. manufacture sold in the United States during the most recent calendar year for which data are available. The total quantity to be imported under this subsection may be allocated to countries on such basis as the Secretary determines to be fair and reasonable, taking into consideration the past importations or entries from such countries. For purposes of this subsection the Secretary shall accept statistical data of the U.S. Department of Commerce as to the quantity of sweetened chocolate and confectionery of U.S. manufacture sold in the United States.

In accordance with the rule making requirements of 5 U.S.C. 553, there was published in the FEDERAL REGISTER on November 28, 1972, on page 25171 a notice of proposed rule making for the issuance of a regulation to establish import quotas on sweetened chocolate (other than in bars or blocks of 10 pounds or more each), candy and confectionery for the calendar year 1973. Written data, views, or arguments for consideration in connection with the proposed regulation were to be submitted no later than December 20, 1972. There were no comments received regarding the proposal.

The average annual quantity of products entered, or withdrawn from warehouse, for consumption under the Tariff Schedules of the United States (TSUS) items 156.30 and 157.10 for the calendar years 1969, 1970, and 1971 amounted to 143,772,997 pounds. That quantity was determined from data published by the Bureau of Census, U.S. Department of Commerce, in the annual reports FT 246 under the TSUSA reporting numbers 156.3000, 156.3020, 156.3040, 157.1020, and 157.1040.

The quantity of sweetened chocolate and confectionery of U.S. manufacture sold in the United States in 1971 amounted to 3,974,618,000 pounds as shown in "Confectionery Manufacturers' Sales and Distribution 1971" published by the Bureau of Domestic Commerce, U.S. Department of Commerce. Five percent of that quantity amounts to 198,730,900 pounds.

Accordingly, the quantity of sweetened chocolate, candy, and confectionery which may be imported for consumption under TSUS items 156.30 and 157.10 during the calendar year 1973 shall be limited to 198,730,900 pounds which is the larger of the two alternatives as provided in section 206(d) of the Sugar Act, i.e., the 1969–71 average imports or 5 percent of 1971 confectionery sales.

Pursuant to section 206(d) of the Act the total quantity permitted to be imported may be allocated to countries on such basis as the Secretary determines to be fair and reasonable taking into consideration the past importations or entries from such countries. Of the total quota established herein for 1973, 21,680,000 pounds is reserved solely for the importation of sweetened chocolate for other than consumption at retail as candy or confectionery (TSUSA item 156.3040) pursuant to section 22 of the Agricultural Adjustment Act. The remaining portion amounting to 177,050,900 pounds is established as a global quota and made available for importation from all countries as a group on a first come, first served basis. The import limitation under the global quota established herein for 1973 is about 30 percent greater than imports of such products in 1971 and 28 percent greater than such average annual imports from 1969 through 1971. A global quota has been in effect for 1972, the initial year of confectionery quotas, and through November 25, just under 119 million pounds has been imported. This amounted to 68 percent of the 1972 quota with 90 percent of the year gone. This compares with imports of 118 and 112 million pounds through November in 1970 and 1971, respectively. In 1970 and 1971 the annual imports were 127 and 120 million pounds, respectively.

In view of 1972 imports as of the November 25, 1972, figures, and imports in past years, it is likely that total 1973 import limits will not be approached by actual imports. On the assumption that imports will not reach the liberal import limits, a global quota will provide the least impediment to commerce and to the play of economic factors and the least burden on Customs Service. A global quota will also eliminate the possibility of limiting imports from some countries when there is little likelihood that the total quota will be filled.

In the remote event that the global quota is filled and countries which ship late in the year are prevented from shipping their normal amounts, a portion of the global quota, representing 30 percent, is reserved for entry during the last quarter of the year. Recent import history indicates about 30 percent of such imports normally occur during the last quarter of each year.

The provision to exempt each shipment of articles with an aggregate value of not more than $25 from import quotas is necessary so that tourists will be able to bring in small quantities of candy and confectionery for personal use.

The regulation provides that a quantity of the quota equivalent to the quotas for "sweetened chocolate for other than consumption at retail as candy or confectionery" established pursuant to section 22 of the Agricultural Adjustment Act, as amended, shall be reserved solely for the importation of such article subject to such section 22 quotas, under licenses issued pursuant to regulations of the Administrator, Foreign Agricultural Service, U.S. Department of Agriculture.

Part 818 of Chapter VIII, Subchapter B, is revised to read as follows:

Sec.
818.10 Confectionery quotas for foreign countries.
818.11 Import requirements.
818.12 Restrictions on importation.
818.13 Revision of quota.
818.14 Delegation of authority.

AUTHORITY: Sec. 206, 403; 61 Stat. 927, as amended, 932, as amended; 7 U.S.C. 1116, 1153.

§ 818.10 Confectionery quotas for foreign countries, 1973.

(a) For the calendar year 1973, the quantity of sweetened chocolate, candy, and confectionery provided for in Items 156.30 and 157.10 of Part 10, Schedule 1, of the Tariff Schedules of the United States which may be entered, or withdrawn from warehouse, for consumption in the United States and Puerto Rico is 198,730,900 pounds. Of the total quota, 21,680,000 pounds are reserved solely for the importation of sweetened chocolate for other than consumption at retail as candy or confectionery (TSUSA item 156.3040). This quantity is subject to quotas established pursuant to section 22 of the Agricultural Adjustment Act, as amended, and as set forth in items 950.15 and 950.16 of Part 3 of the appendix to TSUS, which may be imported only under licenses issued pursuant to regulations of the Administrator, Foreign Agricultural Service, U.S. Department of Agriculture as follows: Ireland—13,200,000 (9,450,000 under TSUS 950.15 and 3,750,000 under TSUS 950.16); United Kingdom—8,380,000 (7,450,000 under TSUS 950.15 and 930,000 under TSUS 950.16) and Netherlands—100,000 (all under TSUS 950.15). Of the remaining quantity of 177,050,900 pounds (198,730,900–21,680,000) a quantity not to exceed 123,935,630 pounds may be entered or withdrawn from warehouse for consumption in the United States and Puerto Rico on or before September 30, 1973.

(b) The quota established by paragraph (a) of this section shall not apply to articles with an aggregate value of $25 or less in any shipment.

§ 818.11 Import requirements.

Articles subject to quota limitations pursuant to § 818.10 shall be entered on a first-come, first-served basis under the control of the Bureau of Customs, except articles subject to quotas established pursuant to section 22 of the Agricultural Adjustment Act, as amended.

§ 818.12 Restrictions on importations.

Subject to the exception in paragraph (b) of § 818.10 all persons are prohibited from entering or withdrawing from warehouse, for consumption in the United States and Puerto Rico any article provided for in the TSUS items 156.30 and 157.10 after the applicable quotas set forth in paragraph (a) of § 818.10 have been filled.

§ 818.13 Revision of quotas.

The quota established under this order may be revised to reflect the substitution of revised or corrected data used in the quota determination.

§ 818.14 Delegation of authority.

The Director of the Sugar Division (or any person in such division designated by the Director), Agricultural Stabilization and Conservation Service of the Department, is hereby authorized to act on behalf of the Secretary in administering §§ 818.10 through 818.12 except as otherwise provided for in §§818.10 and 818.11.

Effective date. This action establishes a U.S. import quota on sweetened chocolate, candy and confectionery for the calendar year 1973. In order to promote orderly marketing it is essential that all persons selling and importing such products be able as soon as possible to make plans based on the new import quota. Therefore, it is hereby determined and found that compliance with the effective date requirements of 5 U.S.C. 553 is unnecessary, impracticable and contrary to the public interest and this amendment shall be effective on January 19, 1973.

Signed at Washington, D.C., on January 19, 1973.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.73-1163 Filed 1-19-73;12:05 pm]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 268, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation increases the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period January 14–20, 1973. The quantity that may be shipped is increased due to improved market conditions for California-Arizona lemons. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of lemons available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Lemon Regulation 568 (38 FR 1378). The marketing picture now indicates that there is a greater demand for lemons than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of lemons to fill the current market demand thereby making a greater quantity of lemons available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b)(1) of § 910.868 (Lemon Regulation 568 (38 FR 1378)) is hereby amended to read as follows:

§ 910.868 Lemon Regulation 568.

• • • • • •

(b) *Order.* (1) • • • 225,000 cartons.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 18, 1973.

PAUL A NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

V 38 - 16 JAN 24 73 XUM

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 1—STATEMENT OF ORGANIZATION AND GENERAL INFORMATION

PART 2—RULES OF PRACTICE

PART 4—NONDISCRIMINATION IN FEDERALLY ASSISTED COMMISSION PROGRAMS—EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

PART 30—RULES OF GENERAL APPLICABILITY TO LICENSING OF BY-PRODUCT MATERIAL

PART 40—LICENSING OF SOURCE MATERIAL

PART 70—SPECIAL NUCLEAR MATERIAL

PART 150—EXEMPTIONS AND CONTINUED REGULATORY AUTHORITY IN AGREEMENT STATES UNDER SECTION 274

Miscellaneous Amendment

A rule changing the title "hearing examiner" to "administrative law judge" was published by the U.S. Civil Service Commission in the FEDERAL REGISTER on August 19, 1972 (37 FR 16787).

The Atomic Energy Commission's regulations in 10 CFR Parts 1, 2, and 4 contain numerous references to the terms "Office of Hearing Examiners", "hearing examiner", "hearing examiners", and "Chief Hearing Examiner".

These references should be changed to conform with the action of the U.S. Civil Service Commission on August 19, 1972, and to be consistent with other regulatory agencies in using the title "administrative law judge".

The Commission intends to revise Form AEC-741. Among the minor changes the title will be changed from "Nuclear Material Transfer Report" to "Nuclear Material Transaction Report". The amendments of Parts 30, 40, 70, and 150 reflect the new title of Form AEC-741.

Inasmuch as the amendments set forth below relate to agency management and organization, correction, and minor procedural matters, notice of proposed rule making and public procedure thereon are not required by section 553 of title 5 of the United States Code.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 1, 2, 4, 30, 40, 70, and 150 are published as a document subject to codification, to be effective on January 24, 1973.

1. Parts 1, 2, and 4 of the Commission's regulations are amended by deleting the terms "Office of Hearing Examiners", "hearing examiner", "hearing examiners", and "Chief Hearing Examiner" where they appear and substituting therefor, respectively, the terms "Office of Administrative Law Judges", "administrative law judge", "administrative law judges", and "Chief Administrative Law Judge".

2. Parts 30, 40, 70, and 150 are amended by deleting the term "Nuclear Material Transfer Report", where it appears in §§ 30.55, 40.64, 70.54, 150.16, 150.17, and 150.19 and substituting therefor "Nuclear Material Transaction Report".

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Washington, D.C., this 10th day of January 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-1459 Filed 1-23-73;8:45 am]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 201—ADVANCES AND DISCOUNTS BY FEDERAL RESERVE BANKS

Changes in Rates

Pursuant to section 14(d) of the Federal Reserve Act (12 U.S.C. 357), and for the purpose of adjusting discount rates with a view to accommodating commerce and business in accordance with other related rates and the general credit situation of the country, Part 201 is amended as set forth below:

1. Section 201.51 is amended to read as follows:

§ 201.51 Advances and discounts for member banks under sections 13 and 13a.

The rates for all advances and discounts under sections 13 and 13a of the Federal Reserve Act (except advances under the last paragraph of such section 13 to individuals, partnerships, or corporations other than member banks) are:

Federal Reserve Bank of—	Rate	Effective
Boston	5	Jan. 15, 1973
New York	5	Do.
Philadelphia	5	Do.
Cleveland	5	Do.
Richmond	5	Do.
Atlanta	5	Do.
Chicago	5	Do.
St. Louis	5	Do.
Minneapolis	5	Do.
Kansas City	5	Do.
Dallas	5	Do.
San Francisco	5	Do.

§ 201.52 Advances to member banks under section 10(b).

The rates for advances to member banks under section 10(b) of the Federal Reserve Act are:

Federal Reserve Bank of—	Rate	Effective
Boston	5½	Jan. 15, 1973
New York	5½	Do.
Philadelphia	5½	Do.
Cleveland	5½	Do.
Richmond	5½	Do.
Atlanta	5½	Do.
Chicago	5½	Do.
St. Louis	5½	Do.
Minneapolis	5½	Do.
Kansas City	5½	Do.
Dallas	5½	Do.
San Francisco	5½	Do.

3. Section 201.53 is amended to read as follows:

§ 201.53 Advances to persons other than member banks.

The rates for advances under the last paragraph of section 13 of the Federal Reserve Act to individuals, partnerships, or corporations other than member banks secured by direct obligations of, or obligations fully guaranteed as to principal and interest by, the United States or any agency thereof are:

Federal Reserve Bank of—	Rate	Effective
Boston [1]	7	Jan. 15, 1973
New York	7	Do.
Philadelphia	7	Do.
Cleveland	7	Do.
Richmond [1]	7	Do.
Atlanta [1]	7	Do.
Chicago [1]	7	Do.
St. Louis [1]	7	Do.
Minneapolis [1]	7	Do.
Kansas City [1]	7	Do.
Dallas [1]	7	Do.
San Francisco	7	Do.

[1] A rate of 5 percent was approved, effective Jan. 15, 1973, on advances to nonmember banks, to be applicable in special circumstances resulting from implementation of changes in Regulation J (see 37 FR 12711).

(12 U.S.C. 248(1). Interprets or applies 12 U.S.C. 357.)

By order of the Board of Governors, January 12, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1353 Filed 1-23-73;8:45 am]

Title 14—AERONAUTICS

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 73-EA-1; Amdt. 39-1588]

PART 39—AIRWORTHINESS DIRECTIVES

Fairchild Hiller Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation regulations so as to amend AD 69-5-2 applicable to the Fairchild Hiller type FH-227 airplanes. Subsequent to the adoption of AD 69-5-2, there have been reports of cracks in the No. 1 inspection door openings which are of greater length than those which prompted the original AD. This permits a conclusion of a faster rate of propagation in these cracks than initially predicted. Thus this amendment will change the time of inspection of the No. 1 opening downward to 700 hours between inspections.

In view of the criticality of the deficiency, notice and public procedure hereon are impractical and cause exists for making the AD effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of the Federal Aviation regulations is amended so as to amend AD 69-5-2 as follows:

1. In paragraph (a), after the date July 12, 1967, insert:

with the exception of the compliance times indicated in paragraph D. (2) as applied to the No. 1 Inspection Door Openings of section 2-H, No. 2 Inspection Procedure (X-ray)—Outer Panels.

2. Reletter paragraphs (b) and (c) as (d) and (e) respectively and insert new paragraphs (b) and (c) to read as follows:

(b) Within the next 100 hours' time in service, after the accumulation of 8,000 hours' time in service, unless already accomplished within the last 600 hours' time in service and thereafter at intervals not to exceed 700 hours' time in service, inspect the No. 1 Inspection Door Openings in accordance with paragraphs (1), (2), (3), (4), (11), and (12) of section 2-H No. 2 Inspection Procedure (X-ray)—Outer Panels of Fairchild Service Bulletin 51-1.

(c) For those aircraft incorporating Fairchild Service Bulletin 51-1, Appendix No. 1 dated January 5, 1973, and later FAA approved changes, the inspection interval for aircraft without cracks remains at 1,200 hours. If any cracks are discovered subsequent to repair installation, the inspection interval will be that specified in paragraph (b) above.

This amendment is effective January 31, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on January 17, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-1421 Filed 1-23-73;8:45 am]

[Airworthiness Docket No. 72-WE-23-AD; Amdt. 39-1587]

PART 39—AIRWORTHINESS DIRECTIVES

Hughes Model 269 Series Helicopter

Hughes Tool Co., Aircraft Division, has determined that a mandatory service life must be placed on the tail boom support struts, P/N 269A2015-5 and P/N 269A2015-11, installed in Model 269C helicopters to insure continued compliance with fatigue strength requirements of the Civil Air Regulations. The Federal Aviation Administration concurs with this determination. In addition, operators have experienced instances of deformation and cracking of the several lugs located on the tail boom support structure on Model 269 Series Helicopters. Inadequate support of the helicopter structure during removal of the tail boom and support struts, combined with service loads, has caused the damage. Therefore, an airworthiness directive is being issued to impose a 10,700-hour service life on certain tail boom support struts and require periodic inspection of the tail boom support structure.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

HUGHES. Applies to Models 269A, 269A-1, 269B, and 269C Helicopters all serial numbers certificated in all categories.

To insure continued airworthiness of the tail boom support structure and to provide for early detection of possible damage caused by improper maintenance techniques and service loads accomplish the following:

For all Models 269A, 269A-1, 269B, and 269C Helicopters, within 100 hours' time in service from the effective date of this airworthiness directive unless already accomplished within the last 100 hours and at periods not to exceed 200 hours' time in service from the last inspection, conduct a visual and dye penetrant inspection of the tail boom center attach fitting P/N 269A2324 or P/N 269A2324-7, tail boom support struts P/N 269A2015 or P/N 269A2015-9 for Models 269A, 269A-1, and 269B, and P/N 269A2015-5 or P/N 269A2015-11 for Model 269C and center frame aft cluster fittings on fuselage frame assembly P/N 269A2230 and remove from service any tail boom support strut or end fitting, center frame aft cluster fitting or cluster fitting found to have cracks or other damage and replace with serviceable components in accordance with the methods and techniques specified in Hughes Tool Co., Aircraft Division Service Information Notice No. N-82.1, dated November 14, 1972, or later FAA-approved revisions, or an equivalent installation approved by the Chief, Aircraft Engineering Division, FAA Western Region.

For the Model 269C, prior to accumulation of 10,700 total hours' time in service remove P/N 269A2015-5 or P/N 269A2015-11 struts, marking them permanently and conspicuously to avoid their inadvertent return to service, and replace with new or serviceable struts, P/N 269A2015-5 or P/N 269A2015-11, having less than 10,700 total hours' time in service.

Equivalent methods of compliance must be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

This amendment becomes effective January 25, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; section 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on January 12, 1973.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[FR Doc.73-1420 Filed 1-23-73;8:45 am]

[Airspace Docket No. 72-EA-123]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The Federal Aviation Administration is amending § 71.181 of the Federal Aviation regulations so as to alter the Blackstone, Va., transition area (38 FR 435).

The instrument approach procedure for Blackstone Army Air Field has been altered to delete the nighttime criteria, thereby negating a need for the transition area between sunset and sunrise.

Since the foregoing is a reduction in the controlled airspace and therefore the rule is less restrictive, notice and public procedure hereon are unnecessary and the rule may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t. February 1, 1973, as follows:

1. Amend § 71.181 of Part 71, Federal Aviation regulations, by adding the following to the description of the Blackstone, Va., 700-foot floor transition area:

This transition area is effective from sunrise to sunset, daily. Following the phrase, excluding the portion with R-6602.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on January 8, 1973.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.73-1423 Filed 1-23-73;8:45 am]

[Airspace Docket No. 72-WE-46]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On December 9, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 26342) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation regulations that would establish a new transition area at Lodi, Calif.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted, as set forth below, subject to the following change:

Delete FEDERAL REGISTER citation "(37 FR 2143)" and substitute "(38 FR 435)".

Effective date. This amendment shall be effective 0901 G.m.t., March 29, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 48 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

V38-16 JAN 24 73 XUM

Issued in Los Angeles, Calif., on January 12, 1973.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

In § 71.181 (38 FR 435) the following transition area is added:

LODI, CALIF.

That airspace extending upward from 700 feet above the surface within a 3-mile radius of Linds Airport, Calif. (latitude 38°12'11" N., longitude 121°16'03" W.) and within 2.5 miles each side of the Linden, Calif., VORTAC 303° radial extending from the 3-mile-radius area to 10.5 miles northwest of the VORTAC.

[FR Doc.73-1419 Filed 1-23-73;8:45 am]

[Airspace Docket No. 72-NW-09]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area; Correction

On December 28, 1972, FR Doc. 72-22375 was published in the FEDERAL REGISTER (37 FR 28609). This document altered the description of the Redmond, Oreg., transition area. A review of the description of the transition area revealed that the radius of the arc was inadvertently given in nautical miles. Accordingly, action is taken herein to correct this dimension.

Since the arc was depicted correctly in the notice of proposed rule making, this change is editorial in nature and imposes no additional burden on any person; notice and public procedure hereon is unnecessary.

In view of the foregoing, FR Doc. 72-22375 (37 FR 28609) is amended effective immediately, by deleting the phrase "• • • arc of a 32-mile radius • • • " and inserting therefor " • • • an arc of a 37-mile radius • • • "

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), of Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on January 15, 1973.

C. B. WALK, JR.,
Director, Northwest Region.

In § 71.181 (38 FR 435) the description of the Redmond, Oreg. transition area is amended as follows:

In line 3, after, " • • • 5 miles south of the VORTAC," insert, "within 4 miles each side of the Redmond VORTAC 014° radial, extending from 15 miles north of the VORTAC to 35 miles north." In addition, amend by adding to the end of the description, " • • • and that airspace north of Redmond VORTAC bounded on the west by the east side of V25, and on the north by an arc of a 32 mile radius arc centered on the Redmond VORTAC, and on the northeast by the northwest edge of V536."

[FR Doc.73-1422 Filed 1-23-73;8:45 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Thiabendazole

The Commissioner of Food and Drugs has evaluated a new animal drug application (42-910) filed by Moorman Mfg. Co., Quincy, Ill. 62301, proposing the safe and effective use of thiabendazole as an anthelmintic in cattle when administered in feeding blocks. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended in § 135c.7 by adding new paragraphs (c)(3) and (e)(4) as follows:

§ 135c.7 Thiabendazole.

• • • • • •

(c) *Sponsor.* • • •

(3) See Code No. 058 in § 135.501(c) of this chapter for the sponsor of the usage provided for by paragraph (e)(4) of this section.

• • • • • •

(e) *Conditions of use.* • • •

(4) It is administered to cattle on pasture or range accustomed to mineral protein block feeding as follows:

(i) For control of infections of gastrointestinal roundworms (members of the genera *Trichostrongylus, Haemonchus, Ostertagia* and *Cooperia* species) when mineral protein block containing 3.3 percent thiabendazole is consumed at the recommended level of 0.11 pounds per 100 pounds of body weight per day for 3 days.

(ii) Milk taken from animals during treatment and within 96 hours (eight milkings) after the latest treatment must not be used for food.

(iii) Do not treat cattle within 3 days of slaughter.

(iv) For a satisfactory diagnosis, a microscopic fecal examination should be performed by a veterinarian or diagnostic laboratory prior to worming.

(v) Cattle maintained under conditions of constant worm exposure may require retreatment within 2 to 3 weeks. Animals that are severely parasitized, sick, or off feed should be isolated and a veterinarian consulted for advice concerning treatment.

Effective date. This order shall be effective on January 23, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: January 17, 1973.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.73-1438 Filed 1-23-73;8:45 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7255]

PART 301—PROCEDURE AND ADMINISTRATION

Inspection by Department of Agriculture of Certain Income Tax Returns

Pursuant to section 6103(a) of the Internal Revenue Code of 1954 (68A Stat. 753; 26 U.S.C. 6103(a)) as amended by section 3(c) of the Interest Equalization Tax Act (Public Law 88-563, 78 Stat. 844), section 601(a) of the Excise Tax Reduction Act of 1965 (Public Law 89-44, 79 Stat. 153), and section 4(a) of the Act of November 2, 1966 (Public Law 89-713, 80 Stat. 1109), and the Executive Order 11697 (38 FR 1723), signed this date concerning inspection by the Department of Agriculture of income tax returns made under the Internal Revenue Code of 1954 of persons having farm operations, the regulations on procedure and administration (26 CFR Part 301) are amended by adding immediately after § 301.6103(a)-107 the following:

§ 301.6103(a)-108 Inspection by Department of Agriculture of income tax returns made under the Internal Revenue Code of 1954 of persons having farm operations.

(a) *In general.* Pursuant to the provisions of section 6103(a) of the Internal Revenue Code of 1954 (68A Stat. 753; 26 U.S.C. 6103(a)), as amended by section 3(c) of the Interest Equalization Tax Act (Public Law 88-563; 78 Stat. 844), section 601(a) of the Excise Tax Reduction Act of 1965 (Public Law 89-44, 79 Stat. 153), and section 4(a) of the Act of November 2, 1966 (Public Law 89-713, 80 Stat. 1109), and the Executive orders issued thereunder, and in the interest of the internal management of the Government, income tax returns made under such Code for taxable years beginning on or after January 1, 1967, of persons having farm operations shall be open to inspection to the extent readily available in the Internal Revenue Service (for the purpose of obtaining data as to the farm operations of such persons) by the Department of Agriculture as may be needed for statistical purposes only.

(b) *Applications.* Each application for inspection shall be valid for the inspection of returns relating to not more than one taxable year. Such application shall be in writing signed by the Secretary of Agriculture and addressed to the Secretary of the Treasury. The application shall be in such form and manner as may be prescribed by the Commissioner of Internal Revenue but shall state—

(1) The employees of the Department of Agriculture designated by the Secretary of Agriculture who will make the inspection or who will have access to the data made available;

(2) The specific tax data needed and how such data relates to the statistical goals of the Department of Agriculture; and

(3) The procedures to be followed by the Department of Agriculture so as to guarantee the security of the data made available.

(c) *Data available.* The Secretary of the Treasury, or any officer or employee of the Department of the Treasury with the approval of the Secretary, may furnish the Department of Agriculture (for the purpose of obtaining data as to the farm operations of such persons) with the names, addresses, taxpayer identification numbers, or any other data on such returns or may make the returns available for inspection and the taking of such data as the Secretary of Agriculture may designate. Inspection of such returns shall be in accordance with permission granted by the Secretary of the Treasury pursuant to this section. Upon receipt of a request for inspection approved by the Secretary of the Treasury, any officer or employee of the Internal Revenue Service duly authorized by the Commissioner of Internal Revenue may make such returns available for inspection in an office of the Internal Revenue Service by any duly authorized officer or employee of the Department of Agriculture or may make the data on such returns available to such Department.

(d) *Confidentiality of data.* (1) Any data obtained by the Department of Agriculture from its inspection of tax return data shall be held confidential except that such data may be published or disclosed in statistical form, provided such publication does not disclose, directly or indirectly, the name or address of any taxpayer.

(2) The Department of Agriculture may, however, use the names of taxpayers furnished them to survey such taxpayers: *Provided,* That any data obtained from such a survey shall be held confidential except that such data may be published or disclosed in statistical form provided such publication does not disclose, directly or indirectly, the name or address of any taxpayer.

(3) No inspection shall be permitted unless the Commissioner of Internal Revenue is satisfied that the security measures employed by the Department of Agriculture are adequate, that only those employees (designated by the Secretary of Agriculture) who have a need for tax return data for statistical purposes have access to such data, and that there is maintained a secured area for storing data and provision for destruction of the data when it is no longer needed.

Because this Treasury decision constitutes a general statement of policy and establishes rules of Departmental practice and procedure, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under 5 U.S.C. 553(b), or subject to the effective date limitation of 5 U.S.C. 553(d).

This Treasury decision shall be effective on January 23, 1973.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

Approved: January 17, 1973.

RICHARD M. NIXON,
The White House.

[FR Doc.73-1426 Filed 1-23-73;8:45 am]

Title 32—NATIONAL DEFENSE

Chapter XVII—Office of Emergency Preparedness

PART 1710—FEDERAL DISASTER ASSISTANCE

Private, Nonprofit Medical Care Facilities

On June 9, 1972, the Office of Emergency Preparedness published revisions to 32 CFR Part 1710, in the FEDERAL REGISTER (37 FR 11564) which provided for the repair, reconstruction, or replacement of certain private medical care facilities.

Included in those revisions was a requirement that the interested private organization submit assurances that it had interest in the sites sufficient to assure for a period of not less than 50 years undisturbed use and possession for the purpose of the construction and operation of the facility. Subsequent discussions with experts in the field of hospital administration and the Department of Health, Education, and Welfare reveal that the concept of medical care is changing so rapidly that, in some cases, a hospital designed for current requirements may be obsolete in a period much less than 50 years, depending on the type of medical care which is to be offered. Therefore, it has been determined that the requirement set forth in 32 CFR Part 1710, § 1710.8(h)(3)(i), should be flexible enough to assure that the best interests of the public are served.

Accordingly, the Office of Emergency Preparedness is issuing a revision to 32 CFR Part 1710, which authorizes the OEP Director, when in the public interest and on a case-by-case basis, to approve a lesser time period than the 50 years presently set forth in § 1710.8(h)(3)(i).

Since the subject procedures are required immediately to allow interested organizations to proceed with restoration of essential medical care facilities, I find it impractical and contrary to the public interest to engage in public rule making actions and to postpone the time when those procedures may be used. Therefore, this revision shall become effective on January 24, 1973. All interested parties, however, are invited to submit written comments with respect to the revision, which may be later revised in the light of such comments.

Comments should be filed in triplicate within 15 days after publication of the regulations at the Disaster Programs Office, Office of Emergency Preparedness, Room 320, 604 17th Street NW., Washington, DC 20504.

Accordingly, § 1710.8(h)(3)(i), 32 CFR, is amended to read as follows:

§ 1710.8 Project applications.

• • • • • •

(h) • • •

(3) • • •

(i) In addition to owning the facility, that it has or will have a title in fee simple or such other estate or interest in the site, including necessary easements and rights-of-way, sufficient to assure for a reasonable period of time undisturbed use and possession for the purpose of the construction and operation of the facility. An assurance of such continued operation for a period of 50 years will fulfill this requirement. Any assurance for a lesser period of time must be submitted to the OEP Director for approval. Such approval will be granted only when such a lesser time period is found to be in the public interest.

• • • • • •

Dated: January 18, 1973.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

V38-16 JAN 24 73 XUM

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1434]

HONEY

Notice of Determinations Regarding 1973 Crop

The Secretary of Agriculture is preparing to make determinations with respect to a loan and purchase program for the 1973 crop of honey and the regulations to carry out the program. The determinations relate to:

a. Loan and purchase rates, color differentials, discounts for quality, and type of storage.

b. Loan maturity date and purchase availability date.

c. Detailed operating provisions to carry out the program.

The above determinations are to be made pursuant to the Agricultural Act of 1949, as amended (63 Stat. 1051, as amended; 7 U.S.C. 1421 et seq.) and the Commodity Credit Corporation Charter Act, as amended (62 Stat. 1070, as amended; 15 U.S.C. 714 et seq.).

a. *Loan and purchase program, color differentials, and discounts for quality and type of storage.* Title II of the Agricultural Act of 1949, as amended, authorizes and directs the Secretary to make available through loans, purchases, and other operations, support to producers of honey at a level which is not in excess of 90 percent nor less than 60 percent of the parity price thereof. Loan and purchase rates based on color, quality factors, and type of storage are used to reflect marketing features and conditions under which honey is merchandised. Section 401(b) of the Act requires that, in determining a loan and purchase rate in excess of the minimum level prescribed for honey, consideration must be given to the supply of the commodity in relation to the demand thereof, the price levels at which other commodities are being supported, the availability of funds, the perishability of the commodity, the importance of the commodity to agriculture and the national economy, the ability to dispose of stocks acquired under a loan and purchase program, the need for offsetting temporary losses of export markets, and the ability and willingness of producers to keep supplies in line with demand.

b. *Loan maturity date and purchase availability date.* The loan maturity date and purchase availability date will be reviewed for 1973. For the 1972 program, the loan maturity date and the purchase availability date was June 30, 1973.

c. *Detailed operating provisions.* Detailed operating provisions necessary to carry out the loan and purchase program on honey are also being reviewed for 1973. Provisions of this kind may be found in the regulations providing terms and conditions for the current loan and purchase program in Part 1434 of Title 7 of the Code of Federal Regulations.

Prior to making the foregoing determinations and issuing related regulations, consideration will be given to any data, views, and recommendations which are submitted in writing to the Secretary, Commodity Credit Corporation, U.S. Department of Agriculture, Washington, D.C. 20250.

In order to be sure of consideration, all submissions must be received not later than February 24, 1973. All written submissions made pursuant to this notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday, in Room 202–W, Administration Building, 14th and Independence Avenue SW., Washington, D.C.

Signed at Washington, D.C., on January 16, 1973.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 15]

FLOUR

Identity Standard: Proposal To List α-Amylase Obtained From Aspergillus Oryzae as Optional Ingredient and To Require Label Declaration of All Optional Ingredients

Notice is given that a petition has been filed by Rohm and Haas Co., Independence Mall West, Philadelphia, PA 19105, proposing that the standard of identity for flour, white flour, wheat flour, plain flour (21 CFR 15.1), and whole wheat flour, graham flour, entire wheat flour (21 CFR 15.80) be amended to permit the optional addition of harmless preparations of α-amylase obtained from *Aspergillus oryzae* alone or in a suitable harmless carrier as a dough conditioner provided that the quantity of any such carrier shall be no greater than reasonably necessary to effect a uniform mixture of the α-amylase with the flour.

Grounds given in the petition in support of the proposal are that the addition of α-amylase obtained from *Aspergillus oryzae* to flours in the flour mill provides for greater efficiency, convenience, and control and that, since the enzyme is presently permitted in bread, it is anticipated that flour containing the enzyme could be used by bakers without their having to add the enzyme at the bakery level.

The Commisisoner of Food and Drugs is aware that there is significant consumer interest that the labels of standardized foods bear complete information of the ingredients contained in the foods. In the absence of legal authority to require that the labels bear the names of mandatory ingredients, the Commissioner intends to amend the definitions and standards of identity of foods by setting into motion as rapidly as possible the provisions of section 401 of the Federal Food, Drug, and Cosmetic Act to require label declaration of all optional ingredients. In accordance with the provisions set forth in 21 CFR 3.88(b), as published in the FEDERAL REGISTER of March 10, 1972 (37 FR 5120), the Commissioner proposes on his own initiative that the common names of all optional ingredients used in flours (§ 15.1), self-rising flour (§ 15.50), whole wheat flour (§ 15.80), and enriched farina (§ 15.140) be declared on the label. In accordance with the provisions of section 403 of the Act, spices, flavorings, and colorings may be designated as such without naming each. The proposal, if adopted, would also apply to all standards appropriately cross-referenced to §§ 15.1, 15.50, 15.80, and 15.140. It would not apply to the standards for durum flour (§ 15.40), crushed wheat (§ 15.110), cracked wheat (§ 15.120), farina (§ 15.130), and semolina (§ 15.150), which permit no optional ingredients.

The petitioner proposed that the label on the flour which contains the α-amylase bear the statement "α-amylase obtained from *Aspergillus oryzae* added as a dough conditioner". However, the regulation as proposed by the Commissioner, if adopted, would require that the list of ingredients declared on the label include "α-amylase obtained from *Aspergillus oryzae*" when it is used.

Therefore, it is proposed that §§ 15.1 and 15.80 (21 CFR 15.1, 15.80) be amended to permit the optional addition of harmless preparations of α-amylase obtained from *Aspergillus oryzae* alone or in a suitable harmless carrier provided that the quantity of such carrier is no greater than that reasonable necessary to effect a uniform mixture of the α-amylase with the flour.

Due to cross-referencing, the adoption of the amendment to the standards for flour (§ 15.1) and whole wheat flour (§ 15.80) to permit the optional use of harmless preparations of α-amylase obtained from *Aspergillus oryzae* alone or in a suitable harmless carrier would have the effect of making such ingredient a permitted ingredient in §§ 15.10, 15.20, 15.30, 15.70, 15.75, 15.90, and 15.100.

As self-rising flour (§ 15.50) is a mixture of flour and other ingredients, the adoption of the amendment to the standard for flour (§ 15.1) to permit the optional use of harmless preparations of α-amylase obtained from *Aspergillus oryzae* alone or in a suitable harmless carrier would have the effect of making such ingredient a permitted ingredient in self-rising flour (§ 15.50).

Due to cross-referencing, the permitted use of harmless preparations of α-amylase obtained from *Aspergillus oryzae* alone or in a suitable harmless carrier in self-rising flour (§ 15.50) would have the effect of making such ingredient a permitted ingredient in enriched self-rising flour (§ 15.60).

It is further proposed that §§ 15.1, 15.50, 15.80, and 15.140 be amended to require that the common names of all optional ingredients used in the food be declared on the label as required by the applicable sections of 21 CFR Part 1.

The standard for self-rising flour (§ 15.50) would be so amended that all optional ingredients permitted in the flour from which the self-rising flour is made would be considered to be optional ingredients of the self-rising flour and would be subject to label declaration.

Due to cross-referencing, adoption of the proposed amendment to the standards for flour (§ 15.1), self-rising flour (§ 15.50), and whole wheat flour (§ 15.80) will have the effect of requiring label declaration of all optional ingredients in the case of §§ 15.10, 15.20, 15.30, 15.60, 15.70, 15.75, 15.90, and 15.100, as applicable.

Interested persons may, on or before March 26, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: January 13, 1973.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

DEPARTMENT OF TRANSPORTION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–SW–3]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to designate a 700-foot transition area at El Campo, Tex.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received on or before February 23, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

EL CAMPO, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the El Campo Airpark (latitude 29°16'00" N., longitude 96°19'30" W.).

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the El Campo Airpark, El Campo, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Fort Worth, Tex., on January 16, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 73–SW–2]

CONTROL ZONES

Revocation, Designation, and Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to delete the Fort Worth, Tex. (Greater Southwest International Dallas-Fort Worth Field), control zone, designate the Dallas-Fort Worth, Tex. (Regional Airport), control zone, and alter the Dallas, Tex. (Love Field) (NAS Dallas), and (Redbird Airport) control zones.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received on or before February 23, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

(1) In § 71.171 (38 FR 351), the Fort Worth, Tex. (Greater Southwest International Dallas-Fort Worth Field), control zone is deleted.

(2) In § 71.171 (38 FR 351), the following control zone is added:

DALLAS-FORT WORTH, TEX., REGIONAL AIRPORT

Within a 5-mile radius of Dallas/Fort Worth Regional Airport (latitude 32°53'53" N., longitude 97°02'24" W.); within 2.5 miles west and 3.5 miles east of the runway 17R/35L ILS localizer courses extending from the 5-mile-radius zone to the OMs, and within 2.5 miles each side of the runway 31 ILS localizer course extending from the 5-mile-radius zone to the OM.

(3) In § 71.171 (38 FR 351), the following control zones are altered:

DALLAS, TEX. (LOVE FIELD)

Delete "and within 2 miles each side of the Love Field No. 2 ILS localizer southeast course, extending from the arc of a 5-mile-radius circle centered at Love Field to the Runway 31L OM (latitude 32°46'39" N., longitude 96°46'28" W.)." and substitute therefor "within 2 miles each side of the Love Field runway 31L ILS localizer southeast course, extending from the Love Field 5-mile-radius zone to the OM; and excluding that airspace within the Dallas-Forth Worth, Tex. (Regional Airport) control zone."

DALLAS, TEX. (NAS DALLAS)

Delete the description of the control zone and amend it to read: "Within a 6-mile radius of NAS Dallas (latitude 32°44'00" N., longitude 96°58'05" W.); within a 5-mile radius of Redbird Airport (latitude 32°40'50" N., longitude 96°52'00" W.); excluding the portion within the Dallas-Forth Worth, Tex. (Regional Airport), and Dallas, Tex. (Love

V 38 - 16 JAN 24 73 XUM

Field), control zones; and excluding the portion east of a line from latitude 32°37'00" N., longitude 96°56'00" W. to latitude 32°39'35" N., longitude 96°54'15" W. to latitude 32°48'00" N., longitude 96°53'45" W."

DALLAS, TEX. (REDBIRD AIRPORT)

Delete "excluding the portion west of a line from the intersection of the Redbird Airport 5-mile-radius zone and the arc of an 8-mile-radius circle centered at NAS Dallas (latitude 32°44'00" N., longitude 96°58'05" W.), southwest of Redbird Airport, through latitude 32°39'35" N., longitude 96°54'15" W., to longitude 96°53'30" W. and the arc of a 5-mile-radius circle centered at Love Field (latitude 32°51'00" N., longitude 96°50'50" W.) southwest of Love Field." and substitute therefor "excluding the portion west of a line from latitude 32°37'00" N., longitude 96°56'00" W., to latitude 32°39'35" N., longitude 96°54'15" W., to latitude 32°48'00" N., longitude 96°53'45" W."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on January 16, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

FARM CREDIT ADMINISTRATION

[12 CFR Parts 613, 614, 619]

FARM CREDIT SYSTEM

Notice of Proposed Rule Making

Notice is hereby given that the Farm Credit Administration, by its Federal Farm Credit Board, has under consideration a proposed amendment of its regulations as set forth below in tentative form. These amendments, for purposes of nonfarm home lending only, would (1) redefine a rural area, (2) provide for the establishment of standards of rural subdivision design, (3) delete the provision for bench marks on rural residences, (4) provide for the identification of housing loans as farm loans under certain circumstances, and (5) delete the definition of a commercial subdivision. Prior to final adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (10 copies) no later than March 1, 1973, to E. A. Jaenke, Governor, Farm Credit Administration, Washington, D.C. 20578. Copies of all communications received will be available for examination by interested persons in the Office of the Director of Information, Farm Credit Administration.

Chapter VI of Title 12 of the Code of Federal Regulations is amended by revising paragraph (g) and adding a paragraph (i) in § 613.3040, by deleting paragraph (b) and renumbering paragraphs (c) and (d) as (b) and (c), respectively, in § 614.4390, by adding a paragraph (c) in § 614.4430, and deleting § 619.9070. The revised, added and renumbered paragraphs are as follows:

PART 613—ELIGIBILITY AND SCOPE OF FINANCING

§ 613.3040 Rural residents.

* * * * *

(g) For the purposes of nonfarm home lending only, a rural area is agricultural open country which may include rural subdivisions or any city or village with a population not exceeding 2,500 persons. A rural area does not include subdivisions or villages associated with or adjacent to a larger population center. The intent is to avoid lending in concentrated, high density residential areas or villages which are a part of an urbanizing area surrounding or immediately adjoining an urban area of a larger population center.

* * * * *

(i) The establishment of standards of rural subdivision design shall encourage an orderly development of economically stable communities in a healthful rural living environment. The bank shall prescribe appropriate standards subject to the approval of the district board for eligible subdivisions located in rural areas. Standards for rural subdivisions shall be designed to assure:

(1) Conformation where applicable with general planning policies of the planning agency having jurisdiction;

(2) Compliance with all local regulations, ordinances, and codes;

(3) Adequate and dependable water and waste disposal system;

(4) Adequate, economic, safe and dependable streets, lot layout, utilities, grading and drainage; and

(5) That the location will provide desirable permanent living conditions for the residents so as to insure long-term market demand and acceptability.

PART 614—LOAN POLICIES AND OPERATIONS

§ 614.4390 Appraisal of security.

* * * * *

(b) A procedure for classifying security and area shall be a basic part of the appraisal process.

(c) The same appraisal standards, and forms and procedures shall be used by both Federal land bank associations and production credit associations.

§ 614.4430 Identification of rural housing loans.

* * * * *

(c) *Provided, however,* That housing loans for homes used in farming operations or immediate family needs to farmers and ranchers may be identified as farm loans if the borrower meets the requirements of § 613.3020(g)(1) of this chapter.

PART 619—DEFINITIONS

§ 619.9070 [Deleted]

(Sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624)

E. A. JAENKE,
Governor,
Farm Credit Administration.

VETERANS ADMINISTRATION

[38 CFR Part 21]

COMBINATION CORRESPONDENCE-RESIDENCE PROGRAM

Notice of Proposed Regulatory Development

Under current VA regulations the correct rules pertaining to payment of benefits for students enrolled in combined correspondence-resident programs are not set forth explicitly. Section 1788(b), title 38, United States Code, provides authority for the Administrator to define full-time training in courses not covered by section 1788(a). It is proposed to add § 21.4279 to Subpart D, Part 21, Title 38, Code of Federal Regulations, to make explicit, under this authority, the definition of full-time training for combined correspondence-residence programs.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (232H), Veterans Administration, 810 Vermont Avenue NW., Washington, DC 20420. All relevant material received before February 23, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is also given that it is proposed to make any regulation that is adopted effective the date of approval.

§ 21.4279 Combination correspondence-residence program.

(a) A program of education may be pursued partly in residence and partly by correspondence for the attainment of a predetermined and identified objective under the following conditions:

(1) The correspondence and residence portions are pursued sequentially; that is, not concurrently.

(2) It is the practice of the institution to permit a student to pursue a part of his course by correspondence in partial fulfillment of the requirements for the attainment of the specified objective.

(3) The total credit established by correspondence does not exceed the maximum for which the institution will grant credit toward the specified objective.

(b) The rate of educational assistance allowance payable shall be computed as set forth in §§ 21.4270 and 21.4136(a).

(1) The charges for that portion of the program pursued exclusively by correspondence will be in accordance with § 21.4136(a) with 1 month of entitlement charged for each $220 of cost reimbursed.

(2) The charges for the residence portion of the program must be separate from those for the correspondence portion.

Approved: January 17, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

INDUSTRY ADVISORY GROUP ON AIRCRAFT STRUCTURAL INTEGRITY PROGRAM

Notice of Closed Meeting

The Aeronautical Systems Division Industry Advisory Group on the Aircraft Structural Integrity Program will meet on Tuesday, Wednesday, and Thursday, 20, 21, 22 February 1973, at Wright-Patterson Air Force Base, Ohio. This Advisory Group is established to advise the ASD Commander on all matters incident to the development and refinement of (1) service life prediction techniques for aircraft structures and (2) design criteria to attain programmed service life. This meeting is for the purpose of providing advice to the ASD Commander regarding formulation of requirements, determination of procedures and discussion of current industry activities in assuring structural integrity of current and future Air Force aircraft systems. The meeting will involve expression of views and judgments of the members and their companies. Accordingly under the authority of the Secretary of the Air Force notice of determination of 3 November 1972, this meeting will involve matters which fall within policies analogous to those recognized in section 552 (b) (1) and (4) of title 5, United States Code, and will be closed to the public.

Dated: January 12, 1973.

[Public Notice 25]

GILA PROJECT, ARIZONA, YUMA MESA DIVISION, SOUTH GILA VALLEY DIVISION

Public Notice of Water Service Following Transfer of Operation and Maintenance Responsibility to the Yuma Irrigation District

Boulder City, Nev., December 18, 1972, (Act of June 17, 1902, 32 Stat. 388, as amended or supplemented).

1. *Water service.* (a) Operation and maintenance responsibility in the South Gila Valley Unit will be transferred by the United States to the Yuma Irrigation District effective January 1, 1973. Beginning January 1, 1973, and continuing thereafter until further notice, irrigation water, when available, will be furnished by the Yuma Irrigation District to the irrigable lands in the above-designated unit for which district taxes for said water service have been paid pursuant to the contract of July 23, 1962 (No. 14-06-300-1270), as amended, between the United States and the Yuma Irrigation District.

(b) Orders for water should be made to the Yuma Irrigation District in accordance with the District's operating rules and regulations.

2. *Acreage limitation.* Except as otherwise provided in the Reclamation Law (Act of June 17, 1902, 32 Stat. 388, as amended or supplemented), and the contract of July 23, 1962, as amended, no water will be delivered by the Yuma Irrigation District to any lands which constitute "excess lands" within the meaning of said law and the aforesaid contract of July 23, 1962, as amended.

Forest Service

PROPOSAL FOR OKLAWAHA RIVER

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for a proposal for Oklawaha River, USDA-FS-FES (Adm and Leg) 72-36.

The environmental statement concerns the following action:

1. *Administrative action.* a. Adjustment of the Proclamation Boundary of the Ocala National Forest in Marion and Putnam Counties, Florida.

b. Initiate studies and submit to National Forest Reservation Commission for consideration as required under the Weeks Act of March 1, 1911 (16 U.S.C. 515 and 516), proposed acquisition and administration by the USDA, Forest Service, of certain lands (approximately 25,400 acres in fee title and 4,780 acres under lease) which have been acquired, are in process of being acquired or controlled by easements by the Florida Canal Authority lying generally along the Oklawaha River between the St. Johns River and Dead River Swamp.

c. Transfer the jurisdiction of lands along the section of the Oklawaha River now held and administered by the Department of the Army, Corps of Engineers, to the USDA, Forest Service.

Ownership of and operational and maintenance responsibility for Rodman Dam, Buckman Lock, and associated facilities for flood control and navigation purposes would remain with the Corps of Engineers until the Wild and Scenic River Study and associated implementing action is completed.

The Wild and Scenic River Study would make recommendations on the management or disposition of Rodman Dam, Buckman Lock and associated facilities.

2. *Legislative action.* Designate a portion of the Oklawaha River in Marion and Putnam Counties, Fla., as a Study River under the National Wild and Scenic Rivers Act, PL 90-542, with provisions for a Federal Study to be completed as soon as possible.

The study proposal assumed supportive action in the form of an immediate but temporary partial drawdown of Lake Oklawaha. Lowering the lake assures that study conclusions are drawn from the widest possible array of options, thus allowing maximum flexibility in the setting of ultimate management goals for this area.

This final environmental statement was filed with CEQ on January 16, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, DC 20250.
USDA, Forest Service, 1720 Peachtree Road NW., Room 806, Atlanta, GA 30309.
USDA, Forest Service, Forest Supervisor, 214 South Bronough Street, Tallahassee, FL 32302.

A limited number of single copies are available upon request to Regional Forester, U.S. Forest Service, Room 806, 1720 Peachtree Road NW., Atlanta, GA 30309.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of the Environmental Statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

PACIFIC CREST NATIONAL SCENIC TRAIL ADVISORY COUNCIL

Agenda for Meeting

Notice is hereby given that a meeting of the Pacific Crest National Scenic Trail Advisory Council will be held, beginning at 9 a.m., on February 1, 1973, and continue through February 3, 1973, at the Hanalei Motel, 2270 Hotel Circle, San Diego, CA 92108. The purpose of the Council is to advise the Secretary on matters relating to the Pacific Crest National Scenic Trail, including the selection of rights-of-way, standards of the erection and maintenance of markers along the trail, and the administration of the trail.

The agenda for this meeting will include:

THURSDAY, FEBRUARY 1

1. Welcome and discussion of recent happenings.
2. Reports from subgroup chairmen and/or council members on accomplishments and advice on trail matters.
3. Construction program.

FRIDAY, FEBRUARY 2

1. Right-of-way acquisition program.
2. Public information.
3. Summary remarks.

SATURDAY, FEBRUARY 3

1. Field trip to Cleveland National Forest.

The meeting will be open to the public. For additional information, interested persons may contact the Division of Engineering, Forest Service, Washington, D.C., by telephone (703—557-0418) or by mail (USDA, Forest Service, Division of Engineering, Washington, D.C. 20250) prior to the meeting.

RUSSELL P. MCROREY,
Chairman, Pacific Crest Trail Advisory Council.

Soil Conservation Service

LITTLE RUNNING WATER DITCH RC&D MEASURE PLAN, ARKANSAS

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Little Running Water Ditch RC&D Measure Plan, Randolph County, Ark., USDA-SCS-ES-RD-(ADM)-73-1-(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment, supplemented by 41 miles of channel alteration with appurtenances including 245 water control structures, six grade control structures, and seven low water weirs.

This draft environmental statement was filed with CEQ on January 16, 1973.

Copies are available for inspection during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250.
Soil Conservation Service, USDA, Room 5409, Federal Office Building, Little Rock, Ark. 72201.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151, for $3 each. Please use name and number of statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Einar L. Roget, State Conservationist, Soil Conservation Service, Post Office Box 2323, Little Rock, AR 72203.

Comments must be received on or before February 23, 1973, in order to be considered in the preparation of the final environmental statement.

W. B. DAVEY,
Acting Administrator, Soil Conservation Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. C-377]

LEONARDO L. OLIVIERI

Notice of Loan Application

JANUARY 16, 1973.

Leonardo L. Olivieri, 1435 Laurel Street, Santa Cruz, CA 95060, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 36-foot in length, to engage in the fishery for anchoves, squid, salmon, albacore, California halibut, mackerel, king croaker, smelt, pompano, and bottomfish off the coast of California.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce,

V38-16 JAN 24 73 XUM

Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, by February 23, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

PHILIP M. ROEDEL,
Director.

[FR Doc.73-1404 Filed 1-23-73;8:45 am]

National Oceanic and Atmospheric Administration

MARINE MAMMALS

Notice of Intent to Issue Exemptions

The National Oceanic and Atmospheric Administration published interim regulations (37 FR 28177) on December 21, 1972, to implement the Marine Mammal Protection Act of 1972 (Public Law 92-522) relating to the taking and importing of marine mammals and marine mammal products.

Section 101(a)(1) of the Act and § 216.12 of the regulations provide for scientific research permits based on recommendations by a Marine Mammal Commission. Since the Commission has not been appointed as yet, it is not possible to issue any permits for scientific research. However, we do not feel that it was the intent of the Act to end all scientific studies during this period. Therefore, during the interim we propose to consider undue economic hardship exemptions for the taking of marine mammals for scientific purposes: *Provided*, That some degree of economic hardship is shown. These exemptions will be considered under the criteria set forth in §§ 216.12 and 216.13 of our regulations regarding scientific research permits and economic hardship exemptions. The financial burden which would be occasioned by the termination of research and the restarting of research upon establishment of the Marine Mammal Commission may be considered an undue economic hardship: *Provided*, That the project can be justified scientifically. Where the research is for the benefit of the animals, a minimum economic hardship will be considered undue. Upon appointment of a Marine Mammal Commission and the Committee of Scientific Advisors, scientific research permit applications will be referred to those bodies for review and recommendations, as provided in § 216.12 of the regulations.

Dated: January 22, 1973.

ROBERT M. WHITE,
Administrator.

[FR Doc.73-1533 Filed 1-23-73;8:45 am]

KENNETH S. NORRIS, ET AL.

Applications for Marine Mammals Exemptions

The Marine Mammal Protection Act of 1972 authorizes the Secretary to exempt any person other than those engaged in commercial fishing operations from the provisions of the Act in order to minimize undue economic hardship.

As of Friday, January 19, 1973, the following persons have made application for such an exemption:

1. Dr. Kenneth S. Norris, University of California, Santa Cruz. Request: To tag three juvenile gray whales in Boca Soledad, Baja California with telemetric data and tracking packages.
2. Sea World, San Diego, Calif. Request: To take and display 36 Cetacea and 46 Pinnepeds in a new facility in Orlando, Fla.
3. Dr. Howard E. Winn, University of Rhode Island. Request: To take and import three gray seals from Canada for biology and bielectronic research.
4. Gulfarium, Fort Walton Beach, Fla. Request: To take four Atlantic bottle-nose porpoise for public display.
5. Sea Lions International, Santa Barbara, Calif. Request: To take 200 California Sea Lions for public display by various zoos and aquaria.
6. Seattle Marine Aquarium and Namu, Inc., Seattle, Wash. Request: To take eight killer whales for public display by various zoos and aquaria.
7. Bergner International Corp., New York, NY. Request: To import about 10,000 dressed Beater and Blueback sealskins from Canada, for resale.

All documents submitted in connection with any of the above applications are available for inspection in the Office of the Director, National Marine Fisheries Service. Confidential financial documents and trade secrets will not be available.

Dated: January 22, 1973.

ROBERT M. WHITE,
Administrator.

National Technical Information Service

GOVERNMENT-OWNED INVENTIONS

Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA Patent Licensing Regulations.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22151 at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title. Inquiries and requests for licensing information should be directed to the address cited on the first page of each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231 at $0.50 each. Inquiries and requests for licensing information should be directed to the "Assignee" as indicated on the copy of the patent.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. ATOMIC ENERGY COMMISSION

Patent 3,635,676. Method for Increasing the Strength of Carbon Foam. Filed November 5, 1969. Patented January 18, 1972. Not available NTIS.

Patent 3,635,793. Connector Assembly. Filed October 7, 1969. Patented January 18, 1972. Not available NTIS.

Patent 3,635,831. Production of High-Purity Cesium-137. Filed September 25, 1969. Patented January 18, 1972. Not available NTIS.

Patent 3,636,323. Geographic Position Locator. Filed May 1, 1970. Patented January 18, 1972. Not available NTIS.

Patent 3,636,389. Magnetohydrodynamic Method and System. Filed March 22, 1971. Patented January 18, 1972. Not available NTIS.

Patent 3,636,462. Automatic DC Level Controlling System for a DC-Coupled Amplifier. Filed December 11, 1970. Patented January 18, 1972. Not available NTIS.

Patent 3,636,674. Insulation Module with Superposed Deformed Core Sheets. Filed August 10, 1964. Patented January 25, 1972. Not available NTIS.

Patent 3,636,923. Apparatus for Coating Microspheres with Pyrolytic Carbon. Filed May 4, 1970. Patented January 25, 1972. Not available NTIS.

Patent 3,637,314. Tubing Reflectometer. Filed January 13, 1970. Patented January 25, 1972. Not available NTIS.

Patent 3,637,422. Dispersion-Hardened Tungsten Alloy. Filed January 3, 1968. Patented January 25, 1972. Not available NTIS.

Patent 3,638,017. Thermoluminescent Dosimeter Encoding and Readout Method. Filed December 23, 1969. Patented January 25, 1972. Not available NTIS.

Patent 3,638,023. Radioisotopic Power Source. Filed November 7, 1969. Patented January 25, 1972. Not available NTIS.

Patent 3,638,154. Braided Superconductor. Filed March 26, 1970. Patented January 25, 1972. Not available NTIS.

Patent 3,643,441. Oil Storage Method. Filed May 5, 1970. Patented February 22, 1972. Not available NTIS.

Patent 3,650,896. Nuclear Fuel Particles. Filed October 9, 1969. Patented March 21, 1972. Not available NTIS.

Patent 3,652,233. Method of Improving Recovery of Neptunium in the Purex Process. Filed December 29, 1969. Patented March 28, 1972. Not available NTIS.

Patent 3,652,744. Method of Making Nuclear Fuel Elements. Filed November 19, 1969. Patented March 28, 1972. Not available NTIS.

Office of Import Programs

POMONA COLLEGE ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before February 13, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00287-33-46500. Applicant: Pomona College, 6th Street and College Avenue, Claremont, CA 91711. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for conducting experiments on the fine structure of synapses in the nervous system of a primitive chordate, amphioxus. In addition, the ultrastructure of intercelluar junctions, particularly septate junctions, in a variety of invertebrate animals will be studied. The article will also be used in the course Zoology 199, Introduction to Research in Zoology to provide students with experience and training in research techniques and procedures. Application received by Commissioner of Customs: December 18, 1972.

Docket No. 73-00288-33-46500. Applicant: Mount Sinai School of Medicine of the City University of New York, Fifth Avenue and 100th Street, New York, NY 10029. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for ultrastructural investigations on the structure of normal and pathologic organs of Corti from animal and human autopic material. Additional research projects also will use this instrument in the preparation of specimens of human cancers from larynx, nasal septa and other pertinent areas. The article will also be used for introduction of research techniques and evaluation of experiments to resident physicians in otolaryngology. Application received by Commissioner of Customs: December 18, 1972.

Docket No. 73-00289-33-46040. Applicant: Yale University, Purchasing Dept., 260 Whitney Avenue, New Haven, CT 06520. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for research concerning the fine structure and fine-structural cytochemistry of melanocytes. Studies are directed toward understanding the conditions that influence growth, melanin synthesis, and transfer under physiologic, pathologic, and pharmacologic (therapeutic) conditions. Primary interest centers on the biology of melanoma cells and of melanocytes from individuals suffering from vitiligo. Aside from teaching electron microscopy to interested medical students (a research thesis is required for graduation) and residents in Dermatology, the article will be used in the following medical-school graduate school courses:

(a) Anatomy 106a: Principles and methods in electron microscopy.
(b) Anatomy 108 a&b: Applications of cytochemistry to electron microscopy.
(c) Anatomy 102a: Cell Biology.
(d) Anatomy 119a: Techniques in Developmental Biology.

Application received by Commissioner of Customs: December 19, 1972.

Docket No. 73-00290-33-46040. Applicant: Creighton University, College of Dentistry, 2500 California Street, Omaha, NE 68131. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used in studies of biological cells during inflammation and after pharmacologic manipulation; reticuloendothelial cells producing immuno-globulins; mast cells and cultured cells involved in bone resorption. All studies will relate to basic cellular phenomena which will increase knowledge and understanding of ultrastructural morphology in cellular function. The article will also be used for instruction of graduate students, faculty members and selected advanced undergraduate students in the use of the electron microscope in the course Advanced Oral Biology. Application received by Commissioner of Customs: December 19, 1972.

Docket No. 73-00291-98-54200. Applicant: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, CT. 06520. Article: Extended Interaction Oscillator. Manufacturer: Varian Associates of Canada Ltd., Canada. Intended use of article: The article is intended to be used for atomic beam magnetic resonance measurement of fine structure of 2^3P state. This will involve precision measurement of fundamental physical constants, precision test of quantumelectrodynamics, and check on recent theoretical calculations of He properties and wavefunctions. Application received by Commissioner of Customs: December 15, 1972.

Docket No. 73-00292-98-34040. Applicant: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, CT 06520. Article: "Carcinotron" Backward Wave Oscillator. Manufacturer: Thomson-CSF Electronic Tubes Inc., France. Intended use of article: The article will be used in the development and operation of a polarized proton target. Microwave power supplied by the article polarizes the protons in the target material. The polarized proton target will be used to investigate the structure of the proton in a series of deep inelastic polarized electron-polarized proton scattering experiments. Application received by Commissioner of Customs: December 15, 1972.

Docket No. 73-00293-33-46040. Applicant: University of Chicago, 5801 South Ellis Avenue, Chicago, IL 60637. Article: Electron Microscope, Model Elmiskop 101. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used in an Electron Microscope Laboratory to provide service to scientists who have either frequent or occasional need for electron microscopic studies of molecules and tissue preparations. The laboratory will be committed to a wide range of ultrastructural projects that include studies on ovarian, testicular and placental function, on sperm and ovum biology, and on problems related to fertility and infertility. Application received by Commissioner of Customs: December 15, 1972.

Docket No. 73-00294-01-59800. Applicant: Florida State University, Department of Chemistry, Tallahassee, Fla. 32306. Article: Flash Photolysis Apparatus Type FP-2R. Manufacturer: Northern Precision Co., Ltd., United Kingdom. Intended use of article: The article is intended to be used in flash-kinetic-spectroscopy studies of the triplet decay characteristics of flexible organic molecules. The functioning of those molecules as acceptors and donors of triplet excitation is to be determined using the same technique. In these experiments a very intense flash of light is used to excite the molecules to higher electronically excited states. The article will also be used in undergraduate and graduate level courses to introduce students to advanced laboratory techniques in specialized areas of chemistry as well as to supervise independent and original research by students as part of the requirements for graduation with honors at the BA and BS level and the obtention of Masters or Ph. D. degrees. Application received by Commissioner of Customs: December 14, 1972.

Docket No. 73-00296-00-46040. Applicant: Northeastern University, 360 Huntington Avenue, Boston, MA 02115. Article: Transmission hot stage with power supply. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is an accessory to an existing electron microscope being used to study the amorphous to crystalline transformation in amorphous solids prepared in various ways. The article will also be used for educational purposes to assist graduate students in the pursuance of their degrees under the following course numbers: 02.991 masters thesis and 02.995

V38-16 JAN 24 73 XUM

Ph. D. thesis. Application received by Commissioner of Customs: December 15, 1972.

Docket No. 73–00298–00–46070. Applicant: National Bureau of Standards, Institute for Materials Research, Metallurgy Division, Washington, DC 20234. Article: SEM television scanning system. Manufacturer: Cambridge Scientific Instruments, Ltd., United Kingdom. Intended use of article: The article is intended to be used to obtain SEM information at TV rates in order to carry out dynamic experiments directly within the SEM. These experiments will include the following:

(a) The study of superplastic alloys of commercial interest,
(b) Investigation of plastically deformed single crystals concentrating on slip line lengths and slip step density measurements,
(c) Studies of freshly produced fractured surfaces terminating the deformation tests,
(d) Tests at elevated temperatures employing a heating stage within the microscope,
(e) Fatigue test utilizing flexible vibrating beam geometry, and
(f) Experiments in crystal growth at elevated temperatures using low vapor pressure materials concentrating on the kinetics and morphology of the liquid-solid interface.

Application received by Commissioner of Customs: December 20, 1972.

Docket No. 73–00299–65–77040. Applicant: University of Connecticut, Storrs, Conn. 06268. Article: Mass Spectrometer, Model MS902EI and accessories. Manufacturer: Associated Electrical Industries, Ltd., United Kingdom. Intended use of article: The article is intended to be used for research in the following areas:

(1) Structure elucidation of natural products including:
Polypeptides.
Fungal metabolites.
Alkaloids.
Steroids.
Terpenes.
Anti-tumor compounds.
(2) Structure elucidation of synthetic organic and inorganic compounds including:
Synthetic terpenoids.
Synthetic alkaloid precursors.
Nitrogen heterocycles.
Organo-transition metal complexes.
Boron compounds.
General organic synthetic intermediates.
(3) Isotope labelling studies including:
Kinetic isotope effects in organic reactions.
Deuterium labelling in polypeptides and derivatives.
(4) Mass spectral fragmentation mechanism including:
Kinetic and thermodynamic studies of gaseous ions.
Metastable decomposition of gaseous ions.
(5) Combined GC-mass spectrometry for:
Identification of neurological compounds from snail brain.
Identification of flavor components in milk.
Characterization of odorous substances from microorganisms.

Application received by Commissioner of Customs: October 28, 1972.

Docket No. 73–00300–65–46040. Applicant: Newark College of Engineering, 323 High Street, Newark, NJ 07102. Article: Electron Microscope, Model JEM 120. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used by both graduate students and faculty for investigations of crack initiation and propagation, order-disorder transformations, nature of whisker, nucleation and growth, fatigue and creep, and alloy strengthening. In addition the article will be used in the following courses: Engineering Materials, Microscopy and Diffraction in Materials, Materials Science II, and Advanced Materials Science Lab. Application received by Commissioner of Customs: November 17, 1972.

Docket No. 73–00301–33–46070. Applicant: Children's Hospital Medical Center, 300 Longwood Avenue, Boston, MA 02115. Article: Scanning Electron Microscope, Model JSM–50A. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to perform high spatial resolution micro analysis of calcifying tissues obtained from mammalian species such as the rat and rabbit. Both normal and those with experimentally produced diseases such as rickets or plumbism will be studied thus allowing analysis of intracellular organelles and the extracellular matrix for the presence of calcium, phosphorus and other biologically important inorganic elements. Application received by Commissioner of Customs: December 12, 1972.

Docket No. 73–00302–01–77040. Applicant: Purdue University, Lafayette, IN 47907. Article: MS–9 magnet fitted with low voltage coils, magnet trolley, electrostatic analyzer, lower inner frame, with runners for the magnet trolley, three-part assembly, with isolation valve, stilts, and heater, MS–9 insertion lock with direct insertion probe, a length of bent analyzer tubing, assorted flanges and bolts, and source supply chassis including a d.c. converter, high voltage cable, and isolation transformer. Manufacturer: AEI Scientific Apparatus Ltd., United Kingdom. Intended use of article: The article is intended to be used in the construction of an Ion Kinetic Energy Spectrometer (IKES) which is to be used in research for a better understanding of the energetics and kinetics of gas phase ionic reactions. Application received by Commissioner of Customs: December 12, 1972.

B. Blankenheimer,
Acting Director,
Office of Import Programs.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before February 13, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the Federal Register, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73–00304–99–46040. Applicant: Wilson College, Chambersburg, Pa. 17201. Article: Electron Microscope, Model EM–9S–2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the following Biology courses:

Biology 317: Basic Techniques of Electron Microscope—To acquaint the student with a modern technique utilized in virtually every discipline of biological investigation.
Biology 350: Independent Study—To meet the individual needs of the advanced student.
Biology 359, 360: Senior Advanced Study and Research—To provide an opportunity for a senior to engage in independent advanced study and research in a specific phase of her major field.

In addition the article will be used for the following research projects:

1. Reversibility of cellular differentiation in two genera of frogs would be investigated.
2. The ultrastructure of differentiating cells and of fertilized eggs would be examined.
3. The ultrastructure of differentiated cells and of fertilized eggs after exposure to ultraviolent light would be described and compared to that of unirradiated cells.

Application received by Commissioner of Customs: December 21, 1972.

Docket No. 73–00305–50–77000. Applicant: Colorado State University, Fort Collins, Colo. 80521. Article: Distrometer, Type RD 69. Manufacturer: Distromet Ltd., Switzerland. Intended use of article: The article is intended to be used for measuring raindrop-size distributions and comparing seeded with nonseeded cases. In addition correlation with radar observations and actual amounts of precipitation will be made using parallel data from an extensive observation network. Application received by Commissioner of Customs: December 21, 1972.

Docket No. 73–00306–00–77000. Applicant: Colorado State University, Fort Collins, Colo. 80521. Article: Analyzer Type AD 69. Manufacturer: Distromet Ltd., Switzerland. Intended use of article: The article is intended to be used in conjunction with a raindrop distrometer for the following research purposes: Measurement of raindrops and comparing seeded with nonseeded cases and correlations with radar observations and actual amounts of precipitation using parallel data from extensive observation network. The data from the distrometer will be rapidly and economically processed by the analyzer and fed directly into the computer. Application received by Commissioner of Customs: December 21, 1972.

Docket No. 73–00307–33–46040. Applicant: The George Washington University, Department of Anatomy, 1335 H Street, NW., Washington, D.C. 20005. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in the detailed study of biomembranes as well as studies employing tracers. The experiments to be conducted consist of:

a. The mechanism of sickle cell at biophysical cellular level in the erythrocyte.
b. Ultrastructural topography of the absorptive cell membrane in the gastrointestinal tract and its relationship to membrane transport of salt, water, sugars and amino acids,
c. Studies on cell membranes will also be conducted using tracers including the small horseradish molecules, and
d. Studies to determine the "limiting" membrane of lipid droplets.

The article will also be used to train future electron microscopists and to provide other individuals with an investigative tool to be used in situations where the ultrastructure is of value. Application received by Commissioner of Customs:

Docket No. 73–00308–33–46500. Applicant: Texas Agriculture Experiment Station, Animal Science Department, College Station, Tex. 77843. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of Article: The article is intended to be used for studies of muscle tissue and connective tissue with special interest in the interrelationship of collagen fibers, muscle fibers and the surrounding connective tissue as they are situated in the muscle tissues. Muscle tissue as a food will be studied with interest in the postmortem changes that take place in muscle as it is converted to meat. Experiments planned involve sectioning muscle fibers, collagen fibers and surrounding connective tissue together as they are situated in the muscle tissues. Application Received by Commissioner of Customs: December 26, 1972.

Docket No. 73–00309–33–46500. Applicant: Trenton State College, Biology Department, Pennington Road, Trenton, N.J. 08625. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of Article: The article is intended to be used in studies of biological material, including mammalian tissue, mainly cardiac, and tropical marine red algae and their parasites. The experiments to be conducted involve:

(a) The normal ultrastructure of cells in the conduction tissue of the heart as well as structural changes with chemotherapy.
(b) Ultrastructure of the apical cells of algae, including studies of the apical cells. Parallel study of the secondary "Pit" initial and correlated differentiation. Parallel study of the apical cell and "Pit" initial in parasites of each species. Study of Ultrastructure of the host-parasite connection and influence of apical damage on thallus form and ultrastructural changes in sub-apical cells.

In addition, the article is to be used in the courses—Cytology and Independent Study in Biology—to obtain the following objectives:

(a) To introduce students to all types of microscopic procedures,
(b) To introduce students to all types of cytological interpretations,
(c) To introduce students to all types of histological interpretations, and
(d) To instill an understanding of the scientific method in biological research.

Application received by Commissioner of Customs: December 26, 1972.

Docket No. 73–00310–33–46500. Applicant: Albert Einstein College of Medicine, 1300 Morris Park Avenue, Bronx, NY 10461. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to study the interrelations of cell "organelles" in a great many cell types. Currently under study are liver (rat, human), small intestine (guinea pig, human, rat, etc.), liver cancers (Novikoff hepatoma, Morris hepatomas) and other tissues. The work is largely cytochemical, wherein embedding media of different degrees of hardness will be used. True three-dimensional configurations of organelles will be investigated. Unfrozen material will be used for cytochemistry, especially for the peroxidase labeled antibody procedure. Application received by Commissioner of Customs: December 26, 1972.

Docket No. 73–00311–01–01100. Applicant: Graduate Hospital of University of Pennsylvania, Clinical Research Center, 19th and Lombard Streets, Philadelphia, PA 19146. Article: Nitrogen 15 Analyzer. Manufacturer: Breda, Holland. Intended use of Article: The article is intended to be used for a research program on Protein Metabolism in Surgical Patients in the General Clinical Research Center at the Graduate Hospital of the University of Pennsylvania. ^{15}N will be analyzed using an optical method. Application received by Commissioner of Customs: December 20, 1972.

Docket No. 73–00312–33–46040. Applicant: Department of Public Health, State Laboratory Institute, 305 South Street, Jamaica Plain, MA 02130. Article: Electron Microscope, Model EM 300. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for rapid and accurate diagnosis of selected human and animal virus diseases. The materials to be studied include specimens which will be examined directly for virus and/or viral antigens in skin lesions; vesicle fluid, tissue from organs including brain, liver, lung, spleen, pancreas and other organs; exfoliated cells from throat and the reproductive system, biopsy specimens, leucocytes; exudates; and transludates. Application received by Commissioner of Customs: December 27, 1972.

Docket No. 73–00313–33–46595. Applicant: University of Pittsburgh, Department of Physiology, Pittsburgh, Pa. 15213. Article: LKB 11800–5 pyramitome with 11870 target marker. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in a study of the role of extracellular-fixed charges in the function of skeletal muscle. The project involves experimental manipulations of isolated bundles of skeletal muscle fibers. Application received by Commissioner of Customs: December 27, 1972.

Docket No. 73–00314–01–77030. Applicant: Trenton State College, Trenton, N.J. 08625. Article: NMR Spectrometer, JNM–MH–60. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in the teaching of Organic Chemistry, Analytical Chemistry, Qualitative Organic Chemistry and Advanced Organic Chemistry Students will be taught. (a) Theory and practice of nuclear magnetic resonance, (b) the use of nuclear magnetic resonance as a diagnostic tool in identifying organic chemicals from reaction mixtures and (c) the use of nuclear magnetic resonance in kinetics of reactions including fast reactions by using relaxation techniques. Application received by Commissioner of Customs: December 27, 1972.

Docket No. 73–00315–90–30600. Applicant: University of Iowa, Hydraulic Research Institute, Hydraulic Laboratory, Iowa City, Iowa 52240. Article: Model 403 Low-speed probe 2.5 to 150 cm/sec and Model 405 signal cable assembly, 3 m long. Manufacturer: Novar Nixon Electronic Instrumentation, United Kingdom. Intended use of article: The article is intended to be used to measure, indicate, and record very low flow rates of water and other conductive fluids. Application received by Commissioner of Customs: December 27, 1972.

Docket No. 73–00316–33–09300. Applicant: Hospital for Joint Diseases and Medical Center, 1919 Madison Avenue, New York NY 10035. Article: Staput apparatus. Manufacturer: Johns Scientific, Canada. Intended use of article: The article is intended to be used to separate the populations of heterogeneous cells in a spleen of a myeloma tumor mouse to see if an immunological response is taking place in the mouse. Application received by Commissioner of Customs: December 26, 1972.

B. Blankenheimer,
Acting Director,
Office of Import Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

NATIONAL ADVISORY COUNCIL ON ADULT EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), that the next meeting of the National Advisory Council on Adult Education will be held on February 18, 19, 20, 1973. The four committees of the Council will meet at the Regency Hyatt House, Atlanta, Ga., commencing at 5 p.m., February 18. On February 19–20, 1973, the Council will meet at the Georgia Center for Continuing Education, University of Georgia, Athens, Ga. On February 19, 1973, the meeting will be held from 9 a.m. to 5 p.m. On February 20, 1973, the meeting will be held from 7:30 a.m. to 5 p.m.

The National Advisory Council on Adult Education is established under section 310 of the Adult Education Act (80 Stat. 1216.20 U.S.C. 1201). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 306 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering adult education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to adult education activities and services). The President shall transmit each such report to the Congress together with his comments and recommendations.

The meeting of the Council shall be open to the public. The proposed agenda includes:

University of Georgia's continuing education program.
Status of Adult Education in Region IV.
Annual report—Federal legislation.
Fiscal year 1974 research thrust.
Program visitations.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Adult Education located in Room 1144, Pennsylvania Building, 425 13th Street NW., Washington, DC 20004).

Signed at Washington, D.C., on January 17, 1973.

GARY A. EYRE,
Executive Director, National Advisory Council on Adult Education.

NATIONAL ADVISORY COUNCIL ON ENVIRONMENTAL EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92–463, that the next meeting of the full membership of the National Advisory Council on Environmental Education will be held commencing at 9 a.m., on Thursday, January 25, 1973, through 10:30 p.m., on Saturday, January 27, 1973, at the Miami Civic Center, Holiday Inn, Miami, Florida.

The National Advisory Council on Environmental Education is established under section 3(c)(1) of the Environmental Education Act (Public Law 91–516). The Council is established to advise the Commissioner of Education on the review of the administration and operation of programs relating to the administration of the Act.

The meeting of the Council shall be open to the public. Records shall be kept of all proceedings and shall be available for public inspection at the Office of the Council's Executive Secretary, located in Room 424, Reporter's Building, 7th and D Streets SW., Washington, DC.

Signed at Washington, D.C. on January 8, 1973.

WALTER BOGAN,
Director,
Office of Environmental Education.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50–282 and 50–306]

NORTHERN STATES POWER CO.

Notice of Availability of Environmental Reports

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations set forth in Appendix D to 10 CFR Part 50, notice is hereby given that documents entitled "Applicant's Environmental Report", "Supplement 1 to Prairie Island Nuclear Generating Plant Environmental Report", and "Supplement 2 to Prairie Island Nuclear Generating Plant Environmental Report" (collectively known as the "reports"), submitted by the Northern States Power Co. have been placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, the Environmental Library of Minnesota, 1222 Southeast Fourth Street, Minneapolis, MN, and in Minnesota State Planning Agency, 505 Cedar Street, St. Paul, MN. The reports are also available at the Metropolitan Council, 101 Capitol Square Building, 10th and Cedar Street, St. Paul, MN.

Notice of availability of the applicant's Environmental Report was published in the FEDERAL REGISTER on January 6, 1972 (37 FR 152).

The reports have been analyzed by the Commission's Directorate of Licensing, and a Draft Environmental Statement, related to the proposed issuance of operating licenses for the Prairie Island Nuclear Generating Plant Units 1 and 2, located at Northern States Power Co.'s site in Burnside Township, Goodhue County, has been prepared and is available for public inspection at the locations designated above. Copies of the Commission's Draft Environmental Statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Pursuant to Appendix D to 10 CFR Part 50, interested persons may, on or before March 12, 1973, submit comments for the Commission's consideration on the Report and Supplements, on the Draft Environmental Statement, and on the proposed action. Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain this document on request), and when comments thereon of the Federal, State, and local officials are received, they will be made available for public inspection at the above designated locations. Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 22d day of January 1973.

For the Atomic Energy Commission.

DANIEL R. MULLER,
Assistant Director for Environmental Projects, Directorate of Licensing.

[Docket No. 50–387, 388]

PENNSYLVANIA POWER AND LIGHT CO.

Prehearing Conference Order of Atomic Safety and Licensing Board

This matter having come before the Atomic Safety and Licensing Board (Board) at a prehearing conference held on January 3, 1973, and counsel for all the parties having been present, the following actions were taken:

A. SCHEDULING

1. The evidentiary hearing will be held in two phases, with the radiological health and safety phase to begin on Wednesday, February 21, 1973, at 9 a.m., in the Berwick High School Auditorium, 1100 Fowler Avenue, Berwick, PA.

V38-16 JAN 24 73 XUM

B. THE PARTIES

2. Without objection from any party, the Commonwealth of Pennsylvania is admitted to participation in this proceeding as a State pursuant to 10 CFR Part 215(c).

3. The Commonwealth has indicated that it desires to propound certain questions to the Applicant, the responses to which will be made by the Applicant either orally on the record at the time of the evidentiary hearing, or in written form at that time.

C. LIMITED APPEARANCES

4. All requests for limited appearances are granted, and those persons desiring to make oral presentations will be permitted to do so on the initial day of the evidentiary hearing.

5. Due to the large number of requests for limited appearance by way of oral statement, each person appearing in this manner will be limited to no more than 5 minutes in time for the purpose.

6. Written statements by way of limited appearance may be unlimited in length and will be accepted by the Board on the initial day of the evidentiary hearing. Such written statements as may have been submitted by persons prior to the time of the evidentiary hearing will also be accepted by the Board as appearances by way of limited appearance.

Issued at Washington, D.C., this 17th day of January 1973.

It is so ordered.

THE ATOMIC SAFETY AND LICENSING BOARD,
EDWARD LUTON,
Chairman.

ASSOCIATED INDEPENDENT COMMUTER AIRLINES

Notice of Meeting

Notice is hereby given that a meeting with the above group will be held on February 8, 1973, at 2:30 p.m. (local time) in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, to make a presentation to the Board.

Dated at Washington, D.C., January 18, 1973.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73-1451 Filed 1-23-73;8:45 am]

[Docket No. 24916; Order 73-1-61]

UNITED AIR LINES, INC.

Order Denying Petition for Reconsideration Regarding U.S. Mainland-Hawaii Promotional Fare Increases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 18th day of January 1973.

By joint petition filed December 29, 1972, Aloha Airlines, Inc. (Aloha) and Hawaiian Airlines, Inc. (Hawaiian) request that the Board reconsider its decision in Order 72-12-45. By that order, the Board dismissed a complaint filed by Aloha and Hawaiian which requested suspension and investigation of certain increases in promotional fares to Hawaii proposed by United Air Lines, Inc. (United), on the ground that travel in groups of at least 30 persons was required within the State of Hawaii.

In dismissing the complaint, the Board stated that the rule to which the carriers object has been in effect for over a year and that the complaint had failed to demonstrate that the "travel together" requirement does in fact inhibit inter-island travel as alleged. The Board also noted that inter-island traffic continues to be strong and that Aloha and Hawaiian have both reported substantially improved financial results in the past year.

In their petition for reconsideration, the complainants assert that there can be no doubt that the "travel together" requirement, by its own terms, restricts the availability of the common fare, and thereby necessarily inhibits inter-island travel. They allege that the difficulty of forming a group of 30, all of whom desire to go to one particular point, is apparent even if the passengers are aware of the common fare. Moreover, the alleged absence of promotion of common-fare services by the mainland-Hawaii carriers makes it all the more difficult to organize an appropriate-sized group.

Aloha and Hawaiian further allege that the rule in question is contrary to past Board orders which indicated that availability of common fare travel should extend to all fares and without inhibiting restrictions. It is the belief of Aloha and Hawaiian that the group fares in question (and the "travel together" rule attendant therewith) violate condition (19) of United's certificate of public convenience and necessity which requires maintenance of tariffs providing for common-fare travel.

United answers that under its tariffs, common fares are fully available to all persons utilizing the revised group fares filed by United. It further alleges that the petition of Aloha and Hawaiian is totally devoid of a showing that inter-island travel is actually inhibited by the rule in question.

Upon consideration of the relevant matters, the Board concludes that the petition of Aloha and Hawaiian for reconsideration of Order 72-12-45 does not establish error in the Board's decision, and accordingly the petition will be denied.

In our opinion the Hawaiian carriers have again failed to demonstrate the alleged damaging effect of the "travel together" rule, or that the rule is inconsistent with the carriers' certificate responsibility to make common-fare travel available to all classes of service. The fare which brings the passenger to Hawaii (to which the rule in question applies) requires the formation of groups ranging in size from 40 to 154 persons, and we do not believe requiring travel to continue in groups of 30 or more within Hawaii alters the common-fare concept as originally conceived.

Aloha and Hawaiian express the concern that retention of the "travel together" rule in question will encourage the mainland-Hawaii carriers to seek "further restriction of the common fare by increasing the size of the group which must travel together or by imposing other restrictions less severe than those previously found unlawful." We would emphasize to Aloha and Hawaiian and the mainland-Hawaii carriers that our decision herein should not be construed to signal acceptance of a more restrictive application of the common-fare concept. We simply conclude that the existing "travel together" rule is not unreasonable.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. The petition of Aloha Airlines, Inc. and Hawaiian Airlines, Inc. filed in Docket 24916 is denied; and

2. Copies of this order will be served upon Aloha Airlines, Inc., Hawaiian Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Current Economc Policy Directive

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Current Economic Policy Directive issued at its meeting held on October 17, 1972.[1]

The information reviewed at this meeting suggests a substantial increase in real output of goods and services in the third quarter, although well below the usually large rise recorded in the second quarter. In September wages and prices advanced moderately, while the unemployment rate remained substantial. In the U.S. balance of payments, the current account deficit has been largely offset by capital inflows in recent weeks, and the central bank reserves of most industrial countries have continued to change little. In August, the excess of U.S. merchandise imports over exports declined somewhat.

The narrowly and broadly defined money stock expanded at moderate rates in August and September, following large increases in July, but the bank credit proxy continued to grow rapidly. Since mid-September, short term interest rates have increased somewhat, while yields on most long term securities have changed little.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to sustainable real economic growth and increased employment, abatement of inflationary pressures, and attainment of reasonable equilibrium in the country's balance of payments.

To implement this policy, while taking account of the effects of possible bank regulatory changes, Treasury financing operations, and developments in credit markets, the Committee seeks to achieve bank reserve and money market conditions that will support more moderate growth in monetary aggregates over the months ahead than recorded in the third quarter.

By order of the Federal Open Market Committee, January 8, 1973.

ARTHUR L. BROIDA,
Deputy Secretary.

[FR Doc.73-1405 Filed 1-23-73;8:45 am]

[1] The Record of Policy Actions of the Committee for the meeting of Oct. 17, 1972, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

COST OF LIVING COUNCIL

[Cost of Living Council Order 18]

CIVIL SERVICE COMMISSION

Delegation of Authority

Pursuant to the authority delegated to me by Cost of Living Council Order No. 14, and for the purpose of implementing section 212(g) of the Economic Stabilization Act of 1970 (Title II of Public Law 92-210, 85 Stat. 751, hereinafter the Act) there is hereby delegated to the U.S. Civil Service Commission, subject to coordination with the Director of the Cost of Living Council, the authority and the responsibility to issue and administer regulations governing reemployment rights under section 212(g) of the Act. Regulations issued under this delegation shall apply to each agency in the Executive branch (including the U.S. Postal Service) and the municipal government of the District of Columbia.

This delegation is effective January 22, 1973.

DONALD RUMSFELD,
Director,
Cost of Living Council.

[Docket No. 19668; FCC 73-25]

CONNELLSVILLE BROADCASTERS, INC.

Order Designating Application for Hearing on Stated Issues

In regard application of: Connellsville Broadcasters, Inc., Connellsville Pa., for renewal of license for radio station WCVI, Docket No. 19668, File No. BR-1550.

1. The Commission has under consideration: (a) Its inquiry into the operation of Station WCVI; (b) the captioned application; and (c) a petition filed February 5, 1971, by the Freedom Committee, an organization comprised of approximately 50 residents of the Connellsville area that was formed for the purpose of petitioning the Commission concerning the operation of Station WCVI. The Freedom Committee's petition will be treated as an informal request for Commission action, pursuant to § 1.41 of the Commission's rules.

2. Information obtained from our inquiry raises serious questions as to whether the applicant possesses the qualifications to be or to remain a licensee of the Commission. In view of these questions, the Commission is unable to find that a grant of the renewal application would serve the public interest, convenience and necessity, and must, therefore, designate the application for hearing.

3. *Accordingly, it is ordered,* That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned application is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine whether the licensee engaged in fraudulent billing practices, or failed to exercise reasonable diligence to see that its agents and employees did not engage in fraudulent billing practices, in violation of § 73.1205 of the Commission's rules.

(2) To determine whether the licensee violated the fairness doctrine with respect to its handling of a controversy surrounding the medical care offered by local hospitals; and to determine whether the licensee's programing policies with respect to medical care offered by local hospitals were designed to protect the private interests of the licensee's president rather than to serve the public interest.

(3) To determine whether the licensee failed to make the necessary sponsor identification announcements in connection with political announcements, in violation of section 317 of the Communications Act and § 73.120 of the Commission's rules.

(4) To determine whether the licensee failed to properly maintain or make available its public inspection file, in violation of § 1.526 of the Commission's rules.

(5) To determine, in light of the evidence adduced under the preceding issues, whether the licensee has the requisite qualifications to be or to remain a licensee of the Commission, and whether a grant of the application would serve the public interest, convenience and necessity.

4. *It is further ordered,* That the informal request filed by the Freedom Committee is granted to the extent indicated above, and is denied in all other respects.

5. *It is further ordered,* That the Freedom Committee is made a party respondent in this proceeding.

6. *It is further ordered,* That the Chief of the Broadcast Bureau shall serve upon the captioned licensee, within thirty (30) days of the release of this order, a Bill of Particulars with respect to issues (1) through (4), inclusive.

7. *It is further ordered,* That the Broadcast Bureau and the Freedom Committee proceed with the initial presentation of the evidence with respect to issues (1) through (4), inclusive, and the applicant then proceed with its evidence and have the burden of establishing that it possesses the requisite qualifications to be and to remain a licensee of the Commission and that a grant of its application would serve the public interest, convenience, and necessity.

8. *It is further ordered,* That to avail themselves of the opportunity to be heard, the applicant and the Freedom Committee, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, on or before January 29, 1973, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for

hearing and present evidence on the issues specified in this order.

9. *It is further ordered,* That the applicant, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, shall give notice of the hearing in the manner and within the time specified in that rule, and shall seasonably file the notice required by § 1.594'g) of the rules.

10. *It is further ordered,* That the Secretary of the Commission send a copy of this order by Certified Mail—Return Receipt Requested, to Connellsville Broadcasters, Inc.

Adopted: January 4, 1973.

Released: January 9, 1973.

[FR Doc.73-1320 Filed 1-23-73;8:45 am]

[Docket No. 13995; FCC 73R-27]

CLOVIS BROADCASTERS

Memorandum Opinion and Order Enlarging Issues

In regard application of Elbert Dean, and George E. Gautney and Carl T. Jones, a partnership, doing business as Clovis Broadcasters, Clovis, Calif., for construction permit, Docket No. 13995, File No. BP-12728.

1. Before the Review Board for consideration is a petition to enlarge issues, filed November 15, 1972, in which the remaining applicant in this proceeding requests an issue to determine whether good cause exists for the waiver of § 1.569(b)(2)(i) of the Commission's rules.[1]

2. The above-captioned application was designated for hearing by Order FCC 61-353, released March 20, 1961. However, because of the pendency of the Clear Channel Proceedings instituted shortly thereafter in 1961, this proceeding was held in abeyance. In response to an order to show cause (FCC 72M-700), released by the Administrative Law Judge on May 26, 1972, the applicant stated its intention to prosecute its application. Subsequently, in accordance with an agreement reached during a prehearing conference, the applicant submitted a comprehensive amendment which, inter alia, reflects a change to establish a directional antenna system; in connection with this portion of the amendment, the applicant requested a waiver of § 1.569(b)(2)(i) of the Commission's rules.[2]

By Order FCC 72M-1425, released November 16, 1972, the Presiding Judge accepted the amendment. However, because the Presiding Officer is not authorized to waive the requirements of Commission rules unless an appropriate issue looking toward waiver has been added to the proceeding, the applicant, at the suggestion of the Broadcast Bureau, filed the instant petition.

3. An issue looking toward waiver of § 1.569(b)(2)(i) of the Commission's rules will be added. Petitioner states that, although its transmitter site is located outside the 500-mile extension of the 0.5 mv/m-50 percent nighttime contour of Class I-A station WBAP, Fort Worth, Tex., this noncompliance with § 1.569(b)(2)(i) is purely technical in nature; and that because of the required protection to Station KGO, San Francisco, Calif., no Class II-A station operating on 820 kHz could be located in an area close enough to the proposed station to involve any prohibited overlap of contours.[3] These uncontested allegations, warrant the addition of an issue to determine whether the requirements of § 1.569(b)(2)(i) of the Commission's rules should be waived in this proceeding. See "Peter L. Pratt," 16 FCC 2d 967, 15 RR 2d 933 (1969); "Blue Ridge Broadcasting Co., Inc.," FCC 72-128, 23 RR 2d 887 (1972).

4. *Accordingly, it is ordered,* That the petition to enlarge issues, filed November 15, 1972, by Clovis Broadcasters is granted to the extent indicated herein, and is denied in all other respects; and

5. *It is further ordered,* That the issues in this proceeding are enlarged to include the following:

To determine whether the proposal of Clovis Broadcasters violate the provision of § 1.569(b)(2)(i) of the Commission's rules, and, if so, whether good cause exists for waiver of the provisions of said section; and

6. *It is further ordered,* That the burdens of proceeding with the introduction of evidence and proof under the issue added herein shall be on Clovis Broadcasters.

Adopted: January 11, 1973.

Released: January 16, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[4]

KOTZEBUE BROADCASTING CO., INC.

Standard Broadcast Application Ready and Available for Processing

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on February 23, 1973, the following standard broadcast application will be considered as ready and available for processing:

BP-19280 NEW, Kotzebue, Alaska.
Kotzebue Broadcasting, Inc.
Req: 720 kHz, 5 kW, U.

Pursuant to § 1.227(b)(1) and § 1.591(b) of the Commission's rules, an application, in order to be considered with this application or with any other application on file by the close of business February 22, 1973, which involves a conflict necessitating a hearing with this application, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business February 23, 1973.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time of filing and other requirements relating to such pleadings.

Application deleted from Public Notice of Januray 11, 1972 (Mimeo #78650) (13 FR 630):

BP-19133 NEW, Kotzebue, Alaska.
Kotzebue Broadcasting, Inc.
Req: 670 kHz, 5 kW, U.
(Assigned new File No. BP-19280)

Adopted: January 16, 1973.

Released: January 17, 1973.

TECHNICAL ADVISORY COMMITTEE PANEL 3

Notice of Public Meeting

JANUARY 16, 1973.

Panel 3 (Receivers) of the Cable Television Technical Advisory Committee will hold an open meeting on February 1, 1973, at 9:30 a.m. The meeting will be held in Suite 393 of the Marriott Motor Hotel located at 8535 West Higgins Road, Chicago, Illinois.

The agenda for the meeting will include:

1. Material prepared in response to assignments in selected areas on: (a) What to measure and (b) Measurement techniques (preliminary).

2. Letters raising some questions regarding Panel 3 intended charge.

3. Agree to plan for efforts during next period.

Secretary.

[FR Doc.73-1323 Filed 1-23-73;8:45 am]

[1] Also before the Board for consideration is the Broadcast Bureau's comments, filed November 22, 1972.

[2] Section 1.569(b)(2)(i) provides that applications for frequencies adjacent to Class I-A channels will be accepted for filing and acted upon provided they show, with respect to all Class I-A channels within 30kHz of the designated frequency, that the proposed transmitter site is located inside the area encompassed by a 500-mile extension of the 0.5 mv/m-50 percent nighttime contour of Class I-A stations on unduplicated channels.

[3] Station KGO operates on 810 kHz, which is only 10 kHz removed from Station WBAP; additionally, the 0.5 mv/m contour of KGO encompasses the proposed site at Clovis, Calif.

[Docket No. E-7927]

CONNECTICUT LIGHT AND POWER CO.

Notice of Initial Rate Schedule Filing

JANUARY 16, 1973.

Take notice that the Connecticut Light and Power Co. (Company) tendered for filing on December 20, 1972, as an Initial Rate Schedule a Purchase Agreement with respect to Montville Unit No. 6, dated November 1, 1972. The Agreement between the Company and Consolidated Edison Company of New York (Con Ed), provides for sales to Con Ed of specified percentages of capacity and energy from its Montville Unit No. 6 generating unit during the period from December 1, 1972, through April 30, 1973. The Company proposed to make the tendered rate schedule effective as of December 1, 1972.

The Company states that in order to permit Con Ed to receive urgently needed capacity it also is requesting waiver of the 30-day notice requirement of the Commission's regulations. Questions as to the Company's capacity responsibility obligation for the 12-month period ending October 31, 1973, under the terms of the New England Power Pool (NEPOOL) Agreement were not resolved until October 27, 1972. This delay affected the amounts of capacity from Montville Unit No. 6 that could be sold by the Company and this delayed execution of the Agreement and the date of this filing.

The Company states that copies of this filing were served on Con Ed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 24, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

EL PASO NATURAL GAS CO.

Notice of Extension of Time and Postponement of Hearing; Correction

DECEMBER 1, 1972.

In the notice of extension of time and postponement of hearing, issued December 1, 1972 and published in the FEDERAL REGISTER December 7, 1972, 37 FR 26057; Please change the "Docket No. RP72-150, *et al.*," to "Docket No. RP72-151," for Hearing and Commencement of Cross-Examination on March 20, 1972.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1363 Filed 1-23-73;8:45 am]

[Docket No. CI73-470]

HARVEY BROYLES

Notice of Application

JANUARY 18, 1973.

Take notice that on January 11, 1972, Harvey Broyles (Applicant), Post Office Box 1511, Shreveport, LA 71165, filed in Docket No. CI73-470 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Southern Natural Gas Co. (Southern), from the Bear Creek Field, Bienville Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he has sold natural gas to Southern from the subject producing properties from January 17, 1972, through January 17, 1973, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) and that he proposes to sell up to 5,000 Mcf of gas per day for another year at the rate of 35.0 cents per Mcf at 15.025 p.s.i.a. within the contemplation of said policy.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1479 Filed 1-23-73;8:45 am]

[Docket No. CI72-715]

COMMERCIAL SOLVENTS CORP.

Order Granting Intervention, Setting Hearing Date and Prescribing Procedure

JANUARY 18, 1973.

On May 1, 1972, Commercial Solvents Corp. (Commercial), filed an application in Docket No. CI72-715 pursuant to section 7(b) of the Natural Gas Act seeking permission and approval of the Commission to abandon its gas sales made under a 1947 contract from 12 wells located in the Monroe Gas Field, Union Parish, LA. to Ashland Oil, Inc. (Ashland). Ashland resells the gas to Southern Natural Gas Co. (Southern). In support of its application, Commercial alleges that the wells can no longer be economically operated.

Timely petitions requesting permission to intervene in these proceedings were filed by Ashland on May 31, 1972, and by Southern on June 5, 1972. Ashland opposes the proposed abandonment on the ground that if the abandonment is permitted, its annual deliveries to Southern will be reduced. Southern opposes the proposed abandonment on the ground that it currently purchases gas from Ashland, a part of which comprises gas from Commercial.

Because of the allegation of uneconomical operation, an appropriate issue to be explored during the course of these proceedings is what rate increase, if any, would be necessary to make the sale and delivery of gas economically feasible.

The Commission finds:

(1) It is desirable and in the public interest to allow Ashland and Southern to intervene in this proceeding.

(2) It is necessary and proper in the public interest and to aid in enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

The Commission orders:

(A) Ashland and Southern are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders of the Commission entered in this proceeding.

(B) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing on the issues presented in the application will be held commencing February 20, 1973, at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426. An Administrative Law Judge to be designated by the Chief Administrative Law Judge shall preside at, and control, this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(C) On or before February 2, 1973, Commercial shall prepare and serve its direct testimony and exhibits in support of its application.

(D) The intervenors shall prepare and serve their prepared testimony and exhibits, if any, in support of their positions and in response to the submittals made in compliance with ordering paragraph (C) above on all parties to this proceeding, on or before February 15, 1973. All evidence shall be filed with the Commission and served on all parties and the Commission Staff.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1491 Filed 1-23-73;8:45 am]

[Docket No. RP73-72]

CONSOLIDATED GAS SUPPLY CORP.

Notice of Proposed Changes in Rates and Changes

JANUARY 18, 1973.

Take notice that Consolidated Gas Supply Corp. (Consolidated), on January 5, 1973, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, Original Sheet No. 52-E, Second Revised Sheet No. 53, and First Revised Sheet No. 53-A. The filing consists of a proposed transportation charge adjustment clause which would permit Consolidated to adjust, without having to make a general rate increase filing, its rates to reflect changes in cost which, Consolidated states, will increase as a result of transportation by others of new supplies of natural gas to Consolidated's system. Further, Consolidated states that the proposed rate adjusting authority is limited to the transportation service authorized by the Commission in Docket No. CP72-183, et al. on August 23, 1972.

Consolidated requests waiver of the Commission's regulations necessary to permit the proposed tariff sheets to become effective on February 4, 1973.

Consolidated states that copies of this filing were issued in its jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1488 Filed 1-23-73;8:45 am]

[Docket No. RP72-6]

EL PASO NATURAL GAS CO.

Order Setting Expedited Hearing on Amended Motion for Extraordinary Relief

JANUARY 11, 1973.

On August 18, 1972, City of Willcox, Ariz. (Willcox) and Arizona Electric Power Cooperative, Inc. (AEPCO) filed a joint motion for extraordinary relief on an interim basis from the operation of proposed revised tariff sheets submitted by the El Paso Natural Gas Co. (El Paso) which would allocate the firm reliable mainline capacity of El Paso's Southern Division system and would establish new priorities of service to be utilized in the event a gas supply shortage necessitates curtailment of deliveries below that capacity. In support of the motion, it alleged that AEPCO was unable to obtain a supply of fuel oil sufficient to meet its electric generation needs and that the reliability of its electric service would be adversely affected if special provision was not made.

On September 1, 1972, the Commission issued an order in this docket reopening the record herein for the purpose of adducing evidence on the need for an interim emergency curtailment plan for the Southern Division system and setting September 12, 1972, as the date for the beginning of a hearing thereon. By order dated September 7, 1972, the Commission ordered that consideration also be given to the claim of Willcox and AEPCO. Hearings were held on these issues between September 12, 1972, and September 25, 1972.

On October 31, 1972, the Commission issued Opinion No. 634, in which it denied the joint petition stating that the record did not entitle the parties to the relief sought. The Commission further stated that the parties were free to renew their petition at a later period should they be able to make a more persuasive showing.

On November 30, 1972, as a part of their joint response to Opinion No. 634, Willcox and AEPCO included their Amended Motion for Extraordinary Relief. Therein it is alleged that while AEPCO is now able to acquire alternate fuel supplies, it still is in need of extraordinary relief. As the primary reason therefor, AEPCO states that it is unable to operate reliably and safely during sustained periods on fuel oil.

As noted in Opinion No. 634-A, a public hearing to determine the merits of the Amended Motion would be set by separate order. Accordingly we adopt the procedures prescribed below.

The Commission finds:

It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing to determine whether the public convenience and necessity require the grant of the extraordinary relief sought.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18

V 38-16 JAN 24 73 XUM

CFR Ch. 1), a public hearing shall be held commencing on January 30, 1973, at 10 a.m., e.s.t. in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426 to determine whether the public convenience and necessity require the extraordinary relief sought.

(B) On or before January 22, 1973, the City of Willcox, Ariz., and Arizona Electric Power Cooperative, Inc. shall file with the Commission and serve on all parties, including staff, such testimony and exhibits as they may choose to proffer in support of its proposed extraordinary relief. The Commission Staff and all other interested parties shall prepare and have available for all participants their testimony and exhibits, if any, at the beginning of the hearing and should attempt to make such information available at an earlier date if possible.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-1480 Filed 1-23-73;8:45 am]

[Docket No. CP73-175]

LONE STAR GAS CO.

Notice of Application

JANUARY 17, 1973.

Take notice that on January 2, 1973, Lone Star Gas Co. (Applicant), 301 South Harwood Street, Dallas, TX 75201, filed in Docket No. CP73-175 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the operation of certain facilities for the transportation of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval to abandon the facilities of the Katie Transmission Compressor Station, consisting of two 220-horsepower compressor units and associated piping and equipment, located in Garvin County, Okla. Applicant states that the facilities are to be removed and salvaged for use elsewhere on Applicant's pipeline system.

Applicant further states that the proposed abandonment of facilities will not result in the abandonment or any diminution of natural gas service from Applicant's transmission pipeline system to any of Applicant's customers. It is stated that the approximate cost of the proposed abandonment is $6,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10), a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP73-176]

LONE STAR GAS CO.

Notice of Application

JANUARY 17, 1973.

Take notice that on January 2, 1973, Lone Star Gas Co. (Applicant), 301 South Harwood Street, Dallas, TX 75201, filed in Docket No. CP73-176 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities for the purpose of relocating a portion of its existing pipeline system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the Department of Army, Corps of Engineers, has requested Applicant to relocate 3.8 miles of its existing 20-inch line T pipeline which underlies the construction site of the Waurika Dam and Reservoir on Beaver Creek, near the town of Waurika, Jefferson County, Okla. Applicant proposes to relocate this segment of line T by constructing approximately 7.5 miles of 20-inch pipeline around the proposed dam and reservoir.

It is stated that the estimated cost of relocating such natural gas pipeline facilities is $811,830 and that Applicant will enter into a cost reimbursable contract with the Corps of Engineers under which Applicant will be repaid its actual costs of relocation less appropriate credits. Applicant states that other costs will be financed from working capital.

Applicant also states that its operating and delivery capabilities will not be changed by the construction and operation of the facilities proposed herein.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-1484 Filed 1-23-73;8:45 am]

[Docket No. E-7963]

LONG ISLAND LIGHTING CO.

Notice of Initial Rate Schedule Filing

JANUARY 18, 1973.

Take notice that Long Island Lighting Co. (Long Island or LILCO) on January 8, 1973, tendered for filing as a proposed initial rate schedule an agreement between Long Island and Central Hudson Gas and Electric Corp. (Central Hudson). The proposed rate would provide for the sale by Long Island to Central Hudson of electric generating capability from gas turbines installed on Long Island's system. The proposed rate is described in the company's transmittal letter as providing for Long Island to furnish 93,000 kw. of electric generating capability from Long Island's gas turbines. Long Island states that the agreement was arrived at by negotiations between the parties. The charges for the service as set out in the tendered agreement are as follows:

1. *Capability charge.* Central Hudson shall pay LILCO a Capability Charge of $444,000 for the Contract Capability of 93 MW. for the period January 1, 1973, thru April 28, 1973. Payments shall be in four equal monthly installments.

2. *Energy charge.* Central Hudson shall pay LILCO for each kilowatt-hour of energy delivered, whether from gas turbines or other LILCO generating units, an Energy Charge equal to the Incremental Cost of producing such energy multiplied by 1.00 for energy from any gas turbines and 1.10 for energy from any steam units. The "Incremental Cost" shall mean the cost of fuel, maintenance, losses between the point of delivery and when applicable, the cost of starting up and shutting down boilers and turbines, equipment no-load losses, incremental operating costs incurred in connection with the supply of energy scheduled hereunder.

3. *Operating reserve charge.* Whenever Central Hudson schedules operating reserve without scheduling any energy, it shall pay LILCO any applicable out-of-pocket costs incurred in providing such operating reserve. This payment shall be in addition to the payment under "Capability Charge" above.

Finally, Long Island requests waiver of the Commission's advance notice requirements so that the proposed rate can be effective as of January 1, 1973. Long Island states the service will terminate on April 28, 1973.

Long Island states that copies of this proposed rate have been mailed to Central Hudson.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection in the offices of the Federal Power Commission.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-7734]

MID-CONTINENT AREA POWER POOL AGREEMENT

Notice of Further Extension of Time

JANUARY 15, 1973.

On December 29, 1972, counsel for the Alexandria Board of Public Works, Minnesota et al., filed a motion for change of dates as fixed by the order issued on September 26, 1972, as amended by notice issued October 31, 1972, in the above matter. The motion states that counsel for movants is authorized to state that staff counsel, counsel for applicants and counsel for the city of St. Paul, Minn., have no objection to the motion.

Upon consideration, notice is hereby given that the procedural dates as set out in the order issued September 26, 1972, as amended by order issued October 31, 1972, are further modified as follows:

Service of prepared testimony by interveners, April 23, 1973.
Service of prepared testimony by applicant, June 22, 1973.
Service of testimony by staff, July 13, 1973.
Service of rebuttal evidence, August 9, 1973.
Prehearing conference, August 13, 1973.
Commencement of cross-examination, September 17, 1973.

[Docket No. RP73-76]

MIDWESTERN GAS TRANSMISSION CO.

Notice of Proposed Changes in FPC Gas Tariff

JANUARY 17, 1973.

Take notice that Midwestern Gas Transmission Co., on December 29, 1972, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1 to become effective March 1, 1973. The proposed changes would increase revenues from its Southern System jurisdictional sales and service by approximately $237,000 annually based on sales and service for the 12-month period ending November 30, 1972.

Midwestern states that the instant filing is made pursuant to the terms of its Settlement Agreement dated September 17, 1971, and is necessitated in order for the company to track increased costs of purchased gas from its Southern supplier, Tennessee Gas Pipeline Co., a Division of Tenneco Inc.

Copies of the filing were served upon the company's affected jurisdictional customers and State regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-1490 Filed 1-23-73;8:45 am]

[Docket No. CP73-173]

MOUNTAIN FUEL SUPPLY CO.

Notice of Application

JANUARY 17, 1973.

Take notice that on January 2, 1973, Mountain Fuel Supply Co. (Applicant), 180 East First South Street, Salt Lake City, UT 84111, filed in Docket No. CP73-173 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction, installation, and operation of a 1,100 horsepower gas-turbine driven centrifugal compressor and the necessary auxiliary equipment and the installation of eight new compressor cylinders in four existing compressors, together with modifications of the auxiliary equipment and piping, at Applicant's Eakin Station, Uinta County, Wyo., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the eight new compressor cylinders will be installed in four existing compressor units to enable Applicant to operate the Eakin Compressor Station at discharge pressure up to 732 p.s.i.a., for subsequent delivery to transmission lines and to operate the booster compressor unit at pressure up to 712 p.s.i.a. Applicant states further that the 1,100 horsepower compressor will be used to compress pipeline gas received from El Paso Natural Gas Co., for commingling with the gas discharge from the Eakin Station at pressures up to 712 p.s.i.a.

Applicant estimates that the cost of the proposed facilities will be approximately $810,000 which will be financed from funds on hand as well as from any short-term borrowing that may be necessary. Applicant proposes to commence construction of the proposed facilities as soon as practicable after receipt of the authorization requested herein in order that said facilities can be placed in operation by September 1, 1973.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the

V 38-16 JAN 24 73 XUM

Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1483 Filed 1-23-73;8:45 am]

[Docket No. CP73-185]

NEW ENGLAND LNG CO., INC.

Notice of Application

JANUARY 18, 1973.

Take notice that on January 15, 1973, New England LNG Co., Inc. (Applicant), 95 East Merrimack Street, Lowell, MA 01853, filed in Docket No. CP73-185 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of approximately 170,000 Mcf vaporous gas equivalent of liquefied natural gas (LNG) to Connecticut Natural Gas Corp. (CNG Corp.), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has stored LNG at CNG Corp.'s storage facilities in Rocky Hill, Conn., during the 1972-73 heating season, pursuant to a letter agreement dated June 30, 1972, and that in return therefor CNG Corp. was given the option to purchase one-third of the total quantity so stored. Applicant further states that in a letter of intent dated November 28, 1972, CNG Corp. advised Applicant of its desire to exercise its option and purchase in place approximately 170,000 Mcf of LNG from Applicant. CNG Corp. will use the LNG to meet its 1972-73 winter requirements.

It is stated that the proposed sale of LNG will not require any construction or acquisition of equipment by either the Applicant or CNG Corp.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 2, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7856]

NORTHERN STATES POWER CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 18, 1973.

Take notice that Northern States Power Co. (NSP), tendered for filing on July 24, 1972, as supplemented on September 11, 1972, proposed changes to its FPC Electric Rate Schedules Nos. 37, 38 (Supplement No. 1), 40, 42, 45, 47-49, 51, 52, and 54. The filing consists of a First Revised Fuel Clause which is intended to supersede the Fuel Clause in the above rate schedules. NSP requests this filing become effective on July 1, 1972, or the earliest possible date.

NSP states that copies of this filing were served on each municipal customer and the Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 6, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-1489 Filed 1-23-73;8:49 am]

[Docket No. E-7967]

WESTERN MASSACHUSETTS ELECTRIC CO.

Notice of Rate Schedule Cancellation

JANUARY 18, 1973.

Take notice that Western Massachusetts Electric Co. (WMECo) on December 22, 1972, requested cancellation of its FPC Rate Schedule No. 68. WMECo's notice of cancellation to the Commission is hereinafter set forth:

In accordance with § 35.15 of the Commission's regulations notice of termination of the above named schedule, effective December 19, 1972, is hereby provided. A list of the purchasers affected by this termination is as follows:

City of Westfield, Gas and Electric Department, Westfield, Mass.

FPC Rate Schedule No. 68 provides that it shall terminate of its own accord at "such time as WMECo.'s 115,000-volt transmission line from the tap point on the Blandford-Southwick line to the Elm Substation is considered to be part of WMECo.'s portion of the Vermont and Maine sponsors Maine transmission agreements or successor agreements." On December 19, 1972, WMECo. completed construction on and placed in service its 115-kv. transmission line from Elm Substation to Agawam. By so doing the above mentioned Blandford-Southwick to the Elm Substation line was looped to Agawam and thus became part of the Main Line Transmission System. Accordingly the Subtransmission Agreement, FPC No. 68, was automatically terminated.

Inasmuch as the termination date was contingent upon construction of the Elm Substation to Agawam line the company requests the Commission waive its advance notice requirement and allow the termination to be effective as of December 19, 1972.

Any person desiring to be heard or to protest said cancellation should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice (18 CFR 1.8, and 1.10). All such petitions or protests should be filed on or before February 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Copies of this filing have been served on Western Massachusetts' affected customers and interested State commissions. Copies are on file with the Federal Power Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Notice (73-7)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, MATERIALS AND STRUCTURES COMMITTEE

Notice of Meeting

The Materials and Structures Committee of the NASA Research and Technology Advisory Council will meet on February 6 and 7, 1973, at the NASA Langley Research Center, Hampton, Va. The meeting will be held in Room 225 of the Headquarters Building No. 1219. Members of the public will be admitted to the open portion of the meeting beginning at 8:30 a.m. on the agenda below on a first come, first served basis up to the seating capacity of the room, which is about 30 persons. All visitors must report to the receptionist in Building 1219.

The NASA Research and Technology Advisory Committee on Materials and Structures serves in an advisory capacity only. In this capacity, the Committee is concerned with materials science, materials engineering, advanced concepts and materials applications, structural design and analysis, and structural loads and dynamics. The current Chairman is Mr. Ira G. Hedrick. There are 17 members. The following list sets forth the approved agenda and schedule for the February 6 and 7, 1973 meeting. For further information please contact Mr. George C. Deutsch: Area Code 202/755-3264.

February 6, 1973

Time	*Topic*
8:30 am----	Chairman and Executive Secretary's Reports—(Purpose: To review results of RTAC meeting, developments of intercommittee activities, and NASA policies, programs, and organizational changes).

February 6, 1973—Continued

Time	*Topic*
9:00 a.m----	Review of Materials and Structures Committee Activities on: a. Fracture Control—(Purpose: Discussion of NASA plans to implement Committee and Panel recommendations on fracture control technology). b. Aerospace Vehicle Dynamics and Control—(Purpose: To review status report of Joint Ad Hoc Panel on interdisciplinary aspects of dynamics and control of space vehicles and aircraft).
11:00 a.m---	Integrated Program for Aerospace Vehicle Design (IPAD)—(Purpose: To review progress on current studies for complete computerized aerospace vehicle design).
1:30 p.m----	Langley Research Center Program Review and Tour—(Purpose: Review of advanced research programs and inspection of research facilities). (Closed session to discuss funding, programmatic detail and classified data.)

February 7, 1973

8:00 a.m----	Tramp Elements in Fuels and Alloys—(Purpose: To review potential material degradation and pollution problems resulting from trace elements and impurities in fuels and alloys from foreign sources).
8:45 a.m----	Committee Review of Center Reports—(Purpose: To discuss progress in research programs as reported by NASA Center members and identify new problem areas).
10:30 a.m---	New Problem Areas—(Purpose: To discuss new technology needs as identified by members and NASA Center representatives and recommend future action).
1:30 p.m----	Member Reports—(Purpose: To review and discuss data reported by university and industry members as it pertains to current and future NASA programs). (Closed session to discuss funding, programmatic detail and classified data.)
3:00 p.m----	Adjourn.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

NUCLEAR INCIDENT PLANNING—FIXED FACILITIES

Notice of Interagency Responsibilities

The following notice of interagency responsibilities is issued by the Office of Emergency Preparedness in order to provide full public information concerning the general course and method by which certain nuclear incident planning responsibilities are channeled and determined (5 U.S.C. 552(a)(1)(B)).

Purpose.—This statement sets forth the responsibilities as agreed between certain Federal agencies in connection with fixed facility nuclear incident planning at the Federal level and for the provision of planning assistance to State and local governments.

Background.—Formal statement of the respective roles of the various Federal departments and agencies is made in connection with the role of the Office of Emergency Preparedness in coordinating the emergency planning efforts of the Federal agencies as assigned by Executive Order 11051. Current planning activities are taking place at all levels of Government as well as in private industry. At the Federal level, several agencies have been cooperating on an informal, ad hoc basis to lend assistance to State and local governments in nuclear incident planning.

Responsibilities.—The Atomic Energy Commission will be the lead operating agency in nuclear incident planning activities among Federal agencies and in Federal assistance to State and local governments, and the Office of Emergency Preparedness will exercise general monitorship of these activities. Responsibilities of AEC, OEP and other Federal agencies are detailed below.

The Atomic Energy Commission will be responsible for:

1. Issuance of instructions on nuclear incident planning to other Federal agencies related to national level planning and related to their responsibilities and authorities in dealing with State and local governments.

2. Development and promulgation of guidance to States and localities, in coordination with other Federal agencies, for the preparation of radiological emergency response plans.

3. Review and concurrence with such plans. (Proper correlation among State, local government, licensee, and national plans, e.g., Interagency Radiological Assistance Plan (IRAP), is an element of this review.)

4. On the technical side:

a. Determination of the accident potential at each fixed nuclear facility.

b. Issuance of guidance for establishment of effective systems of radiation detection and measurement in nuclear incidents.

The Environmental Protection Agency will be responsible for:

1. Establishment of Action guidelines based on projected radiation exposure levels which might result from nuclear incidents.

2. Recommendations as to appropriate protective measures which can be taken by governmental authorities to ameliorate the consequences of an incident and reduce the potential population exposure in consideration of the possible radiation levels.

3. Assistance to State health departments or other State agencies that have responsibilities for radiological response, in the development of their emergency plans, following the guidelines issued by AEC.

4. Cooperation with AEC in establishment of radiation detection and measurement systems.

The Department of Health, Education, and Welfare will be responsible for:

1. Assistance to State health departments, State hospital associations, and other professional organizations, and ambulance services, in the development of plans for the prevention of adverse effects from exposure to radiation and for health and medical care responses to nuclear incidents consistent with guidelines issued by AEC and plans of other agencies.

2. Recommendations as to appropriate planning actions necessary for evaluation, prevention and control of radioactive contamination of foods, drugs, and animal feeds.

3. Collaboration with EPA in the determination of radiation exposure levels related to the health and safety of ambulance services and hospital personnel.

4. Cooperation with AEC in establishing radiation detection and measurement systems for ambulance services and hospital emergency departments.

The Defense Civil Preparedness Agency will be responsible for:

1. Assistance to State and local authorities in planning the general emergency preparedness actions required in response to nuclear incidents, consistent with AEC guidance.

2. Recommendations and guidance on the use of the civil defense radiological monitoring system.

The Office of Emergency Preparedness will exercise general monitorship of Federal nuclear planning activities. This will include:

1. Review and endorsement of AEC policy directives to other Federal agencies and policy guidance to States.

2. Assistance in resolving Federal interagency or Federal-State problems when necessary to the fulfillment of AEC's assigned mission.

3. Encouragement of States to produce nuclear incident plans as part of their general State emergency planning.

4. Assistance to AEC in developing priorities among those areas where nuclear incident planning is required.

5. Facilitating State and local contacts for AEC.

Other Federal agencies will be involved in specific instances of nuclear incident planning participation and assistance in accordance with their basic responsibilities and functions. Details of such participation as part of the coordinated Federal effort will be a development of each localized planning activity.

Dated: January 17, 1973.

G. A. LINCOLN, *Director,*
Office of Emergency Preparedness.

[Files Nos. 2–45160, 22–7275]

J. RAY McDERMOTT & CO., INC.

Notice of Application and Opportunity for Hearing

JANUARY 17, 1973.

Notice is hereby given that J. Ray McDermott & Co., Inc. (the Company) has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the Act) for a finding by the Commission that the trusteeship of First National City Bank (FNCB) under an Indenture dated as of August 15, 1972 (the August 1972 Indenture), heretofore qualified under the Act, and under an Indenture dated as of October 16, 1972 (the October 1972 Indenture), not qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify FNCB from acting as trustee under both Indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in the Act), it shall within 90 days after ascertaining that it has such conflicting interest either eliminate such conflicting interest or resign. Subsection (1) of such section provides in effect, with certain exceptions, that a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of such issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under the indentures is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under both Indentures.

The Company alleges that:

(1) The Company has issued and outstanding $60 million principal amount of its 4¼ percent Convertible Subordinated Debentures due August 15, 1997 issued under an indenture dated as of August 15, 1972 (the August 1972 Debentures) between the Company and FNCB, which has been qualified under the Act and $30 million principal amount of its 4¾ percent Convertible Subordinated Debentures due 1987 issued under an indenture dated as of October 16, 1972 (the October 1972 Debentures). The October 1972 Debentures were sold outside the United States and the October 1972 Indenture is not qualified under the Act.

(2) The August 1972 and October 1972 Indentures are wholly unsecured. All Debentures issued and outstanding under said Indentures rank on a parity with each other. The Company is not in default under either of said Indentures. Except for differences as to amounts, interest rates, maturity dates, dates and places of payment of principal, premium and interest, redemption dates, redemption procedures, redemption prices and conversion prices, the Indentures are with certain exceptions substantially identical. These, among others, are exceptions.

(a) The October 1972 Debentures contain interest equalization tax notices which are not contained in the August 1972 Debentures.

(b) The October 1972 Indenture contains a provision permitting the Company to redeem the October 1972 Debentures, without premium, if the Company determines that it would otherwise be required to make additional interest payments as a result of changes in certain United States tax laws (section 4.01 and form of Debenture). No such provision is contained in the August 1972 Indenture.

(c) The October 1972 Indenture provides for the payment of additional interest to insulate holders of the October 1972 Debentures from certain United States taxes in certain cases (section 6.03). No such provision is contained in the August 1972 Indenture.

(d) The October 1972 Indenture contains a covenant that the Company will maintain its United States citizenship within the meaning of section 2 of the Shipping Act of 1916, as amended, sections 37 and 38 of the Merchant Marine Act, 1920 and section 905(c) of the Merchant Marine Act, 1936, as amended (section 6.12). No such provision is contained in the August 1972 Indenture.

(e) Each of the August 1972 and October 1972 Indentures contains a provision which, in effect, makes a default in the payment of interest, principal or premium, if any, or in making a sinking fund or redemption payment which results in the acceleration of the maturity of the Debentures under one such Indenture an Event of Default under the other Indenture.

(3) Such differences as exist between the August 1972 Indenture and the October 1972 Indenture are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify FNCB from acting as trustee under both Indentures.

(4) The Company has waived notice of hearing and hearing in connection with this matter.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the Office of the Commission, at 500 North Capitol Street, Washington DC 20549.

Notice is further given that any interested person may, not later than February 6, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary Securities and Exchange Commission, 500 North Capitol Street NW., Washington, DC 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

JERSEY CENTRAL POWER & LIGHT CO.

Notice of Proposed Issue and Sale of Debentures at Competitive Bidding

JANUARY 17, 1973.

Notice is hereby given that Jersey Central Power & Light Co. (Jersey Central), Madison Avenue at Punch Bowl

V38-16 JAN 24 73 XUM

Road, Morristown, NJ 07960, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Jersey Central proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $30,000,000 principal amount of Debentures — percent Series due 1998. The interest rate (which will be a multiple of ⅛ of 1 percent) and the price (which will be not less than 100 percent nor more than 102.75 percent of the principal amount thereof plus accrued interest from March 1, 1973, to the date of delivery) will be determined by the competitive bidding. The debentures will be issued under the Indenture, dated as of October 1, 1963, of Jersey Central to Irving Trust Co., Trustee, as heretofore supplemented and as to be further supplemented by a Fifth Supplemental Indenture to be dated as of March 1, 1973, and which includes, subject to certain exceptions, a prohibition until March 1, 1978, against refunding the issue with proceeds of funds borrowed at a lower interest cost.

The entire proceeds, excluding premium and accrued interest, realized from the sale of the new debentures ($30,000,000) will be used to prepay a portion of Jersey Central's short-term bank loans of which approximately $55,000,000 is expected to be outstanding at the date of such sale. The proceeds of the bank loans which are thus to be prepaid have been or will be used for construction purposes or to reimburse Jersey Central's treasury for expenditures therefrom for construction purposes. Premium resulting from the sale of the debentures will be used for financing the business of Jersey Central, including the payment of expenses in effecting the sale of the debentures. The estimated cost of Jersey Central's 1973 construction program is approximately $187,000,000.

It is stated that the fees and expenses to be paid by Jersey Central in connection with the issue and sale of debentures and the fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment.

It is further stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed issue and sale of debentures by Jersey Central and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 14, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended, or as it may be further amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[File No. 500-1]

PELOREX CORP.

Order Suspending Trading

JANUARY 16, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.10 par value, and all other securities of Pelorex Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from 12 noon e.s.t., on January 16, 1973 through January 25, 1973.

By the Commission.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30, Region VIII; Amdt. 1]

REGIONAL DIRECTOR ET AL.

Delegation of Authority to Conduct Program Activities in Region VIII

Delegation of Authority No. 30, Region VIII (37 FR 17620), is hereby amended by revising Parts II and VIII in their entirety and by amending Section A–3 and Sections B–1 and B–3 of Part I.

PART I—FINANCING PROGRAM

SECTION A. *Loan approval authority*

* * * * *

3. *Displaced Business and Other Economic Injury Loans.* a. To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

(1) Regional Director	$1,000,000
(2) Chief and Assistant Chief, Regional Financing Division	350,000

b. To approve or decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA share):

(1) Regional Supervisory Loan Officer	$50,000
(2) District Director	350,000
(3) Chief, District Financing Division	350,000

SEC. B. Other financing authority. 1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loan participation agreements with banks:

(1) Regional Director.
(2) Chief and Assistant Chief, Regional Financing Division.
(3) Regional Supervisory Loan Officer.
(4) District Director.
(5) Chief, District Financing Division.

* * * * *

3. *Cancel, reinstate, modify, and amend authorizations.* a. To cancel, reinstate, modify, and amend authorizations

for all loans, i.e., business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loans:

(1) Regional Director.
(2) Chief and Assistant Chief, Regional Financing Division.
(3) Regional Supervisory Loan Officer.
(4) District Director.
(5) Chief, District Financing Division.

* * * * *

b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, coal mine health and safety loans, and strategic arms limitation economic injury loans:

(1) District Director.
(2) Chief and Assistant Chief, Regional Financing Division.
(3) Regional Supervisory Loan Officer.
(4) Chief, District Financing Division.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational safety and health loans personally approved under delegated authority and strategic arms limitation economic injury loans:

(1) None.

* * * * *

PART II—DISASTER PROGRAM

SEC. A. *Disaster loan authority.* 1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of

(1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and

(2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan.

(1) Chief, Regional Financing Division.
(2) Assistant Chief, Regional Financing Division.
(3) District Director.
(4) Chief, District Financing Division.
(5) Branch Manager.
(6) Disaster Branch Manager, as assigned.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health, and safety, occupational safety and health, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000:

(1) Regional Supervisory Loan Officer.
(2) Supervisory Loan Officer, Rapid City Branch Office only.
(3) Supervisory Loan Officer, Disaster Branch Office as assigned.

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

(1) Regional Director	$1,000,000
(2) Chief, Regional Financing Division	350,000
(3) Assistant Chief, Reg. Financing Division	350,000
(4) District Director	350,000
(5) Chief, District Financing Division	350,000
(6) Branch Manager	350,000
(7) Disaster Branch Manager as assigned	350,000
(8) Supervisory Loan Officer (Regional)	50,000
(9) Supervisory L/O, Branch Office	50,000
(10) Supervisory L/O, Disaster Branch Office as assigned	50,000

4. To appoint as a processing representative any bank in the disaster area:

(1) District Director.
(2) Branch Manager.
(3) Disaster Branch Manager, as assigned.

(5) To approve or reject the request of an applicant to file for a disaster loan after the period for acceptance under the original disaster declaration, or extension thereof, has expired.

(1) District Director.

SEC. B. *Administrative authority.* 1. *Establishment of Disaster Field Offices.* (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (2) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

(1) Chief, Regional Administrative Division.
(2) District Director.
(3) Manager, Disaster Branch Office as assigned.

2. *Purchase and Contract Authority.* (a) To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in Section 257 (a) and (b) of that Chapter.

(1) Chief, Regional Administrative Division.
(2) Regional Office Service Manager.
(3) District Director.
(4) District Administrative Officer/Administrative Clerk.
(5) Manager, Disaster Branch Office, as assigned.

(b) To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in Section 257 (a) and (b) of that Chapter.

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Manager.
(3) District Director.
(4) District Administrative Officer/Administrative Clerk.
(5) Manager, Disaster Branch Office, as assigned.

* * * * *

PART VIII—ADMINISTRATIVE

SECTION A.—*Authority to purchase, or contract for equipment, services, and supplies.* 1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. Attorneys in foreclosure cases:

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Manager.
(3) District Director.
(4) District Administrative Officer/Administrative Clerk.
(5) Branch Manager.
(6) Administrative Officer, Branch Office.

2. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to chapter 4 of title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Manager.
(3) District Director.
(4) District Administrative Officer/Administrative Clerk.
(5) Branch Manager.
(6) Administrative Officer, Branch Office.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration.

(1) Chief, Regional Administrative Division.
(2) Regional Office Services Manager.
(3) District Director.
(4) District Administrative Officer/Administrative Clerk.
(5) Branch Manager.
(6) Administrative Officer, Branch Office.

Effective dates: Parts II and VIII—July 1, 1972; Part I, Section A–3 and sections B–1 and B–3—Sept. 28, 1972.

TARIFF COMMISSION

[337-32]

CYLINDER BORING MACHINES AND BORING BARS AND COMPONENTS THEREOF

Notice of Investigation and Scope of Investigation

A complaint was filed with the Tariff Commission on May 8, 1972, on behalf of Rottler Boring Bar Co. of Seattle, Wash., alleging unfair methods of competition and unfair acts in the importation and sale of certain cylinder boring machines and boring bars which are embraced within the claims of U.S. Patents Nos. 3,260,136 and 3,273,423. The complainant alleges that the effect or tendency of the unfair methods or acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States in violation of the provisions of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337). Peterson Machine Tool, Inc., 5425 Antioch Drive, Merrian, KS, has been named as an importer of the subject products. Having conducted, in accordance with § 203.3 of the Commission's Rules of Practice and Procedure (19 CFR 203.3), a preliminary inquiry with respect to the matters alleged in the said complaint, the U.S. Tariff Commission, on January 16, 1973, ordered:

That, for the purposes of section 337 of the Tariff Act of 1930, an investigation is instituted with respect to the alleged violations in the importation and sale in the United States of cylinder boring machines and boring bars made in accordance with the claims of U.S. Patents Nos. 3,260,136 and 3,273,423 and compounds thereof.

The Commission decided not to recommend at this time that the President issue a temporary exclusion order.

A public hearing will be held; the date, time, and place of such hearing will be announced by notice of the Commission at a later date.

Public notice of the receipt of the complaint was published in the FEDERAL REGISTER for June 14, 1973 (37 FR 11811), and the complaint was served upon the parties named in the complaint and upon all known interested parties. The complaint has been available for inspection by interested persons continually since issuance of the notice, at the Office of the Secretary, located in the Tariff Commission Building, and also in the New York City office of the Commission, located in Room 437 of the Customhouse.

Issued: January 18, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[TEA-I-26]

MEN'S AND BOYS' NECKTIES

Discontinuance of Investigation

Notice is hereby given that the U.S. Tariff Commission, on January 18, 1973, discontinued investigation No. TEA-I-26, and canceled the public hearing scheduled in connection therewith. The investigation was instituted on November 3, 1972, upon petition of the Men's Tie Foundation, Inc., an industry trade association, under section 301(b)(1) of the Trade Expansion Act of 1962.

The investigation was discontinued, without prejudice, at the request of the petitioner.

Issued: January 18, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[TEA-W-174]

IMPERIAL COTTON MILLS

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of Imperial Cotton Mills, Eatonton, Ga., the U.S. Tariff Commission, on January 18, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with carded cotton yarns and woven fabrics of carded cotton yarns of the types provided for in items 301.01 to 301.39, inclusive, and 320.01 to 320.39, inclusive, of the Tariff Schedules of the United States) produced by Imperial Cotton Mills and/or by the Cannon Mills Co., Kannapolis, N.C., are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before February 5, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: January 18, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

NEW YORK DEVELOPMENTAL PLAN

Notice of Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 677) and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an Occupational Safety and Health Plan for the State of New York has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary has preliminarily reviewed the Plan, and hereby gives notice that the question of approval of the plan is in issue before him.

The plan designates the Department of Labor as the agency responsible for administering the plan throughout the State. The plan will provide for coverage of issues on an industrial ("vertical") basis and will apply to all industries under the purview of the Occupational Safety and Health Act of 1970 except marine cargo handling and shipbuilding and repairing. Establishments with respect to which other Federal agencies exercise statutory authority also will not be covered.

Implementation of the plan is dependent upon enactment of a bill entitled "An Act to amend the labor law, in relation to safety and health standards, and repealing certain provisions relating thereto." This bill will be introduced in the 1973 session of the New York Legislature and passage is anticipated by April 1973. The bill is designed to provide for the establishment of a safety and health program which will meet the requirements of the Act. The proposed legislation is accompanied by an opinion of the counsel to the Industrial Commissioner that the bill meets the requirements of the Act and regulations issued thereunder, and is not violative of the spirit, intent and purpose of the New York State Constitution.

Within the proposed legislation are provisions relating to the authority of the Industrial Commissioner to inspect workplaces including inspections in response to employee complaints with employees having the right to request an informal review of any refusal to issue a citation based on the alleged violation; the right of representatives of the employer and the employees to consult with and accompany inspectors during inspection; and a prohibition against advance notice of such inspections. Employers are given the right of review of such alleged violations before the Board of Standards and Appeals, and employees will be given an opportunity to participate in the review proceedings.

The legislation also includes provisions relating to the granting of variances by the Board of Standards and Appeals and the review of variations to State standards granted prior to the effective date of the plan. Other provisions include: the prompt restraint of imminent dangers; the requirement of recordkeeping and reporting by employers; the protection of employees exposed to toxic materials or harmful physical agents; the protection of employees against new and unforeseen hazards; and the safeguarding of trade secrets.

Within the meaning of 29 CFR 1902.2(b), the plan is developmental. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902. Also accompanying the plan are appendices containing, among other items, a description of the organization, staffing and funding of the plan and a listing of the State's standards.

2. *Location of Plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations; Office of Federal and State Operation, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street, NW., Washington, DC, 20210; Regional Administrator, Occupational Safety and Health Administration, Rm. 3445, 1515 Broadway, New York, NY 10036; and the New York State Department of Labor in Room 579, Building No. 12, State Office Building Campus, Albany, NY 12201 and Room 616B, 80 Centre Street, New York, NY 10013.

3. *Public participation.* Interested persons are hereby given until February 22, 1973, in which to submit to the Assistant Secretary written data, views, and arguments concerning the plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305, Railway Labor Building, 400 First Street NW., Washington DC 20010. The comments will be available for public inspection and copying at the above addresses.

Any interested person(s) may request an informal hearing concerning the proposed plan, or any part thereof whenever particularized written objections thereto are filed by February 22, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or an informal hearing on the subjects and issues involved.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the plan.

Signed at Washington, D.C. this 18th day of January 1973.

G. C. GUENTHER,
Assistant Secretary of Labor.

Office of the Secretary

MASSACHUSETTS

Notice of Availability of Extended Unemployment Compensation

Section 501 of Public Law 92-599 permits a State to provide by law that notwithstanding a State "off" indicator ending an extended benefit period because the rate of insured unemployment is less than 120 percent of the average of the rates for the corresponding periods in the 2 preceding years, the extended benefit period shall continue until the third week after the first week for which there is a State "off" indicator determined under paragraph 1(B) of section 203(e) of Public Law 91-373 and extended benefits may be paid to eligible individuals for weeks of unemployment beginning after October 27, 1972, and before July 1, 1973.

The Commonwealth of Massachusetts has so provided. Accordingly Mr. Richard C. Gilliland, Director, Division of Employment Security, Commonwealth of Massachusetts, has determined that there is an extended benefit period in Massachusetts and extended benefits are available to individuals eligible therefor beginning with the week ending November 4, 1972, and continuing through the last week which begins before July 1, 1973, or the third week after the first week in which the rate of insured unemployment in the State falls below 4 percent, whichever occurs first.

Signed at Washington, D.C., this 18th day of January 1973.

J. D. HODGSON,
Secretary of Labor.

NEW JERSEY

Notice of Availability of Extended Unemployment Compensation

Section 501 of Public Law 92-599 permits a State to provide by law that notwithstanding a State "off" indicator ending an extended benefit period because the rate of insured unemployment is less than 120 percent of the average of the rates for the corresponding periods in the 2 preceding years, the extended benefit period shall continue until the third week after the first week for which there is a State "off" indicator determined under paragraph 1(B) of section 203(e) of Public Law 91-373 and extended benefits may be paid to eligible individuals for weeks of unemployment beginning after October 27, 1972, and before July 1, 1973.

The State of New Jersey has so provided. Accordingly Mr. Ronald M. Heymann, Commissioner, Department of Labor and Industry, State of New Jersey, has determined that there is an extended benefit period in New Jersey and extended benefits are available to individuals eligible therefor beginning with the week ending Nobember 4, 1972, and continuing through the last week which begins before July 1, 1973, or the third week after the first week in which the rate of insured unemployment in the State falls below 4 percent, whichever occurs first.

Signed at Washington, D.C., this 18th day of January, 1973.

J. D. HODGSON,
Secretary of Labor.

RHODE ISLAND

Notice of Availability of Extended Unemployment Compensation

Section 501 of Public Law 92-599 permits a State to provide by law that notwithstanding a State "off" indicator ending an extended benefit period because the rate of insured unemployment is less than 120 percent of the average of the rates for the corresponding periods in the 2 preceding years, the extended benefit period shall continue until the third week after the first week for which there is a State "off" indicator determined under paragraph 1(B) of section 203(e) of Public Law 91-373 and extended benefits may be paid to eligible individuals for weeks of unemployment beginning after October 27, 1972, and before July 1, 1973.

The State of Rhode Island has so provided. Accordingly Mary C. Hackett, Director, Department of Employment Security, State of Rhode Island, has determined that there is an extended benefit period in Rhode Island and extended benefits are available to individuals eligible therefor beginning with the week ending November 4, 1972, and continuing through the last week which begins before July 1, 1973, or the third week after the first week in which the rate of insured unemployment in the State falls below 4 percent, whichever occurs first.

Signed at Washington, D.C., this 18th day of January 1973.

J. D. HODGSON,
Secretary of Labor.

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 18, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of the application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 8, 1973. FSA No. 42606—*Grain and Related Articles to Point Comfort, Tex.* Filed by Southwestern Freight Bureau, Agent, (No. B-377), for interested rail carriers. Rates on grain, grain products and related articles, in packages, in carloads, for export, as described in the application, from various points in southwestern Texas-Louisiana and western trunk line territories, to Port Comfort, Tex.

Grounds for relief—Rate relationship.

Tariffs—Supplement 8 to Missouri Pacific Railroad Co. tariff I.C.C. 518, and supplement 38 to Texas-Louisiana Freight Bureau, Agent, tariff ICC. 1137. Rates are published to become effective on February 20, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 197]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 13, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74121. By order entered January 3, 1973, the Motor Carrier Board approved the transfer to Inland Trucking Service Co., Streator, Ill., of that portion of the operating rights set forth in Certificate No. MC-119577, issued November 27, 1964, as corrected January 13, 1965, to Ottawa Cartage Inc., Ottawa, Ill., authorizing the transportation of brick and tile from Lowell, Ottawa, St. Anne, and Streator, Ill., and Crawfordsville and Hobart, Ind., to Covington, Ky., Cincinnati, Ohio, and points in Illinois, Indiana, Iowa, and Wisconsin, and those in that part of Misouri within 50 miles of the Illinois-Missouri State line; from Ottawa, Ill., to points in Ohio (except Cincinnati); from Springfield, Ill., to St. Louis, Mo. and points in St. Louis County, Mo.; and from Brazil, Ind., to Springfield, Ill. Robert H. Levy, 29 South La Salle Street, Chicago, IL 60603, attorney for applicants.

No. MC-FC-74134. By order of January 4, 1973, the Motor Carrier Board approved the transfer to Movers Mart, Inc., Wakefield, Mass., of the operating rights in Certificate No. MC-1845 issued December 8, 1969 to Jopa, Inc., Lexington, Mass., authorizing the transportation of household goods between points in Middlesex County, Mass., on the one hand, and, on the other points in Connecticut, New Hampshire, Vermont, Rhode Island, New York, Maine, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia, and between Boston, Mass., on the one hand, and, on the other, points in Maine, New Jersey, Pennsylvania, Maryland, Delaware, and the District of Columbia. Frank J. Weiner, 15 Court Square, Boston, MA 02108, attorney for applicants.

No. MC-FC-74156. By order entered January 2, 1973, the Motor Carrier Board approved the transfer to Ross T. Smith & Son Embro Ltd., Embro, Ontario, Canada, of the operating rights set forth in Certificate No. MC-135475, issued April 17, 1972, to Ross T. Smith, doing business as Zorra Highland Bus Line, Embro, Ontario, Canada, authorizing the transportation of passengers, in round-trip special and charter operations, in sightseeing and pleasure tours, beginning and ending at ports of entry on the United States-Canada boundary line and extending to points in the United States (including Alaska but excluding Hawaii). S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005, attorney for applicants.

No. MC-FC-74161. By order entered January 4, 1973, the Motor Carrier Board approved the transfer to Bessette Transport Inc., St. Philippe, Laprairie, Quebec, Canada, of the operating rights set forth in Certificates Nos. MC-126603, MC-126603 (Sub-No. 2), and MC-126603 (Sub-No. 4), issued by the Commission September 28, 1965, May 2, 1969, and January 27, 1970, respectively, to R. Menard Transport Ltd., St. Philippe, Laprairie, Quebec, Canada, authorizing the transportation of baled cotton rags, from points in the New York, N.Y. commercial zone, Roselle Park, Passaic, and Jersey City, N.J., Lawrence, Worcester, Boston, and Framingham, Mass., and Baltimore, Md., to the ports of entry on the United States-Canada boundary line located at or near Rouses Point, N.Y., and Morses Line and Highgate Springs, Vt.; lumber, from specified ports of entry on the United States-Canada boundary line in New York, Vermont, and Maine, to points in Maine, Vermont, Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, and Delaware; and lumber from the port of entry on the United States-Canada boundary line located at or near Champlain, N.Y., to points in Virginia, West Virginia, North Carolina, and South Carolina. John J. Brady, Jr., 75 State Street, Albany, N.Y. 12207, attorney for applicants.

No. MC-FC-74171. By order entered January 2, 1973, the Motor Carrier Board approved the transfer to Schultz Express Co., Inc., West New York, N.J., of the operating rights set forth in Certificate No. MC-1377, issued June 14, 1956, to Harry O. Zimmerly, Jr. and Irvin C. Zimmerly, doing business as Zimmerly's Express, North Bergen, N.J., authorizing the transportation of cotton piece goods, corsets, elastic goods, silk, and rayon used in the manufacture of ties, and embroideries, between New York, N.Y., on the one hand, and, on the other, North Bergen, Paterson, Ridgefield Park, Passaic, Newark, Jersey City, Hackensack, Lodi, Garfield, Clifton, Carlstadt, Rutherford, Lyndhurst, Kearny, Harrison, Union City, West New York, and Guttenburg, N.J. George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306, representative for applicants.

[Notice 6]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 17, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Sub-No. 427 TA), filed January 8, 1973. Applicant: ROADWAY EXPRESS, INC., Post Office Box 471, 1077 Gorge Boulevard, Akron, OH 44309. Applicant's representative: James W. Conner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the facilities of the Black & Decker Manufacturing Co., at or near Hampstead, Md., as an off-route point, for 180 days. NOTE: Applicant will tack with lead certificate MC-2202 and all subs thereto, and will effect interchange at all points served. Supporting shipper: The Black & Decker Manufacturing Co., Towson, Md. 21204. Send protests to: Franklin D. Bail, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 2860 (Sub-No. 121 TA), filed January 2, 1973. Applicant: NATIONAL FREIGHT, INC., 57 West Park Avenue, Vineland, NJ 08360. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty glass containers*, from Parkersburg, W. Va., to points in Illinois, Indiana, Kentucky, Michigan, New Jersey, New York, Ohio, Pennsylvania, and West Virginia, for 180 days. NOTE: Applicant states it does intend to tack with the authority in MC 2860. Supporting shipper: Universal Glass Products Co, c/o National Bottle Corp., One Decker Square, Bala Cynwyd, PA 19004. Send protests to: Richard M. Regan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 428 East State Street, Room 204, Trenton, NJ 08608.

No. MC 5227 (Sub-No. 4 TA), filed January 9, 1973. Applicant: ECONOMY MOVERS, INC., Post Office Box 201, Mead, NE 68041. Applicant's representative: Gailyn L. Larson, Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements, fertilizer applicators, water systems, windmills and towers, and parts related thereto*, from Beatrice, Nebr., to points in Missouri, Iowa, South Dakota, North Dakota, Minnesota, Kansas, Oklahoma, Texas, Arkansas, Louisiana, Indiana, Wisconsin, Illinois, and Ohio, for 180 days. Supporting shipper: John Hubbard, Traffic Manager, Dempster Industries, Inc., Box 848, Beatrice, NE 68310. Send protests to: Max H. Johnston, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 320 Federal Building and Court House, Lincoln, NE 68508.

No. MC 109677 (Sub-No. 43 TA), filed January 10, 1973. Applicant: FORT EDWARD EXPRESS CO., INC., Route 9, Saratoga Road, Fort Edward, NY 12828. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Rensselaer, N.Y., to Chester, Mass., for 150 days. Supporting shipper: Shell Oil Co., Houston, Tex. Send protests to: Joseph M. Barnini, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 New Federal Building, Albany, NY 12207.

No. MC 112963 (Sub-No. 33 TA), filed January 8, 1973. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, MA 01866. Applicant's representative: Leonard E. Murphy (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid latex*, in bulk, in tank vehicles, from Boston, Mass., to Cranford, Kearney, Newark, and Vernon (Sussex County), N.J., for 180 days. Supporting shipper: Interpolymer Corp., 850 Parker Street, Boston, MA 02120. Send protests to: G. Warren Flynn, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 150 Causeway Street, Boston, MA 02114.

No. MC 115331 (Sub-No. 338 TA), filed January 8, 1973. Applicant: TRUCK TRANSPORT INCORPORATED, 1931 North Geyer Road, St. Louis, MO 63131. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid feed, liquid feed supplements*, in bulk; and (2) *molasses*, in bulk, from plantsite of Cargill, Inc., located in Scott County, Iowa, to points in Illinois and Indiana, and points in Missouri on and north of Interstate Highway 44, in Minnesota on and south of U.S. Highway 12, and in Wisconsin on and south of U.S. Highway 8, and (2) points in Illinois and in Wisconsin on and south of U.S. Highway 8, for 150 days. Supporting shipper: Cargill Molasses Department Commodity Marketing Division, Cargill Building, Minneapolis, Minn. 55402. Send protests to: District Supervisor J. P. Werthmann, Bureau of Operations, Interstate Commerce Commission, Room 1465, 210 North 12th Street, St. Louis, MO 63101.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38-16 JAN 24 73 XUM

No. MC 116280 (Sub-No. 14 TA), filed January 4, 1973. Applicant: W. C. MCQUAIDE, INC., 153 Macridge Avenue, Johnstown, PA 15904. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper forms*, plain or ruled, from Fredericksburg, Va., to Sidman, Pa., and from Sidman, Pa., to points in Pennsylvania, for 180 days. Supporting shipper: Moore Business Forms, Inc., 900 Buffalo Avenue, Niagara Falls, NY 14302. Send protests to: District Supervisor James C. Donaldson, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222.

No. MC 123744 (Sub-No. 9 TA), filed January 5, 1973. Applicant: BUTLER TRUCKING COMPANY, Post Office Box 88, Woodland, PA 16881. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Supporting shipper: Kaiser Aluminum & Chemical Corp., Post Office Box 47, Columbiana, OH 44408. Send protests to: District Supervisor James C. Donaldson, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, Pittsburgh, PA 15222.

No. MC 125747 (Sub-No. 6 TA), filed January 9, 1973. Applicant: ARNOLD SCHMITZ, INC., 1724 East Pioneer Road, Fond du Lac, WI 54935. Applicant's representative: William J. Nuss, 104 South Main Street, Fond du Lac, WI 54935. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fruit-based beverage and fruit-based concentrates* for Home Juice Co., from West Allis, Wis., to points in Menominee and Dickinson Counties, Mich., including delivery or pickup of shipper's products at stations between said points and return movement of shipper's products to West Allis, Wis., including delivery or pickup at shipper's stations between said points, for 180 days. NOTE: Applicant states it does intend to tack with the authority in MC 125747. Supporting shipper: Home Juice Co., 15th and Bloomingdale Avenues, Melrose Park, IL 60160 (R. H. Baxter, Vice President). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 125777 (Sub-No. 140 TA), filed January 8, 1973. Applicant: JACK GRAY TRANSPORT, INC., 4600 East 15th Avenue, Gary, IN 46403. Applicant's representative: J. S. Gray (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium Chloride*, in bulk, in dump vehicles, from the plantsite and facilities of Michigan Chemical Corp., at St. Louis, Mich., to South Holland and Dolton, Ill., for 180 days. Supporting shipper: Michigan Chemical Corp., St. Louis, Mich. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne St., Room 204, Fort Wayne, IN 46802.

No. MC 133276 (Sub-No. 8 TA), filed January 8, 1973. Applicant: BERRY TRANSPORT, INC., 5315 Northwest St. Helens Road, Portland, OR 97210. Applicant's representative: Nick I. Goyak, Six Ten Southwest Alder St., 404 Oregon National Building, Portland, OR. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, and *chemical fertilizers*, in sacks, from Vancouver, Wash., to points in Oregon, for 180 days. Supporting shipper: Pacific Supply Cooperative, 915 Northeast Davis Street, Post Office Box 3588, Portland, OR 97208. Send protests to: District Supervisor W. J. Huetig, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 134405 (Sub-No. 8 TA), filed December 29, 1972. Applicant: BACON TRANSPORT COMPANY, Post Office Box 1134, Ardmore, OK 73401. Applicant's representative: O. G. Bacon (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oil*, from Wynnewood, Okla., to points in Texas, for 180 days. Supporting shipper: W. T. Robinson, Manager, Lone Star Producing Co., 301 South Harwood Street, Dallas, TX 75201. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 240 Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

No. MC 134405 (Sub-No. 9 TA), filed January 8, 1973. Applicant: BACON TRANSPORT COMPANY, Post Office Box 1134, Ardmore, OK 73401. Applicant's representative: O. G. Bacon, III (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid asphalt*, from Ponca City and Enid, Okla., to points in Texas, for 180 days. Supporting shipper: Riffe Petroleum Co., Homer Riffe, Executive Vice President, Philtower Building, Tulsa, Okla. 74103. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 240, Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

No. MC 134599 (Sub-No. 66 TA), filed January 9, 1973. Applicant: INTERSTATE CONTRACT CARRIER CORPORATION, Office: 265 West 27th South, Mailing: Post Office Box 748, 84110, Salt Lake City, UT 84115. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Playground apparatus, laundry clothesline poles, bar stools, and toys*, from the plantsite of Turco Manufacturing Co., at Du Quoin, Ill., to points in the United States (except Hawaii and Alaska), for 180 days. Supporting shipper: Turco Manufacturing Co., 501 South Line, Du Quoin, IL 62832 (Robert E. Feigenbaum, President). Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 125 South State Street, 5239 Federal Building, Salt Lake City, UT 84111.

No. MC 135032 (Sub-No. 4 TA), filed January 8, 1973. Applicant: HIAWATHA PRODUCE COMPANY, 3850–Fourth Street, Winona, MN 55987. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, from points in Minnesota (except Browerville and Alexandria), to points in Illinois (except Chicago), and St. Louis, Mo., and its commercial zone, for 180 days. Supporting shipper: Land O'Lakes, Inc., Post Office Box 116, Minneapolis, MN 55440. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 135725 (Sub-No. 8 TA), filed January 8, 1973. Applicant: FRY TRUCKING, INC., 507 West Fifth Street, Wilton Junction, IA 52778. Applicant's representative: Kenneth F. Dudley, Post Office Box 279, Ottumwa, IA 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed*, in packages, from Minneapolis, Minn., to points in Alabama, Georgia, Iowa, Louisiana, Maryland, Mississippi, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin, for 180 days. Supporting shipper: National Vitamin Products Co., 3401 Hiawatha Avenue, Minneapolis, MN 55406. Send protests to: Herbert W. Allen, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 875 Federal Building, Des Moines, IA 50309.

By the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 19, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

NO. MC–29910 (Deviation No. 20), ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, AR 72901, filed January 8, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions over a deviation route as follows: From Louisville, Ky., over U.S. Highway 150 to junction U.S. Highway 50, thence over U.S. Highway 50 to St Louis, Mo., and return over the same route, restricted to the transportation of traffic moving from, to, and through all intermediate and off-route points in that part of Georgia an and north of a line beginning at the Alabama-Georgia State line and extending along Georgia Highway 20 to junction U.S. Highway 41, thence along U.S. Highway 41 to Atlanta, Ga., thence along U.S. Highway 29 to Athens, Ga., thence along U.S.. Highway 78 to the Georgia-South Carolina State line, or Wilmington, N.C., Lowland, Tenn., or points in that part of North Carolina on and west of U.S. Highway 1 or points in South Carolina. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Atlanta, Ga., over U.S. Highway 41 to Chattanooga, Tenn. (also from Atlanta over Interstate Highway 75 to Chattanooga, Tenn.), thence over U.S. Highway 41 to Nashville, Tenn., (also from Chattanooga over Interstate Highway 24 to Nashville), thence over U.S. Highway 31–W to Louisville, Ky. (also over Interstate Highway 65 to Louisville), thence over Interstate Highway 65 to Indianapolis, Ind., restricted to the transportation of traffic moving from, to and through Georgia points (a) all intermediate and off-route points in that part of Georgia on and north of a line beginning at the Alabama-Georgia State line and extending along Georgia Highway 20 to junction U.S. Highway 41, thence along U.S. Highway 41 to Atlanta, Ga., thence along U.S. Highway 29 to Athens, Ga., thence along U.S. Highway 78 to the Georgia-South Carolina State line or Wilmington, N.C., Lowland, Tenn., or points in that part of North Carolina on and west of U.S. Highway 1 or points in South Carolina, and (2) from Akron, Ohio, over Ohio Highway 5 to Wooster, Ohio, thence over Ohio Highway 3 to Mount Vernon, Ohio, thence over Ohio Highway 13 to Newark, Ohio, thence over Ohio Highway 16 to Columbus, Ohio, thence over Ohio Highway 440 to junction U.S. Highway 40, thence over U.S. Highway 40 to St. Louis, Mo. (also from Brandt, Ohio, over Ohio Highway 201 to Dayton, Ohio, thence over Ohio Highway 49 to junction U.S. Highway 40, thence over U.S. Highway 40 to St. Louis), thence over U.S. Highway 66 via Carthage, Mo., to Afton, Okla. (also from Carthage over U.S. Highway 71 to junction Interstate Highway 44, thence over Interstate Highway 44 to Joplin, Mo., thence over Missouri Highway 43 to junction U.S. Highway 60, thence over U.S. Highway 60 to Afton), thence over U.S. Highway 66 to Tulsa, Okla., and return over the same routes.

No. MC–71459 (Deviation No. 4), O. N. C. FREIGHT SYSTEMS, 2800 West Bayshore Road, Palo Alto, CA 94303, filed January 11, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Page, Ariz., over U.S. Highway 89 to junction Alternate U.S. Highway 89, thence over Alternate U.S. Highway 89 to Fredonia, Ariz., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Flagstaff, Ariz., over U.S. Highway 89 to Page, Ariz., and (2) from Bitter Springs, Ariz., over Alternate U.S. Highway 89 to Fredonia, Ariz., and return over the same routes.

No. MC–71459 (Deviation No. 5), O. N. C. FREIGHT SYSTEMS, 2800 West Bayshore Road, Palo Alto, CA 94303, filed January 11, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From San Bernardino, Calif., over Interstate Highway 15 to junction Interstate Highway 40 (U.S. Highway 66) at or near Barstow, Calif., thence over Interstate Highway 40 (U.S. Highway 66) to junction U.S. Highway 89, at or near Ashfork, Ariz., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Los Angeles Harbor, Calif., over Truck Boulevard to Los Angeles, Calif., thence over U.S. Highway 99 to Indio, Calif., thence over U.S. Highway 60 to Mesa, Ariz., thence over Arizona Highway 87 to junction Arizona Highway 84, thence over Arizona Highway 84 to Tucson, Ariz., and (2) from Wickenburg, Ariz., over U.S. Highway 89 to Flagstaff, Ariz., and return over the same routes.

By the Commission.

[Notice 2]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 19, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commissions's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before February 23, 1973.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC–1515 (Deviation No. 637), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, OH 44113, filed January 5, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express, and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Raleigh, N.C., over new U.S. Highway 64 to junction North Carolina Highway 55, northwest of Apex, N.C., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: from Raleigh, N.C., over old U.S. Highway 64 to junction old U.S. Highway 1, thence over U.S. Highway 1 to Apex,

V38-16 JAN 24 73 XUM

N.C., thence over North Carolina Highway 55 to junction U.S. Highway 64, and return over the same route.

No. MC–13300 (Deviation No. 28), CAROLINA COACH COMPANY, 1201 South Blount Street, Raleigh, NC 27602, filed January 5, 1973. Carrier's representative: Lawrence E. Lindeman, Suite 1032, Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express, and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Danville, Va., over U.S. Highway 29 to junction New U.S. Highway 29, thence over New U.S. Highway 29 (east of Reidsville, N.C.) to junction U.S. Highway 29, thence over U.S. Highway 29 to junction North Carolina Highway 150, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Danville, Va., over Virginia Highway 86 to the Virginia-North Carolina State line, thence over North Carolina Highway 86 to junction North Carolina Highway 1300, thence over North Carolina Highway 1300 to Casville, N.C., thence over North Carolina Highway 1155 to junction North Carolina Highway 1153, thence over North Carolina Highway 1153 to junction North Carolina Highway 150, thence over North Carolina Highway 150 to junction U.S. Highway 29, and return over the same route.

No. MC–28462 (Deviation No. 5), DENVER-COLORADO SPRINGS-PUEBLO MOTOR WAY, INC., 2450 Curtis Street, Denver, CO 80205, filed January 8, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express, and newspapers* in the same vehicle with passengers, over a deviation route as follows: Between Billings, Mont., and Hardin, Mont., over Interstate Highway 90, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Billings, Mont., over U.S. Highway 87 to Sheridan, Wyo., and return over the same route.

By the Commission.

[Notice 5]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 19, 1973.

The following publications[1] are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 42963 (Sub-No. 45) (Republication), filed April 21, 1972, published in the FEDERAL REGISTER, issue of May 25, 1972, and republished this issue. Applicant: DANIEL HAMM DRAYAGE COMPANY, a corporation, Second and Tyler Streets, St. Louis, MO 63102. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, MO 63101. A Report and Order of the Commission, Review Board Number 3, dated December 7, 1972, and served January 12, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *liquid printers' ink*, in shipper-supplied cargo tanks, from the facilities of the General Printing Ink Corp., at Overland, Mo., to points in the United States (except Alaska and Hawaii), and of *liquid printers' ink ingredients* in shipper-supplied cargo tanks, in the reverse direction; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 134496 (Sub-No. 3) (Republication), filed April 5, 1972, published in the FEDERAL REGISTER issue of May 4, 1972, and republished this issue. Applicant: A & B EXPRESS COMPANY, a corporation, 6314 Dewey Avenue, West New York, NJ 07093. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. An Order of the Commission, Operating Rights Board, dated December 20, 1972, and served January 10, 1973, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of wines and liquors (except in bulk), between New York, N.Y., and West New York and Kearny, N.J., on the one hand, and, on the other, points in New York, under a continuing contract with Monsielu Henry Wines, Ltd., of Brooklyn, N.Y., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

APPLICATIONS FOR FILING OF PETITIONS

No. MC 128375 (Sub-Nos. 1, 2, 4, 8, 10, 11, 20, 24, 25, 51, and 56) (Notice of Filing of Petition for Modification of Permits), filed between July 21, 1966, and October 12, 1970, and published in the FEDERAL REGISTER issues between September 20, 1967 and May 26, 1971. Petitioner: CRETE CARRIER CORPORATION, 1444 Main, Post Office Box 249, Crete, NE 68333. Petitioner's representative: Duane W. Acklie, Post Office Box 80806, Lincoln, NE 68501. NOTE: For Clarification purposes the petitioner seeks removal of the names of its contracting shippers: (1) Allen Products Co., Inc.; (2) Allen Products Co., Inc., of Allentown, Pa.; (3) Allen Products Co. of Nebraska, Inc., of Crete, Nebr.; (4) Allen Products Co., Inc., and its affiliates; and (5) Liggett & Myers, Inc., or Durham, N.C., from the above-numbered permits and in their place the petitioner requests the parent company's name of Liggett & Myers, Inc., of New York, N.Y., be inserted as the contracting shipper. Any interested person desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 129664 (Sub-No. 1) (Notice of Filing of Petition for Removal of Restriction), filed September 18, 1972. Petitioner: COMET MESSENGER AND DELIVERY SERVICE, INC., 277–283 Clinton Avenue, Newark, NJ 07108. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Petitioner presently holds a Certificate in No. MC 129664 (Sub-No. 1) issued December 3, 1970, authorizing service as follows: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), over irregular routes, (1) between New York, N.Y., on the one hand, and, on the other, Philadelphia, Pa., and points in New Jersey, and those in Orange and Rockland Counties, N.Y.; (2) between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey (except points in Camden, Salem, Cumberland, Burlington, and Atlantic Counties), and points in Orange, Rockland, Nassau, Suffolk, and Westchester Counties, N.Y.; (3) between Newark, N.J., on the one hand, and, on the other, points in New Jersey; and (4) between points in New Jersey, on the one hand, and, on the other, points in Rockland, Nassau, Orange, Westchester, and Suffolk Counties, N.Y., with all of the authority set forth in (1) through (4) above restricted against (a) the transportation of packages or articles weighing in the aggregate more than 25 pounds from one consignor to one consignee on any one day, and (b) the transportation of shipments having a prior or subsequent movement by air. By the instant petition, petitioner seeks removal of part (b) restricting transportation to shipments having a prior or subsequent movement by air. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before February 23, 1973.

APPLICATION FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 87855 (Sub-No. 3), filed January 4, 1973. Applicant: J. V. MOTOR LINES, INCORPORATED, 69 Thomas Street, East Hartford, CT 06108. Applicant's representative: Thomas W. Murrett, 342 North Main Street, West Hartford, CT 06108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Connecticut in connection with applicant's regular route authority between Boston, Mass., and Hartford, Conn. NOTE: This is a matter directly related to MC–F–11767 published in the FEDERAL REGISTER issue of January 17, 1973. If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11766. Authority sought for control and merger by THE 4–H TRANSPORTATION CO., INC., a non-carrier, Route 9, Saratoga Road, Fort Edward, NY 12828, of the operating rights and property of (1) FORT EDWARD EXPRESS CO., INC., and (2) NORTHERN MOTOR CARRIERS, INC., also of Fort Edward, N.Y. 12828, and for acquisition by ALBERT R. HILLMAN, 24 Fort Amherst Road, Glens Falls, N.Y. 12801, FRANK H. HILLMAN, Upper Broadway, Ft. Edward, N.Y. 12828, and PAUL F. HILLMAN, Star Route, Glens Falls, N.Y. 12801, of control of such rights and property through the transaction. Applicants' attorney: Harold G. Hernly, 2030 North Adams Street, Arlington, Va. 22201. Operating rights sought to be controlled and merged: (1) *Used motor oil*, in bulk, in tank vehicles, as a *common carrier* over irregular routes, from the United States-Canada boundary line through ports of entry at or near Rouses Point, N.Y., to Newark, N.J.; *petroleum and petroleum products*, in bulk, in tank vehicles, between St. Albans Bay and Burlington, Vt., on the one hand, and, on the other, a defined area of New York; *surface coating, resin compounds, in solution*, in bulk, in tank vehicles, from Fort Edward, N.Y., to Winslow, Maine; *liquid bichromate of soda*, in bulk, in tank vehicles, from Glens Falls, N.Y., to the port of entry at Rouses Point, N.Y., at the United States-Canada boundary line, from Baltimore, Md., to ports of entry on the United States-Canada boundary line at Rouses Point and Champlain, N.Y.; *lignin liquor*, in bulk, in tank vehicles, from Corinth, N.Y., to Baltimore and Leslie, Md., Cambridge, Mass., certain specified points in Pennsylvania, Jackson, Niles, and Black Fork, Ohio, and the ports of entry on the United States-Canada boundary line at Champlain and Rouses Point, N.Y., from Corinth, N.Y., to Ambler, Van Dyke, and Womelsdorf, Pa., Passaic, N.J., and the ports of entry on the United States-Canada boundary line, at Buffalo and Niagara Falls, N.Y., from Corinth, N.Y., to East Bridgewater and Wilmington, Mass.; *lignin liquor*, from Corinth, N.Y.; to points in New York located on the Hudson River, Mohawk River, Erie Canal, Champlain Canal, and the St. Lawrence Seaway, restricted to shipments having a subsequent movement by water, from Corinth, N.Y., to points in Maryland (except Baltimore and Leslie), points in Pennsylvania (except Philadelphia, Plymouth Meeting, Lancaster, Mount Union, and Morrisville), and points in New Jersey; *petroleum products*, in bulk, in tank vehicles, from Plattsburg, N.Y., to Enosburg Falls and Cambridge, Va.; *commodities* which because of size or weight require special equipment and special handling, between points in Clinton, Essex and Franklin Counties, N.Y., on the one hand, and, on the other, points in Franklin and Chittenden Counties, Vt., with restriction; *liquefied petroleum gas*, in bulk, in tank vehicles from Selkirk and Hudson, Falls, N.Y., to points in Connecticut, Massachusetts (except Plymouth, Barnstable and Bristol Counties), New Hampshire, Rhode Island and Vermont (except Essex County), from Selkirk, N.Y., to Auburn and Brewer, Me.; *gasoline and oil*, between Rensselaer, N.Y.; and Pittsfield, Mass., with restrictions;

(2) *Prefabricated barns*, knocked down, in sections, and silos, as a *common carrier* over irregular routes, from South Glens Falls, N.Y., to points in Connecticut, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont, Maine, and Pennsylvania; *pig iron*, in dump vehicles, from Troy, N.Y., to points in Maine, Vermont, New Hampshire, Connecticut, Massachusetts, and Rhode Island, from Troy, N.Y., to points in Pennsylvania and New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties), with restrictions; *creosoted wooden poles*, from Cranford, N.J., to a defined area in New York; *talc*, in bulk, in tank vehicles, from Johnson, Vt., to Groveton, N.H.; *limestone*, from the town of Dover (Dutchess County), N.Y., to points in Rhode Island, Massachusetts, New Hampshire, Vermont, Maine (except points in Aroostook County), Connecticut, Pennsylvania, New York, and points in New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties, N.J.), with restrictions; *cement*, from the plantsite of the Glens Falls, Portland Cement Co., at Glens Falls, N.Y., to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island, from Pawtucket, R.I., to points in those parts of Connecticut and Massachusetts on and east of U.S. Highway 5; *cement*, in bulk, in tank vehicles between points in Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island, and Vermont, with restriction, and *ice cream*, in shipper-owned trailers, as a *contract carrier* over irregular routes, from Framingham, Mass., to Latham, N.Y., with restriction. Application has not been filed for temporary authority under section 210a(b).

MOTOR CARRIER OF PASSENGERS

No. MC–F–11770. Authority sought for purchase by RESORT BUS LINES, INC., 41 Railroad Avenue, Yonkers, NY, of the operating rights and property of CROSS COUNTY COACH CORP., 152 Downing Street, Yonkers, NY, and for acquisition by ARTHUR, CAROL, JUNE, AND GEORGE BERNACCHIA, all of 41 Railroad Avenue, Yonkers, NY, of control of such rights and property through the purchase. T.I.M.E.-DC, INC., is authorized to operate as a common carrier in Texas, Oklahoma, Arkansas, Tennessee, Missouri, and Kansas.

No. MC-F-11773. Authority sought for purchase by CARTWRIGHT VAN LINES, INC., 4411 East 119th Street, Grandview, MO 64030, of the operating rights of NORTH CENTRAL VAN LINES, INC., 2540 North 27th Street, Lincoln, NE 68540, and for acquisition by WILLIAM F., JESSIE MAE, MICHAEL, AND THOMAS CARTWRIGHT, all of 4411 East 119th Street, Grandview, MO 64030, of control of such rights through the purchase. Applicants' attorney: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. Operating rights sought to be transferred: *Household goods*, as defined by the Commission, in *Practices of Motor Common Carrier of Household Goods*, 17 M.C.C. 467, as a *common carrier* over irregular routes, between points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin, between Spearfish, S. Dak., and points within 16 miles of Spearfish, on the one hand, and, on the other, certain specified points in Montana, and Wyoming, between points in Barton, Dade, Cedar, and Greene Counties, Mo., and those in that part of Jasper County, Mo., on and north of U.S. Highway 66, on the one hand, and, on the other, points in Iowa, Kansas, Illinois, and Oklahoma, between Arnold, Nebr., and points within 40 miles of Arnold, on the one hand, and, on the other, points in Iowa, South Dakota, Wyoming, and Colorado; *household goods* as defined by the Commission, and *emigrant movables*, between points in Canadian County, Okla., on the one hand, and, on the other, points in Texas, New Mexico, Missouri, Kansas, and Arkansas; *household goods*, between points in that part of Indiana south of U.S. Highway 40, including Indianapolis, on the one hand, and, on the other, points in Alabama, Florida, Massachusetts, Maryland, New York, North Carolina, New Jersey, Oklahoma, West Virginia, Tennessee, Texas, Virginia, South Carolina, Pennsylvania, and the District of Columbia. Vendee is authorized to operate as a *common carrier* in Washington, Oregon, California, Idaho, Montana, Utah, Hawaii, Colorado, Wyoming, Illinois, Indiana, Arizona, Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, Kentucky, Michigan, Missouri, Ohio, Wisconsin, New Jersey, Delaware, Maryland, Virginia, Oklahoma, Arkansas, Texas, Kansas, Tennessee, Nebraska, Iowa, South Dakota, Pennsylvania, West Virginia, Mississippi, North Carolina, Alabama, Georgia, Florida, South Carolina, Louisiana, New Mexico, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11774. Authority sought for control by MERCHANTS TRUCK LINE, INC., McGill Street, Post Office Box 908, New Albany, MS 38652, of MISSISSIPPI FREIGHT LINES, INC., 210 Beatty Street, Jackson, MS 39204, and for acquisition by BEN ALLEN KITCHENS, 366 Cleveland Street, New Albany, MS 38652, PAUL D. KITCHENS, 304 Cleveland Street, New Albany, MS 38652, and JAMES E. ROBERSON, 265 Highland Street, New Albany, MS 38652, of control of MISSISSIPPI FREIGHT LINES, INC., through the acquisition by MERCHANTS TRUCK LINE, INC. Applicants' attorneys: Donald B. Morrison, Post Office Box 22628, Jackson, MS 39205, and Harold D. Miller, Jr., Post Office Box 22567, Jackson, MS 39205. Operating rights sought to be controlled: Under a certificate of registration, in Docket No. MC-121427 (Sub-No. 1), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of Mississippi; and *general commodities* excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Forest and Union, Miss., between Carthage and Meridian, Miss., between Laurel and Waynesboro, Miss., between Meridian, and Waynesboro, Miss., serving all intermediate points, with restrictions, between Louisville and Houston, Miss., between Ackerman and Eupora, Miss., between Eupora and Columbus, Miss., serving all intermediate points, between Columbus, and Aberdeen, Miss., serving no intermediate points, but serving only the plantsite of Conoco Plastics at Aberdeen, Miss., between Kosciusko and Starkville, Miss., between Louisville and Starkville, Miss., between Meridian, and Columbus, Miss., serving all intermediate points. MERCHANTS TRUCK LINE, INC., is authorized to operate as a *common carrier* in Mississippi and Tennessee. Application has been filed for temporary authority under section 210a(b). NOTE: MC-121427 (Sub-No. 8) is a matter directly related.

No. MC-F-11775. Authority sought for control by J. V. McNICHOLAS TRANSFER COMPANY, 555 West Federal Street, Youngstown, OH 44501, of TOM'S EXPRESS, INC., 422 Cove Road, Weirton, WV 26062, and for acquisition by HENRY J. McNICHOLAS, also of Youngstown, Ohio 44501, of control of TOM'S EXPRESS, INC., through the acquisition by J. V. McNICHOLAS TRANSFER COMPANY. Applicants' attorneys: Donald Donnell, 401 Pennsylvania Avenue, Weirton, WV 26062, and Paul F. Beery, 88 East Broad Street, Columbus, OH 43215. Operating rights sought to be controlled: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, new and used furniture, commodities in bulk,

commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier* over irregular routes, between Steubenville, Ohio, on the one hand, and, on the other, points in Brooke, Hancock, and Ohio Counties, W. Va.; *household goods*, between points in Jefferson County, Ohio, on the one hand, and, on the other, points in New York, Pennsylvania, and West Virginia; *iron and steel and manufactured products thereof*, from Portsmouth, Ohio, and points in Jefferson County, Ohio, to certain specified points in New York and Pennsylvania, from Weirton, W. Va., and points in Brooke, Marshall, and Ohio Counties, W. Va., to points in Ohio, and certain specified points in New York and Pennsylvania; *steel, steel products*, materials used in the manufacture of steel, and *building and construction materials*, between points and places in Hancock, Brooke, and Ohio Counties, W. Va., on the one hand, and, on the other, points and places in West Virginia, Michigan, New York, Ohio, and Pennsylvania; *steel, and machinery, materials, supplies and equipment* incidental to or used in the operation and maintenance of steel mills, between points in Brooke and Hancock Counties, W. Va., on the one hand, and, on the other, points in Columbiana and Jefferson Counties, Ohio. J. V. McNICHOLAS TRANSFER COMPANY, is authorized to operate as a *common carrier* in Ohio, Pennsylvania, West Virginia, New York, Kentucky, Connecticut, Delaware, Maryland, Massachusetts, Michigan, New Jersey, Rhode Island, Virginia, Wisconsin, Indiana, Illinois, Maine, New Hampshire, Vermont, Iowa, Missouri, Minnesota, and the District of Columbia, and as a *contract carrier* in Ohio, Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, Pennsylvania, Virginia, West Virginia, Wisconsin, North Carolina, Tennessee, Connecticut, Massachusetts, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

By the Commission.

[FR Doc. 73-1468 Filed 1-23-73;8:45 am]

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JANUARY 19, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 53751 (Amendment) filed December 15, 1972, published in the FEDERAL REGISTER issue of January 10, 1973, and republished in part, as amended, this issue. Applicant: C-LINE EXPRESS, 525 Silverado Trail, Napa, Calif. 94558. Applicant's representative: Marvin Handler, 405 Montgomery Street, Suite 1400, San Francisco, Calif. 94104. NOTE: The purpose of this partial republication is to amend paragraph "B" and add paragraph (h) under "C" as shown below. (B) Between all points and places specified in A above, on the one hand, and, on the other hand, all points and places on and within 5 miles laterally of the following highways including all of the Lake Barryessa resort area: Under paragraph "C" add, (h) Castro Valley and all intermediate points and places on and along Interstate Highway 580 between Castro Valley and Springtown, serving Pleasanton and Livermore as off-route points. The rest of the application remains as previously published.

Kansas Docket No. 88929M, Route No. 8432, filed December 29, 1972. Applicant: DONALD L. KERBS and NEAL J. LOVIN, a partnership, doing business as C & R TRUCK LINE, 1012 West North, Salina, KS. Applicant's representative: Paul V. Dugan, 2707 West Douglas, Wichita, KS 67213. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General Commodities:* To, from and between Salina, Kans., and Marysville, Kans., and a 5-mile radius thereof; and the intermediate points of Garfield Center, Linn, Washington, Mapco, Inc. Plant, Kansas, and a 5-mile radius thereof, and the off-route points of Morganville, Clifton, Palmer, Greenleaf, Barnes, Waterville, Blue Rapids, Hanover, Kansas, and a 5-mile radius thereof. From Clay Center, Kans., on present authority and route north on Kansas Highway 15 to Washington, Kans., thence east on U.S. Highway 36 to Marysville, Kans., and return over the same route. As an alternate route for operating convenience; from Clay Center, Kans., on present authority and route north on Kansas Highway K15 to the intersection of Kansas Highway 9, thence east on Kansas Highway 9 to Waterville, Kans., thence east and north on U.S. Highway 77 to Marysville, Kans., and return over the same route. Both intrastate and interstate authority sought. Hearing: February 21, 1973, at the District Court Room, Marshall County Courthouse, Marysville, Kans., at 10 a.m. Requests for procedural information should be addressed to the State Corporation Commission, Fourth Floor, State Office Building, Topeka, Kans. 66612, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[FR Doc.73-1467 Filed 1-23-73;8:45 am]

RUSSELL TRANSFER, INC.

Notice of Filing of Petition

JANUARY 19, 1973.

No. MC-C-7956 (Notice of Filing of Petition for Declaratory Order), filed November 20, 1972.

Petitioner: Russell Transfer, Inc., 444 Glenmore Drive, Salem, VA 24153. Petitioner's representative: Robert G. Perry, 1701 Charleston National Plaza, Charleston, W. Va. 25301. Petitioner holds certificate No. MC-105709 (Sub-No. 1), authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of such commodities as are dealt in by wholesale, retail, and chain grocery and food business houses, (a) from Lynchburg, Va., to points in Virginia within 75 miles of Lynchburg, and (b) from Roanoke, Va., to Lynchburg, Va. By the instant petition, petitioner seeks a declaratory order to the effect that the above certificate authorizes the transportation of such commodities as shoes, paint, patent medicines, empty containers, plastic pipe or tubing, paperboard or fiberboard, sheets or rolls, which commodities are, assertedly, dealt in by wholesale or retail chain grocery and food business houses. Any interested person desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before February 23, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

■

MILK IN THE SOUTHERN MICHIGAN AND UPSTATE MICHIGAN MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

V 38 - 16 JAN 24 73 XUM

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 1040, 1043]

[Docket Nos. AO 225-A25, AO-247-A18]

MILK IN THE SOUTHERN MICHIGAN AND UPSTATE MICHIGAN MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handing of milk in the Southern Michigan and Upstate Michigan marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Lansing, Mich., on May 4–5, 1972, pursuant to notice thereof issued on April 4, 1972 (37 FR 7338).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on December 5, 1972 (37 FR 26318), filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under issue No. 2:

(a) A new paragraph is added at the end of the findings under subheading "(a) Merger of orders."

2. Under issue No. 3:

(a) Clerical errors are corrected in the first and seventh paragraphs under subheading "(a) Revisions of Class I classification."

(b) Revisions are made in paragraphs one, three, six, 12, and 18 under subheading "(c) Class III milk."

(c) Four new paragraphs are added under subheading "(g) Format of order provisions."

The material issues on the record of the hearing relate to:

1. Diversion limitations under the Southern Michigan and Upstate Michigan orders.

2. Whether the marketing areas of Southern Michigan and Upstate Michigan orders should be included under one order.

(a) Merger of orders.

(b) Interstate commerce.

3. If an order is issued for one milk marketing area in the manner proposed, what its provisions should be.

(a) Application of the provisions of the Southern Michigan order to the combined marketing areas.

(b) Revision of provisions with respect to:

(i) Classification of skim milk and butterfat;

(ii) Class prices and location adjustments;

(iii) Distribution of proceeds to producers; and

(iv) Administrative provisions.

The decision deals with all the issues listed above except Issue No. 1, which was considered previously in a decision issued by the Assistant Secretary on September 15, 1972 (37 FR 19639).

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

2. *Whether the marketing areas of Southern Michigan and Upstate Michigan orders should be included under one order*—(a) *Merger of orders.* Order No. 43, regulating the handling of milk in the Upstate Michigan marketing area, and Order No. 40, regulating the handling of milk in the Southern Michigan marketing area, should be merged into a single regulation. The surviving order would be Order No. 40.

Addition of the Upstate Michigan marketing area to the Southern Michigan marketing area was proposed by a cooperative association operating in the two markets. Proponent testified that Southern Michigan handlers have extended their supply and sales routes in the Upstate Michigan marketing area to the point that a separate market for Upstate Michigan producers no longer can be distinguished. Merger of the orders was not opposed.

Southern Michigan is the larger of the two marketing areas proposed for merger. The Southern Michigan marketing area includes most of the Lower Peninsula of Michigan, except one tier of southern counties, two western counties adjoining such tier, and the marketing area of Upstate Michigan consisting of 13 northwestern counties.

In 1955, when the Upstate Michigan order was promulgated, there were 486 producers supplying 24 plants operated by handlers regulated under the order. In January 1970 only the milk of 22 producers was pooled under the order and only three distributing plants were regulated. At the time of the hearing only 19 producers were left on the market, compared to 8,247 producers on the Southern Michigan market. Most of the producers who were on the Upstate Michigan market shifted to Southern Michigan order pool plants. Also, the fluid milk sales business within the marketing area has been shifting to Southern Michigan handlers.

Most of the sales in the Upstate marketing area consequently are now made by handlers regulated by the Southern Michigan order. Transfers to Upstate Michigan pool plants and route sales in the Upstate Michigan marketing area by Southern Michigan handlers have increased from approximately 20 million pounds in 1965 to 65 million pounds in 1971. In comparison, the total producer receipts by Upstate Michigan handlers during 1971 amounted to only 9 million pounds.

Since the fluid milk sales business within the Upstate marketing area is held primarily by Southern Michigan handlers, such territory is now an integral part of the larger Southern Michigan marketing area. Therefore such territory should be added to the Southern Michigan marketing area and the Upstate Michigan order shoud be revoked.

The marketing area set forth herein is identical with that contained in the separate orders. It includes all the territory within the Michigan counties of Alcona, Allegan (Dorr, Gunplain, Hopkins, Leighton, Martin, Otsego, Watson, and Wayland Townships only), Alpena, Antrim, Arenac, Barry, Bay, Benzie, Calhoun, Charlevoix, Cheboygan, Clare, Clinton, Crawford, Eaton, Emmett, Genesee, Gladwin, Grand Traverse, Gratiot, Huron, Ingham, Ionia, Iosco, Isabella, Jackson, Kalamazoo, Kalkaska, Kent, Lake, Lapeer, Leelanau, Livingston, Macomb, Manistee, Mason, Mecosta, Midland, Missaukee, Monroe (Ash and Berlin Townships only), Montcalm, Montmorency, Muskegon, Newaygo, Oakland, Oceana, Ogemaw, Osceola, Oscoda, Otsego, Ottawa, Presque Isle, Roscommon, Saginaw, St. Clair, Sanilac, Shiawassee, Tuscola, Wastenaw, Wayne, and Wexford.

All currently regulated handlers of the separate orders will continue to be regulated under the merged order. Producers under the separate orders will continue to supply such handlers. To accomplish the merger effectively and most equitably, the assets in the custody of the market administrator in the administrative, marketing service, and producer-settlement funds under the two orders should be combined. Any liabilities of such funds under the individual orders should be paid from the new funds so created and obligations due to the funds under the separate orders should be paid to the combined funds under the merged order. To distribute such funds under one order to producers and handlers under the order would unduly burden the producers and handlers now regulated by the other order. To distribute the funds under both orders and again accumulate the necessary reserve would entail unnecessary administrative detail at considerable cost with no advantage to either handlers or producers.

The administrative assessment rate limit of 2 cents per hundredweight under the Southern Michigan order should be continued under the order for the merged marketing areas. The Upstate Michigan order provides an administrative assessment rate limit of 5 cents per hundredweight but the actual rate of assessment being applied under each of the orders is 2 cents per hundredweight. Accordingly, a maximum rate of 2 cents should provide sufficient funds to cover the market administrator's costs of administering the order for the merged marketing areas.

(b) *Interstate commerce.* The handling of milk in the proposed merged marketing area is in the current of, and directly burdens, obstructs, or affects interstate commerce in milk or milk products.

Bulk milk from farms located in Indiana, Ohio, and Wisconsin, as well as Michigan, is received and priced at pool plants regulated by the Southern Michigan order. Bulk milk from supply plants located in Wisconsin is tranferred to pool plants located in the proposed marketing area.

Manufactured milk products made from producer milk likewise are involved in interstate commerce. Cottage cheese and yogurt from a Michigan regulated plant are sold in the adjoining State of Ohio. Yogurt is sold in the consolidated marketing area by handlers regulated under the Indiana and Ohio Valley orders.

Michigan handlers competing for sales of milk and milk products throughout the combined Southern Michigan and Upstate Michigan marketing areas are also in competition for such sales from handlers located outside the State.

3. *Order provisions for the combined marketing area*—(a) *Application of the provisions of the Southern Michigan order to the combined area.* The order provisions adopted herein continue the Southern Michigan order provisions, subject to proposed amendments considered herein. In those instances in which specific provisions of the order adopted herein are substantially different from the present Southern Michigan order, the justification therefor is set forth in the findings of this decision.

The provisions of the order for the combined marketing area will be applicable to the same categories of persons and milk plants to which provisions of the separate orders now apply. The pooling requirements for distributing plants under the Southern Michigan and Upstate Michigan orders currently specify that 50 percent of the milk receipts at the plant be disposed of on routes. Adoption of the Southern Michigan order provisions for the Upstate Michigan portion of the combined marketing area will not change the categories of persons and milk plants in such area to be regulated. Adoption of the Southern Michigan provisions relative to pooling supply plants, and "balancing" plants operated by cooperatives, likewise will not effect any change in mode of regulation for any present handler in the Upstate Michigan marketing area. Neither of such types of plants are regulated currently under that order.

(b) *Revision of provisions with respect to*—(i) *Classification of skim milk and butterfat.* Cooperative associations proposed that certain product composition standards be incorporated in the classification provisions. In addition, they proposed reclassification of skim milk and butterfat in certain specific uses, particularly cream products, eggnog, and yogurt.

The present classification provisions of the Southern Michigan order should be revised as follows:

(a) *Revision of Class I classification.* With certain exceptions noted hereinafter, Class I milk should continue to include skim milk and butterfat disposed of in the form of milk, skim milk, lowfat milk, milk drinks, buttermilk, and filled milk. Skim milk and butterfat disposed of in any such product that is flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted likewise should be classified as Class I milk. Such classification should apply whether the products are disposed of in fluid or frozen form.

In addition, as proposed by the cooperatives, this classification should include skim milk and butterfat in milkshake mixes containing less than 20 percent total solids, in sterilized fluid milk products, and in any milk product not in Class II or Class III if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids, and less than 9 percent butterfat and 20 percent total solids.

Skim milk disposed of in any product described above that is modified by the addition of nonfat milk solids should be Class I milk only to the extent of the weight of the skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

Milkshake and ice milk mixes containing less than 20 percent total solids should be included in Class I. Such mixes containing a greater percentage of solids should be Class III products.

Milkshake and ice milk mixes for commercial use are basically similar in composition and purpose to what might be considered as traditional frozen desserts, such as ice cream. It is possible, however, that a beverage product very similar in form and composition to chocolate milk could be marketed under the label of a milkshake mix for the purpose of having a lower classification apply to the product. Since such a product actually would have the same general form and purpose as other fluid milk products now classified as Class I under the order, it should be included in the Class I classification. It is necessary, though, to provide some means of distinguishing between such a product and the general category of milkshake mixes that are being sold in market competition with frozen desserts. For this purpose, the total solids content of the product should be used. A standard of 20 percent or more total solids should encompass those milkshake and ice milk mixes intended for use as a type of frozen dessert. Mixes with less solids are quite similar in total solids to chocolate milk and other flavored fluid milk products and should be in Class I.

Returns to producers for milk disposed of in the form of fluid milk products should be the same whether such products are sterilized or unsterilized. Such products in either form are being marketed for the same beverage use. Sterilization does not change the form or use of such products. They are generally intended for use in place of their unsterilized counterparts and are thus competing for the same market uses. Classifying all such products in Class I will assure that the returns from producer milk used in sterilized fluid milk products will contribute on the same basis as returns from producer milk used in unsterilized fluid milk products toward inducing an adequate supply of milk for beverage use.

With the removal of any exception to the Class I classification of milk because of sterilization, specific reference must be made in the "fluid milk product" definition to the exclusion of certain products that otherwise could be construed to fall within such definition. Such products are evaporated or condensed milk or skim milk, formulas in hermetically sealed glass or all-metal containers that are especially prepared for infant feeding or dietary use, and products (such as flavored drinks in "pop" bottles) containing by weight less than 6.5 percent nonfat milk solids. These products, being sold in sterilized form, are now excluded from the Class I classification and such exclusion should be continued, notwithstanding the fact that they are sold to the public in fluid form. Evaporated milk and condensed milk sold for home use are intended primarily for cooking purposes. They are not consumed normally as a beverage. Infant and dietary formulas, which are being sold in hermetically sealed glass or all-metal containers, are specialized food products prepared for a limited use. Such formulas do not compete generally with other milk beverages consumed by the general public. Similarly, fluid products containing only a minimal amount of nonfat milk solids are not considered as being in the competitive sphere of the traditional milk beverages.

Cooperatives proposed that, in addition to naming certain milk products and excluding others, a fluid milk product be defined in terms of moisture and milk solids content of the product. As proposed by producers, a "fluid milk product" would be any product containing at least 6.5 percent nonfat milk solids and 80 percent water but less than 9 percent butterfat and 20 percent total solids. They contended that the proposed fluid milk product definition would accommodate the classification of new products or variations of the listed products when they are introduced on the market. Any product meeting the specified composition limits for a fluid milk product would be a fluid milk product regardless of the name under which the product might be marketed.

Handlers generally took the position that the fluid milk product definition should continue to list by name those products intended to be included in Class I. They believed that this procedure would result in less confusion within the industry concerning the application of this definition.

The primary concern with any fluid milk product definition is that it clearly define the products or types of products that are intended to be included in the definition. The fluid milk product definition adopted herein, which incorporates both the listing of specified products and the use of composition percentages, should meet this requirement.

For clarity the fluid milk product definition should continue to list the generic

V 38-16 JAN 24 73 XUM

names of those products commonly sold for consumption as beverages. The products listed in the adopted definition encompass most of the forms in which milk for fluid uses is sold. Any one referring to this fluid milk product definition may easily ascertain in the case of most milk products whether or not a particular product is included in the definition.

A listing of products alone in the fluid milk product definition may not clearly indicate, however, the classification of new milk products developed for fluid consumption. With certain limited exceptions noted, the fluid milk product definition is intended to include all milk products that are distributed for use as beverages. Although a new milk beverage introduced on the market might not be encompassed within the list of named products, it should be treated as a fluid milk product, nevertheless, if its composition is similar to that of the listed products. This will be the result of the standards of product composition for fluid milk products herein adopted.

As indicated, the adopted composition standards would embrace any product not specified as a Class II or Class III product that contains by weight at least 80 percent water and 6.5 percent nonfat milk solids, and less than 9 percent butterfat and 20 percent total solids. These standards are chosen so as to conform as closely as possible to the range of water, solids, and butterfat content of those products specifically listed in the fluid milk product definition that are commonly sold for use as beverages.

The 9-percent-butterfat standard coincides with the butterfat percentage adopted herein to delineate the mixtures of cream and milk or skim milk to be included in Class II. The total solids and water percentages represent a reasonable measure of the fluidity of those products that normally are consumed as beverages. The 6.5 percent nonfat milk solids standard is used to exclude from the fluid milk product definition those products that contain some milk solids but are not closely identified with the dairy industry, such as chocolate flavored drinks in "pop" bottles. In the case of the nonfat milk solids standard, it is intended that nonfat milk solids include such milk solids as lactose and the nonfat solids in dried whey.

(b) *Class II milk.* Class II milk should include skim milk and butterfat disposed of in the form of eggnog, yogurt, or a "fluid cream product", i.e., cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat. Any product containing 6 percent or more nonmilk fat (or oil) that resembles any of these products likewise should be in this class. Also, eggnog, yogurt, and fluid cream products that are in inventory at the end of the month in packaged form should be in Class II.

Included also in this classification should be skim milk and butterfat used to produce cottage cheese, lowfat cottage cheese and dry curd cottage cheese. Skim milk disposed of in any Class II product that is modified by the addition of nonfat milk solids should be Class II milk only to the extent of the weight of the skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

Under the current Southern Michigan order Class II milk includes only the skim milk and butterfat used to produce, or added to, cottage cheese or cottage cheese curd.

Proposals by cooperatives of products to be included in Class II differed little from that adopted herein. One cooperative proposed that skim milk and butterfat used to produce eggnog be classified as Class I milk. Another cooperative would classify skim milk and butterfat used to produce sour cream as Class III milk.

Handlers and producers agreed that fluid cream products should be removed from the fluid milk product definition and be classified as Class II. An association of milk dealers asked that cottage cheese and cream be classified as Class II. One handler suggested there be no third class of milk products. He suggested that fluid milk products remain in Class I and cream and cottage cheese be classified along with manufactured milk products in a single surplus class.

In support of their proposed Class II use categories, the several cooperatives contended that there are significant differences in the competitive position of, and demand for, milk so used compared to other uses of milk. They stated that handlers demand quality milk on a regular basis for the proposed Class II products and that alternative supplies of milk for such uses cannot be obtained for less than the Class II prices they propose for producer milk. Moreover, they claimed that products in such Class II uses should bear, along with fluid milk products, part of the cost necessary to attract an adequate market supply.

Proponent cooperatives pointed out that the present Class I classification of cream and cream mixtures has placed these products in a poor competitive position in the marketplace relative to nondairy substitutes. By shifting these products to a lower-priced class, proponents hope it will allow the industry to maintain its present small share of the cream and dessert topping market and provide it a chance to perhaps recapture some of the market that it has lost.

Class II milk should include eggnog. Currently, eggnog is a Class III product under the Southern Michigan order. One cooperative asked that it be classified as Class I. Another cooperative would classify eggnog as Class II. Handlers operating distributing plants in the Detroit area requested that eggnog be classified as Class III milk.

The sales of eggnog are limited primarily to the months of November and December. During 1971 eggnog sales in the Southern Michigan market amounted to 3,271,000 pounds. Such sales for the year amounted to less than 0.1 of 1 percent of the 3.85 billion pounds of producer milk in the market. One handler estimated that 35 to 40 percent of the eggnog products sold in the market are substitute products. In view of the limited sales of eggnog during the year total returns to producers would not be significantly enhanced if eggnog were classified as Class I milk. Furthermore, a Class I classification for eggnog would place it at a competitive disadvantage in the market relative to substitute products. Eggnog, however, should not be priced as a Class III product because a main ingredient is cream. Cream will be a Class II product. For these reasons the intermediate Class II classification of this order is appropriate for skim milk and cream in such uses.

Milk used in yogurt should be classified as Class II milk. Yogurt is a soft, nonfluid, "spoonable" product. It is not a beverage as are other products defined herein as fluid milk products.

By being suspended from the fluid milk product definition yogurt is currently a Class III use under the Southern Michigan order to price it competitively with those neighboring Federal order markets that classify yogurt in an intermediate use class.

Processors generally use regular supplies of inspected milk to produce yogurt. Although yogurt can be made from cream and nonfat dry milk, processors prefer high quality milk. Since yogurt has a relatively limited shelf life, it is made on a continuing basis, thus requiring a regular supply of milk at all times. It is not a residual use as surplus. These conditions warrant that producer milk in yogurt be priced at a level above the price for milk disposed of through the traditional residual uses for surplus milk.

Sour cream or a cultured mixture of cream and milk or skim milk containing 9 percent or more butterfat should be a Class II product. The Southern Michigan order currently classifies sour cream as a Class III product.

One cooperative asked that sour cream be classified as a Class II product while another cooperative and several handlers requested that its classification as Class III be continued.

Sour cream should be placed in the same class as other cream products. Half-and-half and light cream are used by consumers principally in coffee. Aerated cream and whipping cream are used as dessert toppings. Sour cream and cultured mixtures, with or without the addition of other ingredients, are used as dips or in food preparation. Providing the same classification for such products as for other cream products will result in uniform pricing to handlers for producer milk used in all such "specialty" cream products.

Ending inventory of fluid cream products, eggnog, and yogurt when held in packaged form, should be classified as Class II, the class of expected ultimate use, rather than in Class III as would be the case for ending inventory of such products in bulk form. The higher classification will accommodate the treatment adopted herein whereby such products that are received at a pool plant in packaged form and disposed of in the same packages would be permitted to "pass through" the plant without any pool obligation or down-allocation. In this connection, the ending Class II inventory, as Class II inventory on hand at the beginning of the following month, would be allocated in the following month directly to the handler's Class II utilization.

The order now provides that any "filled" product containing 6 percent or more nonmilk fat (or oil) shall be Class III milk. With the inclusion of fluid cream products, eggnog, and yogurt as Class II products, it is appropriate that any such filled products that resemble the proposed Class II products made with milk fat likewise be included in this class. The substitution of nonmilk fat for milk fat in a product merely changes the composition of the product and not its use. For competitive reasons, a comparable classification of products made with milk fat and their filled counterparts is necessary.

Handlers using certain types of other source milk (whether in the form received or in reconstituted form) in the processing of Class II products should be permitted to have such other source milk allocated directly to their Class II uses. Under the plan adopted herein, such other source milk to which direct allocation could apply would be limited to milk products (such as nonfat dry milk and condensed milk or skim milk) that are not fluid milk products or fluid cream products.

The major use of other source milk in making these Class II products is the addition of nonfat dry milk to cream products, mainly half-and-half, and to skim milk being used for the manufacture of cottage cheese. If producer supplies are short, handlers also may reconstitute nonfat dry milk for cottage cheese production. Condensed skim milk may be similarly used. Handlers choosing to use such other source milk in this way should be permitted to have such milk allocated directly to their Class II utilization rather than allocated first to any Class III utilization they may have.

As long as the Class II price for producer milk remains in proper relationship with the cost of alternative supplies, it is not expected that this direct allocation of nonfluid other source milk to Class II will induce handlers to use other source milk in preference to producer milk for processing Class II products. Under the adopted Class II price, producers would represent in most circumstances the most economical source of milk for Class II use.

Nonfat dry milk has certain advantages for handlers that producer milk cannot provide. It can be added easily to milk or milk products to increase their nonfat milk solids content. Also, its storability permits handlers to have a concentrated form of nonfat milk solids on hand at all times for emergency use. Nevertheless, the higher cost of nonfat dry milk relative to producer milk would tend to limit its use to only those situations where the nonfat dry milk has a distinct processing advantage for handlers.

No provision should be made for the direct allocation to a handler's Class II utilization of other source milk received in fluid form. Unlike the handling of nonfat dry milk, it would not be unusual for a handler to commingle in his plant any receipts of fluid other source milk with his receipts of producer milk. In this circumstance, it would not be possible to know just how much of the other source milk may have been used in the processing of a Class II product. The difficulty a handler would have in demonstrating that he actually used fluid other source milk in a Class II product, and the administrative difficulty in verifying such claimed use, warrants the allocation of such milk in essentially the same manner as now provided by the order.

In this connection, it should be noted that under the revised classification plan the order would provide for the specific allocation to a handler's Class II and Class III utilization of any receipts of bulk fluid milk products from an other order plant or an unregulated supply plant for which the handler requests a Class II or Class III classification. Such receipts would be allocated to the extent possible first to the handler's Class III utilization and then to his Class II utilization. This would be the case even if a Class II classification were requested by the handler.

Handlers may add nonfat milk solids to several of the proposed Class II products, such as half-and-half and light cream. The method of accounting for modified fluid milk products should apply in like manner to these modified Class II products. Currently these cream products are fluid milk products, and in accounting for these products the order provides that each shall be classified as Class I in the amount of the weight of an equal volume of an unmodified product of the same nature and butterfat content. The remaining skim milk equivalent of the nonfat solids in such product is classified in the lowest class. Accordingly, under the revised classification, if eggnog, yogurt, or any fluid cream product is modified by the addition of nonfat milk solids, such product would be classified as Class II in the amount of the weight of an equal volume of an unmodified product of the same nature and butterfat content. The remaining skim milk equivalent of the nonfat milk solids in such product would be classified in Class III.

The order provides that nonfat milk solids used to fortify fluid milk products and in producing or adding to cottage cheese or cottage cheese curd shall be accounted for on the basis of the actual weight of the solids. Such accounting procedure would be changed under the order provisions provided herein to conform with the procedure used under Federal orders generally and, therefore, facilitates appropriate accounting for milk products moved among orders. The method adopted would account for all nonfat milk solids on a skim milk equivalent basis. The volume of the unmodified product that the added solids replaces would be classified in the same class as the modified product and the remaining skim milk equivalent volume of the added solids would be Class III.

(c) *Class III milk.* Class III milk should include skim milk and butterfat used to produce cheese (other than cottage cheese, lowfat cottage cheese and dry curd cottage cheese), butter, plastic cream, frozen cream, anhydrous milkfat, any milk product in powdered form, milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, frozen dessert mixes, custards, puddings, pancake mixes, formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, evaporated or condensed milk or skim milk in plain or sweetened form that is in a consumer-type package, any concentrated milk product in bulk, fluid form, and any product containing 6 percent or more nonmilk fat (other than a Class II product). Any other product not otherwise included among Class I and Class II products also should be included in Class III.

Other Class III uses should include fluid milk products and bulk fluid cream products in inventory at the end of the month, and that portion of modified (by the addition of nonfat milk solids) fluid milk products and Class II products not included in Class I or Class II. Also, a Class III classification should apply to bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages. In addition, Class III should include any fluid milk product or product listed in the Class II classification that is disposed of for animal feed, or is dumped if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition. Also, shrinkage within certain limits should be classified as Class III milk.

The items included in Class III are those currently in Class III with certain exceptions. One item, packaged fluid milk products in ending inventory, is added to the current Class III classification. Milkshake mixes containing less than 20 percent total solids and certain sterilized products packaged in hermetically sealed containers, however, would be placed in Class I, and sour cream would be moved to Class II.

Cooperatives requested that milkshake mixes containing less than 20 percent total solids and packaged fluid milk products in ending inventory be classified as Class I milk. Handlers proposed that such products be classified as Class III milk.

One cooperative requested that sour cream be classified as Class II milk. Another cooperative and several handlers asked that the order continue to classify sour cream as Class III milk.

The rationale for placing certain of the current Class III products in either

V 38-16 JAN 24 73 XUM

Class I or Class II is contained in the discussion of products to be classified as Class I or Class II milk. The following discussion concerns the classification of ending inventory and the classification of shrinkage.

A producer's primary concern with the classification of ending inventory is its effect on his returns. A handler is concerned with such classification as it affects his pool obligation and recordkeeping. Either a Class I classification for packaged fluid milk products in ending inventory, or a Class III classification and a reclassification as a Class I product when such product is disposed of on routes, results over the long run in essentially the same pool obligation for handlers and the same returns to producers. Classifying packaged fluid milk products in ending inventory as Class III will tend to facilitate the recordkeeping of handlers without disadvantage to producers.

Ending inventory classified as Class III milk should be reclassified in a higher class if so used during the following month. A charge to the handler at the difference between the Class III price for the preceding month and the Class I or Class II price, as applicable, for the current month would apply to any reclassified inventory. This is the same reclassification procedure that now applies under the order to inventories of fluid milk products in bulk form.

Fluid cream products in bulk form that are on hand at the end of the month likewise should be classified in Class III. As in the case of bulk milk, the final use of cream being held in bulk form is not necessarily apparent from that form. The cream must be followed to its ultimate use, which may be in any class. Accordingly, it is reasonable to classify any closing inventory of bulk cream in Class III and then apply a reclassification charge should the cream, as beginning inventory the following month, be allocated to a higher class.

For the first month that the revised classification plan is effective, certain transitional provisions relating to inventory should apply. Such provisions are necessary to assure that all handlers under the order will be subject to the same pricing for milk used in packaged fluid milk products and fluid cream products whether such products enter into the month's accounting as beginning inventory or are made from current receipts of producer milk.

Under the new plan, beginning inventories of fluid cream products in packaged form normally would be allocated directly to a handler's Class II utilization. Such allocation assumes that the products were priced at the Class II price in the preceding month. Since this would not be the case for the first month under the new amendments, such inventories should be allocated in the first month to the extent possible to Class III, as in the case of inventories of fluid milk products and bulk fluid cream products. A reclassification charge should apply if a higher classification results.

A pool credit should apply on certain milk products in ending inventory in the first month that the revised classification plan is effective. Beginning inventories of fluid milk products and, for the first month, all fluid cream products would be allocated to the extent possible to Class III. This allocation assumes that such inventories were priced at the lowest class price in the preceding month. Since inventories of packaged fluid milk products and packaged fluid cream products (half-and-half, light cream and whipping cream) under the Southern Michigan order will have been priced at the preceding month's Class I price, former Southern Michigan handlers should receive a credit on such packaged inventories equal to the difference between the preceding month's Class I price and the Class III price. Former Upstate Michigan handlers should receive a credit on all ending inventory of fluid milk products and cream at the difference between the preceding month's Class II and Class III price under such order since their inventories will have been priced at the preceding month's Class II price. If a higher classification results through the allocation procedures, the appropriate reclassification charge would apply.

The current order provides that skim milk dumped shall be a Class III use subject to prior notification to and inspection by the market administrator. Butterfat in dumped products likewise should be classified as Class III milk. Currently, butterfat in dumped products may be classified as Class III milk only if there is a sufficient amount of allowable Class III shrinkage remaining to permit such classification. Otherwise, such butterfat is known as "excess shrinkage" and is classified as Class I milk. In normal plant operations there is likely to be some cases where butterfat in milk products cannot be sold or salvaged. Route returns that may be nonsalable because of dating regulations often may not be reprocessed economically into other products. Additives such as flavoring or nondiary ingredients may make reprocessing impractical. Also, in manufacturing operations, spoilage may occur, or culturing processes may break down, rendering the product nonsalable for human consumption. Such products that are dumped result in a loss to the handler. In these circumstances, butterfat dumped should be classified as Class III in order that such butterfat may be accounted for as a specific use rather than as shrinkage, an unspecified use.

The classification of shrinkage within certain limits as Class III milk as provided in the Southern Michigan order should be continued in the merged order, except that the principle of division of shrinkage between receiving and processing functions with respect to milk moved from farms to plants in tank trucks operated by a cooperative association handler should apply also in the case of milk that is transferred or diverted.

The order now provides a 2-percent maximum shrinkage allowance in Class III in the case of receipts of producer milk, milk from other order plants, and milk from unregulated supply plants. With respect to producer milk the order recognizes that shrinkage normally experienced varies with the type of handling. More loss is usually experienced in plant processing than in merely receiving milk for delivery to another handler.

With respect to delivery of milk by a cooperative association handler from farms to plants in tank trucks, a Class III shrinkage allowance of 0.5 percent of such milk is provided. Any excess shrinkage over 0.5 percent is classified as Class I milk. The Class III shrinkage allowance to the processing plant receiving the milk from the cooperative is 1.5 percent. This maintains a total of 2-percent Class III shrinkage allowance for such milk from producers in the receiving and processing operations.

In the case of milk diverted from a pool plant to another plant, a shrinkage allowance in Class III of 0.5 percent should be provided the diverting handler unless the operator of the plant to which the milk is diverted purchases such milk on the basis of weights determined by farm bulk tank calibration and butterfat tests determined from farm bulk tank samples. In the latter case no shrinkage allowance would apply for the diverting handler. This is the same procedure applicable to cooperative bulk tank deliveries to pool plants. Similar handling is involved.

This kind of division of shrinkage allowance should be provided with respect to receipts in bulk from other pool plants and receipts in bulk from other order plants, and unregulated supply plants. One and one-half percent shrinkage allowance at the plant where such milk is processed and 0.5 percent allowance at the shipping plant will maintain a total of 2 percent Class III shrinkage allowance at processing plants with respect to receipts of milk from pool sources, other order milk, and unregulated supply plant milk.

(*d*) *Classification of milk transferred or diverted.* Certain changes should be made in the provisions that prescribe the classification of fluid milk products that are transferred or diverted from a pool plant to another plant. Several of the changes become necessary with the classification of fluid cream products as Class II. Other changes are appropriate for clarity in the classification of milk.

The order presently provides a Class III classification for cream in bulk transferred from a pool plant to a nonpool plant that is neither an other order plant nor a producer-handler plant if the handler claims Class III utilization and such nonpool plant is located in Pennsylvania, New Jersey, New York, or New England. Bulk cream transferred to nonpool plants in other States is classified as Class I milk unless certain conditions are met.

Under the adopted classification plan, fluid cream products would be classified as Class II products. If such products are transferred to another plant in packaged form, the skim milk and butterfat contained therein should be classified as Class II milk since these items are moved in final form. The classification of fluid

cream products when disposed of in bulk form, however, is determinable only by following the movement of the bulk product to its subsequent use since it is feasible to use the skim milk and butterfat in bulk cream in any of the three classes of end use. Appropriately, the classification of bulk cream should be based on its end use irrespective of the location of the plant to which it is transferred to effect its classification on the basis of use. Arrangements for verifying the utilization at most distant plants can be made easily through the facilities of the various market administrators' offices. Thus, it is necessary that fluid cream products transferred in bulk form from a pool plant to another plant be classified in a manner similar to that now used in classifying transfers of bulk fluid milk products.

The order now prescribes a procedure for classifying transfers of bulk fluid milk products from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant. To determine such classification, the nonpool plant's utilization must be assigned to its receipts of milk from each source. Some amplification of this procedure is appropriate to set forth clearly the priority for assigning the different types of plant use to the different sources of fluid milk products and bulk fluid cream products received at the nonpool plant.

Under the adopted assignment priorities, the first step is to assign the nonpool plant's Class I utilization to its receipts of packaged fluid milk products from all federally regulated plants. Such receipts should receive first priority on the nonpool plant's Class I use since all orders provide that such packaged transfers from a pool plant to an unregulated nonpool plant shall be classified as Class I milk. Thus, any Class I route disposition of the nonpool plant in the marketing area of a Federal order, and any transfers of packaged fluid milk products from the nonpool plant to plants fully regulated under such order, would be assigned, first, to the nonpool plant's receipts of packaged fluid milk products from plants fully regulated under such order and, second, to any such remaining packaged receipts from plants fully regulated under other Federal orders.

A similar assignment of any such remaining disposition (i.e., the aforesaid Class I route disposition and transfers of packaged fluid milk products) then would be made to the nonpool plant's receipts of bulk fluid milk products from pool plants and other order plants. Any other Class I disposition of packaged fluid milk products from the nonpool plant, such as route disposition in unregulated areas, would be assigned to any remaining unassigned receipts of packaged fluid milk products at the nonpool plant from plants fully regulated under any Federal order.

After these assignments, any Class I use at the nonpool plant that is attributable to the Class I allocation at a Federal order plant of fluid milk products transferred in bulk from the nonpool plant to the regulated plant would be assigned next. Such use would be assigned, first, to the nonpool plant's remaining unassigned receipts of fluid milk products from plants fully regulated under that order and, secondly, to any such remaining receipts from plants fully regulated under other orders.

Additional unassigned Class I utilization at the nonpool plant then would be assigned to the plant's receipts of Grade A milk from dairy farmers and unregulated nonpool plants that are determined to be regular sources of Grade A milk for the nonpool plant. Any remaining unassigned receipts of fluid milk products at the nonpool plant from plants fully regulated under any order would be assigned to any of the nonpool plant's remaining Class I utilization, then to its Class III utilization, and then to its Class II utilization.

Following these assignments, any receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants would be assigned to the nonpool plant's remaining unassigned utilization in each class. Such assignment would be made in sequence beginning with the lowest class.

In determining the classification of any transfers or diversions from a pool plant to a nonpool plant, the utilization of any transfers from the nonpool plant to another unregulated nonpool plant also must be established. In this case, the same assignment priorities just outlined should apply also at the second nonpool plant.

Certain changes should be made in the order concerning the classification of products transferred from a pool plant to a producer-handler. Under the revised classification plan, bulk fluid cream products transferred from a pool plant to a producer-handler should be assigned to the extent possible to the latter's Class III use, and then Class II use. If the producer-handler does not have enough utilization in these classes to cover such transfers, any remaining transfers should be classified as Class I milk.

As in the case of all other fluid milk products, such transfers of cream are now classified as Class I milk. Such classification tends to assure that producers do not carry for producers-handlers the burden of maintaining reserve supplies for the Class I sales of producers-handlers. With the removal of cream from the Class I classification, as adopted herein, a mandatory Class I classification of cream transfers to producers-handlers would not be necessary for this purpose.

The order should provide that fluid milk products transferred from a pool plant to a producer-handler under another order be classified as Class I milk. This classification now applies under the order with respect to such transfers made on an intramarket basis.

The producers-handlers, in their capacity as handlers, have been exempt from the pricing and pooling provisions of the order. In consideration of this exemption, the order requires a Class I classification of all fluid milk products that are transferred from a pool plant to a producer-handler. Inasmuch as the producer-handler exemption under each order is predicated on essentially the same basis, a Class I classification of milk transferred from a pool plant regulated under one order to a producer-handler as defined under another order would be in keeping with the general basis for producer-handler exemption.

Since the advent of farm bulk tanks, the diversion of producer milk from pool plants to manufacturing plants has been a common method of handling milk not needed for the fluid market. The classification of diversions to unregulated nonpool plants is discussed hereinbefore. The classification of diversions to other order plants and to pool plants of other handlers should be specified in the order. Such diversions are provided for in the producer milk definition of the order. Currently the transfer provisions of the order are silent on the classification to be accorded such diversions.

Provision should be made for the diversion of milk to other order plants for Class II or Class III use. Such provisions will foster the efficient handling of surplus milk in the market by permitting the disposal of such milk directly from farms to manufacturing plants in other markets, rather than having such intermarket movements limited to the more expensive method of transferring milk from one plant to another. With the safeguards adopted herein, returns to producers in the market to which the milk is diverted will not be affected by the processing of this surplus milk in their market since the diverted milk will continue to be pooled in the market from which diverted.

The transfer provisions of the order should provide for the same classification for a diversion from a pool plant to another pool plant that is applicable to a transfer between such plants.

(ii) *Class prices and location adjustments*—(*a*) *Class I price and location adjustments.* The Class I price under the combined order should be that currently provided under the Southern Michigan order, the basic formula price for the second preceding month plus a differential of $1.60. The location adjustment provisions under the Southern Michigan order should be continued under the merged order also.

Several cooperative associations proposed that the amount of the Class I differential under the Southern Michigan order be continued in the merged order. Two cooperatives, while not objecting to the proposed Class I differential, proposed to increase the effective Class I price at certain pool plants by eliminating the minus location adjustment applicable at such plants. They proposed that the location adjustment zones of −3, −5, −7, and that portion of the −9-cent zone south of the northern edge of Oceana and Newago Counties be changed to a zero zone. One of the latter cooperatives asked that the direct delivery differential zones of plus 4 and plus 8 cents remain in effect. The other cooperative expressed no position on the direct delivery differentials. Its members do not ship milk to plants located in the area where such differentials apply.

V 38-16 JAN 24 73 XUM

The proposal by the two cooperatives would remove the minus location adjustments effective at plants in the southern half of the Lower Peninsula of Michigan. In support of their proposal witnesses for the associations stated that all producers should receive the same price for milk delivered to plants throughout such territory. They contended that the minus location adjustments amounted to a subsidy for handlers in the central and western part of the Lower Peninsula. They stated that distributing plants in the western and central part of the State have routes extending into the Detroit area and Detroit handlers have routes extending over much of the State. For this reason they believed the same Class I price should be applied at the plants of all such handlers and requested that minus location adjustments not apply in the southern part of the Lower Peninsula of Michigan.

Handlers with plants located in or near the Detroit metropolitan area proposed that the direct-delivery differential zones of plus 4 cents and plus 8 cents be eliminated. They also proposed an increase in the Class I price differential to avoid any loss in returns to producers by elimination of the direct-delivery price zones. In addition, at the hearing, they suggested the adoption of hauling credits from pool funds for producer milk shipped in excess of 60 miles to pool distributing plants. In their brief, however, they contended that this would not be a necessary part of eliminating direct delivery zones. Handler witnesses cited the overlap of sales competition between Detroit handlers and handlers in the balance of the market as the reason for their proposal. They contend that the present price adjustments result in too wide a disparity in the cost of raw milk for competing handlers. In their view the present minus location adjustment structure under the Southern Michigan order should provide the necessary incentive to move milk to the fluid outlets in the market.

Cooperatives favoring retention of the plus 8-cent and plus 4-cent direct-delivery differentials pointed out the need for such incentive to attract milk from the production areas to the primary consumption area. They stated that 50 percent of the population of the Lower Peninsula of Michigan resides in the Detroit metropolitan area. Approximately 65 percent resides in the plus 8-cent, plus 4-cent, and zero zones. Total deliveries of milk to plants in such zones in 1971 amounts to 61 percent of the total milk marketed under the Southern Michigan order. Seventy-seven percent of the total Class I sales by Southern Michigan handlers in March 1972 was made by plants located in the Detroit area. Sixty percent of the total Class I sales is made by plants located in the plus 8-cent and plus 4-cent zones and 17 percent by handlers with plants in the zero zone.

The location adjustment rate structure under the present Southern Michigan order was last revised effective May 1968, based upon evidence adduced at a hearing held in May 1967. That revision adopted a "direct-delivery" differential of 8 cents for milk delivered to plants in Wayne County and in the townships of Royal Oak and Southfield in Oakland County, and of 4 cents for milk delivered to plants located in the remaining townships of Oakland County.

Direct-delivery differentials were first established in the Southern Michigan order in August 1965. At that time, a rate of 4 cents per hundredweight was applied to all milk received from farms at plants located in the major portion of Wayne County and in two townships of Oakland County. The general basis for the direct-delivery differential was discussed in the decision on amendments to the Southern Michigan order issued on June 15, 1965, which was based on the record of a 1964 hearing.

Institution of a plus 8-cent direct-delivery differential zone in May 1968 was based upon testimony that an additional 15 to 18 million pounds of milk were needed monthly at plants in the Detroit metropolitan area.

The direct-delivery differentials are applicable at plant locations. It is common practice in the market for each producer to pay for shipping his milk from his farm to a plant. Hauling charges tend to increase as the distance from farm to plant increases. Accordingly, in the interest of maximizing his net return from the sale of his milk, each producer has an incentive to minimize his hauling payment by shipping to a plant close to his farm unless he is reimbursed for the added cost of shipping to a more distant plant.

The direct-delivery differentials are employed to effect reimbursement to producers for the added cost of shipping milk to plants located in the densely populated Metropolitan Detroit area compared to plants located closer to the outlying production areas wherein Detroit handlers compete with such other plant operators for producer milk supplies.

The use of such direct-delivery payment provisions tends to make producers indifferent as to whether they ship their milk to plants in and near Detroit or to outlying plants in the market, since their net return at the farm is the same in each case. Without the provisions, producers would tend to prefer to ship milk only to the plants located nearest their farms.

The record does not demonstrate that the direct-delivery differentials have resulted in handlers in the Detroit area attracting milk supplies in excess of their needs. Consequently, there is no reason to assume that any lesser price differential as between plants in the Detroit area and plants in the outlying parts of the market would provide sufficient price incentive to attract the needed milk supply to Detroit plants.

It is the combination of both the plus direct-delivery differentials applicable at plants in the Detroit metropolitan area and the minus location adjustments applicable at plants throughout the production area that induces the needed milk deliveries to plants in the Detroit metropolitan area. The elimination of either the plus or minus price adjustments would reduce the incentive to move milk to the city plants.

Both proposals would limit severely the importance of order pricing as the means of compensating for the cost of moving milk from farms to the primary consumption area. At the outset, a burden would fall on those producers supplying city plants. Consequently, such producers would tend to seek other plant outlets nearer their farms to avoid incurring the higher hauling cost to ship their milk to the city. This would tend to threaten the supply of milk available to distributing plants in and near Detroit.

The situation is avoided by the use of the present location adjustment structure in the market, since it is formulated to reflect the added transportation cost in moving milk from farms to Detroit area plants as compared to plants located nearer producers' farms.

In view of the above considerations, it is concluded that the proposals to change the location pricing structure in the market should be denied.

The location adjustments under the Southern Michigan order applicable at locations within the Upstate Michigan marketing area should be continued, as proposed by the cooperatives. Such adjustments provide for a location adjustment of minus 12 cents at any plant located in Manistee, Wexford, Crawford, Grand Traverse, or Kalkaska Counties. A minus 15-cent location adjustment is applicable at plants located in the remaining counties of the Upstate marketing area.

Such location adjustments under the Southern Michigan order would effect about the same Class I price differentials as now apply at plants under the Upstate Michigan order. Under the Upstate Michigan order, the plants at Cadillac, Charlevoix, and Cheboygan have a Class I differential of $1.49. The location adjustments adopted herein would result in a Class I price differential of $1.48 for the plant at Cadillac and a differential of $1.45 at the other two plants.

(b) *Class II price.* The Class II price under the merged order should be the Class III price for the month plus 15 cents. The Class III price is the lower of the basic formula price or a butter-nonfat dry milk formula price.

The Class II price adopted herein is the price currently effective under the Southern Michigan order. It also will provide the same level of Class II pricing currently effective under the Upstate Michigan order.

One cooperative proposed that the Class II price be the basic formula price plus 20 cents. Three other cooperatives proposed that the Class II price be the Class III price plus 20 cents.

Still another cooperative supplying handlers in Southern Michigan (Detroit) and the Ohio Valley (Toledo) with milk for cottage cheese asked that the Class II price not be changed.

Several handlers requested that no change be made in the Class II price effective under the Southern Michigan order. They were concerned that their principal competitors in neighboring orders would have a comparatively lower price if any of the other proposed methods of Class II pricing were adopted. These handlers noted that the Class II price for the Ohio Valley and Eastern Ohio-Western Pennsylvania order currently is the basic formula price plus 10 cents per hundredweight whereas one of the proposals would add 20 cents to the basic formula price.

It would not be appropriate at this time to establish a Class II price based upon the basic formula price plus 20 cents or the Class III price plus 20 cents in view of the lower price in neighboring markets wherein Southern Michigan handlers compete strongly for sales of Class II products. The Ohio Valley and Eastern Ohio-Western Pennsylvania orders classify as Class II most of the milk products that would be Class II under this order and price milk in such uses at the basic formula price plus 10 cents. During 1971 the Class II price of milk containing 3.5 percent butterfat averaged $4.91 in the Ohio Valley and Eastern Ohio-Western Pennsylvania orders compared to $4.92 in the Southern Michigan order.

In view of the competitive situation between Southern Michigan handlers and handlers in the Ohio Valley and Eastern Ohio-Western Pennsylvania markets, the current Class II pricing in the Southern Michigan order should be continued at this time.

(iii) *Distribution of proceeds to producers.* Marketwide pooling provisions now included in both the Southern Michigan and Upstate Michigan orders should be retained in the consolidated order. No proposals were made to change the method of pooling returns to producers under the combined order.

The base-excess plan of payments to producers under the Southern Michigan order should be continued under the merged order, subject to the changes considered below. A majority of the producers on the Upstate Michigan market belong to a cooperative that is now paying such producers on the basis of the Southern Michigan base-excess plan. Only nine producers on the Upstate market are not being paid in accordance with such base-excess plan. The record does not reveal any problem for such producers by being brought under such payment plan.

Base plan revision. Several provisions dealing with the application of bases should be modified.

Presently two or more persons with bases may combine those bases upon the formation of a bona fide partnership. The order, however, does not define a bona fide partnership. Cooperatives proposed that this provision be modified to provide that a bona fide partnership agreement must define the financial invested interest, financial and management responsibilities, division of income and expenses, and basis for sharing of profits or losses.

Such delineation of the terms of the partnership agreement should aid the market administrator in determining that the partnership agreement applies to a joint milk production business in which each partner shares in the profits (or losses), as opposed to a sales or rental arrangement under the guise of a partnership in an attempt to effect a transfer of base.

The proposed modification is appropriate since it provides guidelines for the market administrator in determining which partnerships are to be considered bona fide. Such change, likewise, will provide guidance to producers in establishing partnerships.

A base may be held jointly and be divided among the partners as specified in writing to the market administrator. Cooperatives proposed that this provision be modified to provide that a base may be held jointly through the formation of a bona fide partnership, provided such base is established by the partnership under the rules applicable to an individual producer establishing a base. This modification should be adopted since it clarifies the intent of the provision and does not represent any substantive change.

An additional modification would permit a producer to retain his base without loss for 12 months if quarantined from the market by reason of pesticide or herbicide residue in his milk supply as evidenced by Federal or State authority. This provision, proposed by cooperatives, would allow a producer to retain his base for 12 months if quarantined from the market for more than 45 days. The order now provides that a producer who does not deliver milk to any handler for 45 consecutive days may retain his base without loss for 12 months only if he suffers the complete loss of his barn, or a loss of 50 percent or more of his milk herd from brucellosis or bovine tuberculosis.

A producer who suffers the loss of either a barn or part of his herd has the capability of marketing some milk. A producer whose milk contains pesticide or herbicide residue, however, is unable to market any of his milk production. It is appropriate that producers with milk containing pesticide or herbicide residue, as well as producers suffering partial or total loss of milk production, be permitted to retain their base.

One cooperative proposed that the base rules be revised to allow a producer to hold his base for the following year if he shipped at least 80 percent of his base during the base-setting period, instead of 90 percent as now required by the order. The reason given for the proposed revision was that if a producer were required to ship only 80 percent of his base, he would not need to add cows to the herd during the fall months.

No specific reason was given on the record why a producer's production of milk from a herd of a given size should unavoidably decline more than 10 percent from one base-setting period to the next other than by causes covered by provisions discussed above. When such production decrease exceeds 10 percent, it seems likely that such decrease would be the result of a decrease in the size of the herd from one base-setting period to the next since average daily deliveries per producer are increasing in the market. In those instances in which the size of the herd has been reduced, it is appropriate to reduce the base of such producer accordingly. The current provision, which allows a producer's production to fall to 90 percent of the previous base without any reduction in the base earned, should be sufficient for normal variations in production resulting from causes other than herd reduction. For this reason, the proposal to permit a producer to retain his base if he ships only 80 percent of his base during the base-setting period is denied.

(iv) *Administrative provisions.*—(a) *Reload point.* A provision defining a reload point should be added to the order to distinguish between a reload point (pump-over station) and a plant.

A reload point should be defined as a location at which milk moved from a farm in a tank truck is transferred directly to another tank truck and commingled with other milk before entering a plant. If reload operation is on the premises of a plant, it should be considered a part of the plant operation.

For the last several years handlers have been bringing milk directly from the farm into the city of Detroit by using reload points. Since the current order is silent as to a specific defined distinction between a reload point and a supply plant, handlers proposed adoption of a plant definition to distinguish between a reload point and a plant for the purpose of making clear that milk is priced only at plants. They also proposed that the order should make clear that a distribution point should not be considered a plant.

Since the order now has definitions for a supply plant, a distributing plant, and route disposition the desired clarification in order language can appropriately be accommodated by adding a reload point definition and modifying the supply plant and route disposition definitions.

A distribution point is a separate facility used primarily for the transfer to vehicles of packaged fluid milk products moved there from a distributing plant. Operators of distributing plants often operate one or more distribution points in delivering fluid milk products to wholesale and retail accounts situated a substantial distance from their plants. The distribution facility is part of the delivery system and, accordingly, the route disposition definition should be modified to specifically include delivery through any distribution facility as route disposition.

Cooperatives proposed that milk moved to market through a reload point that is not a part of a supply plant operation be priced at the plant to which it is moved. If such milk is reloaded at a supply plant with storage facilities, the milk should be considered to be received at that point for pricing purposes.

Milk hauled directly from the farm to a pool plant is priced at the location of

V 38-16 JAN 24 73 XUM

the plant where received. Since a reloading point is only a means of consolidating farm bulk tank shipments in tank trucks with greater capacity, the price applied to such milk should continue to be that applicable at the plant where received.

If the reload point, however, has storage facilities, milk from farm bulk tank trucks may be either reloaded into an over-the-road tanker or unloaded into storage facilities for later transshipment. In such instance there is no precise means of determining the ultimate destination of each producer's milk. If the milk pumped into the storage tanks at the reload point is transferred to more than one plant, there is no means of identifying which producer's milk is transshipped to each of the other plants. In addition, there is no practicable means of verifying which producer's milk is reloaded into an over-the-road tanker and which producer's milk is unloaded into a storage tank. For these reasons all milk received at a plant having storage facilities should be priced at the location of such plant.

(b) *Other source milk definition.* Because of the revised classification plan, certain changes in the present other source milk definition are necessary. This definition would continue to serve, however, the present function of implementing the identification of various categories of receipts at a regulated plant.

At present, fluid milk products from any source other than producers, a cooperative acting as a handler for farm bulk tank milk, and pool plants are considered as other source milk. Under the revised classification plan, however, cream no longer would be defined as a fluid milk product. To facilitate the application of other provisions of the order, it is desirable, nevertheless, that fluid cream products, when in bulk form, continue to be treated in the same manner as fluid milk products for the purpose of applying the other source milk definition.

Other source milk should include any receipts in packaged form of fluid cream products, eggnog or yogurt (or any filled product resembling such products). These are Class II products under the revised classification plan.

Although no handler obligation would apply under the provisions adopted herein to these receipts of packaged Class II products, it is desirable for accounting purposes that such receipts be defined as other source milk. This accounting procedure will preclude the recordkeeping difficulties that might otherwise be experienced in accounting separately for inventories and sales of Class II products processed in the handler's plant versus those received at the plant in packaged form from other plants. As provided herein, such receipts of other source milk would be allocated directly to the handler's Class II utilization, rather than being allocated to the extent possible to the handler's lowest utilization as is provided in some cases for other types of other source milk.

The order now provides that manufactured products from any source that are reprocessed, or converted into, another product in the plant shall be considered as other source milk. For accounting purposes under the order, such manufactured products should include dry curd cottage cheese received at a pool plant to which cream is added before distribution to consumers. When used to produce cottage cheese or lowfat cottage cheese, the receipts of dry curd would be allocated under the adopted provisions directly to the handler's Class II utilization. No handler obligation would apply under the order to such receipt.

Other source milk should include any disappearance of manufactured milk products for which the handler fails to establish a disposition. Although the order does not specify such disappearance as other source milk, it is reasonable that each handler be required to account fully for all milk and milk products received or processed at his plant. Otherwise, a handler with inadequate records may have an opportunity to gain a competitive advantage over his competitors who properly account for all milk. Specifying any unexplained disappearance of manufactured milk products as other source milk will contribute to a uniform application of the regulatory plan to all handlers.

(c) *Substitution of regulatory agency for health authority.* "Regulatory agency" should be substituted for "health authority" wherever it appears in those sections of the Southern Michigan order defining "producer", "distributing plant", and "supply plant". Frequently the regulatory agency approving milk for fluid consumption is not termed a health authority. Accordingly, use of "regulatory agency" provides a more useful description of such agencies having jurisdiction in this field.

(d) *Obligations relative to other source milk.* The merged order should not provide for an additional charge to a handler for other source milk received from nonpool plants if it is classified as Class I milk by this order and a Class I price already has been assessed under any Federal order.

Under the present provisions of the Southern Michigan and Upstate Michigan orders a double charge on such Class I other source milk might result under the following circumstances. If producer milk is transferred in bulk from a pool plant regulated under any Federal milk order to an unregulated nonpool plant and is used as Class I milk, the pool plant operator is charged for this transfer of milk at the Class I price.

If, during the same month, an equivalent amount of bulk milk from this unregulated nonpool plant is transferred to a pool plant under either the Southern Michigan or Upstate Michigan order and is allocated to such pool plant's Class I utilization, the operator of the pool plant would be charged the difference between the Class I price and the uniform price for such receipt of other source Class I milk.

There is a tendency for plants to specialize in the processing of certain products, or in the packaging of products in particular types of containers. It is not uncommon for milk to be transferred from a pool plant to an unregulated nonpool plant for special processing and the finished products to be moved back into the regulated market. When milk is initially priced at the Class I price the market price structure is in no way undermined if such milk, or its equivalent, is disposed of for Class I use by the nonpool plant in a regulated market. Accordingly, the merged order should provide that the operator of a pool plant will have no obligation to the pool on such other source Class I milk.

This can be achieved by revising the allocation provisions and the procedure for computing the pool obligation of a pool plant operator as follows: Receipts of packaged fluid milk products at a pool plant from an unregulated supply plant would be allocated to the pool plant's Class I utilization to the extent that an equivalent amount of skim milk or butterfat disposed of to the unregulated plant by handlers fully regulated under any Federal order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order. This allocation would be made prior to any other allocation of receipts to the plant's Class I utilization, and no other obligation would apply to the milk so allocated to Class I. In the case of fluid milk products received in bulk form from an unregulated supply plant, the provisions setting forth a handler's pool obligation would specify that no payment would apply to any such milk allocated to Class I if, as just described for packaged milk, an equivalent amount of milk received at the unregulated plant has been priced as Class I milk under some other Federal order.

In this same connection, the provisions prescribing the obligation of a partially regulated distributing plant should be changed. When such plant's obligation is computed as though it were a pool plant, proper recognition must be given to any transfers to the plant from a regulated plant to the extent that the milk already has been priced as Class I milk under some Federal order. Also, in computing a partially regulated distributing plant's pool obligation on route sales in a Federal order marketing area, recognition should be given to any receipt of milk at such plant from another unregulated plant if an equivalent amount of milk received at the latter plant already has been priced as Class I milk under an order.

The Southern Michigan and Upstate Michigan orders now impose a handler assessment for administering the orders on all other source Class I milk except that received in fluid form from another order plant. This may include milk that already has been priced as Class I milk under some Federal order as described above. With the removal of any additional charge on such milk, the merged order should not provide for any assessment on such milk for administrative expenses. Such milk would be subject to

the comparable charge as applied under the order that initially priced the milk.

The merged order should provide that the Class I price for other source milk, when adjusted for location of the shipping plant, shall not be less than the Class III price.

A pool plant operator's obligation under the Southern Michigan and Upstate Michigan orders to the producer-settlement fund includes a payment on fluid milk products received from unregulated supply plants and allocated to Class I. The handler's obligation to the pool is determined by charging him at the Class I price and crediting him at the uniform price. The prices used are those applicable at the location of the unregulated supply plant, except that an adjustment to the uniform price is limited so that it may not be less than the Class III price.

No such limitation on the Class I price is provided in the two orders at present on other source milk allocated to Class I when adjusted for the location of the shipping plant. The merged order should limit the Class I price adjustment in the same way that the uniform price just mentioned is limited.

Providing that any adjusted Class I price applicable to other source milk be not less than the Class III price is appropriate under this order. Otherwise, under certain conditions a handler could receive payment from the producer-settlement fund on such milk. Such payment could result when the location differential for the distant plant is greater than the difference between the Class I and Class III prices. In this circumstance, producers under the order, in effect, would be providing the handler with a credit that reduces his cost for the distant milk below its value for manufacturing use at the point of purchase.

From the standpoint of marketing efficiency, the handler should not be provided an incentive, which would be at the expense of local producers, to import such distant milk into the local market. It is unreasonable to expect that such a handler credit should apply on the other source milk.

A similar situation now exists with respect to the obligation of the operator of a partially regulated distributing plant or an other order plant. In certain cases, the handler's obligation includes a payment to the producer-settlement fund at the difference between the Class I price applicable at his plant and either the uniform price or the Class III price. For the same reasons, the order should provide, in computing the obligation of such a handler also, that the Class I price, as adjusted for location, shall not be less than the Class III price.

(c) *Exclusion of nonreporting handler from uniform price computation.* A provision of the Southern Michigan order dealing with the computation of the pool value of milk containing 3.5 percent butterfat should be revised to provide for excluding the value of milk of any handler who has not filed his report of receipts and utilization or who has not paid for the previous month his obligation to the producer-settlement fund.

The current order provides that the market administrator shall compute the value of the pool by combining into one total the pool obligation of each handler. In the event that a handler has not filed his report the market administrator must decide whether to exclude such handler's value of milk in making the required computation or to delay the computation until a report is received. Obviously, the Market Administrator cannot delay the computation of the pool value indefinitely since he is required to announce at a prescribed time the prices to be paid producers for milk delivered during the preceding month. Accordingly, the order should be amended to provide that the value of milk of a handler who has not filed his report of receipt and utilization shall be excluded in computing the value of the pool.

The report of a handler who has not paid his obligation to the producer-settlement fund for the preceding month should be excluded in computing the value of the pool. If a handler has not paid his obligation to such fund during the previous month, the reserve funds of the producer-settlement fund might be depleted to an extent that the market administrator cannot make full payment to those handlers due to receive money from the producer-settlement fund. In such event the order provides for the market administrator to uniformly reduce his payments to handlers.

Since handlers who have a higher utilization than the average for the market would be required to make the full payment to producers, any reduction in payments to handlers due a credit from the producer-settlement fund should be kept at a minimum so that they, too, are able to make the full payment to their producers.

These provisions excluding from the computation of the pool value the reports of handlers who have not complied with certain reporting or payment provisions of the order are identical with those in most other Federal milk orders. They are appropriate for the merged order for the reasons previously stated.

A witness for Detroit handlers suggested that a later deadline for submitting reports of receipts and utilization be established in the order. They indicated that some handlers are experiencing a delay in obtaining some of the information they need to complete their reports. Specific reference was made to sales records from distant distribution points and information from plants to which producer milk is diverted.

Cooperative associations opposed any later date for filing handler reports of receipts and utilization if it would result in setting a later date for payments to producers.

The dates fixed under the order for the announcement of the uniform prices, payments to and from the producer-settlement fund, and payments to producers are all coordinated in sequence from the date fixed for filing reports of receipts and utilization. Consequently, to provide a later date for filing reports, it also would be necessary to set a corresponding later date for payments to producers.

Cooperatives opposed to a later reporting date, are also handlers under the order and file reports of receipts and utilization for the pool plants they operate. Presumably the situation faced by such cooperatives in compiling their reports in the time period now provided is similar to that of other handlers regulated under the order.

In this circumstance it is concluded that the record does not demonstrate sufficient basis for providing more time for filing reports of receipts and utilization at the expense of further delay in the date by which producers receive payment for their deliveries of milk.

Cooperatives were concerned that excluding handlers who had not paid their previous month's obligation to the producer-settlement fund might cause wide fluctuations from month to month in the level of uniform prices. As an alternative they suggested that the interest or overdue accounts be increased from 6 percent to 18 percent per year in order to encourage prompt payments to the producer-settlement fund. The current 6 percent rate, however, should be continued. The current record does not demonstrate that handlers are delinquent in making their payments to the producer-settlement fund.

(f) *Equivalent price.* The merged order should contain an equivalent price provision providing that if a price or pricing constituent needed by the market administrator in administering the order is not available, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

The Southern Michigan and Upstate Michigan orders presently use both "price quotation" and "price" to describe the formula pricing constituents and prices that must be available to the market administrator monthly in order for him to determine the class prices and the butterfat differentials. These formula pricing constituents and prices are (1) the Chicago butter price, (2) the weighted average of carlot prices per pound of nonfat dry milk solids, spray process, for human consumption, f.o.b. manufacturing plants in the Chicago area, and (3) the price per hundredweight for manufacturing grade milk f.o.b. plants in Wisconsin and Minnesota.

Although the various quotations now used in the order are specific price quotations, a different price constituent (e.g., a price index) that is reflective of one or more price quotations might under some circumstances be instituted in the order as a basis for determining class prices. Use of "price or pricing constituent" in the order language relating to use of equivalent prices will more appropriately express the intent of this provision of the order, and is therefore adopted in this decision.

V 38 - 16 JAN 24 73 XUM

(g) *Format of order provisions.* The format of the merged order is designed to provide a more logical positioning of provisions. The positioning of provisions within the merged order is the same as that recently incorporated in several Federal milk orders and proposed for a number of others. Such positioning is designed to achieve a uniform location of order provisions among all orders and to improve the arrangement of provisions therein.

The regrouping of provisions together with the redesignation of section numbers of the order is intended to result in a more compact order and a more precise grouping of related order provisions. In addition to redesignation of section numbers (and codified subunits), some changes have been made in section titles, introductory paragraphs and section content. In making these modifications, which conform with the format proposed generally for the various orders, no change is intended either in the intent or application of any provisions so affected.

The revised order attached hereto provides for a producer butterfat differential only. The handler and producer butterfat differential provisions under the Southern Michigan order have both used a differential factor of 0.113 times the Chicago butter price. The handler butterfat differential has been rounded to the nearest 0.1 of a cent and the producer butterfat differential has been rounded to the nearest 0.5 of a cent. Such different rounding procedures, however, have not resulted in any meaningful difference between the resultant butterfat differentials. Accordingly, a single butterfat differential is all that is needed. Moreover, with the use of a single producer butterfat differential the pooling of differential butterfat value is not necessary.

To effect simplification of order provisions and pooling procedures a single producer butterfat differential factor of 0.113 times the Chicago butter price, rounded to the nearest 0.1 cent is adopted and no provision is made for pooling the value of differential butterfat. This does not effect any change under the Southern Michigan order with respect to handler's cost of butterfat in producer milk.

The order attached to the recommended decision provided an individual plant basis of reporting and allocation. The Southern Michigan order, however, has provided a handler basis of reporting and allocation. Certain multiple plant handlers have followed a practice of reporting on a handler basis. The matter of type of reporting and allocation was not explored on the record. Accordingly, the handler basis of reporting and allocation is retained in the revised Southern Michigan order.

(h) *Advance announcement of prices for Class II and Class III milk.* A handler proposed that order prices for Class II and Class III milk be announced at the beginning of the month rather than at the end of the month during which the prices apply. The submission of the proposal, however, was contingent upon the adoption of a similar proposal in a recommended decision on classification in 33 markets and a seven-market final decision. Since the recommended decision on the 33 markets denies an earlier announcement for Class II and Class III prices, no further consideration is given herein to such proposal.

RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid tentative marketing agreements and orders:

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held;

(d) All milk and milk products handled by handlers, as defined in the tentative marketing agreement and the order as hereby proposed to be amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(e) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 2 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1040.85 of the aforesaid tentative marketing agreement and the order as proposed to be amended.

RULINGS ON EXCEPTIONS

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

MARKETING AGREEMENT AND ORDER

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Southern Michigan marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

DETERMINATION OF PRODUCER APPROVAL AND REPRESENTATIVE PERIOD

October 1972 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Southern Michigan marketing area is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on January 17, 1973.

RICHARD E. LYNG,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Southern Michigan marketing area

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Southern Michigan and Upstate Michigan marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The Southern Michigan order as hereby amended, and all of the terms and conditions thereof, which combine the Southern Michigan and Upstate Michigan marketing areas, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 2 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1040.85.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the orders regulating the handling of milk in the Southern Michigan and Upstate Michigan marketing areas shall be combined into one order—the Southern Michigan order. Part 1043 is superseded thereby, and such vacated part designation shall be reserved for future assignment. The handling of milk in the combined marketing area shall be in conformity to and in compliance with the terms and conditions of the Southern Michigan order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the Southern Michigan order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on December 5, 1972, and published in the FEDERAL REGISTER on December 9, 1972 (37 FR 26318; FR Doc. 72-21212), shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein subject to the following modifications:

1. In the index, centerheading "Uniform Price" is changed to "Uniform Prices" and centerheading "Base Excess Plan Provisions" is changed to "Base Excess Plan."

2. Sections 1040.9(a), 1040.30(a), 1040.41(a), 1040.43(a), 1040.44, 1040.52, 1040.60(g), and 1040.76(b)(2) are revised.

3. Clerical errors are corrected in §§ 1040.15(a) and 1040.16.

PART 1040—MILK IN SOUTHERN MICHIGAN MARKETING AREA

GENERAL PROVISIONS

Sec.
1040.1 General provisions.

DEFINITIONS

1040.2 Southern Michigan marketing area.
1040.3 Route disposition.
1040.4 [Reserved]
1040.5 Distributing plant.
1040.6 Supply plant.
1040.7 Pool plant.
1040.8 Nonpool plant.
1040.9 Handler.
1040.10 Producer-handler.
1040.11 [Reseved]
1040.12 Producer.
1040.13 Producer milk.
1040.14 Other source milk.
1040.15 Fluid milk product.
1040.16 Fluid cream product.
1040.17 Filled milk.
1040.18 Cooperative association.
1040.19 Call percentage.
1040.20 Reload point.

HANDLER REPORTS

1040.30 Reports of receipts and utilization.
1040.31 Payroll reports.
1040.32 Other reports.

CLASSIFICATION OF MILK

1040.40 Classes of utilization.
1040.41 Shrinkage.
1040.42 Classification of transfers and diversions.
1040.43 General classification rules.
1040.44 Classification of producer milk.
1040.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1040.50 Class prices.
1040.51 Basic formula price.
1040.52 Plant location adjustments for handlers.
1040.53 Announcement of class prices.
1040.54 Equivalent price.

UNIFORM PRICES

1040.60 Handler's value of milk for computing uniform prices.
1040.61 Computation of uniform prices for base milk and excess milk (including uniform price and adjusted uniform price).
1040.62 Announcement of uniform prices and butterfat differential.

PAYMENTS FOR MILK

1040.70 Producer-settlement fund.
1040.71 Payments to the producer-settlement fund.
1040.72 Payments from the producer-settlement fund.
1040.73 Payments to producers and to cooperative associations.
1040.74 Butterfat differential.
1040.75 Plant location adjustments for producers and on nonpool milk.
1040.76 Payments by handler operating a partially regulated distributing plant.
1040.77 Adjustment of accounts.
1040.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1040.85 Assessment for order administration.
1040.86 Deduction for marketing services.

BASE-EXCESS PLAN

1040.90 Base milk.
1040.91 Excess milk.
1040.92 Determination of base.
1040.93 Application of bases.
1040.94 Relinquishing a base.
1040.95 Computation of base.

GENERAL PROVISIONS

§ 1040.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1040.2 Southern Michigan marketing area.

"Southern Michigan marketing area," hereinafter referred to as the "marketing area," means all territory geographically within the places listed below, together with all piers, docks, and wharves connected therewith, and all craft moored thereat, and all territory wholly or partly therein occupied by Government (municipal, State or Federal) reservations, installations, institutions, or other similar establishments.

§ 1040.3 Route disposition.

"Route disposition" means a delivery, either directly or through any distribution facility (including a delivery by a vendor or sale from a plant or plant store) of any fluid milk product classified as Class I milk to a wholesale or retail outlet other than a delivery to any milk or filled milk plant.

§ 1040.4 [Reserved]

§ 1040.5 Distributing plant.

"Distributing plant" means a plant in which milk approved by any duly constituted regulatory agency for fluid consumption in the marketing area is processed or packaged and from which there is route disposition of fluid milk products in consumer-type packages or dispenser units in the marketing area.

§ 1040.6 Supply plant.

"Supply plant" means a plant in which milk approved by any duly constituted regulatory agency for fluid consumption in the marketing area is assembled and either processed or shipped in the form of a bulk fluid milk product to another milk processing plant. Such supply plant shall be equipped with stationary holding facilities.

§ 1040.7 Pool plant.

Except as provided in paragraph (c) of this section, "pool plant" means:

(a) A distributing plant, from which total route disposition except filled milk, during the month or during either of the 2 months immediately preceding is not less than 50 percent of receipts of producer milk and fluid milk products, except filled milk, from supply plants and cooperative associations pursuant to § 1040.9(c).

(b) A supply plant which during the month meets one of the performance requirements specified in subparagraphs (1), (2), or (3) of this paragraph and any applicable call percentage: *Provided*, That all supply plants which are operated by one handler, or all the supply plants for which a handler is responsible for meeting the performance requirements of this paragraph (b) under a marketing agreement certified to the market administrator by both parties, may be considered as a unit for the purpose of meeting the performance requirements of subparagraphs (1), (2), or (3) of this paragraph upon written notice to the market administrator specifying the plants to be considered as a unit and the period during which such consideration shall apply. Such notice and notice of any change in designation, shall be furnished on or before the fifth working day following the month to which the notice applies. In any months of April through September a unit shall not contain any plant which was not qualified under this paragraph either individually or as a member of a unit during the previous October through March.

(1) A plant from which the milk moved during the month to a distributing plant(s) qualified under paragraph (a) of this section is not less than 40 percent of the call percentage, whichever is higher, in any month October through March, and 30 percent or the call percentage, whichever is higher, in any month April through September, of the following net quantity: Subtract from the monthly receipts of Grade A milk at the plant (including receipts of a handler described in § 1040.9(c), (i) any receipts by transfer or diversion from another plant, and (ii) any milk utilized by the handler operating the plant qualifying pursuant to this paragraph for his own Class I disposition in consumer packages. If such plant has meet the required percentage during each of the months of October through March, it shall remain qualified under this subparagraph for each of the following months of April through September during which it meets any announced call percentage.

(2) A plant operated by a cooperative association which supplies distributing plants qualified under paragraph (a) of this section, either by shipment from such supply plant or by direct delivery from the farm, (i) not less than one-half of its total member producer milk in the current month, or (ii) if such plant were qualified under this subparagraph in each of the preceding 13 months, not less than one-half of its total member producers' milk for the second through the 13th preceding months, except that in either case an announced call percentage exceeding 50 percent in the current month must be met.

(3) A plant located in the marketing area operated by a cooperative association, which plant has been a pool plant for 12 consecutive months but is not otherwise qualified under this paragraph, on meeting the following conditions:

(i) The cooperative has a marketing agreement with another cooperative whose members deliver at least 50 percent of their milk during the month directly to distributing plant(s) qualified under paragraph (a) of this section; and

(ii) The aggregate monthly quantity supplied by both such cooperatives to such distributing plants either by shipment from the cooperative's plant or by direct delivery from farms is not less than 50 percent or the call percentage, whichever is higher, of the combined total of their member producer milk deliveries during the month.

(4) On written request by the handler or cooperative for the nonpool status of any plant automatically qualified as a pool plant under this paragraph April through September, made to the market administrator prior to the beginning of any month during such period, the plant shall be a nonpool plant for such month and thereafter until it requalifies under subparagraph (1) of this paragraph on the basis of actual shipments therefrom. To requalify as a pool plant under subparagraph (2) or (3) of this paragraph or on unit basis, such plant must first have met the shipping requirements of subparagraph (1) of this paragraph for 6 consecutive months.

(c) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant; and

(3) A plant or facility at which during the month milk is fully subject to the classification, pricing, and payment provisions of another order issued pursuant to the Act and a greater volume of fluid milk products, except filled milk, is disposed of from such plant as route disposition in the marketing area and to pool plants regulated pursuant to such other order than is so disposed of in the Southern Michigan marketing area. A handler operating such plant shall be exempt for such month from all provisions of this part except §§ 1040.30(d), 1040.71(b), and 1000.5 of this chapter.

§ 1040.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the class pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined under this or any other Federal order issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant, a producer-handler plant nor an exempt plant and from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which a fluid milk product is shipped during the month to a pool plant.

(e) "Exempt plant" means a plant, other than a plant described in paragraph (b) of this section, located outside the marketing area from which there is route disposition within the marketing area but from which the route disposition wholly or partly within the marketing area averages less than 600 pounds per day for the month, and from which no milk is transferred to other handlers. Only §§ 1040.32 and 1000.5 of this chapter shall apply to an exempt plant.

§ 1040.9 Handler.

"Handler" means:

(a) Any person who operates a pool plant;

(b) Any cooperative association with respect to producer milk diverted in accordance with § 1040.13 for the account of such association;

(c) Any cooperative association with respect to milk of its member producers which is delivered directly from the farm to the pool plant of another handler in a tank truck owned, operated by, or under contract to such cooperative association for the account of such cooperative association (such milk shall be considered as having been received by such cooperative association at a location identical to that of the pool plant to which it is delivered);

(d) Any person who operates a partially regulated distributing plant;

(e) Any producer-handler; and

(f) Any person in his capacity as the operator of an other order plant from which fluid milk products are distributed on routes in the marketing area or shipped to a pool plant.

§ 1040.10 Producer-handler.

"Producer-handler" means a person who:

(a) Operates a dairy farm and a milk plant from which there is route disposition in the marketing area and who received fluid milk products only from his own production or by transfer from a pool plant and no milk products other than fluid milk products for reconstitution into fluid milk products; and

(b) Provides proof that: (1) The care and management of all dairy animals and other resources necessary to produce the entire volume of fluid milk products handled (excluding receipts by transfer from a pool plant); and (2) the operation of the processing business is the personal enterprise and risk of such person.

§ 1040.11 [Reserved]

§ 1040.12 Producer.

"Producer" means any person, other than a producer-handler under any Federal order, who produces milk approved by any duly constituted regulatory agency for fluid consumption in the marketing area, which is moved to a pool plant or diverted pursuant to § 1040.13 from a pool plant to another plant. The term shall include such a person with respect to milk diverted to a pool plant from an other order plant (unless designated for Class III use) during any month in which the quantity diverted is greater than the quantity of milk physically received from such person at the plant from which diverted and such milk is exempt from the pooling provisions of the other order.

§ 1040.13 Producer milk.

"Producer milk" means all skim milk and butterfat contained in milk:

(a) Received from producers at a pool plant or by a cooperative association in its capacity as a handler pursuant to § 1040.9(c); and

(b) Diverted to a nonpool plant (except a producer-handler plant) by the operator of a pool plant or a cooperative association as a handler pursuant to § 1040.9(b) subject to the following conditions:

(1) In any month that less than 6 days' production of a producer is delivered to pool plants the quantity of milk of the producer diverted during the month shall not be producer milk.

(2) In any month of October through March, the quantity of milk of any producer diverted to nonpool plants that exceeds the quantity of such producer's milk physically received at pool plants, as measured by days of production, shall not be producer milk. The days of production last diverted, which exceed the days of production received at pool plants shall not be producer milk.

(3) Milk which is subject to pooling under another Federal order, shall not be producer milk.

§ 1040.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk fluid cream products from any source other than producers, handlers described in § 1040.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1040.40(b)(1);

(c) Products (other than fluid milk products and products specified in § 1040.40(b)(1)) from any source (including those products produced at the plant) which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1040.40(b)(1)) for which the handler fails to establish disposition.

§ 1040.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk products" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in subparagraph (1) of this paragraph or in § 1040.40 (b) or (c)(1) (i) through (viii) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1040.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1040.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

§ 1040.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers, which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1040.19 Call percentage.

"Call percentage" means the monthly percentage computed by the market administrator as follows:

(a) Estimate the aggregate pounds of Class I milk utilization, except filled milk, for the month including an additional 15 percent thereof as an operating margin, at pool distributing plants;

(b) Subtract therefrom the estimated pounds of milk which will be received at pool distributing plants during the month directly from producers' farms and from cooperative associations pursuant to § 1040.9(c);

(c) Divide any plus balance of estimated Class I milk, except filled milk, remaining by the estimated receipts of producer milk for the month at the supply plants;

(d) The announcement of the call percentage shall be made on or before the 1st day of the month to which it applies and shall set forth the data on which the estimates of Class I utilization and producer milk supplies are based, together with appropriate explanatory comments on the computations involved; and

(e) The market administrator may reduce the call percentage at any time during the month if he determines that more milk than is needed for Class I use is being delivered to pool distributing plants.

V 38 - 16 JAN 24 73 XUM

Any such reduction shall not result in a percentage requirement less than 40 in any month October through March.

§ 1040.20 Reload point.

"Reload point" means a location at which milk moved from a farm in a tank truck is transferred directly to another tank truck and commingled with other milk before entering a plant. A reload operation on the premises of a plant shall be considered a part of the plant operation.

HANDLER REPORTS

§ 1040.30 Reports of receipts and utilization.

On or before the fifth working day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1040.9(c);

(3) Receipts of fluid milk products and fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1040.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1040.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1040.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1040.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1040.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1040.32 Other reports.

(a) Each handler described in § 1040.9 (a), (b), and (c) shall report to the market administrator on or before the fifth working day after the end of the month, the aggregate quantities of base milk, excess milk, and milk to be paid for either at the uniform or adjusted uniform price.

(b) In addition to the reports required pursuant to paragraph (a) of this section and §§ 1040.30 and 1040.31, each handler and each operator of an exempt plant shall report such other information as the market administrator deems necessary to verify or establish such person's obligation under the order.

(c) When a holiday prevents normal business activities on any day except Sunday during the first 15 days of the month, those of the dates specified in §§ 1040.30, 1040.62, 1040.71, 1040.72, 1040.73, 1040.76, 1040.85, and 1040.86 which follows such holiday shall be postponed by the number of days lost as a result of such holiday.

CLASSIFICATION OF MILK

§ 1040.40 Classes of utilization.

Except as provided in §1040.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1040.30 shall be classified as follows:

(a) *Class I milk.* Except as provided in paragraph (c) of this section, Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Except as provided in paragraph (c) of this section, Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, or any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt. Any product specified in this subparagraph that is modified by the addition of nonfat milk solids shall be Class II milk in an amount equal only to the weight of an equal volume of an unmodified product of the same nature and butterfat content;

(2) In packaged inventory at the end of the month of the products specified in subparagraph (1) of this paragraph; and

(3) Used to produce cottage cheese, lowfat cottage cheese, and dry curd cottage cheese.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter, plastic cream, frozen cream, and anhydrous milkfat;

(iii) Any milk product in dry form;

(iv) Milk shake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(v) Custards, puddings, and pancake mixes;

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers;

(vii) Evaporated or condensed milk (plain or sweetened) in a consumer-type package, evaporated or condensed skim milk (plain or sweetened) in a consumer-type package, and any concentrated milk product in bulk, fluid form;

(viii) Any product containing 6 percent or more nonmilk fat (or oil) except those products specified in paragraph (b)(1) of this section; and

(ix) Any product that is not a fluid milk product and that is not specified in subdivisions (i) through (viii) of this subparagraph or in paragraph (b) of this section;

(2) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages;

(3) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(4) In fluid milk products and products specified in paragraph (b) of this section that are disposed of by a handler for animal feed;

(5) In fluid milk products and products specified in paragraph (b) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(6) In skim milk in any modified fluid milk product or modified product specified in paragraph (b)(1) of this section that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition or classified as Class II milk, as the case may be; and

(7) In shrinkage assigned pursuant to § 1040.41(a) to the receipts specified in § 1040.41(a)(2) and in shrinkage specified in § 1040.41 (b) and (c).

§ 1040.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1040.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in subparagraph (1) of such paragraph that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1040.9(c) and in milk diverted to such plant from another pool plant, except that in either case if the operator of the plant to which the milk is delivered purchases the milk on the basis of weights determined by farm bulk tank calibration and butterfat tests bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined by farm bulk tank calibration and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from other order plants, excluding milk received by diversion and the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk milk transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in subparagraphs (1), (2), (4), (5), and (6) of this paragraph; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1040.9 (b) or (c) but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined by farm bulk tank calibration and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1040.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant except as provided in § 1040.43(d) shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1040.44(a)(12) and the corresponding step of § 1040.44(b);

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1040.44(a)(7) or the corresponding step of § 1040.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1040.44(a)(11) or § 1040.44(a)(12) or the corresponding steps of § 1040.44(b)), the skim milk or butterfat so transferred or diverted up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in subparagraph (1), (2), or (3) of this paragraph:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers, or diversions in bulk form shall be classified as Class II or Class III to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For the purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1040.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in (a) and (b) of this subdivision are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in subdivisions (ii) through (viii) of this subparagraph:

(a) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1040.30 for the month within which such transaction occurred; and

V 38-16 JAN 24 73 XUM

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization and then to Class I utilization at such nonpool plant; and

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1040.43 General classification rules.

In determining the classification of producer milk pursuant to § 1040.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1040.30 and shall compute the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1040.40, 1040.41, and 1040.42.

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids;

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1040.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association; and

(d) Milk in bulk delivered by a cooperative association as a handler under § 1040.9(c) or from the pool plant of a cooperative association to a handler's pool plant shall be classified according to use or disposition by the latter handler and the value thereof at the class prices shall be included in his value of milk pursuant to § 1040.60.

§ 1040.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1040.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to subparagraph (7) (vi) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1040.40(b) (1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Except for the first month that a pool plant is subject to this subparagraph, subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1040.40(b) (1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to (excluding the quantity of such skim milk that was classified as Class III milk pursuant to § 1040.40(c) (6)), any product specified in § 1040.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and packaged inventory at the beginning of the month of products specified in § 1040.40(b) (1) that was not subtracted pursuant to subparagraphs (4), (5), and (6) of this paragraph;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to subparagraph (2) of this paragraph; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraphs (2) and (7) (v) of this paragraph for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraphs (2), (7) (v), and (8) (i) of this paragraph which are in excess of the pounds of skim milk determined by subtracting from 125 percent of the pounds of skim milk remaining in Class I at this allocation step the sum of the pounds of skim milk in receipts of producer milk, milk from a handler described in § 1040.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to subparagraph (7) (vi) of this paragraph; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to subparagraph (7) (vi) of this paragraph, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1040.40(b) (1) in inventory at the beginning of the month that were not subtracted pursuant to subparagraph (5) of this paragraph;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(11) Subtract from the pounds of skim milk remaining in each class pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step, with the quantity prorated to Class II and Class III combined being subtrated first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraphs (2), (7) (v) and (8) (i) and (ii) of this paragraph and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to subparagraphs (7) (vi) and (8) (iii) of this paragraph:

(i) Subject to the provisions of subdivision (ii) of this subparagraph, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1040.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step; and

(ii) Should the proration pursuant to subdivision (i) of this subparagraph result in the total pounds of skim milk that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1040.42 (a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received pursuant to § 1040.43 (d), subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to § 1040.44(a) (14) and the corresponding step of § 1040.44(b).

§ 1040.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1040.44(a) (12) and the corresponding step of § 1040.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1040.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

Class Prices

§ 1040.50 Class prices.

Subject to the provisions of § 1040.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.60.

(b) *Class II price.* The Class II price shall be the Class III price plus 15 cents.

(c) *Class III price.* The Class III price shall be the basic formula price, but not to exceed an amount computed as follows:

(1) Multiply by 4.2 the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

(2) Multiply by 8.2 the weighted average of carlot prices per pound of nonfat dry milk solids, spray process, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 48 cents, and round to the nearest cent.

§ 1040.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1040.52 Plant location adjustments for handlers.

(a) For producer milk received at a pool plant and classified as Class I milk

V 38-16 JAN 24 73 XUM

without movement in bulk to another pool plant and for which a location adjustment is applicable, the Class I price computed pursuant to § 1040.50(a) shall be reduced pursuant to subparagraph (1) or (2) of this paragraph on the basis of the applicable rate per hundredweight for the location of such plant.

(1) *Zone rates.* For a plant located within the following described territory, including the cities located therein, the applicable zone rates shall be as follows:

MICHIGAN COUNTIES

ZONE I—NO ADJUSTMENTS

Genesee.	Monroe.
Lenawee.	Oakland.
Macomb.	Wayne.

Bay (except Gibson, Mount Forest, Pinconning, Garfield, and Fraser Townships).

Saginaw (except Jonesfield, Richland, Lakefield, Fremont, Marion, Brant, Chapin, Brady, Chesaning, and Maple Grove Townships).

St. Clair (except Berlin, Riley, Mussey, Emmett, Lynn, Brockway, Greenwood, Grant, and Burtchville Townships).

Washtenaw (except Manchester, Bridgewater, Sharon, Freedom, Sylvan, Lima, Lyndon, and Dexter Townships).

ZONE II—3 CENTS

Ingham.	Livingston.
Jackson.	

Washtenaw (all the townships excluded from Zone I).

ZONE III—5 CENTS

Arenac.	Isabella.
Clinton.	Lapeer.
Eaton.	Midland.
Gladwin.	Sanilac.
Gratiot.	Shiawassee.
Huron.	Tuscola.

Bay (all the townships excluded from Zone I).

Ionia (except Otisco, Orleans, Keene, Easton, Boston, Berlin, Campbell, and Odessa Townships).

Montcalm (except Reynolds, Winfield, Cato, Belvidere, Pierson, Maple Valley, Pine, Douglass, Montcalm, Sidney, Eureka, and Fairplain Townships).

Saginaw (all the townships excluded from Zone I).

St. Clair (all the townships excluded from Zone I).

ZONE IV—7 CENTS

Barry.	Kalamazoo.
Branch.	Kent.
Calhoun.	Mecosta.
Hillsdale.	St. Joseph.

Allegan (all the townships excluded from Zone V).

Ionia (all the townships excluded from Zone III).

Montcalm (all the townships excluded from Zone III).

ZONE V—9 CENTS

Berrien.	Newaygo.
Cass.	Oceana.
Clare.	Ogemaw.
Iosco.	Osceola.
Lake.	Ottawa.
Mason.	Roscommon.
Missaukee.	Van Buren.
Muskegon.	

Allegan (except the townships of Dorr, Gunplain, Hopkins, Leighton, Martin, Otsego, Watson, and Wayland).

ZONE VI—12 CENTS

Alcona.	Manistee.
Crawford.	Oscoda.
Grand Traverse.	Wexford.
Kalkaska.	

ZONE VII—15 CENTS

Alpena.	Emmet.
Antrim.	Leelanau.
Benzie.	Montmorency.
Charlevoix.	Otsego.
Cheboygan.	Presque Isle.

(2) *Mileage rate.* For any plant at a location outside the territory specified in the preceding subparagraph (1) of this paragraph, the applicable adjustment rate per hundredweight shall be based on the shortest highway distance between the plant and the nearest point in such territory as determined by the market administrator, and shall be the amount of the zone differential applicable at such point plus 1 cent for each 10 miles or fraction thereof from such point.

(b) For fluid milk products transferred in bulk from a pool plant to a pool plant described in § 1040.7(a), the operator of the transferee-plant shall receive credit at the applicable zone or mileage rate, based on the location of the transferor-plant. The total volume on which such credit is computed shall be limited to the amount by which 108 percent of Class I disposition at the transferee-plant is in excess of the sum of receipts at such plant: (1) From producers, (2) from cooperative associations pursuant to § 1040.9(c), and (3) from other order plants and unregulated supply plants which are assigned in Class I, such assignment of receipts from the transferor-plant to be pro rata to receipts of fluid milk products from all transferor pool plants.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1040.53 Announcement of class prices.

The market administrator shall announce publicly on or before the 5th day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1040.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICES

§ 1040.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1040.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk and milk received pursuant to § 1040.43(d) in each class as determined pursuant to § 1040.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1040.44(a)(14) and the corresponding step of § 1040.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1040.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1040.44(a)(9) and the corresponding step of § 1040.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1040.44(a)(7)(i) through (iv) and the corresponding step of § 1040.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1040.44(a)(7)(v) and (vi) and the corresponding step of § 1040.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1040.44(a)(11) and the corresponding step of § 1040.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) For the 1st month that this paragraph is effective with respect to handlers regulated under this part during the preceding month, subtract the amount obtained from multiplying the difference between the Class I price for the preceding month applicable at the location of the pool plant and the Class III price for the preceding month by the hundredweight of skim milk and butterfat in any fluid milk product or product specified in § 1040.40(b) that was in the plant's inventory at the end of the preceding month and classified as Class I milk. For the first month that this paragraph is effective with respect to handlers regulated under Part 1043 during the preceding month, subtract the amount obtained from multiplying the difference between the Class II price and the Class III price for the preceding month by the hundredweight of skim milk and butterfat in any fluid milk product or product specified in § 1040.40(b) that was in the plant's inventory at the end of the preceding month and classified as Class II milk.

§ 1040.61 Computation of uniform prices for base milk and excess milk (including uniform price and adjusted uniform price).

For each month the market administrator shall compute:

(a) The 3.5-percent value of all milk by:

(1) Combining into one total the values computed pursuant to § 1040.60 for all handlers who filed the reports prescribed by § 1040.30 for the month and who made the payments pursuant to § 1040.71 for the preceding month;

(2) Adding the aggregate of the values of the applicable location adjustments pursuant to § 1040.75(a)(1); and

(3) Adding not less than one-half of the unobligated balance in the producer-settlement fund.

(b) A uniform price as follows:

(1) Divide the aggregate value computed pursuant to paragraph (a) of this section by the sum of the following:

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1040.60(f); and

(2) Subtract not less than six nor more than 7 cents from the price computed pursuant to paragraph (a) of this section.

(c) An adjusted uniform price for the purpose of payments pursuant to § 1040.92(c) by deducting from the uniform price computed pursuant to paragraph (b) of this section 25 percent of the difference between the uniform price and the excess milk price, rounded to the nearest cent.

(d) The excess milk price which shall be the Class III price pursuant to § 1040.50(c).

(e) A uniform price for base milk as follows:

(1) Multiply the total pounds of excess milk for the month by the excess milk price;

(2) Multiply the total amount of milk to be paid for at the uniform price pursuant to § 1040.92(d) and (e)(2) by the uniform price for the month;

(3) Multiply the total amount of milk to be paid for at the adjusted uniform price pursuant to § 1040.92(c) by the adjusted uniform price for the month;

(4) Subtract the total values arrived at in subparagraphs (1), (2), and (3) of this paragraph and § 1040.71(a)(2)(ii) from the total 3.5-percent value of all producer milk arrived at in paragraph (a) of this section;

(5) Divide the resultant value by the total hundredweight of base milk; and

(6) Subtract not less than 6 cents nor more than 7 cents. The resultant hundredweight price shall be the uniform price of base milk of 3.5-percent butterfat content.

§ 1040.62 Announcement of uniform prices and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The 5th day after the end of each month the butterfat differential for such month; and

(b) The 11th day after the end of each month the uniform price, the adjusted uniform price, the price for base milk, and the price for excess milk.

PAYMENTS FOR MILK

§ 1040.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 1040.71, 1040.76, and 1040.77 and out of which he shall make all payments due handlers pursuant to §§ 1040.72 and 1040.77.

§ 1040.71 Payments to the producer-settlement fund.

(a) On or before the 13th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in subparagraph (1) of this paragraph exceeds the amount specified in subparagraph (2) of this paragraph:

(1) (i) The total value of milk of the handler for such month as determined pursuant to § 1040.60; or

(ii) In the case of a cooperative association which is a handler, the value, at the uniform price for base milk, of milk delivered to other handlers pursuant to § 1040.43(d).

(2) The sum of:

(i) The value of such handler's receipts of producer milk as specified in § 1040.73 excluding any applicable location adjustment pursuant to § 1040.75(a)(2) and (3); and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1040.60(f).

(b) On or before the 25th day after the end of the month each handler who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in subparagraph (1) of this paragraph to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1040.72 Payments from the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1040.71(a)(2) exceeds the amount computed pursuant to § 1040.71(a)(1). The market administrator shall offset any payment due any handler against payments due from such handler. If the balance in the producer-settlement fund is insufficient to make all payments to all handlers pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds become available.

§ 1040.73 Payments to producers and to cooperative associations.

(a) Except as provided by paragraph (b) of this section, on or before the 15th day of each month, each handler (except a cooperative association) shall pay each producer for milk received from him during the preceding month, not less than an amount of money computed by multiplying the total pounds of such milk by the applicable uniform prices computed pursuant to § 1040.61 adjusted by the location and butterfat differentials pursuant to §§ 1040.75 and 1040.74, respectively, less the payment made pursuant to paragraph (d) of this section and any proper deductions authorized by the producer. If by such date such handler has not received full payment for such month pursuant to § 1040.72 he may reduce such payments uniformly per hundredweight for all producers, by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the association, each handler shall pay to the cooperative association on or before the second day prior to the end of the month an amount equal to the payments authorized pursuant to paragraph (d) of this section, and on or before the 13th day of each month, in lieu of payments pursuant to paragraph (a) of this section, an amount equal to the gross sum due for all such milk received from certified members, less amounts owing by

V 38-16 JAN 24 73 XUM

each member-producer to the handler for supplies purchased from him on prior written order or as evidenced by a delivery ticket signed by the producer.

(i) Each handler shall submit to the cooperative association written information on or before the sixth working day of each month which shows for each such member-producer:

(i) The total pounds of milk received from him during the preceding month;

(ii) The total pounds of butterfat contained in such milk;

(iii) The number of days on which milk was received; and

(iv) The amounts withheld by the handler in payment for supplies sold;

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler shall be made by written notice to the market administrator, and shall be subject to his determination; and

(3) The foregoing payment and the submission of information pursuant to subparagraph (1) of this paragraph, shall be made with respect to milk of each producer whom the cooperative association certifies is a member, which is received on and after the first day of the month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the association.

(c) On or before the 13th day after the end of each month, each handler shall pay a cooperative association, which is a handler with respect to milk received by him from a pool plant operated by such cooperative association, or by bulk tank delivery pursuant to § 1040.9(c), not less than an amount computed by multiplying the uniform price for base milk subject to the location adjustment, if any, applicable at the transferee-plant as provided by § 1040.75 and the butterfat differential provided by § 1040.74 by the total hundredweight of milk received by such handler from the cooperative association.

(d) On or before the last day of each month for producer milk received during the first 15 days of the month at not less than the Class III milk price for the preceding month.

§ 1040.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the base price and excess price or the uniform prices shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.113 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1040.75 Plant location adjustments for producers and on nonpool milk.

(a) Subject to the conditions of paragraph (b) of this section, in making payments to producers or cooperative associations pursuant to § 1040.73 each handler:

(1) May deduct for base milk and milk to be paid for at the uniform price or adjusted uniform price the rate per hundredweight applicable pursuant to § 1040.52(a) (1) or (2) for the location of the plant at which the milk was first physically received.

(2) Shall add not less than 4 cents per hundredweight with respect to milk received from producers and cooperative associations pursuant to § 1040.9(c) at a pool plant located in those townships, including the cities located therein, of Oakland County other than Royal Oak and Southfield, all in the State of Michigan.

(3) Shall add not less than 8 cents per hundredweight with respect to milk received from producers and cooperative associations pursuant to § 1040.9(c) at a pool plant located within Wayne County and the townships of Royal Oak and Southfield including the cities located therein, in Oakland County, all in the State of Michigan.

(b) When milk of an individual producer is physically received at more than one location (including any nonpool plant) during the month, the location adjustment rate shall be the weighted average (rounded to the nearest one-half cent) of the amounts computed for the respective locations, except that if 65 percent or more of such producer's milk is delivered to a plant or plants at which the same rate is applicable, such rate shall be applicable to all deliveries of such producer during the month regardless of point of delivery.

(c) For purposes of computation pursuant to §§ 1040.71 and 1040.72, the uniform price shall be adjusted at the rates set forth in § 1040.52 applicable at the location of the nonpool plant from which the other source milk was received except that the uniform price by such adjustment shall not be less than the Class III price.

§ 1040.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1040.30(b) and 1040.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in subparagraph (3) of this paragraph by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1040.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to subdivision (i) of this subparagraph. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1040.60 shall be

priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(ii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1040.60 for such handler shall include, in lieu of the value of other source milk specified in § 1040.60(f) less the value of such other source milk specified in § 1040.71(a)(2)(ii), a value of milk determined pursuant to § 1040.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1040.7(b)(1), subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1040.30(b) and 1040.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1040.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to subparagraph (1) of this paragraph, subtract:

(i) The gross payments (adjusted to 3.5 percent butterfat value using the butterfat differential pursuant to § 1040.74) by the operator of such partially regulated distributing plant for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If subparagraph (1)(iii) of this paragraph applies, the gross payments (adjusted to 3.5 percent butterfat value using the butterfat differential pursuant to § 1040.74) by the operator of such nonpool supply plant for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if subparagraph (1)(iii) of this paragraph applies.

§ 1040.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due:

(a) To the market administrator from such handler;

(b) To such handler from the market administrator; or

(c) To any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred, following the fifth day after such notice.

§ 1040.78 Charges on overdue accounts.

Any unpaid obligation of a handler or of the market administrator pursuant to §§ 1040.71, 1040.77, 1040.85, and 1040.86, shall be increased one-half of 1 percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

Administrative Assessment and Marketing Service Deduction

§ 1040.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler (excluding a handler described in § 1040.9(c) with respect to milk delivered to pool plants) shall pay to the market administrator on or before the 13th day after the end of the month 2 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including milk of such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1040.44(a) (7) and (11) and the corresponding steps of § 1040.44(b), except such other source milk that is excluded from the computation pursuant to § 1040.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1040.76(a)(2).

§ 1040.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments pursuant to § 1040.73(a) for milk received from each producer (including milk of such handler's own production) at a plant not operated by a cooperative association of which such producer is a member, shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, and, on or before the 13th day after the end of each month, shall pay such deductions to the market administrator. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from producers and to provide producers with market information, such services to be performed by the market administrator or by an agent engaged by and responsible to him;

(b) In the case of producers whose milk is received at a plant not operated by a cooperative association of which such producers are members, for which payment is not made pursuant to § 1040.73(b) or (c), and for whom a cooperative association is actually performing the services described in paragraph (a) of this section, as determined by the Secretary, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from payments required pursuant to § 1040.73 as may be authorized by such producers, and pay such deductions on or before the 13th day after the end of the month to the cooperative association rendering such services of which such producers are members.

Base-Excess Plan

§ 1040.90 Base milk.

"Base milk" means the amount of milk delivered by a producer each month which is not in excess of his base computed pursuant to § 1040.92 multiplied by the number of days for which his milk production is delivered during the month.

§ 1040.91 Excess milk.

"Excess milk" means milk delivered by a producer each month in excess of his base milk.

§ 1040.92 Determination of base.

(a) A producer who delivered milk on at least 122 days during the period August 1 through December 31, inclusive, of any year shall have a base computed by the market administrator to be applicable, subject to § 1040.94, for the 12-month period beginning the following February 1, equal to his daily average milk deliveries from the date on which milk was first delivered in the period to the end of such August 1–December 31 period: *Provided*, That a producer who had a base on December 1 and whose average of daily deliveries for the August 1–December 31 period is less than such base shall have a base computed by subtracting from his previous base any amount by which 90 percent of his previous base exceeds such average of daily deliveries;

(b) A producer with an established base who does not forfeit his base pursuant to § 1040.93(c) but who fails to deliver milk on at least 122 days of the August 1 through December 31 period shall have his base for the 12 months beginning the following February 1 computed by dividing the total pounds shipped during the period by 122;

(c) Except as provided in paragraphs (d) and (e) of this section a producer who has no base shall be paid until February 1 following the August–December period within which he establishes a

V 38 - 16 JAN 24 73 XUM

base pursuant to paragraph (a) of this section at not less than the adjusted uniform price computed pursuant to § 1040.61(c);

(d) Whenever total receipts of producer milk by all handlers during the month are less than 112.5 percent of the total Class I utilization of all milk by handlers during such month, all producers and cooperative associations shall be paid not less than the uniform price for all milk delivered; and

(e) When a plant first becomes a pool plant any producer delivering to such plant may:

(1) Establish a base on deliveries of milk to such plant for the preceding August–December period certified by submission of delivery receipts or other evidence satisfactory to the market administrator; or

(2) Elect payment at not less than the uniform price computed pursuant to § 1040.61(b) until the second February 1, after such plant first became a pool plant. Such election must be made on or before the end of the first month for which it is effective.

§ 1040.93 Application of bases.

(a) A base shall apply to deliveries of milk by the producer for whose account milk was delivered during the base period, and upon death may be transferred to a member or members of the deceased producer's immediate family;

(b) Bases may be transferred under the following conditions upon written notice by the holder of the base to the market administrator on or before the last day of the month that such base is to be transferred:

(1) Upon retirement or entry into military service of a producer, the entire base may be transferred to a member or members of his immediate family;

(2) Two or more producers with bases may combine those bases upon the formation of a bona fide partnership which must define the financial invested interest, financial and management responsibility, division of income and expenses, and sharing of profits or losses; and

(3) Bases may be held jointly through the formation of a bona fide partnership provided such base was established by the partnership in accordance with § 1040.92 and if such partnership is terminated the base may be divided among the partners as specified in writing to the market administrator; and

(c) A producer who does not deliver milk to any handler for 45 consecutive days shall forfeit his base except that the following producers may retain their bases without loss for 12 months:

(1) A producer who suffers the complete loss of his barn as a result of fire or windstorm;

(2) A producer for whom loss of 50 percent or more of the milk herd from brucellosis or bovine tuberculosis, is shown by evidence issued under State or Federal authority; or

(3) A producer who is quarantined from the market by evidence of pesticide or herbicide residue in his milk supply as evidenced by Federal or State authority.

§ 1040.94 Relinquishing a base.

A producer notifying the market administrator that he relinquishes his established base shall be paid pursuant to the provisions of § 1040.92(c) beginning with the first day of the month in which such notification is received by the market administrator until the next February 1.

§ 1040.95 Computation of base.

The market administrator shall calculate a base for each producer in accordance with § 1040.92 and advise the producer and the handler receiving the milk of such base.

THERMALLY PROCESSED LOW-ACID FOODS PACKAGED IN HERMETICALLY SEALED CONTAINERS

Manufacture and Processing

No. 16—Pt. III——1

V 38 - 16 JAN 24 73 XUM

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 128b—THERMALLY PROCESSED LOW-ACID FOODS PACKAGED IN HERMETICALLY SEALED CONTAINERS

A notice of a petition filed by the National Canners Association (NCA), 1133 20th Street NW., Washington, DC 20036, on the commercial processing of foods in hermetically sealed containers was published in the FEDERAL REGISTER of November 12, 1971 (36 FR 21688). The petition proposed that there be promulgated in Part 3 of this chapter a statement of policy regarding the application of emergency permit provisions of section 404 of the Federal Food, Drug, and Cosmetic Act to the commercial processing of foods for human consumption manufactured, processed, or packed in hermetically sealed containers which are processed by heat either before or after being sealed in the containers.

This petition, accompanied by an index and appendix, was published as received and was regarded by the Commissioner of Food and Drugs as a regulation proposal, with the usual opportunity for interested persons to submit written comments within 60 days. In response to the notice, 30 comments were received from members of industry, trade associations, and a law school. In addition, the petitioner submitted revisions of the proposal which incorporated comments it had received directly from respondents or that were filed with the Hearing Clerk.

On November 14, 1972, a notice was published in the FEDERAL REGISTER (37 FR 24117) that a tentative final order, containing minimum good manufacturing regulations for thermally processed low-acid foods packaged in hermetically sealed containers, had been prepared and had been placed on display in the Hearing Clerk's office for a period of 20 days beginning November 15, 1972, and ending on December 4, 1972. Any persons who wished to submit further comment or to meet with Food and Drug Administration officials to discuss the tentative final order were invited to do so within the 20 days. In response to this notice, 14 comments were received from eight members of industry, three trade associations, one State, one university, and one Member of Congress.

After consideration of all of the comments, the revisions submitted by the petitioner, and further discussions with the petitioner, the Commissioner concludes that the complexities of regulations governing application of section 404 of the Federal Food, Drug, and Cosmetic Act, as proposed by the petitioner, require further study. Such regulations, including both the registration and record inspection provisions proposed by NCA and general procedural regulations with respect to the use of section 404, are presently being developed in order to establish an adequate enforcement mechanism. In the meanwhile, regulations are needed to specify good manufacturing practices to be followed in the manufacture, processing, or packing of thermally processed low-acid foods packaged in hermetically sealed containers. It is important that these substantive requirements be promulgated as soon as possible, and that they not be delayed pending development of the procedural and enforcement provisions. The Commissioner therefore concludes that the appendix to the statement of policy proposed by NCA, together with the comments received regarding the appendix, with modifications which the Commissioner deems to be necessary, should be promulgated as minimum good manufacturing practices regulations for thermally processed low-acid foods packaged in hermetically sealed containers.

The comments received and the Commissioner's conclusions are as follows:

Several comments were received regarding the definition of low-acid foods. One trade association suggested changing the definition to include products with a pH of 4.5 or greater. One manufacturer recommended that, inasmuch as the pH value of a low-acid food must be an arbitrary selection of some pH value below 7, the definition be set at a level greater than the proposed 4.6 for 1 or 2 years after the effective date of the regulations in order to allow processors time to comply with the regulations. The selection of a pH value of "greater than 4.6" in the definition is based on available scientific information as to the conditions under which microorganisms of public health significance can grow and/or produce toxins. The value allows for the safety factor which is deemed adequate and necessary to protect the public health. The Commissioner fails to see how the selection of a pH value above that proposed for 1 or 2 years is in the interest of public health nor does he believe that a pH value of 4.5 as the maximum is necessary. The Commissioner has rejected the suggestion of another trade association that allowances be made in the definition of low-acid foods, or elsewhere, for the normal variations of results obtained using commercial pH meters; it is the function of the commercial processor to ensure that such instruments are operating accurately. One manufacturer recommended a change in that part of the proposed definition relating to "any food in which for the purpose of processing the pH value is reduced by acidification." He suggested that "food" be further defined as a "normally low-acid fruit or vegetable." The Commissioner has accepted this recommendation, has elaborated upon it, and, accordingly, has revised the definition of low-acid foods.

Seven comments recommended exclusion from coverage under the regulation, as finally adopted, of food products which, because of a low-water activity or high-sugar content, do not contain sufficient moisture to support the growth of pathogens. The Commissioner finds that it was not the intent of the proposal to include such products. The definition of "low-acid foods" has been rewritten specifically to exclude those products with a moisture content as expressed by a water activity of 0.85 or less, which is deemed insufficient to allow the growth of pathogens.

Five comments recommended that foods to which heat is applied primarily for some purpose other than to achieve commercial sterility, such as pasteurization, flavor development, or removal of moisture, be excluded from coverage under the regulations. The Commissioner finds that it was not the intent of the proposal to include such foods. Such foods will not be subject to coverage under the good manufacturing practices regulations set forth below.

One trade association requested that the application of the tentative final order to the pet food industry be suspended until the association and members of the industry have an opportunity to carefully study and review the proposed regulations and offer formal comments to the Food and Drug Administration. The original proposal did not exempt the pet food industry, and the Commissioner, as well as others with interest in this matter, had always considered that the regulation should apply to that segment of the canning industry and affirms that fact. In the event that evidence should later demonstrate that there is no need to apply the subject regulation to canned pet foods, the Commissioner will consider any such evidence brought to his attention.

Three persons commented regarding the definition of hermetically sealed container. One of these persons wished to clarify the fact that plastic containers may be used for packaging. The Commissioner has determined that the intent of the definition in the proposal was to define the container's function, not to define the material of which the container is to be constructed. The definition has been revised to clarify the function of a hermetically sealed container; however, it does not specify the material of which the container is to be constructed. Any material which otherwise fulfills all of the requirements of the Federal Food, Drug, and Cosmetic Act may be used in the construction of the container.

Two comments were received regarding the definition in the proposal of "commercial sterility". One trade association stated that at least 1 year of additional study would be needed to determine whether the new definition of commercial sterility would result in prolonged processing which would affect the nutritional quality of foods. One manufacturer recommended that the definition not include the requirement that foods be free of viable forms of more heat resistant micro-organisms of nonhealth significance capable of reproducing under normal conditions of storage and distribution. The Commissioner has determined that the definition of commercial sterility in the proposal is not a "new" definition and that it is generally accepted as a required condition for low-acid foods in hermetically sealed containers. The definition of commercial sterility as set forth below further defines "normal conditions of storage and distribution" as "normal nonrefrigerated conditions of storage and distribution".

One trade association and one manufacturer recommended that the specification "1 inch or larger" be deleted from the definition of "vents" because it is excessively detailed and restrictive to the point of limiting engineering solutions which properly should take into consideration the construction and layout of the particular establishment. The specification "1 inch or larger" has been deleted from the definition of "vents" as set forth below.

Ten persons commented on the proposed requirements regarding container coding. Their principal objection was to the requirement that the packing period code be changed every 4 hours or less. The suggestion was made that the change be based on the number of containers processed. The regulation set forth below has been revised to require that the packing period code be changed with sufficient frequency to enable ready identification of lots during their sale and distribution. Although this regulation does not specify the time interval for changing the packing period code, such time intervals are suggested. One manufacturer requested that the code on glass containers not be required to include product identification. The Commissioner, after consideration of this comment and other available information, concludes that the purpose of requiring the container code is to identify a lot of product throughout its history of processing, sale, and distribution. The requirement that the container code specify the product contained therein is not solely to aid in the identification of the contents of the container but also to allow for the identification of production and processing records which relate to a specific lot of product. The inclusion in the code of the identity of the product is essential in order to differentiate between processing records of different products processed at the same plant, on the same date, and during the same packing period. The regulation as set forth below retains the provision that the container code include the identity of the product contained therein. One trade association suggested that provisions be made to allow a processor to add additional information in the code as, for example, the line on which production took place. The proposal required that the container code provide information regarding the establishment where packed, the product contained therein, the year packed, the day packed, and the period of the day packed. The Commissioner finds that the container coding requirements, as proposed, do not prevent the processor from including any other information in the code which he deems necessary.

One trade association opposed the proposed requirements regarding processing and production records. While agreeing to the need to maintain and keep such records, this trade association took exception to several of the requirements as being excessive, unwarranted, and unnecessary. The Commissioner finds that the recordkeeping requirements as set forth in the proposal and in the regulation below are necessary to permit a determination from the records of whether the thermal processing was sufficient to achieve commercial sterility of the product or to destroy micro-organisms of public health significance.

One trade association objected to the requirement that permanent records be kept of the development of the processes used. This comment is rejected because the Commissioner is of the opinion that the establishment of a process and the proof that the process is safe are essential in the assurance that the food processed is commercially sterile.

Two comments were received regarding the proposed requirements for the examination of container closures and the recording of observations of such examinations. It was suggested that the intervals required for visual examination of container closures and for teardown examination of can seams be based not on time but on the number of containers moving through the closing machine. This portion has been revised to delete the proposed requirement that such container closure examinations be done at specified time intervals, although certain time intervals are recommended. The opposition to the recording of observations is rejected on the basis that the keeping of such records is an accepted good manufacturing practice.

Ten persons commented on the proposed requirement that the retort room operations and the container closure inspections be performed under the "direct personal supervision" of a supervisor or manager who has attended an approved course of instruction in retort operations or container closure inspection. The recommendation that the words "direct personal" be deleted has been accepted and the regulation as set forth below requires that operators of retorts, processing systems, and aseptic packaging systems, and container closure inspectors be under the "operating supervision" of a person who has attended a school approved by the Commissioner. The Commissioner states that it is the intent of this requirement for a person or persons who has (have) attended a school approved by the Commissioner and who has (have) been identified by that school as having satisfactorily completed the prescribed courses of instruction to be on duty at the plant whenever low-acid foods are being thermally processed and/or packaged in hermetically sealed containers. One manufacturer suggested that such supervisors be identified on the basis of experience alone without school attendance. The Commissioner has concluded that the only way to ensure that all such supervisors receive the information regarding operations of retorts, processing systems, and aseptic packaging systems, and container closure inspection which is deemed necessary for proper thermal processing and packaging operations is to require all such supervisors to attend a school approved by him and to be identified by the school as having satisfactorily completed the prescribed courses of instruction. The Commissioner, after consideration of all available information, concludes that 20 months should be sufficient time for processors to ensure that their personnel receive this required training. The provisions of § 128b.10 regarding training of personnel shall become effective 20 months after the publication date of this order.

Two trade associations and one manufacturer opposed the proposed requirement that processes and venting procedures be posted in a conspicuous place near the retorts. They recommended that provisions be made for posting such information in such a way that information regarded as trade secrets would not be revealed. The Commissioner agrees and this requirement has been revised to allow the processor to either post the scheduled processes and venting procedures near the processing equipment or make them readily available to the retort or processing system operator and any duly authorized employee of the Food and Drug Administration.

One trade association and one manufacturer took exception to the proposed mandatory requirement that some of the containers on the top of retort baskets, trucks, cars, or crates containing unretorted material be plainly and conspicuously marked with a heat sensitive indicator. The trade association recommended that this requirement be a suggested and optional method of evidencing proper processing. One distributor, one manufacturer of marking inks, and one Member of Congress suggested that each individual food container be marked with a heat sensitive indicator as a means of determining whether or not the containers have been thermally processed. The Commissioner has concluded that the color change of a heat sensitive indicator were applied to each individual food container does not insure that the container has received a thermal process sufficient to render its contents commercially sterile. The Commissioner further concludes that, since such heat sensitive indicators can serve as a visual means of determining if the containers have been retorted, each retort basket, truck, car, or crate containing unretorted materials or some of the containers therein shall be marked with a heat sensitive indicator as stated in the proposal.

One comment was received which recommended deleting the proposed requirement that timing devices be easily read to the nearest minute, on the basis that such a timing device would be totally inadequate for short-time, high-temperature processes. The petitioner, in a revision of the proposal, recommended that pocket or wrist watches not be considered satisfactory for timing purposes. The Commissioner agrees with both of these comments and the section in the regulation regarding timing devices has been revised to reflect these recommendations.

V 38 - 16 JAN 24 73 XUM

Two comments recommended that provisions be made for the use of temperature indicating devices other than mercury-in-glass thermometers. The Commissioner has determined that the mercury-in-glass thermometer is the recognized standard against which all other temperature indicating devices are checked and calibrated. The regulation as set forth below retains the requirement that all retorts be equipped with mercury-in-glass indicating thermometers. However, because of the speed of the thermal process, alternate temperature indicating devices such as thermocouples will be allowed in aseptic processing and packaging systems. This change is reflected in the regulation as set forth below.

One trade association recommended that the words "and maintains" be deleted from the definition of "coming-up-time". The Commissioner agrees and the definition has been so revised.

Two processors commented that the requirement regarding the temperature sensitivity of a temperature recording device was impractical because it exceeds the capability of any practical available device on the market and is unnecessary in view of the requirements contained elsewhere in the regulations. The Commissioner accepts their recommendation and this requirement has been deleted from the regulation.

One trade association and one manufacturer recommended deletion of the proposed requirement that indicating thermometers be installed "where they are illuminated". They stated in their comments that they wanted to eliminate the possibility of having to install some special illumination for the thermometer only. The Commissioner accepts their recommendation and the regulation has been so revised to state that "Thermometers shall be installed where they can be accurately and easily read".

One trade association and one manufacturer submitted comments concerning recording thermometers. One comment made recommendations concerning the size of the recording chart working scale. The other comment recommended that the recording thermometer be adjusted to "substantially read in agreement" with the mercury-in-glass thermometer. After consideration of these comments and other relevant information, the Commissioner has concluded that those parts of the proposal concerning recording thermometers be revised to state that recording thermometer charts shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature and that the temperature recording device for each retort shall be adjusted to agree within 1° F. of the mercury-in-glass thermometer. One person asked whether recorders with two or more pens would satisfy the requirement that there be a temperature recording device for each retort. The Commissioner will allow the use of a multirecording device for more than one retort, provided that each retort record be separate on the chart so that it can be identified.

The Commissioner, after consideration of all available information, has concluded that 90 days should be sufficient time for processors to install recording thermometers on thermal processing equipment. Those provisions of § 128b.6 regarding the installation of recording thermometers on thermal processing equipment shall become effective 150 days after the publication date of this order.

Two comments suggested that pressure gages be made mandatory on all retorts. The Commissioner agrees and those parts of the proposal regarding pressure gages have been revised to make mandatory the equipping of each retort with a pressure gage. One trade association made additional comments recommending certain mandatory requirements for pressure gages regarding scale graduations, testing, and installation on the retorts. The Commissioner has concluded that the recommendations of the trade association are to be included in those parts of the regulation concerning pressure gages; however, the recommendations regarding scale graduations, testing, and means of installation on the retort are not made mandatory requirements.

One trade association commented on that part of the proposal dealing with the steam inlet in still retorts. This trade association recommended that the clause "for proper venting" be changed to read "for proper heating and venting". This recommendation has been accepted in part and the clause has been revised to read "for proper operation of the retort". In response to this trade association's recommendation concerning the wording describing the relative positions of the steam inlet and the vents, the sentence to which they referred has been revised to read "steam may enter either the top portion or the bottom portion of the retort but, in any case, shall enter the portion of the retort opposite the vent; for example, steam inlet in bottom portion and vent in top portion."

One trade association commented that the proposal is in error in that it requires a bottom bleeder in still retorts for pressure processing in steam only where there is top steam inlet and bottom venting. The association recommended that a bottom bleeder be made mandatory on all still retorts (except when processing in water) to take care of condensate and/or water leakage. This recommendation has not been accepted. The Commissioner has concluded that, because of the design and operation of retorts, condensate or water leakage presents no processing problem if steam is introduced into the bottom of the retort and the retort is vented at the top.

One trade association commented extensively on the detailed descriptions in the proposal regarding the venting of still retorts for processing in steam. This trade association commented that the detailed venting procedures mean little or nothing without proper consideration of the size of the steam inlet, the available steam supply and pressure thereof, the size of the retort, and the load within the retort. The Commissioner agrees that these factors affect retort venting. However, the proposal clearly states that the detailed venting procedures are for some typical installations and operating procedures and that other installations and operating procedures may be adequate to ensure proper retort venting. It is the responsibility of each processor to determine that the venting procedures he follows are adequate to ensure removal of air from the retorts before timing of the scheduled process is started.

One manufacturer questioned the need for a pressure recording device on retorts for pressure processing in water. The proposal has been revised to reflect this comment. Pressure recording devices will not be required; however, the regulation as set forth below recommends that retorts for pressure processing in water be equipped with an adjustable relief, or control, valve in the overflow line and requires an automatic pressure controller on the air supply.

Two manufacturers recommended deletion of the requirement for a water level indicator in retorts for pressure processing in water. This recommendation has not been accepted; a means of determining the water level in the retort is essential to ensure that all containers are covered by water during the entire coming-up-time and processing periods. One manufacturer objected to the requirement that approximately 6 in. of water cover the top layer of glass jars during the entire coming-up-time, processing, and cooling periods. The proposal has been revised to reflect this comment and now states that water shall cover the top layer of containers during the entire coming-up-time and processing periods and should cover the top layer of containers during the cooling periods. This same manufacturer recommended a change in the mandatory requirement in the proposal concerning retort headspace and also commented on that part of the proposal regarding the introduction of container cooling water. The proposal has been revised to delete any mandatory requirements regarding retort headspace. The method of introducing cooling water as stated in the proposal was not a mandatory requirement; however, the regulation retains recommendations as to how the cooling water should be introduced.

One trade association and one manufacturer commented regarding the method of determining minimum headspace in containers of homogeneous liquids. The proposal has been revised and the regulation as set forth below allows for the measurement of minimum headspace in solder-tipped, lap seam (vent hole) cans by net weight determination.

At the recommendation of the petitioner and others, new subparagraphs regarding "Emergency stops" and "Temperature drop" have been added to the part of the regulation concerning continuous agitating retorts in order to specify what is to be done to ensure safe processing in the case of a retort jam, breakdown or temperature drop.

One manufacturer commented that "it would appear that less than six temperature recorders should be adequate to assure satisfactory processing records from a hydrostatic cooker, especially when no more than one is required on all other types of cookers." The proposed regulation has been revised and the regulation as set forth below requires that each hydrostatic retort be equipped with a temperature recorder in the steam chamber and additional recorders near the top and bottom of each hydrostatic water leg if the scheduled process specifies maintenance of particular temperatures in the water legs.

Seven comments were submitted concerning the proposed requirements for aseptic canning systems. These comments concerned timing devices, means of calculating the holding tube length, temperature sensing and recording devices, flow rates, flow diversion valves, and resterilization. This part of the proposal has been rewritten in its entirety and the comments received are reflected in the regulation as set forth below.

One comment suggested that the scientific methods used to determine the adequacy of new systems for processing low-acid foods shall include the use of system resistant organisms to inoculate both the product and the system. The regulation as set forth below includes a requirement that acceptable scientific methods be used in establishing heat sterilization processes (including such processes for new systems). Acceptable scientific methods include the use of system resistant organisms to inoculate the product or system, as applicable.

That part of the proposal concerning container cooling has been revised to reflect three comments received regarding chemical or physical treatment of cooling water by means other than chlorination. In response to two comments, those provisions in the proposal regarding the cooling of containers to specified temperatures have been deleted.

All other comments have been carefully considered by the Commissioner and, where deemed to be appropriate, have been incorporated into the regulation as set forth below.

As noted elsewhere in this document, the Commissioner has concluded that the appendix to the statement of policy proposed by the petitioner together with the comments received regarding the appendix shall form the basis for good manufacturing practices regulations for thermally processed low-acid foods packaged in hermetically sealed containers. In addition to revising the proposal to reflect the comments received, the Commissioner has added to, deleted, and rearranged parts of the proposal as he deemed to be necessary for the implementation of the proposed regulation.

Accordingly, having evaluated the comments received and other relevant material, the Commissioner concludes that the regulation should be promulgated as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 402(a)(4), 701(a), 52 Stat. 1046, 1055; 21 U.S.C. 342(a)(4), 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of the Title 21 is amended by adding a new part 128b as follows:

Sec.
- 128b.1 Definitions.
- 128b.2 Current good manufacturing practice.
- 128b.3 Product preparation.
- 128b.4 Establishing scheduled processes.
- 128b.5 Operations in the thermal processing room.
- 128b.6 Equipment and procedures.
- 128b.7 Containers.
- 128b.8 Processing and production records.
- 128b.9 Deviations in processing.
- 128b.10 Personnel.

AUTHORITY: Sec. 402(a)(4), 701(a), 52 Stat. 1046, 1055; 21 U.S.C. 342(a)(4), 371(a).

§ 128b.1 Definitions.

(a) "Aseptic processing and packaging" means the filling of a commercially sterilized cooled product into presterilized containers, followed by aseptic hermetical sealing, with a presterilized closure, in an atmosphere free of microorganisms.

(b) "Bleeders" means openings used to remove air, that enters with steam, from retorts and steam chambers and to promote circulation of steam in such retorts and steam chambers. Bleeders may serve as a means of removing condensate.

(c) "Coming-up-time" means the time which elapses between the introduction of steam into the closed retort and the time when the retort reaches the required processing temperature.

(d) "Commercial processor" shall include any person engaged in commercial, custom, and so-called sportsman processing or institutional (church, school, penal, or other organization) processing of food.

(e) "Commercial sterility" of food means the condition achieved by application of heat which renders such food free of viable forms of micro-organisms having public health significance, as well as any micro-organisms of nonhealth significance capable of reproducing in the food under normal nonrefrigerated conditions of storage and distribution. "Commercial sterility" of equipment and containers used for aseptic processing and packaging of food means the condition achieved by application of heat, chemical sterilant(s), or other appropriate treatment which renders such equipment and containers free of viable forms of micro-organisms having public health significance as well as any micro-organisms of nonhealth significance capable of reproducing in the food under normal nonrefrigerated conditions of storage and distribution.

(f) "Flame sterilizer" means an apparatus in which hermetically sealed containers are agitated at atmospheric pressure, by either continuous, discontinuous, or reciprocating movement, over gas flames to achieve sterilization temperatures. A holding period in a heated section may follow the initial heating period.

(g) "Headspace, gross" is the vertical distance between the level of the product (generally the liquid surface) in an upright rigid container and the top edge of the container (the top of the double seam of a can or the top edge of a glass jar).

(h) "Headspace, net" of a container having a double seam, such as a can, is the vertical distance between the level of the product (generally the liquid surface) in the upright rigid container and the inside surface of the lid.

(i) "Hermetically sealed container" means a container which is designed and intended to be secure against the entry of micro-organisms and to maintain the commercial sterility of its contents after processing.

(j) "Incubation" means the holding of a sample(s) at a specified temperature for a specified period of time before examination.

(k) "Initial temperature" means the average temperature of the contents of the coldest container to be processed at the time the sterilizing cycle begins, as determined after thorough stirring or shaking of the filled and sealed container.

(l) "Lot" means the product produced during a period of time indicated by a specific code.

(m) "Low-acid foods" means any foods, other than alcoholic beverages, with a finished equilibrium pH value greater than 4.6 and a water activity greater than 0.85 and also includes any normally low-acid fruits, vegetables, or vegetable products in which for the purpose of thermal processing the pH value is reduced by acidification. Tomatoes, pears, and pineapples, or the juices thereof, having a pH of less than 4.7 and figs having a pH of 4.9 or below shall not be classed as low-acid foods.

(n) "Minimum thermal process" means the application of heat to food, either before or after sealing in a hermetically sealed container, for a period of time and at a temperature scientifically determined to be adequate to ensure destruction of micro-organisms of public health significance.

(o) "Retort" means any closed vessel or other equipment used for the thermal processing of foods.

(p) "Scheduled process" means the process selected by the processor as adequate under the conditions of manufacture for a given product to achieve commercial sterility. This process may be in excess of that necessary to ensure destruction of micro-organisms of public health significance.

(q) "Shall" and "should." As used in this part, "shall" refers to mandatory requirements and "should" refers to recommended or advisory procedures or equipment.

(r) "Vents" means openings controlled by gate, plug cock, or other adequate valves used for the elimination of air during the venting period.

(s) "Water activity" or "a_w" means the vapor pressure of the food product divided by the vapor pressure of pure water

V38-16 JAN 24 73 XUM

under identical conditions of pressure and temperature.

§ 128b.2 Current good manufacturing practice.

The criteria in §§ 128b.3 through 128b.10 shall apply in determining whether the facilities, methods, practices, and controls used by the commercial processor in the manufacture, processing, or packing of low-acid foods in hermetically sealed containers are operated or administered in a manner adequate to protect the public health.

§ 128b.3 Product preparation.

(a) Incoming raw materials, ingredients, and packaging components should be inspected upon receipt to ensure that they are suitable for processing. Raw materials should be received in an area separate from the processing areas. Prior to being placed in inventory, ingredients susceptible to microbiological contamination which would render them unsuitable for processing either should be examined for microbiological condition or should be received under a supplier's guarantee that they are of a microbiological condition suitable for use in processing low-acid foods. Products should be held prior to processing in such a manner as to minimize growth of micro-organisms.

(b) Blanching by heat, when required in the preparation of food for canning, should be effected by heating the food to the required temperature, holding it at this temperature for the required time, and then either rapidly cooling the food or passing it to subsequent processing without delay. Thermophilic growth and contamination in blanchers should be minimized by the use of adequate operating temperatures and by cleaning. Where the blanched food product is washed prior to filling, potable water should be used.

(c) The filling of containers, either mechanically or by hand, shall be controlled so as to ensure that the filling requirements specified in the scheduled process are met.

(d) The exhausting of containers for the removal of air shall be controlled so as to meet the conditions for which the process was designed. This may be done by heat exhausting, mechanical exhausting, hot brining, or steam injection.

(e) When normally low-acid fruits, vegetables, or vegetable products require sufficient acidification to permit safe processing at low temperatures, such as in boiling water, there shall be careful supervision to ensure that the equilibrium pH of the finished product meets that of the scheduled process.

§ 128b.4 Establishing scheduled processes.

Scheduled processes for low-acid foods shall be established by qualified persons having expert knowledge of thermal processing requirements for low-acid foods in hermetically sealed containers and having adequate facilities for making such determinations. The type, range, and combination of variations encountered in commercial production shall be adequately provided for in establishing the scheduled process. Critical factors which may affect the scheduled process (e.g., minimum headspace, consistency, maximum drained weight, etc.), shall be specified in the scheduled process. Acceptable scientific methods of establishing heat sterilization processes shall include, where necessary, but not be limited to microbial thermal death time data, process calculations based on product heat penetration data, inoculated packs, and incubation tests. Product heat penetration data may be mathematically converted in calculating processes for different container sizes and thermal processing temperatures. If incubation tests are necessary, they shall include containers from test trials and from actual commercial production runs during the period of instituting the process. The incubation tests for establishing scheduled processes should include the containers from the test trials and a number of containers from each of four or more actual commercial production runs. The number of containers from actual commercial production runs should be determined on the basis of recognized scientific methods to be of a size sufficient to ensure the adequacy of the process. Complete records covering all aspects of the establishment of the process and associated incubation tests shall be prepared and shall be permanently retained by the person or organization making the determination.

§ 128b.5 Operations in the thermal processing room.

(a) Scheduled processes and venting procedures to be used for each product and container size being packed shall either be posted in a conspicuous place near the processing equipment or shall be made readily available to the retort or processing system operator and any duly authorized employee of the Food and Drug Administration.

(b) All retort baskets, trucks, cars, or crates containing unretorted food product, or some of the containers on the top of each basket, shall be plainly and conspicuously marked with a heat sensitive indicator, or by other effective means, which will visually indicate to thermal processing personnel whether or not each such unit has been retorted.

(c) The initial temperature of the contents of the containers to be processed shall be determined and recorded with sufficient frequency to ensure that the temperature of the product is no lower than the minimum initial temperature specified in the scheduled process.

(d) Timing devices used in recording thermal process time information shall be accurate to the extent needed to ensure that the processing time specified in the scheduled process is achieved. Pocket or wrist watches shall not be considered satisfactory for timing purposes.

(e) For continuous agitating retorts, the condensate bleeder shall be checked with sufficient frequency to ensure adequate removal of condensate. A record shall be kept to show how it is functioning.

§ 128b.6 Equipment and procedures.

(a) *Equipment and procedures for pressure processing in steam in still retorts*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer with a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length. The scale divisions shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to insure their accuracy. Bulbs of indicating thermometers shall be installed either within the retort shell or in external wells attached to the retort. External wells or pipes shall be connected to the retort through at least a ¾-inch diameter opening, and shall be equipped with a one-sixteenth inch or larger bleeder opening so located as to provide a full flow of steam past the length of the thermometer bulb. The bleeder for external wells shall emit steam continuously during the entire processing period. Thermometers shall be installed where they can be accurately and easily read. A thermometer that has a divided mercury column or that deviates more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each still retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The temperature recorder bulb shall be installed either within the retort shell or in a well attached to the shell. Each temperature recorder bulb well shall have a one-sixteenth inch or larger bleeder opening emitting steam continuously during the processing period.

(3) *Pressure gages.* Each retort shall be equipped with a pressure gage. The gage should be graduated in divisions of 2 pounds or less, should be connected to the retort shell or external well by a short gooseneck tube, and should be not more than 4 inches higher than the gooseneck. The gage should be checked for accuracy at least once a year.

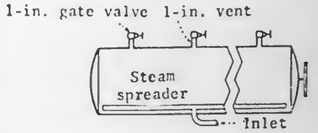
(4) *Steam controller.* Each retort shall be equipped with a steam controller to maintain the retort temperature. This may be a recording-controlling instrument when combined with a recording thermometer.

(5) *Steam inlet.* The steam inlet to each still retort shall be large enough

to provide sufficient steam for proper operation of the retort. Steam may enter either the top portion or the bottom portion of the retort but, in any case, shall enter the portion of the retort opposite the vent; for example, steam inlet in bottom portion and vent in top portion.

(6) *Crate supports.* A bottom crate support shall be employed in vertical still retorts. Baffle plates shall not be used in the bottom of still retorts.

(7) *Steam spreaders.* Steam spreaders, which are perforated or other style continuations of the steam line inside the retort, should not be larger than the steam inlet line.

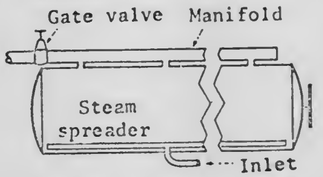


Horizontal still retorts shall be equipped with steam spreaders that extend along the bottom for the length of the retort; the perforations should be along the top 90° of this pipe. Horizontal still retorts over 30 feet long should have two steam inlets connected to the spreader. In vertical still retorts the steam spreaders, if used, should be in the form of a cross with the perforations along the top or sides of the pipe. The number of perforations in spreaders for both horizontal and vertical still retorts should be such that the total cross-sectional area of the perforations is equal to 1½ to 2 times the cross-sectional area of the steam inlet line.

(8) *Bleeders.* Bleeders, except those for thermometer wells, shall be one-eighth inch or larger and shall be wide open during the entire process, including the coming-up-time. For horizontal retorts, bleeders shall be located within approximately 1 foot of each end; additional bleeders shall be located not more than 8 feet apart along the top. Vertical retorts shall have at least one bleeder opening located in that portion of the retort opposite the steam inlet. In retorts having top steam inlet and bottom venting, a bleeder shall be installed in the bottom of the retort to insure removal of condensate. All bleeders shall be arranged in such a way that the operator can observe that they are functioning properly.

(9) *Stacking equipment and position of containers.* Crates, trays, gondolas, etc., for holding containers shall be made of strap iron, adequately perforated sheet metal, or other suitable material. When perforated sheet metal is made of scrap iron, adequately perfo- should be approximately the equivalent of 1-inch holes on 2-inch centers. If dividers are used between the layers of containers, they should be perforated as above. When there is stratification of the product in the containers, the containers should be processed in such a position that the plane of stratification is vertical.

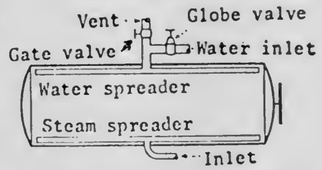
(10) *Vents.* Vents shall be installed in such a way that air is removed from the retort before timing of the process is started. Vents shall be controlled by gate, plug cock, or other adequate type valves which shall be fully open to permit rapid discharge of air from the retort during the venting period. Vents shall not be connected directly to a closed drain system. If the overflow is used as a vent, there shall be an atmospheric break in the line before it connects to a closed drain. The vent shall be located in that portion of the retort opposite the steam inlet; for example, steam inlet in bottom portion and vent in top portion. Where a retort manifold connects several vent pipes from a single still retort, it shall be controlled by a gate, plug cock, or other adequate type valve. The retort manifold shall be of a size such that the cross-sectional area of the pipe is larger than the total cross-sectional area of all connecting vents. The discharge shall not be directly connected to a closed drain without an atmospheric break in the line. A manifold header connecting vents or manifolds from several still retorts shall lead to the atmosphere. The manifold header shall not be controlled by a valve and shall be of a size such that the cross-sectional area is at least equal to the total cross-sectional area of all connecting retort manifold pipes from all retorts venting simultaneously. Timing of the process shall not begin until the retort has been properly vented and the processing temperature has been reached. Retorts using air for pressure cooling shall be equipped with a ball or globe valve or suitable valve and piping arrangement on the air line to prevent air leakage into the retort during processing. Some typical installations and operating procedures reflecting the requirements of this section for venting still retorts are given in paragraphs (a)(10)(i) (*a*) through (*d*) and (ii) (*a*) and (*b*) of this section. Other installations and operating procedures which deviate from the above specifications may be used, provided that there is evidence that they accomplish adequate venting of air.



(i) *Venting horizontal retorts.* (*a*) Venting through multiple 1-inch vents discharging directly to atmosphere.

Specifications. One 1-inch vent for every 5 feet of retort length, equipped with a gate or plug cock valve and discharging to atmosphere; end vents not more than 2½ feet from ends of retort.

Venting method. Vent valves should be wide open for at least 5 minutes and to at least 225° F., or at least 7 minutes and to at least 220° F.

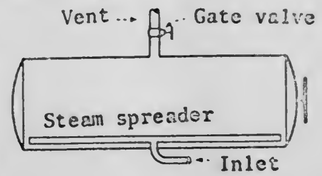


(*b*) Venting through multiple 1-inch vents discharging through a manifold to atmosphere.

Specifications. One 1-inch vent for every 5 feet of retort length; end vents not over 2½ feet from ends of retort; size of manifold—for retorts less than 15 feet in length, 2½ inches; for retorts 15 feet and over in length, 3 inches.

Venting method. Manifold vent gate or plug cock valve should be wide open for at least 6 minutes and to at least 225° F., or for at least 8 minutes and to at least 220° F.

(c) Venting through water spreaders.

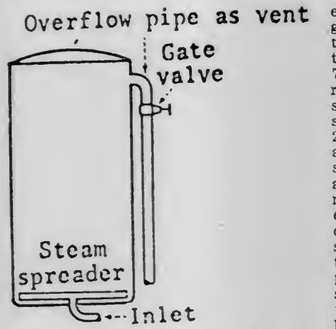


Size of water inlet, vent pipe, and vent valve. For retorts less than 15 feet in length, 2 inches; for retorts 15 feet and over in length, 2½ inches.

Size of water spreader. For retorts less than 15 feet in length, 1½ inches; for retorts 15 feet and over in length, 2 inches.

Venting method. Water spreader vent gate or plug cock valve should be wide open for at least 5 minutes and to at least 225° F., or for at least 7 minutes and to at least 220° F.

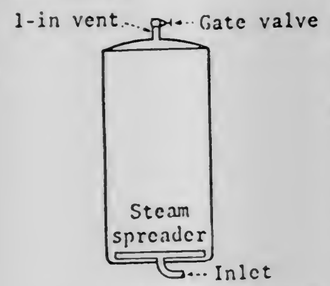
(*d*) Venting through a single 2½-inch top vent (for retorts not exceeding 15 feet in length).



Specifications: A 2½-inch vent equipped with a 2½-inch gate or plug cock valve and located within 2 feet of the center of the retort.

Venting method: Vent gate or plug cock valve should be wide open for at least 4 minutes and to at least 220° F.

(ii) *Venting vertical retorts.* (*a*) Venting through a 1½-inch overflow.



V 38-16 JAN 24 73 XUM

Specifications. A 1½-inch overflow pipe equipped with a 1½-inch gate or plug cock valve and with not more than 6 feet of 1½-inch pipe beyond the valve before break to the atmosphere or to a manifold header.

Venting method. Vent gate or plug cock valve should be wide open for at least 4 minutes and to at least 218° F., or for at least 5 minutes and to at least 215° F.

(b) Venting through a single 1-inch side or top vent.

Specifications. A 1-inch vent in lid or top side, equipped with a 1-inch gate or plug cock valve and discharging directly into the atmosphere or to a manifold header.

Venting method. Vent gate or plug cock valve should be wide open for at least 5 minutes and to at least 230° F., or for at least 7 minutes and to at least 220° F.

(11) *Critical factors.* (i) Where maximum drained weight is specified in the scheduled process it shall be measured and recorded at intervals of sufficient frequency to ensure that the weight of the product does not exceed the maximum for the given container size specified in the scheduled process.

(ii) Closing machine vacuum (in vacuum-packed products) shall be observed and recorded at intervals of sufficient frequency to insure that the vacuum is as specified in the scheduled process.

(iii) Such measurements and recordings should be made at intervals not to exceed 15 minutes.

(c) *Equipment and procedures for pressure processing in water in still retorts.*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length or a temperature range of not more than 150° F. on a scale at least 9 inches in length. The scale divisions shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to ensure their accuracy. Bulbs of indicating thermometers shall be located in such a position that they are beneath the surface of the water throughout the process. On horizontal retorts this entry should be made in the side at the center, and the thermometer bulbs shall be inserted directly into the retort shell. In both vertical and horizontal retorts, the thermometer bulbs shall extend directly into the water a minimum of at least 2 inches without a separable well or sleeve. Thermometers shall be installed where they can be accurately and easily read. A thermometer that has a divided mercury column or that deviate more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each still retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The recording thermometer bulb should be located adjacent to the bulb of the mercury-in-glass thermometer except in the case of a vertical retort equipped with a combination recorder-controller. In such vertical retorts the temperature recorder-control bulb shall be located at the bottom of the retort below the lowest crate rest in such a position that the steam does not strike it directly. In horizontal retorts the temperature recorder-control bulb shall be located between the water surface and the horizontal plane passing through the center of the retort so that there is no opportunity for direct steam impingement upon the control bulb.

(3) *Pressure gages.* (i) Each retort shall be equipped with a pressure gage. The gage should be graduated in divisions of 2 lbs. or less, should be connected to the retort shell or external well by a short gooseneck tube, and should be not more than 4 inches higher than the gooseneck. The gage should be checked for accuracy at least once a year.

(ii) An adjustable pressure relief, or control valve of a capacity sufficient to prevent undesired increase in retort pressure when the water valve is wide open and should be installed in the overflow line.

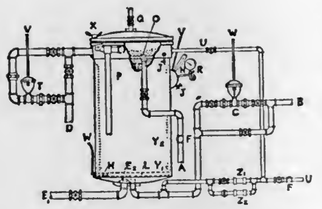
(4) *Steam introduction.* The distribution of steam in the bottom of the retort shall be accomplished in a manner adequate to provide uniform heat distribution throughout the retort. In vertical retorts, uniform steam distribution can be achieved by any of several methods. In horizontal retorts, the steam distributor shall run the length of the bottom of the retort with perforations distributed uniformly along the upper part of the pipe.

(5) *Crate supports.* A bottom crate support shall be employed in vertical still retorts. Baffle plates shall not be used in the bottom of the retort. Centering guides should be installed so as to insure that there be about 1½-inches clearance between the side wall of the crate and the retort wall.

(6) *Stacking equipment.* Crates, trays, gondolas, etc., for holding containers shall be made of strap iron, adequately perforated sheet metal, or other suitable material. When perforated sheet metal is used for the bottoms, the perforations should be approximately the equivalent of 1-inch holes on 2-inch centers. If divider plates are used between the layers of containers, they should be perforated as above.

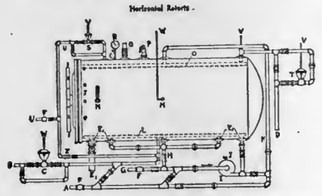
(7) *Drain valve.* A nonclogging, watertight valve shall be used. Screens should be installed over all drain openings.

(8) *Water level indicator.* There shall be a means of determining the water level in the retort during operation (e.g., by using a gage water glass or petcock(s)). Water shall cover the top layer of containers during the entire coming-up-time and processing periods and should cover the top layer of containers during the cooling periods.



(9) *Air supply and controls.* In both horizontal and vertical still retorts for pressure processing in water, a means shall be provided for introducing compressed air at the proper pressure and rate. The proper pressure shall be controlled by an automatic pressure control unit. A check valve shall be provided in the air supply line to prevent water from entering the system. Air or water circulation shall be maintained continuously during the coming-up-time, processing, and cooling periods; if air is used to promote circulation it shall be introduced into the steam line at a point between the retort and the steam control valve at the bottom of the retort.

(10) *Cooling water supply.* In vertical retorts the cooling water should be introduced at the top of the retort between the water and container levels; in horizontal retorts the cooling water should be introduced into the suction side of the pump. A check valve should be included in the cooling water line.



(11) *Retort headspace.* The headspace necessary to control the air pressure should be maintained between the water level and the top of the retort shell.

(12) *Vertical and horizontal still retorts.* Vertical and horizontal still retorts should follow the arrangements in the following diagrams or be equivalent.

Vertical Retorts

Horizontal Retorts

LEGEND FOR VERTICAL AND HORIZONTAL STILL RETORTS

A—Water line.
B—Steam line.
C—Temperature control.
D—Overflow line.
E_1—Drain line.
E_2—Screens.
F—Check valves.
G—Line from hot water storage.
H—Suction line and manifold.
I—Circulating pump.
J—Petcocks.
K—Recirculating line.
L—Steam distributor.
M—Temperature controller bulb.
N—Thermometer.
O—Water spreader.
P—Safety valve.
Q—Vent valve for steam processing.
R—Pressure gage.
S—Inlet air control.
T—Pressure control.
U—Air line.
V—To pressure control instrument.
W—To temperature control instrument.
X—Wing nuts.
Y_1—Crate support.
Y_2—Crate guides.
Z—Constant flow orifice valve.
Z_1—Constant flow orifice valve used during come-up.
Z_2—Constant flow orifice valve used during cook.

(13) *Water circulation.* When a water circulating system is used for heat distribution it shall be installed in such a manner that water will be drawn from the bottom of the retort through a suction manifold and discharged through a spreader which extends the length of the top of the retort. The holes in the water spreader shall be uniformly distributed and should have an aggregate area not greater than the cross section area of the outlet line from the pump. The suction outlets should be protected with nonclogging screens to keep debris from entering the circulating system. The pump shall be equipped with a pilot light or other signaling device to warn the operator when it is not running, and with a bleeder to remove air when starting operations.

(14) *Critical factors.* (i) Where maximum drained weight is specified in the scheduled process it shall be measured and recorded at intervals of sufficient frequency to ensure that the weight of the product does not exceed the maximum for the given container size specified in the scheduled process.

(ii) Closing machine vacuum (in vacuum-packed products) shall be observed and recorded at intervals of sufficient frequency to insure that the vacuum is as specified in the scheduled process.

(iii) Such measurements and recordings should be made at intervals not to exceed 15 minutes.

(c) *Equipment and procedures for pressure processing in steam in continuous agitating retorts.*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length. The scale divisions shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to insure their accuracy. Bulbs of indicating thermometers shall be installed either within the retort shell or in external wells attached to the retort. External wells or pipes shall be connected to the retort through at least a ¾-inch diameter opening, and shall be equipped with a 1/16-inch or larger bleeder opening so located as to provide a full flow of steam past the length of the thermometer bulb. The bleeders for external wells shall emit steam continuously during the entire processing period. Thermometers shall be installed where they can be accurately and easily read. A thermometer that has a divided mercury column or that deviates more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The temperature recorder bulb shall be installed either within the retort shell or in a well attached to the shell. Each temperature recorder bulb well shall have a 1/16-inch or larger bleeder opening emitting steam continuously during the processing period.

(3) *Pressure gages.* Each retort shall be equipped with a pressure gage. The gage should be graduated in divisions of 2 pounds or less, should be connected to the retort shell or external well by a short gooseneck tube, and should be not more than 4 inches higher than the gooseneck. The gage should be checked for accuracy at least once a year.

(4) *Steam controller.* Each retort shall be equipped with an automatic steam controller to maintain the retort temperature. This may be a recording-controlling instrument when combined with a recording thermometer.

(5) *Bleeders.* Bleeders, except those for thermometer wells, shall be ⅛-inch or larger and shall be wide open during the entire process, including the coming-up time. Bleeders shall be located within approximately 1 foot of each end; additional bleeders shall be located not more than 8 feet apart along the top of the retort. All bleeders shall be arranged in such a way that the operator can observe that they are functioning properly.

(6) *Venting and condensate removal.* Vents shall be located in that portion of the retort opposite the steam inlet. Air shall be removed before processing is started. At the time steam is turned on, the drain should be opened for a time sufficient to remove steam condensate from the retort and provision shall be made for continuing drainage of condensate during the retort operation. The condensate bleeder in the bottom of the shell serves as an indicator of continuous condensate removal.

(7) *Retort speed timing.* The rotational speed of the retort shall be specified in the scheduled process. The speed shall be adjusted and recorded when the retort is started, at any time a speed change is made, and at intervals of sufficient frequency to insure that the retort speed is maintained as specified in the scheduled process. These adjustments and recordings should be made every 4 hours or less. Alternatively, a recording tachometer may be used to provide a continuous record of the speed. A means of preventing unauthorized speed changes on retorts shall be provided.

(8) *Emergency stops.* If a retort jams or breaks down during processing operations, necessitating cooling the retort for repairs, the retort shall either be operated as a still retort, with all containers being given a full still retort process before the retort is cooled, or the retort shall be cooled promptly and all containers shall be either reprocessed, repacked and reprocessed, or discarded.

(i) Any containers in the retort intake valve of a continuous retort at the time of breakdown shall either be reprocessed, repacked and reprocessed, or discarded.

(ii) Both the time at which the reel stopped and the time the retort was used for a still retort process, if so used, shall be marked on the recording chart and entered on the other production records required in this chapter. If the alternative procedure of prompt cooling is followed, the subsequent handling methods used for the containers in the retort

V 38-16 JAN 24 73 XUM

at the time of stopping and cooling shall be entered on the production records.

(9) *Temperature drop.* If the temperature of the continuous retort drops below the temperature specified in the scheduled process while containers are in the retort, the retort reel shall be stopped promptly. An automatic device should be used to stop the reel when the temperature drops below the specified process temperature. Before the reel is restarted, all containers in the retort shall be given a complete still retort process if the temperature drop was 10° F. or more below the specified temperature. Alternatively, container entry to the retort shall be stopped and the reel shall be restarted to empty the retort. The discharged containers shall be either reprocessed, repacked and reprocessed, or discarded. Both the time at which the reel stopped and the time the retort was used for a still retort process, if so used, shall be marked on the recording chart and entered on the other production records required in this chapter. If the alternative procedure of emptying the retort is followed, the subsequent handling methods used for the containers in the retort at the time of the temperature drop shall be entered on the production records. If the temperature drop was less than 10° F., an authorized emergency still process approved by a qualified person(s) having expert knowledge of thermal processing requirements may be used before restarting the retort reel. Alternatively, container entry to the retort shall be stopped and an authorized emergency agitating process may be used before container entry to the retort is restarted. If any emergency process and procedure is utilized, no containers shall enter the retort during this time and the process and procedures used shall be entered on the production records.

(10) *Critical factors.* The minimum headspace of containers, if specified in the scheduled process, shall be measured and recorded at intervals of sufficient frequency to insure that the headspace is as specified in the scheduled process. The headspace of solder-tipped, lap seam (vent hole) cans may be measured by net weight determinations. Where the product consistency is specified in the scheduled process, the consistency of the product shall be determined by objective measurements on the product taken from the filler before processing and recorded at intervals of sufficient frequency to insure that the consistency is as specified in the scheduled process. Minimum closing machine vacuum (in vacuum-packed products), maximum drained weight, minimum net weight, and percent solids shall be as specified in the scheduled process for all products where deviations from such specifications may affect the scheduled process. Measurements of these critical factors shall be made and recorded at intervals of sufficient frequency to insure that they are as specified in the scheduled process. All measurements and recordings of critical factors should be made at intervals not to exceed 15 minutes.

(d) *Equipment and procedures for pressure processing in steam in discontinuous agitating retorts*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length. The scale divisions shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to insure their accuracy. Bulbs of indicating thermometers shall be installed either within the retort shell or in external wells attached to the retort. External wells or pipes shall be connected to the retort through at least a ¾-inch diameter opening, and shall be equipped with a 1/16-inch or larger bleeder opening so located as to provide a full flow of steam past the length of the thermometer bulb. The bleeder for external wells shall emit steam continuously during the entire processing period. Thermometers shall be installed where they can be accurately and easily read. A thermometer with a divided mercury column or that deviates more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The temperature recorder bulb shall be installed either within the retort shell or in a well attached to the shell. Each temperature recorder bulb well shall have a 1/16-inch or larger bleeder opening emitting steam continuously during the processing period.

(3) *Pressure gages.* Each retort shall be equipped with a pressure gage. The gage should be graduated in divisions of 2 pounds or less, should be connected to the retort shell or external well by a short gooseneck tube, and should be not more than 4 inches higher than the gooseneck. The gage should be checked for accuracy at least once a year.

(4) *Steam controller.* Each retort shall be equipped with an automatic steam controller to maintain the retort temperature. This may be a recording-controlling instrument when combined with a recording thermometer.

(5) *Bleeders.* Bleeders, except those for thermometer wells, shall be ⅛ inch or larger and shall be wide open during the entire process, including the coming-up-time. Bleeders shall be located within approximately 1 foot of each end; additional bleeders shall be located not more than 8 feet apart along the top of the retort. In retorts having top steam inlet and bottom venting, a bleeder shall be installed in the bottom of the retort to ensure removal of condensate. All bleeders shall be arranged in such a way that the operator can observe that they are functioning properly.

(6) *Venting and condensate removal.* The air in each retort shall be removed before processing is started. At the time steam is turned on, the drain should be opened for a time sufficient to remove steam condensate from the retort and provision should be made for continuing drainage of condensate during the retort operation.

(7) *Retort speed timing.* The rotational speed of the retort shall be specified in the scheduled process. The rotational speed shall be adjusted, as necessary, to ensure that the speed is as specified in the scheduled process. The rotational speed as well as the process time shall be recorded for each retort load processed. Alternatively, a recording tachometer may be used to provide a continuous record of the speed. A means of preventing unauthorized speed changes on retorts shall be provided.

(8) *Critical factors.* The minimum headspace of containers in each retort load to be processed, if specified in the scheduled process, shall be measured and recorded at intervals of sufficient frequency to insure that the headspace is as specified in the scheduled process. The headspace of solder-tipped, lap seam (vent hole) cans may be measured by net weight determinations. Where the product consistency is specified in the scheduled process, the consistency of the product shall be determined by objective measurements on the product taken from the filler before processing and recorded at intervals of sufficient frequency to insure that the consistency is as specified in the scheduled process. Minimum closing machine vacuum (in vacuum-packed products), maximum drained weight, minimum net weight, and percent solids shall be as specified in the scheduled process for all products where deviations from such specifications may affect the scheduled process. Measurements of these critical factors shall be made and recorded at intervals of sufficient frequency to insure that they are as specified in the scheduled process. All measurements and recordings of critical factors should be made at intervals not to exceed 15 minutes.

(e) *Equipment and procedures for pressure processing in water in discontinuous agitating retorts*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length. The scale division shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to insure their accuracy. Bulbs of indicating thermometers shall be installed either

within the retort shell or in external wells attached to the retort. Thermometers shall be installed where they can be accurately and easily read. A thermometer that has a divided mercury column or that deviates more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The temperature recorder bulb shall be installed either within the retort shell or in a well attached to the shell.

(3) *Pressure gages.* Each retort shall be equipped with a pressure gage. The gage should be graduated in divisions of 2 pounds or less, should be connected to the retort shell or external well by a short gooseneck tube, and should be not more than 4 inches higher than the gooseneck. The gage should be checked for accuracy at least once a year.

(4) *Steam controller.* Each retort shall be equipped with an automatic steam controller to maintain the retort temperature. This may be a recording-controlling instrument when combined with a recording thermometer.

(5) *Retort speed timing.* The rotational speed of the retort shall be specified in the scheduled process. The rotational speed shall be adjusted, as necessary, to insure that the speed is as specified in the scheduled process. The rotational speed as well as the process time shall be recorded for each retort load processed. Alternatively, a recording tachometer may be used to provide a continuous record of the speed. A means of preventing unauthorized speed changes shall be provided.

(6) *Air supply and controls.* Means shall be provided for introducing compressed air at the proper pressure and rate. The proper pressure shall be controlled by an automatic pressure control unit. A check valve shall be provided in the air supply line to prevent water from entering the system.

(7) *Critical factors.* The minimum headspace of containers in each retort load to be processed, if specified in the scheduled process, shall be measured and recorded at intervals of sufficient frequency to insure that the headspace is as specified in the scheduled process. The headspace of solder-tipped, lap seam (vent hole) cans may be measured by net weight determinations. Where the product consistency is specified in the scheduled process the consistency of the product shall be determined by objective measurements on the product taken from the filler before processing and recorded at intervals of sufficient frequency to insure that the consistency is as specified in the scheduled process. Minimum closing machine vacuum (in vacuum-packed products), maximum drained weight, minimum net weight, and percent solids shall be as specified in the scheduled process for all products where deviations from such specifications may affect the scheduled process. Measurements of these critical factors shall be made and recorded at intervals of sufficient frequency to insure that they are as specified in the scheduled process. All measurements and recordings of critical factors should be made at intervals not to exceed 15 minutes.

(f) *Equipment and procedures for pressure processing in steam in hydrostatic retorts*—(1) *Indicating mercury-in-glass thermometer.* Each retort shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length. The scale divisions shall be no more than 2° F. Thermometers shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to insure their accuracy. The thermometer shall be located in the steam dome near the steam-water interface. Where the scheduled process specifies maintenance of particular temperatures in the hydrostatic water legs, a mercury-in-glass thermometer shall be located in each hydrostatic water leg in a position near the bottom automatic recorder so that it can be accurately and easily read. A thermometer that has a divided mercury column or that deviates more than 1° F. from the standard shall be repaired or replaced. The mercury thermometer—not the recorder chart—shall be the reference instrument for indicating the processing temperature.

(2) *Temperature recording device.* There shall be an accurate temperature recording device for each retort adjusted to agree within 1° F. of the known accurate mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The chart graduations shall not exceed 2° F. within a range of 10° F. of the processing temperature. Each chart shall have a working scale of not more than 50° F. per in. within a range of 20° F. of the processing temperature. This recorder may be combined with the steam controller and may be a recording-controlling instrument. The temperature recorder bulb shall be installed either within the steam dome or in a well attached to the dome. Temperature recorder bulb wells shall have a 1/16-inch or larger bleeder opening emitting steam continuously during the entire processing period. Additional temperature recorder bulbs shall be installed in the hydrostatic water legs if the scheduled process specifies maintenance of particular temperatures in the hydrostatic water legs.

(3) *Recording of temperatures.* Temperatures indicated by the mercury-in-glass thermometer or thermometers shall be entered on a suitable form during processing operations. Temperatures shall be recorded by an accurate automatic recorder or recorders at the following points:

(i) In the steam chamber between the steam-water interface and the lowest container position.

(ii) Near the top and the bottom of each hydrostatic water leg if the scheduled process specifies maintenance of particular temperatures in the legs.

(4) *Venting.* Before the start of processing operations, the retort steam chamber or chambers shall be vented to ensure removal of air.

(5) *Bleeders.* Bleeder openings ¼-inch or larger shall be located at the end of the steam chamber or chambers opposite from the point of steam entry. Bleeders shall be wide open and shall emit steam continuously during the entire process, including the coming-up-time. All bleeders shall be arranged in such a way that the operator can observe that they are functioning properly.

(6) *Retort speed.* The speed of the container conveyor chain shall be specified in the scheduled process and shall be determined and recorded at the start of processing and at intervals of sufficient frequency to insure that the retort speed is maintained as specified. The speed should be determined and recorded every 4 hours. An automatic device should be used to stop the chain when the temperature drops below that specified in the scheduled process. A means of preventing unauthorized speed changes shall be provided.

(7) *Critical factors.* (i) Where maximum drained weight is specified in the scheduled process, it shall be measured and recorded at intervals of sufficient frequency to ensure that the weight of the product does not exceed the maximum for the given container size specified in the scheduled process.

(ii) Minimum closing machine vacuum (in vacuum-packed products) shall be observed and recorded at intervals of sufficient frequency to ensure that the vacuum is as specified in the scheduled process.

(iii) Such measurements and recordings should be made at intervals not to exceed 15 minutes.

(g) *Aseptic processing and packaging systems*—(1) *Product sterilizer*—(i) *Equipment*—(a) *Temperature indicating device.* Each product sterilizer shall be equipped with at least one mercury-in-glass thermometer that has a temperature range of not more than 100° F. in the processing range on a scale at least 7 inches in length, or an equivalent temperature indicating device, such as a thermocouple-recorder. The scale divisions or chart graduations of the temperature indicating device shall be no more than 2° F. within the range of 10° F. of the product sterilization operating range. The device shall be installed in the product at the holding tube outlet between the holding tube and the inlet

V 38 - 16 JAN 24 73 XUM

to the cooler. The temperature indicating device shall be tested for accuracy against a known accurate standard thermometer upon installation and at least once a year thereafter or more frequently as may be necessary to ensure its accuracy. The device shall be installed so that it can be accurately and easily read. A thermometer that has a divided mercury column or a device that deviates more than 1° F. from the standard shall be repaired or replaced. The temperature indicating device shall be the reference instrument for indicating the processing temperature.

(b) *Temperature recording device.* There shall be an accurate temperature recording device on each product presterilizer. The temperature sensor shall be located in the presterilized product at the holding tube outlet between the holding tube and the inlet of the cooler. The recording device shall be adjusted to agree with a known accurate standard mercury-in-glass thermometer. A means of preventing unauthorized changes in adjustment shall be provided. The recording device shall not deviate more than 1° F. from the standard thermometer; it shall be installed so that it can be accurately and easily read. The recording chart graduations shall not exceed 2° F. within a range of 10° F. of the desired product sterilization temperature. The chart shall have a working scale of not more than 50° F. per inch within a range of 20° F. of the processing temperature.

(c) *Temperature recorder-controller.* An accurate temperature recorder-controller shall be located in the product sterilizer at the final heater outlet. It shall be capable of assuring that the desired product sterilization temperature is maintained. The chart graduations shall not exceed 2° F. within a range of 10° F. of the desired product sterilization temperature.

(d) *Product-to-product regenerators.* Where a product-to-product regenerator is used to heat the cold unsterilized product entering the sterilizer by means of a heat exchange system, it shall be designed, operated, and controlled so that the pressure of the sterilized product in the regenerator is greater than the pressure of any unsterilized product in the regenerator to insure that any leakage in the regenerator will be from the sterilized product into the unsterilized product.

(e) *Differential pressure recorder-controller.* Where a product-to-product regenerator is used, there shall be an accurate differential pressure recorder-controller installed on the regenerator. The scale divisions shall not exceed 2 pounds per square inch on a working scale of not more than 20 pounds per square inch per inch. The controller shall be tested for accuracy against a known accurate standard pressure indicator, upon installation and at least once every 3 months of operation thereafter or more frequently as may be necessary to ensure its accuracy. One pressure sensor shall be installed at the sterilized product regenerator outlet, and the other pressure sensor shall be installed at the unsterilized product regenerator inlet.

(f) *Metering pump.* A metering pump shall be located upstream from the holding tube and shall be operated to maintain the required rate of product flow. A means of preventing unauthorized speed changes shall be provided.

(g) *Product holding tube.* The product sterilizing holding tube shall be designed to give continuous holding of every particle of food for at least the minimum holding time specified in the scheduled process. The holding tube shall be designed so that no portion between the product inlet and the product outlet can be heated, and it shall be sloped upward at least 0.25 inch per foot.

(ii) *Operation—(a) Startup.* Prior to the start of aseptic processing operations, the product sterilizer shall be brought to a condition of commercial sterility.

(b) *Temperature drop in product sterilizing holding tube.* When product temperature in the holding tube drops below the temperature specified in the scheduled process, the product holding tube and any further system portions affected shall be returned to a condition of commercial sterility before flow is resumed to the filler.

(c) *Loss of proper pressures in the regenerator.* Where a regenerator is used the product may lose sterility whenever the pressure of sterilized product in the regenerator is less than 1 lb. per square in. greater than the pressure of unsterilized product in the regenerator. Product flow to the filler shall not be resumed until the cause of the improper pressure relationships in the regenerator has been corrected and the affected system(s) has been returned to a condition of commercial sterility.

(d) *Records.* Readings at the following points shall be observed and recorded at the start of aseptic packaging operations and at intervals of sufficient frequency to ensure that these values are as specified in the scheduled process: Temperature indicating device in holding tube outlet; temperature recorder-controller at final heater outlet; differential pressure recorder-controller, if a product-to-product regenerator is used; and product flow rate as established by the metering pump or as determined by filling and closing rates. Such measurements and recordings should be made at intervals not to exceed 1 hr.

(2) *Container sterilizing, filling, and closing operation—(i) Equipment—(a) Recording device.* The container and closure sterilization system and product filling and closing system shall be instrumented to show that commercial sterility is being achieved. Automatic recording devices shall be used to record, where applicable, the sterilization media flow rates and or temperatures. Where a batch system is used for container sterilization, the sterilization conditions shall be recorded.

(b) *Timing method(s).* A method(s) shall be used either to give the retention time of containers, and closures if applicable, in the sterilizing environment as specified in the scheduled process, or to control the sterilization cycle at the rate as specified in the scheduled process. A means of preventing unauthorized speed changes shall be provided.

(ii) *Operation—(a) Startup.* Prior to the start of packaging operations, both the container and closure sterilizing system and the product filling and closing system shall be brought to a condition of commercial sterility.

(b) *Loss of sterility.* In the event of loss of sterility, the system(s) shall be returned to a condition of commercial sterility before resuming packaging operations.

(c) *Records.* Observations and measurements of operating conditions shall be made and recorded at intervals of sufficient frequency to ensure that commercial sterility of the food product is being achieved; such measurements shall include the sterilization media flow rates and/or temperatures, the container and closure rates (if applicable) through the sterilizing system, and the sterilization conditions if a batch system is used for container sterilization. The measurements and recordings should be made at intervals not to exceed 1 hour.

(3) *Incubation.* Incubation tests shall be conducted on a representative sample of containers of product from each code; records of the tests shall be maintained.

(h) *Equipment and procedures for flame sterilizers.* The container conveyor speed shall be specified in the scheduled process. The container conveyor speed shall be measured and recorded at the start of operations and at intervals of sufficient frequency to ensure that the conveyor speed is as specified in the scheduled process. Such measurements and recordings should be done at 1-hour intervals. Alternatively, a recording tachometer may be used to provide a continuous record of the speed. A means of preventing unauthorized speed changes on the conveyor shall be provided. The surface temperature of at least one container from each conveyor channel shall be measured and recorded at the end of the holding period at intervals of sufficient frequency to ensure that the temperatures specified in the scheduled process are maintained. Such measurements and recordings should be done at intervals not to exceed 15 minutes.

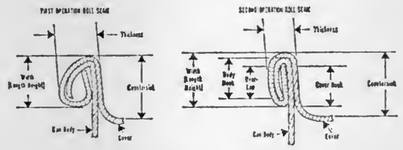
(i) *New systems.* The development of new systems for the thermal processing of low-acid foods in hermetically sealed containers shall conform to the applicable requirements of this part and shall ensure that the methods and controls used for the manufacture, processing, and/or packing of such foods are operated or administered in a manner adequate to achieve commercial sterility.

§ 128b.7 Containers.

(a) *Closures.* Regular observations shall be maintained during production runs for gross closure defects. Any such defects shall be recorded, and corrective action shall be taken and recorded. At intervals of sufficient frequency to ensure proper closure, the operator, closure supervisor, or other qualified container closure inspection person shall visually examine either the top seam of a can randomly selected from each seaming head or the closure of any other type of container being used, and shall record his observations. Such measurements and recordings should be made at intervals not to exceed 30 minutes. Additional visual closure inspections shall be made immediately following a jam in a closure machine, after closing machine adjustment, or after startup of a machine following a prolonged shutdown. All pertinent observations shall be recorded. Where irregularities are found, the corrective action shall be recorded.

(1) Teardown examinations for double seam cans shall be performed by a qualified individual and the results therefrom shall be recorded at intervals of sufficient frequency on enough containers from each seaming station to ensure maintenance of seam integrity. Such examinations and recordings should be made at intervals not to exceed 4 hours. The results of the teardown examinations shall be recorded and the corrective action taken, if any, shall be noted.

(i) Required and optional can seam measurements:



(a) Micrometer measurement system:

Required	*Optional*
Cover hook.	Overlap (by calculation).
Body hook.	Countersink.
Width (length, height).	Thickness.
Tightness (observation for wrinkle).	

(b) Seam scope or projector:

Required	*Optional*
Body hook.	Width (length, height).
Overlap.	Cover hook.
Tightness (observation for wrinkle).	Countersink.
	Thickness.

(c) Can double seam terminology:

(ii) Two measurements at different locations, excluding the side seam, shall be made for each double seam characteristic if a seam scope or seam projector is used. When a micrometer is used, three measurements shall be made at points approximately 120° apart, excluding the side seam.

(iii) Overlap length can be calculated by the following formula:

The theoretical overlap length=
CH+BH+T−W where
CH=cover hook
BH=body hook
T=cover thickness, and
W=seam width (height, length)

(2) For closures other than double seams, appropriate detailed inspections and tests shall be conducted by qualified personnel at intervals of sufficient frequency to insure proper closing machine performance and consistently reliable hermetic seal production. Records of such tests shall be maintained.

(b) *Cooling.* Container cooling water should be chlorinated as necessary by the processor so that there is a measurable free chlorine residual at the water discharge point of the container cooler. Other safe chemical or physical treatment which is equivalent to chlorination in its bactericidal effect may be used. Where pressure cooling is utilized, adequate pressure should be maintained for a time sufficient to prevent permanent distortion of the container.

(c) *Coding.* Each hermetically sealed container of low-acid processed food shall be marked with an identifying code which shall be permanently visible to the naked eye. Where the container does not permit the code to be embossed or inked, the label may be legibly perforated or otherwise marked, provided that the label is securely affixed to the product container. The required identification shall identify in code the establishment where packed, the product contained therein, the year packed, the day packed, and the period during which packed. The packing period code shall be changed with sufficient frequency to enable ready identification of lots during their sale and distribution. Codes may be changed on the basis of one of the following: Intervals of every 4 to 5 hours; personnel shift changes; or batches, provided the containers comprising such batch do not extend over a period of more than one personnel shift.

(d) *Postprocess handling:* Where cans are handled on belt conveyors, such conveyors should be so constructed as to minimize contact by the belt with the double seam, i.e., cans should not be rolled on the double seam. All worn and frayed belting, can retarders, cushions, etc. should be replaced with new nonporous material. All tracks and belts which come into contact with the can seams should be thoroughly scrubbed and sanitized at intervals of sufficient frequency to avoid product contamination. Automatic equipment used in handling filled containers should be so designed and operated in such a manner as to preserve the can seam or other container closure integrity.

§ 128b.8 Processing and production records.

(a) Processing and production information shall be entered by the retort or processing system operator, or other designated person, on forms which shall include the product, the code number, the retort or processing system number, the size of container, the approximate number of containers per coding interval, the minimum initial temperature, the actual processing time and temperature, the mercury-in-glass and recording thermometer readings, and other appropriate processing data. Closing machine vacuum (in vacuum-packed products), maximum drained weight, or other critical factors specified in the scheduled process shall also be recorded. In addition, the following records shall be maintained:

(1) *Still retorts.* Time steam on; time temperature up to processing temperature; time steam off; venting time and/or temperature to which vented (as applicable).

(2) *Agitating retorts.* Functioning of condensate bleeder; retort speed; and, where specified in the scheduled process, headspace, consistency, maximum drained weight, minimum net weight, and percent solids.

(3) *Hydrostatic retorts.* The temperature in the steam chamber between the steam-water interface and the lowest container position; speed of the container conveyor chain; and, where the scheduled process specifies maintenance of particular temperatures in the hydrostatic water legs, the temperatures near the top and the bottom of each hydrostatic water leg.

(4) *Aseptic processing and packaging systems.* Product temperature in the holding tube outlet as indicated by the temperature indicating device and the temperature recorder; product temperature in the final heater outlet as indicated by the temperature recorder-controller; differential pressure as indicated by the differential pressure recorder-controller, if a product-to-product regenerator is used; product flow rate, as determined by the metering pump or by filling and closing rates; sterilization media flow rate and/or temperature; retention time of containers, and closures where applicable, in the sterilizing environment; and, where a batch system is used for container and/or closure sterilization, sterilization cycle times and temperatures.

(5) *Flame sterilizers.* Container conveyor speed; surface temperature at the end of the holding period; nature of container.

(b) Recording thermometer charts shall be identified by date, and other data as necessary, so they can be correlated with the written record of lots processed. Each entry on the record shall be made by the retort or processing system operator, or other designated person, at the time the specific retort or processing system condition or operation occurs, and the retort or processing system operator or such designated person shall sign or initial each record form. Not later than 1 working day after the actual process, and prior to shipment or release for distribution, a representative of plant management who is qualified by suitable training or experience shall review all processing and produc-

V 38 16 JAN 24 73 XUM

tion records for completeness and to insure that the product received the scheduled process. The records, including the recording thermometer chart(s), shall be signed or initialed by the person conducting the review.

(c) Written records of all container closure examinations shall specify the product code, the date and time of container closure inspections, the measurements obtained, and all corrective actions taken. Records shall be signed or initialed by the container closure inspector and shall be reviewed by management with sufficient frequency to assure that the containers are hermetically sealed.

(d) Copies of all records provided for in this part except those required under § 128b.4 establishing scheduled processes, shall be maintained at the processing plant for a period of not less than 3 years.

§ 128b.9 Deviations in processing.

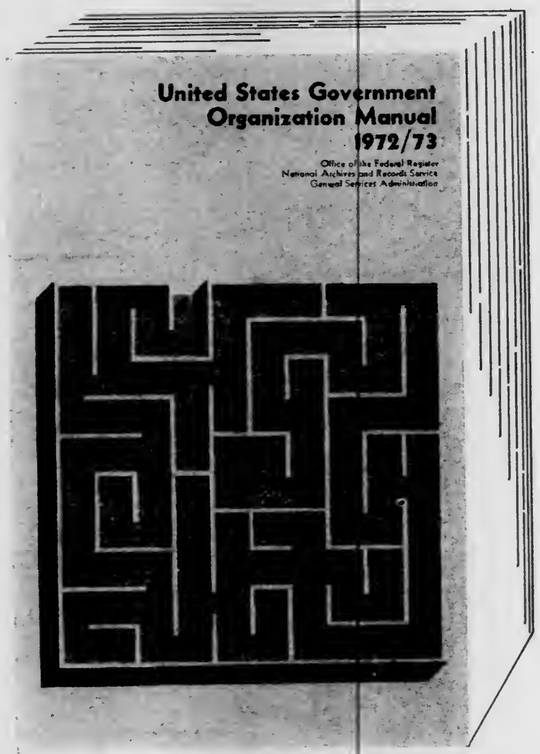
Whenever any process is less than the scheduled process for any low-acid food or container system as disclosed from records, by processor check, or otherwise, the commercial processor of such low-acid food shall either fully reprocess that portion of the production involved, keeping full records of the reprocessing conditions or, alternatively, shall set aside that portion of the production involved for further evaluation as to any potential public health significance. Such evaluation shall be made by a competent processing authority and shall be in accordance with procedures recognized by competent processing authorities as being adequate to detect any potential hazard to public health. Unless such evaluation demonstrates that the product had been given a thermal process that rendered it free of micro-organisms of potential public health significance, the product set aside either shall be fully reprocessed to render it commercially sterile or it shall be destroyed. A record shall be made of the evaluation procedures used and the results. Either upon completion of full reprocessing and the attainment of commercial sterility or after the determination that no significant potential for public health hazard exists, that portion of the production involved may be shipped in normal distribution. Otherwise, the portion of the production involved shall be destroyed.

§ 128b.10 Personnel.

All operators of retorts, processing systems, and aseptic processing and packaging systems, and container closure inspectors shall be under the operating supervision of a person who has attended a school approved by the Commissioner for giving instruction in retort operations, processing systems operations, aseptic processing and packaging systems operations, and container closure inspections, and has been identified by that school as having satisfactorily completed the prescribed course of instruction.

Effective date. This order shall become effective March 26, 1973, except as to those provisions of § 128b.6 regarding the installation of recording thermometers on thermal processing equipment and the provisions of § 128b.10, which concerns the training of personnel. Those provisions of § 128b.6 regarding the installation of recording thermometers on thermal processing equipment shall become effective June 25, 1973. The provisions of § 128b.10, which concerns the training of personnel, shall become effective September 25, 1974.

(Secs. 402(a)(4), 701(a), 52 Stat. 1046, 1055, 21 U.S.C. 342(a)(4), 371(a))



Dated: January 12, 1973.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.
Paperbound, with charts

FRIDAY, JANUARY 26, 1973

WASHINGTON, D.C.

Volume 38 ■ Number 17

Pages 2411–2668

PART I

(Part II begins on page 2561)

(Part III begins on page 2649)

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ENVIRONMENTAL IMPACT STATEMENTS—Proposed Labor Dept. procedures for Federal agency actions affecting occupational health and safety; comments by 2–24–73 2465

ANTI-POLLUTION CONSTRUCTION STANDARDS—DoT proposals for tank ships and barges; comments by 3–15–73 2467

POISON PREVENTION PACKAGING—FDA grants temporary exemption on 12-tablet metal containers of aspirin; comments by 2–12–73 2487

PESTICIDES—EPA establishes tolerance for an insecticide residues on fresh prunes 2428

AIR FREIGHT RATES—CAB suspends proposed increases in rates between the mainland and points in Alaska, Hawaii and Puerto Rico 2489

INSURANCE AND LOANS—

HUD changes debenture interest rates for mortgage insurance and home improvement loans; effective 1–1–73 2417

DoT establishes procedures for filing applications under Emergency Rail Facilities Restoration Act; effective 1–2–73 2435

SHIPPING—

Commerce Dept. temporary rules relating to capital construction funds 2430

Maritime Comm. extends comment period to 2–14–73 on proposal relating to conditions unfavorable in foreign trade 2468

(Continued inside)

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

	37 FR page No. and date
FAA—Airborne ATC transponder equipment	28495; 12-27-72

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

OCCUPATIONAL SAFETY—
Labor Dept. approves State plans for New Jersey, North Dakota and Washington (3 documents) 2421, 2423, 2426
Labor Dept. requests comments by 2–4–73 regarding safety requirements for operation of mechanical power presses 2465

SECURITIES—SEC proposes to define and clarify certain terms and conditions of the intrastate offering exemption; comments by 3–15–73 2468

LONGSHOREMEN'S AND HARBOR WORKERS COMPENSATION—Extensive revisions and recodification of Labor Dept. rules (2 documents) 2650

PUBLIC LANDS—Interior Dept. announces openings in New Mexico 2473

AGRICULTURAL COMMODITIES—
USDA amends reporting requirements for cotton and potatoes; effective 2–26–73 2445
USDA increases inspection fees for produce in destination markets; effective 2–4–73 2439
USDA rules on rice reserve and pool acreages and allotments; effective 1–19–73 2439

INCOME TAX—
IRS clarifies treatment of certain debts charged off by banks or other regulated corporations 2417
IRS holds public hearing 3–1–73 on treatment of political campaign contributions in form of appreciated property 2472

FREEDOM OF INFORMATION—Labor Dept. regulations on access to records 2418

DIPLOMATIC PRIVILEGES—Customs Bur. clarifies privileges accorded personnel of foreign governments and international organizations; effective 2–26–73 2448

ANIMAL WELFARE—USDA proposes to amend import regulations for commercial birds; comments by 2–26–73 2463

BROADCASTING—FCC amendments regarding phase monitors and inspection of remotely controlled directional stations; effective 4–20–73 2430

ELECTRIC GENERATION FACILITIES—REA proposes supplemental bulletin to set forth revised borrowing and procurement policy; comments by 2–26–73 2464

MEETNGS—
HEW: Nat'l Institute of Health, Advisory Committee to the Director, 2–22 and 23–73 2488
Advisory Committee on Poison Prevention Packaging, 2–1 and 2–2–73 2487
Justice Dept: Bureau of Narcotics and Dangerous Drugs, Advisory Committee on Research and Development, 1–30–73 2472
DoT: YOUTHS Highway Safety Advisory Committee, 2–3 and 2–4–73 2488
State Dept.: Advisory Commission on International Educational and Cultural Affairs, 2–2–73 2472
Council on Environmental Quality: Advisory Committee on Alternative Automotive Power Systems, 1–29 and 30–73 2490
SEC: Broker Dealer Model Compliance Program Advisory Committee, 1–29–73 2501
Railroad Retirement Board: Actuarial Advisory Committee, 2–22–73 2498

Contents

AGRICULTURAL MARKETING SERVICE

Rules and Regulations

Fresh fruits, vegetables, and other products; basis for charges 2439
Navel oranges grown in Arizona and California; handling limitation 2441

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

3 CFR

EXECUTIVE ORDERS:
July 11, 1911 (revoked in part by PLO 5327) ---- 2429

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit Federal Housing Commissioner [Federal Housing Administration], Department of Housing and Urban Development

[Docket No. R-73-224]

DEBENTURE INTEREST RATES

The following amendments have been made to this chapter to change the debenture interest rate. The Secretary has determined that advance publication and notice and public procedure are unnecessary since the debenture interest rate is set by the Secretary of the Treasury in accordance with a procedure established by statute and that said cause exists for making this amendment effective January 1, 1973.

Accordingly, Chapter II is amended as follows:

SUBCHAPTER C—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

Subpart B—Contract Rights and Obligations

1. Section 203.405 is amended to read as follows:

§ 203.405 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semi-annually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the mortgage was endorsed for insurance, whichever rate is higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
6⅛	July 1, 1971	Jan. 1, 1972
6⅛	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

2. Section 203.479 is amended to read as follows:

§ 203.479 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the loan was endorsed for insurance, whichever rate is the higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
6⅛	July 1, 1971	Jan. 1, 1972
6⅛	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

SUBCHAPTER D—RENTAL HOUSING INSURANCE

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart B—Contract Rights and Obligations

In § 207.259 paragraph (e)(6) is amended to read as follows:

§ 207.259 Insurance benefits.

* * * * * *

(e) *Issuance of debentures.* * * *

(6) Bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date of initial insurance endorsement of the mortgage, whichever rate is the higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
6⅛	July 1, 1971	Jan. 1, 1972
6⅛	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	

* * * * * *

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 207, 52 Stat. 16, as amended; 12 U.S.C. 1713)

SUBCHAPTER F—URBAN RENEWAL HOUSING INSURANCE AND INSURED IMPROVEMENT LOANS

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

Subpart D—Contract Rights and Obligations—Projects

Section 220.830 is amended to read as follows:

§ 220.830 Debenture interest rate.

Debentures shall bear interest from the date of issue, payable semiannually on the first day of January and the first day of July of each year at the rate in effect as of the date the commitment was issued, or as of the date the loan was endorsed for insurance, whichever rate is higher. The following interest rates are effective for the dates listed:

Effective rate (percent)	On or after—	Prior to—
6¼	Jan. 1, 1971	July 1, 1971
6⅛	July 1, 1971	Jan. 1, 1972
6⅛	Jan. 1, 1972	July 1, 1972
5½	July 1, 1972	Jan. 1, 1973
5¼	Jan. 1, 1973	

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 220, 68 Stat. 596, as amended; 12 U.S.C. 1715k)

Effective date. These amendments are effective as of January 1, 1973.

JOHN L. GANLEY,
Deputy Assistant Secretary for Housing Production and Mortgage Credit.

HARRY T. MORLEY,
Assistant Secretary for Administration.

[FR Doc.73-1540 Filed 1-24-73;8:45 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7236]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Group-Term Life Insurance Purchased for Employees

Correction

In FR Doc. 72-22239 appearing at page 28624 of the issue for Thursday, December 28, 1972, the following changes should be made in § 1.79-1(b)(1):

1. In subdivision (ii)(*b*), the word "January" in the ninth line should read "July".

2. In the example to subdivision (ii)(*c*), the date "December 21, 1972" which appears in the fifth line from the end should read "June 30, 1973"; and the date "January 1" in the third line from the end should read "July 1".

[T.D. 7254]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Certain Debts Charged Off by Banks or Other Regulated Corporations

This document contains an amendment to the Income Tax Regulations (26

V 38 - 17 JAN 26 73 XUM

CFR Part 1) under section 166 of the Internal Revenue Code of 1954 in order to clarify the income tax treatment of certain debts charged off by banks or other regulated corporations.

Prior to this amendment, banks and other corporations subject to supervision by Federal authorities, or by State authorities maintaining substantially equivalent standards, were entitled to a conclusive presumption of worthlessness of debts only where the debts were charged off in obedience to the specific orders of such authorities. This amendment extends the applicability of the conclusive presumption to cases in which the charge-offs are made without such specific orders but in accordance with established policies of such authorities, provided that those authorities, upon their next audit of the bank or corporation, confirm in writing that the charge-offs would have been subject to their specific orders.

In order to clarify the income tax treatment of debts charged off by banks or other regulated corporations, which are confirmed by supervisory authorities as having been properly charged off, paragraph (d)(1) of § 1.166-2 of the Income Tax Regulations (26 CFR Part 1) is amended to read as follows:

§ 1.166-2 Evidence of worthlessness.

. . . . . .

(d) *Banks and other regulated corporations*—(1) *Worthlessness presumed in year of charge-off.* If a bank or other corporation which is subject to supervision by Federal authorities, or by State authorities maintaining substantially equivalent standards, charges off a debt in whole or in part, either—

(i) In obedience to the specific orders of such authorities, or

(ii) In accordance with established policies of such authorities, and, upon their first audit of the bank or other corporation subsequent to the charge-off, such authorities confirm in writing that the charge-off would have been subject to such specific orders if the audit had been made on the date of the charge-off,

then the debt shall, to the extent charged off during the taxable year, be conclusively presumed to have become worthless, or worthless only in part, as the case may be, during such taxable year. But no such debt shall be so conclusively presumed to be worthless, or worthless only in part, as the case may be, if the amount so charged off is not claimed as a deduction by the taxpayer at the time of filing the return for the taxable year in which the charge-off takes place.

. . . . . .

Because this Treasury decision will not be detrimental to any taxpayer, it is hereby found unnecessary to issue this Treasury decision with notice and public procedure thereon under 5 U.S.C. section 553(b), or subject to the effective date limitation of 5 U.S.C. section 553(d).

(Sec. 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805))

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: January 17, 1973.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

[FR Doc.73-1597 Filed 1-24-73;8:45 am]

Title 29—LABOR

Subtitle A—Office of the Secretary of Labor

PART 14—NATIONAL SECURITY INFORMATION

A new Part 14 of Title 29, Code of Federal Regulations, is hereby added to inform the public and Federal agencies of the procedures followed by the Department of Labor in classifying, declassifying, and granting or denying public access to, national security information in the custody of the Department of Labor, and to provide for necessary liaison between the Department of Labor and agencies that originate national security information.

As this part involves rules of agency procedure, notice of proposed rulemaking and public comment, and delay in the effective date are not required. Accordingly, this part shall be effective on January 26, 1973.

The new Part 14 reads as follows:

Subpart A—General Provisions

Sec.
14.2000 Authority.
14.2001 General policy.
14.2002 Department of Labor Classification Review Committee.
14.2004 Composition of committee.

Subpart B [Reserved]

Subpart C [Reserved]

Subpart D—Authority for Classification and Declassification

14.2060 Authority to classify.
14.2061 Authority to downgrade and declassify.
14.2062 Authority to exempt.

Subpart E—Downgrading and Declassification

14.2080 Earlier downgrading and declassification.
14.2081 General declassification schedule.
14.2082 Declassification of classified material after 10 years.
14.2083 Declassification of classified material after 30 years.
14.2084 Notification of change in classification.

Subpart F—Review of Classified Material

14.2100 Systematic reviews.
14.2101 Mandatory review of material over 10 years old.
14.2102 Mandatory review of material over 30 years old.
14.2103 Burden of proof.

Subpart G [Reserved]

Subpart H [Reserved]

Subpart I—Distribution Dissemination and Transmission of Classified Material

14.2162 Distribution of material originating in another department.
14.2163 Dissemination to individuals and firms outside the executive branch of the Federal Government.

AUTHORITY: Executive Order 11652, the National Security Council Directive of May 17, 1972, and the Freedom of Information Act, 5 U.S.C. 552.

Subpart A—General Provisions

§ 14.2000 Authority.

These regulations implement Executive Order 11652 dated March 8, 1972, entitled "Classification and Declassification of National Security Information and Material" and directives issued pursuant to the order through the National Security Council and the Atomic Energy Act of 1954 as amended.

§ 14.2001 General policy.

The interests of the United States and its citizens are best served by making information regarding the affairs of Government readily available to the public. This concept of an informed citizenry is reflected in the Freedom of Information Act (5 U.S.C. 552) and in the current public information policies of the executive branch.

(a) *Safeguarding national security information.* Within the Federal Government there is some official information and material which, because it bears directly on the effectiveness of our national defense and the conduct of our foreign relations, must be subject to some constraints for the security of our Nation and the safety of our people and our allies. To protect against actions hostile to the United States, of both an overt and covert nature, it is essential that such official information and material be given limited dissemination.

(b) *Exemption from public disclosure.* This official information or material, hereinafter referred to as national security information or material, is expressly exempted from compulsory public disclosure by section 552(b)(1) of Title 5, U.S.C. Wrongful disclosure of such information or material is recognized in the Federal Criminal Code as providing a basis for prosecution.

(c) *Scope.* To insure that such information and material is protected, but only to the extent and for such period as is necessary, these regulations identify the information to be protected, prescribe classification downgrading, declassification, and safeguarding procedures to be followed, and establish a monitoring system to insure their effectiveness.

(d) *Limitation.* The requirement to safeguard information and material in the interest of national security and the conduct of foreign relations in no way implies an indiscriminate license to restrict information from the public. It is important that the citizens of the United States have the fullest possible access, consistent with national security, to information concerning the policies and programs of their Government.

(e) *Freedom of Information Act.* The fact that information has been declassified under Executive Order 11652 does not necessarily mean that the information will be disclosed. Access to the information declassified may be denied under subparagraphs 2 through 9 of 5 U.S.C. 552(b) if the facts warrant. In that event, after declassification of the information, the procedures in part 70 of this subtitle shall apply.

§ 14.2002 Department of Labor Classification Review Committee.

(a) A Department of Labor Classification Review Committee is hereby established. The Committee is responsible for the continuing review of the administration of these regulations with respect to classification and declassification of information or material originated within the Department. It shall establish procedures to review and act within 30 days upon all applications and appeals regarding requests for declassification. The Committee is authorized to overrule, on behalf of the Secretary, classification determinations, in whole or in part, when in its judgment continued protection is not required. If the Committee determines that continued classification is required, it shall promptly so notify the requester and advise him that he may appeal the denial to the Interagency Classification Review Committee.

(b) The Committee shall review all appeals of requests for records under the Freedom of Information Act, 5 U.S.C. 552, when the proposed denial is based on continued classification under Executive Order 11652.

(c) The Committee shall provide quarterly reports to the Interagency Classification Review Committee on

(1) Updating the record lists of officials authorized to classify within the Department.

(2) Departmental actions on classification review requests, classification abuses, and unauthorized disclosures and

(3) Progress reports on information accumulated in the data index system established under Part VII of the National Security Council directive of May 17, 1972, and such other reports as the Chairman of the Interagency Classification Review Committee may find necessary for the Committee to carry out its responsibilities.

(d) The Committee shall have responsibility for recommending to the Secretary of Labor appropriate administrative action to correct abuse or violation of any provisions of Executive Order 11652 or directives thereunder, including notification by warning letter, formal reprimand, and to the extent permitted by law, suspension without pay and removal. Upon receipt of such recommendation the Secretary of Labor shall act promptly and advise the Department of Labor Classification Review Committee of his action.

§ 14.2004 Composition of committee.

The members of the Department of Labor Classification Review Committee are:

Chairman—Director, Office of Investigations and Security
Member—Administrative Officer, Bureau of International Labor Affairs
Member—Security Officer, Bureau of Labor Statistics
Member—Security Officer, Occupational Safety and Health Administration

Subpart B [Reserved]

Subpart C [Reserved]

Subpart D—Authority for Classification and Declassification

§ 14.2060 Authority to classify.

The following officials, by order of the President, dated September 30, 1972, have authority to originally classify information or material in the categories indicated:

(a) *Top Secret.* (1) Secretary of Labor,

(2) Under Secretary of Labor,

(3) Deputy Under Secretary for International Labor Affairs,

(4) Assistant Secretary for Administration and Management.

Officials serving in an acting capacity in any of the above positions shall also have the authority to originally classify national security information or material "Top Secret."

(b) *Secret.* The officials designated in paragraph (a) of this section are authorized to classify national security information or material "Secret." In addition, the following officials have the authority to classify national security information "Secret":

Solicitor of Labor.
Assistant Secretary for Occupational Safety and Health.
Assistant Secretary for Labor-Management Relations.
Assistant Secretary for Employment Standards.
Assistant Secretary for Manpower.
Assistant Secretary for Policy Evaluation and Research.
Commissioner, Bureau of Labor Statistics.
Associate Deputy Under Secretary for International Labor Affairs.
Director, Office of Investigations and Security.

As in the case of the "Top Secret" designations officials serving in an acting capacity in any of the above positions also have the authority to classify national security information or material "Secret."

(c) *Confidential.* The authority to originally classify national security information or material under Executive Order 11652 as "Confidential" may be exercised by officials who have "Top Secret" or "Secret" classification authority and such officials as they may designate in writing.

§ 14.2061 Authority to downgrade and declassify.

Classified national security information or material may be downgraded or declassified by the official authorizing the original classification, by a successor in the same capacity or by a supervisory official of either. In addition, national security information or material may be downgraded or declassified by any person designated in writing for that purpose by the Secretary of Labor or by the Department Classification Review Committee.

§ 14.2062 Authority to exempt.

In the President's order of September 30, 1972, designating certain officials in the Department with the authority to originally classify national security information he specifically withheld authority for any official in the Department to exempt documents from the General Declassification Schedule.

Subpart E—Downgrading and Declassification

§ 14.2080 Earlier downgrading and declassification.

Classified national security information and material shall be downgraded and declassified as soon as there are no longer any grounds for continued classification with the classification categories set forth in subpart B of this part. At the time of classification, whenever possible the classifying authority shall clearly mark on the information or material a specific date or event, earlier than that called for in the General Declassification Schedule upon which downgrading or declassification shall occur. Such dates or events shall be as early as is possible without causing damage to the national security.

§ 14.2081 General Declassification Schedule.

Classified information and material, unless downgraded and declassified earlier under the provisions of section 14.2080 shall be assigned a date or event which downgrading shall occur within the prescribed limits outlined below:

(a) *Top Secret.* Information or material originally classified "Top Secret" shall become automatically downgraded to "Secret" at the end of the second full calendar year following the year in which it was originated, downgraded to "Confidential" at the end of the fourth full calendar year following the year in which it was originated, and declassified at the end of the 10th full calendar year following the year in which it was originated.

(b) *Secret.* Information and material originally classified "Secret" shall become automatically downgraded to "Confidential" at the end of the 2d full calendar year following the year in which it was originated, and declassified at the end of the 8th full calendar year following the year in which it was originated.

(c) *Confidential.* Information and material originally classified "Confidential" shall become automatically declassified at the end of the 6th full

V 38 - 17 JAN 26 73 XUM

calendar year following the year in which it was originated.

Information or material classified before June 1, 1972, and which is assigned to group 4 under Executive Order No. 10501, as amended by Executive Order No. 10964, shall be subject to the General Declassification Schedule. All other information or material classified before June 1, 1972, whether or not assigned to groups 1, 2, or 3 of Executive Order No. 10501 as amended, shall be excluded from the General Declassification Schedule. However, at any time after the expiration of 10 years from the date of origin it shall be subject to a mandatory classification review and disposition under the same conditions and criteria that apply to classified information and material created after the effective date of Executive Order 11652, June 1972.

§ 14.2082 Declassification of classified material after 10 years.

All classified information or material, whether classified before or after June 1, 1972, shall be subject to mandatory classification review pursuant to the provisions of subpart E of this part at any time after expiration of 10 years from date of origin.

§ 14.2083 Declassification of classified material after 30 years.

All classified information or material which is 30 years old or more is subject to automatic declassification as follows:

(a) All information and material classified by the Department after June 1, 1972, shall become automatically declassified at the end of 30 full calendar years after the date of its original classification except for such specifically identified material as the Secretary of Labor personally determines in writing at that time to require continued protection is essential to the national security, or when disclosure would place a person in immediate jeopardy. In either such case the Secretary of Labor shall also specify the period of continuing classification.

(b) All information and material classified before June 1, 1972, and more than 30 years old shall be systematically reviewed for declassification by the Archivist of the United States by the end of the 30th full calendar year following the year it was originated. All such information and material shall be declassified except that specifically identified by the Secretary of Labor for continued classification as set forth in paragraph (a) of this section.

§ 14.2084 Notification of change in classification.

When classified information or material is downgraded or declassified in a manner other than that originaly specified, the classifying authority shall, to the extent practicable, promptly notify all recipients of the classified material. In turn, the recipients shall notify any other known holders of the declassification or downgrading of the information or material.

Subpart F—Review of Classified Material

§ 14.2100 Systematic reviews.

All information and material classified after June 1, 1972, by the Department, and evaluated under 44 U.S.C. 2101–2114 as being of sufficient value to warrant preservation, shall be systematically reviewed on a timely basis by the Department for the purpose of making such information and material publicly available in accord with the classification determination made by the classifying authority. During each calendar year the Department shall segregate to the maximum extent possible all such information and material warranting preservation and becoming declassified at or prior to the end of such year. Promptly after the end of such year the Department, or the Archives of the United States, if transferent thereto, shall make the declassified information and material available to the public to the extent permitted by law.

§ 14.2101 Mandatory review of classified material.

(a) All classified material originated prior to June 1, 1972, shall be subject to a classification review by the originating office at any time after the expiration of 10 years from the date of origin if:

(1) A Department or member of the public requests the review.

(2) The request is in writing and describes the classified information or material with sufficient particularity to enable the Department to identify it, and

(3) The classified information or material can be obtained with only a reasonable amount of effort.

(b) Deficient requests: When the description in a request is deficient the requester should be asked to provide as much additional identifying information as possible. Before denying a request on the ground that the information or material is not obtainable with a reasonable amount of effort, the requester should be asked to limit his request to information or material that is reasonably obtainable. If the requester then fails to describe the information or material he seeks with sufficient particularity, or it cannot be obtained with a reasonable amount of effort, the requester shall be notified of the reasons why no action will be taken and of his right to appeal the decision to the Department Classification Review Committee.

(c) Requests for classification review under this section should be addressed to the Department of Labor, Office of the Assistant Secretary for Administration and Management, Washington, D.C. 20210. The Office of the Assistant Secretary for Administration and Management shall assign the request to the appropriate office within the Department for action, and the latter shall immediately acknowledge receipt of the request to the requester in writing. If the request requires the rendering of services requiring the charging of fees pursuant to 31 U.S.C. 483a, the requester shall so be notified and fees shall be charged pursuant to § 70.62 of this subtitle. The office shall thereafter make a determination within 30 days of receipt of the request or shall explain to the requester the reasons why further time is necessary. If at the end of 60 days from receipt of the request for review no determination has been made, the requester may apply to the Department Classification Review Committee for a determination. If the office determined that continued classification is required, the requester shall promptly be notified, and, whenever possible, provided with a brief statement as to why the requested information or material cannot be declassified. The requester may appeal any such determination to the Department Classification Review Committee and the notice of determination shall advise him of this right. If, after appeal by the requester, the Department Classification Review Committee determines that continued classification is required, it shall promptly so notify the requester and advise him that he may appeal to the Interagency Classification Review Committee.

§ 14.2102 Mandatory review of material over 30 years old.

All classified information and material which is thirty (30) years old or more shall be declassified in accordance with § 14.2084 hereof. In addition, a department or agency of the Government or a member of the public may request a review of the classification of such information or material. Such requests should meet the conditions set forth in § 14.2101. Such requests shall be referred directly to the Archivist of the United States for processing. The Secretary of Labor shall cooperate with the Archivist in the review of such requests, and shall determine personally whether continued classification of such information or material is required, and specify the period of such classification.

§ 14.2103 Burden of proof.

In making its determinations concerning requests for declassification of classified information or material the Department Classification Review Committee shall impose for administrative purposes the burden of proof on the originating office that continued classification is warranted.

Subpart G [Reserved]

Subpart H [Reserved]

Subpart I—Distribution Dissemination and Transmission of Classified Material

§ 14.2162 Distribution of material originating in another department or agency.

Classified material that originated in another U.S. department or agency must not be communicated outside the receiving agency without the consent of the originating department or agency. Such approval must be obtained in writing and a record of the approval and communication must be maintained by the communicator. This rule with respect to the release of classified information originating outside the Department is subject to exception in the case of classified information received from the Foreign Service in response to departmental requests or with respect to which the Department has been designated as the action agency. Such information shall be considered to be Department of Labor information and therefore subject to the regulations covering dissemination of material classified within the Department.

§ 14.2163 Dissemination to individuals and firms outside the executive branch of the Federal Government.

Requests from sources outside the executive branch of the Federal Government for classified material and information which originated in the Department of Labor may be honored subject to the following conditions only:

(a) TOP SECRET material: Any material originating in the Department of Labor which is classified as TOP SECRET may not be released to an individual or firm outside the executive branch of the Federal Government without the approval of the Assistant Secretary for Administration and Management. Prior to approval the individual or firm must have been authorized a personnel security clearance for TOP SECRET in writing by the Office of Investigations and Security. Any request for such material by an individual or firm outside the executive branch of the Federal Government should be referred promptly to the Assistant Secretary for Administration and Management for consideration on an individual basis.

(b) Secret and Confidential material: The official from whom Secret or Confidential material is being requested may furnish such material to an individual or firm outside the executive branch of the Federal Government provided that the furnishing of such classified material to the individual or the firm shall further the official programs of the organizational unit in which the information originated. The official furnishing the information must have knowledge that the persons to whom the material is to be furnished has the appropriate Department of Labor clearance, or at a minimum a clearance for the same classification or higher from another Federal Government department or agency whose security clearances are known to be acceptable to the Department of Labor, and that the person to whom the classified material is being furnished has the proper facilities for safeguarding such material. In addition to the foregoing requirements, no material classified Secret or Confidential may be furnished to an individual or firm outside the executive branch of the Federal Government without the concurrence of the primary organizational unit head or the security officer of that unit in writing.

(c) If a request is received in any office of the Department of Labor which would raise a suspicion that an individual or organization outside the executive branch of the Federal Government service has knowledge of the existence of material classified Confidential, Secret, or Top Secret, without authorization therefor, then a report giving all available details must be made immediately to the Department of Labor Physical Security Officer for appropriate action and disposition.

(d) All requests received from sources outside the United States for Top Secret, Secret, or Confidential material, except those requests received from foreign offices of the primary organizational unit or from U.S. Embassies or similar missions abroad, shall be referred to the Assistant Secretary for International Labor Affairs.

(e) Access by historical researchers: Persons outside the executive branch engaged in historical research projects may be authorized access to classified information or material: *Provided*, That the head of the originating department determines that:

(1) The project and access sought conform to the requirements of section 12 of Executive Order 11652.

(2) The information or material requested is reasonably accessible and can be located and compiled with a reasonable amount of effort.

(3) The historical researcher agrees to safeguard the information or material in a manner consistent with Executive Order 11652 and directives thereunder.

(4) The historical researcher agrees to authorize a review of his notes and manuscripts for the sole purpose of determining that no classified information or material is contained therein. An authorization for access shall be valid for the period required but no longer than 2 years from the date of issuance unless renewed under the same conditions and regulations as when initially granted.

(f) Access by former Presidential appointees: Persons who previously occupied policymaking positions to which they were appointed by the President, other than those referred to in section 11 of Executive Order 11652, may be authorized access to classified information or material which they originated, reviewed, signed or received while in public office. Upon the requests of any such former official, such information or material as he may identify shall be reviewed for declassification in accordance with the provisions of these regulations.

(g) If dissemination of classified information has been approved under conditions described above, the documents shall be stamped prior to distribution.

Signed at Washington, D.C., this 18th day of January 1973.

J. D. HODGSON,
Secretary of Labor.

[FR Doc.73-1539 Filed 1-24-73;8:45 am]

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Washington Developmental Plan

1. *Background.* The Washington State plan was submitted to the Assistant Secretary, August 14, 1972, for approval under Part 1902, Title 29, Code of Federal Regulations. Approval would permit the State to apply its State laws and regulations, including job safety and health standards relating to occupational safety and health under its plan. Notice of receipt of the plan was published in the FEDERAL REGISTER, September 8, 1972 (37 FR 18253). Comments on the plan were received from the American Federation of Labor—Congress of Industrial Organizations (AFL–CIO), Washington State Health Facilities Association, the County Road Administration Board, Olympia, Wash., and the Associated General Contractors of America, Inc., Northwest Chapter.

The plan identifies the Department of Labor and Industries as the State agency designated to administer the plan throughout the State. It adopts the definition of occupational safety and health issues expressed in § 1902.2(c)(1). The plan states that the Department of Labor and Industries is currently exercising statewide inspection authority to enforce many State standards. The plan further includes proposed draft legislation to be considered by the Washington Legislature during its 1973 session, creating a new chapter in Title 49, Revised Code of Washington, and repealing existing provisions, to bring it into conformity with the requirements of Part 1902.

The proposed legislation is accompanied by a statement of the Governor's support for it and an opinion from the State attorney general that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the Constitution and laws of the State. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 upon enactment of the proposed legislation by the State legislature.

2. *Issues.* The public comments and our review of the plan raised several significant issues which were addressed by Washington in supplementary letters of clarification submitted October 18, 1972, January 5, 1973, and January 12, 1973, and incorporated as part of the plan.

The first issue is whether the standards as submitted by Washington are at least as effective as Federal standards. Based on an analysis of Washington's standard comparison, Subparts F, N, O, and Q have been determined to be at least as effective. Subparts K and P were withdrawn by Washington and in accordance with § 1902.20(b)(1)(ii) these subparts and the remaining subparts as described in 29 CFR 1910 will be

V 38 17 JAN 26 73 XUM

submitted by Washington as developmental codes. In addition, one "product" standard was identified during our review. Washington has agreed to submit information on "compelling local conditions" for this "product" standard (WAC 296-24-235 lighting in crane cabs), and any subsequently identified "product" standards within the 1 year post-approval developmental period for standards.

A second issue involves the procedure for review of citations and penalties issued by the Director of the Department of Labor and Industries. Instead of immediately certifying contested cases to the Board of Industrial Insurance Appeals, the proposed legislation, section 14(3), provides for the Director to reassume jurisdiction over all or part of the contested matter. During the period when the jurisdiction has been reassumed, the Director could, without notice, issue corrective notices of citations, periods of abatement, and assessment of penalties. No provision was made for participation by employers or employees in the review procedure in accordance with § 1902.4(c)(2)(xii). Washington has agreed to add to its proposed legislation a provision authorizing the Director to adopt rules of procedure for the reassumption of jurisdiction which would afford employers, employees, and employee representatives notice of the proposed reassumption of jurisdiction and an opportunity to object or support the reassumption of jurisdiction, either in writing or orally at an informal conference. Such procedures would meet the requirements of § 1902.4(c)(2)(xii).

Third, Washington plans to provide "on-site" consultation to employers under the following conditions: consultative visits will only be made in response to specific requests by employers; there will be separate staffs for consultation and enforcement purposes and enforcement staff will not be diverted to service a backlog of consultation requests; consultation personnel will have the authority to obtain abatement of situations involving imminent danger and serious violations; a consultation visit will provide no immunity from a future regularly scheduled inspection or an inspection in response to a complaint; and any advice or opinion offered by a consultant will not be binding on a compliance officer and will not preclude the finding of alleged violations nor the proposing of penalties.

Under section 18 of the Act and § 1902.4(c)(2)(xiii) a State is not required to develop an "on-site" consultation program as part of its voluntary compliance effort. If a State chooses to develop such a program it must provide assurances, as Washington has done, that the consultation program is completely over and above the enforcement program and will not impair or detract from that enforcement effort. We conclude that the on-site consultation program submitted by Washington will not impair or detract from the State's enforcement program.

Finally, serious questions were raised as to the effectiveness of Washington's enforcement procedures. In the proposed legislation the State provided for a maximum civil penalty in the amount of $500 for nonserious violations in contrast to the Federal ceiling of $1,000. However, a letter to the Assistant Secretary, January 5, 1973, the State agreed to raise its penalty level to $1,000.

A second element of Washington's enforcement program was a provision for discretionary as opposed to mandatory "first instance" civil penalties for serious violations. Washington maintained that this procedure was at least as effective as the Federal system because the State provided for a statutory mandatory civil penalty for any failure to abate a violation and a discretionary "red-tag" provision that, if used, would constitute a "first instance" penalty at least as effective as a monetary civil penalty even though its use was not mandatory. The State's proposed civil penalty system was geared to obtaining abatement of violations once an inspection was made rather than to providing employers with the incentive to correct violations before an inspection by means of an across-the-board mandatory civil penalty for all serious violations found during an initial inspection.

The presence of a mandatory "first instance" penalty is considered an essential element in the effectiveness of the Federal program. Washington agreed to amend its legislation to provide a mandatory "first instance" civil penalty for all serious violations, in addition to the discretionary "red-tag" provision. The State has also decided to provide for a discretionary civil penalty for failure to abate a violation, identical with the provisions in the Federal Act.

3. *Decision.* After careful consideration of the Washington plan and comments submitted regarding the plan, the plan is hereby approved under section 18 of the Act and 29 CFR Part 1902.

This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates our intentions as to continued Federal enforcement of Federal standards in areas covered by the plan, and the State's developmental schedule as set out below.

Pursuant to § 1902.20(b)(iii) the present level of Federal enforcement in Washington will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f) of the Act, continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

Within 6 months following this approval, an evaluation of the State plan as implemented will be made to assess the appropriate level of Federal enforcement activity. Federal enforcement activity will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of Washington.

The Washington plan is developmental. The following is the schedule of developmental steps provided by the plan:

(a) Introduction of the legislation in the 1973 Legislative session;

(b) Public hearings and promulgation of occupational safety and health standards within 1 year after the proposed standards are found to be at least as effective by the Secretary of Labor;

(c) Promulgation and adoption of rules and regulations concerning procedures for assuming all obligations and functions arising from the legislation within 1 year of its effective date;

(d) Development and implementation of a data processing system (M.I.S.) 6 months after approval of the plan;

(e) Achievement of training objectives by December 31, 1973;

(f) Upgrading of the Division of Safety personnel following legislative action on recommendations submitted to the 1973 Legislature.

Pursuant to section 18 of the Occupational Safety and Health Act (29 U.S.C. 667), Part 1952 is hereby amended by adding thereto a new Subpart F as follows:

Subpart F—Washington

Sec.
1952.120 Description of the plan.
1952.121 Where the plan may be inspected.
1952.122 Level of Federal enforcement.
1952.123 Developmental schedule.

AUTHORITY: Sec. 18, Public Law 91-596, 84 Stat. 1608 (29 U.S.C. 667).

§ 1952.120 Description of the plan.

(a)(1) The plan identifies the Department of Labor and Industries as the State agency designated to administer the plan throughout the State. It adopts the definition of occupational safety and health issues expressed in § 1902.2(c)(1) of this chapter. The plan contains a standards comparison of existing and proposed State standards with Federal standards. All standards, except those found in 29 CFR Parts 1915, 1916, 1917, and 1918 (ship repairing, shipbuilding, shipbreaking and longshoring) will be adopted and enforced after public hearings within 1 year after the standards are found to be at least as effective by the Secretary of Labor.

(2) The plan provides a description of personnel employed under a merit system; the coverage of employees of political subdivisions, procedures for the development and promulgation of standards, including standards for protection of employees against new and unforeseen hazards; and procedures for prompt restraint or elimination of imminent danger situations.

(b)(1) The plan includes proposed draft legislation to be considered by the Washington Legislature during its 1973 legislative session creating a new chapter in Title 49, Revised Code of Washington and repealing existing provisions, to bring it into conformity with the requirements of Part 1902. Under the proposed legislation the Department of Labor and Industries will have full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State. The legislation further proposes to bring the State into conformity in areas such as variances and protection of employees from hazards.

(2) The legislation is also intended to insure inspections in response to complaints; give employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representatives when no compliance action is taken as a result of alleged violations, including informal review; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets; provision for prompt notice to employers and employees of alleged violations of standards and abatement requirements; effective sanctions against employers for violations of standards and orders; employer right of review to the Board of Industrial Insurance Appeals and then to the courts, and employee participation in review proceedings. The plan also proposes to develop a program to encourage voluntary compliance by employers and employees, including provision for on-site consultations.

(c) The plan includes a statement of the Governor's support for the legislation and a legal opinion from the State attorney general that the legislation will meet the requirements of the Occupational Safety and Health Act of 1970 and is consistent with the Constitution and laws of Washington. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 upon enactment of the proposed legislation.

(d) The Washington plan includes the following documents as of the date of approval:

(1) The plan description documents including draft legislation and appendices in two volumes;

(2) Appendix 18, Standards Comparison;

(3) Letter from William C. Jacobs, Director, Department of Labor and Industries to James W. Lake, Regional Administrator, OSHA, August 11, 1972, submitting justifications for discretionary sanctions for serious violations and changing section 18(5) of WISHA to conform to the mandatory civil penalty for posting violations under OSHA;

(4) Letter from John E. Hillier, Supervisor of Safety, Department of Labor and Industries to Thomas C. Brown, Director, Office of Federal and State Operations, August 19, 1972, submitting justifications on the sanction system and the review procedure in the Washington plan;

(5) Letter from William C. Jacobs to Thomas C. Brown, September 19, 1972, justifying the sanction system as proposed by Washington;

(6) Letter from John E. Hillier to Thomas C. Brown, October 2, 1972, providing a detailed explanation of the procedure for review of citations proposed by Washington;

(7) Letter from Stephen C. Way, Assistant Attorney General to Thomas C. Brown, October 19, 1972, clarifying several issues raised during the review process including revision in the draft legislation;

(8) Letter from Stephen C. Way to the Assistant Secretary, January 5, 1973, clarifying most of the remaining issues raised during the review process;

(9) Letter from William C. Jacobs to the Assistant Secretary, January 12, 1973, revising the penalty structure in the draft legislation.

(e) The public comments will also be available for inspection and copying with the plan documents.

§ 1952.121 Where the plan may be inspected.

A copy of the complete plan may be inspected and copied during normal business hours at the following locations:

Supervisor, Division of Safety, Department of Labor and Industries, 308 East Fourth Avenue, Post Office Box 207, Olympia, WA 98504; Regional Administrator, Occupational Safety and Health Administration, Room 1813, Smith Tower Building, 506 Second Avenue, Seattle, WA 98104; Office of Federal and State operations Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210.

§ 1952.122 Level of Federal enforcement.

Pursuant to § 1902.20(b)(iii) of this chapter, the present level of Federal enforcement in Washington will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities; investigate valid complaints under section 8(f) of the Act, continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

§ 1952.123 Developmental schedule.

The Washington State plan is developmental. The following is the developmental schedule as provided by the plan:

(a) Introduction of the legislation in the 1973 Legislative Session;

(b) Public hearings and promulgation of occupational safety and health standards within 1 year after the proposed standards are found to be at least as effective by the Secretary of Labor;

(c) Promulgation and adoption of rules and regulations concerning procedures for assuming all obligations and functions arising from the legislation within 1 year of its effective date;

(d) Development and implementation of a data processing system (M.I.S.) 6 months after approval of the plan;

(e) Achievement of training objectives by December 31, 1973;

(f) Upgrading of the Division of Safety personnel following legislative action on recommendations submitted to the 1973 Legislature.

Signed at Washington, D.C., this 19th day of January 1973.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.73-1574 Filed 1-24-73;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

North Dakota Developmental Plan

1. *Background.* The State of North Dakota submitted September 22, 1972, a plan pursuant to Part 1902 requesting approval by the Assistant Secretary of Labor for Occupational Safety and Health. Approval would permit the State to apply its State laws and regulations, including job safety and health standards, relating to occupational safety and health under its plan. October 21, 1972, a notice was published in the FEDERAL REGISTER (37 FR 22781) concerning the submission of the plan, the fact that the question of approval was in issue before the Assistant Secretary, and an invitation for public comments. Written comments concerning the plan were submitted by the American Federation of Labor–Congress of Industrial Organizations (AFL–CIO). No other written comments were received and there were no requests for an informal hearing.

The plan identifies the North Dakota Workmen's Compensation Bureau as the State agency designated to administer the plan throughout the State. It defines the covered occupational safety and health issues as defined by the Secretary of Labor in § 1902.2(c)(1). The plan states that the North Dakota Workmen's Compensation Bureau is currently exercising inspection authority to enforce State standards in places of employment in the State covered by workmen's compensation insurance.

The plan contains proposed draft legislation to be considered by the North Dakota Legislature during its 1973 session amending Title 65, Chapter 65-01 of the North Dakota State Code and related provisions to bring them into conformity with the requirements of Part 1902. Included in the plan is a statement of the Governor's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the Constitution and laws of North Dakota. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902.

2. *Issues.* The public comments and our review of the plan raise several significant issues which are addressed by North Dakota in supplementary letters of clarification submitted to the Assistant Secretary dated November 21, 1972, and December 19, 1972, and incorporated as part of the plan.

The first issue is coverage under the North Dakota plan. Agriculture is included as an issue under the proposed

V 38 - 17 JAN 26 73 XUM

legislation. However, the scope of the legislation is related to coverage under the workmen's compensation law in North Dakota. Therefore, in order to cover agriculture, the State is proposing an amendment to include agriculture under workmen's compensation insurance legislation and thus under NDOSHA. If the amendment fails to pass the legislature, North Dakota will not cover agriculture as an issue and it will be subject to Federal jurisdiction in accordance with § 1902.2(c)(2).

There are several other types of employment which are also not covered under State workmen's compensation insurance legislation and which will not be covered under the proposed legislation. In two cases, domestic services and employees engaged in the maintenance, operation, and conduct of a place of worship, the State exemption is consistent with the Federal policy position in 29 CFR Part 1975. The remaining three areas are well-defined occupational groups that make continued coverage by OSHA administratively practicable in accordance with § 1902(2)(c)(1). These groups include railroad employment by a common carrier, flying employees, i.e., pilots and crew, of airlines not based in North Dakota, and employees engaged in interstate trucking of persons and property by nonresidents. The latter grouping does not include migratory labor.

A second issue involves the procedure for review of citations and penalties by the Safety Review Board. This provision, section 17, allows the Workmens' Compensation Bureau to prevent a hearing on a citation by failing to certify it to the Board upon receipt of a notice of contest. Failure to certify would operate to amend the citation in accordance with the notice of contest without providing a hearing for affected parties. North Dakota has agreed in a letter dated November 21, 1972, to revise this procedure to require notice to employers and employees of failure to certify and an opportunity for a hearing by the Bureau as required by § 1902.4(c)(2)(xii).

Both the public comments and our review raised questions regarding the effectiveness of the North Dakota procedures for meeting the following indices of effectiveness: § 1902.4(b)(2)(iii) *Standards;* § 1902.4(c)(2)(ii) *Inspection procedure;* § 1902.4(c)(2)(v) *Protection against discrimination;* § 1902.4((c)(2)(vi) *Access to information on hazards;* and § 1902.4(c)(2)(xi) *Sanctions.*

While North Dakota plans to adopt present Federal standards the State will also promulgate rules of procedure for public participation in future standard setting. According to the letter of November 21, 1972, these procedures will equal or exceed the Federal procedures for public participation. As a minimum, the regulations will provide for publication of notice of rulemaking proceedings and participation by interested persons in accordance with the § 1902.4(b)(2)(iii).

Some comment concerned the procedure for emergency temporary standards in North Dakota. In accordance with the State Administrative Procedure Act, all rules and regulations, including emergency temporary standards must be submitted to the Attorney General's office for an opinion as to their legality before they can become effective. Since emergency standards will be published and become effective within 30 days and prior to public notice and public participation, the delay caused by submission to the Attorney General would not make the North Dakota procedure any less effective than the Federal procedure. The lack of a fixed maximum time period of effectiveness for emergency temporary standards before promulgation of a permanent standard does not diminish the effectiveness of North Dakota's procedure but merely provides greater flexibility in the application of the temporary rule.

The promulgation and operation of North Dakota's procedural rules for standard setting will be subject to review during the continuing evaluation of the North Dakota plan contemplated by section 18(e) of the act. In particular, attention will be directed to the amount of public participation permitted and the effect of the emergency temporary standard procedures.

North Dakota plans to adopt Part 1903 of Title 29 Code of Federal Regulations governing inspection procedures. These rules provide for employees to notify compliance officers of violations before, during, and after an inspection. They also provide for informal review of failure to issue citations. In adopting these regulations, North Dakota's inspection procedure will be at least as effective in accordance with § 1902.4(c)(2)(ii).

In a letter of clarification submitted December 19, 1972, North Dakota will revise its discrimination section to authorize the Commissioner of Labor, a separate agency from the Workmen's Compensation Bureau, to issue cease-and-desist orders and to order reinstatement, and backpay to employees. This will provide appropriate relief for employees consistent with § 1902.4(c)(2)(v).

Revisions in the proposed legislation will also be made to provide an employee with the right to have his medical examinations released to his own physician as stated in a letter of clarification, November 21, 1972. In addition, the State will promulgate regulations consistent with section 8(c)(3) of the act and § 1902.4(c)(2)(vi) providing for employees to observe monitoring and have access to the records when required by applicable standards.

The sanction system proposed by North Dakota has been modified in a series of clarifications in order to meet the requirements of § 1902.4(c)(2)(xi). North Dakota's draft legislation does not contain any distinction between serious and nonserious violations, nor is there any mandatory civil penalty for violations of a serious nature. North Dakota has chosen to meet the requirements of this index by regulations and by definitions in the State Compliance Manual. The State Compliance Manual contains a definition of "serious physical harm." In addition, the definition of "serious" violation in the Federal statute will be included in the State Compliance Manual as stated in the letter of clarification November 21, 1972. Therefore, the State program will differentiate between serious and nonserious violations.

On the issue of a mandatory first-instance sanctions for serious violations, North Dakota's legislation provides for discretionary first-instance civil penalties for all violations. However, the State plans to make the mandatory nature of civil penalties for serious violations clear in regulations issued after passage of the legislation as noted in the letter of November 21, 1972. Consequently, North Dakota will have a first-instance mandatory penalty for serious violations of up to $1,000 and discretionary sanctions for nonserious violations also up to $1,000. These steps by the State are sufficient to meet the requirements for approval under part 1902. However, it's recommended but not required that the State meet these requirements by legislation rather than by regulations or by an administrative manual. In accordance with the State Compliance Manual, a mandatory civil penalty will be assessed for failure to post information required by the act.

North Dakota's method of penalizing violations for failure to abate differs from the Federal in that these violations are included in the definition of willful. There is no separate category similar to section 17(d) of OSHA for civil penalties of up to $1,000 a day. The method for assessing a penalty for a willful violation that involves a failure to abate consists of a mandatory assessment of five times the original unadjusted penalty of up to $10,000. The unadjusted penalty is based solely on the gravity of the violation and is proposed to be generally up to $500. Each succeeding violation for failure to abate will also be treated as willful and be subject to a civil penalty of up to $10,000 each time the abatement date is not met. There is also a provision in the legislation for a criminal willful penalty of up to $10,000 and/or 5 years imprisonment. This penalty is not limited to situations where the violation causes death as is the Federal act and it may also be used in addition to civil penalties for failure to abate violations.

There will be no sanctions against employees for violations in the North Dakota legislation for the State has withdrawn section 65-07-02 of its draft legislation which provided for such a sanction. In addition, North Dakota will repeal section 65-03-01 of its workmen's compensation law providing for a penalty of $25 to $100 for violations of a safety rule since it duplicates and is less in amount than the sanction in the proposed legislation.

In several other areas, the North Dakota enforcement program presents alternatives to the Federal scheme. Similar State procedures have been considered to be at least as effective in the South Carolina decision (37 FR 25932), December 6, 1972. First, in conjunction with a prohibition against advance

notice, which is applicable to the Commissioner, Bureau employees and agents, North Dakota provides that whoever gives advance notice shall be guilty of a misdemeanor. Under North Dakota law, 12-06-14, a misdemeanor results in not more than 1 year imprisonment and/or fine of up to $500. The person who gives advance notice is also subject to discharge. The North Dakota prohibition against advance notice is backed up by a reasonable sanction applicable to the classes of persons who would most likely be in a position to give unauthorized notice, State employers and employees. Hence, the plan meets the requirement of §§ 1902.3(f) and 1902.4(c)(2)(xi).

It is pointed out that under § 1902.3(f) the exceptions to the prohibition, administratively granted, can be no broader than those authorized under the Federal program.

The public comments also raise the question of whether North Dakota has an adequate sanction against persons who knowingly make false statements. Section 17(g) of OSHA authorizes a criminal penalty of $10,000 or 6 months imprisonment or both to be assessed against any person who knowingly makes a false statement, representation, or certification. The North Dakota draft legislation states that any person who in any affidavit, testimony or report required by the Bureau, safety review board, Labor Commissioner or the district court in the performance of duties under this chapter knowingly makes any false statement, shall upon conviction be punished by a fine not exceeding $10,000 or by imprisonment not exceeding 3 years or both. The lack of the words "representation and certification" in the North Dakota legislation does not make its overall enforcement procedure less effective than the Federal system.

The operation of the North Dakota penalty system will be subject to review during continuing evaluation of the North Dakota plan under section 18(e) of the Act. In particular, attention will be directed to implementation of the regulations establishing mandatory "first-instance" civil penalties as they affect the authority of the Workmen's Compensation Bureau to develop an "at least as effective" enforcement program.

3. *Decision.* After careful consideration of the North Dakota plan and comments submitted regarding the plan, the plan is hereby approved under section 18 of the Act and 29 CFR Part 1902.

This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates our intentions as to continued Federal enforcement of Federal standards in areas covered by the plan, and the State's Developmental Schedule as set out below.

Pursuant to § 1902.20(b)(iii), the present level of Federal enforcement in North Dakota will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f) of the Act, continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

Within 6 months following this approval, an evaluation of the State plan, as implemented, will be made to assess the appropriate level of Federal enforcement activity. Federal enforcement authority will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of North Dakota.

The North Dakota plan is developmental. The following is the schedule of developmental steps provided by the plan:

(a) Introduction of enabling legislation in the Legislative Assembly January 1973;

(b) Public hearings on the adoption of Federal standards to be commenced by April–May 1973;

(c) Hiring and training of additional compliance officers, July 1973;

(d) Formation of the Safety Review Board, July 1973;

(e) Adoption of Federal standards and revocation of existing State standards, July 1, 1973;

(f) Adoption of 29 CFR Parts 1903, 1904, and 1905 as rules and regulations of North Dakota, July 1973;

(g) Implementation of Management Information System, July 1973;

(h) Hiring of additional compliance officers, July 1974.

Pursuant to section 18 of the Occupational Safety and Health Act (29 U.S.C. 667) Part 1952 is hereby amended by adding thereto a new Subpart G as follows:

Subpart G—North Dakota

Sec.
1952.130 Description of the plan.
1952.131 Where the plan may be inspected.
1952.132 Level of Federal enforcement.
1952.133 Developmental schedule.

AUTHORITY: Sec. 18, Public Law 91-596, 84 Stat. 1608 (29 U.S.C. 667).

Subpart G—North Dakota

§ 1952.130 Description of plan.

(a) The plan identifies the North Dakota Workmen's Compensation Bureau as the State agency designated to administer the plan. It adopts the definition of occupational safety and health issues expressed in § 1902.2(c)(1) of this chapter. The plan states that the Workmen's Compensation Bureau is currently exercising inspection authority to enforce State standards in places of employment in the State covered by workmen's compensation insurance.

(b) (1) The plan includes proposed draft legislation to be considered by the North Dakota Legislature during its 1973 session, amending Title 65, Chapter 65-01 of the North Dakota State Code and related provisions, to bring them into conformity with the requirements of Part 1902 of this chapter. Under the legislation the Workmen's Compensation Bureau will have full authority to enforce and administer laws respecting safety and health in all workplaces of the State, with the exception of Parts 1915, 1916, 1917, and 1918 of this chapter (ship repairing, shipbuilding, shipbreaking, and longshoring).

(2) The legislation further proposes to bring the plan into conformity with the requirements of Part 1902 of this chapter in areas such as procedures for variances and the protection of employees from hazards; procedures for the development and promulgation of standards, including standards for protection of employees against new and unforeseen hazards; and procedures for prompt restraint of imminent danger situations.

(3) The legislation is also intended to insure inspections in response to complaints; give employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representatives when no compliance action is taken as a result of alleged violations, including informal review; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets; provisions for prompt notice to employers and employees of alleged violations of standards and abatement requirements; a system of sanctions against employers for violations of standards; employer right of review and employee participation in review proceedings; and coverage of employees of political subdivisions.

(c) The plan includes a statement of the Governor's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the Constitution and laws of North Dakota. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 including provision for a merit system for personnel, upon enactment of the proposed legislation by the State Legislature.

(d) The North Dakota plan includes the following documents as of the date of approval:

(1) The Plan description document with proposed legislation and compliance manual;

(2) Letter from Daniel L. Evans, Counsel, Workmen's Compensation Bureau to Charles Boyd, Office of Federal and State Operations, November 6, 1972, with the proposed amendment to include agriculture under workmen's compensation insurance;

(3) Letter from Daniel L. Evans to Thomas C. Brown, Director, Office of Federal and State Operations, November 21, 1972, clarifying issues raised during the review process;

(4) Letter from Bronald Thompson, Chairman, Workmen's Compensation Bureau to Thomas C. Brown, December 19, 1972, clarifying the remaining issues raised during the review process.

(5) Letter from Bronald Thompson, to Thomas C. Brown, January 16, 1973, clarifying coverage under the State plan.

V 38 - 17 JAN 26 73 XUM

(e) The public comments will also be available for inspection and copying with the Plan documents.

§ 1952.131 Where the Plan may be inspected.

A copy of the complete Plan may be inspected and copied during normal business hours at the following locations: Workmen's Compensation Bureau, State Capitol, Room 10, Ninth Floor, Bismarck, ND 58501; Office of the Regional Administrator, Occupational Safety and Health Administration, U.S. Department of Labor, Federal Building, Room 15010, Post Office Box 3588, 1961 Stout Street, Denver, CO 80202; and Office of Federal and State Operations, Occupational Safety and Health Administration, U.S. Department of Labor, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210.

§ 1952.132 Level of Federal enforcement.

Pursuant to § 1902.20(b)(iii) of this chapter, the present level of Federal enforcement in North Dakota will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f) of the Act, continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis.

§ 1952.133 Developmental schedule.

The North Dakota plan is developmental. The following is the schedule of developmental steps provided by the Plan:

(a) Introduction of enabling legislation in the Legislative Assembly January 1973;

(b) Public hearings on the adoption of Federal standards to be commenced by April–May 1973;

(c) Hiring and training of additional compliance officers, July 1973;

(d) Formation of the Safety Review Board, July 1973;

(e) Adoption of Federal standards and revocation of existing State standards, July 1, 1973;

(f) Adoption of Parts 1903, 1904 and 1905 of this chapter; as rules and regulations of North Dakota, July 1973;

(g) Implementation of Management Information System; July 1973;

(h) Hiring of additional compliance officers, July 1974.

Signed at Washington, D.C., this 19th day of January 1973.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.73-1573 Filed 1-24-73;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of New Jersey Plan

1. *Background.* Part 1902 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) whereby the several States may submit for approval, under the requirements of that section, plans to assume responsibilities for the development and enforcement of State occupational safety and health standards.

On July 3, 1972, the State of New Jersey submitted a comprehensive developmental Occupational Safety and Health plan in accordance with these procedures and on August 26, 1972, a notice was published in the FEDERAL REGISTER (37 FR 17447) concerning the submission of the plan and the fact that the question of approval was in issue before the Assistant Secretary.

The plan provides for the enactment and implementation of legislation which will establish a comprehensive occupational safety and health program in New Jersey that will apply to all industries in the State except establishments engaged in freight and passenger transportation on the open seas or inland waters or establishments furnishing such incidental services as lighterage, towing, and canal operation. The major provisions of the plan and the proposed schedule for its development are summarized in the new Subpart H of 29 CFR Part 1952 set forth below.

Interested persons were afforded 30 days from the date of publication to submit written comments concerning the plan. Further, interested persons were afforded an opportunity to request an informal hearing with respect to the plan or any part thereof, upon the basis of substantial objections to the contents of the plan.

2. *Issues.* Pursuant to this notice several comments and requests to be heard orally were received from interested persons and organizations including the Woodbridge Area Chamber of Commerce, the New Jersey Chamber of Commerce, Suburban Propane, the New Jersey Chapter, American Society of Safety Engineers, the Oil, Chemical and Atomic Workers, International Union, Merck & Co. Inc., the AFL–CIO Standing Committee on Safety and Occupational Health, the Shell Oil Co., the New Jersey Manufacturers Association and the U.S. Steel Corp. Although these comments demonstrate strong preferences for widely differing methods of administration from those that have been proposed, they did not indicate that the plan failed in any material way to meet the criteria for acceptability as set forth in section 18(c) of the Federal act or 29 CFR Part 1902. For these reasons requests for an informal hearing are denied as not being sufficiently substantial. On the basis of an analysis of the material received and in light of the differences between the New Jersey proposed program and the Federal safety and health program, a discussion of the following major issues however, is appropriate.

Under the Federal program only employers and employees have responsibilities for providing safe and healthy places of employment. The New Jersey program, however, also directs such responsibility to "owners" of establishments used as places of employment with respect to such matters as their structural adequacy, protection against the origin and spread of fire and for the provision of adequate general ventilation and lighting, emergency egress, fire warning systems and safe elevator systems. Appropriate assurance is provided to the effect that this will not relieve any employers as distinguished from owners from their responsibilities. With regard to these matters the New Jersey plan would (f) make "owners" subject to the penalties and enforcement procedures to which employers are subject, (2) require "owners" of structures to be erected and used as places of employment to submit plans for approval and (3) provide for the enforcement of provisions of the State building code with respect to such structures. Although these factors do not appear to detract in any way from the acceptability of the plan, some of the activities involved in (2) and (3) above may in many respects concern matters that only indirectly and perhaps remotely affect occupational safety and health. Therefore, it will be necessary to determine in considering any grant application under section 23(g) of the Federal Act what portion of these program components substantially relate to employees and their places of employment in issues covered by the Federal standards[1] because the Federal share of the funding of the State program will have to be based on an amount not exceeding the cost of this base. In addition, other sources of financing would operate to reduce the Federal share.[2]

Unlike the Federal program, the New Jersey proposed law does not provide for adjudication of contested citations by an independent quasi-judicial agency. Instead, hearing examiners are appointed by the enforcing agency and their decisions are subject to review by its director. This results in the final judge in administrative adjudications of contested citatons being the same person who directs the enforcement operations. His decisions are subject to judicial review by the New Jersey Superior Court. Accordingly, for such review procedure to provide an adequate level of procedural fairness, it would appear necessary that it incorporate assurance that no employee engaged in the investigative or prosecuting functions of a case shall participate in the agency review of it (cf. 5 U.S.C. 554). In evaluating the implementation of the New Jersey program, compliance with this procedural safeguard will be expected.

The New Jersey proposed law provides what is commonly known as the "red-tag" method of coping with "imminent dangers." Instead of the court injunction available under the Federal program, the State administrative agency can issue an order to an employer to take corrective action or to cease specific operations until a hazard is removed. To help assure compliance (1) the State agency is empowered to seek injunctions enforcing such orders, (2) failure to comply with such orders will establish a prima facie case of willfulness, and (3) aggrieved persons may seek a writ requiring action where the agency has arbitrarily or capriciously failed to act. To protect the procedural rights of employers, the law requires (1) the provision of a hearing and decision within 48 hours of a request, and (2) that reinspection be made within 1 working day of receipt of notice from the employer that the hazard has been eliminated. If the agency fails to so inspect, the order expires. Although this 1-day period gives the agency little time to act, it must be viewed in light of the fact that it does not run until after the employer has served upon the agency his statement that he has taken appropriate action, thus subjecting himself to possible criminal sanctions under the proposed act if such statement is false. These methods proposed by the State to enforce its orders to cope with imminent dangers appear reasonably calculated both to ensure compliance and to protect employers against abuse of agency power.

The State's proposed law respecting maximum civil penalties is no different from those established under the Federal act. However, the State has proposed a different formula for determining whether the maximum or some lesser amount should be assessed with respect to particular violations. Instead of starting at a fixed amount and reducing it for size, gravity, good faith, and history, the State proposes to assign a given weight to each of these factors and multiply them together to determine the amount of the penalty.

As examination of the contemplated application of the State formula reveals that it may result in the assessment of greater penalties than the current Federal formula used by the Secretary of Labor (See Compliance Operations Manual—January 1972 (OSHA 2006) Chapter XI), it appears that it will be at least as effective as the Federal method in encouraging safe practices. Nevertheless, a carcful study of the formula's application in actual operation will be made in future evaluation of the Plan under section 18(e) of the Act.

3. *Decision.* After carcful consideration of the New Jersey plan and comments submitted regarding the Plan, the Plan is hereby approved under section 18 of the Act and Part 1902.

This decision incorporates requirements of the Act and implementing regulations applicable to State plans generally. It also incorporates intentions as to continued Federal enforcement of Federal standards in areas covered by the Plan and the State's Developmental Schedule as set out in § 1952.143 below.

Pursuant to § 1902.20(b)(iii) of Title 29, Code of Federal Regulations, the present level of Federal enforcement in New Jersey will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f); continue its Target Safety and Target Health programs, and inspect a cross-section of all industries on a random basis. About 6 months following this approval, an evaluation of the State plan, as implemented, will be made to assess the appropriate level of Federal enforcement activity. Federal enforcement authority will continue to be exercised to the degree necessary to assure occupational safety and health protection to employees in the State of New Jersey.

Part 1952 is hereby amended by adding thereto a new Subpart H reading as follows:

Subpart H—New Jersey

Sec.
1952.140 Description of the Plan.
1952.141 Where the Plan may be inspected.
1952.142 Level of Federal enforcement.
1952.143 Developmental schedule.

AUTHORITY: Sec. 18, Public Law 91-596, 84 Stat. 1608 (29 U.S.C. 667).

Subpart H—New Jersey

§ 1952.140 Description of the Plan.

(a) The Plan identifies the Department of Labor and Industry of the State of New Jersey (hereafter called the State agency) as the agency designated by the Governor of the State to administer the Plan. It will cover all places of private and public employment except those whose major activities are within water transportation industries as described in Major Group 44 of the 1972 edition of the Standard Industrial Classification (SIC) Manual of the Office of Management and Budget of the Executive Office of the President.

(b)(1) The Plan requires employers of one or more employees to furnish them employment and a place of employment which are free from recognized hazards that are causing or are likely to cause death or serious physical harm, and to comply with all occupational rules and orders promulgated or issued by the State agency. The Plan also directs employees to comply with all occupational safety and health rules and orders that are applicable to their own actions and conduct.

(2) The Plan also requires each owner of any premises used in whole or in part as a place of employment to be responsible for its structural adequacy, protection against the origin and spread of fire and for the provision of adequate general ventilation and lighting, emergency egresses, fire warning systems and safe elevator systems.

(c) The Plan provides for the adoption of standards published in this Chapter XVII of Title 29 of the Code of Federal Regulations (see 37 FR 22102, 22458, and 27503) without public proceedings as well as procedure for the adoption of differing and additional more effective standards on the basis of procedures providing for public participation therein. There is also provision for maintaining existing safety and health standards until superseded for a maximum of 5 years.

(d) The plan provides that the State agency is to have full authority to administer and enforce all laws, rules, and orders protecting employee safety and health in all places of employment in the State. It also proposes procedures for providing prompt and effective standards for the protection of employees against new and unforeseen hazards and for furnishing information to employees on hazards, precautions, symptoms, and emergency treatment; and procedures for variances and the protection of employees from hazards. The plan provides employer and employee representatives an opportunity to accompany inspectors and call attention to possible violations before, during, and after inspections, protection of employees against discharge or discrimination in terms and conditions of employment, notice to employees or their representatives when no compliance action is taken upon complaints, including informal review, notice to employees of their protections and obligations, adequate safeguards to protect trade secrets, prompt notice to employers and employees of alleged violations of standards and abatement requirements, effective remedies against employers and owners, and the right to review alleged violations, abatement periods, and proposed penalties with opportunity for employee participation in the review proceedings; procedures for prompt restraint or elimination of imminent danger conditions, and procedures for inspection in response to complaints.

(e) The Plan includes a statement of the Governor's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the constitution and laws of New Jersey. The Plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902 upon enactment of the proposed legislation by the State legislature. A merit system of personnel administration will be used. In addition, efforts to achieve voluntary compliance will include both on and off site consultations with employers. (cf. the approval of the Washington State plan in Subpart F of this part.)

§ 1952.141 Where the Plan may be inspected.

A copy of the complete Plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Room 3445, 1515 Broadway, New York, NY; and the Office of the Assistant Commissioner of Labor Relations and Work Place Standards of the Department of Labor and Industry of New Jersey, Room 1301, John Fitch Plaza, Trenton, N.J.

[1] Such standards when applicable to a class of persons larger than employees are themselves limited in application to employees and their places of employment. See 29 CFR 1910.5(d).

[2] See 29 CFR Part 1951, in particular Sec. 1951.22; also Sec. 104(a) Revenue Sharing Act of 1972 (Public Law 92-512).

V 38 - 17 J
JAN 26 73
XUM

§ 1952.142 Level of Federal enforcement.

Pursuant to § 1902.20(b)(iii) of this chapter, the present level of Federal enforcement in New Jersey will not be diminished. Among other things, the U.S. Department of Labor will continue to inspect catastrophes and fatalities, investigate valid complaints under section 8(f), continue its target safety and target health programs, and inspect a cross-section of all industries on a random basis.

§ 1952.143 Developmental schedule.

The New Jersey plan is developmental. The following is the schedule of the major developmental steps provided by the Plan:

(a) Introduction of enabling legislation, January 1973.
(b) Integrate Migrant Labor Inspection Activities Into the State Plan, June 1973.
(c) Passage of enabling legislation, June 1973.
(d) Complete Phase I of Standards Revision and Promulgation as described in detail in the Plan, September 1973.
(e) Adopt Part 1904 of this chapter, Regulations for Employer Reporting, September 1973.
(f) Adopt Federal Standards on Employee Access to Information Regarding Exposure to Toxic Materials or Harmful Physical Agents, October 1973.
(g) Promulgate Rules on Noncompliance, Employee Discrimination, Imminent Danger, October 1973.
(h) Promulgate Rules on Trade Secrets, Ocotber 1973.
(i) Complete Phase II of Standards Revision and Promulgation as described in detail in the Plan, January 1974.
(j) Complete Phase III of Standards Revision and Promulgation as described in detail in the Plan, July 1974.
(k) Complete Phase IV of Standards Revision and Promulgation as described in detail in the Plan, January 1975.
(l) Implement Safety Program for Public Employees, March 1975.
(m) Complete Phase V of Standards Revision and Promulgation as described in detail in the Plan, May 1975.
(n) Complete State Plan Implementation, June 1975.

Signed at Washington, D.C., this 22d day of January 1973.

CHAIN ROBBINS,
Acting Assistant Secretary of Labor.

[FR Doc.73-1572 Filed 1-24-73;8:45 am]

Title 32—NATIONAL DEFENSE

Chapter XVI—Selective Service System

OFFICERS, CLASSIFICATION, AND EXAMINATION

Effective Date; Correction

In FR Docs. 73-16 and 15, which appear at pages 731 and 732, in the issue of Thursday, January 4, 1973, Parts 1604, 1622, 1623, 1625, 1628, 1630, 1631 and 1680 are amended by changing the effective date now reading December 31, 1972, to read January 6, 1973.

BYRON V. PEPITONE,
Acting Director.

JANUARY 19, 1973.

[FR Doc.73-1536 Filed 1-24-73;8:45 am]

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGD 71-102R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Hutchinson River, N.Y.

This amendment changes the regulations for the Hutchinson River Parkway drawbridge across the Hutchinson River, Bronx, N.Y., to require at least 6 hours notice at all times. This amendment was circulated as a public notice dated October 14, 1971 by the Commander, Third Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGFR 71-102) on October 14, 1971 (36 FR 19981). Six comments were received. Three were referred to the City of New York because they concerned safety of the public and were not related to navigation. One comment discussed vehicular traffic delays at the Hutchinson River Parkway bridge and other bridges in this area. It was suggested that in addition to the 6 hours notice proviso the draws of these bridges remain closed to navigation from 7-9 a.m. and 4:30-6:30 p.m., to expedite rush hour vehicular traffic. However, tidal conditions dictate when a vessel may transit this reach of water, in part, so this suggestion has not been adopted. Two objected to any change in the regulations because of tidal fluctuations and the depth restrictions in the channel which frequently require high water to enter or depart from various facilities on the waterway. However, it is felt by the Coast Guard that this change will not impose undue restrictions on navigation and this change is adopted. If additional data demonstrates the need for further amendments, such action will be taken at that time.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.155(b) to read as follows:

§ 117.155 Hutchinson River, N.Y.; bridges.

• • • • • •

(b) All bridges, except the Eastchester Creek Bridge (I-95) and the Hutchinson River Parkway Bridge, shall open promptly on signal. The Eastchester Creek (I-95) and Hutchinson River Parkway bridges shall open promptly on signal if at least 6 hours notice has been given.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective on February 26, 1973.

Dated: January 18, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-1557 Filed 1-24-73;8:45 am]

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2-(*p-tert*-Butylphenoxy)Cyclohexyl 2-Propynyl Sulfite

A petition (PP 3F1305) was filed by Uniroyal Chemical, Division of Uniroyal, Inc., Bethany, Conn. 06525, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing to increase the established 3 parts per million tolerance for residues of the insecticide 2-(*p-tert*-butylphenoxy)cyclohexyl 2-propynyl sulfite in or on the raw agricultural commodity plums (fresh prunes) to 7 parts per million.

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the increased tolerance is being established.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), § 180.259 is amended by revising the paragraph "7 parts per million • • •" and by deleting the words "plums (fresh prunes)" from the paragraph "3 parts per million • • •", as follows:

§ 180.259 2-(*p-tert*-Butylphenoxy)cyclohexyl 2-propynyl sulfite; tolerances for residues.

• • • • • •

7 parts per million in or on apricots, peaches, plums (fresh prunes), and strawberries.

• • • • • •

3 parts per million in or on apples and pears.

Any person who will be adversely affected by the foregoing order may at any time before February 26, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, Fourth & M Streets SW., Waterside Mall, Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 26, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: January 19, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5327]

[Idaho 2337]

IDAHO

Powersite Restoration No. 659; Partial Revocation of Powersite Reserve No. 193; Final Revocation of Powersite Reserves Nos. 386, 467 and 481

By virtue of the authority contained in section 24 of the Act of June 10, 1920, 41 Stat. 1075, as amended, 16 U.S.C. 818 (1970), and pursuant to a determination of the Federal Power Commission in DA-594-Idaho, it is ordered as follows:

1. The Executive orders of July 26, 1911, July 10, 1913, December 15, 1914, and February 23, 1915, creating Powersite Reserves Nos. 193, 386, 467, and 481, respectively, are hereby revoked so far as they affect the following described lands:

BOISE MERIDIAN

POWERSITE RESERVE NO. 193

T. 9 S., R. 41 E.,
Sec. 18, lot 4, NE¼NE¼, S½NE¼, SE¼, E½SW¼;
Sec. 19, lots 1 and 2, S½NE¼, N½SE¼;
Sec. 20, W½SW¼;
Sec. 30, NW¼NE¼, E½SE¼;
Sec. 31, NE¼NE¼, SW¼NE¼.

POWERSITE RESERVE NO. 386

T. 11 S., R. 44 E.,
Sec. 4, SE¼NE¼, NE¼SE¼.

POWERSITE RESERVE NO. 467

T. 9 S., R. 41 E.,
Sec. 18, NW¼NE¼.

POWERSITE RESERVE NO. 481

T. 12 S., R. 41 E.,
Sec. 28, N½N½.

The areas described aggregate 1194.42 acres in Caribou, Bear Lake, Franklin, and Bannock Counties.

2. All of the lands in paragraph 1, except those described as the E½SE¼, sec. 18, T. 9 S., R. 41 E., and the SE¼NE¼, NE¼SE¼, sec. 4, T. 11 S., R. 44 E., are either patented or withdrawn for other purposes. Some of the lands described in T. 9 S., R. 41 E., have previously been restored from the withdrawal made for powersite purposes in Powersite Reserve No. 193, subject to the provisions of section 24 of the Act of June 10, 1920, supra. The effect of this order is to relieve the restored lands of the limitation prescribed by said section 24.

3. At 10 a.m. on February 23, 1973, the unpatented, unreserved public lands described in paragraph 2 of this order, shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on February 23, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The public lands have been and will continue to be open to the filing of applications and offers under the mineral leasing laws and to location and entry under the United States mining laws.

Inquiries concerning the lands should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Boise, Idaho 83702.

HARRISON LOESCH,
Assistant Secretary of the Interior.

JANUARY 18, 1973.

WYOMING

Withdrawal for Reclamation Project

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. 416 (1970), it is ordered as follows:

Subject to valid existing rights, the following described public land, which is under the jurisdiction of the Secretary of the Interior, is hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, and reserved for the North Platte project:

SIXTH PRINCIPAL MERIDIAN

T. 26 N., R. 62 W.,
Sec. 20, SW¼SE¼;
Sec. 29, W½SE¼ N.
T. 26 N., R. 64 W.,
Sec. 29, SW¼SW¼;
Sec. 30, S½SE¼.

The areas described contain 240 acres in Goshen County.

HARRISON LOESCH,
Assistant Secretary of the Interior.

CALIFORNIA

Withdrawal for Public Recreation Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

V 38-17 JAN 26 73 XUM

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, and reserved for Forks of Butte Creek Recreation Area:

MOUNT DIABLO MERIDIAN

T. 23 N., R. 3 E.,
Sec. 3, lots 2, 3, 4, and portions of lots 37 and 42, W½ lot 5, S½NW¼, SW¼SW¼, N½SE¼SW¼, N½S½SE¼SW¼, W½NW¼SE¼, N½SW¼;
Sec. 4, lots 1 and 2, S½N½, SE¼;
Sec. 10, S½N½NE¼NW¼.
T. 24 N., R. 3 E.,
Sec. 22, E½E½NE¼, NW¼SE¼SW¼, S½SE¼SW¼, E½SE¼, S½SW¼SE¼;
Sec. 26, NW¼NE¼, N½NW¼, SW¼NW¼, N½NW¼SW¼;
Sec. 27, N½NW¼NE¼, SE¼NE¼, SW¼, NE¼SE¼, exclusive of MS 5799, NW¼SE¼, SW¼SE¼, exclusive of MS 5243 and MS 5799;
Sec. 34, lots 1, 2, lot 3 exclusive of MS 4480, lot 6 exclusive of MS 5243, lot 8 exclusive of MS 5243, portion of Mineral Lot 38 in SE¼NE¼, W½.

The areas described aggregate 1,986.89 acres in Butte County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

IDAHO

Withdrawal for Recreation Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, for a recreation site:

BOISE MERIDIAN

T. 29 N., R. 4 W.,
Sec. 11, Lot 3;
Sec. 14, Lot 2.

The area described contains 61.72 acres in Nez Perce County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. The withdrawal made by this order is subject to the withdrawal made by Powersite Reserves Nos. 8 and 77 of July 2, 1910, and to the provision that any definite plan of recreation development will be submitted to the Federal Power Commission before any structures or improvements are placed on the lands.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER K—REGULATIONS UNDER PUBLIC LAW 91-469

[General Order 109, Rev., Amdt. 5]

PART 390—CAPITAL CONSTRUCTION FUND

Deposits for Taxable Year 1972

The following regulations relate to the Merchant Marine Act, 1936 (46 U.S.C. 1177), as amended by section 21(a) of the Merchant Marine Act of 1970 (84 Stat. 1026) and to the requirements of the execution of agreements relating to capital construction funds and deposits therein for taxable years beginning after December 31, 1969, and before January 1, 1973. The regulations set forth herein are temporary and are designed to provide transitional rules with respect to the execution of agreements relating to capital construction funds and deposits therein for such years. The regulations are effective until the issuance of final regulations to be prescribed by the Commissioner of Internal Revenue and approved by the Secretary or his delegate and prescribed by the Secretary of Commerce or his delegate. These regulations have been issued jointly by the Secretary of the Treasury and the Secretary of Commerce and also appear under 26 CFR Part 3 (Treasury) and 50 CFR Part 259 (Fisheries).

In order to extend the provisions of the temporary regulations under section 21 (a) of the Merchant Marine Act of 1970 to taxable years beginning in 1972, § 390.1, Title 46, Chapter II, Code of Federal Regulations, is amended by revising so much of § 390.1 as precedes paragraph (a) of that section and by revising paragraph (d) of that section as follows:

§ 390.1 Capital construction fund.

In the case of a taxable year of a taxpayer beginning after December 31, 1969, and before January 1, 1973, the rules governing the execution of agreements and deposits under such agreements shall be as follows:

* * * * *

(d) Nothing in this section shall alter the rules and regulations governing the timing of deposits with respect to existing capital and special reserve funds or with respect to the treatment of deposits for any taxable year or years other than a taxable year or years beginning after December 31, 1969, and before January 1, 1973.

(Sec. 607, Merchant Marine Act, 1936, 46 U.S.C. 1177, as amended by section 21(a), Merchant Marine Act of 1970, 84 Stat. 1026)

Dated: January 19, 1973.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, JR.,
Secretary, Maritime Administration.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 18455; FCC 73-45]

PART 73—RADIO BROADCAST SERVICES

Remote Indicating Phase Monitors and Remotely Controlled Directional Stations

Report and order. In the matter of amendment of Part 73 of the Commission's rules and regulations with respect to use of remote indicating phase monitors and the inspection requirements for remotely controlled directional stations, Docket No. 18455, RM-1098.

1. In response to a petition filed by the National Association of Broadcasters (NAB), the Commission by a notice of proposed rule making, released February 28, 1969, initiated this proceeding, which contemplates the amendment of paragraphs (a) (5) and (6) of § 73.67 of the rules governing the operation by remote control of standard broadcast stations utilizing directional antennas, as follows (the underlined material would be added to the existing text):

(5) The indications at the remote control point of the antenna current meter, or, for directional antennas, the common point meter and the remote base current meters shall be read and entered in the operating log each half hour. If a station employs a phase monitor providing phase and loop current indications at the remote control point, these indications shall also be read and entered in the operating log each half hour, *Provided, however,* That the phase monitor employed is of a type approved by the Commission for providing such remote indications.

(6) The indications at the transmitter, if the station employs a directional antenna, of the common point current, base currents phase monitor sample loop currents and phase indications shall be read and entered in the operating log once each day for such pattern. These readings must be made within two hours after the commencement of operation for each pattern: *Provided, however,* That stations reading and logging phase monitor indications at the remote control point need only make readings and entries of indication at the transmitter once each day (for any directional pattern), regardless of any condition on the license which may require more frequent readings. However, no more than 48 hours shall elapse between successive readings at the transmitter for a given mode of directional operation.

2. The effect of these rule amendments would be to relieve operators of a station employing more than one directional radiation pattern of the necessity for making more than one set of readings at the transmitter each day if the station employs a phase monitor type approved for its capability for providing phase indications at a remote control point, and such indications are in fact read and logged at that point.

3. The substance and effect of the amendments is generally in accord with NAB's proposals, with the exception that we proposed to permit the remote logging of phases only with suitable type approved monitors, a restriction not suggested by NAB. We noted that the great majority of existing monitors can be used for remote phase indications, if at all, only after extensive alteration, and the only assurance that accurate and reliable indications would be provided at a remote control point rested in a requirement that a monitor be employed which the Commission has established as acceptable for this purpose through the type approval procedure.

4. In a separate proceeding (Docket 18471) we proposed rules governing the type acceptance of phase monitors.

5. Our notice of proposed rule making herein set April 7, 1969, as the deadline for filing comments, and April 17, 1969, for filing reply comments. These dates were extended by subsequent orders to July 9, 1969, and August 8, 1969, respectively.

6. Twenty-seven comments by 26 parties were filed, and one reply comment. These parties are:

Wolf Broadcasting Corp. (WFRO).
American Broadcasting Companies, Inc. (ABC).
Kear and Kennedy (Kear).
Newhouse Broadcasting Corp. (Newhouse).
McClatchy Newspapers (McClatchy).
J. G. Rountree (Rountree).
KFXM Broadcasting Co. (KFXM).
Storer Broadcasting Co. (Storer).
The Association of Federal Communications Consulting Engineers (AFCCE).
John K. Birch (Birch).
A. Earl Cullum, Jr. and Associates (Cullum).
Walter F. Kean (2 filings) (Kean).
The McLendon Corp. (McLendon).
National Association of Broadcasters (NAB).
National Broadcasting Co., Inc. (NBC).
Badger Broadcasting Co. (WIBA).
Ralph J. Bitzer (Bitzer).
James A. Noe (Noe).
Mobil Video Tapes, Inc. (MVT, Inc.).
United Broadcasting Co. of New York, Inc. (UBC).
WEEU Broadcasting Co. (WEEU).
Association on Broadcasting Standards, Inc. (ABS).
Columbia Broadcasting System, Inc. (CBS).
Defense Electronics (DE).
Frank S. Colligan (Colligan).
Department of Education of Puerto Rico (reply comment).

7. All pleadings have been carefully considered. The parties agree that the reading and logging of phase indications at a remote control point should be permitted, if a phase monitor type approved for providing such indications is utilized. There is general agreement that with such facilities available, the present requirements for the reading and logging of indications of various parameters at the transmitter can be relaxed. However, there is a considerable difference of opinion as to the extent and terms of this relaxation.

8. The proposed rules stipulate that no longer than 48 hours may elapse between successive meter readings of the transmitter for a given directional pattern. Several of those commenting suggest that this interval should be somewhat further extended to provide greater flexibility for the licensee in scheduling and making the required readings at the transmitter. McClatchy and Kean suggest 50 hours in lieu of 48, Rountree 52 hours, AFCCE and CBS, 54 hours, while NBC and Noe urge that transmitter readings for a given mode of directional operation be made "at least every other day" (NBC) or "at intervals of not less than every second day" (Noe). On the other hand, DE states that in no case should more than 48 hours elapse "between inspections, and thus local readings". Furthermore, says DE, each licensee should be required to perform daily inspections for each pattern for some period of time after initiating remote operation. Noe suggests that if phases are read at the remote control point, the interval between times of logging these and other parameters should be increased from one-half hour to 1 hour.

9. Rountree notes that the Commission has interpreted § 73.67(a) (6) as not to require readings at the transmitter for any particular mode of directional operation which endures for a period of less than 1 hour, and requests that this interpretation be specifically reflected in the amended rules. He further believes that the application of the proposed rules to an operation involving only a single directional pattern is unclear. CBS suggests that if, in instances where two directional patterns are employed, it is feasible to reduce the frequency with which transmitter readings must be made to once every second day for each pattern, a station employing a single directional pattern should be required to log readings at the transmitter no more often than on alternate days.

10. If a directional antenna system has a record of proven stability and operates well within the required tolerance, Cullum and Storer state that weekly checks at the transmitter should be adequate. Birch also supports weekly transmitter readings in conjunction with the maintenance log requirements of § 73.114(a) (1) (i), and at the same time, would require checks of the calibration adjustments of the phase monitor.

11. UBC and WEEU suggest that when phases are read and logged at the remote control point, logging of indications at the transmitter should be necessary no more than 5 days per week (apparently to parallel the maintenance inspection schedule prescribed in § 73.93(j)). On the other hand, CBS is of the opinion that daily maintenance inspections are not necessary, and urges that any requirements for the logging of meter readings at the transmitter for pattern maintenance not be associated with the requirements for routine maintenance inspections.[1]

12. ABC believes it unnecessary to make daily base current readings at the transmitter if loop currents are read at the remote control point. ABS urges that the base current reading requirement be abolished where phase monitor loop sample currents are read remotely. However, a condition precedent to such abolition would be some standardization in the design and placement of the sampling loop circuits. Kear and Kennedy also emphasize the necessity for proper sampling circuits if loop currents are to be relied on in lieu of base currents. There is rather general agreement that if the station license permits the logging of phase monitor sample currents in lieu of remote base currents at the transmitter, the same latitude should be permitted at the remote control point, and, to the extent the proposed rule requires that both phase monitor current indications and base current indications be logged at the remote control point, it should be modified to require only one or the other, but not both.

13. A number of licensees who indicate that they are presently reading and logging loop current indications at their remote control locations, as "indications * * * of * * * remote base current meters" seek assurances they will not be required to install type approved phase monitors to continue this practice. It is also urged that if current indications of a type approved phase monitor are read and logged at the remote control point, it should be unnecessary to also read and log indications of base current, as the proposed rule would require.

14. ABC states its experience with the transmission of phase monitor indications to a remote control point indicates that serious errors may be experienced over a remote control system using telephone lines and direct current metering, and it found it necessary to utilize a tone telemetry system to minimize such errors. Storer also questions the feasibility of transmitting indications of small phase differences over DC systems because the extremely low voltages corresponding to such differences may be affected by induced potentials in the telephone metering lines.

15. Storer states, however, that there should be no difficulty in transmitting accurate indications, even from a precision phase monitor, if an adequate telemetry system is employed. It noted there is at least one type of precision monitor with facilities for remote indication.

16. Storer urges that we specify the procedure to be followed by a station

[1] In its Order In the Matter of Re-regulation of Radio and Television Broadcasting, adopted November 1, 1972 (FCC 72-967), the Commission amended § 73.93(j) so as to require transmitter inspections only once each week, with no less than 5 days between successive inspections.

V38-17 JAN 26 73 XUM

licensee in replacing an existing phase monitor by a type approved monitor providing remote indications.

17. Cullum, ABS and CBS all urge that we provide in this proceeding for the use of limit alarms for phase and loop current indications. With such alarms, they state, it should be feasible to reduce greatly the frequency with which these indications are observed and logged. CBS proposes a modification of the proposed amendment of § 73.67(a)(5) which would permit the logging of phase and sample current indications at 4-hour intervals, if limit alarms are installed.

DISCUSSION

18. If facilities are provided at the remote control point for monitoring phases and current ratios, in addition to the parameters specified in present § 73.67 (a)(5), there is available to the operator at that point essentially all of the information concerning the functioning of the directional array which he would have if stationed at the transmitter. However, the indications read at the remote control point have accuracy and reliability comparable to indications observed at the transmitter only if an adequate telemetry system is employed, and the indicating instruments at the remote control point are maintained in accurate calibration.

19. The Commission does not prescribe more than the barest requirements for remote control systems, and relies on the judgment and diligence of station licensees to insure that the remote indicating and control facilities are fully adequate. Under such circumstances, while we are of the opinion that observations at the transmitter may be lessened in frequency in general accordance with the proposed rules, we are unable to agree with those parties who suggest that the provision of phase indications at the remote control point justifies a reduction in the schedule of readings at the transmitter to once a week.

20. With respect to the other relaxations requested, we agree that there is no necessity for observing and logging readings at the transmitter for any particular radiation pattern within a precise 48-hour interval, and realize such a strict limit may impose some hardship on licensees in scheduling transmitter visits. We are also impressed by the argument that when phase indications are read and logged at a remote control point, if it is feasible to reduce the frequency of transmitter readings for each mode of directional operation for a station utilizing two directional patterns, comparable relief should be afforded a station operating at all times with the same directional pattern (that is, DA-1). We further believe that a station operating nondirectionally daytime, and with a directional pattern at night (DA-N) merits the same consideration. Therefore, the rule amendments which we are adopting require readings at the transmitter every second day for each directional pattern, with no more than 54 hours elapsing between successive readings at the transmitter for each pattern. Of course, under such circumstances base currents need be read only in connection with other readings required at the transmitter. The amended rules permit this, even though a station license may require more frequent readings of base currents.

21. While, for remote control operation, we do not provide the full relief sought by UBC and WEEU—that transmitter readings not be required more than 5 days a week—we have afforded considerably increased flexibility even for a station with two radiation patterns. If the licensee wishes to schedule the times of transmitter visits so that readings for each pattern are made on the same day, he may omit transmitter readings on the next day. For a station using a single directional pattern, as much as 54 hours may elapse between the times readings are made at the transmitter.

22. We also are acting on Rountree's suggestion that since the Commission has interpreted the present rule as not to require readings at the transmitter for a period of operation in any directional mode of less than an hour in duration, the rule be amended to specifically provide for this relief.

23. Concerning the question as to what "current indications" must be read at the remote control point we would first observe that while paragraph (a)(5) of § 73.67, as now written, requires that "indications • • • of • • • remote base current meters shall be read and entered in the operating log • • •" the Commission has permitted phase monitor sample currents to be read and logged in satisfaction of this requirement if the station license permits sample currents to be read in lieu of base currents. However, under such circumstances the samples for the remote point are not "provided by the phase monitor" but are extracted from the sample lines feeding the phase monitor by such means that the accuracy of indication of the phase monitor is unaffected. This expedient has been required inasmuch as the majority of the older phase monitors do not include provisions for remote current indication, and the Commission wishes to discourage any attempt to alter a phase monitor to provide this capability, on the theory that its performance might be adversely affected by such alteration.

24. Modern phase monitors of designs eligible for type approval incorporate outputs suitable for remote current indication. Where such a phase monitor is employed, it offers a more convenient, less cumbersome, and probably more accurate means for providing current indications to a remote control point than methods requiring the extraction of currents for remote indication from sampling lines intended primarily to provide input currents for the phase monitor.

25. We agree with those parties who contend that, for directional antenna systems, it should be unnecessary to read and log at a remote control point more than one set of indications of relative tower current amplitudes. So, in the amended rules which we adopt, a licensee is given the option of reading and logging at the remote control point either (1) remote base current indications, (2) indications of currents extracted from phase monitor sample lines, or (3) if he has a type approved phase monitor, current indications provided by the phase monitor.

26. Under the provisions of the amended rules, where tower current indications are presently being provided to a remote control point by acceptable means, and are read and logged at the remote control point, this practice may be continued. However, if a licensee at its remote control point proposes to read and log phase relationships and/or current indications obtained from the output of a phase monitor, a type approved instrument ordinarily will be necessary. We believe that the rules, as revised, satisfy the objections of those who alleged that the rule, as originally proposed, would require them to install type approved monitors in order to continue reading indications of currents obtained from phase monitor sampling lines.

27. We particularly note that ABC and Storer question the feasibility of accurately and reliably transmitting phase monitor indications over a remote control system employing DC metering. ABC experienced serious errors in attempting to do this, and installed a tone telemetry system at KQV to achieve satisfactory operation. Storer points out that the extremely low voltages associated with indications of small phase differences may be affected by DC offset voltages induced in the telemetry lines by neighboring telephone circuits, thus producing erroneous readings.[3]

28. As emphasized in paragraph 19, above, the Commission does not prescribe engineering standards for remote control systems, but places on each licensee operating by remote control the burden of providing a system by which effective and reliable control of its transmitter is achieved and accurate indications of transmitter operating conditions are made available to the operator at the remote control point. Thus, if a licensee, pursuant to the amended rules, undertakes to read phase indications at a remote control point, it is expected that such changes will be made in the remote telemetry system as are found necessary to insure that the phase indications of the station monitor are accurately reproduced at its remote control point.

29. We note Storer's request that we specify a procedure to be followed when a licensee elects to replace an existing phase monitor with one approved for providing remote phase indications. We agree that it is desirable to establish such a procedure by rule, and have done so in paragraph (c) of new § 73.69, which

[3] Storer suggests that close-to-zero phase indications may be avoided by introducing additional phase shift in the sample line from the tower presenting the sensitive indication. Assuming that the condition for maximum stability of phase monitor indications is one in which equal amounts of phase shift occur in all sample lines, employment of this expedient, if it destroys such an equality, is, per se, undesirable.

is adopted contemporaneously in Docket 18471.

30. We are adopting Birch's suggestion that § 73.114 be amended to provide for a weekly entry in the maintenance log indicating that the calibration of the phase monitor has been checked. The calibration involves, in the types of phase monitors under consideration, the checking and readjustment, if necessary, of the zero and 180 degree points of the phase indicating meter. Calibration at weekly intervals is expected to be sufficient to maintain the required degree of repeatability.

31. We are also taking this opportunity to amend § 73.114 to require specifically the calibration of indicating instruments at a remote control point at weekly intervals. While we believe that this practice is generally followed by licensees operating by remote control, and is in general conformity with the requirements of § 73.39 regarding the calibration of remote reading instruments, there has been heretofore no unambiguous requirement for calibration of indicating instruments at a remote control point.

32. In the amendment of § 73.67(a)(5) proposed by NAB, and in the somewhat modified version of its proposal offered for comment by the Commission, phase indications, if they are provided at the remote control point would be read and entered in the operating log at successive intervals corresponding to those prescribed for the logging of other operating parameters in the rules as it existed at the time this proceeding was begun, namely, once each half hour. Various parties urged that such frequent entries in the log were unnecessary and burdensome, and made various suggestions for the lengthening of the interval between successive entries.

33. Substantial relief recently has been provided in this area by the adoption, on November 1, 1972, of an Order, "In the Matter of Re-regulation of Radio and Television Broadcasting" (FCC 72-967), which, among other things, amends §§ 73.113(a)(3) and 73.67(a)(5) to such effect as to lengthen the interval between successive entries of parameters in the operating log at the remote control point from one-half hour to 3 hours. In the rule amendments adopted herein we, of course, have incorporated this change, and have specified the same schedule for the logging of phase indications at the remote control point.

34. In the light of this relaxation in the logging requirements for stations with directional antennas operating by remote control, little justification remains for maintaining a more demanding requirement for such stations when not so operated. Heretofore, this requirement, which specifies the observation and logging of phase indications and remote base currents or sample currents once each hour, has not been contained in our rules, but is set forth in each station's instrument of authorization. In the amendment of § 73.113, as described below, we now establish, by rule, a 3-hour schedule for entry of these parameters in the operating log, which will take precedence over the schedule specified in current instruments of authorization. It is anticipated that when licenses are renewed, such logging schedules will be deleted, and reliance will be placed on the rules to provide guidance in this matter.

35. In our notice of proposed rule making in this proceeding we stated that if § 73.67(a)(5) and (a)(6) were amended it would be necessary, at the least, to make corresponding amendments in those portions of § 73.113 (Operating Log) dealing with remote control operation. We further indicated our belief that the substance of paragraphs (a)(5) and (a)(6) of § 73.67 might, in any event, be more appropriately situated in § 73.113 than at its present location, and that we would give consideration to such a change once we had decided on the changes to be made in the logging requirements for remote control operation.

36. In the amendments to the rules which we are adopting we are deleting paragraphs (a)(5) and (a)(6) of § 73.67, and transferring the substance of paragraph (a)(5), as amended to § 73.113 (Operating Log), as we had contemplated. However, the amended substance of paragraph (a)(6) is placed in § 73.114 (Maintenance Log).

37. In determining on the specific form of the rule amendments at this time, our decision has been influenced by the intervening adoption, in Docket 18930, of amendments to § 73.93, that section of the rules governing radio operators at standard broadcast stations. Pursuant to these amended rules, other than first class operators under certain circumstances may be utilized for routine transmitter duty at stations having directional antennas. Since the duty operator is normally responsible for the entries required in the operating log, the amendment of § 73.93, without a corrective amendment of § 73.113 would have created a situation where a lesser grade operator would have been permitted or required to make the periodic observations at the transmitter required when a station is operated by remote control—obviously a function which should be performed by a first class radiotelephone operator. At the time amended § 73.93 was adopted, this matter was resolved temporarily by a contemporaneous amendment of § 73.113(a), to reserve such observations for the first class operator.

38. Our permanent solution for this problem is to require that all observations at the transmitter attendant to remote control operation be entered in the maintenance log (§ 73.114), rather than in the operating log, and to make explicit what has heretofore been implicit, that entries in this log, and the observations or maintenance procedures which they reflect, are in the sole province of a first-class radiotelephone operator. At the same time, we are including in the maintenance log a general schedule for readings of the base currents in the elements of directional antennas. Until the recent amendment of § 73.93 (see § 73.93(e)(3)), we have specified in our rules no requirements for such readings, but consistently have included them in the instrument of authorization for each station. Generally, daily (seven times a week) readings for each directional radiation pattern have been required. In a few cases, on the basis of special showings by licensees, the Commission has authorized base current observations at less frequent intervals.

39. By including the base current observation requirement in § 73.114 of our rules, we will obviate the necessity for including it in each station authorization. At the same time, we are reducing the frequency of observations for all directional stations (other than those operating by remote control, or those whose authorizations now specify observations at longer than daily intervals) from daily to five times a week, for each pattern, and have specified the observations to be made and the information to be recorded to be in accord with the substance of § 73.93(e)(3). Having done this, we are deleting this requirement from § 73.93, where it will no longer serve a useful purpose. The only additional burden placed on licensees, in general, is that involved in meeting the specific requirement that deviations of the ratios of the observed currents from licensed values be computed and recorded. However, it seems obvious that such computations must be made, in any event, if compliance with § 73.52(b) of the rules is to be assured; thus, the actual burden imposed would appear to be minimal, or nonexistent. Particularly in the case of stations operating by remote control, we expect that licensees will find it is more convenient to enter these readings in the maintenance log than in the operating log. However, since both logs will henceforth be required to give the Commission a complete picture of the technical operation of the station, we expect to modify section II of FCC Form 303, the application for renewal of station license, to require the submission of the maintenance log, in addition to the operating log for the composite week.

40. Finally, we call attention to the fact that this proceeding from its inception, in various aspects, has been concerned with an instrument designated as a phase monitor. Comments and reply comments generally referred to the instrument by this name, and we employed this appellation in our discussion of the issues involved. However, most phase monitors include facilities for indicating the relative amplitudes of the RF signals applied to their input terminals, and monitors type approved by the Commission must include such facilities. Therefore, we have decided to follow the practice which has now become rather general, and henceforth designate an instrument designed to monitor the relative phases and amplitudes of the currents in the elements of a directional array as an antenna monitor. This term has been employed throughout the appended rules.

41. The rules adopted herein, we believe, provide a substantial degree of relief from certain of the requirements

V38-17 JAN 26 73 XUM

for the surveillance of standard broadcast stations with directional antennas, and are consistent with our current efforts toward the re-regulation of radio and television broadcasting. As our studies in this field progress, if further relaxation of these rules appear appropriate and feasible, they will be adopted.

42. *Accordingly, it is ordered,* That, effective April 20, 1973, Part 73 of the rules and regulations is amended as set forth below. Authority for this action is found in §§ 4(i) and 303(r) of the Communications Act of 1934, as amended.

43. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: January 10, 1973.

Released: January 18, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

§ 73.67 [Amended]

1. In § 73.67, subparagraphs (5) and (6) of paragraph (a) are deleted.

2. In § 73.113, paragraph (a) is amended to read as follows:

§ 73.113 Operating log.

(a) Entries shall be made in the operating log either manually by a properly licensed operator in actual charge of the transmitting apparatus, or by automatic devices meeting the requirements of paragraph (b) of this section. Indications of operating parameters shall be logged prior to any adjustment of the equipment. Where adjustments are made to restore parameters to their proper operating values, the corrected indications shall be logged, accompanied, if any parameter deviation was beyond a prescribed tolerance, by a notation describing the nature of the corrective action. Indications of all parameters whose values are affected by modulation of the carrier shall be read without modulation. The actual time of observation shall be included in each log entry. The operating log shall include the following information:

(1) For all stations:

(i) Entries of the time the station begins to supply power to the antenna and the time it ceases to do so.

(ii) Entries required by § 17.49 (a), (b), and (c) of this chapter concerning daily observations of tower lights.

(iii) Any entries not specifically required in this section, but required by the instrument of authorization or elsewhere in this part. See, particularly, the additional entries required by § 73.51 (e)(2) when power is being determined by the indirect method.

(iv) The following indications shall be entered in the operating log at the time of commencement of operation, and, thereafter, at successive intervals not exceeding 3 hours in duration.

(*a*) Total plate voltage and total plate current of the last radio stage.

(*b*) Frequency monitor reading.

(*c*) Antenna current or remote antenna current (for nondirectional operation); common point current or remote common point current (for directional operation).

(2) For stations with directional antennas not operated by remote control the following indications in addition to those specified in subparagraph (1) of this paragraph shall be read and entered in the operating log at the time of commencement of operation, and, thereafter, at successive intervals not exceeding 3 hours in duration. (This schedule shall apply, regardless of any provision in the station instrument of authorization requiring more frequent log entries.)

(i) Phase indications.

(ii) Remote antenna base current or antenna monitor sample current or current ratio indications.

(3) For stations with directional antennas operated by remote control, the following indications in addition to those specified in subparagraph (1) of this paragraph shall be read and entered in the operating log at the time of commencement of operation and thereafter, at successive intervals not exceeding 3 hours in duration. (This schedule shall apply, regardless of any provision in the station instrument of authorization requiring more frequent log entries.)

(i) Either remote indications of base currents or currents extracted from antenna monitor sampling lines, or current indications or their ratios provided by a type-approved antenna monitor.

(ii) Phase indications, if provided by a type-approved antenna monitor.

• • • • •

3. Section 73.114 is amended by adding new paragraphs (a)(1)(v)–(vi), (a)(2)(vii), (6), (7), (8), and (9).

§ 73.114 Maintenance log.

(a) All entries in the maintenance log specified hereunder shall be made by the holder of a first-class radiotelephone license, and shall reflect the results of maintenance procedures or of observations performed by him.

(1) An entry each week of the following shall be made where applicable.

• • • • •

(v) A notation of the calibration check of the antenna monitor.

(vi) A notation of the calibration check of indicating instruments at each remote control point against the instruments at the transmitter.

(2) • • •

(vii) Antenna monitor.

• • • • •

(6) If required by the station authorization or § 73.93(e)(5), the results of field strength measurements at the monitoring points specified in the station authorization.

(7) If a remote antenna ammeter normally employed to provide indications of antenna or common point current for entry in the operating log (see § 73.113) becomes defective, entries once each day, for each mode of operation, of such antenna or common point current, until such time as the defective remote antenna ammeter is repaired or replaced.

(8) For stations with directional antennas, in addition to those entries of operating parameters required in the operating log (see § 73.113), specific entries shall be made in the maintenance log, based on observations made without modulation, if instrument readings are affected by modulation. The date and time of each observation shall be shown. The schedule for making such observations and entries is set forth in subparagraph (9) of this paragraph. The entries are as follows:

(i) Common point current.

(ii) Base currents, their ratios, and the deviation of those ratios, in percent, from the licensed values.

(iii) Remote base current or sample current indications, the computed or indicated ratios of those currents, and the deviation of such ratios, in percent, from values specified in the license.

(iv) Phase indications.

(9) The entries in subparagraph (8) of this paragraph shall be made pursuant to the following schedule:

(i) For stations not operated by remote control, entries shall be made once each day, 5 days of each week, for each directional radiation pattern, regardless of any provision in the station authorization for more frequent entries: *Provided,* That, if a first-class radiotelephone operator is on duty at the transmitter for all periods of operation with a directional radiation pattern, and the station authorization permits antenna base current readings at less frequent intervals than specified in this subparagraph, entries may be made pursuant to the schedule specified in that authorization.

(ii) For stations operated by remote control, where phase indications are not observed and entered in the operating log at the remote control point, the entries specified in subparagraph (8) of this paragraph shall be based on observations made at the transmitter not more than 2 hours after the time of commencement of operation with each directional radiation pattern: *Provided,* That, if any separate period of operation with a specific pattern does not exceed 1 hour in duration, observations and entries for such period need not be made. If a station utilizes a single directional radiation pattern during all hours of operation, observations and entries shall be made once each day, with no fewer than 12 hours elapsing between successive observations.

(iii) For stations operated by remote control, where phase indications provided by a type-approved antenna monitor are observed and entered in the operating log at the remote control point, the entries specified in subparagraph (8) of this paragraph shall be based on observations made at the transmitter every second day for each directional radiation pattern, with no longer than 54 hours elapsing between successive observations for the same pattern. (This schedule shall apply regardless of any provision in the station authorization requiring more frequent observations.)

• • • • •

[1] Commissioner H. Rex Lee concurring and issuing a statement, which is filed as part of the original document; Commissioner Hooks absent.

Title 49—TRANSPORTATION

Chapter II—Federal Railroad Administration, Department of Transportation

PART 252—LOANS UNDER THE EMERGENCY RAIL FACILITIES RESTORATION ACT

The purpose of this amendment is to establish a new Part 252 setting forth the procedures and requirements of the Federal Railroad Administration, in filing applications with the Administrator for loans pursuant to the Emergency Rail Facilities Restoration Act (Public Law 92–591).

Since this new Part 252 establishes agency procedures and in view of the emergency nature of the underlying statute authorizing loans, notice and public procedure thereon are impracticable and the procedures can be made effective immediately.

REGULATIONS GOVERNING APPLICATIONS

Sec.
252.1 Applicability.
252.3 Definitions.
252.5 Contents of application (railroads).
252.7 Contents of application (regional, State and local agencies).
252.9 Required exhibits.
252.11 Interest rates and term of loan.
252.13 Execution and filing of application.

Appendix A Required exhibits, documents and certificates.

Appendix B Forms.

AUTHORITY: Emergency Rail Facilities Restoration Act, Public Law 92–591; section 1.49 (o), Regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(o).

§ 252.1 Applicability.

This part prescribes the procedures governing applications for loans to:

(a) Railroads undergoing reorganization under section 77 of the Bankruptcy Act, as amended (11 U.S.C. 205); or

(b) Railroads which have reported to the Interstate Commerce Commission in the railroad annual report a deficit net income for either of the calendar years ending December 31, 1970, or December 31, 1971; or

(c) Railroads whose certified damage to railroad facilities or equipment as a result of the natural disasters which occurred during the month of June 1972 exceeds their net income for either of the calendar years ending December 31, 1970, or 1971 as reported to the Interstate Commerce Commission in the annual report form; or

(d) Regional, State, and local public bodies: For the purpose of restoring or replacing railroad facilities, equipment or services which were damaged or destroyed as a result of the natural disasters which occurred during the month of June 1972. In cases of applications by a railroad, such facilities must be determined to be essential to public service. In cases of applications by regional, State, and local bodies, such facilities must be needed for an efficient and coordinated railroad transportation system and conveyed to such agency pursuant to section 4(c)(4) of the Act.

§ 252.3 Definitions.

As used in this part—

"Act" means the Emergency Rail Facilities Restoration Act.

"Administrator" means the Federal Railroad Administrator.

"Railroad" means any common carrier by railroad subject to Part I of the Interstate Commerce Act (49 U.S.C. 1(3)).

"Applicant" means a railroad or the trustee(s) thereof, or a regional, State, or local public body, meeting the requirements of § 252.1.

§ 252.5 Contents of application (railroads).

(a) Each application by a railroad or the trustee(s) thereof shall include, in the order indicated and identified by applicable section numbers and letters corresponding to those used in this part, the following information as to the Applicant (or trustee, if applicable) and the transaction:

(1) Full and correct name and principal business address.

(2) Name, title, and address of the person to whom correspondence regarding the application should be addressed.

(3) Statement of basis of eligibility for a loan:

(i) If a railroad in reorganization under section 77 of the Bankruptcy Act, with the original application, but not with copies thereof, copy of duly certified order of the court having jurisdiction of Applicant appointing the trustee(s), authorizing the filing of the application with the Administrator and the pledge of security for the loan; or

(ii) All applicants, with the original application but not with the copies thereof, certified copies of the railroad's annual report filed with the Interstate Commerce Commission for the calendar years 1970 and 1971; or

(iii) If a railroad under § 252.1(3), a certificate of the chief financial officer of the Applicant as to the total damage to Applicant's railroad facilities or equipment incurred as a result of the June 1972 disasters.

(4) Full description and location of all railroad facilities, equipment, and services of Applicant damaged or destroyed by the natural disasters which occurred in June 1972.

(5) With respect to all damaged or destroyed lines which are primarily used for the movement of through traffic specify:

(i) The total freight volume measured in net or gross ton miles per mile per year, handled for each of the calendar years 1970 and 1971 and for that part of 1972 for which information is available;

(ii) The number of trains handled over the line during a typical week; and

(iii) The alternative line or lines available, regardless of ownership, for movement of traffic, together with the estimated price differential to shippers using such alternative lines.

(iv) The names of shippers located on the line and the extent to which each is dependent upon the line for transportation, and if not so dependent, reasonable alternate means of transportation (rail and nonrail) available to such shippers.

(6) With respect to all damaged or destroyed lines which are primarily used to originate or terminate traffic specify:

(i) The total freight tonnage handled and total freight volume measured in gross or net ton miles per mile per year for each of the calendar years 1970 and 1971 and for that part of 1972 for which information is available, showing number of cars handled classified by principal commodities.

(ii) Total net revenue from railway operations derived from tonnage handled shown in paragraph (a)(6)(i) of this section.

(iii) The names of shippers located on the line and the extent to which each is dependent upon the line for transportation, and if not so dependent, reasonable alternate means of transportation (rail and nonrail) available to such shippers.

(7) Full description of the railroad facilities, equipment, and services which Applicant proposes to restore or replace together with advice as to whether the restoration or replacement will upgrade such facilities, equipment, or services, and whether the restoration or replacement has commenced or been completed at the time of the filing of the application, together with the dates of the commencement, completion or expected completion. If facilities, equipment, or services are to be upgraded, a statement as to the extent of the upgrading, and the estimated additional cost attributable to the upgrading.

(8) Where Applicant proposes to replace or repair less than the total amount of damaged or destroyed facilities, or equipment a detailed statement as to why the facilities and equipment are not scheduled for repair or replacement, and the basis for selecting those facilities and equipment proposed to be repaired or replaced.

(9) The estimated cost of the repair or replacement of the damaged or destroyed facilities and equipment set forth in paragraph (a)(7) of this section.

(10) The total amount of the loan sought.

(11) Description of the security for the loan including Applicant's opinion of the value of the collateral and the basis for the opinion.

V 38-17 JAN 26 73 XUM

(12) The date or dates on which the Applicant desires the funds to be made available.

(13) The proposed term of the loan, and repayment schedule. Where deferral of payment of principal and interest is sought, a detailed statement supporting the need for such deferral.

(14) (i) Statement that Applicant has endeavored to obtain a loan from private or other governmental sources but has been unable to obtain a loan therefor upon reasonable or practicable terms, and including in the statement the terms that are available and describing any facts relevant to the efforts to obtain a loan.

(ii) Copies of correspondence from all but not less than three lending institutions, to which application for the financing has been made, showing that they have declined the financing, or showing the terms upon which they will undertake the financing.

(15) Statement that the work to be performed will be performed under collective bargaining agreements by railroad employees. If railroad employees, including employees on furlough in the affected region are insufficient to perform such restoration or replacement, a statement giving assurances that the railroad employees on furlough, if not recalled by Applicant will be employed by a contractor to perform such work and that such employees shall be deemed to be railroad employees retaining all of the rights and privileges of railroad employees while so employed. These statements are not required with respect to work undertaken prior to October 27, 1972.

(16) With respect to the rights of way, track, and other related real and personal property on any branch line damaged or destroyed as a result of the June 1972 disasters, and which have not been scheduled for restoration or replacement, information as to those States or subdivisions thereof where the facilities are located, which propose to restore or replace such facilities, and assurances by Applicant that it will convey such facilities to such State or subdivision thereof, for just compensation, free and clear of all encumbrances. In the event a loan is approved by the Administrator, Applicant will be required to notify the Governor of each State, and publish for 3 consecutive weeks in a newspaper of general circulation within the area in which such branch line(s) or related property is located, notice of the requirements of sections 4(c) (4) and (5) of the Act; the location and description of the branch line(s) and related property which are not scheduled for restoration or replacement; that such facilities are available to regional, State, and local public bodies and agencies for just compensation, free of all liens and encumbrances; and that Applicant's obligation to make such offer of conveyance expires 1 year from the date of any loan made to Applicant under this Act.

(17) An assurance by the Applicant that the funds loaned under the Act will be used solely for the purpose of restoring or replacing facilities and equipment damaged or destroyed as a result of the natural disasters of June 1972.

§ 252.7 Contents of application (regional, State and local agencies).

(a) Statement describing the facilities and equipment damaged or destroyed as a result of the June 1972 disasters and acquired by Applicant in accordance with the provisions of section 4(c)(4) of the Act.

(b) Certified copies of instruments evidencing acquisition of title by Applicant of such facilities and equipment.

(c) Statement as to the need for the establishment or re-establishment of railroad service in the affected area.

(d) Statement as to how Applicant proposes to provide railroad services in the area with the restored or replaced facilities and equipment.

(e) Estimated cost of restoring or replacing such facilities and equipment.

(f) Statement of Applicant's ability to furnish 20 percent of the estimated cost of restoring or replacement of such damaged facilities and equipment, and of the source of funds upon which Applicant relies to repay the loan.

(g) Statement giving assurances that Applicant will afford employees engaged in rail transportation services fair and equitable labor protective arrangements as described in the Rail Passenger Service Act of 1970 as amended (45 U.S.C. 565).

(h) An assurance by the Applicant that the funds loaned under the Act will be used solely for the purpose of restoring or replacing facilities and equipment damaged or destroyed as a result of the natural disasters of June 1972.

§ 252.9 Required exhibits.

(a) Each application by a railroad and each copy thereof must have attached the exhibits listed in section I of Appendix A to this part. Each application by a regional, State, or local public body must have attached the exhibits listed in section II of said Appendix A to this part. If a particular exhibit is not applicable, the application shall so state.

(b) If the application is approved by the Administrator the documents listed in section III of Appendix A to this part, in cases of railroads, or in section IV of Appendix A to this part, in cases of a regional, State, or local public body, shall be deposited with the Administrator at least 3 business days before the transaction is closed, together with any other documents the Administrator may require.

§ 252.11 Interest rates and term of loan.

(a) Any loan made under this part shall bear interest at a rate determined by the Secretary of the Treasury at the time the loan is approved by the Administrator taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity of 10 to 12 years reduced by no more than 2 per centum per annum. In no event will the rate of interest exceed 6 per centum per annum.

(b) The term of each loan shall be determined by the Administrator taking into consideration the amount of the loan and Applicant's ability to repay. Payment of principal and interest on the loan may be deferred by the Administrator for a period not to exceed 10 years from the date the loan is made where the Administrator determines it is necessary to insure the provision of essential transportation services of a railroad.

§ 252.13 Execution and filing of application.

(a) Each original application shall bear the date of execution and be signed by or on behalf of the Applicant. Execution on behalf of the Applicant shall be by an officer having knowledge of the matters set forth in the application. Each person signing the application on behalf of the Applicant shall also sign a certificate in the form as set forth in Appendix B to this part.

(b) Each original application shall include a certificate by the Chief Accounting Officer of the Applicant in the form set forth in Appendix B to this part.

(c) Each original application and supporting papers, and six copies thereof shall be filed with the Federal Railroad Administrator, Department of Transportation, Washington, D.C. Each copy shall show the dates and signatures that appear in the original and shall be complete in itself.

(d) If unusual difficulties arise in the furnishing of any of the exhibits required by § 252.9, or if such requirements are unduly burdensome in relation to the nature and amount of the loan the Applicant may, upon appropriate showing and with the consent of the Administrator, omit filing those exhibits.

(e) The Administrator may, with respect to individual loans, upon good cause, shown, waive or modify any requirement of this part not required by the Act or make any additional requirements he deems necessary.

(f) Applications for loans under the Act must be approved by the Administrator no later than June 27, 1973. Applications filed later than June 15, 1973, will not be considered.

APPENDIX A—REQUIRED EXHIBITS, DOCUMENTS, AND CERTIFICATES

SECTION I

The following exhibits must be submitted with respect to a railroad Applicant.

Exhibit 1. A duly certified copy of the Charter or Articles of Incorporation and the bylaws of the Applicant. (Submitted with the original application only.)

Exhibit 2. A certified copy of resolutions of the Board of Directors of the Applicant, or order of the reorganization court authorizing—

(i) The filing of the application; and

(ii) The pledge of security for the loan.

Exhibit 3. A preliminary opinion of counsel for Applicant that he is familiar with the corporate or other organizational powers of the Applicant, that Applicant is authorized to make the application, and that when proper corporate action has been taken, necessary authorizations obtained and the obligations executed, and security delivered as contemplated by the application, the obligations will constitute the valid and subsisting obligations of the Applicant.

Exhibit 4. A map of all the railroad owned, operated, or leased by Applicant showing the lines damaged or destroyed by the June 1972 disasters.

Exhibit 5. A copy of the general balance sheet as of the latest available date but as of a date not earlier than the end of the third month preceding the date of filing of the application in form and detail similar to that required in schedules 200(a) and 200(1) of the Interstate Commerce Commission's annual report Form A.

Exhibit 6. To be filed only with the original copy of the application, a copy of the latest report of Applicant to its stockholders or of the trustee(s) to the reorganization court.

Exhibit 7. General statement setting forth the facts as to estimated prospective earnings and other funds upon which Applicant relies to repay the loan.

SECTION II

The following exhibits must be submitted with respect to regional, State or local public bodies and agencies.

Exhibit 1. Detailed statement of financial condition of Applicant for the last 2 years prior to filing the application including a statement of:

(a) Receipts and disbursements; and

(b) Bond issues or other long-term debt outstanding, showing date authorized, date issued, amount originally issued, balance outstanding, rate of interest, and final maturity date.

Exhibit 2. General statement setting forth the facts as to the source and amount of funds upon which Applicant relies to repay the loan.

Exhibit 3. A preliminary opinion of counsel for Applicant that he is familiar with the corporate or other organizational powers of the Applicant, that Applicant is authorized to make the application, and that when proper corporate action has been taken, necessary authorizations obtained and the obligations executed, the obligations will constitute the valid and subsisting obligations of the Applicant.

SECTION III

Documents. The following documents must be submitted by a railroad under § 252.9 at least 3 business days before the closing of the loan transaction:

(1) A final opinion of counsel of the Applicant to the effect that he is familiar with the corporate and organizational powers of the Applicant; that the Applicant is authorized to execute and deliver the securities or other obligations evidencing them, and to pledge and hypothecate any securities pledged as collateral; that the securities or other obligations so executed and delivered constitute the valid and binding obligations of the Applicant; and that the securities or other obligations of the Applicant will obtain a lien on any security involved of the rank and priority represented by the Applicant. The opinion shall also cover the priority and lien of each item of the collateral offered.

(2) Certified copies of the resolutions of the Board of Directors of the Applicant or, where applicable, the order of the reorganization court, authorizing officers of the Applicant to execute and deliver the securities or other obligations and to give the security under and according to the terms of the loan as prescribed by the Administrator.

SECTION IV

Documents. The following documents must be submitted by a public body under § 252.9 at least 3 business days prior to the closing of the loan transaction:

(1) A final opinion of counsel for the Applicant to the effect that he is familiar with the legal powers of the Applicant; that the Applicant is authorized to execute and deliver the securities or other obligations evidencing them; that the securities or other obligations so executed and delivered constitute the valid and binding obligations of the Applicant.

(2) Certified copies of resolutions of the governing body of the Applicant or where applicable the ordinance or statute authorizing officers of Applicant to execute and deliver the securities or other obligations according to the terms of the loan as prescribed by the Administrator.

APPENDIX B—FORMS

I. The following is the form of the certificate to be made by each person signing an application on behalf of an Applicant:

---------- certifies that he is the
(Name of Official)
---------- of the ----------;
(Title of Official) (Name of Applicant)
that he is authorized by ----------
(Name of Applicant)
TO SIGN and file with the Administrator this application and the attached exhibits; that he has carefully examined all of the statements contained in the application and the attached exhibits relating to ----------; that he has knowledge
(Name of Applicant)
of the matters set forth therein and that all statements made and matters set forth therein are true and correct to the best of his knowledge, information, and belief.

---------- ----------
(Date) (Signature)

II. The following is the form of the certificate to be made by the Chief Accounting Officer of Applicant:

---------- certifies
(Name of Officer)
that he is ----------
(Title of Officer)
of ----------; that he has
(Name of Applicant)
supervision over the books of account and other financial records of ----------
(Name of Applicant)
and has control over the manner in which they are kept; that the accounts are maintained in good faith in accordance with the orders of the Interstate Commerce Commission or with generally accepted accounting principles and practices; that he has examined the financial statements and supporting schedules included in this application and to the best of his knowledge and belief those statements accurately reflect the accounts as stated in the books of account, and that, other than the matters set forth in the attached exceptions those financial statements and supporting schedules represent a true and complete statement of the financial position of the Applicant; and that there are no undisclosed assets, liabilities, commitments to purchase property or securities, other commitments, litigation in the courts, contingency rental agreements, or other contingent transactions which might materially affect the financial position of the Applicant.

(Date)

(Signature)

Effective date. This amendment is effective January 2, 1973.

Issued in Washington, D.C., on January 22, 1972.

JOHN W. INGRAM,
Administrator.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Wheeler National Wildlife Refuge, Alabama

The Bureau of Sport Fisheries and Wildlife announces fishing regulations for Wheeler National Wildlife Refuge, Alabama, effective March 1, 1973.

The following special regulation is issued and is effective on March 1, 1973.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

ALABAMA

WHEELER NATIONAL WILDLIFE REFUGE

Area open to transportation of unstrung bows and arrows when used for fishing in conformance with Alabama State fishing regulations. This regulation effective March 1, 1973 through June 15, 1973.

JACK E. HEMPHILL,
Acting Regional Director, Bureau of Sport Fisheries and Wildlife.

JANUARY 18, 1973.

[FR Doc.73-1553 Filed 1-24-73;8:45 am]

PART 32—HUNTING

Piedmont National Wildlife Refuge, Ga.

The Bureau of Sport Fisheries and Wildlife announces hunting regulations for Piedmont National Wildlife Refuge, Georgia, effective on February 1, 1973.

The following special regulations are issued and are effective on February 1, 1973.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

GEORGIA

PIEDMONT NATIONAL WILDLIFE REFUGE

Public hunting of wild turkey on the Piedmont National Wildlife Refuge, Ga., is permitted only on the area designated by signs as open to hunting. (The Hitchiti Experimental Forest is closed to turkey hunting.) The open area, comprising approximately 32,000 acres or 95 percent of the total area of the refuge, is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sports Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Hunting shall be in accordance with all applicable State regulations covering the hunting of wild turkey subject to the following special conditions:

(1) Species permitted to be taken: Turkey gobblers with visible beards.

V 38 - 17 JAN 26 73 XUM

(2) Open season: April 16–21, 1973. Persons are permitted in the areas open for turkey hunting and on refuge maintained roads only between the hours of 4 a.m. and 12 noon, e.s.t., on the above-cited hunting days.

(3) Bag limit: Only one turkey gobbler per hunter during the 6-day hunt.

(4) All turkeys killed must be checked in at refuge headquarters the day killed and before leaving the area.

(5) Use of vehicles of all types are restricted to State and county roads.

(6) Camping and fires are restricted to the designated camping area in Compartment 19. The camping area will be open on April 7–8 and April 15–22, 1973.

(7) Hunters not having reached their 18th birthday must be under the immediate supervision of an adult.

(8) Hunt permits are nontransferable.

(9) Apprehension of a permittee for any infraction of refuge regulations shall be cause for immediate revocation of his hunt permit by any officer authorized to enforce refuge regulations.

(10) It is unlawful to drive a nail, spike, or other metal object into any tree or to hunt from any tree in which a nail, spike, or other metal object has been driven.

(11) All areas open for hunting may be visited for scouting purposes on April 7–8, 1973 during daylight hours only. Weapons and dogs are not permitted.

(12) A refuge permit is required to enter the public hunting area. A maximum of 300 permits will be issued for the entire 6-day hunt. Hunters will be selected by an impartial public drawing from the applications received. Applications for this permit must be made on the form available from the Piedmont National Wildlife Refuge, Round Oak, Ga. 31080. Completed permit applications must be in the office of the Piedmont National Wildlife Refuge, Round Oak, Ga. 31080 by 4:30 p.m. on March 28, 1973. Submission of more than one application for each hunter shall be cause for rejection of all his applications and is a violation of hunt regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through April 21, 1973.

C. EDWARD CARLSON,
Regional Director, Bureau of Sport Fisheries and Wildlife.

JANUARY 17, 1973.

PART 33—SPORT FISHING

Squaw Creek National Wildlife Refuge, Mo.

The Bureau of Sport Fisheries and Wildlife announces special regulations for fishing for Squaw Creek National Wildlife Refuge, Mo. The open season is April 1, 1973, through October 1, 1973.

The following special regulation is issued and is effective on January 26, 1973.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

MISSOURI

SQUAW CREEK NATIONAL WILDLIFE REFUGE

Sport fishing on the Squaw Creek National Wildlife Refuge, Mo., is permitted only on the areas designated by signs as open to fishing. These open areas are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, CO 80215. Sport Fishing shall be in accordance with all applicable State regulations subject to the following conditions:

(1) Open season: April 1, 1973, through October 1, 1973. Daylight hours only.

(2) Spearing or gigging is not permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33 and are effective through October 1, 1973.

GERALD M. NUGENT,
Refuge Manager, Squaw Creek National Wildlife Refuge, Mound City, Mo.

JANUARY 15, 1973.

[FR Doc.73–1551 Filed 1–24–73;8:45 am]

PART 33—SPORT FISHING

Hagerman National Wildlife Refuge, Tex.

The Bureau of Sport Fisheries and Wildlife announces fishing regulations for Hagerman National Wildlife Refuge, Tex., effective January 26, 1973.

The following special regulation is issued and is effective on January 26, 1973.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

TEXAS

HAGERMAN NATIONAL WILDLIFE REFUGE

Sport fishing by rod, reel and pole, including frog gigging on the Hagerman National Wildlife Refuge, Sherman, Tex., is permitted from April 1 through September 30, 1973, inclusive, but only on the areas designated by signs as open to fishing. These open areas, comprising 2,900 acres, are delineated on maps available at refuge headquarters, 6 miles west of Pottsboro, Tex., and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, NM 87103. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1973.

BERT M. ANDUSS,
Refuge Manager, Hagerman National Wildlife Refuge, Sherman, Texas.

JANUARY 19, 1973.

[FR Doc.73–1552 Filed 1–24–73;8:45 am]

PART 33—SPORT FISHING

Mingo National Wildlife Refuge, Missouri

The Bureau of Sport Fisheries and Wildlife announces that Mingo National Wildlife Refuge will be open to public fishing from January 1, 1973 through December 31, 1973. Sport fishing will be in accordance with all applicable State regulations.

The following special regulation is issued and is effective on January 26, 1973.

§ 33.5 Special regulations; sport fishing for individual wildlife areas.

MISSOURI

MINGO NATIONAL WILDLIFE REFUGE

Sport fishing on the Mingo National Wildlife Refuge, Missouri, is permitted in all waters as designated on the refuge during daylight hours only. The waters comprise about 4,300 acres. Maps and information are available at refuge headquarters and from the office of the Area Manager, Bureau of Sport Fisheries and Wildlife, 601 East 12th, Kansas City, MO 64106. Sport fishing shall be in accordance with all applicable State regulations subject to the following conditions:

(1) Open season: January 1, 1973 through March 14, 1973, in certain designated waters.

(2) Open season: March 15, through September 30 in all waters.

(3) Open season: October 1 through December 31 in certain designated waters.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

GERALD L. CLAWSON,
Refuge Manager, Mingo National Wildlife Refuge, Puxico, Mo.

DECEMBER 29, 1972.

[FR Doc.73–1514 Filed 1–24–73;8:45 am]

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspection, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES, AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

Subpart—Regulations [1]

BASIS FOR CHARGES

The Agricultural Marketing Act of 1946 authorizes official inspection and certification of fresh fruits and vegetables and other products.[2] Such inspection and certification is voluntary and is made available only upon request of financially interested parties and upon payment of a fee. The act requires such fees to be reasonable and, as nearly as possible, to cover the cost of rendering the service.

STATEMENT OF CONSIDERATIONS LEADING TO AMENDMENT OF REGULATIONS

The rising costs of maintaining the inspection service in destination markets have made it necessary to increase inspection fees charged for major categories of inspections. The current fees for small lots (such as for export to Canada or delivery to institutions), the base fee for peanuts, pecans, or other nuts, and the additional hourly charge for inspections made outside of the inspector's regularly scheduled workweek will remain unchanged.

In order to more nearly recover costs of rendering the service the following adjustments have been made in the inspection schedule of fees and charges applicable in destination markets:

1. For quality and condition inspections: Fees are raised from $19 to $20 when more than a half-carlot equivalent is involved, from $16 to $17 for a half-carlot equivalent or less, and the maximum-fee-per-carlot equivalent, when more than one kind of product is involved, is raised from $38 to $40.

2. For condition only inspections: Fees are raised from $16 to $17 when more than a half-carlot equivalent is involved, from $14 to $15 for a half-carlot equivalent or less, and the maximum-fee-per-carlot equivalent, when more than one kind of product is involved, is raised from $32 to $34.

3. The hourly rate, where applicable, is increased from $9 to $10.

Pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U.S.C. 1621 et seq.), § 51.38 *Basis for Charges* of the Subpart—Regulations governing inspection, certification and standards for fresh fruits, vegetables, and other products, is hereby amended to read as follows:

§ 51.38 Basis for charges.[3]

(a) The fee for each lot of products inspected by an inspector acting exclusively for the Department, except for peanuts, pecans and other nuts, shall be on the following basis:

(1) Quality and condition inspections:

(i) $20 for each over one-half carlot equivalent of an individual product up to a full carlot.

(ii) $17 for each half-carlot equivalent or less of an individual product.

(iii) $40 maximum for inspection of each carlot equivalent when more than one kind of product is involved.

(2) Condition inspection only:

(i) $17 for each over one-half carlot equivalent of an individual product up to a full carlot.

(ii) $15 for each half-carlot equivalent or less of an individual product.

(iii) $34 maximum for inspection of each carlot equivalent when more than one kind of product is involved.

(3) When any lot involved is in excess of a carlot equivalent, the quantity shall be calculated in terms of carlot and fractions thereof of the customary carlot quantity for such carlots and carlot inspection fee rates: *Provided*, That such fractions shall be calculated in terms of fourths, or next higher fourths.

(b) The base fee for peanuts (shelled), pecans, or other nuts shall be 90 cents per ton: *Provided*, That the minimum fee shall be $12 per lot, the different grades and varieties of peanuts shall be considered separate lots, and the fee for farmers' stock peanuts (unshelled) shall be $1.80 per ton.

(c) When inspections are made and the products inspected cannot readily be calculated in terms of carlots, or when the services rendered are such that a charge on the carlot or other unit basis would be inadequate or inequitable, charges for inspections may be based on the time consumed by the inspector in connection with such inspections, computed at the rate of $10 per hour.

(d) Notwithstanding the fee rates prescribed in the preceding paragraphs, fees and charges for the inspection of small lots where detailed reports of inspection are not normally required,[4] the following rates may be applied:

1 to 25 packages inclusive	$3.25
26 to 50 packages inclusive	4.25
51 to 150 packages inclusive	6.00
151 to ½ customary carlot equivalent	9.00

(e) Whenever inspections are performed at the request of the applicant during periods which are outside the inspector's regular scheduled workweek, a charge for overtime or holiday work shall be made at the rate of $4 per hour or portion thereof in addition to the regular commercial lot or hourly fees specified in this subpart. Holidays are those specified in title 5, United States Code, section 6103(a).

Notice of proposed rule making, public procedure thereon, and the postponement of the effective time of this action later than February 4, 1973 (5 U.S.C. 553), are impracticable, unnecessary, and contrary to the public interest in that (1) the Agricultural Marketing Act of 1946 provides that the fees charged shall be reasonable and, as nearly as possible, cover the cost of the service rendered; (2) the increases in fee rates set forth herein are necessary to more nearly cover such cost including, but not limited to, Federal employee salary adjustments; (3) it is imperative that these increases in fee rates become effective in time to cover such increased costs; and (4) additional time is not required by users of the inspection service to comply with this amendment.

(Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended, 7 U.S.C. 1622, 1624)

Dated: January 22, 1973, to become effective at 12:01 a.m., February 4, 1973.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[FR Doc.73–1582 Filed 1–24–73;8:45 am]

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 730—RICE

Subpart—1973–74 Marketing Year

STATE RESERVE ACREAGE, COUNTY ACREAGE ALLOTMENTS AND RESERVE ACREAGES, 1973 CROP RICE

The purpose of §§ 730.1504 and 730.1505 is to establish (1) State reserve acreages, (2) county acreage allotments and reserve acreages in farm States, and (3) State productivity pool acreages in farm States.

The provisions of §§ 730.1504 and 730.1505 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq.) (referred to as the "act") with respect to the 1973 crop of rice. The regulations for determination of acreage allotments for 1969 and subsequent crops of rice (§§ 730.61 to 730.87, 33 FR 14520, 17764, 34 FR 3733, 5629, 35 FR 5995, 11454, 36 FR 1465, 3253, 11849, 37 FR 27615) (referred to as the "allotment regulations") contain the designation of farm States and producer States and govern allocations of allotments and reserves established by these provisions.

[1] None of the requirements in the regulations of this subpart shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to products covered in the regulations in this subpart.

[2] Among such other products are the following: Raw nuts, Christmas trees and evergreens, flowers and flower bulbs, and onion sets.

[3] Carlot equivalent shall be based on the customary quantity of a product loaded in common carrier rail cars.

[4] For example, the inspection of small lots for export to Canada or delivery to private and public institutions.

V 38 - 17 JAN 26 73 XUM

Notice that the Secretary was preparing to make determinations with respect to these provisions was published in the FEDERAL REGISTER on October 6, 1972 (37 FR 21173) in accordance with the provisions of 5 U.S.C. 553. Data, views and recommendations were submitted pursuant to such notice and consideration given thereto to the extent permitted by law.

The act requires that, insofar as practicable, notices of farm acreage allotment be mailed to the farm operator in sufficient time to be received prior to the holding of the referendum respecting the national marketing quota. Since such referendum will be held during the period January 22 to 26, 1973, it is essential that §§ 730.1504 and 730.1505 be made effective as soon as possible so that the local committees may issue the notices of farm acreage allotment. Accordingly, it is hereby found and determined that compliance with the 30-day effective date requirement of 5 U.S.C. 553 is impracticable and contrary to the public interest and §§ 730.1504 and 730.1505 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 730.1504 State reserve acreages.

The State reserve acreages set forth in the table in this section were established on the basis of recommendations by the State committees. The State reserve for new farms or new producers, if any, and the State reserve in producer States for appeals and corrections, missed producers and adjustments in factored allotments were established in accordance with section 353 of the act.

State	State reserve acreage for new farms or new producers	State reserve acreages for appeals, etc. in producer States [1]
Arizona	8	0
Arkansas	0	
California	0	50
Florida	35	41
Illinois	0	
Louisiana:		
Farm administrative area	0	
Producer administrative area	0	0
Mississippi	0	
Missouri	0	
North Carolina	0	
Oklahoma	0	
South Carolina	0	0
Tennessee	0	0
Texas	0	50

[1] For appeals and corrections, missed producers, and adjustments in factored allotments in producer States and the "Producer administrative area" in Louisiana.

§ 730.1505 County acreage allotments and reserve acreages and State productivity pool in farm States.

The farm acreage allotments for the 1973 crop of rice in the producer States will be established primarily on the basis of past production of rice by the producer on the farm in lieu of past production of rice on the farm. Therefore, the 1973 State acreage allotments of rice for producer States will be apportioned directly to farms and county acreage allotments and reserve acreage will not be determined for producer States. The county reserve acreages were established on the basis of recommendations by the State and county committees in the farm States. Such county reserves are available for appeals and corrections, missed farms and adjustments in factored allotments. The State productivity pool is the allotment attributable to history pooled as a result of productivity adjustments in the exchange of rice farm acreages allotments and upland cotton farm acreage allotments under section 344 a(h) of the act. Such State productivity pool shall not be allocated to producers, counties and farms. The county acreage allotments in farm States were established by apportioning the State acreage allotment less any State reserve for new farms and less any State productivity pool among the counties in the State in the same proportion that they shared in the total acreage allotted in 1956, as provided by section 353(c) (1) and (6) of the act, except that in the farm administrative area of Louisiana, prior to apportionment among counties, 21 acres were reserved from the State allotment to adjust the county allotment for Rapides Parish for an upward trend in acreage pursuant to section 353(c) (1) of the act. The following table sets forth the county acreage allotments and reserve acreages and State productivity pool in the farm States for the 1973 crop of rice.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 285]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona navel oranges that may be shipped to fresh market during the weekly regulation period January 26–February 1, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of navel oranges so fixed was arrived at after consideration of the total available supply of navel oranges, the quantity currently available for market, the fresh market demand for navel oranges, navel orange prices, and the relationship of season average returns to the parity price for navel oranges.

§ 907.585 Navel Orange Regulation 285.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for navel oranges good last week, with a significant increase in reported sales volume. Prices f.o.b. averaged $3.53 a carton on sales volume of 968 cars, compared with an average f.o.b. price of $3.52 per carton and a sales volume of 810 cars a week earlier. Track and rolling supplies at 390 cars were down 22 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 23, 1973.

(b) *Order.* (1) The respective quantities of navel oranges grown in Arizona and designated part of California which may be handled during the period January 26, 1973, through February 1, 1973, are hereby fixed as follows:

(i) District 1: 891,000 cartons;
(ii) District 2: 209,000 cartons;
(iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 24, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-1680 Filed 1-24-73;11:40 am]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 73-504]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined and Released

This amendment quarantines a portion of Gates County in North Carolina because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

The amendment excludes a portion of Northampton County in North Carolina from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement to swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not apply to the excluded area, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded area.

Therefore, pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in paragraph (e) (6) relating to the State of North Carolina, subdivision (ii) relating to Northampton and Hertford Counties is amended to read:

(e) * * *

(6) *North Carolina.* * * *

(ii) The adjacent portions of Northampton, Hertford, and Gates Counties bounded by a line beginning at the junction of the North Carolina-Virginia State line and State Highway 35 in Northampton County; thence following State Highway 35 in a southeasterly direction to Secondary Road 1351: thence, following Secondary Road 1351 in a

V 38-17 JAN 26 73 XUM

southeasterly direction to the Northampton-Hertford County line; thence, following the Northampton-Hertford County line in a northeasterly, then southeasterly direction to the east bank of the Meherrin River in Hertford County; thence, following the east bank of the Meherrin River in a generally southerly, then southeasterly direction to the west bank of the Chowan River; thence, crossing the Chowan River in an easterly direction to the east bank of the Chowan River in Gates County; thence, following the east bank of the Chowan River in a generally southeasterly direction to the west bank of the Bennetts Creek; thence, following the west bank of the Bennetts Creek in a generally northwesterly direction to State Highway 37; thence, following State Highway 37 in a northwesterly direction to U.S. Highway 13; thence, following U.S. Highway 13 in a northeasterly direction to the North Carolina-Virginia State line; thence, following the North Carolina-Virginia State line in a westerly direction to its junction with State Highway 35 in Northampton County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective January 19, 1973.

Insofar as the amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, it must be made effective immediately to accomplish its purpose in the public interest. Insofar as the amendment relieves restrictions presently imposed, it is no longer deemed necessary to prevent the spread of hog cholera, and it should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-1579 Filed 1-24-73;8:45 am]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Administrative Instructions Prescribing Commuted Travel Time Allowances

The purpose of this amendment is to establish commuted travel time periods as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which an employee of Veterinary Services performs overtime or holiday duty when such travel is performed solely on account of overtime or holiday duty. Such establishment depends upon facts within the knowledge of the Animal and Plant Health Inspection Service.

Therefore, pursuant to the authority conferred upon the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service by § 97.1 of the regulations concerning overtime services relating to imports and exports (9 CFR 97.1), administrative instructions 9 CFR 97.2 (1973 ed.), as amended February 1, 1972 (37 FR 2430), February 16, 1972 (37 FR 3410), March 1, 1972 (37 FR 4246), May 10, 1972 (37 FR 9384), July 7, 1972 (37 FR 13335) and August 16, 1972 (37 FR 16534), prescribing the commuted travel time that shall be included in each period of overtime or holiday duty, are hereby amended by adding to or deleting from the respective "lists" therein as follows:

OUTSIDE METROPOLITAN AREA

TWO HOURS

Add: Lake Mills, Wisconsin (served from Madison, Wis.)

FOUR HOURS

Add: Sheboygan Falls, Wisconsin (served from Milwaukee and Ripon, Wis.)

SIX HOURS

Add: Sheboygan Falls, Wisconsin (served from Madison, Wis.)

(64 Stat. 561; 7 U.S.C. 2260)

Effective date. The foregoing amendment shall become effective on January 26, 1973.

It is to the benefit of the public that this instruction be made effective at the earliest practicable date. Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this instruction are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of January 1973.

E. E. SAULMAN,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

Bank Acquisitions by Holding Companies

In order to delegate to Reserve Banks the authority to approve the acquisition of additional shares in a bank, whether or not the bank is a subsidiary, which shares are acquired through the exercise of rights received as a shareholder, the Board has amended § 265.2(f)(23) to read as follows:

§ 265.2 **Specific functions delegated to Board employees and Federal Reserve Banks.**

• • • • • •

(f) Each Federal Reserve Bank is authorized, as to member banks or other indicated organizations headquartered in its district, or under subparagraph (25) of this paragraph, as to its officers:

• • • • • •

(23) Under the provisions of section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842), to approve the acquisition by a bank holding company of additional shares in a bank that are to be acquired through exercise of rights received, on a pro rata basis, by the bank's shareholders.

• • • • • •

Effective date. This amendment is effective with respect to applications received by the Reserve Banks after the date of this Order.

By order of the Board of Governors, January 15, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1500 Filed 1-24-73;8:45 am]

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

Approval of Membership Applications

In order to delegate to the Federal Reserve Banks authority to approve applications for membership in the System § 265.2(f) is amended by adding subparagraph (26) to read as follows:

§ 265.2 **Specific functions delegated to Board employees and Federal Reserve Banks.**

• • • • • •

(f) Each Federal Reserve Bank is authorized, as to member banks or other indicated organizations headquartered in its district or under subparagraph (25) of this paragraph, as to its officers:

• • • • • •

(26) Under the provisions of the first paragraph of section 9 of the Federal Reserve Act (12 U.S.C. 325 to approve applications for membership in the Federal Reserve System if the Reserve Bank is satisfied with respect to each of the following criteria:

(i) The financial history and condition of the applying bank and the general character of its management;

(ii) The adequacy of its capital structure in relation to the character and condition of its assets and to its existing and prospective deposit liabilities and other corporate responsibilities; and its future earnings prospects;

(iii) The convenience and needs of the community to be served by the bank; and

(iv) Whether its corporate powers are consistent with the purposes of the Federal Reserve Act and the Federal Deposit Insurance Act.

• • • • • •

Effective date. This amendment is effective with respect to applications received by the Reserve Banks after the date of this Order.

By order of the Board of Governors, January 15, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-1501 Filed 1-24-73;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-RM-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Extension of VOR Federal Airway

On November 1, 1972, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (37 FR 23279) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend VOR Federal Airway No. 134 from Grand Junction, Colo., to Denver, Colo., including a south alternate.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. March 29, 1973, as hereinafter set forth.

In § 71.123 (38 FR 307) the description of VOR Federal Airway No. 134 is amended to read as follows:

From Fairfield, Utah, via Price, Utah; Grand Junction, Colo.; 33 miles 12 AGL, 21 miles 127 MSL, 16 miles 120 MSL, 123 miles 12 AGL to Denver, Colo.; including a south alternate from INT Kremmling, Colo., 135° and Denver 257° radials via INT Kremmling 135° and Denver 232° radials to Denver.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 18, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-1530 Filed 1-24-73;8:45 am]

[Docket No. 12504, Amdt. 848]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective March 8, 1973.

Elyria, Ohio—Elyria Airport, VOR-A, Amendment 2.

Monroeville, Ala.—Monroe County Airport, VOR Runway 3, Amendment 3.

Monroeville, Ala.—Monroe County Airport, VOR Runway 21, Amendment 3.

Santa Ynez, Calif.—Santa Ynez Airport, VOR-1, Amendment 1, Canceled.

Santa Ynez, Calif.—Santa Ynez Airport, VOR-A, Original.

• • • effective January 17, 1973.

Cincinnati, Ohio—Cincinnati Muni Blue Ash Field, VOR/DME-A, Amendment 1.

• • • effective January 15, 1973.

Kingman, Ariz.—Kingman Municipal Airport, VOR Runway 21, Amendment 2.

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAPs, effective March 8, 1973.

Tacoma, Wash.—Tacoma Industrial Airport, LOC Runway 17, Amendment 1.

Tucson, Ariz.—Tucson International Airport, LOC Runway 11L, Amendment 3.

Tucson, Ariz.—Tucson International Airport, LOC (BC) Runway 29R, Amendment 3.

• • • effective February 1, 1973.

Oklahoma City, Okla.—Will Rogers World Airport, LOC (BC) Runway 35L, Original.

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective March 8, 1973.

Bremerton, Wash.—Kitsap County Airport, NDB Runway 1, Amendment 7.

Tacoma, Wash.—Tacoma Industrial Airport, NDB Runway 17, Amendment 1.

Tacoma, Wash.—Tacoma Industrial Airport, NDB Runway 35, Amendment 2.

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective March 8, 1973.

White Plains, N.Y.—Westchester County Airport, ILS Runway 16, Amendment 18.

• • • effective February 1, 1973.

Oklahoma City, Okla.—Will Rogers World Airport, ILS Runway 17R, Original.

• • • effective January 15, 1973.

Houston, Tex.—Intercontinental Airport, ILS Runway 14, Amendment 1.

5. Section 97.31 is amended by originating, amending, or canceling the following Radar SIAPs effective March 8, 1973.

Denver, Colo.—Jeffco Airport, Radar-1, Amendment 2

Tacoma, Wash.—Tacoma Industrial Airport, Radar-1, Amendment 2

Tucson, Ariz.—Tucson International Airport, Radar-1, Amendment 8

6. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAPs effective March 8, 1973.

Bremerton, Wash.—Kitsap County Airport, RNAV Runway 1, Amendment 1.

Denver, Colo.—Jeffco Airport, RNAV Runway 29R, Original.

Massena, N.Y.—Richards Field, RNAV Runway 5, Amendment 2.

Massena, N.Y.—Richards Field, RNAV Runway 23, Amendment 2.

Miami, Fla.—Miami International Airport, RNAV Runway 9L, Amendment 1.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2333]

PART 13—PROHIBITED TRADE PRACTICES

The Credit Bureau of Columbus, Inc., et al.

Subpart—Collecting, assembling, furnishing or utilizing consumer reports: § 13.382 *collecting, assembling, furnishing or utilizing consumer reports:* 13.382-1 Confidentiality, accuracy, relevancy, and proper utilization: 13.382-1(a) Fair Credit Reporting Act: 13.382-5 Formal regulatory and/or statutory requirements: 13.382-5(a) Fair Credit Reporting Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147, 84 Stat. 1127-36; 15 U.S.C. 1601, et seq.) [Cease and desist order, The Credit Bureau of Columbus, Inc., et al., Columbus, Ohio, Docket No. C-2333, Dec. 15, 1972]

In the Matter of The Credit Bureau of Columbus, Inc., The Credit Bureau of Mansfield, Inc., The Credit Bureau of Marion, Inc., The Credit Bureau of Newark, Inc., The Credit Bureau of South Bend, Inc., Corporations, and William B. Price and William H. Price, Individually and as Officers and/or Managers of Said Corporations, or Any of Them

Consent order requiring five affiliated Midwestern credit bureaus located in Ohio and Indiana, among other things to cease violating the Fair Credit Reporting Act by failing to require users of consumer reports to identify themselves and certify in writing the purpose for which the information is sought and not used for any other purpose; failing to incorporate into contracts that information will be requested only for the prospective user's exclusive use in connection with the extension of credit, employment, insurance, governmental use, or other legitimate business transaction involving the consumer; failing to forbid employees from obtaining reports on themselves or associates; and failing to cease doing business with any user of reports who does not follow the procedures specified by the order.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents The Credit Bureau of Columbus, Inc., The Credit Bureau of Mansfield, Inc., The Credit Bureau of Marion, Inc., The Credit Bureau of Newark, Inc., and The Credit Bureau of South Bend, Inc., corporations, their respective successors and assigns, and their officers, and William B. Price and William H. Price, individually and as officers and/or directors and/or managers of said corporations, or any of them, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the collecting assembling or furnishing of consumer reports, as "consumer report" is defined in § 603(d) of the Fair Credit Reporting Act (Public Law No. 91-508, 15 U.S.C §§ 1601 et seq.), shall forthwith cease and desist from:

1. Failing to require all prospective users of consumer reports to identify themselves and to certify, in writing, through a contract or written certification form with the respondents, the purpose for which the information is sought and that the information will be used for no other purpose, in accordance with § 607 of the Fair Credit Reporting Act.

2. Failing to incorporate the following statements on the face of all contracts or written certification forms between the respondents and the prospective users of consumer reports, with such conspicuousness and clarity as is likely to be read and understood by the prospective users of consumer reports:

ATTENTION

"User will comply with all the provisions of The Fair Credit Reporting Act Public Law No. 91-508

1. Information will be requested only for the User's exclusive use, and the User certifies that inquiries will be made only for one or more of the following permissible purposes and no other:

a. In connection with a credit transaction involving the consumer on whom the information is to be furnished and involving the extension of credit to, or review or collection of an account of the consumer; or

b. In connection with employment purposes; or

c. In connection with the underwriting of insurance involving the consumer; or

d. In connection with a determination of the consumer's eligibility for a license or other benefit granted by a governmental instrumentality required by law to consider an applicant's financial responsibility or status; or

e. In connection with a legitimate business need for the information in connection with a business transaction involving the consumer.

2. Reports on employees will be requested only by the User's designated representatives. Employees will be forbidden to attempt to obtain reports on themselves, associates, or any other person except in the exercise of their official duties.

3. It is understood by the User that Pub. L. No. 91-508, § 619, states "Any person who knowingly and willfully obtains information on a consumer from a consumer reporting agency under false pretenses shall be fined not more than $5,000 or imprisoned not more than one year, or both."

3. Failing to require prospective users of consumer reports, who are not, in the ordinary course of business, regularly extending consumer credit and/or consumer insurance including, but not limited to, those who operate, either in whole or in part, as Federal, State, or local governmental subdivisions or agencies except those covered by paragraph 4 of this order, private legal counsel or attorneys, and private detectives or investigators, to identify themselves and to certify in writing, either at the time the prospective users seek each consumer report or within ten (10) business days after an oral certification of a request for each consumer report, the purpose for which the information is sought and that the information will be used for no other purpose, in accordance with section 607 of the Fair Credit Reporting Act.

4. Failing to require prospective users of consumer reports, who are not, in the ordinary course of business, regularly extending consumer credit and/or consumer insurance, but who regularly use consumer reports for "employment purposes," as defined in section 603(h) of the Fair Credit Reporting Act, to identify themselves and to certify in writing, through a contract or written certification form with the respondents, that the only purpose for which information is sought is for employment and that the information will be used for no other purpose, unless the prospective users identify themselves and certify, in writing, each time the prospective users seek a consumer report, the purpose for which the information is sought and that the information will be used for no other purpose, in accordance with section 607 of the Fair Credit Reporting Act.

5. Failing to inform all prospective users of consumer reports, in writing, at the time of entering into a contract or executing a written certification form with the respondents, of their responsibilities as users of consumer reports, including the provisions of paragraphs 3 and 4 of this order.

6. Failing to cease doing business with any user or prospective user of consumer reports who does not follow any of the oral or written procedures as specified by this order, or who the respondents know, or have reason to believe, is violating any provisions of the Fair Credit Reporting Act.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the assembling or evaluating of information on consumers for the purpose of furnishing to third parties consumer reports and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business or employment in which they are engaged, as well as a description of their duties and responsibilities.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed changes in the corporate respondents, such as dissolution, assignment, or sale resultant in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other changes in the corporations which may affect compliance obligations arising out of the order.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained herein.

Issued: December 15, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[FR Doc.73-1510 Filed 1-24-73;8:45 am]

[Docket No. C-2334]

PART 13—PROHIBITED TRADE PRACTICES

Mica, Inc. and Willis Holt

Subpart—Importing, manufacturing, selling, or transporting flammable wear: § 13.1060 *Importing, manufacturing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Mica, Inc., et al., Chatsworth, Ga., Docket No. C-2334, Dec. 29, 1972]

In the Matter of Mica, Inc., a Corporation, and Willis Holt, Individually and as an Officer of Said Corporation

Consent order requiring a Chatsworth, Ga., manufacturer and seller of carpets and rugs, among other things to cease manufacturing for sale, selling, importing, or distributing any product, fabric, or related material which fails to conform to an applicable standard of flammability or regulation issued under the provisions of the Flammable Fabrics Act, as amended.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Mica, Inc., a corporation, its successors and assigns, and its officers, and respondent Willis Holt, individually and as an officer of said corporation and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric or related material; or manufacturing for sale, selling, or offering for sale, any product made of fabric or related material which has been shipped or received in commerce, as "commerce," "product," "fabric," and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That respondents herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the identity of the purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (5) any disposition of said products since April 4, 1972, and (6) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or to destroy said products, and the results of such actions. Respondents will submit with their report, a complete description of each style of carpet or rug currently in inventory or production. Upon request, respondents will forward to the Commission for testing a sample of any such carpet or rug.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: December 29, 1972.

By the Commission.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 19—REPORTS BY MERCHANTS, PROCESSORS, AND DEALERS

Information Required for Cotton and Cotton Products, and for Potatoes and Potato Products

On October 19, 1972, notice was published in the FEDERAL REGISTER (37 FR 22390) of the proposed amendments of sections 19.02, 19.03(a), and 19.04(a) of part 19 of the regulations under the Commodity Exchange Act, as amended (17 CFR 19.02, 19.03(a), and 19.04(a)). The purpose in amending § 19.02 is to eliminate certain previously required information concerning positions in spot cotton and cotton products and to show the information now required for regulatory purposes. The purpose in amending § 19.03(a) is to reflect changes in the required information concerning cash positions in eggs and egg products, based on present marketing practices for eggs. The purpose in amending § 19.04(a) is to make minor clarifying changes in the required information concerning cash positions in potatoes and potato products.

Interested persons were given 30 days in which to submit written data, views, or arguments on the proposed amendments. No such written submittals were received on the proposed amendments of §§ 19.02 and 19.04(a). Accordingly, pursuant to the authority vested in the Secretary of Agriculture under the Commodity Exchange Act, as amended, the amendments of §§ 19.02 and 19.04(a) as so proposed are hereby adopted without change and are set forth below.

Two statements were filed, however, concerning the proposed amendment of § 19.03(a), relating to cash positions in eggs and egg products. After careful con-

V 38 - 17 JAN 26 73 XUM

sideration of the comments received, it is desirable to revise the notice of proposed amendment with respect to § 19.03(a). Such notice will appear in a subsequent issue of the FEDERAL REGISTER.

Effective date. The amendments of §§ 19.02 and 19.04(a) shall become effective on February 26, 1973.

(Sec. 8a as added and amended, 49 Stat. 1500; 82 Stat. 32, 33; 7 U.S.C. 12a)

NOTE: The reporting requirements contained herein have been approved by the Office of Management and Budget in accord with the Federal Reports Act of 1942 (44 U.S.C. Ch. 12).

Issued January 18, 1973.

RICHARD E. LYNG,
Assistant Secretary.

§ 19.02 Merchants, processors, and dealers in cotton and cotton products.

(a) *Details of cotton position.* Merchants, processors, and dealers in cotton and cotton products or byproducts shall include the following information in each report:

(1) The quantity of open fixed-price spot positions (long and short) in cotton and cotton products, including open fixed-price purchase commitments of raw cotton, stocks of raw cotton on hand (owned and at fixed prices), cotton in process of manufacture, and finished products; and unfilled fixed-price sale commitments of raw cotton and of finished products;

(2) The quantity of call cotton bought or sold on which the price has not been fixed, together with the respective futures on which based. As used herein, call cotton refers to spot cotton bought or sold, or contracted for purchase or sale, at a price to be fixed later based upon a specified future; and

(3) The quantity of certificated cotton owned.

(b) *Standards and conversion factors.* Every such merchant, processor, or dealer, in computing his spot position, shall use such standards and conversion factors with respect to cotton products or byproducts as are usual in the cotton trade. If it is the regular business practice of such merchant, processor, or dealer to exclude certain products or byproducts in determining his spot position for hedging (as defined in section 4a of the Act), the same shall be excluded in the report. Such merchant, processor, or dealer shall furnish to the Commodity Exchange Authority upon request detailed information concerning the kind and quantity of each product or byproduct so excluded.

§ 19.04 Merchants, processors, and dealers in potatoes and potato products.

(a) *Details of cash (spot) potato position.* Merchants, processors, and dealers in potatoes and potato products shall show in each report the amount of:

(1) Potatoes being raised or expected to be raised by such persons in the ensuing 12 months, including the potato acreage in each State;

(2) Stocks of potatoes owned;

(3) Open fixed-price purchase commitments of potatoes;

(4) Unfilled fixed-price sales commitments of potatoes; and

(5) Stocks of potato products owned or potatoes in process of manufacture, open fixed-price purchase commitments, and unfilled fixed-price sales commitments of potato products, identified as to kind of product.

Chapter II—Securities and Exchange Commission

[Release Nos. 33-5354, 34-9944, AS-138]

PART 211—INTERPRETATIVE RELEASES RELATING TO ACCOUNTING MATTERS (ACCOUNTING SERIES RELEASES)

PART 239—FORMS, SECURITIES ACT OF 1933

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Disclosure of Unusual Charges and Credits to Income

The Securities and Exchange Commission today adopted amendments to its registration and reporting forms to require more detailed and timely reporting, and timely review by independent accountants of extraordinary or material unusual charges and credits to income or material provisions for losses effected by registrants. Proposals to amend these forms, as well as forms 7-Q (17 CFR 249.307a) and 10-Q (17 CFR 249.308a), for these purposes were published for comment in Securities Act Release No. 5313 (Securities Exchange Act Release No. 9801) [37 FR 21445] on October 2, 1972. Form 8-K (17 CFR 249.308) is the form for reporting certain specified material events and transactions pursuant to Sections 13 and 15(d) of the Securities Exchange Act of 1934 (Exchange Act); Forms 10-K (17 CFR 249.310) and 12-K (17 CFR 249.312) are the forms for annual reports pursuant to those sections of the Exchange Act; Forms S-1 (17 CFR 239.11), S-7 (17 CFR 239.26), S-8 (17 CFR 239.16b), S-9 (17 CFR 239.22), and S-11 (17 CFR 239.18) are forms for registration of securities pursuant to the Securities Act of 1933; and forms 10 (17 CFR 249.210) and 12 (17 CFR 249.212) are forms for registration of securities pursuant to the Exchange Act.

The Commission noted when it proposed amendments to these forms that it had observed an increasing number of large charges to income which often appeared without warning and were not generally understood by investors. The Commission is concerned that this trend seems to have accelerated in recent months. While many of such charges result from an identifiable event, many also appear to be made on the basis of a discretionary decision to dispose of marginal facilities or operations or to write off deferred development or excess production costs. In the latter situations, where facilities or operations gradually deteriorate or the outlook for a contract or program gradually worsens to the point where a writeoff is deemed necessary, registrants have an obligation to forewarn public investors of the deteriorating conditions which unless reversed may result in a subsequent writeoff. This includes an obligation to provide information regarding the magnitude of exposure to loss.

The Commission, therefore, reiterates its view that registrants should make special efforts to recognize incipient problems that might lead to such charges and to identify them clearly at the earliest possible time in financial statements and other forms of public disclosure, including public reports filed with the Commission, so that public investors may recognize the risks involved. In this connection, registrants should consider disclosure of the investment involved in divisions operating at a loss; the undepreciated cost of plant and equipment currently considered to be obsolete or of marginal utility; the extent of deferred research and development costs incurred in connection with products whose success is not reasonably assured; and other similar items where significant uncertainties exist as to realization.

The Commission has previously urged more comprehensive disclosure of progress and problems encountered in defense and other long-term contracts which may also give rise to major charges against income (Securities Act Release No. 5263 dated June 22, 1972) (37 FR 21464) and has urged greater diligence in the release of quarterly and other interim reports of operations (Securities Exchange Act Release No. 9559 dated April 5, 1972) (37 FR 21465).

In addition to disclosure of incipient problems, the Commission believes that substantial additional disclosure in regard to extraordinary items and material unusual charges and credits to income or major provisions for loss is necessary to enable public investors to assess the impact of such items. This would include transactions that are classified as extraordinary items under generally accepted accounting principles and other unusual or nonrecurring material transactions or provisions for loss, such as (but not restricted to) material write downs of inventories, receivables, or deferred research and development costs, provisions for loss on major long-term contracts or purchase commitments, and losses on disposition of assets or business segments. The release of October 2 (33-5313 and 34-9801) contained proposals for such disclosure. The comments received on these proposals have been given careful consideration in determining the amendments to adopt.

The Commission has determined not to adopt the proposed amendment calling for pro forma statements to reflect allocation of charges and credits to prior years since, on the basis of comments received, it concluded that the proposed pro forma disclosure might leave the improper implication that past historical statements were in error as well as imposing substantial clerical burdens on registrants. The amendments adopted

herein call for disclosure of the years in which the costs being included in the charge were or are expected to be incurred and the amount of cost in each year by major category of cost.

The Commission has further determined not to adopt the proposed amendments to Forms 7-Q and 10-Q and other related amendments which would have required an estimate of losses by quarters and a subsequent quarterly reconciliation of reserves provided. Comments indicated that quarterly estimates and reconciliations would be difficult to make within acceptable limits of accuracy, would not supply significant data for investors, and would impose a clerical burden on registrants. The amendments adopted herein require an estimate of losses by year and a subsequent annual explanation of differences between estimated and actual amounts and a reconciliation of any reserve provided.

In addition, the Commission has determined to omit the definition of "material" contained in the proposed note to item 10(a) of Form 8-K. Comments indicated that a definition which relates materiality to a criterion based on separate reporting of an item to stockholders might have the effect of discouraging such disclosure rather than improving the quality thereof. Materiality, therefore, must be considered within the context of the definition contained in Rule 1-02 of Regulation S-X (17 CFR 210.1-02).

Commission action. The Commission has amended certain items and instructions of various sections of Parts 239 and 249 of Chapter II of Title 17 of the Code of Federal Regulations, and as so amended they read as follows:

A. *Form 8-K* (17 CFR 249.308).

I. The caption of item 10 and paragraph (a) have been amended as follows:

ITEM 10—EXTRAORDINARY ITEM CHARGES AND CREDITS, OTHER MATERIAL CHARGES AND CREDITS TO INCOME OF AN UNUSUAL NATURE, MATERIAL PROVISIONS FOR LOSS, AND RESTATEMENTS OF CAPITAL SHARE ACCOUNT

(a) If there have been any extraordinary item charges or credits, any other material charges or credits to income of an unusual nature, or any material provisions for loss, the following shall be furnished for each such charge, credit, or provision:

(1) The date of the registrant's determination to make the charge, credit, or provision;

(2) A statement of the reasons for making the charge, credit, or provision;

(3) An analysis of the components (in dollar amounts) of the charge, credit, or provision, which includes

(i) A description of the various types of items written down or off;

(ii) A description of any provision for losses on liquidation of assets or for other losses including a detailed schedule showing the components of any losses provided for, which schedule shows the amount of administrative and fixed costs, if any, allocated to the loss;

(iii) A description of any estimated recoveries or costs netted against the charge or credit;

(4) A statement setting forth the years in which costs being reflected in the charge (or net credit) being described were or are expected to be incurred and the amount of cost for each year by major category (e.g., fixed assets, research and development costs, operating losses);

(5) A statement setting forth the estimated amount of net cash outlays (or in-flows) associated with the charge (or credit) in the year the charge (or credit) is made and in each subsequent year in which such estimate of the cash amount differs from the amount of total costs stated in part (4) for that year;

(6) A description of the accounting principles or practices followed and any changes therein or in the methods of applying such principles or practices which was made in connection with the transaction; and

(7) A report from the registrant's independent accountants in which they state that they have read the description in the Form 8-K of the facts set forth therein and of the accounting principles applied and whether they believe that on the basis of the facts so set forth that such accounting principles are fairly applied in conformity with generally accepted accounting principles or, if not, the respects in which they believe the principles do not conform to generally accepted accounting principles.

II. The following new instruction 8 has been added under *Exhibits* of Form 8-K.

8. Reports from the independent accountants furnished pursuant to Item 10.

B. *Form 10-K* (17 CFR 249.310).

A new instruction (6) has been added to the instructions to item 2, Summary of Operations, as follows:

(6) For any event subsequent to January 31, 1973, which was required to be reported pursuant to item 10(a) of Form 8-K in which an amount of cost was estimated to be incurred in the fiscal year being reported on or the prior fiscal year, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

C. *Form 12-K* (17 CFR 249.312).

A new instruction 6 has been added to the instructions as to exhibits, as follows:

6. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be incurred in the fiscal year being reported on or the prior fiscal year, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

D. *Form S-1* [17 CFR 239.11]

A new instruction 7 has been added to Item 6, Summary of Earnings, as follows:

7. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided. If the issuer was not a registrant prior to the filing of this registration statement, this instruction shall apply to any transaction subsequent to January 31, 1973, which would have been required to be reported pursuant to Item 10 (a) of Form 8-K had the issuer been a registrant and in which an amount of cost was estimated to be applicable to the fiscal years being reported on.

E. *Form S-7* [17 CFR 239.26]

Instruction 8 of Item 6, State of Income, has been changed to number 9 and a new instruction 8 has been added, as follows:

8. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

F. *Form S-8* [17 CFR 239.16b]

Instruction 4 of Item 19, Summary of Earnings, has been changed to number 5 and a new instruction 4 has been added, as follows:

4. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

G. *Form S-9* [17 CFR 239.22]

Instruction 6 to part (a) of Item 3, Statements of Income, has been changed to number 7 and a new instruction 6 has been added, as follows:

6. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarized such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

H. *Form S-11* [17 CFR 239.18]

A new instruction 7 has been added to part (a) of Item 6, *Summary Financial Data*, as follows:

7. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8-K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided. If the issuer was not a registrant prior to the filing of this registration statement, this instruction shall apply to any transaction subsequent to January 31,

V38-17 JAN 26 73 XUM

1973, which would have been required to be reported pursuant to Item 10(a) of Form 8–K had the issuer been a registrant and in which an amount of cost was estimated to be applicable to the fiscal years being reported on.

I. *Form 10* [17 CFR 249.210]

A new instruction 5 has been added to Item 2, Summary of Operations, as follows:

5. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8–K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided. If the issuer was not a registrant prior to the filing of this registration statement, this instruction shall apply to any transaction subsequent to January 31, 1973, which would have been required to be reported pursuant to Item 10(a) of Form 8–K had the issuer been a registrant and in which an amount of cost was estimated to be applicable to the fiscal years being reported on.

J. *Form 12* [17 CFR 249.212]

A new instruction 9 has been added to the *Instructions as to Exhibits*, as follows:

9. For any event subsequent to January 31, 1973, which was required to be reported pursuant to Item 10(a) of Form 8–K in which an amount of cost was estimated to be applicable to any of the fiscal years being reported on, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences between estimated and actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided. If the issuer was not a registrant prior to the filing of this registration statement, this instruction shall apply to any transaction subsequent to January 31, 1973, which would have been required to be reported pursuant to Item 10(a) of Form 8–K had the issuer been a registrant and in which an amount of cost was estimated to be applicable to the fiscal years being reported on.

The foregoing amendments are adopted pursuant to sections 6, 7, 8, 10, and 19(a) (15 U.S.C. 77f, 77g, 77h, 77j, and 77s) of the Securities Act of 1933 and sections 13, 15(d), and 23(a) (15 U.S.C. 78m, 78o, and 78w) of the Securities Exchange Act of 1934. The amendments shall be effective with respect to reports on Form 8–K and registration statements on Forms S–1, S–7, S–8, S–9, S–11, 10, and 12, and with respect to annual reports on Forms 10–K and 12–K filed on or after February 28, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

JANUARY 12, 1973.

[FR Doc.73-1516 Filed 1-24-73;8:45 am]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 73-27]

PERSONAL DECLARATIONS AND EXEMPTIONS

Declaration and Entry of Articles

On August 10, 1972, a notice of proposed rule making pertaining to a revision of the customs regulations relating to personal declarations and exemptions (19 CFR 10.11–10.28, and 10.42), was published in the FEDERAL REGISTER (37 FR 16092). Interested persons were given 60 days in which to submit written comments, suggestions, or objections regarding the proposed revision. No comments were received.

Previously, on August 5, 1972, a notice of proposed rule making to amend Part 10 of the customs regulations regarding the privileges accorded personnel of foreign governments and international organizations in accordance with existing law and treaties, and set forth the authority to search their baggage (19 CFR 10.29–10.30b), was published in the FEDERAL REGISTER (37 FR 15872). Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed amendment. No comments were received.

The proposed amendments published August 5, 1972, relating to personnel of foreign governments and international organizations are being adopted as subpart I of Part 148, in order to treat matters relating to personal declarations and exemptions in one part of the Customs regulations. Changes in numbering and cross references, together with other conforming changes, have been made.

The following changes are made in the amendments as proposed:

1. Sections 148.2(d) and 148.8 are added to incorporate the ruling in T.D. 72-92 (37 FR 6769), permitting a person arriving in the United States who would otherwise be considered a returning resident to claim at his option the status of nonresident if he intends to remain in the United States for only a short period of time before returning abroad.

2. Reference to Part 23 is changed to show that the entire part is deleted, rather than §§ 23.4 and 23.5. Treasury Decision 72-211 (37 FR 16486) deleted all of Part 23, except for §§ 23.4 and 23.5.

Accordingly, new Part 148, and conforming changes in Parts 4, 6, 8, 9, 10, 11, 23, and 123 of the Customs Regulations, Chapter I, Title 19 of the Code of Federal Regulations, are hereby adopted as set forth below.

Effective date. This amendment shall become effective February 22, 1973.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: January 15, 1973.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADE

§ 4.2 [Amended]

In § 4.2, paragraph (c) is amended by substituting "Subpart B of Part 148" for "section 10.19."

§ 4.5 [Amended]

In § 4.5, the second sentence of paragraph (a) is amended by substituting "§ 148.72" for "§ 10.24."

§ 4.7a [Amended]

Section 4.7a is amended as follows:

In paragraph (b), subparagraph (3) is amended and a new subparagraph (4) is added as follows:

(3) For requirements concerning the preparation of Customs Forms 5123 and 5129, see Subpart G of Part 148 of this chapter.

(4) Any articles which are required to be manifested and are not manifested shall be subject to forfeiture and the master shall be subjected to a penalty equal to the value thereof, as provided in section 584, Tariff Act of 1930, as amended.

In paragraph (e), subparagraph (1) is amended to substitute "devolving" for "developing" in the text of the certification, and to add a new subparagraph (4) as follows:

(e) *Passenger List*—(1) The Passenger List shall be completed in accordance with § 4.50 and with the requirements of the Immigration and Naturalization Service, U.S. Department of Justice (8 CFR Part 231), and the following certification shall be placed on its last page:

I certify that Customs baggage declaration requirements have been made known to incoming passengers; that any required Customs baggage declarations have been or will simultaneously herewith be filed as required by law and regulation with the proper Customs officer; and that the responsibilities devolving upon this vessel in connection therewith, if any, have been or will be discharged as required by law or regulation before the proper Customs officer. I further certify that there are no steerage passengers on board this vessel (46 U.S.C. 151–163).

Master

(4) All baggage on board a vessel not accompanying a passenger and the marks or addresses thereof shall be listed on the last sheet of the passenger list under the caption "Unaccompanied baggage."

§ 4.30 [Amended]

In § 4.30, paragraph (a) is amended to include provision for vessels transiting the Panama Canal, as follows:

(a) Except as prescribed in paragraph (f), (g), or (k) of this section or in § 123.8 of this chapter and except in the case of a vessel exempt from entry or clearance under 19 U.S.C. 288 [66] no passengers,[66] cargo,[67] baggage,[67] or other article [68] shall be unladen from a vessel which arrives directly or indirectly from any port or place outside the Customs territory of the United States or from a vessel which transits the Panama Canal and no cargo, baggage, or other article shall be laden [68] on a vessel destined to a port or

place outside the Customs territory of the United States if Customs supervision of such lading is required,[68] until the district director shall have issued a permit or special license therefor on Customs Form 3171.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 6—AIR COMMERCE REGULATIONS

§ 6.7 [Amended]

Section 6.7 is amended by deleting paragraph (g).

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

§ 8.2 [Amended]

Section 8.2 is amended to correct the cross-references in the list of articles not liable to duty on subsequent importation as follows:

In (a) substitute "§ 148.31" for "§ 10.17 (a)" in the parenthetical matter.

In (b) substitute "§ 148.53" for "§ 10.15" in the parenthetical matter.

In (c) substitute "§ 148.32" for "§ 10.42" in the parenthetical matter.

§ 8.3 [Amended]

In § 8.3, paragraph (b) is amended by substituting "§ 148.51" for "§ 10.21(1)" in the parenthetical matter at the end thereof.

§ 8.15 [Amended]

In § 8.15, paragraph (c) (6) is amended to read:

(6) Aircraft, automobiles, and other vehicles, boats, horses, and the usual equipment of any of the foregoing, if taken abroad for noncommercial use and returned in accordance with the provisions of § 148.32 of this chapter.

Section 8.51a is amended to correct the cross-references and forms prescribed to read as follows:

§ 8.51a Entry of certain shipments of unconditionally or conditionally free merchandise.

A shipment not exceeding $250 in value which is (a) unconditionally free of duty and not subject to any quota or internal revenue tax, or (b) conditionally free and all conditions for free entry are met at the time of entry, may be released upon examination and identification by a Customs officer and the filing by the importer of Customs Form 7523, in duplicate, supported by evidence of the right to make entry: *Provided*, That this procedure shall not be followed in the case of American goods returned for the entry of which Customs Form 3311 has been prescribed by § 10.1, or effects and tools of trade released under Customs Form 3299 without other entry in accordance with § 148.6 of this chapter.

(Sec. 498, 46 Stat. 728, as amended; 19 U.S.C. 1498; R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 9—IMPORTATIONS BY MAIL

§ 9.4 [Amended]

Section 9.4 is amended by substituting "section 148.6" for "§ 10.20" in the first sentence.

§ 9.11 [Amended]

In § 9.11, paragraph (a) is amended by deleting the last sentence thereof and substituting the following:

See §§ 8.45 and 22.27 of this chapter; and as to articles released from continuous Government custody for which return to Customs custody is appropriate prior to exportation, see §§ 10.8, 10.38, 22.33, and 148.37 of this chapter.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

§§ 10.11–10.28; 10.42 [Deleted]

Part 10 is amended by deleting therefrom § 10.11 through § 10.30b together with the accompanying centerheads, § 10.42, and footnotes 9 through 33c appended thereto.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 11—PACKING AND STAMPING; MARKING

The heading of Part 11 is amended as set forth above, and § 11.3 is amended to read as follows:

§ 11.3 Package and notice requirements for cigars and cigarettes; package requirements for cigarette papers and tubes.

Exemptions from tax on cigars, cigarettes, and cigarette papers and tubes apply in accordance with the regulations of the Bureau of Alcohol, Tobacco, and Firearms (26 CFR Part 275) upon release from Customs custody of such articles imported by consular officers and employees of foreign states. Cigars, cigarettes, cigarette papers, and tubes may also be released without payment of tax as provided in § 11.2a and for exhibition in accordance with Part 147 of this chapter. Additionally, cigars, cigarettes, or cigarette papers and tubes may be admitted free of duty and tax under the provisions of schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), or section 321, Tariff Act of 1930, as amended (19 U.S.C. 1321), §§ 10.30c, 54.3, 148.63, 148.74, and subpart I of Part 148 of this chapter. Except in the foregoing instances and in any instance in which such articles are imported in passengers' baggage or are to be released under a mail entry for the personal consumption of the importer or for disposition as his bona fide gift, the provisions in Part 275 of the regulations of the Bureau of Alcohol, Tobacco, and Firearms (26 CFR Part 275) as to packages and notices thereon apply.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 23—[DELETED]

Chapter I of Title 19 of the Code of Federal Regulations, is amended by deleting Part 23, Enforcement of Customs and Navigation Laws.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 123—CUSTOMS RELATIONS WITH CANADA AND MEXICO

§ 123.52 [Amended]

In § 123.52, paragraph (a) is amended by substituting "§148.41" for "§ 10.18(d)" in the last sentence.

§ 123.62 [Amended]

Section 123.62 is amended by substituting "§ 123.3" for "§ 5.3" in the parenthetical matter at the end of the section.

(R.S. 251, as amended, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

PART 148—PERSONAL DECLARATIONS AND EXEMPTIONS

Chapter I of Title 19, Code of Federal Regulations, is amended by adding a new Part 148 to read as follows:

Sec.
148.0 Scope.

Subpart A—General Provisions

148.1 Registration of valuable effects to be taken abroad.
148.2 Residence status of arriving persons.
148.3 Customs treatment after transiting the Panama Canal.
148.4 Accompanying articles.
148.5 Regular entry for articles in baggage.
148.6 Entry of unaccompanied shipments of effects subject to personal exemptions.
148.7 Unclaimed baggage.
148.8 Temporary importation by residents arriving for short visits.

Subpart B—Declarations

148.11 Declaration required.
148.12 Oral declarations.
148.13 Written declarations.
148.14 Family declarations.
148.15 Inclusion of articles not for personal or household use.
148.16 Amendment of declaration.
148.17 Declaration on arrival incidental to further foreign travel.
148.18 Failure to declare.
148.19 False or fraudulent statement.

Subpart C—Examination of Baggage and Collection of Duties and Taxes

148.21 Opening of baggage, compartments, or vehicles.
148.22 Examination of air travelers' baggage in foreign territory.
148.23 Examination and clearance of baggage.
148.24 Determination of dutiable value.
148.25 Reexamination and protest.
148.26 Collection of internal revenue taxes.
148.27 Receipt for payment.

Subpart D—Exemptions for Returning Residents

148.31 Effects taken abroad.
148.32 Vehicles, aircraft, boats, teams and saddle horses taken abroad.
148.33 Articles acquired abroad.
148.34 Family grouping of exemptions for articles acquired abroad.

V38-17 JAN 26 73 XUM

Sec.
148.35 Length of stay for exemption of articles acquired abroad.
148.36 Frequency of allowance of exemption for articles acquired abroad.
148.37 Replacement of unsatisfactory articles acquired abroad.
148.38 Sale of articles acquired abroad.
148.39 Rented automobiles.

Subpart E—Exemptions for Nonresidents

Sec.
148.41 Articles carried through the United States.
148.42 Personal effects.
148.43 Tobacco products and alcoholic beverages.
148.44 Gifts.
148.45 Vehicles and other conveyances.
148.46 Sale of exempted articles.

Subpart F—Other Exemptions

148.51 Special exemption for personal or household articles.
148.52 Exemption for household effects used abroad.
148.53 Exemption for tools of trade.
148.54 Exemption for effects of citizens dying abroad.

Subpart G—Crewmember Declarations and Exemptions

148.61 Status as crewmembers.
148.62 Declaration and entry of articles by crewmembers.
148.63 Articles for use while on temporary leave.
148.64 Administrative exemption.
148.65 Exemptions for resident crewmembers.
148.66 Exemptions for nonresident crewmembers.
148.67 Penalties for failure to declare articles.

Subpart H—Military and Civilian Employees of the United States, and Evacuees

148.71 Status of persons in service of United States as returning residents.
148.72 Articles acquired abroad by personnel on Government vessels.
148.73 Baggage on military transports.
148.74 Exemption on termination of assignment to extended duty or on evacuation.
148.75 Persons ineligible for exemption on termination of assignment.
148.76 Waiver of requirements or limitations.
148.77 Entry of effects on termination of assignment to extended duty, or on evacuation.

Subpart I—Personnel of Foreign Governments and International Organizations

148.81 General Provisions.
148.82 Diplomatic, consular, and other privileged personnel.
148.83 Diplomatic and consular bags.
148.84 Baggage and effects of high Government officials.
148.85 Subsequent importations for the personal or family use of diplomatic, consular, and other privileged personnel.
148.86 Articles for official use of representatives of foreign governments.
148.87 Officers and employees of, and representatives to public international organizations.
148.88 Certain representatives to and officers of the United Nations and the Organization of American States.
148.89 Property of public international organizations.

AUTHORITY: R.S. 251, as amended, secs. 498, 624, 46 Stat. 728, as amended, 759; 19 U.S.C. 66, 1498, 1624. The provisions of this part, except for Subpart C, are also issued under General Headnote 11, Tariff Schedules of the United States; 19 U.S.C. 1202. Additional authority and statutes interpreted or applied are cited in the text or following the section affected.

§ 148.0 Scope.

This part contains the regulations governing the allowance of exemptions for residents and nonresidents arriving in the United States, for crewmembers of carriers engaged in international traffic, for military and civilian employees of the United States, for certain evacuees, and for certain personnel of foreign governments and international organizations. Procedures and requirements are also set forth pertaining to registration of articles to be taken abroad, declaration and entry, and examination of baggage, and collection of duties and taxes.

Subpart A—General Provisions

§ 148.1 Registration of valuable effects to be taken abroad.

(a) *Persons who may use procedure.* Any person, except a nonresident seaman, airman, or person engaged in similar employment, who intends to take valuable effects of foreign origin abroad may register such articles before departure from the United States in order to facilitate their identification on return to the United States.

(b) *Procedure for registration.* Applicants for registration of valuable articles of foreign origin shall present the articles to a Customs officer together with a properly executed Customs Form 4457. After the Customs officer has examined the articles and verified their description, he shall sign the form and return it to the applicant for presentation on return of the articles. Customs Form 4455 may be required in any case in which Customs Form 4457 will not adequately serve the purpose of registration.

(c) *Presentation on return.* The form shall be presented to the Customs officer when the registered articles are returned to the United States.

§ 148.2 Residence status of arriving persons.

(a) *General.* Persons arriving from foreign countries shall be divided into two classes for Customs purposes:

(1) Residents of the United States returning from abroad, and

(2) All other persons, hereinafter referred to as nonresidents.

(b) *Status as returning resident.* Citizens of the United States, or persons who have formerly resided in the United States, shall be deemed residents thereof returning from abroad within the meaning of "residents" as used in schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), in the absence of satisfactory evidence that they have established a home elsewhere. For this purpose, the residence of a wife shall be deemed to be that of her husband unless satisfactory evidence is presented that the wife has established a separate residence elsewhere. The residence of a minor child shall be presumed to be that of his parents.

(c) *Status as nonresident.* Any person arriving in the United States who is not a resident of the United States or who, though a resident of the United States, is not returning from abroad, shall be treated for the purpose of these regulations as a nonresident.

(d) *Optional claim of nonresident status.* Any person arriving in the United States who would otherwise be considered a returning resident, may claim at his option the status of a nonresident if he intends to remain in the United States for only a short period of time before returning abroad. If the status as a nonresident claimed by an arriving person is allowed, the procedures in § 148.8 shall be followed.

§ 148.3 Customs treatment after transiting the Panama Canal.

Passengers' baggage and effects and purchases of officers and crewmembers landed in the United States from vessels which have transited the Panama Canal are subject to Customs examination and treatment in the same manner as arrivals from a foreign country.

§ 148.4 Accompanying articles.

(a) *Generally.* Articles shall be considered as accompanying a passenger or brought in by him if the articles arrive on the same vessel, vehicle, or aircraft on the same date as that of his arrival in the United States.

(b) *Baggage shipped as freight.* Articles in baggage shipped as freight on a bill of lading or airway bill shall be considered as accompanying a passenger when the baggage arrives on the conveyance on which he arrives in the United States.

(c) *Precleared articles.* Articles in baggage, or in baggage shipped as freight, shall be considered as accompanying a passenger if examined at an established preclearance station and the baggage is hand-carried, checked or manifested on the conveyance on which he arrives in the United States.

(d) *Automobiles.* An automobile which arrives on the same mode of conveyance on the same date as a passenger arrives in the United States shall be considered as accompanying him.

(e) *Misdirected baggage.* Baggage which arrives on the same mode of conveyance ahead of, or after a passenger, shall be treated as accompanying him if it is fully evident to the examining officer from the circumstances that:

(1) The passenger intended the baggage to arrive with him; and

(2) It was misdirected through no fault of the passenger.

§ 148.5 Regular entry of articles in baggage.

Subject to any applicable exemption from entry requirements, articles imported as baggage but not passed under a baggage declaration or under the procedure provided in § 148.6 for unaccompanied shipments of effects subject to personal exemptions shall be entered in the same manner as a cargo importation of like goods. In making regular entry for articles imported in baggage, the value of articles entitled to free entry under item 810.20 or 813.10, Tariff Schedules of the United States (19 U.S.C. 1202), shall be disregarded in determining whether formal or informal entry is required.

§ 148.6 Entry of unaccompanied shipments of effects subject to personal exemptions.

(a) *Declaration to support free entry.* When effects claimed to be free of duty under items 810.20, 812.10, 812.20, 812.30, or 313.10, Tariff Schedules of the United States (19 U.S.C. 1202), do not accompany the importer on his arrival in the United States or are forwarded in bond, a declaration of the importer on Customs Form 3299 shall be required to support the claim for free entry. However, an oral declaration may be accepted in lieu of a written declaration on Customs Form 3299, for effects of a resident which are free of duty under item 810.20 for tools of trade taken abroad or under item 813.10 for personal and household effects taken abroad. Effects of returning residents entitled to free entry under item 810.20 or item 813.10 (except automobiles and other vehicles of residents returning from countries other than Canada or Mexico) need not be itemized if a written declaration is required.

(b) *Exemption from entry.* If the district director is satisfied that an entry would serve no good purpose, none need be required, but evidence of ownership for Customs purposes, such as a carrier's certificate or properly endorsed bill of lading, shall be required with the declaration. Such exemption from entry may also be applied with respect to household effects or tools of trade entitled to free entry (see §§ 148.52 and 148.53 respectively) which are unaccompanied or forwarded in bond.

§ 148.7 Unclaimed baggage.

Articles in passengers' baggage on which duties due are not paid and baggage not claimed within a reasonable time shall be treated as unclaimed and sent to general order.

§ 148.8 Temporary importation by residents arriving for short visits.

A person claiming the status of a nonresident upon arrival for a short visit in the United States before returning abroad may import articles free of duty under items 812.10, 812.20, 812.25, and 812.30, Tariff Schedules of the United States (19 U.S.C. 1202), in accordance with the following procedure:

(a) The person claiming the status shall agree to export all such articles upon his departure from the United States, except articles imported as gifts under item 812.25, and articles consumed during his visit;

(b) When required to do so, the person claiming the status shall list all articles of substantial value which he is importing on Customs Form 4455, in duplicate, noting thereon the expected duration of his visit. He shall present the completed form to the inspecting officer who will initial both copies and return the duplicate to him;

(c) Upon his departure from the United States at the completion of his visit, the person claiming the status of a nonresident shall present to a Customs officer the duplicate copy of Customs Form 4455, initialed by the inspecting officer, and the articles listed thereon shall be subject to inspection; and

(d) If he decides not to return abroad, the person claiming the status shall immediately notify the district director at the port of entry. The district director will advise him of the amount of duties and taxes due by reason of his failure to return abroad.

Subpart B—Declarations

§ 148.11 Declaration required.

All articles brought into the United States by any individual shall be declared to a Customs officer at the port of first arrival in the United States, on a conveyance en route to the United States on which a Customs officer is assigned for that purpose, or at a preclearance office in a foreign country where a United States Customs officer is stationed for that purpose.

§ 148.12 Oral declarations.

(a) *Generally.* Returning residents and nonresidents arriving in the United States may make an oral declaration under the conditions set forth in paragraph (b) of this section. However, written declarations may be required generally or in respect to particular types of traffic at any port if necessary to effect prompt and orderly clearance of passengers and their effects, and may be required in particular cases at any port if deemed necessary to protect the revenue. If an oral declaration is permitted, completion of the identifying information on Customs Form 6059–B may be required.

(b) *When permitted.* Oral declarations may be permitted under the following conditions:

(1) *Residents.* A returning resident may make an oral declaration if:

(i) The aggregate fair retail value in the country of acquisition of all accompanying articles acquired abroad by him and of the cost or value of alterations and dutiable repairs made abroad to personal and household effects taken out and brought back by him does not exceed $100, or $200 in the case of direct or indirect arrivals from American Samoa, Guam, and the Virgin Islands of the United States, if not more than $100 shall have been acquired elsewhere than in such insular possessions;

(ii) None of his accompanying articles are forwarded in bond; and

(iii) None of his accompanying articles are imported for the account of any other person or for sale.

(2) *Nonresidents.* An arriving nonresident may make an oral declaration if all the articles he has to declare are:

(i) Entitled to free entry under his personal exemptions (see Subpart E of this part); or

(ii) Eligible for the administrative exemption for articles not exceeding $10 in aggregate value, provided in section 321(a)(2)(B), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(B)) (see § 148.51).

(c) *Memorandum baggage declaration for dutiable articles.* When an arriving person is carrying a few dutiable or taxable articles which can be readily identified and segregated from articles entitled to free entry under his personal exemptions, the Customs officer may prepare a memorandum baggage declaration using a cash receipt, Customs Form 5104, for dutiable or taxable articles if he determines that a written declaration by the arriving person is not essential.

§ 148.13 Written declarations.

(a) *When required.* Unless an oral declaration is accepted under § 148.12, the declaration required of a person arriving in the United States shall be in writing on Customs Form 6059–B.

(b) *Completion and presentation of written declarations.* The person arriving in the United States shall complete the information required by Customs Form 6059–B and shall list all articles acquired abroad which are in his possession at the time of arrival. Individual items not exceeding $5 per item in fair retail value in the country of acquisition may be grouped on the written declaration as "Miscellaneous" up to but not exceeding a total value of $50. Articles not requiring itemization as set forth in paragraph (c) of this section shall be declared orally to the Customs officer. The form shall be presented to the Customs officer who will inspect the passenger's baggage.

(c) *Itemization of certain articles not required.* Except as required by § 148.62 or § 148.66 for crewmembers' articles, the following need not be itemized in written declarations:

(1) Effects of a returning resident entitled to free entry under item 810.20, Tariff Shcedules of the United States (19 U.S.C. 1202), for tools of trade taken abroad, or under item 813.10, for personal or household effects taken abroad. However, automobiles and other vehicles of residents returning from countries other than Canada or Mexico and the cost of all repairs or alterations to articles taken abroad must be itemized.

(2) Effects of a nonresident entitled to free entry under item 812.10, Tariff Schedules of the United States (19 U.S.C. 1202), for wearing apparel and other similar personal effects; item 812.20, for tobacco products and alcoholic beverages; item 812.25, for articles to be disposed of as bona fide gifts; or item 812.40, for articles accompanying a person in transit to a place outside U.S. Customs territory.

(3) Books, libraries, furniture, and similar household effects entitled to free

V 38 - 17 JAN 26 73 XUM

entry under item 810.10, Tariff Schedules of the United States (19 U.S.C. 1202).

(d) *Value.* Opposite the description of each article required to be declared specifically in a written declaration the passenger shall state either:

(1) The price at retail actually paid for the article in the currency of purchase, or its equivalent in U.S. currency; or

(2) The fair retail value in the country of acquisition if the article was not acquired at retail or by purchase, in the currency of the country in which the article was acquired or in U.S. currency.

(e) *Acknowledgment before Customs officer.* Each written declaration shall be acknowledged by the declarant before the Customs officer who examines the baggage covered by the declaration.

§ 148.14 Family declarations.

A family group residing in one household, traveling together, and having the same residence status may be permitted to declare orally articles acquired abroad for the personal or household use of any member of the family if the value of such articles does not exceed the total amount of the exemption to which the family group is entitled. (See § 148.34.) Where a written declaration is required, one member of a family group may declare for all. Servants accompanying a family group shall not be included in the family declaration.

§ 148.15 Inclusion of articles not for personal or household use.

Articles not personal in character, or which are intended for sale or are brought in on commission for another person, may be included in the baggage declaration of a resident or nonresident under the conditions specified in § 148.23 (c). If not so included, regular entry shall be required.

§ 148.16 Amendment of declaration.

(a) *Before examination.* A passenger shall be permitted to add an article to his declaration if, before examination of his baggage has begun, the fact that the article has not been declared is brought to the attention of the examining officer by the passenger.

(b) *After examination is begun.* A passenger shall be permitted to add an article to his declaration after examination of his baggage has begun if, before any undeclared article is found, the passenger advises the examining officer that he has such an article and the officer is satisfied that there was no fraudulent intent. Under no circumstances shall a passenger be permitted to add any undeclared article to his declaration after such article has been discovered by the examining officer.

§ 148.17 Declaration on arrival incidental to further foreign travel.

(a) *Declaration on incidental arrival.* A resident who enters the United States merely as an incident of foreign travel and who will continue his foreign travel before finally returning to the United States from a continuous trip shall declare, but need not clear through Customs, any articles he has acquired or had repaired or altered while abroad. The incidental character of the arrival shall be made known to the Customs officer.

(b) *Treatment of articles on incidental arrival.* In order that a resident may claim the $100 or $200 exemption upon his final arrival in the United States from a continuous trip, articles accompanying him at the time of an incidental arrival may be exported directly from Customs custody or after transportation in bond, or the articles may be left in Customs custody if the resident upon his final return is to arrive at the Customs facility where the articles are deposited.

(c) *Failure to advise of incidental character of arrival.* If the traveler fails to advise the Customs officer of the incidental character of his arrival, or for other reason declares any articles for allowance of the $100 or $200 exemption, such declaration shall mark the beginning of the respective period or periods during which a further exemption cannot be granted.

§ 148.18 Failure to declare.

(a) *Penalty incurred.* Except as provided in paragraphs (b) and (c) of this section for the remission of the personal penalty and mitigation of the forfeiture in special circumstances, any article in the baggage of a passenger arriving from a foreign country which is not declared as required by this subpart shall be seized if it is available for seizure at the time the violation is detected, and the personal penalty prescribed by section 497, Tariff Act of 1930 (19 U.S.C. 1497) shall be demanded from the passenger. If the article is not seized, a claim for the personal penalty shall be made against the person who imported the article without declaration. No duty shall be collected, since undeclared articles are treated as smuggled.

(b) *Remission of penalty.* When an article not declared as required by this subpart is found in the baggage of a person arriving in the United States, the personal penalty incurred is hereby remitted pursuant to the authority of section 618, Tariff Act of 1930, as amended (19 U.S.C. 1618), provided it is satisfactorily established that:

(1) The article would have been free of duty and internal revenue tax if it had been properly declared;

(2) Its importation is not prohibited or restricted; and

(3) The failure to declare was not due to willful negligence or fraudulent intent.

(c) *Mitigation or remission of forfeiture incurred.* In any case in which the personal penalty for failure to declare is remitted in accordance with paragraph (b) of this section, the forfeiture incurred will be mitigated or remitted as follows:

(1) When the article would have been free of duty only because of the provisions of items 810.20, 812.10, 812.25, 812.30, 812.40, 813.10, 813.30, or 813.31, Tariff Schedules of the United States (19 U.S.C. 1202), or section 321(a)(2)(B), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(B)), the forfeiture incurred is hereby mitigated pursuant to the authority of section 618, Tariff Act of 1930, as amended (19 U.S.C. 1618), to a sum equal to the duty and any internal revenue tax which would have accrued upon the article had it been imported for commercial purposes; or

(2) When the article would otherwise have been free of duty and internal revenue tax, the forfeiture incurred is hereby remitted pursuant to the same authority.

§ 148.19 False or fraudulent statement.

A passenger who makes any false or fraudulent statement or engages in other conduct within the purview of section 592, Tariff Act of 1930, as amended (19 U.S.C. 1592), whereby a Customs officer is or may be induced to pass an article free of duty or at less than the proper amount of duty, shall be deemed to have violated the said section 592. In any such case the article involved shall be seized, if it is available for seizure at the time the violation is detected and such seizure is otherwise practicable, unless the article is in the possession of an innocent holder for value who has full right to possession as against any party to the Customs violation. If the article is not available for seizure or is in the hands of such an innocent holder, or if seizure is impracticable, the domestic value of the article, determined in accordance with section 606, Tariff Act of 1930, as amended (19 U.S.C. 1606), shall be demanded from the passenger. Whether the article is seized or the domestic value thereof is demanded in lieu of seizure, the duty estimated to be due thereon shall be demanded of the passenger as soon as possible after the discovery of the violation. Any applicable internal revenue tax shall also be demanded unless the merchandise is to be, or has been, forfeited.

Subpart C—Examination of Baggage and Collection of Duties and Taxes

§ 148.21 Opening of baggage, compartments, or vehicles.

(a) *Customs officers not to open.* Customs officers shall not open baggage or other containers, nor unlock vehicles or compartments thereof for the purpose of examination, but shall detain them until the owner, his agent, or the person in charge of any baggage, container or vehicle opens or refuses to open them.

(b) *Refusal to open—(1) General.* If an owner, his agent, or the person in charge of any baggage, other container, or vehicle with a locked compartment refuses to open it, the baggage, container, or vehicle shall be treated as unclaimed.

(2) *On arrival from Canada or Mexico.* If the owner, his agent, or the person in charge of any baggage, container, or vehicle arriving from Canada or Mexico refuses to open it, it shall be opened in accordance with section 462, Tariff Act of 1930 (19 U.S.C. 1462), unless a request is received from him to make other proper disposition. If any article subject to duty, or any prohibited article is found upon opening by a Customs officer, the whole contents and the container or vehicle shall be subject to forfeiture.

(Secs. 461, 462, 46 Stat. 717, 718; 19 U.S.C. 1461, 1462)

§ 148.22 Examination of air travelers' baggage in foreign territory.

(a) *Examination and surrender of declaration.* The baggage of persons traveling by air may be examined and passed in accordance with § 148.23 at places in foreign territory where U.S. Customs offices have been established for that purpose (see § 1.4 of this chapter). When baggage is examined in foreign territory, the baggage declaration shall be surrendered to the Customs officer at the airport of departure for the United States prior to boarding the flight.

(b) *Subsequently acquired articles.* When a person whose baggage has been examined and passed in foreign territory in accordance with paragraph (a) of this section subsequently acquires additional articles prior to return to the United States, the Customs officer to whom the declaration was surrendered may permit the amendment of that declaration to include the additional articles.

§ 148.23 Examination and clearance of baggage.

(a) *Articles free of duty.* The inspector, including inspectors on trains or ferries, who examines the baggage of any person arriving in the United States may examine and pass, without limitation as to value, the following articles in such baggage or otherwise accompanying such person:

(1) All articles which are for the personal or household use of the arriving person and are free of duty under schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), including automobiles and other articles under § 148.32.

(2) Works of art classifiable under item 765.03, Tariff Schedules of the United States (19 U.S.C. 1202).

(3) Works of art classifiable under item 765.10, 765.15, 765.20, or 765.25, Tariff Schedules of the United States (19 U.S.C. 1202), upon compliance with § 10.48 of this chapter.

(4) Works of art produced by American artists temporarily residing abroad provided for in item 765.30, Tariff Schedules of the United States (19 U.S.C. 1202), upon compliance with § 10.50 of this chapter.

(b) *Articles subject to duty.* The inspector who examines the baggage of any person arriving in the United States may examine, determine the dutiable value of, collect duty on, and pass articles accompanying the arriving person which are for his personal or household use but are subject to duty, including articles imported to be disposed of by him as bona fide gifts.

(c) *Articles not for personal use—(1) Valued at not more than $250.* The inspector may also examine, determine the dutiable value of, collect duty on, and pass articles accompanying any person arriving in the United States properly listed on the baggage declaration which are not for the personal or household use of the declarant or which are intended for sale or are brought in on commission for another, provided the aggregate value of such articles is not more than $250.

(2) *Valued over $250 but not over $500.* Articles in the baggage of or otherwise accompanying any person arriving in the United States which have an aggregate value over $250 but not over $500 and are not intended for his personal or household use, or are intended for sale or are brought in on commission for another, may be examined and entered and cleared on a baggage declaration at the place of their arrival with a passenger if:

(i) The articles are accompanied by a proper invoice if one is required (see section 8.15 of this chapter); and

(ii) It is practicable to appraise the articles at the place of arrival.

(d) *Examination of tea for personal use imported in baggage.* Tea for personal use in one or more packages weighing not more than 5 pounds each, when imported in a passenger's baggage, may be delivered without examination for purity under 21 U.S.C. 41–50 and without payment of the examination fee prescribed in 21 U.S.C. 46a.

§ 148.24 Determination of dutiable value.

(a) *Principles applied.* In determining the dutiable value of articles examined under § 148.23, the Customs inspector shall apply the principles of section 402 or section 402a, Tariff Act of 1930, as amended (19 U.S.C. 1401a, 1402), and shall not regard the declared value or price as conclusive.

(b) *Adjustment of value declared.* An adjustment shall be made by the Customs inspector whenever the purchase price or value declared differs from the fair retail value, whether by reason of depreciation due to wear or use, circumstances of purchase or acquisition, or for any other reason. He shall give due consideration to the condition of the articles at the time of importation, but he shall not make any allowance for wear and use in excess of 25 per centum of the declared price or value of a worn or used article. A passenger who desires to claim a larger allowance may arrange for formal entry and appraisement of his goods.

§ 148.25 Reexamination and protest.

(a) *Reexamination.* Whenever the Customs officer deems it advisable any or all of a passenger's baggage may be sent to the public stores for examination or reexamination. Passengers dissatisfied with the assessment of duty on their baggage may demand a reexamination, provided the articles have not been removed from Customs custody. In either case, a receipt for the baggage to be examined or reexamined shall be given on Customs Form 6051.

(b) *Protest.* If the passenger remains dissatisfied with the assessment of duty after reexamination, he shall pay the duty assessed and may protest the decision of the district director in accordance with Part 174 of this chapter.

§ 148.26 Collection of internal revenue taxes.

(a) *Cigars and cigarettes.* The internal revenue tax on taxable cigars and cigarettes in a passenger's baggage shall be paid to Customs, using the Customs entry form as a return. Any such return shall show the kind, the quantity, and the tax by class on cigars and cigarettes separately from the statement of duty. Unless for the personal consumption of the importer or disposition as his bona fide gift, cigars and cigarettes are subject to the packaging and marking requirements in the regulations of the Bureau of Alcohol, Tobacco, and Firearms.

(b) *Alcoholic beverages.* The internal revenue tax shall be collected on all wines and liquors in excess of the quantity entitled to exemption as specified in this part. Alcoholic beverages found in passenger's baggage shall be released without the placing of strip stamps on the bottles when it appears from the baggage declaration or otherwise that the liquors are for personal use and not for sale or other commercial purposes.

§ 148.27 Receipt for payment.

When duties and internal revenue taxes on articles in a passenger's baggage are collected, a receipt on Customs Form 5104 shall be issued to the passenger if such duties and taxes are paid in cash. If such duties and taxes are paid by personal check, the check shall be the passenger's receipt unless a receipt is requested.

Subpart D—Exemptions for Returning Residents

§ 148.31 Effects taken abroad.

(a) *Exemption.* Each returning resident is entitled to bring in free of duty and internal revenue tax under item 813.10 and schedule 8, part 2, headnote 1, Tariff Schedules of the United States, (19 U.S.C. 1202), all personal and household effects taken abroad. To ensure allowance of the exemption, articles of foreign origin should be registered in accordance with § 148.1. Automobiles and other vehicles, aircraft, boats, teams and saddle horses, together with their accessories, may be brought in free of duty if taken abroad for noncommercial use (see § 148.32).

(b) *Repair or alteration while abroad.* If any such personal or household effect taken abroad has been advanced in value or improved in condition while abroad by repairs (including cleaning) not merely incidental to wear or use while abroad, or by alterations (including additions) which did not change the identity of the article, the cost or value of such repairs or alterations is subject to duty unless all or part of such cost or value is covered by an allowance of the $100 or $200 exemption for articles acquired abroad (see § 148.33). An effect taken abroad and there changed into a different article is dutiable at its full value when returned to the United States, unless covered in whole or in part by some provision for free entry.

V 38 - 17 JAN 26 73 XUM

§ 148.32 Vehicles, aircraft, boats, teams and saddle horses taken abroad.

(a) *Admission free of duty.* Automobiles and other vehicles, aircraft, boats, teams and saddle horses, together with their accessories, taken abroad for noncommercial use and returned by a returning resident shall be admitted free of duty upon being satisfactorily identified.

(b) *Identification of articles taken abroad.* Upon the request of the owner or his agent, the district director shall cause any article described in paragraph (a) of this section to be examined before it is taken abroad, and shall issue a certificate of registration therefor on Customs Form 4455. On the return of the article, the certificate may be accepted as satisfactory identification of the described article for the purpose of admitting the article free of duty. In lieu of Customs Form 4455, the following may be accepted as satisfactory identification of such articles taken abroad:

(1) For an automobile, the State registration card;

(2) For an aircraft, the certificate of registration issued by the Federal Aviation Administration; and

(3) For a pleasure boat, the yacht license or motorboat identification certificate.

(c) *Repairs, alterations, and accessories.* Repairs made abroad to articles described in paragraph (a) of this section, if incidental to use abroad, are not subject to duty. Repairs not incidental to use abroad, and alterations and additions made abroad, shall be assessed with duty upon their value at the rate at which the article itself would be dutiable if imported. Accessories for articles described in paragraph (a) of this section which are acquired abroad are dutiable as if separately imported. Any accessories, repairs, alterations, or additions, which accompany the returning resident at the time of his return to the United States shall be included in his baggage declaration.

(d) *Entry.* Entry on a baggage declaration or regular entry (see § 148.5) shall be required if:

(1) The owner or his agent is unable to produce a proper registration card or certificate to cover the article;

(2) A claim for free entry of repairs, alterations, additions, or accessories is to be made under the $100 or $200 returning resident's exemption for articles acquired abroad; or

(3) Duty is to be collected.

(77A Stat. 411; 19 U.S.C. 1202, item 813.10, Tariff Schedules of the United States)

§ 148.33 Articles acquired abroad.

(a) *Exemption.* Each returning resident is entitled to bring in free of duty and internal revenue tax under items 813.30 and 813.31 and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), articles for his personal or household use which were purchased or otherwise acquired abroad merely as an incident of the foreign journey from which he is returning and which accompany him on his arrival, subject to the limitations and conditions set forth in this section and §§ 148.34–148.38. The aggregate fair retail value in the country of acquisition of such articles for personal and household use shall not exceed $100, or $200 in the case of a resident arriving directly or indirectly from American Samoa, Guam, or the Virgin Islands of the United States, of which not more than $100 shall have been acquired elsewhere than in such insular possession.

(b) *Application to articles of highest rate of duty.* The $100 or $200 exemption shall be applied to the aggregate fair retail value in the country of acquisition of the articles acquired abroad which are subject to the highest rates of duty. If an internal revenue tax is applicable, it shall be combined with the duty in determining which rates are highest.

(c) *Gifts.* An article acquired abroad by a returning resident and imported by him to be disposed of after importation as his bona fide gift is considered to be for the personal use of the returning resident and may be included in the exemption.

(d) *Tobacco products and alcoholic beverages.* Cigars, cigarettes, manufactured tobacco, and alcoholic beverages, may be included in the exemption to which a returning resident is entitled, with the following limits:

(1) No more than 100 cigars may be included;

(2) No alcoholic beverages shall be included in the case of an individual who has not attained the age of 21; and

(3) No more than 1 quart of alcoholic beverages may be included unless the individual is arriving directly or indirectly from American Samoa, Guam, or the Virgin Islands of the United States. An individual returning directly or indirectly from these insular possessions shall be entitled to include in the exemption no more than 1 wine gallon of alcoholic beverages, not more than 1 quart of which shall have been acquired elsewhere than in such insular possessions.

(e) *Exemption not applicable.* The exemption does not apply to articles intended for sale or acquired on commission, i.e., for the account of another person, with or without compensation for the service rendered. Articles acquired on one journey and left in a foreign country cannot be allowed the exemption accruing upon the return of the resident from a subsequent journey.

(f) *Remainder not applicable to subsequent journey.* A returning resident who has received a total exemption of less than $100 under the $100 exemption, or less than $200 under the $200 exemption in connection with his return from one journey is not entitled to apply the remainder of either amount to articles acquired abroad on a subsequent journey.

§ 148.34 Family grouping of exemptions for articles acquired abroad.

(a) *Grouping of exemptions.* Each member of a family is entitled to the $100 or $200 exemption for articles acquired abroad, subject to the conditions prescribed in this subpart. When members of a family residing in one household travel together on their return to the United States, the $100 or $200 exemption to which the several members of the family may be entitled may be grouped and allowed without regard to which member of the family is the owner of the articles. However, a group exemption shall not include an exemption for a family member not entitled to it in his own right, nor shall a group exemption be applied to any property of such a member. The exemption of a family member who has not attained the age of 21 shall not be applied under the group exemption to alcoholic beverages. No exemptions allowable to a resident servant accompanying the family shall be included in the family grouping.

(b) *Members of a family residing in one household.* The term "members of a family in one household" shall include all persons, regardless of age, who:

(1) Are related by blood, marriage, or adoption;

(2) Lived together in one household at their last permanent residence; and

(3) Intend to live together in one household after their arrival in the United States.

§ 148.35 Length of stay for exemption of articles acquired abroad.

(a) *Required for allowance of $100 exemption.* The $100 exemption for articles acquired abroad shall not be allowed unless the returning resident has remained beyond the territorial limits of the United States for a period of not less than 48 hours, except in the case of a resident arriving directly in the United States from Mexico. The exemption may be allowed on articles acquired abroad by a returning resident arriving directly from Mexico without regard to the length of time the person has remained outside the territorial limits of the United States.

(b) *Required for allowance of $200 exemption on return from Virgin Islands.* The $200 exemption applicable in the case of the arrival of a returning resident directly or indirectly from the Virgin Islands of the United States may be allowed without regard to the length of time such person has remained outside the territorial limits of the United States.

(c) *Computation of time.* The 48-hour period a returning resident must have completed abroad to be entitled to an exemption shall be computed exactly. For example, a resident leaving United States territory at 1:30 p.m. on June 1 would complete the 48-hour period at 1:30 p.m. on June 3.

§ 148.36 Frequency of allowance of exemption for articles acquired abroad.

(a) *30-day period.* The $100 or $200 exemption for articles acquired abroad shall not be granted to a returning resident who has taken advantage of such exemption within the 30-day period immediately preceding his return to the United States. The date of the returning resident's latest prior arrival on which he declared articles acquired abroad for

allowance of the $100 or $200 exemption shall be deemed the date he took advantage of the applicable exemption.

(b) *Computation of time.* The 30-day period immediately preceding the resident's return shall be computed by excluding the day of arrival and counting backward 30 days. For example, in the case of an arrival on May 28, the resident would not be entitled to the $100 or $200 exemption if he had taken advantage of such exemption on or after the preceding April 28.

§ 148.37 Replacement of unsatisfactory articles acquired abroad.

(a) *Free entry of replacement articles.* An article furnished by a foreign supplier to replace a like article of comparable value previously exempted from duty under the $100 or $200 exemptions for articles acquired abroad shall be allowed free entry if the original article is found by the importer to be unsatisfactory and the procedures provided by paragraph (b) of this section are followed. In any case in which the importer has failed to follow these procedures, the district director may allow free entry of the replacement article if he is satisfied that the unsatisfactory article was timely exported and that the failure to comply with the procedures of paragraph (b) of this section was due to inadvertence or lack of experience in Customs matters and was without willful intent to avoid Customs supervision.

(b) *Procedure for replacement.* Any article previously exempted from duty under the $100 or $200 exemptions found by the importer to be unsatisfactory shall be returned to Customs custody and exported under Customs supervision at the expense of the importer within 60 days after its importation. A certificate of registration on Customs Form 4455 shall be issued to the importer with instructions as to its use when the unsatisfactory article is exported for replacement under the provisions of item 813.40, Tariff Schedules of the United States.

(c) *Articles found damaged upon declaration.* The requirement that the original article be exported under Customs supervision does not apply when a duplicate article is furnished by a foreign supplier as a replacement for an article declared for entry under the $100 or $200 exemption and found by the Customs inspector or other examining officer to be so damaged as to constitute a nonimportation (§ 158.11 of this chapter). In such a case, Customs Form 4455 shall be issued to the importer at the time the determination of nonimportation is made and the duplicate replacement shall be considered to have been acquired abroad for the purposes of the $100 or $200 exemption provision, provided no charge is made to the importer for the duplicate replacement.

§ 148.38 Sale of articles acquired abroad.

An article brought in under the $100 or $200 exemption for articles acquired abroad for personal or household use and subsequently sold is not dutiable or subject to forfeiture by reason of the sale if the returning resident actually acquired and imported the article for his bona fide personal or household use and not for sale

§ 148.39 Rented automobiles.

(a) *Importation for temporary period.* An automobile rented by a resident of the United States while abroad may be brought into the United States by or on behalf of such resident for a temporary period not to exceed 30 days under item 813.25, Tariff Schedules of the United States (19 U.S.C. 1202), without payment of duty. The automobile shall be used for the transportation of the resident and that of his family and guests, and for such incidental carriage of articles as may be appropriate to his personal use of the automobile. No entry or security for exportation shall be required.

(b) *Unauthorized use or failure to export.* If any automobile exempted from duty under item 813.25, Tariff Schedules of the United States (19 U.S.C. 1202), is used otherwise than for the purpose expressed or is not returned abroad within 30 days, without prior payment to a district director of the duty which would have been payable at the time of entry if entered without benefit of the exemption, the automobile or its value (to be recovered from the importer) shall be subject to forefeiture.

Subpart E—Exemptions for Nonresidents

§ 148.41 Articles carried through the United States.

An arriving nonresident who is in transit to a place outside U.S. Customs territory may take with him through U.S. Customs territory for carriage to such place articles not exceeding $200 in aggregate value without the payment of duty or internal revenue taxes as provided in item 812.40, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202).

§ 148.42 Personal effects.

(a) *Exemption.* A nonresident arriving in the United States, regardless of age, is entitled under item 812.10, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), to entry free of duty and internal revenue tax for his wearing apparel, articles of personal adornment, toilet articles, and similar personal effects. "Similar personal effects" include all articles intended and appropriate for the personal use of the nonresident while traveling, such as hunting and fishing equipment, wheelchairs for invalids or crippled persons, pet and hunting dogs, and the like.

(b) *Application of exemption.* The exemption applies only to articles which were actually owned by the nonresident and in his possession abroad at the time of, or prior to, his departure for the United States. The articles must be appropriate for the personal use of the nonresident, and intended only for such use and not as a gift for another person nor for sale.

§ 148.43 Tobacco products and alcoholic beverages.

(a) *For personal use.* Fifty cigars, or 300 cigarettes, or 3 pounds of smoking tobacco, and not exceeding 1 quart of alcoholic beverages may be passed free of duty and internal revenue tax under item 812.20, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), when brought in by an adult nonresident for his personal use, and not for commercial use or to be given to another person. This exemption for tobacco products may be applied proportionately; for example to 25 cigars and 150 cigarettes, or to 25 cigars, 50 cigarettes and 1 pound of smoking tobacco. The exemption may be applied to more than one kind of alcoholic beverages but not to an aggregate volume of more than 1 quart for one adult nonresident.

(b) *For gifts.* A nonresident who is allowed the $100 gift exemption (see § 148.44) may include not more than 1 wine gallon of alcoholic beverages and not more than 100 cigars under such exemption from duty and internal revenue tax, provided the articles accompany him and are to be disposed of only as bona fide gifts.

§ 148.44 Gifts.

(a) *Exemption.* An arriving nonresident who intends to remain in the United States for not less than 72 hours is entitled to claim as free of duty and internal revenue tax under item 812.25, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), articles not over $100 in aggregate value which accompany him and are to be disposed of by him as bona fide gifts. See § 148.43 for limitations on alcoholic beverages and cigars under this exemption.

(b) *Frequency of allowance.* The exemption for gifts may be allowed only if the nonresident has not claimed the exemption within the immediately preceding 6 months.

§ 148.45 Vehicles and other conveyances.

Nonresidents are entitled to entry free of duty and internal revenue tax under item 812.30, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), for automobiles, trailers, aircraft, motorcycles, bicycles, baby carriages, boats, horse-drawn conveyances, horses, and similar means of transportation and the usual equipment accompanying them, if such articles are imported in connection with the arrival of the nonresident to be used in the United States only for the transportation of the nonresident, his family and guests, and such incidental carriage of articles as may be appropriate to his personal use of the conveyance.

§ 148.46 Sale of exempted articles.

(a) *Sale resulting in forfeiture.* The following articles or their value (to be recovered from the importer) upon their sale, shall be subject to forfeiture in accordance with the provisions of schedule

V 38 - 17 JAN 26 73 XUM

8, part 2A, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), unless the procedure set forth in paragraph (b) of this section is followed:

(1) Any jewelry or similar articles of personal adornment having an aggregate value of $300 or more which have been allowed an exemption under § 148.42, if sold within 3 years of the date of importation.

(2) Any conveyance or its equipment allowed an exemption under § 148.45, if sold within 1 year after the date of importation.

(b) *Procedure permitting sale.* Articles described in paragraph (a) of this section may be sold if, prior to the time of sale, payment is made to a district director of the duty which would have been payable at the time of entry if the article had been entered without the benefit of the applicable exemption.

(c) *Permissible sales.* A sale pursuant to a judicial order or in liquidation of the estate of a decedent is not a basis for any liability for duty or forfeiture.

Subpart F—Other Exemptions

§ 148.51 Special exemption for personal or household articles.

(a) *Application of exemption.* The exemption from duty and internal revenue tax contemplated by section 321(a)(2)(B), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(B)), may be applied to articles for his personal or household use including gifts, but not for any business or commercial use, accompanying:

(1) A nonresident arriving in the United States who is not entitled to an exemption for gifts under item 812.25, Tariff Schedules of the United States (19 U.S.C. 1202) (see § 148.44); or

(2) A returning resident who is not entitled to the $100 or $200 exemption for articles acquired abroad under item 813.31, Tariff Schedules of the United States (19 U.S.C. 1202) (see Subpart D of this part).

(b) *Limitations.* No article accompanying a person arriving in the United States shall be exempted from duty or internal revenue tax under section 321(a)(2)(B), Tariff Act of 1930, as amended, if any article accompanying such person is subject to duty or tax by reason of the following limitations on the application of this exemption:

(1) *Value of articles.* The exemption shall be allowed only when the aggregate fair retail value of all articles not otherwise entitled to an exemption does not exceed $10.

(2) *Articles subject to internal revenue tax.* The exemption shall not be applied to articles subject to internal revenue tax other than:

(i) Cigarettes not in excess of 50;

(ii) Cigars not in excess of 10;

(iii) Alcoholic beverages not in excess of 4 ounces; or

(iv) Alcoholic perfumery not in excess of 4 ounces.

(c) *Family grouping.* Family grouping of the exemption shall not be allowed.

(Sec. 7, 52 Stat. 1081, as amended; 19 U.S.C. 1321)

§ 148.52 Exemption for household effects used abroad.

(a) *Exemption.* Furniture, carpets, paintings, tableware, books, libraries, and other usual household furnishings and effects actually used abroad for not less than 1 year by resident or nonresidents, and not intended for any other person or for sale may be allowed entry free of duty and tax under item 810.10, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202). Household effects used abroad not less than 1 year by a family of which the importer was a resident member for not less than 1 year during the period of use may be allowed free entry whether or not the importer owned the effects at the time of such use. The year of use need not be continuous, nor need it immediately precede the time of importation.

(b) *Proof of use.* In order to obtain free entry for household effects under this section, the use of the effects abroad for 1 year must be proven to the satisfaction of the district director. The district director, in his discretion, may require evidence of use other than the declaration provided for in paragraph (c) of this section.

(c) *Declaration.* When household effects are claimed to be free of duty a declaration of the owner on Customs Form 3299 shall be required to support the claim for free entry. If it is impracticable to produce the declaration at the time of entry, the importer may give a bond on Customs Form 7551 or 7553 for the production of the owner's declaration within 6 months.

(d) *Arrival of effects more than 10 years after arrival of importer.* As a general rule, household effects arriving more than 10 years after the last arrival of the importer from the country in which the effects were used shall not be admitted free of duty under this exemption unless the district director is satisfied from the importer's explanation that the effects were unavoidably detained beyond the 10-year period. However, in no case shall free entry be allowed under this provision when a period of 25 years or more has elapsed since the last arrival of the importer in the United States from the country in which the effects were used.

§ 148.53 Exemption for tools of trade.

(a) *Exemption.* Professional books, implements, instruments, or tools of trade, occupation or employment, may be allowed entry free of duty and tax under the provisions of schedule 8, part 2, headnote 1, and item 811.10, Tariff Schedules of the United States (19 U.S.C. 1202), for such articles owned and used abroad by any person emigrating to the United States, or item 810.20 for such articles taken abroad by or for the account of any person arriving in the United States. The exemption for emigrants under item 811.10 shall not be applied to:

(1) Theatrical scenery, properties, or apparel;

(2) Articles for use in any manufacturing establishment;

(3) Articles for any other person; or

(4) Articles for sale.

(b) *Declaration.* A declaration of the emigrant or returning individual on Customs Form 3299 shall be required to support the claim of free entry. However, an oral declaration may be accepted from a returning individual in lieu of a written declaration for any such articles claimed to be free of duty under item 810.20, Tariff Schedules of the United States (19 U.S.C. 1202).

§ 148.54 Exemption for effects of citizens dying abroad.

(a) *Exemption.* Articles claimed to be personal and household effects, not stock in trade, the title to which is in the estate of a citizen of the United States who died abroad may be allowed entry free of duty and tax under item 815.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202).

(b) *Entry.* Such effects shall be entered in accordance with the provisions of § 8.50 of this chapter, or if the value of such effects does not exceed $250, entry may be permitted under the provisions of § 8.51 of this chapter.

(c) *Statement of facts required.* The district director shall require in connection with the entry the written statement of a person having knowledge of the facts or shall otherwise satisfy himself as to the citizenship of the deceased owner of the effects at the time of death.

Subpart G—Crewmember Declarations and Exemptions

§ 148.61 Status as crewmembers.

The following persons arriving in the United States shall not be treated as crewmembers:

(a) Members of the Armed Forces of the United States and persons in the civil service of the United States engaged in the operation of a vessel, vehicle, or aircraft owned by, or under the complete control and management of, the United States or any of its agencies.

(b) Persons engaged in the operation of a private or public aircraft.

(c) Persons not connected with the operation, navigation, ownership, or business of a vessel, vehicle or aircraft engaged in international traffic.

§ 148.62 Declaration and entry of articles by crewmembers.

(a) *Declaration required.* Articles which are to be landed by a crewmember, including any person traveling on board a vessel, vehicle, or aircraft engaged in international traffic who is returning from a trip on which he was employed as a crewmember, shall be declared upon arrival of the vessel, vehicle, or aircraft in the United States. When practicable, the clearance of articles through Customs shall be made and permission to unlade obtained before the articles are taken from the carrier. However, if no danger to the revenue will result, articles may be submitted for examination and clearance to the Customs office on the pier or at the landing place.

(b) *Form of declaration—(1) Oral declaration.* A crewmember may be permitted to make an oral declaration and

entry if all articles he has to declare, in addition to articles for use in port on temporary leave for which no entry is required in accordance with § 148.63, may be admitted free of duty and tax under section 321(a)(2)(B), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(B)) (see § 148.64).

(2) *Written declaration.* A written declaration on Customs Form 5123, Declaration and Entry of Crewmember for Imported Articles, or on Customs Form 5129, Crewmember's Declaration shall be required in any case in which an oral declaration is not permitted. A written declaration may be required in any case if necessary to effect prompt and orderly clearance of crewmembers and their effects or if deemed necessary to protect the revenue.

(c) *Transfer without declaration.* Articles belonging to a crewmember may be transferred from one carrier to another in international traffic without declaration, entry, or assessment of duty if the transfer is carried out under the supervision of Customs officers, or by a bonded cartman if necessary.

(d) *Entry at port where articles to be landed.* Articles in the possession of or owned by a crewmember of a character for which entry must be made when they are brought into the United States shall be entered at the port where the articles are to be landed. However, if the crewmember remains on a vessel, vehicle, or aircraft which is to proceed to another port of the United States in a movement in which entry of the vessel, vehicle, or aircraft will not be required, entry of the articles shall be made at the port at which such movement begins.

(e) *Collection of duty and taxes.* Any duties and taxes found due shall be collected as in the case of arriving passengers.

§ 148.63 Articles for use while on temporary leave.

(a) *Exemption.* Articles in the possession of and exclusively for use by any crewmember during the trip or voyage, such as necessary clothing, toiletries, and purely personal effects, may be landed by such crewmember for use on temporary leave without a written declaration or entry, and without payment of duty or internal revenue tax under item 814.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States (19 U.S.C. 1202), if the district director is satisfied that:

(1) The articles are reasonable and appropriate for the crewmember's accommodation while on temporary leave, and are to be taken out of the United States, except for articles consumed in use;

(2) The articles are intended exclusively for the crewmember's bona fide personal use;

(3) The quantities are reasonable, depending on the circumstances in each particular case; and

(4) In the case of tobacco products and alcoholic beverages, the containers have been opened and the total quantity landed shall not exceed 50 cigars, 300 cigarettes, or 3 pounds of smoking tobacco, or a proportionate amount of each, and 1 quart of alcoholic beverages.

(b) *Temporary leave.* A crewmember is not considered to be on temporary leave from a vessel, vehicle, or aircraft engaged in international traffic or entitled to the exemption under this section upon disembarkation when he is to remain in the confines of a pier, terminal, airport, or area immediately adjacent thereto, in order to timely embark on the carrier in the course of a continuous journey or on a concurrently scheduled arrival and departure.

§ 148.64 Administrative exemption.

(a) *Application of exemption.* The exemption from duty and internal revenue tax contemplated by section 321(a)(2)(B), Tariff Act of 1930, as amended (19 U.S.C. 1321(a)(2)(B)), may be applied to articles for the personal and household use, including gifts, of a crewmember arriving in the United States who is not entitled to an exemption under item 812.25 or 813.31, Tariff Schedules of the United States (see §§ 148.66(c) and 148.65). The exemption may be applied when the crewmember is entitled to an exemption under item 814.00, Tariff Schedules of the United States (19 U.S.C. 1202), for articles for use while on temporary leave (§ 148.63).

(b) *Limitations.* No article accompanying a crewmember arriving in the United States shall be exempted from duty or internal revenue tax under section 321(a)(2)(B), Tariff Act of 1930, as amended, if any article accompanying such crewmember is subject to duty or internal revenue tax by reason of the following limitations.

(1) *Value of articles.* The exemption shall be allowed only when the aggregate fair retail value of all articles not otherwise entitled to an exemption does not exceed $10.

(2) *Articles subject to internal revenue tax.* The exemption shall not be applied to any article subject to internal revenue tax in addition to any articles allowed an exemption under item 814.00, Tariff Schedules of the United States (19 U.S.C. 1202), other than:

(i) Cigarettes not in excess of 50;

(ii) Cigars not in excess of 10;

(iii) Alcoholic beverages not in excess of 4 ounces; or

(iv) Alcoholic perfumery not in excess of 4 ounces.

§ 148.65 Exemptions for resident crewmembers.

(a) *Status as returning resident.* A crewmember arriving on a vessel, vehicle, or aircraft from a foreign port who is a resident of the United States shall be considered a returning resident qualifying for the exemptions allowed under schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), and subpart D of this part if:

(1) He permanently leaves the carrier without intention of resuming his employment on the same or another carrier engaged in international traffic; or

(2) He remains on or transfers to a vessel which is to proceed to another port of the United States in a movement in which entry of the vessel will not be required.

(b) *Statement on declaration.* A resident crewmember who claims that articles declared by him are entitled to be passed free of duty and tax under the returning resident's exemption, shall include a legible statement on the declaration, Customs Form 5123 or 5129, of the basis for his claim for entitlement to the resident's exemption (see paragraphs (a)(1) and (2) of this section).

§ 148.66 Exemptions for nonresident crewmembers.

(a) *Status as arriving nonresident.* A nonresident crewmember will be treated as an arriving nonresident for purposes of claiming the exemptions allowable under schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), and subpart E of this part when he permanently leaves his employment with a vessel, vehicle, or aircraft at a port in the United States without intention of resuming employment on the same or another carrier in international traffic. However, a nonresident crewmember shall not be treated as an arriving nonresident for this purpose when he departs a carrier for temporary leave but retains his employment with the carrier so that he will be going foreign again in the course of his continuing employment (see § 148.63).

(b) *Articles carried through the United States.* A nonresident crewmember, permanently leaving a carrier in a U.S. port to travel as a passenger on another carrier which will take him to a place outside the United States, who desires to take with him articles not exceeding $200 in aggregate value without the payment of duty or internal revenue tax as provided in item 812.40 (see § 148.41), may be accorded free entry of the articles under the following procedure:

(1) *Declaration and supporting statement.* The nonresident crewmember shall itemize the articles on his declaration and entry, Customs Form 5123 or or 5129, required by § 148.62(b)(2), and shall state in writing in support of his declaration that:

(i) He has been finally discharged from the carrier, with the date of discharge;

(ii) He intends to depart from the same or another U.S. port as a passenger on another carrier for a place outside U.S. Customs territory; and

(iii) The articles will be taken with him on such carrier and will not remain in the United States.

(2) *Allowance by district director.* The district director may require verification of the crewmember's discharge and a statement as to the accuracy of the second and third supporting statements of the crewmember from the person in charge of the carrier, the vessel agent, or the port captain. If the district director is satisfied that the crewmember's statements are correct, the articles may be

V 38 - 17 JAN 26 73 XUM

passed free of duty and internal revenue tax under item 812.40, Tariff Schedules of the United States (19 U.S.C. 1202).

(c) *Articles to be disposed of as gifts.* A nonresident crewmember shall itemize on his baggage declaration and entry, Customs Form 5123 or 5129, required by § 148.62, all articles in his possession for which he seeks entry under item 812.25, Tariff Schedules of the United States (19 U.S.C. 1202), as bona fide gifts. The crewmember must be permanently leaving his employment on the international carrier for a stay in the United States of at least 72 hours before departing for a place outside the United States as a passenger.

§ 148.67 Penalties for failure to declare articles.

(a) *Avoidance of inspection.* When articles may be presented to the Customs office on the pier or at the landing place for inspection and clearance, if the circumstances under which the articles are landed indicate an attempt to avoid inspection, the penalties prescribed in section 453, Tariff Act of 1930, as amended (19 U.S.C. 1453), shall be assessed.

(b) *Articles landed without declaration.* Any article landed without having been properly declared as provided in § 148.62 shall be considered as having been unladen without a permit and the penalties provided in section 453, Tariff Act of 1930, as amended (19 U.S.C. 1453), or section 1474 of title 49, United States Code, shall be assessed as applicable.

(c) *Articles omitted from declaration.* If the declaration does not include all the articles landed, the crewmember shall be subject to the penalties prescribed in section 497, Tariff Act of 1930 (19 U.S.C. 1497), with respect to the articles omitted. The penalties prescribed in section 453, Tariff Act of 1930, as amended (19 U.S.C. 1453), shall not be assessed if any, though not all, of the articles are declared, except as provided in paragraph (a) of this section.

Subpart H—Military and Civilian Employees of the United States, and Evacuees

§ 148.71 Status of persons in service of United States as returning residents.

A person in the service of the United States and members of his family arriving in the United States are ordinarily considered returning residents for the purpose of schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202), except that the following persons are treated as nonresidents:

(a) A wife or husband of any person in the service of the United States emigrating to the United States, and

(b) A child born abroad of any person in the service of the United States who is arriving in the United States for the first time.

§ 148.72 Articles acquired abroad by personnel on Government vessels.

(a) *Declaration of dutiable articles by commanding officer.* Immediately upon the arrival of any vessel operated by the United States or any agency thereof from a foreign port, the commanding officer shall file with the district director information as to dutiable articles acquired abroad in the following form:

UNITED STATES NAVY CUSTOMS DECLARATION

U.S.S. ....., Port of arrival .....

To the District Director of Customs:
Herewith is submitted a list of articles acquired in foreign countries by me and the respective officers and members of the crew under my command, which list is correct to the best of my knowledge and belief.

Owner	Rank	Description of articles	Cost or value

Date ....., 19... (Name).....
(Rank).....
Commanding Officer

If there are no articles to be listed, the statement "Nothing to declare" shall be placed on the form. No individual baggage declarations shall be required.

(b) *Examination of baggage.* Articles listed on the declaration filed by the commanding officer shall be segregated until formally passed by Customs. The listed articles shall be examined and passed in the same manner as the baggage on passenger vessels.

§ 148.73 Baggage on military transports.

(a) *Declaration.* Commissioned officers and enlisted personnel of the Armed Forces of the United States engaged in the operation of an Army or Navy transport, enlisted men carried as passengers, and civilian officers and crewmembers shall not be required to execute baggage declarations, but all articles acquired abroad by them must be listed on the manifest of the vessel. All cabin passengers shall be required to execute written baggage declarations.

(b) *Exemptions applicable.* Passengers on transports shall be granted the applicable exemptions from duty provided for in schedule 8, part 2A, Tariff Schedules of the United States (19 U.S.C. 1202). Members of the Armed Forces of the United States and personnel in the civil service of the United States engaged in the operation of the vessel shall be accorded the same privilege. Civilian officers and crewmembers not in the service of the United States shall be subject to the provisions of Subpart G of this part with respect to exemption from duty.

(c) *Examination of baggage.* Baggage on transports shall be examined at the port where landed in the same manner as baggage on commercial vessels.

§ 148.74 Exemption on termination of assignment to extended duty or on evacuation.

(a) *Exemption.* With the limitation on alcoholic beverages and tobacco products provided in paragraph (c) of this section, entry free of duty and tax under item 817.00, and schedule 8, part 2, headnote 1, Tariff Schedules of the United States, (19 U.S.C. 1202), may be accorded personal and household effects of:

(1) Any person in the service of the United States who returns to the United States upon the termination of assignment to extended duty at a post or station outside the Customs territory of the United States;

(2) Members of his family who have resided with him at such post or station and are returning upon the termination of his assignment; or

(3) Any person evacuated to the United States under Government orders or instructions.

(b) *Applicability of exemption.* The term "personal effects" as used in item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202), is not confined to that class of articles described in item 812.10, Tariff Schedules of the United States, nor is any period of use, such as is prescribed by item 810.10, Tariff Schedules of the United States, applicable to household effects entered under item 817.00. The privilege of free entry under item 817.00, Tariff Schedules of the United States, does not apply to:

(1) Articles imported for sale, or for the account of any person not specified in item 817.00, Tariff Schedules of the United States; or

(2) Articles which have not been in the direct personal possession of the claimant, or a member of his household, while abroad.

(c) *Limitation on alcoholic beverages and tobacco products.* A total of not more than 1 wine gallon of alcoholic beverages and not more than 100 cigars shall be accorded free entry under item 817.00, Tariff Schedules of the United States, (19 U.S.C. 1202), subject to the conditions that:

(1) These articles accompany the person making the claim for free entry upon his arrival in the United States;

(2) Not more than 1 quart of any such alcoholic beverages shall have been distilled or otherwise manufactured and bottled in any place other than the United States or its possessions;

(3) Such individual has not concurrently claimed exemptions as a returning resident under items 813.30 and 813.31, Tariff Schedules of the United States; and

(4) Such person, if other than one in the service of the United States, shall have attained the age of 21.

(d) *Termination of assignment to extended duty.* The requirement of item 817.00 that the person "returns to the United States upon the termination of assignment to extended duty" shall be considered met upon the necessary proof being submitted that any one of the following is applicable:

(1) The person is returning upon the termination of a tour of duty outside the Customs territory of the United States of at least 140 days' duration.

(2) The person is returning after the termination of an assignment under permanent change of station orders to duty at a post or station outside the Customs territory of the United States, regardless of the duration of the duty. A crewmember, including a member of a command, serving on a United States naval vessel when it departs from the United States on an intended deployment of 120 days or more outside the Customs territory of the United States and who continues to serve on the vessel until it returns to the United States may be considered as returning after the termination of an assignment of duty under permanent change of station orders.

(3) The person is returning to the United States upon the termination of a tour of duty at any time after leaving the United States for duty of not less than 140 days outside the Customs territory of the United States.

(4) The person, although not returning to the United States, is ordered by the Government agency involved from duty at a post or station outside the Customs territory of the United States to duty at another post or station outside the Customs territory of the United States necessitating the return to the United States of his personal and household effects.

§ 148.75 Persons ineligible for exemption on termination of assignment.

(a) *Persons returning from temporary assignment.* No person, or member of his family, shall be allowed free entry of personal and household effects under item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202), where the person returns to the United States pursuant to Government orders or instructions which authorized him initially to proceed to a foreign post or station and return to the United States upon termination of temporary duty, except as it may otherwise be deemed proper in accordance with the provisions of § 148.74(d) or § 148.76.

(b) *Persons returning on leave or before termination of extended duty assignment.* A person returning on leave, other than on reemployment leave at the termination of assignment to extended duty as defined in § 148.74(d), or otherwise returning before the termination of an assignment to extended duty outside the Customs territory of the United States, with or without orders covering the return, is not eligible for an exemption under item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202).

(c) *Person returning on temporary duty assignment.* A person returning to the United States under orders on temporary duty assignment at the termination of which he is returned to his duty station abroad to resume his regular duties is not regarded as returning to the United States at the termination of extended duty outside the Customs territory of the United States and is not eligible for an exemption under item 817.00, Tariff Schedules of the United States. (19 U.S.C. 1202).

§ 148.76 Waiver of requirements or limitations.

In any case in which the limitation on the quantity of alcoholic beverages and tobacco products which may be exempted from duty and tax under § 148.74(c) or the failure of the person to meet the requirements that he be returning upon the termination of assignment to "extended duty," as explained in § 148.74(d), will cause undue hardship to the person through no fault of his own, but rather because of the nature of his assignment or other hardship circumstances, the Commissioner of Customs, upon receipt of a request from the Government agency involved, may waive the limitation or the requirement, as the case may be, if he deems such waiver warranted by the facts.

§ 148.77 Entry of effects on termination of assignment to extended duty, or on evacuation.

(a) *General procedure.* All articles for which free entry is claimed under item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202), shall be entered or withdrawn in accordance with the requirements prescribed by the Tariff Act of 1930, as amended. District directors shall be satisfied in all cases that the articles for which free entry is claimed under item 817.00, Tariff Schedules of the United States, are personal and household effects of the importer entitled to the benefits of item 817.00, particularly in those cases where the quantity of effects imported may appear to be unreasonable for personal or household use. No invoice shall be required for articles accorded free entry under this provision.

(b) *Declaration and entry—(1) Person entitled to exemption.* Declaration and entry for articles claimed to be exempt from duty and tax under item 817.00, Tariff Schedules of the United States (19 U.S.C. 1202), may be made on Customs Form 6061, or Department of Defense Form (DD) 1252 when entry is made in the name of the person who is entitled to the benefits of the exemption. The date of the person's last departure from the United States shall be indicated on the declaration and entry.

(2) *Designated official.* Customs Form 6061, executed on behalf of the owner of unaccompanied personal and household effects by either a United States Dispatch Agent or a designated responsible military official in his own name, may be accepted by the Customs officer as the declaration and entry if there is a valid reason evident from the owner's travel orders or information at hand why the United States Government agency concerned is unable to present Department of Defense Form (DD) 1252 or Customs Form 6061 executed by the owner. The date of the owner's last departure from the United States need not be indicated on the form. The following statement shall be added across the face or to the back of Customs Form 6061:

This form is completed on behalf of .....
(Name of Government employee)
Travel orders and information on hand in this office show that the named person has met all requirements of § 148.74 of the Customs Regulations and is entitled to the benefits of item 817.00, Tariff Schedules of the United States. The shipment imported consists of nothing but personal and household effects of the named person, which effects are not imported for sale or as an accommodation for others.

(c) *Verification of claim for exemption—(1) By travel orders.* The declaration and entry shall be verified by the Customs officer by an inspection of the owner's travel orders. If the district director accepts an inspection of the owner's travel orders as evidence that the effects were brought into the United States within the requirements of item 817.00, the owner's travel orders shall be identified on the entry, which shall be handled like a free baggage declaration. istration card;

(2) *By other evidence.* The declaration and entry may be verified by other evidence which satisfies the district director that the effects were brought into the United States in connection with:

(i) The person's return to the United States upon the termination of assignment to extended duty, as explained in § 148.74(d);

(ii) The return of members of his family who have resided with him at his post or station upon the termination of his assignment; or

(iii) The evacuation of a person to the United States under Government orders or instructions.

Subpart I—Personnel of Foreign Governments and International Organizations

§ 148.81 General provisions.

(a) *Reciprocal privileges.* The privileges provided for in §§ 148.81 through 148.86 and § 10.30c of this chapter shall be accorded only if reciprocal privileges are granted by the foreign government involved to U.S. personnel of comparable status.

(b) *Baggage and effects.* The term "baggage and effects," as used in this subpart and § 10.30c of this chapter includes all articles which were in the possession of a person abroad, and are being imported in connection with his arrival, and which are intended for his bona fide personal or household use. It does not include articles imported as an accommodation to others or for sale or other commercial use.

(c) *Aliens.* The privileges provided in this subpart and § 10.30c of this chapter shall be accorded only to alien representatives, officers, employees, and members of the armed forces of foreign governments and designated public international organiations.

(d) *Internal revenue tax.* Any article exempted from the payment of duty under this subpart and § 10.30c of this chapter shall be exempt also from the payment of any internal revenue tax imposed upon or by reason of importation.

V 38 - 17 JAN 26 73 XUM

§ 148.82 Diplomatic, consular and other privileged personnel.

(a) *Inviolability of the person of diplomatic personnel.* The person of the representatives of foreign governments and members of their families set forth below shall be free from arrest, search, or detention:

(1) Ambassadors, ministers, chargés d'affaires, secretaries, counselors, attachés of foreign embassies, and legations, and other heads of diplomatic missions or members of the diplomatic staffs of such missions, accredited to the United States or en route between other countries to which accredited and their own countries.

(2) Members of the families forming part of the households of the diplomatic personnel listed in the preceding subparagraph, who are accompanying them or traveling separately to join them incidental to their official travel, excluding those members of families who are U.S. nationals.

(3) Members of the administrative and technical staffs of diplomatic missions accredited to the United States and members of their families forming part of their household, all of whom are not nationals or permanent residents of the United States who are accompanying them or traveling separately to join them incidental to their official travel.

(4) Diplomatic and consular couriers.

(b) *Exemption for baggage and effects and admission without entry.* The baggage and effects of the following representatives of foreign governments shall be admitted free of duty without the filing of an entry, upon the request of the Department of State and appropriate instructions from the Bureau of Customs in each instance:

(1) Ambassadors, ministers, chargés d'affaires, secretaries, counselors, attachés of embassies and legations, and other members of the diplomatic staffs of such missions accredited to the United States or en route to or from other countries to which assigned, as well as recognized consular officers, and the immediate families, suites, and servants of all the above under item 820.10, Tariff Schedules of the United States (19 U.S.C. 1202).

(2) Members of the administrative and technical staffs of diplomatic missions and members of their families forming part of their households, all of whom are not nationals or permanent residents of the United States under item 820.10, Tariff Shcedules of the United States (19 U.S.C. 1202). Unless more extensive privileges are provided in treaties or special agreements between the United States and the foreign country concerned, this privilege is limited to baggage and effects imported at the time of first installation.

(3) Consular employees who are not nationals or permanent residents of the United States. Unless more extensive privileges are provided in treaties or special agreements between the United States and the foreign country concerned, this privilege is limited to articles imported at the time of first installation.

(4) Other high officials of foreign governments and such distinguished foreign visitors as may be designated by the Department of State, and their immediate families under item 820.50, Tariff Schedules of the United States (19 U.S.C. 1202).

(5) Foreign government personnel entitled to privileges under statutes or treaties under item 820.60, Tariff Schedules of the United States (19 U.S.C. 1202).

(6) Diplomatic couriers, limited to accompanying baggage and effects.

(c) *Absence of special request.* In the absence of special request from the Department of State prior to the arrival of representatives of foreign governments enumerated in paragraph (b) (1) of this section, their immediate families as well as accompanying suites and servants, and diplomatic couriers, their baggage and effects may be admitted free of duty without entry upon presentation of their credentials or other proof of their identity.

(d) *Delay in arrival of baggage or effects.* If by accident or unavoidable delay in shipment the baggage or other effects of a person entitled to the privileges of this section shall arrive after him upon satisfactory proof of ownership, such baggage or effects may be passed free of duty without entry.

(e) *Inspection of baggage*—(1) *Exemption for representatives of foreign governments.* The personal baggage of the following representatives of foreign governments and their families is ordinarily exempt from inspection:

(i) Ambassadors, ministers, chargés d'affaires, secretaries, counselors, attachés of foreign embassies or legations, and other members of the diplomatic staffs of such missions, who are accredited to the United States or en route between other countries to which accredited and their own countries and members of their families forming part of their household who are not nationals of the United States.

(ii) Consular officers recognized by the United States and members of their families forming part of their household who are not nationals or permanent residents of the United States, provided the baggage accompanies them.

(iii) Diplomatic couriers, provided the baggage accompanies them.

(2) *Conditions permitting inspection.* The personal baggage of representatives of foreign governments listed in subparagraph (1) of this paragraph and members of their families may be inspected if there is serious reason to believe that it contains:

(i) Articles other than those for the personal use of such persons or for the use of their establishments or for official mission use.

(ii) In the case of consular officers and their families, articles intended for consumption in excess of the quantities necessary for direct use by the person concerned.

(iii) Articles which are absolutely or conditionally prohibited importation or exportation under the laws or regulations of the United States, or which are subject to the quarantine laws or regulations of the United States.

(3) *Presence of foreign representative.* When inspection of personal baggage is permitted under subparagraph (2) of this paragraph, the inspection shall take place only in the presence of the affected representative of a foreign government, or his authorized agent.

§ 148.83 Diplomatic and consular bags.

(a) *Diplomatic bags.* The contents of diplomatic bags are restricted to diplomatic documents and articles intended exclusively for official use and packages constituting the diplomatic bag must bear visible marks of their character. Diplomatic bags shall not be opened or detained nor shall they be subject to duty or entry.

(b) *Consular bags.* Consular bags must bear visible external marks of their character and their contents are restricted to official correspondence and documents or articles intended exclusively for official use. Consular bags shall not be subject to duty and ordinarily shall not be opened or detained. However, if Customs officers have serious reason to believe that a consular bag contains other than permissible materials, they may request that the bag be opened in their presence by an authorized representative of the foreign government concerned. If this request is refused, the consular bag shall be returned to its place of origin.

§ 148.84 Baggage and effects of high Government officials.

The privilege of admission free of duty without entry of their baggage and effects may also be extended to high officials of this Government returning from special missions abroad, upon application therefor direct to the Department of the Treasury and the issuance of appropriate instructions. The free entry authorized hereunder shall not extend to alcoholic beverages, with respect to which the officials referred to in this paragraph shall receive no other exemption from duty and internal revenue tax than is allowed returning residents of the United States in accordance with § 148.33(d).

§ 148.85 Subsequent importations for the personal or family use of diplomatic, consular and other privileged personnel.

The privilege of importing free of duty and without the filing of any entry articles for personal or family use, but not

as an accommodation for others or for sale or other commercial use, shall be granted upon the request of the Department of State and upon appropriate instructions from the Bureau of Customs in each instance, to the following:

(a) Ambassadors, ministers, chargés d'affaires, secretaries, counselors and attachés of foreign embassies and legations accredited to the United States under item 822.10, Tariff Schedules of the United States (19 U.S.C. 1202);

(b) Other representatives, officers and employees of foreign governments, under item 822.30, Tariff Schedules of the United States (19 U.S.C. 1202); and

(c) Other persons designated pursuant to statute or pursuant to treaties between the United States and the countries which they represent, under item 822.40, Tariff Schedules of the United States (19 U.S.C. 1202)

§ 148.86 Articles for official use of representatives of foreign governments.

Office supplies and equipment and other articles for the official use of members and attaches of foreign embassies and legations, consular officers, and other representatives of foreign governments, may be admitted free of duty under item 841.10, Tariff Schedules of the United States, without the filing of an entry, upon the request of the Department of State.

§ 148.87 Officers and employees of, and representatives to public international organizations.

(a) *Exemption for baggage and effects.* The baggage and effects of the alien officers and employees of, or representatives of foreign governments, to the organizations designated by the President as public international organizations pursuant to section 1 of the International Organizations Immunities Act (22 U.S.C. 288), and the baggage and effects of their families, suites, and servants, shall be admitted free of duty and without entry under item 820.30, Tariff Schedules of the United States (19 U.S.C. 1202), but only upon the receipt in each instance of instructions from the Bureau of Customs issued at the request of the Department of State.

(b) *Designated public international organizations.* The President, by virtue of the authority vested in him by section 1 of the International Organizations Immunities Act of December 29, 1945 (22 U.S.C. 288), has designated certain organizations as public international organizations entitled to the free entry privileges of that statute. The following is a list of the public international organizations currently entitled to such free entry privileges and the Executive orders by which they were designated:

Organization	Executive Order	Date
Asian Development Bank	11334	Mar. 7, 1967
Caribbean Organization	10983	Dec. 30, 1961
Coffee Study Group	10943	May 19, 1961
Customs Cooperation Council	11596	June 5, 1971
European Space Research Organization	11318	Dec. 5, 1966
Food and Agriculture Organization	9698	Feb. 19, 1946
Great Lakes Fishery Commission	11059	Oct. 23, 1962
Inter-American Defense Board	10228	Mar. 26, 1951
Inter-American Development Bank	10873	Apr. 8, 1960
Inter-American Institute of Agricultural Sciences	9751	July 11, 1946
Inter-American Statistical Institute	9751	Do.
Inter-American Tropical Tuna Commission	11059	Oct. 23, 1962
Intergovernmental Maritime Consultative Organization	10795	Dec. 13, 1958
Interim Communications Satellite Committee	11227	June 2, 1965
International Atomic Energy Agency	10727	Aug. 31, 1957
International Bank for Reconstruction and Development	9751	July 11, 1946
International Civil Aviation Organization	9863	May 31, 1947
International Coffee Organization	11225	May 22, 1965
International Cotton Advisory Committee	9911	Dec. 19, 1947
International Cotton Institute	11283	May 27, 1966
International Finance Corporation	10680	Oct. 2, 1956
International Hydrographic Bureau	10769	May 29, 1958
International Joint Commission—United States and Canada	9972	June 25, 1948
International Labor Organization	9698	Feb. 19, 1946
International Monetary Fund	9751	July 11, 1946
International Pacific Halibut Commission	11059	Oct. 23, 1962
International Secretariat for Volunteer Service	11363	July 20, 1967
International Telecommunications Satellite Consortium	11277	Apr. 30, 1966
International Telecommunication Union	9863	May 31, 1947
International Wheat Advisory Committee (International Wheat Council)	9823	Jan. 24, 1947
Organization for Economic Cooperation (now known as the Organization for Economic Cooperation and Development)	10133	June 27, 1950
Organization of American States	10533	June 3, 1954
Pan American Health Organization (includes the Pan American Sanitary Bureau)	10864	Feb. 18, 1960
Pan American Union	10533	June 3, 1954
Provisional Intergovernmental Committee for the Movement of Migrants from Europe (now known as the Intergovernmental Committee for European Migration)	10335	Mar. 28, 1952
Southeast Asia Treaty Organization	10856	Feb. 23, 1960
South Pacific Commission	10086	Nov. 25, 1949
United International Bureau for the Protection of Intellectual Property	11484	Sept. 29, 1969
United Nations	9698	Feb. 19, 1946
United Nations Educational, Scientific, and Cultural Organization	9863	May 31, 1947
Universal Postal Union	10727	Aug. 31, 1957
World Health Organization	10025	Dec. 30, 1948
World Meteorological Organization	10676	Sept. 1, 1956

§ 148.88 Certain representatives to and officers of the United Nations and the Organization of American States.

(a) *Exemption for baggage and effects and admission without entry.* At the request of the Department of State and upon appropriate instructions from the Bureau of Customs in each instance, the privilege of admission free of duty without the filing of an entry may be extended to the baggage and effects of the following alien representatives, officers, and members of the staff of the United Nations and the Organization of American States, and their personal baggage is ordinarily exempt from inspection, subject to § 148.82(e)(2):

(1) Every person designated by a United Nations member nation as the principal resident representative to the United Nations of such member or as a resident representative with the rank of ambassador or minister plenipotentiary and members of their families;

(2) Such resident members of their staffs as may be agreed upon between the Secretary-General of the United Nations, the Government of the United States, and the Government of the United Nations member concerned and members of their families;

(3) Every person designated by a United Nations member of a specialized United Nations agency as its principal resident representative, with the rank of ambassador or minister plenipotentiary at the headquarters of such agency in the United States and members of their families;

(4) Such other principal resident representatives of United Nations members to a specialized United Nations agency and such resident members of the staffs of representatives to a specialized United Nations agency as may be agreed upon between the principal executive officer of the specialized agency, the Government of the United States, and the Government of the United Nations member concerned and members of their families;

(5) The Secretary-General, Under Secretaries-General, and Assistant Secretaries-General to the United Nations and members of their families;

(6) Representatives of members to the principal and subsidiary organs of the United Nations and to conferences convened by the United Nations, while exercising their functions and during their journey to and from the place of meeting, with regard to personal baggage only;

(7) Experts performing missions for the United Nations, the same facilities for personal baggage as are accorded diplomatic envoys;

V 38 - 17 JAN 26 73 XUM

(8) Any person designated by a member of the Organization of American States as its representative or interim representative on the council of the Organization of American States and members of their families; and

(9) All other permanent members of the Delegation of a member of the Organization of American States and members of their families regarding whom there is agreement for that purpose between the government of the member state concerned, the Secretary-General of the Organization of American States, and the Government of the United States of America.

(b) *Absence of special request.* In the absence of a special request from the Department of State prior to the arrival of persons of the classes enumerated in paragraph (a) of this section, the privilege of admission free of duty without entry may be extended to their baggage and effects upon presentation of their credentials or other proof of identity.

(c) *Importations for personal or family use.* Upon the request of the Department of State and appropriate instructions from the Bureau of Customs, the privilege of importing without entry and free of duty articles for their personal or family use but not as an accommodation for others or for sale or other commercial use may be granted to persons of the classes enumerated in paragraph (a) of this section except those in paragraph (a) (6) and (7) of this section, under item 822.40, Tariff Schedules of the United States (19 U.S.C. 1202).

(d) *Personal inviolability.* The person of the representatives to and officers of the United Nations and the Organization of American States set forth in paragraph (a) of this section shall be free from arrest, search, and detention, except that persons of the rank set forth in paragraph (a) (6) and (7) of this section shall be accorded this privilege only while exercising their function and traveling to and from the place of meeting.

§ 148.89 Property of public international organizations.

(a) *Exemption from duty.* Property of designated international organizations listed in paragraph (b) of § 148.87 shall be admitted free of duty and internal-revenue taxes imposed upon or by reason of importation under 22 U.S.C. 288a(d), but such exemption shall be granted only upon the receipt in each instance of instructions from the Bureau of Customs issued at the request of the Department of State.

(b) *Bond.* Any Customs bond which may be required from a designated international organization (see paragraph (b) of § 148.87) in connection with the importation or entry of merchandise into, or the exportation of merchandise from, the United States may be accepted without surety.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[9 CFR Part 92]

IMPORTATION OF BIRDS

Proposed Relief of Restrictions

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 134a, 134b, 134c, and 134f), the Department of Agriculture is considering amending Part 92, Title 9, Code of Federal Regulations, to change the restrictions on importation of poultry and other birds.

In April 1971, exotic Newcastle disease was diagnosed in poultry flocks of the United States. Evidence was accumulated in October 1971 substantiating the presence of exotic Newcastle disease among exotic birds which had been imported into the United States.

The commercial importation of birds other than poultry was prohibited August 24, 1972, as a result of isolations of exotic Newcastle disease virus from several species of imported birds.

It was stated at that time that the prohibition would remain in effect until safe and satisfactory procedures could be developed and placed in effect whereby such importations could be resumed without undue risk of introducing exotic Newcastle disease.

On October 5, 1972, a meeting was held with selected members of the pet bird industry, representatives of zoological parks, researchers, scientific experts on exotic Newcastle disease, and interested government officials to discuss possible procedures whereby bird importations might be resumed with the proper safeguards. This notice of proposed rule making was developed as a result of discussions at this meeting and other consultations.

Pet birds are currently allowed importation under specified safeguards. The proposed amendments would (1) define "pet birds" and "commercial birds" and (2) provide for the importation of commercial birds of all classes when the following requirements are met: (1) an import permit must be obtained in advance of shipment, (2) a health certification by a full-time salaried veterinarian of the Government of the country from which the birds are shipped must accompany each lot, (3) each lot must be quarantined for a minimum period of 30 days in a facility provided by the importer in the immediate vicinity of the port of entry, such facility to be approved in advance by Veterinary Services, and (4) during the quarantine period the birds are to be handled in accordance with procedures prescribed by the Department.

1. In § 92.1, paragraph (j)(2) would be amended by adding new subdivisions (i) and (ii) to read as follows:

§ 92.1 Definitions.

* * * * *

(j) * * *

(2) * * * (i) *Pet birds.* Birds which are maintained for the personal pleasure of their individual owners and are not intended for resale, research, breeding, or public display.

(ii) *Commercial birds.* Birds which are imported for the purpose of resale, research, breeding, or public display.

* * * * *

2. In § 92.2, in paragraph (b) the last clause "except as provided in paragraph (c) or (d) of this section," would be amended to read "except as provided in paragraph (c), (d) or (e) of this section."

3. In § 92.2, a new paragraph (e) would be added to read as follows:

§ 92.2 General prohibition.

* * * * *

(e) Commercial birds may be imported into the United States if they meet the requirements of §§ 92.3(f), 92.5(c), 92.8(b), and 92.11(e) which specifically apply to commercial birds and the requirement of all other sections in this part that are applicable to poultry or to animals generally.

4. In § 92.3, a new paragraph (f) would be added to read:

§ 92.3 Ports designated for the importation of animals.

* * * * *

(f) Notwithstanding any other provisions of this section all commercial birds shall be imported only at a port of entry specified in § 92.8(b).

§ 92.4 [Amended]

5. In § 92.4, a reference to a new footnote 6 would be added after the section heading and a new footnote 6 would be added to the regulations to read as follows:

[6] For other permit requirements for birds, the regulations issued by the U.S. Department of the Interior (Part 17, Title 50, Code of Federal Regulations) and the regulations issued by the U.S. Department of Health, Education, and Welfare (Subpart J-1 of Part 71, Title 42, Code of Federal Regulations) should be consulted.

6. In § 92.5, the section heading would be amended and a new paragraph (c) would be added to read:

§ 92.5 Certificate for ruminants, swine, poultry, and commercial birds.

* * * * *

(c) *Birds.* All commercial birds offered for importation from any country of the world shall be accompanied by a certificate issued by a full-time salaried veterinary officer of the National Government of the country from which the birds are to be exported, stating that all birds covered by the certificate have been inspected by him and that no evidence of Newcastle disease, ornithosis, or other communicable disease of poultry was found among the birds and insofar as has been possible to determine, they were not exposed to any such disease during the 90 days immediately preceding their exportation; that such birds were individually identified by serially numbered legbands (or by other suitable means of identification approved by the Deputy Administrator, Veterinary Services, upon request to him) and such birds were placed into new containers at the place of origin; that such birds have not been vaccinated with Newcastle disease vaccine; that Newcastle disease did not occur anywhere on the premises from which the birds are to be exported or on adjoining premises during the 90 days immediately preceding the exportation of such birds and that these premises are not located in any area under quarantine for poultry diseases during such preceding 90 days.

7. In § 92.8, a new paragraph (b) would be added to read:

§ 92.8 Inspection at port of entry.

* * * * *

(b)(1) All commercial birds imported from any part of the world shall be subjected to inspection at the port of entry by a veterinary inspector of Veterinary Services and such birds, except those from Canada and Mexico, shall be permitted entry into the United States only at the following ports of entry: New York, N.Y.; Miami, Fla.; San Ysidro and Los Angeles, Calif.; Seattle, Wash.; and Honolulu, Hawaii.

(2) All commercial birds imported from Canada shall be permitted entry only at the ports of Seattle, Wash.; Detroit, Mich., and New York, N.Y. All commercial birds from Mexico shall be permitted entry only at the ports of Los Angeles and San Ysidro, Calif.; Miami, Fla.; and Brownsville and El Paso, Tex.

(3) Only the ports of entry specified in this paragraph (b) are approved for the importation of commercial birds, and shipments of such birds presented at any other port will be refused entry as specified in § 92.4(b).

8. In § 92.11, in paragraph (c)(1) the reference to "§ 92.26(a)" would be changed to "§ 92.26" and the reference to

V38-17 JAN 26 73 XUM

"§ 92.38(a)" would be deleted; and the section heading would be changed and a new paragraph (e) would be added to read:

§ 92.11 Quarantine requirements.

• • • • •

(e) *Birds.* Each lot of commercial birds imported from any part of the world shall be quarantined for a minimum of 30 days, and for such longer period as may be required by the Deputy Administrator, Veterinary Services, in any specific case, on an "all-in, all-out" basis, at one of the ports of entry specified in § 92.8(b) in facilities which are provided by the importer and which have been approved in advance for the handling of such birds by an inspector of Veterinary Services.[1] Such facilities shall be located within the immediate port area and shall be isolated from other concentrations of poultry or birds. During the quarantine period, the importer shall comply with handling procedures required by the Deputy Administrator, Veterinary Services, and conducted under the direction of the Veterinary Services port veterinarian. Such procedures shall include inspection and testing as may be required by the Deputy Administrator in any specific case to determine whether the birds are affected with any communicable disease of poultry. If the birds are found free of evidence of communicable diseases of poultry during quarantine, then the port veterinarian shall issue an agriculture release for entry through U.S. Customs. If the birds are found during port of entry inspection or during quarantine, to be infected with or exposed to a communicable disease of poultry, such birds shall be refused entry or shall be held for an additional period in quarantine until determined to be free of evidence of any communicable disease, or shall be otherwise disposed of as directed by the Deputy Administrator, Veterinary Services, in accordance with the provisions of section 2 of the Act of July 2, 1962 (21 U.S.C. 134a).

§ 92.38 [Deleted]

9. Section 92.38 would be deleted and § 92.26 would be amended to read:

§ 92.26 Poultry from Canada.

Poultry imported from Canada is not required to meet the requirements of § 92.11(c) but shall meet all other requirements of this Part applicable to poultry.

Any person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, MD 20782, not later than February 26, 1973.

[1] Standards for approved facilities may be obtained upon request to the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Center Building, 6505 Belcrest Road, Room 370, Hyattsville, MD 20782, during regular business hours in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 22d day of January 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-1581 Filed 1-24-73;8:45 am]

Rural Electrification Administration

[7 CFR Part 1701]

PROCUREMENT OF MATERIALS AND EQUIPMENT AND CONSTRUCTION OF GENERATION FACILITIES

Proposed Policy and Procedure

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue a supplement to REA Bulletin 40-6, Construction Methods and the Purchase of Materials and Equipment, to set forth revised policy and procedure to be followed by electric borrowers in the procurement of materials and equipment and the construction of generation facilities. On issuance of the supplement to REA Bulletin 40-6, Appendix A to Part 1701 will be revised accordingly.

Persons interested in the provisions of the supplement to REA Bulletin 40-6 may submit written data, views, or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250 by February 27, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

A copy of the supplement and related forms may be secured in person or by written request from the Director, Power Supply, Management and Engineering Standards Division.

The proposed supplement to REA Bulletin 40-6 is as follows:

SUBJECT: Contracts for the Procurement of Materials and Equipment and for Construction of Generation Facilities.

I. *Purpose.* This supplement (a) raises the dollar amount of contracts associated with the procurement of equipment for or the construction of generation facilities which do not require REA approval; and (b) sets forth the modifications to the Equipment Contract, REA Form 198, to include a liability limitation clause related to special and consequential damages which borrowers may use to receive alternate bids in the procurement of equipment for generation facilities.

II. *Policy and Procedures—A. REA Contract Approval Requirements.* With respect to generation facilities, REA Bulletin 40-6, dated August 24, 1970, provides that:

1. Generation materials and equipment amounting to less than $50,000 may be purchased by contract or purchase order not subject to REA approval; and

2. Negotiated construction contracts which do not exceed $50,000 do not require prior REA approval.

In view of the large size powerplants currently being planned and constructed by our borrowers and in consideration of the need for further simplification of REA administrative procedures, it has been determined that the above $50,000 contract limit related to REA's approval of contracts can be substantially raised without any serious effect on loan security. Accordingly, by this supplement the limit of $50,000 set forth in Bulletin 40-6, as related to these items, is hereby raised to $200,000, unless otherwise notified of some lesser dollar limitation by REA in any specific instance.

B. *Special and Consequential Damages.* With respect to the procurement of equipment for generation facilities, some borrowers have reported difficulties in obtaining responsive bidding on REA Form 198 because of its lack of limitation with respect to special and consequential damages. REA has carefully reviewed this matter and has determined that where a borrower feels its best interests can be served by enlarging competition through the receipt of an alternate bid which limits the bidder's liability for special and consequential damages, the following modifications may be made in the REA Contract Form 198 on which bids are to be received:

1. Insert a new paragraph 10 on page 2 of the Notice and Instructions to Bidders as follows:

"10. Proposals are invited on the basis of alternate provisions with respect to liability. It would be desirable for bidders to submit proposals on each of the alternate liability clauses set forth in the form of proposal attached hereto. The owner may determine on which liability clause basis the award shall be made, and may make the award on the basis of the lowest proposal for such liability clause, whether or not it is the lowest of all proposals received."

2. Insert on page 3 of the contract documents under paragraph 1 of the proposal the following:

"*Liability Clause Number 1.* $———— (to include paragraphs (a) and (b) only of section 4, unmodified, of the form of contract furnished by the owner and attached hereto).

"*Liability Clause Number 2.* $———— (to include the following paragraph (c), in addition to paragraphs (a) and (b) of section 4, unmodified, of the form of contract furnished by the owner and attached hereto):

"(c) Except for the Seller's willful delay or refusal to perform the contract in accordance with its terms, the Seller's liability for special or consequential damages on account of any breach of this contract shall not exceed an amount equal to the contract price. If the contract provides for the furnishing of more than one unit of equipment or materials, the limitation prescribed hereinabove shall be applied to each individual unit with respect to which such breach has occurred and 'contract price' shall be deemed to mean the unit price specified in the contract, or, if none is specified, a proportionate part of the total price stipulated for all such units."

3. Insert the following after the word "stated" in Section 1—Acceptance of Proposal (a) page 5 of the Equipment Contract form:

", including Liability Clause Number ——————."

The borrower's decision as to whether to receive bids permitting this alternate should be made by the borrower's board of directors acting on the advice of its engineer, based on his assessment of the need to receive alternate bids to obtain adequate responsive bidding and thus assure competition.

Dated: January 19, 1973.

DAVID A. HAMIL,
Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Petitions to Revoke Standard Concerning the Design, Construction, Setting, and Feeding of Dies; Request for Information

Two petitions have been received requesting the revocation of paragraph (d) (1) and (2) of 29 CFR 1910.217.

In substance, paragraph (d) (1) and (2) require an employer to institute die design, procurement, construction, and modification policies and procedures that will eliminate by August 31, 1974, the need for an employee to place his hands or fingers within the point of operation on a mechanical power press. Paragraph (c) of § 1910.217 requires an employer to provide and insure the usage of either point of operation guards or properly applied and adjusted point of operation devices on every operation performed on a mechanical power press.

A major contention of the petitioners is that the point of operation guards or point of operation devices required by 29 CFR 1910.217(c) adequately protect an operator of a mechanical power press from an injury that could result from his hands being placed at the point of operation of the press. Since the guards or devices are designed to prevent either an operator's hands or fingers from entering the area at the point of operation or the stroking of a press, it is contended that the design and construction requirements for mechanical power presses in 29 CFR 1910.217(d) (1) and (2) would serve the same purpose and provide substantially the same protection. Hence petitioners argue that these provisions require great expenditures without adding significant protection. Therefore petitioners request the revocation of 29 CFR 1910.217(d) (1) and (2).

Interested persons are invited to submit written data, views, and arguments concerning the petitions and whether a proceeding to grant the requested relief should be commenced under section 6(b) of the Occupational Safety and Health Act of 1970 and 29 CFR Part 1911. In particular, written information is requested with respect to the following:

(1) Work injury experience with point of operation guards or devices similar to those required by 29 CFR 1910.217(c);

(2) Whether the point of operation guards or devices required by 29 CFR 1910.217(c) provide sufficient protection, of themselves, to operators;

(3) Safeguarding devices presently under development;

(4) Work injury experience with "no hands in dies" presses similar to those required by 29 CFR 1910.217(d) (1) and (2);

(5) Estimate of the time period necessary to comply with the present "no hands in dies" standard;

(6) Supported cost data of the estimated costs of coming into compliance with the "no hands in dies" standard; and

(7) Any other related issue.

Written data, views, and arguments concerning the petitions should be mailed to the Office of Standards, Room 500, 400 First Street NW., Washington, DC 20210, before February 24, 1973. The data, views, and arguments will be available for public inspection and copying at the Office of Standards.

Signed at Washington, D.C., this 19th day of January 1973.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.73-1570 Filed 1-24-73;8:45 am]

[29 CFR Part 1999]

ENVIRONMENTAL IMPACT STATEMENTS

Proposed Procedures

The National Environmental Policy Act, among other things, requires all Federal agencies to file environmental impact statements before undertaking major action significantly affecting the quality of the human environment. Since the Occupational Safety and Health Administration may take certain actions which may significantly effect the environment, it is appropriate to prescribe procedures to be followed when impact statements are required. Therefore, pursuant to authority in section 2(f) of Executive Order 11514 of March 5, 1970 (3 CFR 1966–70, Comp., p. 902) and section 552 of the Administrative Procedure Act (5 U.S.C. 552), it is proposed that Chapter XVII of Title 29 of the Code of Federal Regulations be amended by adding a new Part 1999, as set out below, containing procedures to be followed when environmental impact statements are required.

All interested persons are invited to submit by February 24, 1973, written comments, suggestions, or objections with respect to the proposed procedure. Submissions should be directed to the Office of Solicitor, attention Mr. Benjamin W. Mintz, U.S. Department of Labor, Room 5420, 14th and Constitution Avenue NW., Washington, DC 20210.

The proposed new Part 1999 reads as follows:

Sec.
1999.1 Purpose and scope.
1999.2 Initial determination of need for impact statement.
1999.3 Preparation and circulation of draft impact statement.
1999.4 Preparation and circulation of final impact statement.
1999.5 Emergency circumstances.
1999.6 Effect of final impact statement upon agency decisionmaking.

AUTHORITY: Sec. 2(f) of Executive Order 11514 of March 5, 1970, and under 5 U.S.C. 552

§ 1999.1 Purpose and scope.

(a) Section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332) requires all Federal agencies to include a detailed environmental impact statement "in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment." Executive Order 11514 of March 5, 1970, directed all agencies to proceed with the actions required by section 102.

(b) The Occupational Safety and Health Administration in exercise of the authority given it under the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 651–678) (hereinafter, the Act) is empowered to take some actions which, within the meaning of the National Environmental Policy Act, would significantly effect the quality of the human environment. For example, certain occupational safety and health standards issued under section 6(b) of the Act may have such effect.

(c) The purpose of this subpart is to prescribe the procedure to be followed when such impact statements are required.

§ 1999.2 Initial determination of need for impact statement.

(a) Whenever the Occupational Safety and Health Administration considers taking major action, the Assistant Secretary for Occupational Safety and Health or his subdelegate (hereinafter, the Assistant Secretary) shall determine whether an impact statement is required. In the case of occupational safety and health standards, such decision will normally be made prior to the seeking of the advice of an advisory committee under section 6(b)(1) of the Act.

(b) If the Assistant Secretary determines that an impact statement is not required, a short statement indicating the reasons for such a decision shall be prepared and made available for public inspection under Part 70 of this title and Part 1913 of this Chapter.

(c) If the Assistant Secretary determines that an impact statement is required, a notice to this effect shall be published in the FEDERAL REGISTER.

§ 1999.3 Preparation and circulation of draft impact statement.

(a) After an initial determination of the need for an impact statement, and at least 90 days before final agency action is taken, the Assistant Secretary shall prepare a draft impact statement.

(1) When an advisory committee's advice is sought on the promulgation, modification or revocation of a standard, the draft statement should normally be

V 38-17 JAN 26 73 XUM

prepared and submitted to the committee before such committee submits its recommendations to the Assistant Secretary.

(b) The draft impact statement shall include a detailed statement on:

(1) The environmental impact of the proposed action,

(2) Any adverse environmental effects which cannot be avoided should the proposal be implemented,

(3) Alternatives to the proposed action,

(4) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and

(5) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

(c) During the preparation of the draft statement, an office may informally contact Federal, State, and local agencies with environmental expertise for help in the preparation of the statement.

(d) Ten copies of the draft impact statement shall be forwarded to the Council on Environmental Quality.

(e) The draft statement shall also be circulated to Federal agencies which has jurisdiction by law or special expertise with respect to any environmental impact involved. Federal agencies which may be consulted are listed in the CEQ Guidelines, 36 FR 7724–7729, April 23, 1971.

(f) Time limits for reply shall be 30 days. In the case of the Environmental Protection Agency the time limit shall be 45 days.

§ 1999.4 Preparation and circulation of final impact statement.

(a) After comments have been received on the draft impact statement, and at least 30 days before final agency action, the appropriate office shall prepare a final impact statement.

(1) In the case of standards, the final impact statement must be prepared by the date that the Assistant Secretary publishes a proposed rule promulgating, modifying, or revoking a standard in the FEDERAL REGISTER.

(b) The final impact statement shall contain an analysis of all review comment and shall modify or amplify the draft impact statement as necessary.

(c) Ten copies of the final impact statement, together with comments received on the draft impact statement, shall be forwarded to the Council on Environmental Quality.

(d) After the final impact statement is prepared, a notice to the public shall be published in the FEDERAL REGISTER indicating the availability of such statement and requesting comments.

(e) In the cases in which an opportunity for a formal or informal hearing is provided under the act, the final impact statement shall be the proper subject of comment during such hearing.

§ 1999.5 Emergency circumstances.

(a) When emergency circumstances, overriding consideration of expense to the Government, or impaired program effectiveness make it necessary to take an action with significant environmental impact without observing the time limitations set out in this subpart, the appropriate office shall consult with the Council on Environmental Quality concerning alternative procedures.

§ 1999.6 Effect of final impact statement upon agency decision-making.

The Assistant Secretary shall consider the final impact statement and the comments, along with other considerations dictated by the Williams-Steiger Occupational Safety and Health Act, in deciding whether to take an action which is the subject of a final impact statement.

Signed at Washington, D.C., this 19th day of January 1973.

G. C. GUENTHER,
Assistant Secretary of Labor.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 73-12P]

MENOMINEE RIVER, WIS.

Proposed Drawbridge Operation Regulations

The Coast Guard is considering amending the regulations for the Ogden Street Bridge across the Menominee River at mile 0.37 between Marinette, Wis., and Menominee, Mich., at the request of the Wisconsin Division of Highways. This bridge is now open for vehicular traffic. It replaces a bridge that was located at mile 0.4. The vertical clearance of the new bridge is 3 feet greater than the bridge it replaced, or 12 feet from high water and 18 feet from low water. Commercial vessel traffic through this bridge has steadily declined from 1962 through 1970 from 579,000 tons in 1962 to 292,524 in 1970. The number of passengers in the same period dropped from 5,164 to 11. The proposed regulations would restrict vessels in the winter months and during the period from 12 midnight to 8 a.m.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Ninth Coast Guard District, 1240 East 9th Street, Cleveland, OH 44199. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Ninth Coast Guard District.

The Commander, Ninth Coast Guard District, will forward any comments received before March 6, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.644a immediately after § 117.644 to read as follows:

§ 117.644a Ogden Street Bridge, Menominee River, Wis.

(a) The draw shall open on signal:

(1) From April 15 through December 15 from 8 a.m. to 12 midnight.

(2) From April 15 through December 15 from 12 midnight to 8 a.m. if at least 2 hours notice is given to the authorized representative.

(3) From December 16 through April 14 if at least 12 hours notice is given to the authorized representative.

(b) Signals:

(1) The opening signal is one long blast followed by one short blast.

(2) The acknowledging signal is:

(i) One long blast followed by one short blast when the draw will open immediately.

(ii) Five short blasts when the draw cannot open immediately. When the draw will open the drawtender shall sound one long blast followed by one short blast.

(c) The draw need not open for the passage of vessels carrying appurtenances unessential to navigation which extend above the normal superstructure. Upon request, the District Commander will cause an inspection to be made of the superstructure and appurtenances of any vessel habitually frequenting this waterway.

(d) The owner of or agency controlling this bridge shall conspicuously post the provisions of this regulation both upstream and downstream in such a manner that it may be easily read at any time from an approaching vessel. The posted provisions shall state exactly how the authorized representative may be reached at any time.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: January 19, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-1558 Filed 1-24-73;8:45 am]

[33 CFR Part 117]

[CGD 73-13 P]

SPA CREEK, MD.

Proposed Drawbridge Operation Regulations

At the request of the city of Annapolis and the Maryland Department of Transportation, the Coast Guard is considering amending the regulations for the highway bridge across Spa Creek, Annapolis, Md., to better resolve the conflict between vehicular traffic over the bridge and boat traffic through the draw. This is due to an increase in vehicular traffic. The draw is presently required to open on signal, however, the draw may remain closed from 7:30 a.m. to 9 a.m. and 4:30 p.m. Monday through Friday, except State and Federal holidays. The proposed additional closed periods would be in effect from May 1 through October 31 from 6 a.m. to 12 midnight when the draw would be required to open only on the hour and half hour. The emergency vehicle provision is deleted because it is in 33 CFR 117.1a(e).

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Fifth Coast Guard District, Federal Building, 431 Crawford Street, Portsmouth, VA 23705. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Fifth Coast Guard District.

The Commander, Fifth Coast Guard District, will forward any comments received before March 6, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising § 117.311 to read as follows:

§ 117.311 Spa Creek, Md.; highway bridge at Annapolis.

(a) From May 1 through October 31 the owner of or agency controlling the drawbridge shall operate the draw as follows:

(1) From 12 midnight to 6 a.m. the draw shall open on signal.

(2) From 7:30 a.m. to 9 a.m. and 4:30 p.m. to 6 p.m. Monday through Friday the draw need not open for the passage of vessels. This subparagraph does not apply on Federal and Maryland State holidays.

(3) From 6 a.m. to 12 midnight, except from 7:30 a.m. to 9 a.m. and 4:30 p.m. to 6 p.m., the draw shall open on the hour and half hour if any vessels are waiting to pass. This subparagraph does not apply on Federal and Maryland State holidays.

(4) On Federal and Maryland State holidays the draw shall open on signal.

(b) From November 1 through April 30 the owner of or agency controlling the drawbridge shall operate the draw as follows:

(1) From 7:30 a.m. to 9 a.m. and 4:30 p.m. to 6 p.m., Monday through Friday, the draw need not open. This subparagraph does not apply on Federal and Maryland State holidays.

(2) At all other times, including Federal and Maryland State holidays, the draw shall open on signal.

(c) The draw shall open at any time for the passage of a public vessel of the United States or for a vessel in an emergency involving danger to life or property. The opening signal is four blasts of a whistle, horn, or by shouting.

Dated: January 19, 1973.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

[46 CFR Ch. I]

[CGD 72-245P]

CONSTRUCTION REQUIREMENT FOR TANK SHIPS

Advance Notice of Proposed Rule Making

The Coast Guard is considering certain construction standards for pollution abatement for new tank ships which intend to trade within the navigable waters of the United States. The Intergovernmental Maritime Consultative Organization (IMCO) is considering this problem on an international level and the Ports and Waterways Safety Act of 1972 (Public Law 92-340) has directed the Coast Guard to study this problem from the national point of view. The rules which may be proposed are described and discussed in the statement set forth below.

Interested persons may participate in the rule making through submission of written data, views, or comments regarding the proposal to the U.S. Coast Guard (GCMC/82), 400 Seventh Street SW., Washington, DC 20590. Communications should identify the notice number, CGD 72-245P, and the name, address, and organization, if any, of the commentator.

All communications received before March 15, 1973, will be fully considered and evaluated before a Notice of Proposed Rule Making is published. Copies of all written communications received will be available for examination in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC, both before and after the closing date for receipt of comments.

The Coast Guard in cooperation with the Maritime Administration and the American Institute of Merchant Shipping has nearly completed an extensive study of the effects of requiring tank ships to be capable of carrying sufficient ballast for normal operations without recourse to the use of oil tanks for water ballast.

Although the study has not been entirely completed, and no final conclusions reached, the Coast Guard acting independently is giving consideration to proposing regulations which would require a segregated ballast capability on:

(1) Tank ships delivered after January 1, 1976; and

(2) Tank ships delivered before January 1, 1976, whose building contract is placed and whose construction is begun after January 1, 1974.

The capacity of the segregated ballast tanks would be such as to achieve in the ballast condition of displacement not less than approximately 45 percent of the full load displacement of the ship. This segregated ballast capacity would be achieved in part by fitting, throughout the cargo length, a double bottom of a minimum height of one-fifteenth of the beam.

This height would be necessary for two reasons. First, it would be intended that segregated ballast water be carried in the double bottoms to significantly reduce the problem of intentional discharge of oily ballast at sea. Second, the double bottoms would provide a degree of protection against accidental discharge caused by grounding incidents. Consideration is also being given to requiring that all tankships (new and existing) be capable of retaining oil ballast and other wastes such as tank cleaning residues on board for shoreside disposal. Existing tankships and small new tankships would be permitted to engage in the practice of retention of oil on board (load on top) with specified discharge criteria.

Comment is also invited as to the desirability of applying these proposals to tank barges 300 feet long or more engaged in ocean and coastwise service.

This notice is issued under the authority of: 46 U.S.C. 391a; 49 CFR 1.46(o)(4).

Dated: January 18, 1973.

T. R. SARGENT,
Vice Admiral, U.S. Coast Guard, Acting Commandant.

Federal Railroad Administration

[49 CFR Part 215]

[Docket No. RSFC-3, Notice 2]

RAILROAD FREIGHT CARS

Prohibited Equipment; Postponement of Hearing

JANUARY 23, 1973.

On November 17, 1972, the Federal Railroad Administration published a notice of proposed rule making (37 FR 24445) to prohibit the use of certain types and models of freight cars and freight car components. The rule making would add provisions to a proposed Part 215 which would establish minimum Federal safety standards for railroad freight cars (37 FR 19821).

Included in the notice on November 17, 1972, was a notice of a public hearing to be held at 10 a.m. on January 25, 1973, in Room 5332, 400 Seventh Street SW., Washington, DC. This hearing was to be the third in a series of hearings

V 38-17 JAN 26 73 XUM

concerning railroad freight cars commencing on January 23, 1973. The first two hearings have been held as scheduled. However, because the President has declared Thursday, January 25, 1973, a National Day of Mourning in memory of President Johnson, the hearing set for that day has been postponed.

The new date, place, and time for the hearing will be Thursday, February 8, 1973, Rooms 5334 and 5336, Nassif Building, 400 Seventh Street SW., Washington, DC, at 10 a.m. Persons who desire to participate at the hearing should refer to the original notice (37 FR 24445) for a brief statement of the rules to be followed at the hearing.

Issued in Washington, D.C., on January 23, 1973.

DONALD W. BENNETT,
Chief Counsel.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 230]

[Release No. 33-5349]

"PART OF AN ISSUE," "PERSON RESIDENT," AND "DOING BUSINESS WITHIN"

Proposed Definitions

The Securities and Exchange Commission is considering adoption of a proposed rule 147 (17 CFR 230.147) which would define certain terms in, and clarify certain conditions of, § 3(a)(11) of the Securities Act of 1933 (the act). The Commission believes that the proposal would be in the public interest by protecting investors and providing, to the extent feasible, more certainty in determining when the exemption provided by that section of the act is available. Section 3(a)(11) (the intrastate offering exemption) exempts from certain provisions of the act, including the registration requirements of § 5, securities that are part of an issue offered and sold only to persons resident within a single State or territory, if the issuer is a person resident and doing business within that State or territory.

The Commission is aware that there are many public offerings of securities made in reliance on the exemption from registration provided by § 3(a)(11). However, some issuers may not be familiar with the administrative and judicial interpretations of that section, and, therefore, may be relying on it mistakenly. Moreover, the Commission believes that local businesses seeking financing solely from local sources should have objective standards to facilitate compliance with § 3(a)(11) and the registration provisions of the act.

In developing the definitions in, and conditions of, the proposed rule, the Commission has considered the legislative history and judicial interpretations of § 3(a)(11) as well as its own administrative interpretations. The Commission believes that a rule codifying certain of these interpretations will enable issuers to determine with more certainty whether they may use the exemption in offering their securities and will give more assurance that the intrastate offering exemption is used only for the purpose that Congress intended, i.e., local financing of companies primarily intrastate in character.[1]

Persons claiming an exemption pursuant to the proposed rule would have the burden of proving that they had satisfied all of its conditions. However, the proposed rule does not establish exclusive standards for complying with § 3(a)(11). Persons may claim a § 3(a)(11) exemption without complying with the proposed rule if they satisfy the standards set forth in relevant administrative and judicial interpretations of § 3(a)(11) in effect at the time of the transaction.

Proposed rule 147 would only provide an exemption from the registration provisions of § 5 of the Act. It would not provide an exemption from the antifraud provisions of the act or of the Securities Exchange Act of 1934 (Exchange Act) or from the registration and periodic reporting provisions of §§ 12(g) and 13 of the Exchange Act.

Rule 147 is proposed as another step in the Commission's continuing efforts to provide protection to investors and, where consistent with that objective, to add certainty, to the extent feasible, to the determination of when the registration provisions of the act apply. Other recent Commission actions in this regard were:

1. The adoption of rule 144 (17 CFR 230.144) (Securities Act Release No. 5223) (37 FR 599, 4329);

2. The adoption of rule 145 (17 CFR 230.145) (Securities Act Release No. 5316) (37 FR 23631);

3. The announcement of proposed rule 146 (17 CFR 230.146) (Securities Act Release No. 5336) (37 FR 26137).

This notice contains a general discussion of the background, purpose and general effect of the proposed rule to assist in a better understanding of its provisions. A brief analysis of each section of the rule is also included. However, attention is directed to the attached text of the rule itself for a more complete understanding of its provisions.

BACKGROUND AND PURPOSE

Congress, in enacting the Federal securities laws, created a continuous disclosure system designed to protect investors and to assure the maintenance of fair and honest securities markets. The Commission, in administering and implementing these laws, has sought to coordinate and integrate the disclosure system with the exemptive provisions provided by the laws. Proposed rule 147 is a further effort in this direction.

Section 3(a)(11) was intended to allow issuers with localized operations to sell securities as part of a plan of local financing. Congress apparently believed that a company whose operations are restricted to one area should be able to raise money from investors in the immediate vicinity without having to register the securities with a federal agency. In theory, the investors would be protected both by their proximity to the issuer and by State regulation.

The Commission has consistently taken the position that the exemption applies only to local financing provided by local investors for local companies. To satisfy the exemption, the entire issue must be offered and sold exclusively to residents of the State in which the issuer is resident and doing business. An offer or sale of part of the issue to a single non-resident will destroy the exemption for the entire issue.

[1] H.R. Rep. No. 85, 73d Cong., 1st Sess. 6-7 (1933); H.R. Rep. No. 1838, 73d Cong., 2d. Sess. 40-41 (1934).

Certain basic questions have arisen in connection with interpreting section 3(a)(11). They are:

1. What transactions does the section cover;

2. What is "part of an issue" for purposes of the section;

3. When is a person "resident within" a State or territory for purposes of the section; and

4. What does "doing business within" mean in the context of the section.

The courts and the Commission have addressed themselves to these questions in the context of different fact situations, and some general guidelines have been developed. These guidelines were set forth by the Commission in Securities Act Release No. 4434 (1961) (26 FR 11896) and are, for the most part, reflected in the rule. However, in certain respects, as pointed out below, the rule differs from past interpretations.

THE TRANSACTION CONCEPT

Although the intrastate offering exemption is contained in section 3 of the Act, which section is phrased in terms of exempt "securities" rather than "transactions", the legislative history and Commission and judicial interpretations indicate that the exemption covers only specific transactions and not the securities themselves. The exemption was first enacted as part of section 5 of the Act but was, by amendment to the Act in 1934, moved to section 3 in order to relieve securities dealers of an unintended restriction on their trading activity. The Commission noted in Release 4434, "This amendment was not intended to detract from its essential character as a transaction exemption."

The proposed rule reflects this interpretation of the exemption as a transaction exemption rather than a securities exemption.

THE "PART OF AN ISSUE" CONCEPT

The determination of what constitutes "part of an issue" for purposes of the exemption has been dependent on the facts involved in each case. The Commission noted in Release 4434 that "any one or more of the following factors may be determinative of the question of integration:

"1. Are the offerings part of a single plan of financing;

"2. Do the offerings involve issuance of the same class of security;

"3. Are the offerings made at or about the same time;

"4. Is the same type of consideration to be received; and

"5. Are the offerings made for the same general purpose."

Also, the Commission generally has deemed intrastate offerings to be "integrated", i.e., considered part of the same issue, with those registered or private offerings made by the issuer at about the same time.

The proposed rule does away with the case-by-case determination of what offerings should be integrated and provides, in general, that all securities sold by the issuer, its predecessor, and its affiliates, within any consecutive 6-month period, will be automatically integrated.

THE "PERSON RESIDENT WITHIN" CONCEPT

The object of the exemption, i.e., to restrict the offering to persons within the same locality as the issuer who are, by reason of their proximity, likely to be familiar with the issuer and protected by the State law governing the issuer, is best served by interpreting the residence requirement narrowly. The residence of individuals has usually been considered to mean their domicile rather than a temporary residence. The domicile of an individual must be determined in each instance in accordance with the relevant State law. Business organizations generally have been considered to be residents of the State where they are organized. In addition, the determination of whether all parts of the issue have been sold only to residents can be made only after the securities have "come to rest" in the hands of the investors.

The proposed rule does not substantially change these concepts, but it does abandon the domicile test and attempts to provide more objective standards for determining when a person is considered a resident and when securities have come to rest.

THE "DOING BUSINESS WITHIN" REQUIREMENT

Because the primary purpose of the intrastate exemption was to allow an essentially local business to raise money within its community where the investors would be likely to be familiar with the business and with the management, the doing business requirement has traditionally been viewed strictly. First, not only should the business be located within the State, but the principal or predominant business must be carried on there.[2] Second, substantially all of the proceeds of the offering must be put to use within the local area.[3]

The proposed rule reinforces these requirements by providing specific percentage amounts of business that must be conducted within the State and of proceeds that must be spent in connection with such business. In addition, the proposed rule requires the principal office of the issuer to be within the State.

PROPOSED RULE 147 (17 CFR 230.147)

1. *Introductory note.* There is an introductory note to the proposed Rule which briefly explains its purpose and provisions.

2. *Transactions Covered—Rule 147(a).* Paragraph (a) of the proposed rule provides that offers, offers to sell, offers for sale, and sales of securities that meet the conditions of the Rule will be deemed to be exempt from the Act pursuant to section 3(a)(11). Those conditions are: (1) The issuer must be resident and doing business within the State or territory in which the securities are offered and sold (Rule 147(c)); (2) the offerees and purchasers must be resident within such State or territory (Rule 147(d)); (3) resales must be limited (Rule 147(e)); and (4) precautions must be taken against interstate distribution (Rule 147(f)). In addition, the proposed rule defines "part of an issue."

3. *Definition of "Part of an Issue"—Rule 147(b).* Paragraph (b) of the proposed rule defines "part of an issue" of securities for purposes of the rule as all securities of the issuer, its affiliates and predecessors, other than those exempt under section 3(a) of the Act, that are offered or sold by the issuer, its affiliates and predecessors within any consecutive 6-month period. For purposes of the rule, offerings of securities by separate and distinct business enterprises for separate and distinct purposes would not be deemed part of an issue solely because both issuers had the same general partner.

This definition is intended to create greater certainty and to obviate the need for a case-by-case determination of when intrastate offerings should be integrated with other offerings, such as those registered under the Act or made pursuant to the exemption provided by section 4(2) of the Act.

4. *Nature of the Issuer—Rule 147(c)—"Person Resident Within"—Rule 147(c)(1).* Subparagraph (c)(1) of the proposed rule defines the situations in which issuers would be deemed to be "resident within" a State or territory. A corporation, partnership, trust or other form of business organization must be incorporated, organized or established pursuant to the laws of such State or territory. In addition, if a partnership, all the general partners must be resident within such State or territory.

5. *Nature of the Issuer—Rule 147(c)—Doing Business Within—Rule 147(c)(2).* Subparagraph (c)(2) of the proposed rule provides that the issuer would be deemed to be "doing business within" a State or territory in which the offers and sales are to be made if: (1) At least 80 percent of its gross revenues on a consolidated basis during its most recent fiscal year and any subsequent fiscal period were derived from the operation of property located in or from the manufacture of products or rendering of services within the State or territory and at least 80 percent of its assets as at the end of its most recent fiscal quarter are located within such State or territory; (2) it intends to use and does use not less than 90 percent of the proceeds from the sales made pursuant to the rule in such State or territory; and (3) its principal office is located in the State or territory.

These provisions are intended to assure that the issuer is primarily a local business.

6. *Offerees and Purchasers: Persons Resident—Rule 147(d).* Paragraph (d) of the proposed rule provides that offers and sales may be made only to persons resident within the State or territory. An offeree or purchaser of any part of an

[2] Chapman et al. v. Dunn, 414 F. 2d. 153 (8th Cir. 1969).

V 38 - 17 JAN 26 73 XUM

issue would be deemed to be a person resident within the State or territory if such person satisfied the residence standards of subparagraph (c)(1) of the rule, discussed above.

In addition, subparagraph (d)(3) of the proposed rule provides that, with respect to any entity organized for the specific purpose of acquiring securities in an offering, the residence of such entity shall be deemed to be the residence of each of beneficial owners of interest in such entity.

Subparagraph (d)(2) provides that an individual, in order to be deemed a resident, must have his principal residence in the State and must not have any present intention of moving his principal residence to another State.

7. *Limitations on Reoffers and Resales—Rule 147(e).* Paragraph (e) of the proposed rule provides that during the period of the distribution of any part of the issue and for a period of 12 months from the date of the last sale of any part of the issue, reoffers and resales of any part of the issue by any person shall be made only to persons resident within the same State or territory. This is intended to provide objective standards for determining when an issue "comes to rest."

Persons who acquire securities from issuers or affiliates in transactions complying with the rule would acquire unregistered securities that could only be reoffered and resold pursuant to an exemption from the registration provisions of the Act. During the distribution of the securities and for a period of 12 months after the last sale of any part of the issue of such securities, as defined in the rule, such persons could only reoffer or resell their securities pursuant to section 3(a)(11).

The Commission is considering alternatives to the 12-month period, and accordingly, particularly invites comments on this point.

8. *Precautions Against Interstate Distributoins—Rule 147(f).* Paragraph (f) of the proposed rule would require issuers to take steps to preserve the exemption, since any reoffer or resale of any part of the issue to persons resident in another State or territory will, under the Act, be in violation of section 5. The required steps are:

(a) Placing a legend on the certificate or other document evidencing the security stating that the securities have not been registered under the Act and setting forth the restrictions on transferability of the securities;

(b) Issuing stop transfer instructions to the issuer's transfer agent, if any, with respect to the securities, or, if the issuer transfers its own securities, making a notation in the appropriate records of the issuer;

(c) Disclosing the restrictions on reoffer and resale in writing to the person to whom any part of the issue is offered or sold;

(d) Obtaining a written representation from each purchaser as to his residence.

PROPOSED OPERATION OF PROPOSED RULE 147

If the proposed rule is adopted, it would operate prospectively only. The staff would issue interpretative letters to assist persons in complying with the new rule, but would not issue "no-action" letters in regard to transactions in reliance on section 3(a)(11) outside the rule.

The rule, if adopted, would be a nonexclusive rule. However, persons who chose to rely on section 3(a)(11) without complying with all the conditions of the rule would have the burden of establishing that they had complied with the judicial and administrative interpretations of section 3(a)(11) in effect at the time of the offering.

The Commission wants to emphasize that the exemption provided by section 3(a)(11) is an exemption from the registration provisions of the Act only. The civil liability provisions of section 12(2) and the antifraud provisions of section 17 of the Act and of section 10(b) of the Securities Exchange Act of 1934, are applicable to transactions exempted pursuant to section 3(a)(11).

In view of the objectives and policies underlying the Act, the rule will not be available to any individual or entity with respect to any transaction which, although in technical compliance with the provisions of the rule, is part of a plan by such individual or entity to sell or resell securities of a local issuer to nonresidents of the State in which the issuer does business. In the event such sale or resale takes place, registration would be required. In addition, any plan or scheme that involves a series of offerings by affiliated organizations in various States may, even if in technical compliance with the rule, be outside the parameters of the rule and of section 3(a)(11).

Commission action: Pursuant to authority in sections 3(a)(11), 5 and 19(a) of the Securities Act of 1933, as amended, the Securities and Exchange Commission proposes to amend Part 230 of Chapter II of Title 17 of the Code of Federal Regulations by adding thereunder new section 230.147 as set forth below:

§ 230.147 "Part of an Issue," "Person Resident," and "Doing Business Within" for Purposes of Section 3(a)(11).

Section 3(a)(11) of the Securities Act exempts transactions in "any security which is part of an issue offered and sold only to persons resident within a single State or territory, where the issuer of such security is a person resident and doing business within • • • such State or territory." As the Commission observed in Securities Act Release 1459 (1937) (Do.), the legislative history suggests that the exemption was intended to apply only to issues "which in reality represent local financing by local industries, carried out purely through local purchasing." Section 230.147 is intended to provide more objective standards for those issuers who wish to comply with the conditions of the exemption. All of the conditions of the section must be satisfied in order for the section to be available. These conditions are that the issuer be a resident of and doing business within the State or territory in which offers or sales are made, that no part of the issue be offered or sold to nonresidents for a period of time after distribution of the issue. The section defines "part of an issue," "resident," and "doing business within." Persons claiming the protection of the section have the burden of proving that they have satisfied all of its conditions. The proposed section does not establish exclusive standards for complying with § 3(a)(11). Persons may claim a § 3(a)(11) exemption without complying with the proposed section if they satisfy the standards set forth in relevant administrative and judicial interpretations in effect at the time of the transaction, but they have the burden of proving its availability.

(a) *Transactions covered.* Offers, offers to sell, offers for sale, and sales by an issuer of its securities shall be deemed to be part of an issue offered and sold only to persons resident within a single State or territory where the issuer is a person resident and doing business within such State or territory within the meaning of § 3(a)(11) of the act if all of the conditions of the section are satisfied.

(b) *Part of an issue.* For purposes of the section, all securities, other than those exempt pursuant to § 3(a) of the act, of the issuer, its affiliates, and predecessors, offered, offered for sale, or sold by the issuer, its affiliates and predecessors within any consecutive 6-month period shall be deemed to be part of the same issue; *Provided, however,* That securities offered, offered for sale, or sold by a person which is a business enterprise separate and distinct from the issuer and which is affiliated with the issuer solely by reason of the existence of a common general partner, shall be deemed not to be a part of such issue.

(c) *Nature of the issuer.* The issuer of the securities shall be a person resident and doing business within the State or territory in which the offers, offers to sell, offers for sale, and sales are made.

(1) *Person resident.* The issuer shall be deemed to be a resident of such State or territory if:

(i) A corporation, trust, or other form of business organization, other than a partnership, it is incorporated in or organized under the laws of such State or territory;

(ii) A partnership, it is organized under the laws of such State or territory and all of its general partners are residents of such State or territory.

(2) *Doing business within.* The issuer shall be deemed to be doing business within a State or territory of:

(i) The issuer derived at least 80 percent of its gross revenues on a consolidated basis during its most recent fiscal year and subsequent 3-, 6-, or 9-month period, from the operation of property located in or from the manufacture of products or rendering of services within such State or territory, and has, as at the end of its most recent fiscal quarter, at least 80 percent of its assets within such State or territory;

(ii) The issuer intends to use and uses at least 90 percent of the proceeds from sales made pursuant to this rule in connection with the operation of a business or purchase of real property located in, or rendering of services within, such State or territory; and

(iii) The principal office of such organization is located within such State or territory.

(d) *Offerees and purchasers: Person resident.* Offers, offers to sell, offers for sale, and sales shall be made only to persons resident within the State or territory of which the issuer is a resident.

(1) A corporation, partnership, trust, or other form of business organization shall be deemed to be a resident of a State or territory if it meets the residence conditions set forth in paragraph (c)(1) as to issuers.

(2) An individual shall be deemed to be a resident of a State or territory if such individual has, at the time of the offer and sale, his principal residence in the State or territory and has no present intention of moving his principal residence to a different State or territory.

(3) In any case in which a corporation, partnership, trust, or other form of business organization is organized for the specific purpose of acquiring part of an issue offered pursuant to § 3(a)(11), the residence of such organization shall be deemed to be the residence of each of the beneficial owners of any interest in such organization.

(e) *Limitation on reoffers and resales.* During the distribution of any part of the issue and for a period of 12 months from the date of the last sale of securities which are any part of that issue, all reoffers, reoffers for sale, and resales of any part of the issue, by any person, shall be made only to persons resident within such State or territory.

(f) *Precautions against interstate distributions.* The issuer shall, in connection with any securities offered or sold pursuant to this section:

(1) Place a legend on the certificate or other document evidencing the security stating that the securities have not been registered under the act and setting forth the restrictions on transferability of the securities;

(2) Issue stop transfer instructions to the issuer's transfer agent, if any, with respect to the securities, or, if the issuer transfers its own securities, make a notation in the appropriate records of the issuer;

(3) Disclose the restrictions on reoffer and resale in writing to the person to whom the issue is offered and sold;

(4) Obtain a written representation from each purchaser as to his residence.

All interested persons are invited to submit their views and comments on the proposed rule 147 to Richard H. Rowe, Associate Director, Division of Corporation Finance, Securities and Exchange Commission, Washington, D.C. 20549, on or before March 15, 1973. Such communications should refer to File No. S7-472. All such communications will be available for public inspection.

(Secs. 3(a)(11), 5, 19(a), 48 Stat. 75, 77, 85; secs. 202, 203, 209, 48 Stat. 906, 908; secs. 5, 6, 68 Stat. 684; sec. 12, 78 Stat. 580, 15 U.S.C. 77(c)(11), 77(e), 77(s)(a))

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

JANUARY 8, 1973.

TAX TREATMENT OF CONTRIBUTIONS OF APPRECIATED PROPERTY TO POLITICAL PARTIES

Notice of Hearing

A notice giving interested persons the opportunity to submit written comments or suggestions and to request a public hearing relating to the tax treatment of contributions of appreciated property to committees of political parties appeared in the FEDERAL REGISTER for Thursday, October 19, 1972 (37 FR 22427).

A public hearing on the matters contained in the notice will be held on Thursday, March 1, 1973, beginning at 10 a.m., e.s.t., in Room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, DC 20224.

The rules of § 601.601(a)(3) of the Statement of Procedural Rules (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202—964-3935. Under such § 601.601(a)(3), persons who have submitted written comments or suggestions by January 5, 1973, and who desire to present oral comments at such hearing should by February 15, 1973, submit an outline of the topics and the time they wish to devote to each topic. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Persons who desire a copy of such written comments or suggestions or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by February 22, 1973. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is twenty-five cents ($0.25) per page, subject to a minimum charge of $1.00.

LEE H. HENKEL, Jr.,
Chief Counsel.

Bureau of Narcotics and Dangerous Drugs

RESEARCH AND DEVELOPMENT ADVISORY COMMITTEE

Notice of Meeting

Pursuant to 21 U.S.C. 874, the Bureau of Narcotics and Dangerous Drugs (Bureau) will convene a meeting of its Research and Development Advisory Committee) on Monday, January 30, 1973.

In accordance with section 13(d) of Executive Order 11671 (dated June 5, 1972, released June 6, 1972), I have determined that because the activities of the Committee are analogous to those recognized in 5 U.S.C. 552(b)(7), in that they relate to the continued development of the investigative and enforcement capabilities of the Bureau, they should be withheld from disclosure. Accordingly, the meeting will not be open to the public.

Dated: January 19, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[R 4761]

CALIFORNIA

Notice of Proposed Withdrawal and Reservation of Lands

JANUARY 18, 1973.

The Forest Service, U.S. Department of Agriculture, has filed application Serial No. R 4761 for the withdrawal of the national forest lands described below from appropriation under the mining laws (30 U.S.C. Ch. 2) but not from leasing under the mineral leasing laws, subject to valid existing rights.

Prior to the filing of the proposed withdrawal application, these lands were open to entry under the general mining laws. The Forest Service has requested the withdrawal from mining in order to assure that the lands will remain in Federal ownership and to prevent activities adverse to public recreation uses.

On or before February 27, 1973, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, U.S. Department of the Interior, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

The Department's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination by the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN

SIERRA NATIONAL FOREST

Granite Creek Recreation Area

T. 4 S., R. 25 E.,
Sec. 31, N½NE¼SE¼SE¼, E½NE¼SE¼, E½W½NE¼SE¼, W½SE¼NE¼, W½E½SE¼NE¼, unsurveyed;
Sec. 32, W½SW¼SW¼SW¼, W½E½SW¼SW¼, SW¼NW¼SW¼, W½SE¼NW¼SW¼, W½NW¼NW¼SW¼, unsurveyed.

Soldier Meadow Recreation Area

T. 4 S., R. 25 E.,
Sec. 32, S½SE¼NE¼, S½N½SE¼NE¼, E½E½SE¼SW¼NE¼, E½SE¼NE¼SW¼NE¼, unsurveyed.

The areas described aggregate 148.75 acres in Madera County, Calif.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

[N.M. Misc. 21]

NEW MEXICO

Order Opening Lands To Entry

JANUARY 19, 1973.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended (43 U.S.C. 315g), the following described lands have been reconveyed to the United States:

NEW MEXICO PRINCIPAL MERIDIAN

T. 29 N., R. 10 E.,
Sec. 12, E½E½W½.
T. 29 N., R. 11 E.,
Sec. 7, lots 3, 4, E½SW¼ and W½SE¼.
T. 31 N., R. 11 E.,
Sec. 8, W½NE¼, SE¼NE¼, NW¼ and S½;
Sec. 17, N½ and NE¼SE¼.
T. 3 N., R. 3 W.,
Sec. 10, W½W½.
T. 1 N., R. 17 W.,
Sec. 29, W½SW¼;
Sec. 32.
T. 15 N., R. 11 W.,
Sec. 6;
Sec. 8, N½, N½S½, S½SW¼ and SE¼SE¼.
T. 28 S., R. 9 W.,
Sec. 36.
T. 29 S., R. 9 W.,
Sec. 2.
T. 27 S., R. 10 W.,
Sec 19, lots 1, 2, 3, 4, E½NE¼, SW¼NE¼, E½W½ and SE¼.
T. 1 S., R. 17 W.,
Sec. 6, lots 1, 2, 3, 4, 6, 7 and 8.
T. 1 S., R. 18 W.,
Sec. 2, lots 5 to 12, inclusive, and S½;
Sec. 3, SW¼SW¼;
Sec. 8, NE¼;
Sec. 10, N½NE¼, NW¼ and N½SW¼;
Sec. 15, S½NW¼, NW¼SW¼ and S½SW¼;
Sec. 18, lots 3, 4 and SE¼SW¼;
Sec. 19, lot 1, E½ and E½NW¼;
Sec. 21, NE¼NE¼;
Sec. 22, NW¼;
Sec. 27, S½SW¼;
Sec. 28, E½, NE¼SW¼ and S½SW¼;
Sec. 29, SE¼SE¼;
Sec. 30, lot 4, E½ and E½SW¼;
Sec. 31, lots 2, 3, 5, 6, 7, NE¼, E½NW¼, NE¼SW¼ and N½SE¼.
Sec. 33, lots 2, 3, 4, N½ and N½SW¼;
Sec. 34, NW¼.
T. 23 S., R. 18 W.,
Sec. 26, E½SE¼;
Sec. 35, N½NE¼ and E½NW¼.
T. 24 S., R. 18 W.,
Sec. 26, E½;
Sec. 33, E½NE¼.
T. 16 S., R. 17 E.,
Sec. 13, W½;
Sec. 24, W½;
Sec. 25.
T. 17 S., R. 17 E.,
Sec. 12, W½W½;
Sec. 13, W½W½ and SE¼SW¼;
Sec. 24, W½.
T. 16 S., R. 18 E.,
Sec. 20, lots 2, 3, 4, SE¼NW¼ and NW¼NE¼SW¼.

The areas described contain 12,829.30 acres, more or less in Catron, Chaves, Lincoln, Luna, McKinley, Otero, Socorro, and Taos Counties.

2. The topography of the lands described above varies from moderately rolling to rougher badlands and some mountainous and rough broken terrain created by intermittent drainages. Soils vary from sandy, clayey loams to shallow and rocky soils with moderate size boulders. Vegetation consists of native grasses, snakeweed, Spanish dagger, yucca, prickly pear cacti, creosote bush and pinion, and juniper trees.

3. Subject to valid existing rights the provisions of existing withdrawals and requirements of applicable law, the lands described above are hereby open to petition-application, location and selection. All valid applications received at or prior to 10 a.m. on March 12, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. The land described as W½W½ Section 10, T. 3 N., R. 3 W., N. Mex. Prin. Mer., shall also be open to applications and offers under the mineral leasing laws and to locations and entry under the U.S. mining laws. All valid applications received at or prior to 10 a.m. on March 12, 1973, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Inquiries concerning the lands shall be addressed to Technical Services Manager, Division of Technical Services, Bureau of Land Management, Post Office Box 1449, Santa Fe, NM 87501.

FRED E. PADILLA,
Acting Technical Services Manager, Division of Technical Services.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-328]

MONTPELIER TANKER CO. ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo-carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Applicant's name and address	Type of ship	Name of ship
Montpelier Tanker Co., 888 Seventh Avenue, New York, N.Y 10019.	Tanker....	SS Montpelier Victory.
Newport Tankers Corp., Suite 2023, One World Trade Center, New York, N.Y. 10048	Tanker ...	St. Achilles.
Blackships, Inc., 439 Seventh Avenue, Pittsburgh, PA 15230.	Tanker....	Gulf King. Gulf Knight. Gulf Prince. Gulf Queen.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C. during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before January 31, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: January 22, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

V38-17 JAN 26 73 XUM

National Oceanic and Atmospheric Administration

[Docket No. C-380]

LAWRENCE C. BATES AND BETTY L. BATES

Notice of Loan Application

JANUARY 18, 1973.

Lawrence C. Bates and Betty L. Bates, Post Office Box 188, Fort Bragg, Calif. 95437, have applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wooden vessel, about 50-foot in length, to engage in the fishery for salmon, tuna, and Dungeness crab off the coasts of California, Oregon, Washington, and Mexico.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, by February 26, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,
Acting Director.

Office of Import Programs

VETERANS' ADMINISTRATION HOSPITAL, SAN FRANCISCO, CALIF. ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, by February 15, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00192-00-46500. Applicant: Veterans Administration Hospital, 4150 Clement Street, San Francisco, Calif. Article: Diamond Knife for LKB Microtome, 2 mm., edge. Manufacturer: Instituto Venezolano De Investigaciones Cintificas, Venezuela. Intended use of article: The article is to be used to obtain ultrathin sections of plastic embedded blocks of brain tissue infected by viruses. Sections so obtained must be as thin as possible and free of artifacts such as scratches etc. Application received by Commissioner of customs: October 3, 1973.

Docket No. 73-00317-33-46500. Applicant: Veterans Administration Hospital, 113 Holland Avenue, Albany, N.Y. 12208. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to cut sections of variable thickness of pathological specimens from patients which are to be examined by electron microscopy. The article will also be used to train residents, future investigators at the doctoral level and also technologists in electron microscopic techniques. In addition, the article will be used for the training of M.D./Ph. D. scholars in research. Application received by Commissioner of Customs: January 3, 1973.

Docket No. 73-00318-33-46500. Applicant: University of Michigan, Mental Health Research Institute, 205 North Washtenaw, Ann Arbor, Mich. 48104. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in the investigation of biological material, primarily brain tissue or fractions thereof. The primary interest is the biochemistry and ultrastructure of proteins and lipids in the nervous system. The experiments to be conducted involve the technique of electron microscopic radioautography. The article will also be used to educate scientists with a wide variety of interests in the basic techniques of electron microscopy. Application received by Commissioner of Customs: January 3, 1973.

Docket Number: 73-00319-33-46040. Applicant: United States Environmental Protection Agency, Gulf Breeze Environmental Research Laboratory, Gulf Breeze, Fla. 32561. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to study the normal and pathologic cells and tissues of estuarine and marine invertebrates, and fishes. In addition to experimental studies, the instrument will be used to diagnose possible causes of death in marine organisms from "wild" to natural populations. The article will also be used for educational purposes in providing staff members of the immediate laboratory and the surrounding educational institutions limited instruction in the use of the electron microscope. Application received by Commissioner of Customs: January 5, 1973.

Docket Number: 73-00320-33-46040. Applicant: The University of Texas, Medical School at Houston, 243 John H. Freeman Bldg., Texas Medical Center, Houston, Tex. 77025. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in studies of human tissue obtained by biopsy, which include both normal and abnormal ultramicroscopic changes. The morphology of the tissue will be studied in relationship to the disease it shows, particularly changes induced by neoplasm and by viral agents. Specific properties to be studied are cell membranes, lysosomes and other vacuoles, microtubular apparatus and nucleoli. The article will also be used in the training of medical students, residents and special fellows to teach research attitudes and techniques and improve the student's ability to think logically and use the scientific method as a medical practitioner. Application received by Commissioner of Customs: January 5, 1973.

Docket Number: 73-00321-33-46040. Applicant: University of Wisconsin, Laboratory of Neurophysiology, 283 Medical Sciences Bldg., Madison, Wis. 53706. Article: Electron Microscope, Model HU-12. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used for the study of the ultrastructure of the brain of various animals. The area of interest is the hypothalamus, particularly the ependyma of the third ventricle. The article will also be used for advanced training of graduate students and postdoctoral students. Application received by Commissioner of Customs: January 5, 1973.

Docket No. 73-00322-99-61800. Applicant: Herkimer County Board of Cooperative Educational Services, 132 West German Street, Herkimer, N.Y. 13350. Article: Planetarium Projector, Model MS-8. Manufacturer: Minolta, Japan. Intended use of article: The article together with the control console will be used in Astronomy 1, Astronomy 2 and Concepts in Science, grades 3-12 to demonstrate (1) astronomical phenomena, (2) astronomical and navigational measurement techniques, (3) observational data from which laboratory exercises shall be completed, (4) material for an apprenticeship program for teacher training in planetarium operation and (5) laboratory equipment for student operation in required courses. Application received by Commissioner of Customs: January 5, 1973.

Docket No. 73-00323-33-46500. Applicant: Sloane Kettering Institute for Cancer Research, 410 East 68th Street, New York, N.Y. 10021. Article: Ultramicrotome, Model OM U2. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used to examine histochemical and proliferative characteristics of epithelial and specialized cells lining the

alimentary canal. Analysis of the incorporation of ^{3}H and ^{14}C labeled precursors into nucleic acids and proteins of cells of normal and diseased gastrointestinal origin will be conducted. These investigations aim to describe and define normal patterns of cell replacement as well as contrast premalignant and malignant changes in proliferation and differentiation. The article will also be used in the course "Radioisotopes and Cytology" designed to teach students the basic aspects of cytology and the use of radioactive isotopes as well as educate them in the use of instruments employed in the study of cell structure, function and metabolism. Application received by Commissioner of Customs: January 5, 1973.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

[FR Doc.73-1542 Filed 1-24-73;8:45 am]

UNIVERSITY OF WISCONSIN

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00643-33-46070. Applicant: University of Wisconsin, Department of Entomology, 237 Russell Laboratories, 1630 Linden Drive, Madison, WI 53706. Article: Scanning electron microscope, Model JSM-U3. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studies extending to and elucidating the nature of the sensory receptor cell membrane in different states of excitation. The article will also be used for recording and observation of changes in the distribution and number of other microcomponents of the receptor cell, many of which are in the 100 angstrom area of dimension. Other studies concern the determination of glial cell organization, which cells surround the receptor cell axons and the ultrafine dendritic terminals in the finer labellar bristles of many types of flies. The article will also be used to impart to the advanced undergraduate and graduate student the fundamental principles of SEM so that individual can pursue independent SEM observations on materials pertaining to his (or her) research or other interest.

Comments: Comments dated August 22, 1972, have been received from ETEC Corp. (ETEC) which allege inter alia that its autoscan SEM system, model U-1 and accessories is of equivalent scientific value to the foreign article. A letter dated August 29, 1972, from the Advanced Metals Research Corp. (AMR) which alleges inter alia that "the AMR Model 900 • • • is fully competitive, if not superior to, [the foreign article] in • • • scientific capability • • •" was received after expiration of the comment period and is being treated as an offer to provide additional information pursuant to § 701.10 of the regulations.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (June 18, 1971).

Reasons: This application is a resubmission of Docket No. 72-00136-33-46070 which was denied without prejudice to resubmission on May 2, 1972, due to informational deficiencies. The Department of Health, Education, and Welfare (HEW) in its memorandum dated October 20, 1972, advised that the best resolution available is pertinent (within the meaning of § 701.2(n) of the regulations) to the research studies of the sensory receptor unit membrane and other microcomponents of photoreceptor cells. The foreign article has a guaranteed resolution of 100 angstroms. The ETEC and AMR instruments now guarantee 100 angstroms. However, at the time the foreign article was ordered their instruments had guaranteed resolutions of 200 angstroms and 100 to 150 angstroms, respectively. HEW further advises that 100 angstroms resolution was not available in domestic scanning electron microscopes most nearly comparable to the foreign article at the time the foreign article was ordered. We, therefore, find that neither the Model U-1 nor the AMR-900 was of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the foreign article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

SECRETARY'S TECHNICAL ADVISORY COMMITTEE ON POISON PREVENTION PACKAGING

Notice of Public Meeting

Pursuant to the Federal Advisory Commitee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776), the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in § 10(a) (1) and (2) of the act:

Committee name	Date/time/place	Type of meeting and contact person
Secretary's Technical Advisory Committee on Poison Prevention Packaging.	Feb. 1 and 2, 9 a.m., South Scott Room, Gramercy Inn, 1616 Rhode Island Avenue NW., Washington, DC 20036.	Open-Executive Secretary, Mr. Samuel M. Hart, Room 228, 5401 Westbard Avenue, Bethesda, MD 20016, 301 436-7685.

Purpose. Makes recommendations to the Commissioner of Food and Drugs for implementation of special packaging of household products.

Agenda. On Thursday, February 1, 1973, 9 a.m., the agenda will include introductory remarks, Commission on Consumer Product Safety, and status report. At 2 p.m., drugs and child-resistant packaging and promotionally distributed samples and child-resistant packaging will be discussed; and on Friday, February 2, 1973, 9 a.m., there will be a panel discussion on the packaging process testing procedure.

The meeting of the committee will be open to the public, and a period of time will be allotted for public participation. Members of the public who wish to participate are requested but not required to submit by January 30 their names, issues they intend to discuss, and any pertinent documentation to the committee's executive Secretary, the contact person.

A verbatim transcript will be kept and made available for public inspection at the office of the contact person for the committee. Persons desiring copies of the transcript should contact Ace-Federal Reporters, Inc., 415 Second Street NE., Washington, DC 20002.

A list of committee members and summary of minutes of the meeting may be obtained from the contact person.

Dated: January 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-1615 Filed 1-24-73;8:45 am]

METAL CONTAINERS FOR 12 ASPIRIN TABLETS

Temporary Exemption From Requirements for Poison Prevention Packaging

The Commissioner of Food and Drugs has received petitions from Sterling Drug, Inc., and American Home Products Corp. requesting exemptions from the child protection packaging requirements as they pertain to 12-tablet metal containers (tins) of aspirin. Copies of the two petitions and attachments have been filed with the Food and Drug Administration Hearing Clerk and may be viewed there during working hours, Monday through Friday.

1. The petitions contend that, because tins of 12 meeting the requirements for

V38-17 JAN 26 73 XUM

child protection packaging have not yet been developed, such packaging is not "technically feasible, practicable, and appropriate" and thus may not lawfully be required under § 3(a)(2) of the Poison Prevention Packaging Act of 1970.

The Commissioner rejects this argument. The statute requires only that special packaging for a given substance be technically feasible, practicable, and appropriate in general terms, and that requirement has been met with respect to aspirin. There is an abundance of special packaging in which aspirin is being sold. Indeed, there is an abundance of special packaging that could contain 12 tablets of aspirin. Petitioners have failed to point to any reference in the statute or the legislative history indicating that Congress intended the Food and Drug Administration to permit the use of a noncomplying package because technology presently has not developed a complying package of that particular type, even though numerous other complying packages are available. Such a position would subvert the entire purpose of the act, and the Commissioner rejects it.

2. The petitioners contend, on the basis of surveys showing a relatively small amount of aspirin in tins contained in the household, that these products are not "household substances" as that term is defined in § 2(2) of the Poison Prevention Packaging Act of 1970 and thus fall outside the jurisdiction of the act.

The Commissioner also rejects this argument. It does not appear that the survey included automobile glove compartments, coat pockets, purses, and other similar places where small packages of this type might reasonably be stored in and around the household. Moreover, even if only a small amount of a substance is consumed or used, or customarily stored, by individuals in or around the household, that is sufficient to bring the product within the purview of the act. Accordingly, the Commissioner rejects any contention that these products are not fully subject to the requirements of the act.

3. The third contention of the petitioners is that the amount of aspirin contained in the 12-tablet tin is insufficient to cause children the "serious personal injury or serious illness" required under § 3(b)(2) of the act and thus, on the ground of lack of toxicity, this particular container should be exempted temporarily from the requirement of special packaging until such packaging can be developed and placed into use. Petitioners state that they do not seek a permanent exemption, even though they believe the medical facts would justify such an exemption, but only wish to have an opportunity to develop special packaging that will work.

In support of this request for a temporary exemption, petitioners make the following contentions.

(a) One of the products involved contains 73.8 grains of aspirin and the other contains 60 grains of aspirin, in 12 tablets.

(b) In a report entitled "Estimation of the Toxic Dose of Aspirin for Children," Done et al. have concluded that "it seems unlikely that more than mild poisoning will occur with doses of less than about 2.5 grains per pound of body weight, or that fatalities would not occur with less than about 4 gr./lb." Using the customary standard of a 25-pound child, this would mean that only mild poisoning would occur at up to 62.5 grains of aspirin and fatalities would not occur at less than 100 grains.

(c) Affidavits from Dr. Louis Lasagna, professor and chairman of the department of pharmacology and toxicology, and professor of medicine of the University of Rochester, School of Medicine, and from Dr. Arthur Grollman, professor of experimental medicine, department of pathology, Southwestern Medical School, state that the conclusions drawn in the Done paper are "too conservative" and that the ingestion of 3 grains or less of aspirin per pound of body weight by a child would cause no more than mild discomfort or moderate or mild symptoms. Based upon the figure of 3 grains per pound of body weight, they reach the safe level of 75 grains.

(d) Petitioner American Home Products Corp. presents data that its tin comes close to meeting the standards specified in the poison prevention packaging regulation (21 CFR 295.10) and in fact meets the requirements earlier recommended by the so-called press committee. Both petitioners state that reports of the National Clearinghouse for Poison Control Centers and reports obtained independently by the industry show that aspirin packaged in tins of 12 has not been a factor in cases of child poisoning.

The Commissioner, upon reviewing the information contained in these petitions, believes that reasonable grounds have been presented for considering a temporary exemption for a period not to exceed 1 year, for any tin containing aspirin tablets not in excess of 75 grains of aspirin, on the ground of a lack of serious personal injury or illness resulting from the use of this container. Comment is requested from all persons who may have information bearing on the proper resolution of this matter.

4. The petitioners request that the regulation requiring special packaging for preparations containing aspirin (37 FR 3427), as recently affirmed (38 FR 1227), be stayed pending the Commissioner's decision with respect to these petitions.

The Commissioner concludes that, although there are reasonable grounds for publishing these petitions, he is not prepared at this time to state whether they should or should not be granted. The statute itself provides that the time for compliance with a requirement for special packaging may not be extended beyond 1 year after promulgation of the requirement, and this time will expire shortly. The Commissioner concludes that the proper procedure is to deny a stay and to order that the time for comment on these proposals be expedited.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (§§ 2, 3, 5, 84 Stat. 1670–1672; 15 U.S.C. 1471, 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner publishes the above petitions for comment.

Interested persons may, on or before February 12, 1973, file with the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this matter. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday. No extension of time will be granted for comment.

Dated: January 23, 1973.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

National Institutes of Health

ADVISORY COMMITTEE TO THE DIRECTOR

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the Advisory Committee to the Director, NIH, February 22, at 1 p.m. to 5 p.m., and February 23, at 9 a.m. to 5 p.m., National Institutes of Health, Building 1, Conference Room 114. This meeting will be open to the public from 1 p.m. to 5 p.m. on February 22, and 9 a.m. to 5 p.m. on February 23, to discuss policy matters of concern to the Director, NIH. Attendance by the public will be limited to space available.

Rosters of Committee members and summary of the meeting may be obtained from the Exceutive Secretary, Charles R. McCarthy, Ph. D., Building 1, Room 224, 496–3471.

JOHN F. SHERMAN,
Deputy Director, National Institutes of Health.

JANUARY 17, 1973.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

YOUTHS HIGHWAY SAFETY ADVISORY COMMITTEE

Notice of Public Meeting

On February 3 and 4, 1973 the YOUTHS Highway Safety Advisory Committee will hold an open meeting at Key Bridge Marriott Motor Hotel, Arlington, Va. The Committee is composed of persons appointed by the Secretary of Transportation to advise and consult with the National Highway Traffic Safety Administrator concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries.

The meeting will be in session from 9 a.m. to 6 p.m. on February 3 and from 9 a.m. to 12 noon on February 4. The agenda is as follows:

Discussion of Resolution on Public Information and Education and Governor's Youth Highway Safety Committee.

Development of new issues to be covered by the national public information and education program.

This notice is given pursuant to section 13 of Executive Order 11671, June 5, 1972.

Issued on January 19, 1973.

CALVIN BURKHART,
Executive Secretary.

[FR Doc.73-1595 Filed 1-24-73;8:45 am]

ATOMIC ENERGY COMMISSION

CALIFORNIUM-252 PRICES

Notice of Modification of Standard Forms and Handling Charges

The U.S. Atomic Energy Commission hereby announces revisions to the notice entitled "Californium-252 Prices, Standard Forms and Handling Charges" as published in the FEDERAL REGISTER on November 11, 1972 (37 FR 24055).

1. Paragraph 2 is amended by the addition of the word "nominally" before the words "5, 50, and 500 micrograms per inch." As so amended, paragraph 2 reads as follows:

2. The palladium-californium oxide cermet will be available to both domestic and foreign customers in wire and pellet form. Initial californium concentrations in wire form will be nominally 5, 50, and 500 micrograms per inch; however, special orders for concentrations other than these will be considered, with charges for special orders determined in individual cases. Cf-252 cermet pellets are being offered in addition to the wire form because standard 100 series double-encapsulated sources, a design currently offered by commercial source encapsulators, can hold up to 10 mg. of Cf-252 in pellet form compared to a maximum of 2 mg. of Cf-252 in wire form.

2. Paragraph 3 is amended by the addition of the word "nominal" before the words "500 microgram per inch" and before the words "50 or 5 microgram per inch." In addition, the parenthetical phrase "or fraction thereof" should be deleted. As so amended, paragraph 3 reads as follows:

3. Because of increased labor costs since initiation of Cf-252 sales, handling charges for Cf-252 in Pd-Cf_2O_3 and oxide must be increased from the current rate of $1,600 per standard shipment, effective immediately. The following charges are now in effect: Pd-Cf_2O_3 wire or pellets: $1,250 for capsule assembly and preparation plus $600 per inch of nominal 500 microgram per inch wire and $100 per inch of nominal 50 or 5 microgram per inch wire; or $850 per pellet. Cf-252 Oxide: $1,850 per package.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Effective date. This notice is effective on January 26, 1973.

Dated at Germantown, Md., this 17th day of January 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-1495 Filed 1-24-73;8:45 am]

[Docket No. 50-263]

NORTHERN STATES POWER CO.

Supplemental Notice of Hearing on a Facility Operating License

In the matter of Northern States Power Co. (Monticello Nuclear Generating Plant, Unit 1), Docket No. 50–263.

The Commission's "Notice of Hearing on a Facility Operating License" in the above matter, dated December 19, 1972, and published in the FEDERAL REGISTER on December 27, 1972 (37 FR 28544) is, sua sponte, modified in the following respect. The sentence beginning on the penultimate line of page 1 is deleted, and the following inserted in its place: "The hearing will consider (1) whether, considering those matters covered by appendix D to 10 CFR Part 50, the provisional operating license should be continued, modified, terminated, or appropriately conditioned to protect environmental values, and (2) whether, in accordance with the requirements in 10 CFR Part 50, appendix D, and 10 CFR 50.57, a full-term operating license should issue. An operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set out in 10 CFR 50.57a which are not embraced by the board's decision, and upon compliance with the applicable provisions of appendix D to 10 CFR Part 50.

Dated at Germantown, Md., this 17th day of January 1973.

It is so ordered.

By the Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-1496 Filed 1-24-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket No. 24072]

EXPANDED APPLICATION OF CATEGORY Z FARES

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on February 20, 1973, at 10 a.m. (local time), in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before Administrative Law Judge E. Robert Seaver.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on December 4, 1972, the supplemental prehearing conference report served December 21, 1972, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., January 19, 1973.

[SEAL] E. ROBERT SEAVER,
Administrative Law Judge.

[FR Doc.73-1565 Filed 1-24-73;8:45 am]

[Docket No. 22387; Order 73-1-63]

INVESTIGATION OF AIR EXPRESS RATES

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 19th day of January 1973.

By tariff revisions filed December 21, 1972, and marked to become effective January 20, 1973, REA Express, Inc. (REA) and the participating airlines propose increases and reductions in general commodity rates and increases in rates for live animal shipments at lower weights between points on the mainland and points in Alaska, Hawaii, and Puerto Rico for distances 2,500 miles and above.

Increases in general commodity rates are limited to shipments of 25 pounds or less, depending upon distance. The current minimum charge of $9.50, which has been in effect since November 1971, would be raised to $10.50. Based upon our sample, general commodity rates for other small shipments up to 25 pounds would be increased from 1.8 to 17.8 percent for distances up to about 3,700 miles. Rates for higher weight shipments for distances up to about 3,700 miles would be reduced by between 1.2 and 25.9 percent below current levels. For shipments other than minimum-charge shipments and moving distances over 3,700 miles, the current rates would either be unchanged or reduced from 5.7 to 32.2 percent below current levels.

Currently, there are no specific commodity rates in effect on live animals and birds between the mainland and Alaska, Hawaii, and Puerto Rico for the distances involved and the general commodity level is applicable for this traffic. The proponents proposed to establish specific commodity rates for live animals in these offshore markets. These new specific commodity rates will involve increases for small live animal shipments (up to 25 pounds) without any change for larger shipments. Where reductions are proposed for the current general commodity rates for larger shipments, the proposed live animal rates would remain

V 38 - 17 JAN 26 73 XUM

unchanged at the current general commodity level; and where increases are proposed in general commodity rates for smaller shipments, the live animal rates would be increased to this level.[1]

The proponents assert, inter alia, that the purpose of the proposal is to (1) make air express charges competitive with air freight forwarder charges for comparable shipments, (2) establish rates on a more cost-oriented basis, and (3) establish a rate structure which is consistent with the current rates applicable for traffic moving generally 2,500 miles or less. According to REA, the proposal is expected to generate additional revenues of approximately $20,000.

The proposed rates come within the scope of the Investigation of Air Express Rates, Docket 22387, and the lawfulness of these rates will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or permit it to become effective pending final decision of the Board in that investigation.

Upon consideration of all relevant factors, the Board finds that the proposed rates should be suspended to the extent that they involve increases. The justification presented by the proponents does not adequately justify the increases proposed.

The proponents claim that the proposed increases are justified essentially by costs adopted by the Administrative Law Judge in his Initial Decision, with some adjustments to account for inflation, but the costs presented actually involve significant adjustments to those costs. With respect to airline capacity and noncapacity costs, the costs presented have been increased above those in the Initial Decision from 10.9 to 34.2 percent, prior to adjustments to account for inflation through 1972.

Suspension of the increased rates will result in continuance of the current $9.50 minimum charge and rates for other small shipments up to 25 pounds, and no changes whatsoever in the current live-animal level.

The proposal, to the extent that it results in reductions, will be permitted to become effective pending the final decision in the investigation. These reductions, according to REA, would result in additional annual revenues of approximately $11,100 or more than one-half of the $20,300 that would have accrued from the entire proposal.

The above conclusions, of course, are not intended to prejudge the Board's final decision in Docket 22387.

[1] An example of the proposed charges for rate scale 90:

DOLLARS PER SHIPMENT

Pounds	Current rates for general commodities and live animals	Proposed rates for general commodities	Proposed live animal rates
5	$9.50	$10.50	$10.50
15	15.30	16.75	16.75
25	21.30	21.04	21.30
50	36.30	31.61	36.30

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including April 19, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. A copy of this order shall be filed with the tariffs and served upon the parties in Docket 22387.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST

Addition to Initial List

Notices of proposed additions to the initial procurement list, August 26, 1971 (36 FR 16982) were published in the FEDERAL REGISTER on October 19, 1971 (36 FR 20260), December 16, 1971 (36 FR 23943), and July 26, 1972 (37 FR 14902).

Pursuant to the above notices, the following commodity and services are added to the procurement list.

COMMODITY

CLASS 7530

Pad, writing paper	NIB will provide requirements for GSA regions shown in parentheses	Price
White unruled 3" x 5" 7530–285–3090.	(1, 6)	$0.665 PG
White unruled 5" x 8" 7530–239–8479.	(1, 4, 5, 6, 7, 8)	0.78 PG
White unruled 8" x 10½" 7530–285–3088.	(1, 2, 3, 4, 6, 7, 8)	1.57 PG
White ruled both side 8" x 10½" 7530–285–3083	(1, 5, 6)	1.635 PG

SERVICES

Type of service	Geographical coverage	Price
Final assembly of food packet, survival, general purpose, individual (FSN 8970–082–5665).	All Government requirements.	$6.71 per box of 24 cans.
Mailing service	U.S. Coast Guard Academy, New London, Conn.	Price list issued separately.

COUNCIL ON ENVIRONMENTAL QUALITY

ADVISORY COMMITTEE ON ALTERNATIVE AUTOMOTIVE POWER SYSTEMS

Notice of Public Meeting

Notice is hereby given that the Council on Environmental Quality's Advisory Committee on Alternative Automotive Power Systems (formerly the Advisory Committee on Advanced Automotive Power Systems) will hold its next meeting in Berkeley, Calif., on January 29 and 30, 1973. The first session will commence at 9 a.m. in the Alumni House on the campus of the University of California at Berkeley. All sessions will be open to the public.

The agenda for this meeting of the Advisory Committee will include:

1. Review of combustion related research at the University of California.
2. Review of changes in Environmental Protection Agency program on advanced automotive power systems.
3. Review of panel report to the National Academy of Sciences on the feasibility of alternative vehicle power sources.
4. Review of National Science Foundation projects on battery technology and the impact of advanced vehicle power systems.
5. Review of Office of Science and Technology transportation energy study.
6. Review of Department of Transportation projects on vehicle energy utilization, Rankine cycle bus engines and socioeconomic impact of advanced vehicle engines.
7. Review of National Aeronautics and Space Administration projects on vehicle energy utilization, thermal reactor materials and urban mass transit.
8. Review of the State of California's Rankine cycle passenger car project.
9. Review of Department of Defense projects in low emission and low fuel consumption engines.
10. Review of Department of Commerce project in emissions measurements and calibration standards.
11. Review of General Services Administration project on dual fuels demonstration.
12. Review of Postal Service projects on dual fuels demonstration and electrically powered postal vehicles.

A list of advisory committee members is available from, and requests for additional information should be made to: Dr. Philip E. Schambra, Council on Environmental Quality, 722 Jackson Place NW., Washington, DC 20006 (202/382–6754).

TIMOTHY ATKESON,
General Counsel.

[FR Doc.73–1494 Filed 1–24–73;8:45 am]

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Public Availability

Environmental impact statements received by the Council from January 8 through January 12, 1973.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, 202—447–7803.

Draft, January 10
Cooperative 1973 Gypsy Moth Suppression Program. The statement refers to a program for the suppression and/or regulation of the gypsy moth. USDA would cooperate with State officials of Connecticut, Delaware, Iowa, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and West Virginia, in the treatment of 280,000 acres. The agents to be used are carbaryl, trichlorfon, and Bacillus thuringiensis. The most significant adverse effect considered is that of the reduction of beneficial insects and soil arthropods. (140 pages) (ELR Order No. 00043) (NTIS Order No. EIS 73 0042–D)

AGRICULTURAL RESEARCH SERVICE

Draft, January 8
Pilot Study, Municipal Waste Composting, Maryland; County: Prince Georges. The statement refers to a proposed research-demonstration pilot study under which sewage sludge cake from the Blue Plains Waste Water Treatment Plant will be transported to a 5 to 10 acre site of the Agricultural Research Center in Beltsville. There it will be composted and cured, and used for research or land improvement. Possible adverse environmental effects include those of odor and flies, and drainage water pollution. (18 pages) (ELR Order No. 00030) (NTIS Order No. EIS 73 0030–D)

FOREST SERVICE

Final, January 9
Timber Harvest, Tonto National Forest, Ariz. The statement refers to a proposed Timber Management Plan, which would involve the harvesting of timber resources of the Forest for the period from July 1, 1973 to June 30, 1982. The amount of land to undergo cutting on the 2,883,794-acre Forest is not specified. The construction of new and improved roads will be necessary. The action will adversely affect air and water quality, wildlife habitat, and visual resources. (90 pages) Comments made by: USDA, DOC, HUD, EPA, DOI, DOT, SBA, concerned citizens, State and local agencies, Arizona Congressional Delegation (ELR Order No. 00039) (NTIS Order No. EIS 73 0039–F)

SOIL CONSERVATION SERVICE

Draft, January 4
Ogunquit Sand Dune Stabilization, Maine; County: York. The statement refers to the proposed land stabilization of a 28-acre barrier dune, through the placement of sand, planting of vegetation, and installation of erosion and pedestrian control measures. (17 pages) (ELR Order No. 00022) (NTIS Order No. EIS 73 0022–D)

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202—973–5391.

For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing 202—973–7373, Washington, D.C. 20545.

Draft, January 2
Millstone Nuclear Power Station Unit 2, Connecticut. The statement refers to the proposed continuation of a construction permit and the issuance of operating licenses to the Millstone Point Co., the Connecticut Light & Power Co., the Hartford Electric Light Co., and the Western Massachusetts Electric Co. for continued operation of Unit 1 and operation of Unit 2. Unit 2 is a pressurized water reactor which will produce 2,700 MWt and 830 MWe (net). Exhaust steam is condensed by a once through flow of water from a quarry pond, and back into Long Island Sound. Marine biota is adversely affected by operation of the plant. (244 pages) (ELR Order No. 00010) (NTIS Order No. EIS 73 0010–D)

January 8
Trojan Nuclear Plant, Oregon; County: Columbia. The statement refers to the continuation of a construction permit and the issuance of an operating license to the Portland General Electric Co. The plant will employ a single pressurized water reactor to produce 3,423 MWt and 1,130 MWe (net). Heat will be discharged to the Columbia River. Maximum water consumption will be 0.01 percent of the river flow; 0.05 percent of the aquatic life passing the site will be destroyed. Approximately (300 pages) (ELR Order No. 00028) (NTIS Order No. EIS 72 0028–D)

Draft, January 4
Barnwell Nuclear Fuel Plant (BNFP), South Carolina; County: Barnwell. The statement refers to the regulating of construction and operation of the plant by Allied-Gulf Nuclear Services. BNFP will recover unused uranium and plutonium from irradiated nuclear fuels, using an adaption of the Purex process technology. Design capacity is for 1,500 tons of enriched uranium oxide fuel annually, the equivalent of reprocessing the spent fuel from nuclear powerplants having a combined capacity of 50,000 MWe. The gaseous release of radioactivity will be reduced to a level as low as practicable. (80 pages) (ELR Order No. 00020) (NTIS Order No. EIS 73 0020–D)

DEPARTMENT OF DEFENSE, ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202—693–7168.

Draft, January 12
Steam Generating Station Unit 6, New York. The statement refers to a permit application (pursuant to Section 10 of the River and Harbor Act of 1899) by the Niagara Mohawk Power Corp., to construct intake and discharge facilities in Lake Ontario in connection with their fossil-fuel steam electric generating Unit 6. The unit will occupy 10 acres of land, and discharge waste heat, air-borne emissions, liquid effluents, and sound energy. The 890 mw Unit will consume 9 million barrels of fuel oil annually. (189 pages) (ELR Order No. 00064) (NTIS Order No. EIS 73 0064–D)

Final, January 12
New York Harbor, N.Y. The statement refers to the proposed maintenance dredging of the harbor to its authorized dimensions. Spoil will be deposited in approved dumping ground of the Atlantic Ocean, with adverse effects upon marine biota. Comments made by: DOC, EPA, USN, DOI, DOT, State and regional agencies. (ELR Order No. 00060) (NTIS Order No. EIS 73 0060–F)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202—755–0940.

Final, January 2
Bethany Beach Sewage Treatment Facility, Delaware; County: Sussex. The statement refers to the proposed construction of a 24.5 m.g.d. capacity wastewater treatment plant to serve the Bethany Beach area. Treatment plant effluent will be discharged to the Atlantic Ocean. At issue is the extent to which completion of the plant will spur uncontrolled local development. (151 pages) (ELR Order No. 00002) (NTIS Order No. EIS 72 0002–F)

V38-17 JAN 26 73 XUM

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Rod Kreger, Acting Administrator, GSA-AD, Washington, D.C. 20405, 202—343-6077.

Draft, January 8

Social Security Payment Center, Illinois; County: Cook. The statement refers to the proposed construction of a 10 story (757,000 gross sq. ft.) building to house the Social Security Administration Payment Center of the Department of Health, Education and Welfare. The construction of the building may cause accelerated deterioration of contiguous neighborhoods. (81 pages) (ELR Order No. 00032) (NTIS Order No. EIS 73 0032-D)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202—343-3891.

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft, January 4

Lahontan National Fish Hatchery, Nevada; County: Douglas. The statement refers to the proposed construction and operation of additional facilities at the hatchery. Major additions include an administration-visitor building, 3 residences, a hatchery building, storage buildings, and waste treatment facilities. The purpose of the action is the propagation of Lahontan cutthroat trout, in order to restore the fisheries in Pyramid and Walker Lakes. Hatchery waste discharge will result in organic enrichment of Allerman Canal and pasture lands; long-term pumping of ground water may result in a temporary decline in the aquifer. (53 pages) (ELR Order No. 00017) (NTIS Order No. EIS 73 0017-D)

Final, January 8

Back Bay National Wildlife Refuge, Va. The statement refers to the proposed elimination of unauthorized motorized vehicles from the refuge. The action is intended to assure the preservation of 4.2 miles of natural beach. People who have become accustomed to using the beach for pleasure driving will be inconvenienced. (154 pages) Comments made by: USDA, EPA, DOD, DOI, State agencies of Virginia, and concerned citizens. (ELR Order No. 00036) (NTIS Order No. EIS 73 0036-F)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202—426-4355.

FEDERAL HIGHWAY ADMINISTRATION

Final, January 11

County State Aid Highway 18 (FAS-6318), Minnesota; County: Hennepin. The statement refers to the proposed reconstruction of 3.5 miles of CSAH 18 from north of the Crosstown Highway (CSAH 62) to south of Minnehaha Creek. The project constitutes the final link in the 15-mile freeway connecting Interstate 49 and Interstate 94. Seven individuals, 43 families and two businesses will be displaced. There will be an increase in noise levels, air pollution and the use of deicing chemicals. Nine Mile Creek Marsh will be traversed. (68 pages) (ELR Order No. 00045) (NTIS Order No. EIS 73 0045-F)

Final, January 4

Ogdensburg Study Area, New York; County: St. Lawrence. The statement refers to the recommended transportation plan for the city of Ogdensburg. The total length of the arterial streets included in the plan is 5.3 miles. Adverse effects include temporary water pollution caused by bridging the Oswegatchie River and displacement of one business and 18 families. (77 pages) Comments made by: USDA, EPA, COE, HEW, DOI, DOT, and one State agency. (ELR Order No. 00014) (NTIS Order No. EIS73 0014-F)

TIMOTHY ATKESON,
General Counsel.

FEDERAL MARITIME COMMISSION

ASSOCIATED LATIN AMERICAN FREIGHT CONFERENCES

Notice of Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before February 15, 1973. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreements filed by:

C. D. Marshall, Chairman, Associated Latin American Freight Conferences, 11 Broadway, New York, N.Y. 10004.

Similar modifications to four conference agreements, listed below, have been filed and assigned the following respective agreement numbers:

United States Atlantic and Gulf-Jamaica Conference, 4610-21.
United States Atlantic and Gulf-Santo Domingo Conference, 6080-21.
Leeward & Windward Islands and Guianas Conference, 7540-24.
United States Atlantic and Gulf-Haiti Conference, 8120-16.

Each modification provides that there shall be two ratemaking sections of the particular conference involved, namely, from Eastport, Maine to and including Key West, Fla. (the Atlantic section) and west of Key West, Fla. to and including Brownsville, Tex. (the Gulf section) and the membership of each section shall be composed of those member lines serving a port or ports within the respective ranges. At any conference meeting, any member line shall have the privilege of invoking the terms of the amendment with respect to any ratemaking and requiring that such matter be considered and decided by the section or sections concerned.

Specific voting requirements are set forth to permit voting on ratemaking matters by section, however, in the absence of the invocation of the amendment proposed hereunder, all ratemaking matters shall be considered and decided pursuant to customary conference procedures.

Dated: January 22, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

BOARD OF COMMISSIONERS OF PORT OF NEW ORLEANS AND PUBLIC GRAIN ELEVATOR OF NEW ORLEANS, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 5, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Cyrus C. Guidry, Port Counsel, Board of Commissioners of the Port of New Orleans, Post Office Box 60046, New Orleans, LA 70160.

Agreement No. T-590-6, between the Board of Commissioners of the Port of New Orleans (Port) and the Public Grain Elevator of New Orleans, Inc. (Elevator) modifies the basic agreement which provides for the lease of the Public Grain Elevator at New Orleans. The purpose of the modification is to exchange a 5,450 square foot portion of the current premises for a 8,777.54 square foot area.

Dated: January 22, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.73-1587 Filed 1-24-73;8:45 am]

CITY OF LONG BEACH (CITY) AND SEA-LAND SERVICE, INC. (SEA-LAND)

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before February 15, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreements filed by:

Leonard Putnam, The City Attorney of Long Beach, Suite 600, City Hall, Long Beach, Calif. 90802.

Agreement No. T-2401-1, between the city of Long Beach (City) and Sea-Land Service, Inc. (Sea-Land) modifies the basic agreement between the parties, which provides for the non-exclusive preferential assignment to Sea-Land of premises located at berths 227 to 230 inclusive, pier G, Port of Long Beach, for use as a marine terminal. The purpose of the modification is to divide the premises assigned under the basic agreement into two parcels (parcel I, 66.14 acres and parcel II, 22.67 acres) with Sea-Land taking possession of parcel I initially, and holding an option for the assignment of parcel II at a later date. Agreement No. T-2401-1 also amends the basic agreement by (1) extending the term from 20 to 25 years; (2) modifying the procedures for arbitration of compensation renegotiation; (3) deleting the requirement that the city relocate two container cranes to the premises (this is covered under FMC Agreement No. T-2401-B); (4) amending the force majeure provisions of the basic agreement; and (5) amending the circumstances under which FMC Agreement No. T-1870 (also between the City and Sea-Land) will terminate. As compensation for parcel I, the City is to receive a monthly rental of $62,812 plus 9.3 percent of the total construction cost of the improvements situated thereupon. Should Sea-Land exercise its option on parcel II, the City is to receive an additional monthly rental of $23,518 plus 9.3 percent of the total construction cost of improvements situated on parcel II.

Agreement No. T-2401-B-1, also between the City and Sea-Land, replaces the basic agreement which provides for the nonexclusive preferential assignment and use of two gantry-type container cranes to be situated at berths 227-230, inclusive. The agreement grants Sea-Land options for nonexclusive preferential assignments of two container cranes to be erected on the premises assigned under FMC Agreement No. T-2401. The term of this agreement is to run concurrently with that of T-2401. The subject amendment also provides that, in the event Sea-Land exercises its option for parcel II of the premises assigned under T-2401, it shall also exercise its option on one of the cranes as well as inform the City whether or not it desires to exercise its option on the second crane. Compensation to the City for the cranes will be 10.6 percent annually of the actual construction cost of each crane. Should Sea-Land exercise its options for either or both of the cranes, the City retains secondary assignment rights. The secondary assignee, in such an event, will pay Sea-Land such sums as may be agreed upon for operational costs incurred, subject to the City's approval in accordance with its Tariff No. 3. Sea-Land's use of the cranes will be governed by the provisions of section 9 (exclusive of item No. 910 thereof) of the above tariff.

Dated: January 18, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Richard A. Earle, Esq., Patton, Blow, Verrill, Brand & Boggs, 1200 17th Street NW., Washington, DC 20036.

Agreement No. T-2602, between the Indiana Port Commission (Port) and Tri-State Terminals, Inc. (Tri-State), provides for the 5-year lease (with renewal options) of a transit shed and open storage area at the Port of Indiana—Burns Waterway Harbor for use as a ship, barge, railroad, and truck terminal and warehouse. As compensation for the facilities, the Port is to receive rental based on the tonnage handled, subject to an escalating annual minimum. Tri-State is to also collect and pay to the Port all dockage and wharfage charges and harbor dues as set forth in the Port's tariff.

Dated: January 17, 1973.

FEDERAL RESERVE SYSTEM

SECURITY NATIONAL CORP.

Order Approving Acquisition of Central Leasing Corp.

Security National Corp., Sioux City, Iowa, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)), and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Central Leasing Corp., Sioux City, Iowa (Central). The proposed subsidiary engages in leasing major items of personal property and equipment on a "full pay-out" basis. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)). A bank holding company may acquire a company engaged in an activity determined by the Board to be closely related to banking provided that the proposed acquisition is warranted under the relevant public interest factors specified in section 4(c)(8) of the Act.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 23021). The time for filing comments and views has expired and none has been timely received.

Applicant, a one-bank holding company, controls Security National Bank of Sioux City, Sioux City, Iowa ("Bank"), the eighth largest bank in Iowa with deposits of $98.9 million, representing 1.4 percent of aggregate commercial bank deposits in Iowa. (All banking data are as of June 30, 1972, unless otherwise indicated.) Bank holds 29.8 percent of total deposits in the Sioux City banking market and is the largest, in terms of deposits, of the 11 Sioux City market banks.

Central, organized in 1961, has total assets of about $90,000 as of June 30, 1972, and its one office is located in Sioux City. Central engages in the business of leasing personal property and equipment, on a "full pay-out basis," throughout an area extending within a 25-mile radius of the city. Presently, no bank in the Sioux City area engages in similar leasing activities. There is no indication in the record that area banks plan to engage in leasing businesses, nor, absent approval of this proposal, that Applicant would enter de novo such leasing operations. On the basis of the facts of record, the elimination of existing or potential competition resulting from this proposal appears minimal, and the Board considers the competitive considerations as consistent with approval of the application.

It appears that consummation of this proposed transaction would not result in any undue concentration of resources, conflicts of interests, unsound banking practices, or any other adverse effects on the public interest. However, the convenience of the Sioux City area would be enhanced by the improved and expanded leasing operations resulting from the proposed affiliation. Combination of the two organizations may also result in efficiencies in operation since certain duplicate services would be eliminated.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective January 18, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

LIFE INSURANCE COMPANY OF NORTH AMERICA AND LIFE INSURANCE COMPANY OF NORTH AMERICA SEPARATE ACCOUNT A

Notice of Application to Modify Order

JANUARY 18, 1973.

Notice is hereby given that Life Insurance Company of North America (LINA), a stock life insurance company organized under the laws of the State of Pennsylvania, and Life Insurance Company of North America Separate Account A, 1600 Arch Street, Philadelphia, PA 19101 (Separate Account), a unit investment trust registered under the investment company Act of 1940 (Act) (hereinafter called Applicants), have applied pursuant to section 6(c) of the Act for an order modifying an order dated December 4, 1970 (Investment Company Act Release No. 6273) (1970 Order) granting Applicants exemptions from the provisions of sections 22(d) and

V 38 - 17 JAN 26 73 XUM

27(a)(4) of the Act and pursuant to sections 11(a) and 11(c) approving an offer of exchange. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

LINA established Separate Account on June 18, 1968, pursuant to the laws of Pennsylvania, as a facility through which it sets aside and invests assets attributable to variable annuity contracts issued by LINA to certain persons who qualify for tax deferred benefits under sections 401, 403(a) and 403(b) of the Internal Revenue Code of 1954, as amended (Code). Applicants also offer variable annuity contracts to persons who may not qualify for similar tax treatment. Under Pennsylvania law, the income, gains and losses of Separate Account are credited to or charged against the amounts allocated to it in accordance with the contracts, without regard to any other income, gains or losses of LINA or arising out of any other business LINA may conduct.

The 1970 Order stated that net purchase payments for group and individual variable annuity contracts would be allocated to Separate Account and at the election of the contract owner would be invested in the shares of one of the following three diversfied, open-end management investment companies each of which is registered under the Act: Decatur Income Fund, Inc., National Investors Corp., or Oppenheimer Fund, Inc. (collectively called "fund" or "funds"). In the event the shares of any fund become unavailable or if in the opinion of LINA the investment policies or other policies of such fund are no longer compatible with the objectives of the variable annuity contracts offered by Applicants, LINA may, with the prior approval by a majority of the votes cast by persons having a voting interest in the affected fund and the prior approval of the Securities and Exchange Commission, substitute such fund with another.

On April 21, 1971, LINA filed an amendment to its registration statement under the Securities Act of 1933 so that purchase payments for group and individual variable annuity contracts could also be invested, at the election of the contract owner, in shares of Trustees' Equity Fund (Equity), a diversified, open-end management investment company registered under the Act, in addition to the funds above enumerated. LINA intends to amend the Separate Account Registration Statement under the Securities Act of 1933 so that The Dreyfus Third Century Fund, Inc. (Dreyfus) may be offered to the public as an additional underlying investment medium under a single group variable annuity contract and four types of individual variable annuity contracts.

Variable Annuity contracts offered by LINA through Separate Account are designed to provide annuity benefits to annuitants for retirement purposes. Applicants state that the use of Dreyfus as an additional underlying investment medium will permit contract owners greater flexibility in selection of investment medium based upon their individual retirement needs. At present there are no contract owners or participants investing in Dreyfus. Present contract owners and participants in Separate Account will be informed of the addition of Dreyfus as an underlying investment medium by amendment to the current prospectus of Separate Account. Dreyfus will not solicit present contract holders and participants in Separate Account.

Applicants seek to have the 1970 Order modified so that the following exemptions will also be available with respect to the purchase of shares of Dreyfus and Equity by Separate Account.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current public offering price described in the prospectus.

With the exception of single premium immediate annuity contracts, purchasers of variable contracts issued by Applicants may allocate a part of their net purchase payments to LINA to provide for a fixed annuity. Such purchasers have the right, at the time of retirement, to have amounts accumulated by LINA for such fixed annuity applied to provide for variable payments. The Applicants state that the sales expense described in the Prospectus will already have been paid in connection with the purchase of the fixed annuity and it is not proposed to make any additional sales charge. An exemption is accordingly requested to permit the elimination of any requirement of a sales load with respect to the right to transfer amounts allocated to provide a fixed annuity to provide for variable annuity payments.

Group variable contracts issued by Applicants provide that if at the end of a contract year, amounts deducted by Applicants for expenses exceed the cost of such items, LINA at its discretion may apply an experience rating credit under such contract in the subsequent year. Such credit, if applied, will be in the form of a reduction of each gross payment under the applicable contract or an addition of annuity units or accumulation units as applicable. Any such adjustment and credit does not lend itself to a determination or specific allocation as between sales expense and administrative and other expense, nor is it possible to determine in advance the amount of such adjustments. Applicants request an exemption from the provisions of section 22(d) to permit such adjustments and credits without any deduction for sales and administrative expenses, since any applicable expenses would already have been made against the payments giving rise to such experience rating credit.

Applicants represent that, at the date of this application, no shares of Equity have been purchased by Separate Account at the discretion of a contract owner or participants in connection with the exercise of an option in a fixed annuity to change the allocation from fixed to variable payments at the maturity date and no shares of Equity have been purchased by Separate Account pursuant to an experience rating adjustment.

Section 27(a)(4), in pertinent part, prohibits the sale of any periodic payment plan certificate issued by a registered investment company if the first payment on such certificate is less than $20 or any subsequent payment is less than $10. Applicants state rule 27a–3 provides an exemption from section 27(a)(4) in order to permit payroll deductions of uniform amounts in connection with variable annuity contracts issued in connection with plans meeting the requirements of sections 401, 403 (a) and (b) of the Code. The group variable annuity contracts offered by Applicants are also sold in connection with retirement plans which do not qualify for tax deferred treatment under the Code. Accordingly, Applicants request exemption from section 27(a)(4) to the extent necessary to permit the first payment on behalf of a plan participant under a group variable contract issued in connection with a non-tax deferred plan to be in an amount not less than $10. Applicants state the exemption from section 27(a)(4) is consistent with the intent and purposes of such section and the exemptions recognized and granted in Rule 27a–3.

Applicants state that no shares of Equity have been purchased by Separate Account which represent an initial payment made on behalf of a plan participant under a group variable annuity contract in an amount of less than $20.

Section 11(a) of the Act provides that it shall be unlawful for any registered open-end company or any principal underwriter for such a company to make or cause to be made an offer to the holder of a security of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) provides that, irrespective of the basis of exchange, the provisions of subsection (a) shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants request an exemption from sections 11(a) and 11(c) to permit, under the group variable annuity contract, an exchange of one underlying fund for another at 5-year intervals during the accumulation period and immediately prior to retirement. Applicants represent that the right to substitute the shares of one underlying fund for another will permit the contract owner or participant to choose a fund having different investment objectives from those of the fund which was previously selected, such objectives being more suitable to the participant's retirement needs than the other.

Applicants represent that at the date of this application, no shares of other funds presently utilized as an underlying

investment medium for Separate Account have been redeemed at contract owner or participant direction and the proceeds therefrom transferred to purchase shares of Equity; nor have shares of Equity been redeemed and the proceeds therefrom transferred to purchase shares of the other funds. All shares of Equity purchased by Separate Account to date have been with proceeds from net purchase payments under a group or individual variable annuity contract, after proper delivery of prospectuses to the contract owner or participant of Separate Account and Equity. Separate Account presently owns no voting shares of Dreyfus.

Section 6(c) provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security, or transaction or any class or classes of persons, securities, or transactions from any provision or provisions of the Act and the Rules promulgated thereunder, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 13, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted or he may request he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time later than said date as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

BROKER-DEALER MODEL COMPLIANCE PROGRAM ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to § 10(a)(2) of the Federal Advisory Committee Act, Public Law 92–463, 86 Stat. 770, the Securities and Exchange Commission announces the following public advisory committee meeting.

The Commission's Advisory Committee on a Model Compliance Program for Broker-Dealers, established on October 24, 1972 (Securities Exchange Act Release No. 9835), will hold a public meeting at the office of Merrill Lynch, Pierce, Fenner & Smith, Inc., 31st floor, One Liberty Plaza, 165 Broadway, New York, NY, at 10 a.m., January 29, 1973.

This Advisory Committee was formed to assist the Commission in developing a model compliance program to serve as an industry guide for the broker-dealer community. Assisted by the committee's work the Commission plans to publish a guide to broker-dealer compliance under the securities acts in order to advise brokers-dealers of the standards to which they should adhere if investor confidence in the fairness of the market place is to be warranted and sustained. The committee's recommendations are not intended to result in the expansion of Commission rules governing broker-dealers but to inform broker-dealers as to the existing requirements and how they may comply with them.

The committee's meeting on January 29, 1973, will be for the purpose of reviewing drafts and proposals concerning the committee's proposed report to the Commission on these compliance guidelines for broker-dealers.

This meeting is open to the public. Any interested person may attend and appear before or file statements with the Advisory Committee—which statements, if in written form, may be filed before or after the meeting or, if oral, at the time and in the manner and extent permitted by the Advisory Committee.

[SEAL] RONALD F. HUNT,
Secretary.

JANUARY 17, 1973.

COLONIAL PENN GROUP, INC. ET AL.

Applications for Unlisted Trading Privileges

JANUARY 18, 1973.

In the matter of applications of the P.B.W. Stock Exchange, Inc., for unlisted trading privileges in certain securities.

The above-named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934, and rule 12f–1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

	File No.
Colonial Penn Group, Inc.	7–4332
Cubic Corp.	7–4333
Puritan Fashions Corp.	7–4334

Upon receipt of a request, on or before February 3, 1973, from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

RONALD F. HUNT,
Secretary.

TARIFF COMMISSION

[TEA–W–175]

BATES SHOE DIVISION, WOLVERINE WORLDWIDE, INC.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Webster, Mass., and North Grosvenor Dale, Conn., plants of the Bates Shoe Division of Wolverine Worldwide, Inc., Rockford, Mich., the U.S. Tariff Commission, on January 22, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for men and boys (of the types provided for in items 700.26, 700.27, 700.29, and 700.35 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to

V38-17 JAN 26 73 XUM

cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed by February 5, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: January 22, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.73-1567 Filed 1-24-73;8:45 am]

[337-L-56]

GOLF GLOVES

Notice of Complaint Received

The U.S. Tariff Commission hereby gives notice of the receipt on November 8, 1972, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by Anthony J. Antonious and Ajac Glove Corp., both of Ellicott City, Md., alleging unfair methods of competition and unfair acts in the importation and sale of golf gloves which are embraced within the claims of U.S. Patent No. 3,588,917 owned by the complainants. Questor Corp., Post Office Box 965, Toledo, Ohio 43694; Leonard Cecil, 5644 Bent Branch Road, Bethesda, MD 20016; and O. F. Mossberg & Sons, Inc., Post Office Box 497, North Haven, Conn. 06473 have been named as either importing or offering for sale the subject product.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the issues raised in the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation, and if so whether the Commission should recommend to the President the issuance of a temporary exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York office of the Tariff Commission located in Room 437 of the Customhouse.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than February 20, 1973. Extensions of time for submitting information will not be granted unless good and sufficient cause is shown thereon. Such information should be sent to the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, D.C. 20436. A signed original and nineteen (19) true copies of each document must be filed.

Issued: January 22, 1973.

By order of the Commission.

KENNETH R. MASON, *Secretary.*

[FR Doc.73-1537 Filed 1-24-73;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary of Labor Order 1-73]

ASSISTANT SECRETARY FOR OCCUPATIONAL SAFETY AND HEALTH

Redelegation of Authority and Responsibility

1. *Purpose.* This order redelegates authority for the performance of functions assigned to the Assistant Secretary for Occupational Safety and Health, in line with the reorganization of the Occupational Safety and Health Administration effective November 13, 1972.

2. *Directives affected.* Secretary's Order No. 31-71 October 20, 1971, is superseded by this Order.

3. *Background.* Pursuant to Public Law 91-596, Secretary's Order No. 12-71 (36 FR 8754) established an Occupational Safety and Health Administration and delegated certain authority and assigned responsibility to the Assistant Secretary for Occupational Safety and Health. The Order further provided for the redelegation of such authority and responsibility as necessary. A redelegation of this authority and responsibility was effected by Secretary's Order No. 31-71.

4. *Redelegation of Authority and Assignment of Responsibility—National Office*—a. The Deputy Assistant Secretary is hereby redelegated authority to act on all matters within the Assistant Secretary's delegation. He shall also be the Administrator, Occupational Safety and Health Administration (OSHA).

b. The Chief, Policy and Evaluation Staff shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for advising the Assistant Secretary and the Deputy Assistant Secretary/Administrator on matters of policy, research, legislation, and the use of outside suppliers of products and services; he provides leadership and coordination for a program of evaluating the effectiveness of current operations.

c. The Director, Office of Standards shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for:

(1) Developing recommendations to the Deputy Assistant Secretary/Administrator with regard to the promulgation, modification, or revocation of occupational safety and health standards under the provisions of sections 4(b)(2) and 6 (a), (b), and (c) of the Occupational Safety and Health Act (hereinafter referred to as the Act); and

(2) Developing and issuing regulations under sections 8, 9, and 16 of the Act.

d. The Director, Federal and State Operations shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for:

(1) Conducting a program to encourage State participation in safety and health programs including grants to the States under sections 18 and 23 of the Act; and

(2) Providing direction for the conduct of the compliance program for occupational safety and health to include inspection procedures, reporting, evaluation, and Federal agency programs.

e. The Director, Office of Training and Education shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for planning, developing, and directing a comprehensive national occupational safety and health training and education program.

f. The Director, Office of Management Services shall report to the Deputy Assistant Secretary/Administrator and shall have the overall responsibility for planning and development of program objectives, resource requirements, budget requests, and operational plans; he is also responsible for planning, implementing, and maintaining systems for financial management, operations review, and management services for the Administration to include management analysis, personnel, communications and administrative services functions.

g. The Director, Office of Management Data Systems shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for developing and administering systems to obtain, analyze, report and communicate information needed to facilitate the management of the Administration.

h. The Director, Office of Information Services shall report to the Deputy Assistant Secretary/Administrator and shall have the responsibility for promoting and encouraging voluntary compliance with occupational safety and health standards and regulations through information programs, publications, and reports.

5. *Redelegation of authority and assignment of responsibility—Regional Office.* The Regional Administrators are the principal operating managers below the Office of the Deputy Assistant Secretary/Administrator and shall report directly to him. Each is hereby redelegated authority and assigned responsibility for operating an effective occupational safety and health program in his region consistent with the directives and policies of the Secretary of Labor and the Assistant Secretary for Occupational Safety and Health.

6. *Authority to redelegate.* The Regional Administrators may redelegate the authority vested in them by this order.

7. *Effective date.* This order is effective January 3, 1973.

GEORGE C. GUENTHER, *Assistant Secretary of Labor.*

[FR Doc.73-1569 Filed 1-24-73;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice 163]

ASSIGNMENT OF HEARINGS

JANUARY 22, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

AB 5 Sub 63, George P. Baker, Richard C. Bond, Jervis A. Langdon, Jr., and Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Potts Run and Carnwarth, Clearfield County, Pa., now assigned February 6, 1973, at Phillipsburg, Pa., will be held on the 2d Floor, Borough Building.

MC-118803 Sub 7, Atlantic Truck Lines, Inc., now assigned February 5, 1973, at Washington, D.C., is postponed indefinitely.

AB 5 Sub 70, George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Uniontown and South Uniontown, Fayette County, Pa., now assigned February 12, 1973, will be held at the Courthouse, 2d Floor.

MC-C-7879, A-1 Corp.—Investigation and Revocation of Certificate of Registration, now being assigned hearing March 13, 1973 (1 day), at Boston, Mass., in a hearing room to be later designated.

MC-111383 Sub 33, Braswell Motor Freight Lines, Inc., now being assigned hearing March 19, 1973 (1 week), at Atlanta, Ga., in a hearing room to be later designated.

AB 5 Sub 48, Penndel Co. and George P. Baker, Richard C. Bond, Jervis Langdon, Jr., Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Walton Junction and Traverse City, Traverse County, Mich., now being assigned March 22, 1973 (2 days), at Traverse City, Mich., in a hearing room to be later designated.

MC-F-11682, U.S. Truck Co., Inc.—Purchase (portion)—Transportation Service, Inc., MC-F-11683, Wilson Freight Co.—Purchase (portion)—Transportation Service, Inc., now being assigned March 26, 1973 (1 week), at Detroit, Mich., in a hearing room to be later designated.

MC 136460, Murphy Rigging & Erecting, Inc., now assigned February 21, 1973, at St. Paul, Minnesota, is postponed indefinitely.

No. 35533, Petroleum Products, Williams Brothers Pipe Line Co., No. 35533 Sub 1, Petroleum Products to Illinois, Iowa, and Missouri, Williams Brothers Pipe Line Co., No. 35533 Sub 2, Petroleum Products, Williams Brothers Pipe Line Co., No. 35540, Petroleum Products, Louisiana and Texas to Midwest, and FSA No. 42327, Pipeline Rates-Petroleum Products from the Southwest, now assigned February 5, 1973, at Washington, D.C., postponed to March 5, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-123613 Sub 9, Claremont Motor Lines, Inc., now assigned January 22, 1973 (2 weeks) at Charlotte, N.C., is postponed to January 23, 1973 (2 weeks) at the Public Library, 310 North Tryon Street, Charlotte, N.C.

MC 121499 Sub 4, William Hayes Lines, Inc., now assigned February 12, 1973, at Nashville, Tenn., will be held in Conference Room 143, Floor C-1, Department of Labor, Cordell Hull Building.

MC-C-7333, Sam Fanelli et al. v. Greyhound Lines, Inc., now assigned January 30, 1973, at Chicago, Ill., is cancelled.

MC 128762 Sub 2, P. L. Lawton, Inc., Extension-Foodstuffs, now being assigned hearing February 27, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 123048 Sub 226, Diamond Transportation System, Inc., now being assigned hearing February 28, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-11671, Refiners Transport & Terminal Corp.—Purchase—Kendrick Cartage Co., now being assigned hearing March 5, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-F-11697, Gerson Transportation—Purchase (portion)—Watkins Motor Lines, Inc., and MC-C-7950, Thomas R. Rocap, Charles A. Biddinger, Jr., Motor Cargo Transport Corp., Gerson Transportation, a corporation, and Watkins Motor Lines, Inc., Investigation of Operations and Revocation of Certificates, now being assigned hearing March 5, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[Notice 198]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's General Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(3) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73833. By order entered January 16, 1973. Division 3, acting as an Appellate Division, approved the transfer to Iowa-Missouri Express, Inc., Shambaugh, of that portion of the operating rights set forth in Certificate No. MC-129384 (Sub-No. 1), issued March 4, 1971, to Bethany Express, Inc., Bethany, Mo., authorizing the transportation of general commodities, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Kansas City, Mo., and Clarinda, Iowa, serving the intermediate point of St. Joseph, Mo. (restricted against service between the Kansas City, Mo.-Kans. commercial zone as defined by the Commission, on the one hand, and, on the other, St. Joseph, Mo. commercial zone as defined by the Commission), from Kansas City, Mo., over Interstate Highway 29 to St. Joseph, Mo., thence over U.S. Highway 71 to Clarinda, Iowa, and return over the same route. Tom B. Kretsinger, 450 Professional Building, Kansas City, Mo. 64106, attorney for applicants.

No. MC-FC-73945. By order of January 11, 1973. Division 3, acting as an Appellate Division approved the transfer to J. H. Ware Trucking, Inc., Fulton, Mo., of the operating rights in Permits Nos. MC-134323 (Sub-No. 2), MC-134323 (Sub-No. 5), MC-134323 (Sub-No. 6) and MC-134323 (Sub-No. 9) issued May 21, 1971, November 12, 1971, December 9, 1971 and April 7, 1972 respectively to Jay Lines, Inc., Amarillo, Tex., authorizing the transportation of various commodities from specified points in Kansas, Pennsylvania, and Indiana to points in Arkansas, Arizona, California, Colorado, Connecticut, Delaware, Kansas, Louisiana, Maine, Maryland, Massachusetts, Missouri, Montana, New Hampshire, New Jersey, New Mexico, New York, Oklahoma, Oregon, Pennsylvania, Rhode Island, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, and the District of Columbia. Gailyn L. Larsen, 521 South 14th Street, Lincoln, NE 68501, attorney for applicants.

[NOTICE 6]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JANUARY 19, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed

V 38 - 17 JAN 26 73 XUM

by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 3252 (Sub-No. 84), filed November 29, 1972. Applicant: MERRILL TRANSPORT CO., a corporation, 1037 Forest Avenue, Portland, ME 04104. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Environmental control systems and protective systems, equipment and parts;* and (2) *equipment, material and supplies* (except in bulk) used in the construction and installation thereof, from points in Maine to points in the United States located on and east of a line beginning at New Orleans, La., and extending along U.S. Highway 61 to the United States-Canada international boundary line located at or near Grant Portage, Minn. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Maine, or Boston, Mass.

No. MC 10794 (Sub-No. 3), filed December 8, 1972. Applicant: PERROW MOTOR FREIGHT LINES, INCORPORATED, 1012 Young Street, Charleston, WV 25322. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Charleston, W. Va., on the one hand, and, on the other, points in West Virginia and those in Bland, Tazewell, Montgomery, and Giles Counties, Va.; Gallia, Lawrence, and Washington Counties, Ohio; and Pike, Greenup, Boyd, Lawrence, Martin, Carter, Rowan, Johnson, and Floyd Counties, Ky. NOTE: Applicant states that the requested authority can be tacked at Charleston, W. Va., with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Charleston, W. Va.

No. MC 19227 (Sub-No. 176), filed December 12, 1972. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20 Street, Miami, FL 33152. Applicant's representative: J. Fred Dewhurst (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum pipe and extrusions*, from El Campo, Tex., to points in Alabama, Arizona, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin. NOTE: Common control may be involved. Applicant states that it can tack in Florida under the provisions of the lead docket, MC 19227 Paragraph 2 to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states that it holds heavy hauling authority under MC 19227 and the following subs thereto: Sub 43 from Texas to Florida; Sub 75 from Texas to Kansas, Missouri, Nebraska, New Mexico, and Oklahoma; Sub 143 from Texas to Arizona; and under its lead docket MC 19227, Paragraph 4 to Alabama, Georgia, and South Carolina. In addition, applicant has authority from Arizona to points in California under MC 19227, Sub 125, and therefore, substantially duplicates the authority sought in this application to the extent that such commodities are under the heavy hauling authority but applicant does not seek duplicating authority. If a hearing is deemed necessary, applicant requests it be held at Houston or Dallas, Tex.

No. MC 28067 (Sub-No. 16), filed December 1, 1972. Applicant: WILLIAMS MOTOR TRANSFER, INC., Vine Street, Barre, VT 05641. Applicant's representative: John P. Monte, 61 Summer Street, Barre, VT 05641. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Stone* (except in dump and hopper type vehicles) and *stone finishing and setting equipment, materials and supplies* when moving with shipments of stone, from Cleveland, Ohio, to points in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, Vermont, New York, New Jersey, Maryland, Delaware, Virginia, Washington, D.C., Pennsylvania, and Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either (1) Cleveland, Ohio; (2) Boston, Mass.; or (3) Washington, D.C.

No. MC 31564 (Sub-No. 8), filed November 8, 1972. Applicant: FRANK CORSO, INC., 270 Woodin Street, Hamden, CT 06514. Applicant's representative: William J. Meuser, 81 Broad Street, Milford, CT 06460. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, (1) from Albany, N.Y., to (a) points in Union, Essex, Hudson, Bergen, Passaic, and Middlesex Counties, N.J., (b) points in Westchester, Suffolk, and Nassau Counties, N.Y., (c) New York, N.Y., (d) Springfield, Mass., and (e) points in Connecticut; and (2) from Baltimore, Md., to Torrington, Conn. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Hartford, Conn.

No. MC 48213 (Sub-No. 35), filed November 24, 1972. Applicant: C. E. LIZZA, INC., Post Office Box 447, Latrobe, PA 15601. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, PA 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry animal and poultry feeds and feed ingredients*, from Willow Island, W. Va., and Pearl River, N.Y., to points in Kansas, Iowa, Illinois, Georgia, Arkansas, Missouri, and Montana, under contract with American Cyanamid Co. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 61396 (Sub-No. 237), filed November 24, 1972. Applicant: HERMAN BROS., INC., 2501 North 11th Street, Post Office Box 189, Omaha, NE 68101. Applicant's representative: Dale G. Herman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid oxygen, liquid nitrogen, liquid argon, and compressed gases*, from Kansas City and Neosha, Mo., East Alton, Morris, Granite City, and Chicago, Ill., Ashland, Ky., Middletown and Warren, Ohio, and Mt. Vernon, Ind., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Omaha, Nebr.

No. MC 64808 (Sub-No. 13), filed November 29, 1972. Applicant: W. S. THOMAS TRANSFER, INC., 1854 Morgantown Avenue, Fairmont, WV 26554. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, PA 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in containers, *antifreeze and advertising materials*, from Oil City, Reno, and Rouseville, Pa., to points in Alabama, Florida, Georgia, Kentucky, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia. NOTE: Applicant states that the requested authority could be tacked at points in Marion County, W. Va. with its existing authority under MC 64808 so as to permit a through service to Ohio, however, it has no present intention of tacking. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 67200 (Sub-No. 38), filed December 13, 1972. Applicant: The FURNITURE TRANSPORT COMPANY, INC., Post Office Box 392, Furniture Row, Milford, CT 06460. Applicant's representative: Arthur J. Piken, 1 Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Baby carriages, strollers, play yards, and high chairs*, from Gardner, Mass., to points in New York, New Jersey, Pennsylvania, Delaware, Maryland, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 69116 (Sub-No. 151), filed December 8, 1972. Applicant: SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, IL 60606. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant sites and warehouse facilities of Fisher-Price Toys, Inc., located at or near Albion and Medina, N.Y., as off-route points in connection with applicant's authorized regular-route operations. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 83539 (Sub-No. 359), filed December 4, 1972. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production,, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, and (2) *machinery, equipment, materials, and supplies* used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except in connection with main pipe lines, between Seattle, Wash., on the one hand, and, on the other, points in Colorado, Illinois, Michigan, Missouri, New Jersey, New York, Pennsylvania, Utah, Wisconsin, and Wyoming. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 94350 (Sub-No. 324), filed September 13, 1972. Applicant: TRANSIT HOMES; INC., Post Office Box 1628, Haywood Road, Greenville, SC 29602. Applicant's representative: Mitchell King, Jr., (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles in initial shipments, from points in Rockingham County, N.C., to points east of the Mississippi River, including Louisiana and Minnesota.

No. MC 95876 (Sub-No. 131), filed November 29, 1972. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, MN 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, MN 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe, fittings, and accessories*, from Florence, NJ., to points in the United States (except Maine, Vermont, New Hampshire, Connecticut, Rhode Island, New York, Pennsylvania, Maryland, Delaware, Massachusetts, Alaska, and Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 95920 (Sub-No. 28), filed December 13, 1972. Applicant SANTRY TRUCKING COMPANY, a corporation, 11552 Southwest Pacific Highway, Portland, OR 97223. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, WA 98101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, malt beverage containers, cartons, bottles and can openers, advertising matter, and brewery products, materials and supplies, and machinery* moving incidentally to the movement of malt beverages from Olympia, Wash., to points in Texas, and *empty containers, rejected or spoiled malt beverages, hops in bales, rice, grain, infusorial earth, brewers malt, advertising matter, and other materials, ingredients or supplies and machinery and equipment* used in the manufacture of malt beverages from points in Texas to Olympia, Wash., under continuing contract with Olympia Brewing Co., Olympia, Wash. NOTE: Applicant also holds common carrier authority under MC 123265, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 97633 (Sub-No. 3), filed December 12, 1972. Applicant: L. A. CHITWOOD, Jr., Stark Industrial Park, Charleston, SC 29405. Applicant's representative: Archie B. Culbreth, Suite 246,

V 38 - 17 JAN 26 73 XUM

1252 West Peachtree St., Northwest, Atlanta, GA 30309. Authority sought to ing: *Telephone equipment and supplies*, operate as a *common carrier*, by motor vehicle, over irregular routes, transport- *including tools used in the construction and maintenance of telephone systems and communications*, between Charleston, S.C., and points in Beaufort, Berkeley, Charleston, Colleton, Dorchester, Hampton, and Jasper Counties, S.C. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 101075 (Sub-No. 113), filed November 22, 1972. Applicant: TRANSPORT, INC., Post Office Box 396, Moorhead, MN 56560. Applicant's representative: Ronald B. Pitsenbarger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, from points in Morton County, N. Dak., to points in Minnesota. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant authority. Applicant seeks no duplicating authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 101474 (Sub-No. 23), filed December 11, 1972. Applicant: RED TOP TRUCKING COMPANY, INC., 7020 Cline Avenue, Hammond, IN 46323. Applicant's representative: Paul F. Sullivan, 711 Washington Building, 15th and New York Avenue NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic conduit and parts*, from Chicago, Ill., to points in the United States east of Montana, Wyoming, Colorado, and New Mexico. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 105566 (Sub-No. 81), filed December 4, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Water treating and industrial process products* (except in bulk), from Chicago, Ill., Sugar Land, Tex., Casper, Wyo., Garyville, La., and Bowman, N. Dak., to Chicago, Ill., and points in the United States on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international boundary line between the United States and Canada, including all points in Louisiana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Washington, D.C.

No. MC 105566 (Sub-No. 82), filed December 4, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles*, from Columbus, Ohio, to points in California, Oregon, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 105566 (Sub-No. 83), filed December 4, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic articles and carbon and copying paper and related articles*, from Cincinnati, Ohio, to points in California, Oregon, and Washington; (2) *plastic laminates and absorbent base paper*, from Cincinnati, Ohio, to points in California; (3) *absorbent base paper*, from Middletown, Ohio, to points in California; (4) *paper and paper articles including paper bags and wrapping paper*, between Cincinnati, Ohio, and Orange, Tex., with the service at Orange, Tex., limited to shipments stopped in transit to complete loading, on the one hand, and, on the other, points in Texas, Colorado, California, Washington, Oregon, Idaho, Nevada, and Louisiana; and (5) *printed matter*, between Cincinnati, Ohio, and Florence, Ky., on the one hand, and, on the other, points in Washington, Oregon, Montana, Wyoming, Idaho, California, Nevada, Arizona, Utah, Colorado, New Mexico, Texas, Oklahoma, Arkansas, Louisiana, Mississippi, and Alabama. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio, or Washington, D.C.

No. MC 105566 (Sub-No. 84), filed December 4, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 105566 (Sub-No. 85), filed December 4, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter*, from Indianapolis, Ind. to points in Texas, New Mexico, Arizona, Utah, Wyoming, Montana, Idaho, Nevada, California, Oregon, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind. or Washington, D.C.

No. MC 105566 (Sub-No. 86), filed December 22, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum, aluminum articles and aluminum products*, from Shelbina, Mo., to points in Arizona, California, Idaho, Oregon, Utah, Nevada, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 105566 (Sub-No. 87), filed December 22, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric arc welders and parts, steel welding wire flux, welding compounds, and related items* required in application of electric arc welding, from Troy, Ohio, to points in California, Oregon, Washington, Arizona, Nevada, Utah, Colorado, Montana, New Mexico, and Idaho. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio, or Washington, D.C.

No. MC 105566 (Sub-No. 88), filed December 22, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Worthington, Ohio, to points in the United States on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international boundary line between the United States and Canada (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 106497 (Sub-No. 75), filed November 24, 1972. Applicant: PARKHILL TRUCK COMPANY, a corporation, Post Office Box 912 (Business Route I–44 East), Joplin, MO 64801. Applicant's representative: A. N. Jacobs, Post Office Box 113, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, and parts* used in the construction, assembly, servicing, and operation of boats, ships, and submarines, the transportation of which, because of size or weight require the use of special equipment; and (2) *machinery, equipment, parts, and supplies* which do not require the use of special equipment, when moving in connection with (1) above; between the plant sites of Litton Industries, Inc. at Pascagoula, Miss., on the one hand, and on the other, points in the United States (including Alaska, but excluding Hawaii). (3) *Heat exchangers and equalizers* for air, gas, and liquids; and (4) *Equipment, materials and supplies* for heating, cooling, conditioning, humidifying, and dehumidifying of air, gas, and liquids, between points in Harrison, Hancock, and Jackson Counties, Miss., on the one hand, and, on the other points in the United States (including Alaska, but excluding Hawaii). RESTRICTION: Above (1), (2), (3), and (4) is restricted to traffic originating at or destined to points indicated and restricted against the transportation of commodities in bulk. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlantic, Ga., or New Orleans, La.

No. MC 107715 (Sub-No. 5), filed December 11, 1972. Applicant: DUQAL, LTD., 3308 Bandini Boulevard, Los Angeles, CA 90023. Applicant's representative: Warren N. Grossman, 606 South Olive Street, Los Angeles, CA 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, from San Diego, Calif., to points in Arizona. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 107993 (Sub-No. 26), filed December 13, 1972. Applicant: J. J. WILLIS TRUCKING COMPANY, Post Office Box 20096, Dallas, TX 75220. Applicant's representative: J. G. Dail, Jr., 1111 E Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in cargo containers and/or cargo vans and empty cargo containers and empty cargo vans, between Galveston, Tex., on the one hand, and on the other, points in Arizona, Arkansas, California, Colorado, Kansas, Louisiana, Montana, Missouri, Nebraska, Nevada, New Mexico, Oklahoma, South Dakota, Texas, Utah, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 108703 (Sub-No. 28), filed November 27, 1972. Applicant: LEE & EASTES TANK LINES, INC., 2418 Airport Way South, Seattle, WA 98134. Applicant's representative: Jerrold L. Sharp (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tallow and feed or feed supplements, animal or poultry*, in bulk, in tank vehicles, between points in Washington, Oregon, and Idaho. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Seattle or Pasco, Wash.

No. MC 109689 (Sub-No. 241), filed November 27, 1972. Applicant: W. S. HATCH CO., a corporation, 643 South 800 West, Woods Cross, UT 84087. Applicant's representative: Mark K. Boyle, 345 South State Street, Salt Lake City, UT 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Diatomaceous earth*, in bulk from Quincy, Wash., to points in Sweetwater County, Wyo.; and (2) *benzol residual chlorinated* in bulk, from Henderson, Nev., to Irwindale, Calif. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or San Francisco, Calif.

No. MC 110098 (Sub-No. 131), filed November 6, 1972. Applicant: ZERO REFRIGERATED LINES, a Corporation, 1400 Ackerman Road, Post Office Box 20380, San Antonio, TX 78220. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106, and T. W. Cothern (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and potato products*, from Hart, Holland, and Lake Odessa, Mich., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Texas, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Wisconsin. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Chicago, Ill.

No. MC 110683 (Sub-No. 90), filed November 8, 1972. Applicant: SMITH'S TRANSFER CORPORATION, Post Office Box No. 1000, Staunton, VA 24401. Applicant's representative: Francis W. McInerny, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (with the usual exceptions), serving the plantsite and warehouse facilities of Chemetron Corp. at Monticello, Ind., as an off-route point in connection with applicant's regular-route authority between Indianapolis, Ind., and Morocco, Ind. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Indianapolis, Ind.

No. MC 111375 (Sub-No. 66), filed November 24, 1972. Applicant: PIRKLE REFRIGERATED FREIGHT LINES, INC., Post Office Box 3358, Madison, WI 53704. Applicant's representative: Daniel C. Sullivan, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, from points in California, Washington, Oregon, and Idaho to points in Minnesota and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111401 (Sub-No. 376), filed November 13, 1972. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Boulevard, Post Office Box 632, Enid, OK 73701. Applicant's representative: Alvin J. Meiklejohn, Jr., 420 Denver Club Building, Denver, CO 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals, laundry supplies and materials, products of chemical processes, paint, lacquer, varnish and solvents*, in bulk, in tank- or hopper-type, vehicles, from Kansas City.

V 38 - 17 JAN 26 73 XUM

Kans.-Mo., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Wisconsin, and Wyoming. NOTE: Applicant states that it intends to tack with presently held authority in its base certificate at Kansas City, Kans. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Topeka, Kans.

No. MC 111594 (Sub-No. 57), filed December 13, 1972. Applicant: C W TRANSPORT, INC., 610 High Street, Wisconsin Rapids, WI 54494. Applicant's representative: Axelrod, Goodman, Steiner & Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantsite and storage facilities of Fabricon Products, Division of Eagle-Picher Industries, at or near Grabill, Ind., on the one hand, and, on the other, points in Connecticut, Delaware, Georgia, Kentucky, Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, and West Virginia. NOTE: Applicant states that the requested authority can be tacked with its existing authority in Certificate No. MC 111594 but does not indicate the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 113025 (Sub-No. 5), filed December 11, 1972. Applicant: RALPH C. ISLAND, doing business as ISLAND FREIGHT, Box 147, Deadwood, SD 57732. Applicant's representative: A. Milton Evans, Box 1286, Rapid City, SD 57701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Flour—animal and mineral feeds* in bulk and/or in bags, from the plantsite of Hubbard Milling Co., located at or near Rapid City, S. Dak., to points and/or farmyard deliveries in Adams, Billings, Bowman, Golden Valley, Grant, Hettinger, Morton, Sioux, Slope, and Stark Counties, N. Dak., and points west of U.S. Highway 281 in Nebraska, under contract with Hubbard Milling Co., Rapid City, S. Dak. NOTE: If a hearing is deemed necessary, applicant requests it be held at Rapid City or Pierre, S. Dak.

No. MC 113267 (Sub-No. 291), filed December 12, 1972. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, IL 62232. Applicant's representative: Lawrence A. Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and facilities utilized by John Morrell & Co., Memphis, Tenn., to points in Florida, Georgia, Louisiana, North Carolina, Ohio, South Carolina, Virginia, West Virginia, Alabama, and Mississippi. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the applicant may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Memphis, Tenn.

No. MC 113267 (Sub-No. 292), filed December 7, 1972. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, IL 62232. Applicant's representative: Lawrence A. Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved food products*, from Crossville, Tenn. to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Texas, and Wisconsin. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked at Crossville, Tenn. but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga. or Nashville, Tenn.

No. MC 113495 (Sub-No. 54), filed December 27, 1972. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, Post Office Box 60628, Nashville, TN 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Mining machinery and equipment, and parts thereof*, and (2) *materials, supplies, machinery and equipment used in the installation and operation of mining facilities* (except commodities in bulk), between the plantsite of Long-Airdox Company at or near Wurno, Va., on the one hand, and, on the other, points in Alabama, Illinois, Indiana, Kentucky, Maryland, Ohio, Pennsylvania, Tennessee, Virginia, and West Virginia. NOTE: Applicant states that the requested authority could be tacked with its existing authority under MC 113495 and subs 10, 30, and 34, but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states duplicating authority held in MC 113495 in part, however, no duplicating authority sought by this application. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Roanoke, Va., or Nashville, Tenn.

No. MC 113535 (Sub-No. 27), filed December 1, 1972. Applicant: A & W TRUCKING CO., INC., Route 5, Box 900, Mosinee, WI 54455. Applicant's representative: Carl E. Munson, 469 Fischer Building, Dubuque, IA 52001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, (a) from Ryan and Whittemore, Iowa, to points in Wisconsin, and (b) between Rochester, Minn., and points in Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 113678 (Sub-No. 474), filed December 13, 1972. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City, CO 80022. Applicant's representative: Richard A. Peterson, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts*, as defined by the Commission in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk) (1) from the plantsites, warehouse, and storage facilities utilized by Metro Meat Packing, Inc., located at or near St. Paul, Minn., Long Prairie, and Furgus Falls, Minn., to points in the United States (except Alaska and Hawaii); and (2) from points in South Dakota, North Dakota, Nebraska, Kansas, Missouri, Iowa, Illinois, and Wisconsin to the plantsites, warehouses and storage facilities named as origins in (1) above. Restriction: Restricted to traffic originating at the above-named origins and destined to the above-named destinations. NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.; Omaha, Nebr.; or Denver, Colo.

No. MC 114019 (Sub-No. 243), filed December 8, 1972. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, IL 60629. Applicant's representative: James C. Hardman, 127 North Dearborn Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor

vehicle, over irregular routes, transporting: *Container ends and iron and steel articles*, from Portage, Ind., to points in Illinois, Iowa, Missouri, Wisconsin, Minnesota, and Nebraska. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114211 (Sub-No. 186) (Correction), filed November 24, 1972, published in the FEDERAL REGISTER, issue of December 28, 1972, and republished as corrected this issue. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, Post Office Box 420, Waterloo, IA 50704. Applicant's representative: Daniel Sullivan, 327 South La Salle, Chicago, IL 60604. NOTE: The purpose of this republication is to show the correct docket number as shown above in lieu of No. MC 115092 Sub 21 which was in error. The rest of the notice remains as previously published.

No. MC 114552 (Sub-No. 71), filed December 4, 1972. Applicant: SENN TRUCKING COMPANY, a corporation, Post Office Box 333, Newberry, SC 29108. Applicant's representative: William P. Jackson, Jr., 919 18th Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from Norfolk, Va., and Thomasville, Ga., to points in the United States, including Alaska (but excluding Hawaii). NOTE: Applicant states that the requested authority can be tacked with its existing authority under MC 114552 and subs, at origin points. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114562 (Sub-No. 9), filed November 29, 1972. Applicant: CROMARTIE TRANSPORT CO., a Corporation, Post Office Box 123, 8 East South Carolina Avenue, Wilmington, NC 28401. Applicant's representative: Vaughan S. Winborne, 1108 Capital Club Building, Raleigh, NC 27601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Molasses and molasses mixtures with feed supplements*, in bulk, in tank vehicles, from Wilmington, N.C., to points in Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Wilmington or Raleigh, N.C.

No. MC 114725 (Sub-No. 53), filed November 24, 1972. Applicant: WYNNE TRANSPORT SERVICE, INC., 2606 North 11th Street, Omaha, NE 68110. Applicant's representative: J. Max Harding, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irrgeular routes, transporting: *Fertilizer, fertilizer materials, and ammonium nitrate*, in bulk or bags, from the plantsite and warehouse facilities of Farmland Industries, Inc., at or near Hastings, Nebr., to points in Colorado, Kansas, South Dakota, and Wyoming: NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 115212 (Sub-No. 23), filed January 2, 1973. Applicant: H. M. H. MOTOR SERVICE, a Corporation, Route 130, Cranbury, N.J. 08512. Applicant's representative: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 115669 (Sub-No. 136), filed November 29, 1972. Applicant: HOWARD N. DAHLSTEN, doing business as DAHLSTEN TRUCK LINE, Post Office Box 95, Clay Center, NE 68933. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer, fertilizer materials, and ammonium nitrate*, from warehouse site of Farmland Industries, Inc., located at or near Hastings, Nebr., to points in Colorado, Kansas, South Dakota, and Wyoming, and (2) *bentonite clay and foundry molding sand treating compounds*, in bulk, from the plantsite of the American Colloid Co., at or near Belle Fourche, S. Dak., and Upton, Wyo., to points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, Oklahoma, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 115793 (Sub-No. 15), filed November 22, 1972. Applicant: CALDWELL FREIGHT LINES, INC., U.S. Highway 321 South, Post Office Box 672, Lenoir, NC 28645. Applicant's representative: Charles Ephraim and Theodore Polydoroff, Suite 600, 1250 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and furniture parts*, from the plantsites and warehouses of Bernhardt Furniture Co., at or near Statesville and Troutman, N.C., to points in Tennessee and Missouri, and *damaged, rejected, and returned new furniture and furniture parts* on return from the above-named destinations to the above-named origin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 115840 (Sub-No. 84), filed December 11, 1972. Applicant: COLONIAL FAST FREIGHT LINES, INC., 1215 Bankhead Highway, Post Office Box 10327, Birmingham, AL 35202. Applicant's representative: C. E. Wesley (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and Steel and iron and steel articles*, from Gulfport, Miss., to points in those States touched by, and east of the Mississippi River, Arkansas, Louisiana, Oklahoma, and Texas and (2) *ferrous scrap*, from points in Mississippi to Gulfport, Miss. Restriction: Restricted to traffic originating at, or destined to, Gulfport, Miss., and/or having a prior or subsequent movement by rail or water. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Gulfport, Miss., Jackson, Miss., or Mobile, Ala.

No. MC 116014 (Sub-No. 61) (Amendment), filed November 13, 1972, published in the FEDERAL REGISTER issue of December 14, 1972, and republished in part, as amended, this issue. Applicant: OLIVER TRUCKING COMPANY, INC., Post Office Box 53, Winchester, KY 40391. Applicant's representative: John M. Nader, Post Office Box E, Bowling Green, KY 42101. NOTE: The sole purpose of this partial republication is to add Detroit, Mich., as a destination point. The rest of the application remains as previously published.

No. MC 116073 (Sub-No. 248) (Amendment), filed November 10, 1972, published in the FEDERAL REGISTER issue of December 21, 1972, and republished, as amended, this issue. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., Post Office Box 919, Moorhead, MN 56560. Applicant's representative: David L. Wanner, 1819 Fourth Avenue South, Moorhead, MN 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Jackson County, W. Va., to points in the United States (excluding Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to amend the commodity description to add "in initial movement" which was inadvertently omitted in previous publication. If a hearing is deemed necessary, applicant requests it be held at Charleston, W. Va.

No. MC 117644 (Sub-No. 31), filed December 4, 1972. Applicant: D & T TRUCKING CO., INC., Post Office Box 2611, New Brighton, MN 55112. Applicant's representative: William J. Boyd, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, from Chicago, Ill., and points

V 38-17 JAN 26 73 XUM

in Minnesota and Wisconsin to points in Pennsylvania, New York, New Jersey, Rhode Island, Vermont, Maine, Massachusetts, Connecticut, New Hampshire, Virginia, West Virginia, Delaware, Maryland and the District of Columbia, under contract with Land O'Lakes, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 117765 (Sub-No. 152), filed November 17, 1972. Applicant: HAHN TRUCK LINE, INC., 5315 Northwest Fifth Street, Post Office Box 75267, Oklahoma City, OK 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products* in containers, (1) from the plantsite of Skelly Oil Co., located at or near Eldorado, Kans., to points in Illinois, Iowa, Minnesota, Nebraska, South Dakota, and Wisconsin; and (2) from the plantsite of Southwest Grease & Oil Co., located at or near Wichita, Kans.; Champlin Petroleum Co., located at or near Enid, Okla.; and Cato Oil & Grease Co., located at or near Oklahoma City, Okla., to points in Michigan. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 117765 (Sub-No. 153), filed November 22, 1972. Applicant: HAHN TRUCK LINE, INC., 5315 Northwest Fifth Street, Post Office Box 75267, Oklahoma City, OK 73107. Applicant's representative: R. E. Hagan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nonfrozen foodstuffs*, in containers (except meats and meat products, meat byproducts, dairy products, and articles distributed by meat packinghouses), from facilities of Baker Canning Co., located at or near Theresa, Wis.; Fall River Canning Co., located at or near Fall River, Wis.; and Oconomowoc Canning Co., located at or near Poynette and Waunakee, Wis., to New Mexico and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 117851 (Sub-No. 14), filed November 29, 1972. Applicant: JOHN R. CHEESEMAN, 501 North First Street, Fort Recovery, OH 45846. Applicant's representative: Earl N. Merwin, 85 East Gay Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bags*, from Valdosta, Ga., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New York, Ohio, Pennsylvania, and Wisconsin, under contract with Dowling Bag Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 118431 (Sub-No. 6), filed December 12, 1972. Applicant: DENVER SOUTHWEST EXPRESS, INC., 605 South 14th Street, Lincoln, NE 68501. Applicant's representative: Mr. David R. Parker, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from points in Mississippi, Louisiana, and Texas, to points in Wisconsin, Minnesota, North Dakota, South Dakota, Iowa, Nebraska, and Kansas, under contract with Pacific Gamble Robinson Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn. or Chicago, Ill.

No. MC 118468 (Sub-No. 33) (Amendment), filed September 27, 1972, published in the FEDERAL REGISTER, issue of October 27, 1972, and republished as amended this issue. Applicant: UMTHUN TRUCKING CO., a corporation, 910 South Jackson, Eagle Grove, IA 50523. Applicant's representative: J. Max Harding, 605 South 14th Street, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum and gypsum products, adhesives, building materials and materials, supplies and equipment*, used in the manufacture, sale, distribution and installation of such commodities, between points in Cook County, Ill., and Lake County, Ind., on the one hand, and, on the other, points in Montana, Wyoming, Colorado, North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, and the Upper Peninsula of Michigan, restricted to traffic originating and terminating at the plantsite and warehouse facilities utilized by United States Gypsum Co., its divisions and affiliates, under contract with United States Gypsum Co. NOTE: Applicant holds common carrier authority under MC 124813 and subs thereunder, therefore dual operations may be involved. The purpose of this republication is to show that applicant now seeks contract carrier authority in lieu of common carrier authority. Applicant has been assigned the new docket series as shown above, in lieu of No. MC 124813 (Sub-No. 99). If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 118520 (Sub-No. 8), filed November 27, 1972. Applicant: ALASKA TRUCK TRANSPORT, INC., Post Office Box 1994, Anchorage, AK 99510. Applicant's representative: Ditus & Lazarus, 1016 West Sixth Avenue, Suite 300, Anchorage, AK 99501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, between points in Cascade County, Mont., restricted to the transportation of traffic having a prior or subsequent movement to or from points in Alaska, and further restricted to the performance of pickup and delivery service in connection with packing, crating, loading and containerization or unpacking, uncrating, unloading or decontainerization of such traffic. NOTE: Applicant states that the requested authority can be tacked at Great Falls, Mont., with its general commodity authority in No. MC 118520 (Sub-No. 3) to serve points in Alaska. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 118831 (Sub-No. 92), filed December 6, 1972. Applicant: CENTRAL TRANSPORT, INCORPORATED, Box 5044, High Point, NC 27262. Applicant's representative: E. Stephen Heisley, 666 11th Street NW., Washington, DC. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *liquid natural latex*, in bulk, from Baltimore, Md., to points in Kentucky; and (2) *trisodium phosphate*, dry, in bulk, from North Charleston and Charleston Heights, S.C., to Carteret, N.J. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 119302 (Sub-No. 18), filed October 10, 1972. Applicant: MILLER TRANSFER AND RIGGING CO., a corporation, Post Office Box 6077, Akron, OH 44312. Applicant's representative: A. David Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel, in coils*, from Sharon and Farrell, Pa., to Birmingham, Ala.; (2) *slit steel, in coils*, from Birmingham, Ala., to Amory, Miss.; and (3) *fabricated steel pipe*, from Amory, Miss., to Geneva, Ohio, and the operations in (1), (2), and (3) above performed under a continuing contract or contracts with the True Temper Corp. of Cleveland, Ohio. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.
